On April 10, 1974, notice was published in the Federal Register (39 FR 13014), that an application had been filed with the National Marine Fisheries Service by Gerald L. Kooyman, Scripps Institution of Oceanography, La Jolla, California 92037 to take six (6) California sea lions (*Zalophus californianus*) six (6) Pacific harbor seals (*Phoca vitulina richardii*) for scientific research.

Notice is hereby given that, on June 4, 1974, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a Permit for six (6) California sea lions and six (6) ice-breeding harbor seals (*Phoca vitulina largha*) to Gerald L. Kooyman, subject to certain conditions set forth therein. The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and in the offices of the Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99801 and the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry and Street, Terminal Island, California 90731.

Jack W. Gehringer,
Acting, Director,
National Marine Fisheries Service.

June 4, 1974

MARINE MAMMALS

Issuance of Permit

On December 10, 1973, notice was published in the Federal Register (38 FR 34005), that an application has been filed with the National Marine Fisheries Service by Dr. H. L. Stone, Marine Biomedical Institute, University of Texas Medical Branch, Galveston, Texas 77500, for a permit to take twenty (20) marine mammals consisting of California sea lions (*Zalophus californianus*) and/or Pacific harbor seals (*Phoca vitulina richardii*) for scientific research.

Notice is hereby given that, on June 3, 1974, and as authorized by the provisions of the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407), the National Marine Fisheries Service issued a Permit for twelve such marine mammals to Dr. H. L. Stone, subject to certain conditions set forth therein. The Permit is available for review by interested persons in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, and in the offices of the Regional Director, National Marine Fisheries Service, Southwest Region, 300 South Ferry Street, Terminal Island, California 90731, Regional Director, National Marine Fisheries Service, Southeast Region, Duval Building, 9450 Gandy Boulevard, St. Petersburg, Florida 33702, and the Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska 99801.

Jack W. Gehringer,
Acting, Director,
National Marine Fisheries Service.

[FR Doc.74–13150 Filed 6–7–74;8:45 am]

MARINE MAMMALS

Receipt of Application for Scientific Research

Notice is hereby given that the following applicant has applied in due form to take marine mammals for the purpose of scientific research, as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361–1407) and the Regulations Governing the Taking and Importing of Marine Mammals.

Marine Mammal Division, Northwest Fisheries Center, National Marine Fisheries Service, Seattle, Washington, 98115, to conduct research on killer whales (*Orcinus orca*) over a five-year period, involving tagging or marking up to twenty-five (25) killer whales, and collecting and/or importing specimen materials from up to twenty (20) dead killer whales.

The principal objectives of this research are to gather information on the abundance, movements, and behavior of killer whales in the inside waters of Puget Sound and British Columbia. The proposed research will involve the following activities;

1. Aerial surveys of killer whales in the waters of the State of Washington and British Columbia to determine the seasonal distribution, numbers and makeup of pods of killer whales;

2. Compilation of a killer whale sighting log book, to provide additional information on seasonal abundance and distribution;

3. Analysis of data collected from oceanaria on growth rates, food consumption, parasites, disease and behavior of killer whales;

4. Examination and collection of biological data from up to 20 killer whales found dead on the beach. Specimen materials to be collected include teeth and other hard parts for age determination, stomach contents for determination of prey species, reproductive organs for determination of the history of pregnancy, and other organs for studies of diseases and parasites;

5. Investigation of various techniques for applying permanent, easily identified marks and tags. These techniques include cryogenic freeze branding, tatooing, laser marking, and radio-tagging. The preliminary investigations will be conducted with killer whales held in oceanaria;

6. Marking and/or radio-tagging up to 25 killer whales, which are taken and released in the course of collecting operations under the provisions of a valid public display permit.

The principal investigators in this project will be Dale W. Rice, Wildlife Biologist (Research), Allen A. Wolman, Fisheries Biologist (Research) and Mark C. Keyes, D.V.M., all representatives of the Marine Mammal Division of the Northwest Fisheries Center. Cooperating organizations and institutions include: the Washington State Game Department; the College of Fisheries, University of Washington; the Fisheries Research Board of Canada Biological Laboratory at Nanaimo, British Columbia, Canada; the Naval Undersea Research and Development Center, San Diego, California; and the Endoparasite Vector Pioneering Research Laboratory, Washington State University.

Killer whales are among the preferred marine mammals for use in public display. The population exploited for this purpose may be discrete or a part of a much larger North Pacific population. Additional information on the migration, distribution and trend in abundance of this stock, such as will be developed through the proposed research, will be beneficial in conducting a conservation program, and in determining whether killer whales can continue to be taken from the population without an adverse effect on the stock.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, telephone 202–343–7780 and the Office of the Regional Director, National Marine Fisheries Service, Northwest Region, 1700 Westlake Avenue North, Seattle, Washington 98109, telephone 206–442–7575. Concurrent with the publication of this notice in the Federal Register the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

V 39 112 JUN 10 74 XUM

Interested parties may submit written data or views on this application, on or before July 10, 1974, to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

Dated: May 31, 1974.

Jack W. Gehringe,
Acting Director,
National Marine Fisheries Service.

[FR Doc.74-13148 Filed 6-7-74;8:45 am]

MARINE MAMMALS

Receipt of Application for Scientific Research

Notice is hereby given that the following applicant has applied in due form to take marine mammals for the purpose of scientific research, as authorized by the Marine Mammal Protection Act of 1972 (16 U.S.C. 1361-1407) and the regulations governing the taking and importing of marine mammals.

Marine Mammal Division, Northwest Fisheries Center, National Marine Fisheries Service, Seattle, Washington, 98112, to take and/or import specimen materials from up to forty (40) bowhead whales (*Balaena mysticetus*), ten (10) gray whales (*Eschrichtius robustus*), and fifty (50) belukha whales (*Delphinapterus leucas*); and to conduct an aerial survey of Alaskan bowhead whale populations.

The specimen materials to be taken will be collected from dead animals found beached, floating at sea, or killed by an Indian, Aleut or Eskimo for subsistence purposes under the exemption allowed Indians, Aleuts, and Eskimos in the Act. The following biological material and data will be collected: Organ weights; samples of stomach contents; tissue samples of testes, ovaries, tympanic bullae and ear plugs; internal and external parasites; baleen plates; body measurements; and photographs of external features such as color patterns. In addition to collection of specimen materials, data will be recorded regarding whale sightings, the number of animals killed and recovered, and the number of animals struck but subsequently lost. An aerial survey will be conducted during September, 1974, in conjunction with a similar survey by Canada of bowhead whales in Canadian waters and one planned by the Bureau of Sport Fisheries and Wildlife for walruses, to appraise the feasibility of using aircraft as a technique for censusing bowhead whales.

The principal investigators during this project will be Mr. Clifford Fiscus, Wildlife Biologist (Research), and Mr. Willman M. Marquette, Fishery Biologist (Research), both of the Marine Mammal Division, Northwest Fisheries Center. Also cooperating in the project are the Naval Arctic Research Laboratory, Barrow, Alaska, and the Alaska Department of Fish and Game.

The proposed research is directed toward a determination of the effect of Alaskan native harvest on the populations of whales, primarily the bowhead whale. Principal elements of the research are direct observations, photography and collection of specimen materials from whales taken in the Eskimo fishery. Data gathered in the course of this project will be analyzed to determine population trends, age structure of the various populations of these species, reproductive rates and growth parameters. These data will provide the basis for more effective conservation and management of these whales, and will assist in increasing the efficiency of the native harvest and reducing the number of animals struck but lost.

While it is recognized that two of the requested species of whales, the gray whale and the bowhead whale, are considered to be endangered consideration of this proposed project under the provisions of the Marine Mammal Protection Act will in no way affect subsequent consideration under the provisions of the Endangered Species Act of 1973.

Documents submitted in connection with this application are available in the Office of the Director, National Marine Fisheries Service, Washington, D.C. 20235, telephone 202-343-7780, and the Office of the Regional Director, National Marine Fisheries Service, Alaska Region, P.O. Box 1668, Juneau, Alaska, 99801, telephone 907-586-7221.

Concurrent with the publication of this notice in the Federal Register the Secretary of Commerce is sending copies of the application to the Marine Mammal Commission and the Committee of Scientific Advisors.

Interested parties may submit written data or views on this application on or before July 10, 1974, to the Director, National Marine Fisheries Service, Department of Commerce, Washington, D.C. 20235.

Dated: May 31, 1974.

Jack W. Gehringer,
Acting Director,
National Marine Fisheries Service.

NATIONAL ADVISORY COUNCIL ON SERVICES AND FACILITIES FOR THE DEVELOPMENTALLY DISABLED

Change in Location of Meeting

This notice amends the announcement of the meeting of the National Advisory Council on Services and Facilities for the Developmentally Disabled published in the Federal Register on June 4, 1974 (39 FR 19800).

The meeting June 10 and 11 of the National Advisory Council will take place at the Quality Inn Capitol Hill, 415 New Jersey Avenue Northwest, Washington, D.C. 20001 instead of the previously announced.

Francis X. Lynch,
Executive Secretary.

June 4, 1974.

National Highway Traffic Safety Administration

[Docket No. EX73-7; Notice 3]

ALBANY MOTOR CARRIAGE CO.

Further Petition for Temporary Exemption

The Albany Motor Carriage Company Ltd. of Christchurch, Hampshire, England, has applied for a temporary exemption for its Vintage Car Type A passenger car from 49 CFR 571.212, Motor Vehicle Safety Standard No. 212, Windshield mounting, on grounds of substantial economic hardship.

The company has previously petitioned for (38 FR 26223) and been granted (39 FR 3709) a temporary exemption from nine Federal motor vehicle safety standards, and interested persons are referred to these notices for a discussion of Albany and its problems. Albany has now asked for a temporary exemption from the windshield mounting standards on a hardship basis as it states that "The cost of a Barrier Test to prove windscreen retention would total approximately 10,000 dollars, being the value of one car written off, Motor Institute Research Association charges, preparation of the vehicles for the test, transport, and occupation of personnel." In accordance with the recent amendments to 49 CFR Part 555 (39 FR 5489) the company has submitted income statements for 1972 and 1973, and its views why granting of the exemption would be in the public interest and consistent with the objectives of 15 U.S.C. 1381 et seq., the National Traffic and Motor Vehicle Safety Act of 1966.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Albany described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. If the petition is granted, notice will be published in the Federal Register pursuant to the authority indicated below.

Comment closing date: July 11, 1974.

Proposed effective date: Date of issuance of exemption.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410), delegation of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on June 5, 1974.

Robert L. Carter,
Associate Administrator,
Motor Vehicle Programs.

SHIP STRUCTURE COMMITTEE

Notice of Open Meeting

This is to give notice pursuant to Pub. L. 92-463, section 10(a), approved October 6, 1972, that the Ship Structure Committee will conduct an open meeting on Tuesday, June 18, 1974, Department of Transportation Headquarters, 400 Seventh Street SW., Washington, D.C., beginning at 9:30 a.m.

This meeting is being held to discuss the research program of the Ship Structure Committee. This committee's objective is to conduct an aggressive research program which will, in the light of changing technology in marine transportation, improve the design, materials, and construction of the hull structure of ships by an extension of knowledge in these fields, for the ultimate purpose of increasing the safe operation of ships.

Public attendance at the meeting will be limited to space available. Interested persons may file statements with the committee or request more information by writing the U.S. Coast Guard (G-MMT/82), 400 Seventh Street SW., Washington, D.C. 20590.

Dated: June 7, 1974.

D. H. Clifton,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

ATOMIC ENERGY COMMISSION

[Docket No. 50-331]

IOWA ELECTRIC LIGHT AND POWER CO., ET AL.

Issuance of Facility License Amendment

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has issued Amendment No. 3 to Facility Operating License No. DPR-49 issued to Iowa Electric Light and Power Company, Central Iowa Power Cooperative and Corn Belt Power Cooperative, which revised Technical Specifications for operation of the Duane Arnold Energy Center, located near Palo in Linn County, Iowa. The amendment is effective as of its date of issuance.

The amendment permits a temporary time ,extension for reactor operation with the High Pressure Core Injection Subsystem of the Emergency Core Coolant System inoperable.

The application for the amendment complies with the standards and requirements of the Act and the Commission's rules and regulations and the Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment, dated May 28, 1974, (2) Amendment No. 3 to License No. DPR-49, and (3) the Commission's related Safety Evaluation, dated May 28, 1974. All of these are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Reference Service, Cedar Rapids Public Library, 426 Third Avenue, S.E., Cedar Rapids, Iowa 52401.

A copy of items (2) and (3) may be obtained upon request addressed to the United States Atomic Energy Commission, Washington, D.C., 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 28th day of May, 1974.

For the Atomic Energy Commission.

Walter R. Butler,
Chief, Light Water Reactors Projects Branch 1-2, Directorate of Licensing.

REGULATORY GUIDES

Notice of Issuance and Availability

The Atomic Energy Commission has issued a new guide in its Regulatory Guide series. This series has been developed to describe and make available to the public methods acceptable to the AEC Regulatory staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

The new guide is in Division 1, "Power Reactor Guides." Regulatory Guide 1.70.5, "Additional Information—Water Level (Flood) Design for Nuclear Power Plants," identifies information related to water level (flood) design that has often been missing from safety analysis reports.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in any published guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of the issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 1 Regulatory Guides currently being developed include the following:

Tornado Design Classification.
Availability of Electric Power Sources.
Requirements for Instrumentation to Assess Nuclear Power Plant Conditions During and Following an Accident for Water-Cooled Reactors.
Shared Emergency and Shutdown Power Systems at Multi-Unit Sites.
Isolation of Low Pressure Systems Connected to the Reactor Coolant Pressure Boundary.

V39—112 JUN 10 74 XUM

Requirements for Collection, Storage, and Maintenance of Nuclear Power Plant Quality Assurance Records.
Requirements for Assessing Ability of Material Underneath Nuclear Power Plant Foundations to Withstand Safe Shutdown Earthquake.
Fire Protection Criteria for Nuclear Power Plants.
Protective Coatings for Light Water Nuclear Reactor Containment Facilities.
Inservice Surveillance of Grouted Prestressing Tendons.
Seismic Input Motion to Uncoupled Structural Model.
Primary Reactor Containment (Concrete) Design and Analysis.
Quality Assurance Requirements for Installation, Inspection, and Testing of Mechanical Equipment and Systems.
Quality Assurance Requirements for Installation, Inspection and Testing of Structural Concrete and Structural Steel.
Fracture Toughness Requirements for Vessels Under Overstress Conditions.
Material Limitations for Component Supports.
Protection Against Postulated Events and Accidents Outside of Containment.
Requirements for Auditing of Quality Assurance Programs for Nuclear Power Plants.
Assumptions Used for Evaluating the Potential Radiological Consequences of a Gas Holdup Tank Failure in a Boiling Water Reactor.
Quality Assurance Requirements for Procurement of Equipment, Materials, and Services.
Quality Assurance Requirements for Lifting Equipment.
Maintenance and Testing of Batteries.
Qualification of Class I Electrical Equipment.
Type Tests for Class IE Cables, Connections, and Field Splices for Nuclear Power Plants.
Seismic Qualification of Class I Electric Equipment.
Fracture Toughness Requirements for Materials for Class 2 and 3 Components.
Maintenance of Water Purity in PWR Secondary Systems.
Main Steam Line Sealing System Design Guidelines for Boiling Water Reactors.
Criteria for Heat-up and Cool-down Procedures.
Effects of Residual Elements on Predicted Radiation Damage.
Inservice Inspection and Testing of Steam Generators Tubing.
Component Design Criteria for Elevated Temperature Reactors.
Preoperational Testing of Emergency Core Cooling Systems for Pressurized Water Reactors.
Fuel Oil Supplies for Standby Diesel-Generators.
Assumptions Used for Evaluating the Habitability of a Nuclear Power Plant Control Room During a Postulated Toxic Chemical Release.
Assumptions Used for Evaluating the Potential Radiological Consequences of a Liquid Radioactive Waste System Accident.
Code Case Acceptability for ASME Section III Materials.
Sumps for Emergency Core Cooling and Containment Spray Systems.
Surveillance and Examination and Testing of Irradiated Fuel Rods.
Elevated Temperature Inservice Surveillance Tests for HTGR Plants.
Design Load Combinations for Component Supports.
Termination of Nuclear Reactor Operating Licenses.
Preoperational Testing of Instrument Air Systems.
Requirements for Containment Isolation.
Probable Maximum Storm Surge Flooding on Lakes and Sea Shores.
Requirements for Concrete Reactor Vessels and Containments (ASME Section III Division 2).
Instrument Span and Trip Setting.
Failed Fuel Detection System for Nuclear Power Plants.
Code Case Acceptability—ASME Section III Design and Fabrication.
Code Case Acceptability—ASME Section III Nonmetallic Materials.
Design, Qualification Test and Installation Requirements for Class 2 and 3 Safety-Related Pumps.
Seismic Response Combination of Modes and Spatial Components.
Analysis of Seismic Recorded Data.
Protection of Nuclear Power Plant Control Room Operators Against an Onsite Chlorine Release.
Self-Operated and Power Operated Safety-Related Valves Functional Specification.
Nuclear Power Plant Environmental Characteristics for Designated Sites.
Evaluation of Explosions Postulated to Occur on Transportation Routes Near Nuclear Power Plant Sites.

(5 U.S.C. 522(a))

TENNESSEE VALLEY AUTHORITY

Notice of Availability of Final Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that the Final Environmental Statement prepared by the Commission's Directorate of Licensing related to the proposed issuance of construction permits for the Bellefonte Nuclear Plant, Units 1 and 2, to be constructed by Tennessee Valley Authority in Jackson County, Alabama is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and in the Scottsboro Public Library, 1002 South Broad Street, Scottsboro, Alabama 35768. The Final Environmental Statement is also being made available at the Alabama Development Office, State Office Building, Montgomery, Alabama 36104, and Top of Alabama Regional Council of Governments, P.O. Box 308, City Hall, 6th Floor, Huntsville, Alabama 35801.

The notice of availability of the Draft Environmental Statement for the Bellefonte Nuclear Plant, Units 1 and 2, and requests for comments from interested persons was published in the Federal Register on February 1, 1974 (39 FR 4127). The comments received from Federal, State, local and interested members of the public have been included in an appendix to the Final Environmental Statement.

Single copies of the Final Environmental Statement may be obtained by writing the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this third day of June 1974.

For the Atomic Energy Commission.

Wm. H. Regan, Jr.,
Chief, Environmental Projects Branch #4, Directorate of Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 25881]

AMERICAN AIRLINES, INC. AND HUGHES AIR CORP. d/b/a HUGHES AIRWEST

Route Exchange Agreement; Notice of Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a public hearing in this proceeding is assigned to be held on June 25, 1974, at 10:00 a.m. (local time), in Room 503, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before the undersigned.

The purpose of this hearing is to provide an opportunity for all parties and interested persons to present written testimony and to cross examine sponsoring witnesses with respect to a final Environmental Impact Statement prepared and circulated by the Bureau of Operating Rights on May 24, 1974, in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, § 399.110 of the Board's Policy Statements (14 CFR 399.110), and Part 1500 of the Rules and Regulations of the Council on Environmental Quality (40 CFR Part 1500).

Dated at Washington, D.C., June 4, 1974.

[SEAL] Alexander N. Argerakis,
Administrative Law Judge.

[FR Doc.74-13253 Filed 6-7-74;8:45 am]

[Docket No. 22859; Order 74-6-19]

TRANS WORLD AIRLINES, INC.

Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 4th day of June, 1974.

By tariff revisions variously posted and issued and marked to become effective June 13, 1974, Trans World Airlines, Inc. (TWA) proposes to increase its domestic air freight rates as follows:

1. Bulk minimum charges per shipment, generally $1.00, with a maximum of $15.00;

2. General commodity rates, typically as follows:

	Westbound	Eastbound
	Percent	*Percent*
Less than 1,000 miles	12	12
1,000 miles and over	5-8	10-15

3. Container general commodity rates and charges, except daylight rates, generally, as follows:[1]

	Westbound	Eastbound
	Percent	*Percent*
Less than 1,000 miles	12	12
1,000 to 1,800 miles	8	12
Over 1,800 miles	5	10

4. Specific commodity bulk and container rates by 10 percent, with no increases on a few commodities in selected markets and lower deck containers in all markets.

In support of its proposal, TWA asserts, inter alia, that the proposed increases are necessary to recover accelerating fuel expenses and as a relief from continued freighter operating losses; the increase is expected to produce approximately $6.5 million of additional freight revenue annually; that had the increases been in effect during all of 1974, they would have reduced the 1974 expected all-cargo operating loss from a forecast $15.8 million to $12.6 million; that improved results will be short by $16.7 million of achieving a 12 percent return on investment; that, in accordance with recent Board decisions, TWA is presenting costs by length of haul predicated upon its own freighter costs; and that, since TWA's cost experience is at variance with the costs developed by the Bureau of Economics and submitted in Docket 22859, the Board should not adopt the Bureau's costing methodology as a standard for ratemaking while it is still under litigation.

The proposed rates and charges come within the scope of the Domestic Air Freight Rate Investigation, Docket 22859, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposal or to permit it to become effective pending investigation.

The TWA filing is one of a series of rate increases filed by domestic carriers in recent weeks. As indicated, the proposal is based upon TWA's costs of service by length of haul reflecting its all-cargo operations. Without prejudging the issues under investigation in Docket 22859, the Board believes that the most reasonable costs available to it at this time for the purpose of evaluating the rates proposed by the various carriers are industry-average costs plus a full return on investment, based upon both all-cargo and combination aircraft. These costs reflect, in particular, the sharp increases in fuel costs recently experienced by the carriers. Based upon these standards, certain of the proposed rates exceed costs, as summarized below:

1. Eastbound general commodity bulk rates at the 100-pound weight-break in markets 2,300 miles and over;

2. Eastbound general commodity bulk rates at the 1,000-pound weight-break in markets over 2,600 miles;

3. Eastbound general commodity bulk rates at the 2,000-pound weight-break in markets between 1,301 and 1,550 miles, and over 2,200 miles;

4. Eastbound general commodity bulk rates at the 3,000-pound weight-break in markets over 2,600 miles;

5. Eastbound specific commodity bulk rates on selected commodities from Los Angeles and San Francisco to eastern destinations;

6. Westbound and eastbound Type D container rates in markets 700 miles and over;

7. Numerous other containers generally in westbound markets over 1,400 miles in length;

8. Westbound general commodity bulk rates, all weights, over 1,151 miles; and

9. All increases in connection with premium ratings on human remains.

In view of the foregoing and upon consideration of all other relevant factors, the Board finds that the proposal, to the extent it applies to such rates, and as indicated in detail in Appendix A, should be suspended. The remaining portions of the proposal appear sufficiently related to costs that the Board will permit them to become effective.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That:

1. Pending hearing and decision by the Board, the increased rates, charges, and provisions described in Appendix A[2] hereto are suspended and their use deferred to and including September 10, 1974, unless otherwise ordered by the Board and that no change be made therein during the period of suspension except by order or special permission of the Board; and

2. Copies of this order shall be filed with the tariffs and served upon Trans World Airlines, Inc.

By the Civil Aeronautics Board:

[SEAL] Edwin Z. Holland,
Secretary.

COMMITTEE FOR PURCHASE OF PRODUCTS AND SERVICES OF THE BLIND AND OTHER SEVERELY HANDICAPPED

PROCUREMENT LIST 1974

Notice of Proposed Deletion

Notice is hereby given pursuant to section 2(a)(2) of Pub. L. 92-28; 85 Stat. 79, of the proposed deletion of the following commodities from Procurement List 1974, November 29, 1973 (38 FR 33038).

Commodities

class 6530

Drape, Surgical
6530-715-9310
6530-715-9340

Comments and views regarding these proposed deletions may be filed with the Committee not later than 30 days after the date of this Federal Register. Communications should be addressed to the Executive Director, Committee for Purchase of Products and Services of the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

By the Committee.

C. W. Fletcher,
Executive Director.

[FR Doc.74-13157 Filed 6-7-74;8:45 am]

PROCUREMENT LIST 1974

Notice of Addition

Notice of proposed addition to Procurement List 1974, November 29, 1973 (38 FR 33038) was published in the Federal Register on March 11, 1974 (39 FR 9492).

Pursuant to the above notice the following commodities are added to Procurement List 1974.

Commodity

class 7520

Stand, Calendar Pad (IB):	*Price each*
7520-139-4286, red	$0.303
7520-139-4335, yellow	.300

By the Committee.

C. W. Fletcher,
Executive Director.

[FR Doc.74-13159 Filed 6-7-74;8:45 am]

---

[1] Type D container increases are generally significantly less.

[2] Appendix A is filed as part of the original document.

V 39—112—JUN 10 74 XUM

PROCUREMENT LIST 1974

Notice of Proposed Additions

Notice is hereby given pursuant to section 2(a)(2) of Pub. L. 92–28; 85 Stat. 79, of the proposed addition of the following commodity and service to Procurement List 1974, November 29, 1973 (38 FR 33038).

COMMODITY

CLASS 8465

Suspenders, Individual Equipment
Belt, M–1972
8465–001–6471

INDUSTRIAL CLASS 7699

Typewriter Rental
U.S. Customs
6 World Trade Center
New York, New York

Comments and views regarding these proposed additions may be filed with the Committee not later than 30 days after the date of this FEDERAL REGISTER. Communications should be addressed to the Executive Director, Committee for Purchase of Products and Services of the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

ENVIRONMENTAL PROTECTION AGENCY

[OPP–32000/64]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 979), and its procedures for implementation. This policy provides that EPA will, upon receipt of every application, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–37, East Tower, 401 M Street, SW, Washington, D.C. 20460.

On or before August 9, 1974, any person who (a) is or has been an applicant, (b) desires to assert a claim for compensation under section 3(c)(1)(D) against another applicant proposing to use supportive data previously submitted and approved, and (c) wishes to preserve his opportunity for determination of reasonable compensation by the Administrator must notify the Administrator and the applicant named in the FEDERAL REGISTER of his claim by certified mail. Every such claimant must include, at a minimum, the information listed in this interim policy published on November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy in regard to usage of existing supportive data for registration will be processed in accordance with existing procedures. Applications submitted under 2(c) will be held until August 9, 1974 before commencing processing. If claims are not received, the application will be processed in normal procedure. However, if claims are received on or before August 9, 1974, the applicants against whom the particular claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after August 9, 1974.

APPLICATIONS RECEIVED

EPA File Symbol 10336–O. Aquaphase Laboratories, Inc., 1425 E. Michigan Street, Adrian, Michigan 49221. *S–TEC–9A.* Active Ingredients: Disodium cyanodithioimidocarbonate 12.7 percent; Ethylenediamine 4.8 percent; Potassium N-methyldithiocarbamate 17.5 percent. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 10336–RN. Aquaphase Laboratories, Inc., 1425 E. Michigan Street, Adrian, Michigan 49221. *S–TEC–9.* Active Ingredients: Disodium cyanodithioimidocarbonate 3.18 percent; Ethylenediamine 1.20 percent; Potassium N-methyldithiocarbamate 4.37 percent. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 2204–RL. Diamond Shamrock Chemical Company, Nopco Chemical Division, 350 Mt. Kemble Avenue, Morristown, New Jersey 07960. *Nopcocide 170 For Industrial Use Only.* Active Ingredients: 3,3,4,4-Tetrachlorotetrahydrothiophene 1,1-dioxide 16.6 percent; Other Chlorinated Thiophene Dioxides 1.4 percent. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 9931–RU. Hanco Manufacturing Co., Inc., P.O. Box 4476, Memphis, Tennessee 38104. *Hanco 960 Hanophene Disinfectant - Cleaner - Sanitizer - Fungicide-Deodorant.* Active Ingredients: Isopropyl Alcohol 12.00 percent; Soap 5.00 percent; sodiumo-phenylphenate 3.00 percent; sodium 4-chloro-2-cyclopentylphenate 3.00 percent; tetrasodium ethylene diamine tetraacetate 1.00 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 407–GTE. Imperial Inc., P.O. Box 423, Shenandoah, Iowa 51601. *1.50 percent Pramitol Imperial Vegetation Killer.* Active Ingredients: 2,4-bis (isopropylamino)-6-methoxy-s-triazine 1.5 percent; Petroleum distillate 94.0 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 3776–LE. Mercury Chemical Company, Inc., 2443 North Clybourn Avenue, Chicago, Illinois 60614. *Compleet Vegetation Killer.* Active Ingredients: 2,4-bis (isopropylamino) 6-methoxy-s-triazine 1.5 percent; Petroleum distillate 94.0 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 10465–3. Mineral Research and Development Corp., P.O. Box 911, Charlotte, North Carolina 28201. *Copper-Count-N Liquid Fungicide Spray.* Active Ingredients: Copper, metallic (from Copper Ammonium Carbonate 8 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 2224–LN. Mobil Chemical Company, Industrial Chemicals Division, P.O. Box 26683, Richmond, Virginia 23261. *Modown Herbicide Wettable Powder.* Active Ingredients: Bifenox—Methyl 5-(2′,4′-dichlorophenoxy)-2-nitrobenzoate 80 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 2224–LR. Mobil Chemical Company, Industrial Chemicals Division, P.O. Box 26683, Richmond, Virginia 23261. *Modown Herbicide Emulsifiable Concentrate.* Active Ingredients: Bifenox—Methyl 5-2′,4′ - dichlorophenoxy)-2-nitrobenzoate 21 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4389–AG, Pacific Chemical, Div. Pace National Corp., 500 7th Avenue S., Kirkland, Washington 98033. *Sof-Stat D Powdered Fabric Softener with Bactericide.* Active Ingredients: Alkyl (C14 95 percent, C12 3 percent, C16 2 percent) dimethyl benzyl ammonium chloride dihydrate 5.0 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4389–AU. Pacific Chemical, Div. Pace National Corp., 500 7th Avenue S., Kirkland, Washington 98033. *Pace SP–124 Fungicide.* Active Ingredients: 6-acetoxy-2,4-dimethyl-m-dioxane 92 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5576–EI. Regal Supply & Chemical, P.O. Box 1955, 1705 Texas Avenue, El Paso, Texas 79950. *Dus-Trol For Beautiful Floors.* Active Ingredients: N-Alkyl (50 percent C14, 40 percent C12, 10 percent C16) dimethyl benzyl ammonium chloride 0.48 percent; isopropanol 3.24 percent; Sodium dodecyl benzene sulfonate 0.46 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5576–ET. Regal Supply & Chemical, P.O. Box 1955, 1705 Texas Avenue, El Paso, Texas 79950. *FPD Odorless Disinfectant Cleaner.* Active Ingredients: Alkyl (C14 50 percent, C12 40 percent, C16 10 percent) dimethyl benzyl ammonium chloride 10.00 percent; Ethanol 2.50 percent. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 87–RN. Pennsylvania Engineering Co., 1107–21 North Howard Street, Philadelphia, Pennsylvania 19123. *Ethylene Oxide.* Active Ingredients: Ethylene Oxide 100 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 538–RRA. O. M. Scott & Sons Company, Marysville, Ohio 43040. *Lawn Saver Lawn Disease Preventer Plus Fertilizer.* Active Ingredients: Pentachloronitrobenzene 9.95 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 538–RRL. O. M. Scott & Sons Company. *ProTurf poa annua control V.* Active Ingredients: 3,5-dichloro-N-(1,1-dimethyl-2-propynyl) benzamide 0.90 percent. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 538–RRT. O. M. Scott & Sons Company. *Super II Halts Crabgrass preventer plus lawn fertilizer.* Active Ingredients: S-(O,O-Diisopropyl phosphorodithioate) ester of N-(2-Mercaptoethyl) benzenesulfonamide 5.75 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4000–AR. Southern Chemical Products Company, P.O. Box 205, Macon, Georgia 31202. *Clean Kill Season Long Non Selective Weed Killer.* Active Ingredients: Petroleum Oil 94.94 percent; 2,4-Dicholorophenoxyacetic acid, isooctyl ester 1.09 percent; Bromacil (5-bromo-3-sec-butyl-6-methyluracil) 0.98 percent; Pentachlorophenol 0.80 percent; Other chlorophenols 0.09 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 476–ERLA. Stauffer Chemical Company, 1200 South 47th Street, Richmond, California 94804. *Sutan+6.7E Emulsifiable Liquid Selective Herbicide.* Active Ingredients: S–Ethyl Diisobutylthiocarbamate 85.1 percent. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 876–EEA. Velsicol Chemical Corp., 341 E. Ohio Street, Chicago, Illinois 60611. *Vegatrol O–6T Herbicide For Brush Control.* Active Ingredients: 2-Ethylhexyl Ester of 2,4,5-Trichlorophenoxyacetic Acid 88.8 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–EEE. Velsicol Chemical Corp. *Vegatrol A–4D Herbicide.* Active Ingredients: Dimethylamine salt of 2,4-dichlorophenoxyacetic acid 49.5 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–EEG. Velsicol Chemical Corp. *Vegatrol OA–3T Herbicide For Brush Control.* Active Ingredients: N,N-Dimethyloleyl Amine Salt of 2,4,5-Trichlorophenoxyacetic Acid 57.5 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–EEI. Velsicol Chemical Corp. *Vegatrol LV–4T Herbicide For Brush Control.* Active Ingredients: 2-Ethylhexyl ester of 2,4,5-trichlorophenoxyacetic acid 05.3 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–EEL. Velsicol Chemical Corp. *Vegatrol OA–3D Herbicide.* Active Ingredients: N,N-Dimethyl Oleyl-Linoleyl Amine Salt of 2,4-Dichlorophenoxyacetic Acid 61.5 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–EEN. Velsicol Chemical Corp. *Vegatrol BE–4T Herbicide For Brush Control.* Active Ingredients: Butoxyethanol Ester of 2,4,5-Trichlorophenoxyacetic Acid 62.5 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–EEO. Velsicol Chemical Corp. *Vegatrol LV–6T Herbicide For Brush Control.* Active Ingredients: 2-Ethylhexyl Ester of 2,4,5-Trichlorophenoxyacetic Acid 87.0 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–EER. Velsicol Chemical Corp. *Vegatrol 6D Herbicide.* Active Ingredients: Dimethylamine Salt of 2,4-Dichlorophenoxyacetic Acid 69.1 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–EET. Velsicol Chemical Corp. *Vegatrol LV–4TP Herbicide.* Active Ingredients: 2-Ethylhexyl Ester of Silvex 2-(2,4,5-Trichlorophenoxy) Propionic Acid 65.2 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876-EEU. Velsicol Chemical Corp. *Vegatrol OA–1.5D–1.5T Herbicide For Brush Control.* Active Ingredients: N,N-Dimethyloleyl-linoleyl Amine Salt of 2,4-Dichlorophenoxyacetic Acid 30.5 percent; N,N-Dimethyloleyl-linoleyl Amine Salt of 2,4,5-Trichlorophenoxyacetic Acid 30.0 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876-EGE. Velsicol Chemical Corp. *Vegatrol LV–6D Herbicide.* Active Ingredients: 2-Ethylhexyl Ester of 2,4-Dichlorophenoxyacetic Acid 94.2 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876-EGN. Velsicol Chemical Corp. *Vegatrol O–4T Herbicide For Brush Control.* Active Ingredients: 2-Ethylhexyl Ester of 2,4,5-Trichlorophenoxyacetic Acid 65.6 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876-EGR. Velsicol Chemical Corp. *Vegatrol A–4T Herbicide For Brush Control.* Active Ingredients: Triethylamine Salt of 2,4,5-Trichlorophenoxyacetic Acid 57.0 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876-ERA. Velsicol Chemical Corp. *Vegatrol LV–2D–2T Herbicide For Brush Control.* Active Ingredients: 2-Ethylhexyl Ester of 2,4-Dichlorophenoxyaceic Acid 34.7 percent; 2-Ethylhexyl Ester of 2,4,5-Trichlorophenoxyacetic Acid 33.1 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876-ERI. Velsicol Chemical Corp. *Vegatrol LV–4D Herbicide.* Active Ingredients: 2-Ethylhexyl ester of 2,4-dichlorophenoxyacetic acid 69.9 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876-ERO. Velsicol Chemical Corp. *Vegatrol BE-2D-2T Herbicide For Brush Control.* Active Ingredients: Butoxyethyl Ester of 2,4,5-Trichlorophenoxyacetic Acid 31.2 percent; Butoxyethyl Ester of 2,4-Dichlorophenoxyacetic Acid 32.6 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–ERT. Velsicol Chemical Corp. *Vegatrol BE–4D Herbicide.* Active Ingredients: Butoxyethyl Ester of 2,4-Dichlorophenoxyacetic Acid 65.7 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 876–ERU. Velsicol Chemical Corp. *Vegatrol A–2D–2T Herbicide For Brush Control.* Active Ingredients: Dimethylamine Salt of 2,4-Dichlorophenoxyacetic Acid 24.7 percent; Triethylamine Salt of 2,4,5-Trichlorophenoxyacetic Acid 28.6 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 8405–1. Webco Chemical Corp., P.O. Box 368, Webster, Massachusetts 01570. *FS–101 33 percent Bactericide.* Active Ingredients: Sodium dichloro-s-triazinetrione dihydrate 63 percent. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 9639–RR. Willard Products, 70 Chemical Way, Redwood City, California 94065. *Algaecide Concentrate.* Active Ingredients: n-Alkyl (60 percent C14, 30 percent C16, 5 percent C12, 5 percent C18) dimethyl benzyl ammonium chlorides 20 percent; n-Alkyl (50 percent C12, 30 percent C14, 17 percent C16, 3 percent C18) dimethyl ethylbenzyl ammonium chlorides 20 percent. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 9639–RU. Willard Products, 70 Chemical Way, Redwood City, California 94065. *Penta-Treat "300" Wood Preservative and Termite Control.* Active Ingredients: Pentachlorophenol 5 percent. Method of Support: Application proceeds under 2(c) of interim policy.

REPUBLISHED ITEMS

The following items represent a correction and/or change in the list of Applications Received previously published in the FEDERAL REGISTER of May 14, 1974 (39 FR 17253).

EPA File Symbol 9461–IL. Celanese Coating Company, P.O. Box 99038, Jeffersontown, Kentucky. 40299. *Devran 216 Permanent Red Anti-Fouling Paint.* Correction: Originally published as *Devran 216 Permanent Red Anti-Fouling Paint.*

EPA File Symbol 100–LUN. Agricultural Division, Ciba-Geigy Corporation, P.O. Box 11422, Greensboro, North Carolina 27409. *Ciba-Geigy Technical Terbutryn.* Active Ingredients: Terbutryn: 2-*tert*-butylamino-4-ethylamino - 6 - methylthio-s-triazine 94 percent. Correction: Originally published as Active Ingredients: Terbutryn: 2-*tert*-butylamino - 4 - ethylamino-6-methylthio-5-triazine 96 percent.

EPA Reg. No. 464–347. The Dow Chemical Company, P.O. Box 1706, 9008 Building, Midland, Michigan 48640. *Dow Esteron 6E Herbicide.* Method of Support: Application proceeds under 2(c) rather than 8(c) of interim policy.

Dated: June 1, 1974.

EXPORT-IMPORT BANK OF THE UNITED STATES

ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the Federal Advisory Committee Act, 5 U.S.C. App I, (the Act) notice is hereby given that a meeting of the Advisory Committee of the Export-Import Bank of the United States will take place in Washington, D.C., on June 24, 1974.

The purpose of the meeting is to review the programs and recent activities of the Export-Import Bank of the United States.

In accordance with section 10(d) of the Act, the meeting will not be open to public participation because information and documents falling within the purview of 5 U.S.C. 522(b) (the exception to the Freedom of Information Act) will be review and discussed.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. Joseph H. Regan, 811 Vermont Avenue, NW., Washington, D.C. 20571.

Dated: June 5, 1974.

JOSEPH H. REGAN,
Advisory Committee,
Management Officer.

FEDERAL COMMUNICATIONS COMMISSION

[Report 703]

DOMESTIC PUBLIC RADIO SERVICES

Applications Accepted for Filing

JUNE 3, 1974.

In re matter of common carrier services information.[1]

Pursuant to §§ 1227(b)(3) and 21.30(b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the carlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPLICATIONS ACCEPTED FOR FILING[2]

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

21453–C2–R–74, New York Telephone Co. (KC5161). Renewal of Developmental Radio Station License for term: 7/6/74 through 7/6/75.

21454–C2–AL–(4)–74, Associated Telephone Answering Services, Francis R. Real d.b.a. (KKI452—Albuquerque, N. Mex.) (KQZ 775—Albuquerque, N. Mex.) (KKX716—Tierra Amarilla-Chama-Archuleta Mesa, N. Mex.) (KUO581—Santa Fe, N. Mex.). Consent to assignment of license from Francis R. Real d.b.a. Associated Telephone Answering Services, assignor to Associated Telephone Answering Services System, Inc., assignee.

21455–C2–P–74, Radio Paging of Aspen, Inc. (new). C.P. for a new one-way station to operate on 152.24 MHz to be located at Aspen Valley Hospital, No. 1 Hospital Rd., Aspen, Colo.

21457–C2–P–74, E & J Mobile Radio Servative (FAH663). C.P. to change antenna system and replace transmitter operating 5.25 miles north of U.S. Highway No. 59, Holloway, Minn.

21457–C2–P–74, E & J Mobile Radio Service, Elden Jr. Heinz d.b.a. (KFJ8873. C.P. for additional facilities operating on 454.275 MHz and 454.250 MHz at location No. 2: 3301 Bone Rd., 7 miles southwest of Jamestown, Ohio.

21458–C2–P–(3)–74, Tel-Air Communications, Inc. (KSW214). C.P. for additional facilities operating on 152.18 MHz at location No. 1: 1 mile east of Sparta, N.J.: also add location No. 2: 1.85 miles northeast of Hamburg, N.J.; and add location No. 3: 4.3 miles northeast of Dover, N.J. Location Nos. 2 and 3 operating on 152.06 MHz and 152.18 MHz.

21459–C2–TC–74, Autofone, Inc. (KUO573). Consent to transfer of control from Tracey E. Stuckey, transferor, to Kenneth Cox, transferee. Dublin, Ga.

21460–C2–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 2-way station to operate on 454.175 MHz located 4.8 miles north and 0.5 mile east of Edinburgh, Tex.

21461–C2–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 2-way station to operate on 454.125 MHz located 3.5 miles northwest of junction of Highway 100 and FM1575 near Los Fresnos, Tex.

21462–C2–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 2-way station to operate on 454.075 MHz located 5.9 miles north of Alice, Tex.

21463–C2–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 1-way station to operate on 158.70 MHz located at 600 Leopart St., Corpus Christi, Tex.

21464–C2–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 2-way station to operate on 454.100 MHz, 454.150 MHz, 454.200 MHz, 454.300 MHz located at 600 Leopart St., Corpus Christi, Tex.

21465–C2–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 2-way station to operate on 454.275 MHz, 454.300 MHz, 454.325 MHz, 454.350 MHz located 2.5 miles north of U.S. Highway No. 83 on North 10th St., McAllen, Tex.

21466–C1–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 2-way station to operate on 454.025 MHz located ¾ mile south of Harlingen on New Hampshire Rd., Cameron, Tex.

21467–C2–P–74, Terre Haute Communications, Inc. (new). C.P. for a new 1-way station to operate on 158.70 MHz located at 2500 Layher St., Terre Haute, Ind.

21468–C2–P–74, Mobilphone of Texas, Inc. (new). C.P. for a new 2-way station to operate on 152.06 MHz located at 2105 East 14th St., Brownsville, Tex.

21469–C2–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 2-way station to operate on 454.025 MHz located 1½ miles west of U.S. Highway 77 on F.M. 1355, Kingsville, Tex.

21470–C2–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 2-way station to operate on 454.050 MHz, 454.075 MHz, 454.150 MHz, 454.200 MHz located at 2105 East 14th St., Brownsville, Tex.

21471–C2–P–74, Mobilfone Service, Inc. (new). C.P. for a new 2-way station to operate on 152.09 MHz located 1½ miles west of U.S. Highway 77 on F.M. 1355 near Kingsville, Tex.

21472–C2–P–74, Mobile Page Communications, Inc. (new). C.P. for a new 2-way station to operate on 152.21 MHz and 454.35 MHz located at Smithtown Rd. between Indian Spring and Shore Rds., Budd Lake, N.J.

21473–C2–P–74, The Bell Telephone Company of Pennsylvania (KGC226). C.P. to change antenna system and to replace transmitter on frequency 152.84 MHz located at Hilltop, 3 miles southeast of Allentown, Lehigh, Pa.

21474–C2–P–74, Seattle Radiotelephone Service (KOA733). C.P. for additional facilities operating on 454.050 MHz located at Seattle First National Bank Building, Seattle, Wash.

21475–C2–P–74, Mashell Telephone Company, Inc. (KRH638). C.P. to relocate facilities operating on 454.475 MHz located ½ mile southwest of Eatonville, Wash.

21476–C2–P–(12)–74, Industrial Communications of Pecos, Inc. C.P. to add frequency 454.175 MHz; replace repeater frequency at location No. 1 with 454.050, 454.250, 454.350 MHz to operate at 1.7 miles north of Highway No. 80, 10 miles northeast of Pecos, Barstow, Tex.; C.P. to change frequency of control transmitters and to add two control frequencies: 459.150, 459.050, 459.250, 459.325, 459.350 MHz to be located at location No. 2: 2203 West 3d St., Pecos, Tex.; C.P. to change repeater frequency to 454.325 MHz located at location No. 3: Gomez Peak, southwest of Pecos, Tex.; C.P. to add facilities on 454.025 MHz at location No. 4: King Ranch, 40.8 miles south of Pecos, Tex., and add antenna location No. 4 with repeater frequency: 454.150 MHz.

21477–C2–P–74, Caprock Radio Dispatch (new). C.P. for a new 1-way station to operate on 152.24 MHz located at lot 6, tract 2, division 4, Artesia, N. Mex.

21478–C2–P–74, Bijou Telephone Cooperative (new). C.P. for a new 2-way station to operate on 152.81 and 152.60 MHz located at southeast corner of Main and Front, Byers, Colo.

21479–C2–P–(2)–74, General Telephone Company of Florida (KRS694). C.P. to add two transmitter sites. Location No. 6: 108 Pinewood Ave., Brandon, Fla., operating on 152.84; location No. 7: 7502 West Hillsborough Ave., Sweetwater, Tampa, Fla., operating on 152.84 MHz, also to change antenna systems of existing locations.

21480–C2–P–74, Mobilfone Service, Inc. (new). C.P. for a new 2-way station to operate on 152.12 MHz located 4 miles north of intersection of FM754 and State Highway 285, 1.9 miles west on U.S. 281, Falfurrias, Tex.

21481–C2–P–74, Southwest Mobilfone, Inc. (new). C.P. for a new 2-way station to operate on 454.125 MHz located 4 miles north of intersection of FM754 and State Highway 285, 1.9 miles west on U.S. 281, Falfurrias, Tex.

21482–C2–P–74, Adlai C. Ferguson, Jr. (KSJ-769). C.P. to change antenna system and relocate antenna on new 485-foot tower, operating on 152.21 MHz located 2 miles west of Paris on Highway 133, Paris, Ill.

21483–C2–P–74, Mobilphone of Texas, Inc. (new). C.P. for a new 2-way station to operate on 152.18 MHz located at 600 Leopard St., Corpus Christi, Tex.

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's Rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the Rules).

21405–C2–ML–74, Indiana Bell Telephone Company (KSJ612). Modification of license to change frequency to 454.925 MHz located 2.2 miles east-southeast of Vincennes, Ind.

Renewals of licenses expiring April 1, 1974. Term: April 1, 1974 through April 1, 1979.

Illinois

Chicago Communications Service, Inc., KSD310.

North Carolina

Barbara V. Cannon d.b.a. Greenville Radio Dispatch KTR993.

RURAL RADIO SERVICE

60309–C6–P–74, Silver Beehive Telephone Company (new). C.P. for a new rural subscriber station to operate on 157.86 MHz located at 10 miles northeast of Licin, Utah.

60310–C6–P–74, Silver Beehive Telephone Company (new). C.P. for a new central office station to operate on 152.60 MHz located at Telephone Central Office, Grouse Creek, Utah.

60311–C6–P–74, Pacific Northwest Bell Telephone Company (KOB51). C.P. to add frequency and replace transmitter operating on frequencies 157.77, 157.80, 157.89, 157.98, 158.07 MHz located at Tillicum Village, Blake Island, Kitsap, Wash.

60312–C6–P–74, RCA Alaska Communications, Inc. (new). C.P. for a new rural subscriber station to operate on 157.77 MHz located at Mary Alsworth Home, Port Alsworth, Alaska, 105 miles west-northwest of Homer, Port Alsworth, Alaska.

60313–C2–AL (8)–74, Associated Telephone Answering Services, Francis R. Real d.b.a. Consent to assignment of license from Associated Telephone Answering Services, Francis R. Real, d.b.a., assignor, to Associated Telephone Answering Services, Inc., assignee. (KKA45—at temporary locations.) (KRR31—Crown Point) (KRR33—Torreon, N. Mex.) (KRR37—Magdalena, N. Mex.) (KRR39—Lew Laguna, N. Mex.) (KRR41—Laguna, N. Mex.) (KRR42—Laguna, N. Mex.) (KRR70—Correo, N. Mex.)

POINT-TO-POINT MICROWAVE RADIO SERVICE

4251–C1–R–74, South Central Bell Telephone Company (KZS92). Within the operating territory of the grantee. Application for renewal of license for term: July 1, 1974, to July 1, 1975.

4252–C1–P–74, the Southern New England Telephone Company (new), 310 Orange St., New Haven, Conn. Latitude 41°18'33" N., longitude 72°55'20" W. C.P. for a new station on frequency 39,318 GHz toward New Haven, Conn., on azimuth 133°33'.

4253–C1–P–74, same (new), 1155 Townsend Ave., New Haven, Conn. Latitude 41°17'17" N., longitude 72°53'34" W. C.P. for a new station on frequency 39,330 GHz toward New Haven, Conn., on azimuth 313°34'.

4254–C1–P–74, United Telephone Company of Indiana, Inc. (KSJ39), Ohio and Railroad Sts., Monticello, Ind. Latitude 40°44'22" N., longitude 86°45'57" W. C.P. to change frequency to 5952.6H MHz toward Logansport, Ind., on azimuth 83°13'.

4255–C1–P–74, Continental Telephone Company of Utah (WOE37), Blue Ridge, 6 miles southwest of Monticello, Utah. Latitude 37°48'54" N., longitude 109°25'29" W. C.P. to add frequency 2178.0V MHz toward a new point of communication at LaSal, Utah, on azimuth 11°50'.

4256–C1–P–74, Same (new), Telephone Central Office, LaSal, Utah. Latitude 38°18'33" N., longitude 109°17'36" W. C.P. for a new station on frequency 2128.0V MHz toward Monticello, Utah, on azimuth 191°55'.

4257–C1–P–74, General Telephone Company of Indiana, Inc. (KSJ38). C.P. to change autenna location to ¼ mile west of the intersection of Indiana S.R. 17 and Northern Avenue, Logansport, Ind. Latitude 40°-46'26" N., longitude 86°22'39" W. and change frequency to 6204.07H MHz toward Monticello, Ind., on azimuth 263°28'.

4258–C1–P–74, The Mountain States Telephone and Telegraph Company (KPX85), 115 West 2d Ave., Plentywood, Mont. Latitude 48°46'18" N., longitude 104°33'25" W. C.P. to add frequencies 10,875V 11,115H MHz to new point of communication at Plentywood Junction, Mont., on azimuth 198°04'.

4259–C1–P–74, Same (KPV91), 7.2 miles north-northeast of Bainville, Mont. Latitude 48°14'16" N., longitude 104°11'14" W. C.P. to change point of communication to Plentywood Junction, Mont., for frequencies 5945.2V, 6063.8V MHz on azimuth 329°30'.

4260–C1–P–74, Same (KPV92), 5.4 miles south-southwest of Plentywood, Mont. Latitude 48°41'42" N., longitude 104°35'-41" W. C.P. to add frequencies: 11,325V MHz and 11,565H MHz toward Plentywood, Mont., on azimuth 18°02'; and 6226.9V MHz 6345.5V MHz toward Bainville Junction, Mont., on azimuth 149°12'.

4261–C1–P–74, United Video, Inc. (new), Snow Hill, Tenn. Latitude 35°08'59" N., longitude 85°01'24" W. C.P. for a new station on frequency 5945.9H MHz toward Niota, Tenn. on azimuth 43°27'.

4262–C1–P–74, Same (new), 2.7 miles north of Niota, Tenn. Latitude 35°33'31" N., longitude 84°32'46" W. C.P. for a new station on frequency 6197.2H MHz toward Dixie Lee, Tenn., on azimuth 43°04'.

4263–C1–P–74, Same (new), 1.5 miles south of Dixie Lee, Tenn. Latitude 35°50'14" N., longitude 84°13'28" W. C.P. for a new station on frequency 11,385V MHz toward Oak Ridge, Tenn., on azimuth 353°05'.

4264–C1–P–74, Same (new), 310 10th St., Sacramento, Calif. (KCRA–TV). C.P. for a new station at latitude 38°35'13" N., longitude 121°29'22" W. Frequency 6123.1V MHz on azimuth 250°48' toward Mount Vaca.

4265–C1–P–74, Same (new), 4.2 miles south of Dunnigan, Calif. C.P. for a new station at latitude 38°49'41" N., longitude 121°59'-13" W. Frequency 6004.5H MHz on azimuth 193°12' toward Mount Vaca; frequencies 5974.8V MHz, 6004.5H MHz, 6034.2V MHz, 6063.8H MHz, and 6039.5V MHz on azimuth 343°34' toward Maxwell.

4266–C1–P–74, Same (new), Maxwell, 0.5 mile south of Delavan, Calif. C.P. for a new station at latitude 39°20'53" N., longitude 122°11'12" W. Frequency 6197.2V MHz on azimuth 163°16' toward Dunnigan; frequencies 6226.9V MHz, 6256.5H MHz, 6286.2V MHz, 6345.5V MHz, and 6375.2H MHz on azimuth 282°37' toward St. John Mountain.

4267–C1–P–74, Telecommunications, Inc. (WIV64), Portland, Oreg. C.P. to add frequencies at existing facilities latitude 45°31'18" N., longitude 122°40'48" W. Frequency 11,525V MHz on azimuth 319°26' toward Scappoose.

Major Amendments

7858–C1–P–72, Western Tele-Communications, Inc. (WOI62), Mount Vaca. Change point of communication from St. John Mountain to Dunnigan. Latitude 38°24'55" N., longitude 122°06'36" W. Frequency 6197.2V on azimuth 200°52' toward San Francisco, frequencies 6226.9V, 6256.5H, 6286.2V, 6345.5V, and 6375.2H on azimuth 13°08' toward Dunnigan, frequencies 6286.2H and 6345.5H on azimuth 72°11' toward new point of communication Sacramento (KXTV), and frequencies 6226.9H and 6404.8H on azimuth 70°25' toward new point of communication Sacramento (KCRA–TV).

7859–C1–P–72, Same (WOI66), St. John Mountain. Change point of communication from Mount Vaca to Maxwell, frequency 6093.5V on azimuth 102°18'. Change frequency 5974.8 to 6034.2V toward Henleyville, and change frequency 5945.2H to 6093.5V toward Chico (KHSL–TV).

7861–C1–P–72, Same (new), Henleyville. Change frequency 6226.9H to 6197.2V toward Inskip Hill.

7862–C1–P–72, Same (new), Inskip Hill. Change frequencies 5974.8H to 5945.2V and 6093.5H to 6063.8V toward Hatchet Mountain.

7864–C1–P–72, Same (WOI67), Hatchet Mountain. Change azimuth toward from 318°39' to 318°26'.

7865–C1–P–72, Same (WOI68), Weed. Relocate station to latitude 41°22'41" N., longitude 122°23'25" W. Frequency 6034.2V on azimuth 138°04' toward Hatchet Mountain, frequencies 5945.2V, 5974.8H, 6004.5V, 6034.2H, 6152.8H on azimuth 01°01' toward Little Chinquapin Mountain.

7866–C1–P–72, Same (WOI69), Little Chinquapin Mountain. Change azimuth 186°37' to 181°02' toward Weed.

7867–C1–P–72, Same (WOI70), Wolf Ridge. Delete frequencies 5945.2H and 6004.5H toward Medford (KMED–TV), and 6034.2V and 6063.8H toward Medford (KOBI).

7870–C1–P–72, Same (WOI72), Coburg Ridge. Change frequencies 6063.8V to 6004.5V and 6093.5H to 6034.2H toward Eugene (KVAL) on azimuth 216°18'.

7874–C1–MP–72, Telecommunications, Inc. (WHA88), Scappoose. Change frequency 10,875V to 6271.4V toward Portland TOC on azimuth 139°12'.

Corrections

4146–C1–P–74, Southern Pacific Communications Company (new). Correct coordinates to read: latitude 41°03'04" N., longitude 82°53'46" W.

POINT-TO-POINT MICROWAVE RADIO SERVICE

Major Amendments

673–C1–P–72, Frank K. Spain d.b.a. Microwave Service Company (new), 1.5 miles northwest of Sellers, Miss. Latitude 30°36'15" N., longitude 89°22'37" W. Application amended (a) to change station location to foregoing coordinates; (b) to change point of communication from Howison to Beatrice, Miss., on azimuth 72°10' (frequencies 6301.0V MHz and 6241.7V MHz unchanged): and (c) to change transmitting equipment.

674–C1–P–72, Same (new), 1.1 miles southeast of Beatrice, Miss. Latitude 30°43'46" N., longitude 88°55'48" W. Application amended (a) to change station location to foregoing coordinates; (b) to change azimuth toward Harleston, Miss., to 92°15' (frequencies 6049.0H MHz and 6167.6H MHz unchanged); and (c) to change transmitting equipment.

675–C1–P–72, Same (new), 0.6 mile south of Harleston, Miss. Latitude 80°42'53" N., longitude 88°30'49" W. Application amended (a) to change station location to foregoing coordinates; (b) to change azimuth toward Mobile, Ala., to 111°12'; (frequencies 6212.0V MHz and 6330.7V MHz unchanged); and (c) to change transmitting equipment.

V39 112 JUN 10 74 XUM

694–C1–P–72, Same (new), 1.9 miles northwest of Holman, Ala. Latitude 33°17'32" N., longitude 87°51'15" W. Application amended (a) to change station location to foregoing coordinates; (b) to change azimuth toward Tuscaloosa, Ala., to 106°58' (frequency 10915H MHz unchanged) and (c) to change transmitting equipment.

4249–C1–MP–74, American Television and Communications Corp. (WSM71), 7.0 miles wset of Melbourne, Fla. Latitude 28°08'53" N., longitude 80°42'12" W. Application amended to change from vertical to horizontal the polarity of frequencies 5974.8 MHz and 6152.8 MHz toward Merritt Island, Fla., on azimuth 357°50'.

4646–C1–P–72, American Television and Communications Corp. (new), 1.9 miles northeast of Wilmer, La. Latitude 30°49'35" N., longitude 90°20'06" W. Application amended (a) to change station location to foregoing coordinates and (b) to change azimuth toward McComb, Miss., to 347°58' (frequency 6197.2V MHz unchanged).

Informative: Western Tele-Communications, Inc., hereby amends a portion of its video network filing from San Francisco, Calif., to Portland, Oreg. Included in this amendment are two new sites, the addition of a return channel from Portland TOC to Scappoose and the addition of the Sacramento studios.

7857–C1–MP–72, Western Tele-Communications, Inc. (WOI61), San Francisco. Relocate facilities to latitude 37°46'38" N., longitude 122°24'58" W., frequencies 5945.2V, 5974.8H, 6034.H, 6063.8V, and 6123.1V MHz on azimuth 20°40' toward Mount Vaca.

Corrections

4142–C1–P–74, Same (new), 2.3 miles south of Miller City, Ohio. Latitude 41°03'53" N., longitude 84°07'56" W. C.P. for a new station on frequency 5945.2H MHz toward Custar, Ohio, on azimuth 42°26' and 5945.2H MHz toward Van Wert, Ohio, on azimuth 248°20'.

4177–C1–P–74, American Television Relay, Inc. (KOV61), Hutch Mountain, Ariz. Correct coordinates to read: Latitude 34°48'20" N., longitude 111°23'45" W. (all other particulars same as reported on Public Notice No. 701 dated 5–20–74).

Informative

It appears that the following sets of applications may be mutually exclusive and subject to the Commission's rules regarding ex parte presentations, reasons of potential electrical interference and economic competition:

American Television and Communications Corp., files Nos. 3274 through 3278–C1–P–74, Public Notice 3–4–74.

United Video, Inc., files Nos. 4261 through 4263–C1–P–74, Public Notice 6–4–74.

FEDERAL ENERGY OFFICE

ENERGY FORECASTING ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) notice is hereby given that the Energy Forecasting Advistory Committee will meet June 28, 1974, at 10 a.m., Room 3140–A, 12th & Pennsylvania Ave. NW., Washington, D.C.

The Committee was established to advise the Administrator, Federal Energy Office (FEO), with respect to methodologies which will augment and improve forecasts of energy supply and demand.

The agenda for the meeting is as follows:

1. Introduction and General Remarks.
2. Goals and Organization of "Project Independence Blueprint."
3. Quantitative Analysis for Project Independence.
4. Briefing and Review of FEO's Current Forecasting Methodologies with a Presentation of Recent Results

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Oral statements or participation by the public in the meeting will not be permitted, but any member of the public who wishes to file a written statement with the Committee shall be permitted to do so, either before or after the meeting.

Further information concerning this meeting may be obtained from George Lady, Federal Energy Office, Washington, D.C., phone number (202) 961–8425.

Minutes of the meeting will be made available for public inspection at the Federal Energy Office, Washington, D.C.

Issued at Washington, D.C. on June 6, 1974.

William N. Walker,
General Counsel.

PROJECT INDEPENDENCE ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) notice is hereby given that the Project Independence Advisory Committee will meet July 10, 1974, at 9 a.m., Room 3000–A, 12th & Pennsylvania Ave., NW., Washington, D.C.

The Committee was established to provide independent advice and review of the Federal Energy Office (FEO), with respect to the strategies, goals, and analysis of Project Independence.

The agenda for the meeting is as follows:

1. Project Independence and Role of the Advisory Group.
2. Background on Energy Situation and Status of the Blueprint for Project Independence.
3. Discussion Session.
   a. Definition of "Independence."
   b. Key Policy Issues that Should be Addressed in the Blueprint.
   c. Plans for Public Communications by the Committee.

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Oral statements or participation by the public in the meeting will not be permitted, but any member of the public who wishes to file a written statement with the Committee shall be permitted to do so, either before or after the meeting.

Further information concerning this meeting may be obtained from Bruce Pasternack, Federal Energy Office, Washington, D.C., phone number (202) 961–8254.

Minutes of the meeting will be made available for public inspection at the Federal Energy Office, Washington, D.C.

Issued at Washington, D.C., on June 6, 1974.

William N. Walker,
General Counsel.

TOURISM-RECREATION ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) notice is hereby given that the Tourism-Recreation Advisory Committee will meet Monday, June 17, 1974, at 9 a.m., Room 3000–A, 12th & Pennsylvania Avenue, NW., Washington, D.C.

The Committee was established to advise the Federal Energy Office (FEO), with respect to Tourism-Recreational aspects of interests and problems related to the policy and implementation of programs to meet the current national energy crisis.

The agenda for the meeting is as follows:

I. Introduction and Opening Remarks.
II. FEO Staff Briefings.
A. Tourism-Recreation and FEO in Retrospect.
B. Petroleum Allocation Program as it Applies to Tourism-Recreation.
C. Objectives of FEO Conservation Program.
D. Administrative Aspects of Committee Functions.

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will in his judgment, facilitate the orderly conduct of business. Oral statements or participation by the public in the meeting will not be permitted, but any member of the public who wishes to file a written statement with the Committee shall be permitted to do so, either before or after the meeting.

Further information concerning this meeting may be obtained from Ms. Nancy Segurski, Federal Energy Office, Washington, D.C., phone number (202) 254–7836.

Minutes of the meeting will be made available for public inspection at the Federal Energy Office, Washington, D.C.

Due to the increase of tourism and recreation during the summer months, this meeting is being scheduled prior to elapse of the usual 15-day notice period.

Issued at Washington, D.C., on June 6, 1974.

William N. Walker,
General Counsel.

WHOLESALE PETROLEUM ADVISORY GROUP

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92–463, 86 Stat. 770) notice is hereby given that the Wholesale Petroleum Advisory Group will meet on Friday, June 14, 1974, at 9 a.m., in the Gold Room of the Denver Hilton, 1550 Court Place, Denver, Colorado.

The Group was established to advise the Administrator, FEO, with direct and timely access to the technical knowledge possessed by a wide range of highly qualified independent businessmen engaged in the wholesale trade of selling heating oil, residual fuel, and gasoline.

The agenda for the meeting is as follows:

A. Discussion of Proposed Rules on "Summer Fill" and other "Dating" Programs.
B. Review and Discussion of Proposals for Allocation and Pricing of Unleaded Gasoline.
C. Problems Arising from Customer Changeover to other Fuels.
D. Restoration of Normal Business Practices by Suppliers (Leases, Contracts, Credit Terms).
E. Discussion of Dealer Problems from the Jobber Angle.

The meeting is open to the public; however, space and facilities are limited.

The Chairman of the Group is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business. Oral statements or participation by the Public in the meeting will not be permitted, but any member of the public who wishes to file a written statement with the Group shall be permitted to do so, either before or after the meeting.

Further information concerning this meeting may be obtained from Dino G. Pappas, Federal Energy Office, Washington, D.C., phone number (202) 961–8324.

Minutes of the meeting will be made available for public inspection at the Federal Energy Office, Washington, D.C.

Due to the interest in obtaining immediate comments on proposed rules, this meeting is being scheduled prior to elapse of the usual 15-day notice period.

Issued at Washington, D.C. on June 6, 1974.

William N. Walker,
General Counsel.

FEDERAL POWER COMMISSION

[Docket No. CI74–570, etc.]

ATLANTIC RICHFIELD CO. ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

May 31, 1974.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to Section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before June 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the auhorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[Docket No. R-424]

ACCOUNTING

Premium, Discount and Expense of Issue, Gains and Losses on Refunding and Reacquisition of Long-Term Debt, and Interperiod Allocation of Income Taxes; Order Denying Rehearing and Reconsideration

JUNE 3, 1974.

In its Order No. 505[1] issued on February 11, 1974, the Commission prescribed accounting for (1) premium, discount and expense of long-term debt, (2) gains and losses on reacquired long-term debt, when no refunding is involved, and (3) gains and losses on reacquisition of long-term debt when a refunding is involved. Briefly stated, the new accounting regulations provide that when no refunding is involved, as in (2), the utility shall amortize the net gain or loss over the remaining life of the respective security issues (old, original debt). When, as in (3), the redemption of one issue or series of long-term debt securities is financed by another issue or series, the net gains or losses from reacquisition of the original debt securities, the utility may elect to account for such amounts by either: (i) Writing them off immediately if amounts are insignificant; (ii) amortizing them over the life of the original issue which is being retired; or (iii) amortizing them over the life of the new issue. Where a regulatory authority which has prime rate jurisdiction over the utility disallows the rate principle of amortizing gains or losses on reacquisition of long-term debt without refunding and does not apply such amounts in computing rate of return allowed, an alternate method may be used, recognizing such amounts currently in income and using explanatory footnotes in financial statements.

On March 13, 1974, Interstate Natural Gas Association of America (INGAA) filed an application for rehearing of Order No. 505. Texas Eastern Transmission Corporation, (Texas Eastern) on the same date filed an application for Rehearing concurring in and adopting the INGAA application.

INGAA's application urges the Commission to reconsider its action and to rescind its Order No. 505 and terminate these proceedings, contending, in summary, that:

> Order No. 505 is legally improper, without substantial evidentiary support and is directly contrary to long established Commission policy and sound accounting principles as prescribed by the Accounting Principles Board (APB) of the American Institute of Certified Public Accountants. Further, at a time when the pipeline industry is faced with growing difficulties in obtaining money for important projects the Commission blithely takes action which will artifically reduce current net income of many companies thereby reducing their ability to finance much needed endeavors to enhance supply * * *

Upon a review of these contentions, as more fully set forth in INGAA's application, we find no basis for changing or modifying our order. We indicated in Order No. 505 the legal basis and evidentiary background for the rulemaking order prescribing accounting changes in this proceeding in Docket No. R-424:

> * * * We established a rate making principle in Opinion No. 583, *Manufacturers Light and Heat Co.* * * * (44 FPC 314) that gains and losses relating to reacquisition of long-term debt should be amortized over the remaining life of the old debt and to deduct the amortization amount from the actual charges for interest to determine the *true embedded cost of debt*. Failure to provide accounting recognition of this significant ratemaking policy would result in distortions of financial statements. (emphasis added)

In Opinion No. 583, in Manufacturers, we stated:

> 24. Secondly, the discounts on repurchased debt under consideration here represent a savings which is virtually automatic . . . Unless amortization of these amounts is required, the cumulative effect will be to add large sums to retained earnings, with no benefit to consumers. Yet consumers will continue to pay the cost of debt, including new debt issued at higher rates to replace that retired.
>
> * * * * *
>
> * * * We are cognizant that current accounting practice is to credit gains from retirement of debt securities to income in the year such securities are repurchased and retired. However, since it is acceptable accounting practice to amortize redemption premiums over the remaining lives of refunded bonds[2] and since in future rate proceedings redemption premiums are to be included in the embedded cost of debt, we believe that the same accounting policy should be adopted toward gains from repurchase and retirement. This will bring accounting and ratemaking into conformity and the income will be available for future rate consideration. Such accounting and ratemaking purposes is sanctioned by the accounting profession because they recognize that there are and will be instances where regulatory authorities differ from other commercial accounting practices.[3]

INGAA's application contends that the Commission "blithely" ignored the fact that the result of the changed accounting would affect the "current" net income of many companies and would thereby reduce their ability to finance new facilities needed to enhance their dwindling gas supplies. That this is erroneous is obvious in view of the fact that in Opinion No. 583 we gave full consideration to Manufacturers' financial needs in determining its rate of return, while at the same time indicating that these gains and losses should be amortized and the benefits shared with the consumer.

INGAA's argument ignores the fact that the prescribed amortization does not reduce net income, as an accounting matter. Although "current" net income may be reduced in one year, the order merely spreads such income (and losses) over ten or more years of the remaining lives of the particular security issues involved. Moreover, although Opinion No. 583 requires the benefits to be shared with consumers by reflecting in rates and charges the current year's amortization of such discounts and premiums, it also allows the companies the interim cost-free use of the excess of current net gains, or losses, over such level of amortized income currently reflected in rates and charges.

INGAA's application objects to the Commission's expressed intent to bring ratemaking and accounting into a closer area of conformity and to avoid apparent distortion of financial statements. In support of its contention, INGAA cites recent rulemaking orders of the Commission and asserts that the Commission therein did not follow such "tracking symmetry".[4] Where applicable, the Commission's accounting regulations are designed, primarily, to aid it in the surveillance of costs of service of jurisdictional companies for the purpose of ratemaking, licensing and for the corollary protection of the investing public. Under various circumstances, accounting treatment and ratemaking treatment must necessarily diverge, but we do not believe that this is one of them.

INGAA's contention that Order No. 505 is without evidentiary support and is invalid, likewise, is erroneous. The Commission issued its accounting regulations for natural gas companies in the exercise of its authority under sections 8, 9, 10 and 16 of the Natural Gas Act. In Manufacturers, as well as in this proceeding, the Commission afforded all interested parties notice and an opportunity to present their views and contentions.[5] No party has presented any allegation of factual data and material which raise any issues which would require cross-examination or further evidentiary hearings. INGAA's application fails to raise any such issue. With respect to INGAA's position on the financial impact of the order, this is a rate of return question which, as we have stated above, is properly considered in ratemaking on a single-company basis. Indeed, although INGAA requests that a "formal hearing" be provided for submission of testimony, it fails to allege any facts or to make a proffer of anything of substance which such testimony would show. We, therefore, conclude that to provide any such "evidentiary" hearing would be without justification and would merely delay the determinations of the Commission and the necessary implementation of the order which has been found to be required in the interests of fairness to the consumer, the investor and the public interest.

INGAA urges that the new regulations are contrary to long established Commission policy and sound accounting principles announced by the Accounting Principles Boar (APB), now the Financial Accounting Standards Board (FA SB), of the American Institute of Certified Public Accountants for commercial accounting guidance. However, as we observed in Opinion No. 583, in view of regulatory policies, regulatory accounting may properly differ from commercial accounting practices, as even the APB recognizes. The Commission's authority and responsibility for accounting derives from the Federal Power Act (section 301) and from the Natural Gas Act (section 8), not from such commercial and professional bodies, although the announcements of such bodies are considered to be of substantial significance and the pertinent accounting principles have been carefully compared with the new regulations. With respect to the change in our own policy and treatment of these gains and losses, it is sufficient to state that we gave very careful consideration to that question in Opinion No. 583, and we have reviewed the accounting reflection of the ratemaking policy in this rulemaking proceeding, as stated above.

The Commission finds. Interstate Natural Gas Association of America and Texas Eastern Transmission Corporation's applications for rehearing filed March 13, 1974, present no new facts or points of law which were not considered in Order No. 505, or which, having now been considered, warrant any change or modification of that order, and their applications, therefore, should be denied.

The Commission orders. The applications filed on March 13, 1974, by INGAA and Texas Eastern for rehearing of Order No. 505, are denied.

By the Commission.[6]

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Order No. 505, 51 F.P.C. ------ (39 FR 6093, February 19, 1974).

[2] Accounting Research Bulletin 43, Chapter 15, Unamortized Discount, Issue Cost, and Redemption Premium on Bonds Refunded.

[3] Addendum (Accounting Principles for Regulated Industries) to Opinion No. 2 of the Accounting Principles Board, accounting for the "investment credit".

[4] Order No. 469, Docket No. R-395 (49 FPC 326), dealing with Equity Method of Accounting; Order No. 504, Docket No. R-446, dealing with Interperiod Tax Allocation, issued February 11, 1974; Order No. 440-A, Docket No. R-403 (47 FPC 39), Full-Cost Accounting for Exploration and Development Costs of Pipeline Companies.

[5] INGAA erroneously asserts the Commission gave no notice it was considering adoption of an industry-wide principle of accounting. See notice issued October 31, 1969, published in Federal Register on November 1, 1969 (43 FR 17743), following which 7 pipeline companies, a major city, a national accounting firm and INGAA filed amicus briefs in Manufacturers (44 FPC 314, 321). The Commission modified its accounting order therein in response to such presentations. (44 FPC 1138). In this proceeding, we issued a notice of proposed rulemaking on August 6, 1971 (36 FR 16069), amended October 13, 1971 (36 FR 30445). Comments were received from 67 respondents, of whom 62 addressed themselves to the long-term debt issues (Attachment A to Order No. 505).

[6] Dissenting opinions by Commissioners Brooke and Moody filed as part of the original document.

V39 112 JUN 10 74 XUM

[Docket No. CI74-674]

ATLANTIC RICHFIELD CO.

Notice of Application

MAY 31, 1974.

Take notice that on May 20, 1974, Atlantic Richfield Company (Applicant), P.O. Box 2819, Dallas, Texas 75221, filed in Docket No. CI74-674 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to Texas Gas Transmission Corporation (Texas Gas) from the Block 217 Field, Eugene Island Area, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to deliver into the facilities of Michigan Wisconsin Pipeline Company for the account of Texas Gas up to 1,000 Mcf of natural gas per day for one year from the Block 217 Field at a rate of 50.0 cents per Mcf of gas at 15.025 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant states it will accept a certificate conditioned to a rate of 45.0 cents per Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8810]

BOSTON EDISON CO.

Initial Rate Filing

JUNE 3, 1974.

Take notice that Boston Edison Company (Edison), on May 21, 1974, tendered for filing a new rate schedule for service to New England Power Company (NEPCO).

Edison states that the rate schedule provides for the sale by Edison to NEPCO of 60,000 kw of system capacity and the energy corresponding thereto during the period November 1, 1973 through October 31, 1974 and, any time Edison's Pilgrim Unit No. 1 must be operated below capacity or must be shut down, Edison's obligation to supply NEPCO such service is commensurately reduced.

Furthermore, Edison states that the payment provisions of the rate schedule are designed to reimburse Edison for fixed and operating costs incurred in connection with service under the contract, and that capacity, energy and transmission charges for the contract year are respectively estimated to total $2,885,400, $3,732,282 and $484,560.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 13, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI74-234]

C. K. OIL CO.

Petition for Special Relief

MAY 31, 1974.

Take notice that on May 16, 1974, C. K. Oil Company, (Petitioner), 512 Washington, Great Bend, Kansas 67530, filed a petition for special relief in Docket No. RI74-234 for the sale of gas to Cities Service Gas Company from its well on the Stone "C" lease in Barber County, Kansas. Petitioner states that declining pressure has now reduced gas production from said well to the extent that further production is uneconomical at the existing contract rate and premature abandonment will result unless an increased price can be obtained for future gas production therefrom. Petitioner proposes to install compression facilities and requests a rate increase from 15 cents per Mcf to 38 cents per Mcf under Order No. 481.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RP74-82 and RP74-81]

COLUMBIA GAS TRANSMISSION CORP. AND COLUMBIA GULF TRANSMISSION CO.

Order Accepting for Filing and Suspending Proposed Revised Tariff Sheets, Providing for Hearing, Permitting Interventions, and Consolidating Proceedings

MAY 31, 1974.

On April 15, 1974, Columbia Gas Transmission Corporation (Columbia) and Columbia Gulf Transmission Company (Columbia Gulf) concurrently tendered for filing proposed revised tariff sheets[1] to their respective FPC Gas Tariffs to become effective June 1, 1974. The proposed changes would increase revenues from jurisdictional sales and service by $16,128,000 for Columbia Gulf and $102,822,000 for Columbia the 12 month period ending December 31, 1973, as adjusted for known and measurable changes through September 30, 1974. Columbia Gulf served a copy of its filing upon Columbia and Columbia served copies of its filing upon Columbia's jurisdictional customers and the state public service commission of the states in which Columbia conducts its business.

Columbia Gulf's filing reflects an increase in rate of return from 9 percent to 10.25 percent and an increase in related taxes; an increase in its offshore depreciation rate from 7 percent to 8.33 percent; an increase in its onshore depreciation rate from 4.5 percent to 5.5 percent; a decrease in sales volumes; and an increase in operation and maintenance expenses Columbia's filing reflects an increase in rate of return from 9 percent to 10.25 percent; and an increase in related taxes; an increase in depreciation rates from 7.0 percent to 7.5 percent on production properties and from 4.0 percent to 5.0 percent on other properties; an increase in operation and maintenance expenses; a decrease in sales volumes; and an increase in the cost of gas transported by others, including Columbia Gulf.[2]

Columbia's filing also reflects the elimination of 33⅓ percent of the differential which exists between historical zone rates and systemwide rates as well as the following proposed tariff modifications:

1. The elimination of the heat content adjustment provision in § 10.2 of the CDS Rate Schedule (which was applicable only in Zone 2), as no longer being necessary or required.
2. Modification of section 7 of the general terms and conditions relating to construction of facilities, facility charge, so as to make the provision applicable in all zones on Columbia's system.
3. Modifications of the E- Rate Schedule and section 10 of the WS Rate Schedule to provide that any deliveries made thereunder shall be considered as takes within Buyer's Authorized Monthly Volume.

The filings of Columbia and Columbia Gulf were each noticed on April 24, 1974. Petitions to intervene were received from the parties listed in Appendix A. The UGI Corporation and the City of Charlottesville, Virginia (Charlottesville) also request a five-month suspension of and a hearing concerning each of the filings. Charlottesville also requests that the filings of Columbia and Columbia Gulf be consolidated for purposes of hearing and decision.

Our review of the filings of Columbia and Columbia Gulf indicates that certain issues are raised which may require development in evidentiary proceedings. The proposed increases in rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall suspend each of the proposed rate filings for five months until November 1, 1974, and set them for hearing. Moreover, the fact that the operations of Columbia are closely associated with the operations of Columbia Gulf makes it appropriate that the filings in Docket Nos. RP74-81 and Docket No. RP74-82 be consolidated for purposes of hearing and decision.

We note that Columbia has used the unmodified Seaboard method of cost classification, allocation and rate design. In light of our policy of considering competitive fuel prices in setting commodity rate levels and of the present supply and market conditions on Columbia's system, all parties to this proceeding should direct their attention, and file any evidence they wish to submit, as to the propriety of the continued use of the Seaboard method on Columbia's system as well as the propriety of the use of alternate methods of cost classification, allocation and rate design which may more closely reflect or implement the Commission's objectives in this area.[3] We find that this approach is reasonable in light of our finding in United, supra., that in times of a natural gas shortage, "rate structures which yield different average prices are per se discriminatory."[4]

The Commission finds. (1) It is necessary and proper in the public interest and to aid in the enforcement of the provision of the Natural Gas Act that: The Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in the FPC Gas Tariffs of Columbia and Columbia Gulf, as proposed to be amended by the filings in Docket No. RP74-82, and Docket No. RP74-81, respectively; Docket No. RP74-81 and Docket No. RP74-82 be consolidated for purposes of hearing and decision; and the tendered tariff sheets listed in Footnote 1 above be accepted for filing and suspended as hereinafter ordered and conditioned.

(2) Participation of the parties listed in Appendix A[5] in this proceeding may be in the public interest.

The Commission orders. (A) Docket No. RP74-81 and Docket No. RP74-82 are consolidated for purposes of hearing and decision.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, Chapter I), a public hearing shall be held in a hearing room of the Federal Power Commission, Washington, D.C. 20426, concerning the lawfulness of the rates, charges, classifications, and services contained in the FPC Gas Tariffs of Columbia and Columbia Gulf, as proposed to be amended herein.

(C) Pending hearing and a decision thereon, the tariff sheets listed in Footnote 1 above are accepted for filing, suspended for five months and the use thereof deferred until November 1, 1974, and until such further time as they are made effective in the manner provided in the Natural Gas Act.

(D) On or before September 17, 1974, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before October 1, 1974. Any rebuttal evidence by Columbia and Columbia Gulf shall be served on or before October 15, 1974. The public hearing herein ordered shall convene on October 29, 1974, at 10 a.m., e.d.t.

(E) The petitioners listed in Appendix A are hereby permitted to intervene in these proceedings, subject to the rules and regulations of the Commission: *Provided*, however, That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene and *Provided, further*, That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in these proceedings.

(F) Pursuant to § 2.59(c) of the Commission's rules of practice and procedure, Columbia shall promptly serve copies of its filing upon all of the above mentioned intervenors, unless such service has already been effected pursuant to Part 154 of the regulations under the Natural Gas Act.

(G) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlements pursuant to § 1.18 of the Commission's rules of practice and procedure.

[Docket No. E-8811]

CONNECTICUT LIGHT AND POWER CO.

Filing of Amendment to Purchase Agreement

JUNE 3, 1974.

Take notice that Connecticut Light and Power Company (CL&P) on April 19, 1974, tendered for filing an amendment to their purchase agreement with the Public Service Company of New Hampshire (PSCNH). The amendment would increase PSCNH's entitlements in the Cos Cob, South Meadow, and Silver Lake Gas Turbine Units from 5.89 percent to 35.3774 percent for the period April 1, 1974, through April 30, 1974.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure. All such petitions and protests should be filed on or before June 14, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-666]

CONTINENTAL OIL CO.

Notice of Application

MAY 31, 1974.

Take notice that on May 17, 1974, Continental Oil Company (Applicant), P.O. Box 2197, Houston, Texas 77001, filed in Docket No. CI74-666 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Mountain Fuel Supply Company from the Bruff Unit Well No. 1, Lincoln County, Wyoming, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it has commenced the sale of natural gas for 180 days within the contemplation of Section 157.29 of the Regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale from September 10, 1974, the end of the emergency period, until March 1, 1976. Applicant proposes to sell approximately 70 Mcf of gas per month at 40.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, within the contemplation of Section 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). The contract, dated March 14, 1974, provides for an escalation of one cent per Mcf annually.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-671]

D & B OIL, INC., ET AL.

Notice of Application

JUNE 3, 1974.

Take notice that on May 17, 1974, D & B Oil, Inc. (Operator), et al. (Applicant), P.O. Box 4453, Odessa, Texas 79760, filed in Docket No. CI74-671 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon a sale of natural gas in interstate commerce to Cities Service Oil Company (Cities Service) from the West Sawyer Pool, Lea County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it proposes to abandon the sale of gas to Cities Service from the West Sawyer Pool, Lea County, New Mexico, which has been made pursuant to a percentage-type contract with Cities Service.[1] Applicant states that such gas is processed through Cities Service's Bluitt Gas Processing Plant with the residue gas' being sold to Transwestern Pipeline Company (Transwestern) and Natural Gas Pipeline Company of America. Applicant states further that as oil wells, the casinghead gas therefrom is dedicated to Cities Service, and as gas wells the gas-well gas is not dedicated to Cities Service. Applicant states that it proposes to abandon the subject sale because the New Mexico Oil Conservation Commission has reclassified the wells from oil wells to gas wells; and, therefore, Cities Service is no longer contractually entitled to the gas from the subject acreage. Applicant proposes, upon approval of this abandonment application, to enter into a gas processing agreement with Cities Service and sell its residue gas to Transwestern.

Applicant states that Cities Service believes that the casinghead gas contract is presently applicable and valid regardless of the New Mexico Oil Conservation Commission's reclassification and that Cities Service is, therefore, not agreeable to amending or replacing the contract.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or

---

[1] Applicant states that the current minimum price under said contract, 5.0 cents per Mcf, is below the minimum established in Commission Opinion No. 662, issued August 7, 1973 (50 FPC ----), and does not meet current costs.

if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP71-15 et al.]

EAST TENNESSEE NATURAL GAS CO.

Proposed PGA Rate Adjustment

MAY 31, 1974.

Take notice that on May 16, 1974, East Tennessee Natural Gas Company (East Tennessee) tendered for filing proposed changes to Sixth Revised Volume No. 1 of its FPC Gas Tariff, consisting of the following revised tariff sheets:

Seventh Revised Sheet No. 4, and, alternatively,
Substitute Seventh Revised Sheet No. 4

The proposed effective date for these changes is July 1, 1974.

East Tennessee states that the sole purpose of these revised tariff sheets is to adjust its rates pursuant to the PGA provision in section 22 of the general terms and conditions to reflect purchased gas costs resulting from a rate increase by its sole supplier, Tennessee Gas Pipeline Company (Tennessee), a Division of Tenneco Inc. East Tennessee further states that Seventh Revised Sheet No. 4 reflects the rate increase resulting from Tennessee's filing of May 16, 1974, and that East Tennessee's alternative filing of Substitute Seventh Revised Sheet No. 4 reflects Tennessee's alternative filing of May 16, 1974.

East Tennessee states that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 10, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding Any person wishing to become a party must file a petition to intervene. Persons presently parties to this proceeding need not file additional petitions to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8170]

GEORGIA POWER CO.

Notice of Changes in Tariff

JUNE 3, 1974.

Georgia Power Company (Georgia Power) on May 2, 1974, tendered for filing Revised Sheets Nos. 3, 3-E, 3-H, 3-L, and 3-N to its FPC Electric Tariff, Volume No. 1. Georgia Power states that these revisions covering tariff changes effective in the second quarter of 1974, consist of three new wholesale delivery points and three conversions of existing delivery points to the WR-7 rate.

Also included in the filing are six supplemental sheets giving data on delivery points involved in the above changes.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 17, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13223 Filed 6-7-74;8:45 am]

[Docket No. E-7740]

INDIANA AND MICHIGAN ELECTRIC CO.

Order on Reconsideration

JUNE 3, 1974.

On June 3, 1972, Indiana and Michigan Electric Company (I&M) tendered for filing with the Commission a wholesale rate increase applicable to 23 municipal and cooperative customers. Of those customers, Richmond Power and Light (RP&L) Anderson, Indiana (Anderson) and a group of cooperatives (Cooperatives) [1], filed motions to reject I&M's filing as it pertained to them, claiming their contracts with I&M prohibited unilateral changes in rates by I&M, referring to the Supreme Court's decisions in Mobile-Sierra.[2]

By order issued August 11, 1972, the Commission accepted I&M's proposed rate increase for filing, suspended its effectiveness for five months, and established hearing procedures thereon. The Commission also denied the motions to reject, holding that the parties' agreements with I&M did not constitute fixed-rate contracts within the definition of Mobile-Sierra. On October 6, 1972, the Commission denied the motions for rehearing of the three parties.

RP&L, Anderson, and the Cooperatives each petitioned the Court of Appeals for the District of Columbia Circuit for review of the Commission's orders denying the motions to reject I&M's filing and the order denying rehearing. On May 25, 1973, the Court of Appeals ruled on the RP&L and Anderson appeals.[3] The Court remanded those cases to the Commission with directions to reject I&M's filing of increased rates as to Anderson and RP&L. The Court held that I&M's contracts with RP&L and Anderson were indeed fixed-rate within the terms of Mobile-Sierra.

After the Supreme Court declined to review the Richmond decision,[4] we filed with the Court of Appeals a motion requesting the Court to remand the record of the Cooperatives appeal to this Commission so that we might reconsider Cooperatives' contracts and allegations in light of the Richmond decision, prior to the Court of Appeals rendering decision on the merits in that appeal. On March 6, 1974, the Court of Appeals granted this motion and on April 3, 1974 we directed all interested parties to file briefs with us discussing these particular issues.

Upon consideration of subject contracts involved, the positions of the parties as set forth in their original pleadings and the recent briefs, and the interpretation of the Court of Appeals as expressed in the Richmond decision, we are of the opinion that I&M's original filing as applicable to the Cooperatives was contractually impermissible under section 205 of the Federal Power Act. For the reasons set forth below, we will reject I&M's June 13, 1972 filing under section 205, but will construe the filing as a request for relief under section 206 and modify our previous orders accordingly.

The Cooperatives purchase power and energy from I&M pursuant to contracts on file with this Commission.[5] Article 3b of those contracts other than the Fruit Belt contract reads:

> Customer agrees to take and pay for the electric capacity and energy delivered to Customer by Company hereunder in accordance with the provisions of Company's Tariff REMC as filed with the Public Service Commission of Indiana, a copy of which tariff

V 39 112 JUN 10 74 XUM

is attached hereto as Exhibit A and is hereby made a part of this agreement.

Article 12 of such contracts in pertinent part reads:

> Firm Agreement As To Rates And Charges: Should any change in the rate provided for in Article 3 hereof *be ordered* by the Public Service Commission of Indian, payment for services by Customer to Company as provided for in Article 3 hereof shall thereafter be made upon the basis of such new rate as changed and approved by the Public Service Commission of Indiana, provided, however, that in the event of such change in rate, either of the parties hereto shall have the right within a period of ninety days, beginning on the date when such change is ordered by the Public Service Commission of Indiana, to terminate this Agreement by giving to the other party at least sixty days prior notice in writing of its intention so to do. (Emphasis added)

The similar provisions of the Fruit Belt contract provide for a rate in a tariff attached to the contract, with changes to be made upon order of the Public Service Commission of Michigan.

In its brief I&M states that each of the subject contracts was executed prior to the assertion of this Commission's jurisdiction over I&M's wholesale business.[6] Accordingly, the Company asserts that the references to the Indiana and Michigan commissions should be read as referring to the appropriate regulatory authority, now this Commission.[7] We took this position in our original orders on the Cooperatives' RP&L's and Anderson's protest of I&M's filing. Reviewing that position with regard to the I&M—Anderson contract, the Court of Appeals stated:

> The Commission says that the parties contemplated rate changes 'by order or with the approval of' the appropriate regulatory commission. This may well be true, but it is beside the point. This issue under Memphis is not whether the parties contemplated change by the appropriate regulatory authority, for under the law every electric power contract must contemplate such change. Instead, the question is whether the parties contemplated that the seller could unilaterally effect a change in the rate simply by filing a new tariff with the appropriate regulatory agency.[8]

The pertinent provisions of the Anderson contract differ from the Cooperatives contracts only in that it called for Tariff IP, rather than Tariff REMC. The appropriate focus of our attention, therefore, is not on the agency approving the change, but the manner in which the change may be contractually effectuated. Reference to the contract provisions set forth above reveals clearly that a change in rate was to be made only when ordered by the appropriate regulatory agency. As the Cooperatives correctly assert, an order by this Commission accepting for filing a rate increase filed pursuant to section 205 is not approval of such an increase by this Commission.[9] In this regard, the Supreme Court in interpreting section 4 of the Natural Gas Act (essentially identical to section 205 of the Federal Power Act) stated:

> Section 4(d) provides not for the filing of 'proposals' but for notice to the Commission of any change * * * made by' a natural gas company, and the change is effected * * * *not by an order of the Commission but solely by virtue of the natural gas company's own action.* (emphasis added) [10]

Our order accepting I&M's proposed rate increase was, therefore not approval of the rates, but merely an acknowledgement that the Company's proposal complied with our filing requirements. It was obviously not the kind of order necessary to effectuate a rate change consistent with the subject contracts. Such an order would issue at the end of our examination of I&M's proposed rates and, consistent with the contracts, such rate change as was then determined to be appropriate could only be effective prospectively. In other words, the contracts contemplate a procedure as may be instituted under section 206 of the Federal Power Act. Accordingly, I&M could not contractually effectuate this rate change simply by a filing pursuant to section 205 and we shall require refunds of all amounts collected pursuant to I&M's June 13, 1972 rate filing which are in excess of the amounts I&M could have collected under the previously applicable rates. Good cause does exist, however, to construe I&M's filing as to the Cooperatives as a motion to institute a section 206 proceeding [11] and incorporate the record of this docket for the purposes of decision on the justness and reasonableness of I&M's proposed rates for the Cooperatives.[12]

In reaching this decision, we are relying on an interpretation of the subject contracts and the pertinent provisions of the Federal Power Act. We do not reach, therefore, the issues of state law and distinguishing facts in the Richmond decision raised in I&M's brief. Likewise, a hearing on the intentions of the parties to the contracts, as I&M requests, is unnecessary as the issues have been fully addressed by the parties in their initial pleadings and the briefs submitted upon remand.

The Commission finds: (1) I&M's filing of June 13, 1972, as to the Cooperatives pursuant to section 205 was contractually impermissible.

(2) I&M should be required to refund to the Cooperatives all amounts collected in excess of those rates effective at the time of I&M's June 13, 1972 filing.

(3) Good cause exists to construe I&M's June 13, 1972 filing as a motion to institute a section 206 proceeding on its proposed rates to the Cooperatives.

(4) The record of these proceedings should be incorporated for the purposes of decision pursuant to section 206.

The Commission orders: (A) I&M's filing of June 13, 1972 of Supplements to its FPC Rate Schedules FPC Nos. 44–A, 44–B, 46, 48, 50, 52, 54, and 56 were not proper for filing pursuant to section 205.

(B) I&M shall refund with interest at 7 percent to the Cooperatives amounts collected pursuant to the June 13, 1972 filing which are in excess of the previously existing rates.

(C) I&M's June 13, 1972 filing as to the Cooperatives is hereby construed as a motion for an investigation pursuant to section 206, granted, and the record of the proceedings in this docket incorporated for the purposes of decision.

(D) Upon expiration of thirty days and applications for rehearing of this order not having been filed, the record of this proceeding, as supplemented by this order, shall be returned to the Court of Appeals for the District of Columbia Circuit in accordance with the Court's March 6, 1974 order.

(E) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP74–26]

LOUISIANA-NEVADA TRANSIT CO.

Extension of Time and Postponement of Prehearing Conference and Hearing

MAY 31, 1974.

On May 17, 1974, Staff Counsel filed a motion to extend the procedural dates fixed by notice issued March 13, 1974, in the above-designated matter. On May 24, 1974, a notice was issued deferring the procedural dates pending further notice. On May 24, 1974, Louisiana-Nevada Transit Company filed a response to Staff's motion submitting a revised procedural schedule. The Response states Staff Counsel and Counsel for DeQueen concur in the proposed dates.

Upon consideration, notice is hereby given that the procedural dates in the above matter are further modified as follows:

Staff Service, June 3, 1974.
Prehearing Conference, June 17, 1974 (10 a.m. e.d.t.).

---

[6] *Indiana and Michigan Electric Co.*, 33 FPC 739 (1965), *aff'd* 365 F.2d 180 (7th Cir.), Cert. denied 385 U.S. 972 (1966).

[7] I&M brief, p. 7.

[8] *Richmond supra,* (slip op. 19–20).

[9] Cooperatives brief, p. 26–28.

[10] *Mobile, supra* at 342–343.

[11] We would note that the procedures under such a Section 206 proceeding would not entail meeting the heavy burden of proof associated with the *Mobile-Sierra* decisions. As all parties concede, these contracts clearly contemplate that the Commission may order a change in rates; that is, the rates are not fixed for the term of the contract, only the manner in which such a change may be effected is contractually established. Accordingly, our examination of I&M's proposed rates would still be on a basis of our cost-plus-fair return standard. Cf: *Southern California Edison Company,* Docket No. E–8176, order issued September 21, 1973.

[12] The hearing in this docket commenced on January 31, 1974 and ended on April 16, 1974. The issues are presently before the Presiding Administrative Law Judge, awaiting his initial decision.

Intervener Service, July 1, 1974.
Company Rebuttal, July 15, 1974.
Hearing, September 9, 1974 (10 a.m. e.d.t.).

[Docket No. CI74–665]

MARATHON OIL CO.

Notice of Application

JUNE 3, 1974.

Take notice that on May 16, 1974, Marathon Oil Company (Applicant), 539 South Main Street, Findlay, Ohio 45840, filed in Docket No. CI74–665 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Company (Transwestern) from the West Atoka (Morrow) Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on November 27, 1973, from the subject acreage to Transwestern within the contemplation of § 157.29 of the Commission's regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the 180-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 52,000 Mcf of gas per month at 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot with an upward adjustment limitation of 1,100 Btu per cubic foot.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–13219 Filed 6–7–74;8:45 am]

[Docket No. CP74–295]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

MAY 31, 1974.

Take notice that on May 16, 1974, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP74–295 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities in La Salle County, Illinois, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate approximately 1.13 miles of 36-inch pipeline partially looping Applicant's existing main transmission pipeline in La Salle County, Illinois. Applicant states that the proposed facilities are to be installed in order to effectuate a load shift requested by Illinois Power Company (Illinois) as a result of Illinois' continued development of its Shanghai Storage Field near Alexis, Illinois. Applicant states that such load shift, effective for the period December 1, 1974, through April 30, 1975, and for the same period in succeeding years, will not occasion a change in total authorized annual deliveries of natural gas to Illinois.

Applicant states that Illinois will reimburse Applicant for the construction of the proposed looping facilities which Applicant will own and operate. Applicant estimates the cost of such facilities at $308,000, which it plans to finance from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–13232 Filed 6–7–74;8:45 am]

[Docket No. CP74–286]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

MAY 31, 1974.

Take notice that on May 13, 1974, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP74–286 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities, for the operation of a seasonal, underground natural gas storage reservoir at the North Lansing Field, Harrison County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that the gas supply tributary to its Gulf Coast transmission line has been inadequate during the winters of 1972–73 and 1973–74, to permit operation at design capacity. Applicant claims that availability of North Lansing storage for use on a withdrawal basis during winter periods will improve delivery reliability and lessen delivery curtailments that might otherwise occur. Therefore, Applicant proposes to develop the Rodessa-Young Reservoir of the North Lansing Field as a large volume, high deliverability gas storage facility, while concurrently utilizing the storage for protection and maintenance of winter delivery capability on its Gulf Coast line. In order to effectuate this proposal Applicant seeks authorization to

V 39 — 112 — JUN 10 74 XUM

construct and operate the following facilities:

(1) Approximately 14.7 miles of 30-inch pipeline connecting Applicant's existing Gulf Coast main transmission system to the North Lansing Field,

(2) Approximately 18.0 miles in aggregate of 20, 12, 10, 8 and 6-inch diameter pipe to connect 19 injection-withdrawal wells,

(3) A 3,000 BHP compressor station,

(4) Measurement facilities,

(5) Gas purification facilities, and

(6) Drill 10 new wells.

Applicant also proposes to undertake the following:

(1) Rework 16 existing wells,

(2) Recomplete 21 plugged wells,

(3) Re-enter and complete 5 dry wells, and

(4) Inject 14.4 million Mcf of recoverable cushion gas and construct other miscellaneous appurtenant facilities.

Applicant estimates the cost of the proposed facilities together with the cost of cushion gas and storage rights to be $25,400,000. Applicant states that it will finance the costs with funds to be obtained through interim loans and permanent financing.

Applicant states that its initial program contemplates the injection of approximately 16.8 million Mcf of gas (exclusive of native gas) of which 14.4 million Mcf will be retained as cushion gas and 2.4 million Mcf will be utilized as seasonal withdrawal capacity commencing with the 1975–76 winter heating season. However, Applicant proposes to develop the Rodessa-Young Reservoir to operate at an inventory level of 132.5 million Mcf (at a shut-in pressure of 2,700 psig), with approximately 57.5 million Mcf available for seasonal use and with a corresponding peak day withdrawal rate of 575,000 Mcf per day for 100 days.

Applicant states that the North Lansing Field is currently productive of relatively small quantities of natural gas and such production is being sold to Arkansas Louisiana Gas Company (Arkla) under Applicant's Rate Schedule OSS. Applicant's proposal herein contemplates the discontinuance of sales from the North Lansing Field. However, Applicant proposes to continue deliveries to Arkla from its transmission system supply in an aggregate quantity of gas not to exceed the estimated economically recoverable saleable reserves remaining in the reservoir at the time of discontinuance of production. Applicant states that said arrangement will be the subject of an application to be filed by Applicant in the near future.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[FR Doc.74-13233 Filed 6-7-74;8:45 am]

[Docket No. CP74-283]

NATURAL GAS PIPELINE CO. OF AMERICA

Notice of Application

May 31, 1974.

Take notice that on May 13, 1974, Natural Gas Pipeline Company of America (Applicant), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP74-283 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of natural gas facilities in the West Cameron Area, offshore Louisiana, and in Cameron Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate approximately 4.89 miles of 8-inch onshore-offshore pipeline, a measuring facility in Cameron Parish, and appurtenant facilities. Such pipeline will extend from the offshore production platform in Block 28 of The California Company, a Division of Chevron Oil Company (California), to a proposed onshore delivery point on the existing 6-inch pipeline of Michigan Wisconsin Pipe Line Company (Michigan Wisconsin) in Cameron Parish, Louisiana. Applicant states that this line is needed in order that it may purchase and receive volumes of gas produced by California in the Block 28 Field. California has filed an application in Docket No. CI74-425 for authorization to sell such gas to Applicant. In conjunction with this purchase, Applicant states it is obligated to transport liquid hydrocarbons (exclusive of crude oil) for California from the Block 28 Field to the terminus of Applicant's proposed pipeline, where liquid hydrocarbons will be extracted by California at California's proposed liquid removal facility, and the residue gas will be delivered to Michigan Wisconsin for Applicant's account. Applicant states that Michigan Wisconsin will transport said gas and redeliver equivalent volumes to Applicant at an existing point of interconnection of their pipelines near Lake Arthur, Louisiana, pursuant to their transportation agreement dated May 3, 1974.

Applicant estimates the cost of the proposed facilities at $1,239,000, which it plans to finance from funds on hand.

Applicant states that it does not anticapte that additional quantities of gas will become available for sale or transportation in the immediate area necessitating the use of the proposed pipeline. Applicant anticipates operating its facilities at a load factor in excess of 60 percent of capacity.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to particpate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[FR Doc.74-13234 Filed 6-7-74;8:45 am]

[Docket Nos. RP71-125 and RP73-110]

NATURAL GAS PIPELINE CO. OF AMERICA

Order Rejecting for Filing Proposed Rate Increase and Accepting for Filing and Suspending Proposed Rate Increase Subject to Refund and Establishing Procedures

May 31, 1974.

On April 15, 1974, Natural Gas Pipe Line Company of America (Natural) tendered for filing in Docket No. RP71-125 a proposed PGA rate increase[1] to become effective June 1, 1974, consisting of an increase of 1.78¢ per Mcf unit to reflect supplier increases and to recover the balance in the deferred purchase gas cost account. The increase is applied to the rates currently effective subject to the refund.

Natural's filing was noticed on April 24, 1974, with protests or petitions to intervene due on or before May 10, 1974. No protests or petitions to intervene have been received.

In addition, on April 15, 1974, Natural filed an alternate increase reflecting increased purchase gas costs referred to above and in addition, reflecting certain amounts related to advance payments made pursuant to a rate settlement in Docket No. RP73-110 which is presently pending before this Commission for approval. The alternate increase is applied to the Settlement rates in Docket No. RP73-110.[2]

Natural's filing was noticed on April 24, 1974, with protests or petitions to intervene due on or before May 10, 1974. No protests or petitions to intervene have been received.

With respect to the April 15, 1974, filing in Docket No. RP71-125, our review of the proposed rate increase indicates that all of the purchased gas costs comprising such rates have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Our review indicates that various small producer increases and various increases related to emergency purchasea sought to be tracked may not conform to the standards we enunciated in Order Nos. 428 and 491.[3] Accordingly, we shall accept for filng Natural's proposed tariff sheets in Docket No. RP71-125 but shall suspend them for one day to be effective June 2, 1974, subject to refund, and provide that the issues raised by the filing be developed in an evidentiary proceeding.

With respect to the alternate PGA filing which increases the settlement rates in Docket No. RP73-110, we note that the proposal is filed pursuant to a Settlement which has yet to be acted on by this Commission. Therefore, Natural's filing is premature and will be rejected.

The Commission finds. (1) It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Natural's April 15, 1974 PGA rate increase filing in Docket No. RP71-125 which increases the rates currently effective, should be accepted for filing, suspended and set for hearing as hereinafter ordered.

(2) Good cause exists to reject Natural's April 15, 1974, alternate PGA filing in Docket No. RP71-125 which increases the proposed settlement rates.

The Commission orders. (A) Natural's April 15, 1974 PGA rate increase filing in Docket No. RP71-125 which increases the currently effective rates, is hereby accepted for filing, suspended and set for hearing as hereinafter ordered.

(B) Pursuant to § 154.24 of the Commission's rules and regulations, Natural's alternate PGA rate increase filing in Docket No. RP71-125 which increases the proposed settlement rates, is hereby rejected.

(C) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules and regulations (18 CFR, Chapter I), a public hearing shall be held on August 27, 1974, for the purpose of cross-examination concerning the lawfulness and reasonableness of the rates and charges in Natural's April 15, 1974 filing.

(D) On or before June 28, 1974, Natural shall serve its prepared testimony and exhibits.

(E) On or before July 26, 1974, the Commission Staff shall serve its prepared testimony and exhibits. Any intervenor evidence shall be filed on or before August 2, 1974. Any rebuttal evidence by El Paso shall be served on or before August 20, 1974.

(F) Pending a hearing and decision thereon, Natural's proposed Fifteenth Revised Sheet No. 5, filed on April 15, 1974, in Docket No. RP71-125 which increases the currently effective rates, is accepted for filing, suspended for one day and the use thereof deferred until June 2, 1974.

(G) A Presiding Administrative Law Judge designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(H) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlements pursuant to § 1.18 of the Commission's rules of practice and procedure.

(I) The Secretary shall cause prompt publication of this order.

By the Commission.

[SEAL] Kenneth F. Plumb,
Secretary.

[FR Doc.74-13230 Filed 6-7-74;8:45 am]

[Docket No. E-8721]

NEVADA POWER CO.

Order Accepting for Filing and Suspending Proposed Rate Increase, Permitting Intervention and Establishing Procedures

May 31, 1974.

On April 9, 1974, Nevada Power Company (Nevada) tendered for filing a proposed change in rate schedule for California-Pacific Utilities Company (C-P). Nevada states that the proposed change in C-P's rates consists of an increase in energy component of 3.89 mills at Henderson, Nevada and 2.47 mills at because the effect of Nevada's filing in an increase in jurisdictional revenues of $445,000. The proposed effective date is June 1, 1974.

In support of the proposed rate increase Nevada states that the proposed rates are necessary to improve the rate of return earned from its wholesale customers.

Notice of the filing was issued on April 9, 1974, with all comments and petitions to intervene to be filed on or before April 29, 1974. The Nevada Public Service Commission filed a Notice of Intervention on May 8, 1974. C-P filed a Petition to Intervene on May 10, 1974.

Petitioner requests suspension of the rate increase for the full five month term because the effect of Nevada's filing would be to increase the cost of electric energy purchased from Nevada by C-P by approximately $80,000 or 23 percent at Needles, California and by approximately $365,000 or 42 percent at Henderson, Nevada.

Our review of Nevada's filing indicates that the proposed rate increase has not been shown to be just and reasonable and may be unjust, unreasonable or unduly discriminatory. Accordingly, we shall suspend the proposed increase for five months and establish hearing procedures to determine the justness and reasonableness of the proposed change in rates, terms and conditions contained therein.

Further, we note that Nevada's Fuel Adjustment Clause is not in conformance with Commission Opinion No. 633 because it imputes fuel cost variations associated with its own generation to purchase power and net interchange power. Accordingly, we shall require Nevada within 30 days of the date of issuance of this order to file a revised fuel clause which conforms to Commission Opinion No. 633.

V 39 — 112 JUN 10 '74 XUM

The Commission finds. (1) The proposed changes in rates and charges tendered by Nevada on April 9, 1974, should be accepted for filing.

(2) The proposed change in rates and charges may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful under section 205 of the Federal Power Act and should be suspended for the full statutory period and set for hearing.

(3) Good cause exists to permit the intervention of the above-named intervenors.

The Commission orders. (A) Pursuant to authority of the Federal Power Act, particularly section 205 thereof, and the Commission's rules of practice and procedure and the regulations under the Federal Power Act (18 CFR, Chapter I), a public hearing shall be held on October 24, 1974 at 10 a.m. in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the lawfulness of Nevada's proposed rate increase.

(B) On or before August 30, 1974, the Commission staff shall serve its prepared testimony and exhibits concerning the proposed amendment. Any prepared testimony and exhibits of C–P shall be served on or before September 23, 1974. Any rebuttal evidence by the Company shall be served on or before October 14, 1974.

(C) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(D) Pending a hearing and a decision thereon, Nevada's proposed changes in its rates and charges including the proposed fuel adjustment clause, tendered on April 9, 1974, are accepted for filing, suspended for the full statutory terms, and the use thereof deferred until November 1, 1974 or until such time as they are made effective in the manner provided by the Federal Power Act.

(E) Within 30 days of the date of issuance of this order, Nevada shall file a revised fuel adjustment clause which conforms to Commission Opinion No. 633.

(F) C–P is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenor shall be limited to matters affecting the rights and interests specifically set forth in its petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket Nos. E–7700, E–7729 and E–7800]

NEW ENGLAND POWER CO.

Compliance Tariff Filing

JUNE 3, 1974.

Take notice that on January 2, 1974, New England Power Company filed in the above-entitled proceedings its FPC Electric Tariff, Original Volume No. 1. NEPCO states the tariff is being filed in compliance with ordering paragraph (B) of the Commission's order issued in the captioned dockets on November 30, 1973, and the settlement agreement therein approved.

NEPCO further states that copies of the filing have been mailed to each of NEPCO's customers and appropriate state commissions.

Any person desiring to be heard and to make any protest with reference to said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 21, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. NEPCO's filing is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

Order Accepting for Filing Limited Term Unit Sales Contract, Denying Waiver and Rejecting Other Unit Sales Contracts Without Prejudice to Requesting Waiver Upon Condition

MAY 31, 1974.

Certain of the Northeast Utilities Companies (NU) (consisting of the Connecticut Light and Power Company (CL&P), the Hartford Electric Light Company (HELCO), and Western Massachusetts Electric Company (WEM CO)) have filed in these dockets short-term unit sales contracts.

On May 1, 1974, HELCO filed as an initial rate schedule in Docket No. E–8756, a unit sale agreement between NU and United Illuminating Company for a percentage of the capability of certain of the South Meadow and Silver Lake Gas Turbine Units for the period from June 1, 1974 through May 31, 1975. The agreement also provides for additional capability from other units in the event that the Millstone Point Unit No. 2 has not commenced commercial operation prior to October 31, 1974. This filing was noticed on May 16, 1974, with comments, protests, or petitions to intervene due on or before May 24, 1974. No responses were received.

Our review indicates that the rates yielded by the formula in this contract are not unjust or unreasonable. Accordingly, we shall accept this contract for filing to become effective on the proposed effective date of June 1, 1974.[1]

On May 1, 1974, CL&P filed in Docket No. E–8757 a short-term unit sale contract between CL&P and Montaup Electric Company (Montaup) for an entitlement percentage from the Montville Unit No. 6 for the period from January 1, 1974 through April 30, 1974. Also on May 1, 1974, HELCO filed in Docket No. E–8758 a short-term unit sale contract between HELCO and Montaup for an entitlement percentage from the Montville Unit No. 4, for the same period from January 1, 1974 through April 30, 1974. Finally, on May 6, 1974, CL&P filed a short-term unit sale contract between NU and Montaup for a percentage of the capability of certain units for the period March 1, 1974, through April 30, 1974. These filings were all accompanied by requests for waiver of the Commission's notice requirements under § 35.3 of the regulations.

These filings were noticed on May 14, 16 and 15, 1974, respectively, with comments and petitions due on or before May 28, 1974, in Docket No. E–8757 and May 24, 1974, in the other dockets. No comments or petitions were received.

We have reviewed these contracts and have concluded that, with respect to the rates of return yielded thereunder through the operation of the cost of service formulas, the rates charged under the contracts may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. These contracts were not filed with the Commission until after their expiration date and service thereunder has presumably ended. Under the provisions of the Federal Power Act and the regulations thereunder, public utilities are required to file rate schedules at least 30 days prior to the date on which service under such schedules is to commence. This notice requirement can be waived for good cause shown. However, under circumstances when a public utility files its proposed rate schedules after service thereunder has terminated, our ability to protect the consumer against what may be unjust, unreasonable, unduly discriminatory or otherwise unlawful rates and charges is jeopardized. Consequently we shall deny waiver of the notice requirements of our regulations and reject these filings. However, this shall be without prejudice to NU filing with the Commission, within 15 days of the issuance of this order, a request that we accept the contracts to be effective as of their proposed effective dates based upon an agreement by NU that the rates charged under these contracts shall be subject to refund pending final disposition upon the conclusion of a hearing. In the event NU declines to file such a request and agreement, we believe our responsibility to protect the ratepayers against what may be excessive rates and charges requires that we reaffirm our rejection of these contracts and order that rates charged thereunder be repaid in full pursuant to our authority under section 309 of the Federal Power Act. After receipt of NU's response, if any, we shall issue a further order taking appropriate action.

The Commission finds. (1) Good cause exists to accept HLECO's rate schedule consisting of the unit sale agreement between NU and United Illuminating Company filed in Docket No. E–8756 on May 1, 1974, to be effective as of June 1, 1974.

(2) The requested waiver of the Commission's regulations in Docket Nos. E–8757, E–8758 and E–8781 should be denied.

(3) The proposed unit sales agreements filed by CL&P and HELCO on April 18, and 23, 1974 in Docket Nos. E–8757, E–8758 and E–8781 should be rejected, as failing to meet the requirements of section 205 of the Federal Power Act and § 35.3 of the regulations thereunder, without prejudice to NU filing with the Commission, within 15 days of the issuance of this order, a request that the Commission accept the contracts to be effective as of their proposed effective dates based upon an agreement by NU that the rates charged under these contracts shall be subject to refund pending final disposition upon the conclusion of a hearing.

The Commission orders. (A) HELCO's rate schedule consisting of the unit sale agreement between NU and United Illuminating Company filed in Docket No. E–8756 on May 1, 1974, is accepted to become effective as of June 1, 1974.

(B) The requested waiver of the Commission's regulations in Docket Nos. E–8757, E–8758 and E–8781 is denied.

(C) The proposed unit sales agreements filed by CL&P and HELCO on May 1 and 6, 1974, in Docket Nos. E–8757, E–8758 section 205 of the Federal Power Act and § 35.3 of the regulations thereunder, without prejudice to NU filing with the Commission, within 15 days of the issuance of this order, a request that the Commission accept the contracts to be effective as of their proposed effective dates based on an agreement by NU that the rates charged under these contracts shall be subject to refund pending final disposition upon the conclusion of a hearing.

(D) The Commission Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E–8814]

NORTHERN STATES POWER CO.

Notice of Application

JUNE 3, 1974.

Take notice that on May 24, 1974, Northern States Power Company (Applicant) filed an application seeking an order pursuant to section 204 of the Federal Power Act authorizing the issuance of 300,000 shares of its new series Cumulative Preferred Stock, par value $100 per share (New Preferred Stock).

Applicant is incorporated under the laws of the State of Minnesota with its principal business office at Minneapolis, Minnesota, and is engaged in the electric utility business in central and southern Minnesota, southeastern South Dakota, and in the Fargo-Grand Forks and Minot areas of North Dakota.

The New Preferred Stock is to be issued on or about July 18, 1974, and the dividend rate thereof will be determined by competitive bidding pursuant to the Commission's regulations. None of the shares of the New Preferred Stock will be redeemable prior to July 1, 1979, from the proceeds of issuance of any debt having an effective interest cost or any preferred stock having a dividend cost less than the effective cost of the New Preferred Stock.

The proceeds from the sale of the New Preferred Stock will be added to the general funds of Applicant and will be used to prepay some of the outstanding short-term borrowings of the Applicant, which are estimated at $90 million as of the date of issuance and delivery of the New Preferred Stock. The short-term borrowings have been or will be incurred in connection with the construction program of Applicant and for temporary advances to Northern States Power Company, a Wisconsin corporation, a wholly owned subsidiary of applicant, for its construction program.

Expenditures during 1974 for the construction program of Applicant are estimated at $245 million, of which $223 million is for electric facilities, $14 million for gas facilities, and $8 million for heating, telephone, and general facilities.

Any person desiring to be heard or to make any protest with reference to said application should, on or before June 14, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project Nos. 2243, 2273, 533; Docket No. E–7437]

PACIFIC NORTHWEST POWER CO., ET AL.

Notice of Persons Attending Tour

MAY 31, 1974.

In the matter of Pacific Northwest Power Company and Washington Public Power Supply System, City of Seattle, and Rivers Navigation Company v. Idaho Power Company.

By notice issued May 9, 1974, it was announced that Commissioners of the Federal Power Commission would view by boat on Thursday, May 23, the sites for proposed developments of Project Nos. 2243 and 2273 on the Snake River and on Friday, May 24, 1974, would take an aerial view of the Ross Dam Project No. 553 and the Skagit River Valley approximately 40 miles into British Columbia. The tour was conducted as announced except that because of weather conditions the Ross Dam and Skagit River portion was cancelled, and the tour was diverted to inspect the Atlantic-Richfield Cherry Point Refinery northwest of Bellingham, Washington.

The notice of May 9, 1974, invited representatives of parties and other interested parties to be present but provided that no discussion concerning any of the issues would take place between the Commissioners and representatives of the parties or other interested persons. Following is a list of persons who attended the tour:

John N. Nassikas, Chairman, Federal Power Commission;
Rush Moody, Jr., Commissioner, Federal Power Commission;
Don S. Smith, Commissioner, Federal Power Commission;
Webster P. Maxson, Executive Director, Federal Power Commission;
Dan W. Schausten, Assistant to the Administrator, Public Affairs, Bonneville Power Administration;
George M. Dynes, President, Pacific Northwest Waterways Association;

V 39 112 JUN 10 74 XUM

- H. Calvert Anderson, Executive Vice President, Pacific Northwest Waterways Association;
- Richard L. Welch, General Manager, Pacific Northwest Power Company;
- Jack J. Stein, Managing Director, Washington Public Power Supply System;
- Ed Fischer, Chairman of the Executive Committee, Washington Public Power Supply System;
- Colonel Nelson P. Conover, Walla Walla, District Engineer, U.S. Army Corps of Engineers;
- Captain Dick Rivers, Rivers Navigation Company, Pilot, and his son.

Kenneth F. Plumb,
Secretary.

[Docket No. CI74-675]

PENNZOIL CO.

Notice of Application

May 31, 1974.

Take notice that on May 20, 1974, Pennzoil Company (Applicant), 900 Southwest Tower, Houston, Texas 77002, filed in Docket No. CI74-675 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce of Transwestern Pipeline Company (Transwestern) from the South Carlsbad-Morrow Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell to Transwestern up to 10,000 Mcf of natural gas per day, plus additional gas, if available, at a rate of 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, within the contemplation of Section 2.70 of the Commission's General Policy and Interpretations (18 CFR 2.70). Estimated sales are 30,000 Mcf of gas per month. Estimated initial upward Btu adjustment is 0.225 cent per Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974 filed with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[Docket No. CI74-637]

PENNZOIL CO.

Further Notice of Application

May 31, 1974.

Take further notice that on May 8, 1974, Pennzoil Company (Applicant), 900 Southwest Tower, Houston, Texas 77002, filed in Docket No. CI74-637 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Mississippi River Transmission Corporation (Mississippi) from the Mills Ranch Field, Wheeler County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell to Mississippi an estimated 85,000 Mcf of natural gas per month for six months from the Mills Ranch Field at a rate of 55.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, with an estimated initial downward Btu adjustment of 0.11 cent per Mcf, within the contemplation of section 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). By letter dated May 6, 1974, Applicant advises the Commission of its willingness to accept a certificate conditioned to a rate of 45.0 cents per Mcf, plus adjustment for Btu content, if the approval of this price is granted without hearing.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules. Persons who have already filed petitions to intervene or protests need not do so again.

Kenneth F. Plumb,
Secretary.

[Docket No. CI74-667]

PETROFUNDS, INC.

Notice of Application

May 31, 1974.

Take notice that on May 15, 1974, Petrofunds, Inc. (Applicant), 2200 Esperson Building, Houston, Texas 77002, filed in Docket No. CI74-667 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corporation (Texas Eastern) from the Northeast Lisbon Field, Claiborne Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced the sale of natural gas on November 28, 1973, from subject acreage to Texas Eastern within the contemplation of § 157.29 of the Commission's regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the 180-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 10,000 Mcf of gas per month at 45.0 cents per Mcf at 15.025 psia, subject to downward Btu adjustment from a base of 1,000 Btu per cubic foot.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 24, 1974 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is

filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[Docket No. CI71-296]

SOUTHERN NATURAL GAS CO.

Petition to Amend

June 3, 1974.

Take notice that on May 15, 1974, Southern Natural Gas Company (Petitioner), P.O. Box 2563, Birmingham, Alabama 35202, filed in Docket No. CP71-296 a petition to amend the order issued in the subject docket on October 8, 1971 (46 FPC 813), pursuant to section 7(c) of the Natural Gas Act authorizing the sale of natural gas by Petitioner to Texas Eastern Transmission Corporation (Texas Eastern) by authorizing accelerated or delayed deliveries of natural gas, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

By order issued October 8, 1971, Petitioner was authorized to sell to Texas Eastern, pursuant to an agreement between the two parties dated June 7, 1971, certain specified volumes of natural gas at an existing delivery point near Kosciusko, Mississippi. The said agreement constitutes Rate Schedule No. F-11 to Petitioner's FPC Gas Tariff, Original Volume No. 3.

Petitioner states that in order to achieve greater flexibility in gas deliveries and pursuant to its agreement with Texas Eastern dated April 8, 1974, it seeks herein authorization for acceleration or delay in delivery of annual gas volumes under the June 7, 1971, agreement. Petitioner states that no new facilities are required, since its existing facilities are more than adequate to transport and deliver the small quantities of gas involved in said sale.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Kenneth F. Plumb,
Secretary.

[FR Doc.74-13218 Filed 6-7-74;8:45 am]

[Docket No. RP73-49]

SOUTH GEORGIA NATURAL GAS CO.

Revision to Tariff

May 31, 1974.

Take notice that on May 24, 1974, South Georgia Natural Gas Company (South Georgia) tendered for filing as part of Original Volume No. 1 to its FPC Gas Tariff the following amendments to the revised tariff sheets which were filed with the Commission on May 16, 1974:

Substitute Sixth Revised Sheet No. 3A
Substitute Thirty-First Revised Sheet No. 5
Substitute Thirtieth Revised Sheet No. 6
Substitute Twenty-Second Revised Sheet No. 9
Substitute Twenty-First Revised Sheet No. 11
Substitute Twenty-Fifth Revised Sheet No. 12B

South Georgia states that the above sheets represent a rate change under its PGA clause, such clause approved to become effective April 14, 1973, by Commission Order in FPC Docket No. RP73-49 issued April 13, 1973. The company further states that it proposes to increase its rates $401,634 for the purpose of tracking a rate increase filing by Southern Natural Gas Company (Southern) on May 16, 1974, which will increase South Georgia's cost of gas $694,861 annually. An effective date on July 1, 1974 is requested.

South Georgia further states that the instant amendments are in substitution for a filing made on May 16, 1974. South Georgia asserts that the May 16, 1974 filing was based on preliminary rates supplied by Southern which were subsequently adjusted by Southern to those set forth in the instant substitute filing. The instant filing results in jurisdictional rates which are $54,391 lower than those originally filed on May 16, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 14, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

[Docket No. RP74-51]

SOUTHWEST GAS CORP.

Further Extension of Time and Postponement of Prehearing Conference and Hearing

May 31, 1974.

On May 20, 1974, Staff Counsel filed a motion for a further extension of the procedural dates fixed by notice issued April 24, 1974, in the above-designated matter. The motion states all parties concur in the motion.

Upon consideration, notice is hereby given that the procedural dates are further modified as follows:

Service of Staff's Testimony, June 14, 1974.
Service of Intervener's Testimony, July 5, 1974.
Service of Company's Rebuttal Testimony, July 22, 1974.
Presearing Conference, July 30, 1974.
Prehearing Conference, July 30, 1974 (10 a.m. e.d.t.).
Hearing, August 6, 1974 (10 a.m. e.d.t.).

Kenneth F. Plumb,
Secretary.

[FR Doc.74-13240 Filed 6-7-74;8:45 am]

[Docket Nos. RP73-114, RP74-24 and RP74-73]

TENNESSEE GAS PIPELINE CO.

Proposed Rate Changes Under Tariff Rate Adjustment Provisions

May 31, 1974.

Take notice that on May 16, 1974, as corrected on May 23, 1974, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), tendered for filing proposed changes to Ninth Revised Volume No. 1 of its FPC Gas Tariff to be effective on July 1, 1974, consisting of the following revised tariff sheets:

Second Substitute Fourth Revised Sheet Nos. 12A and 12B, and, alternatively,
Third Substitute Fourth Revised Sheet Nos. 12A and 12B

Tennessee states that the sole purpose of Second Substitute Fourth Revised Sheet Nos. 12A and 12B is to adjust Tennessee's rates pursuant to Articles XXIII, XXIV and XXV of the General Terms and Conditions, consisting of a PGA rate adjustment, a rate adjustment to reflect curtailment demand charge credits, and an R&D rate adjustment. Tennessee states that its R&D rate adjustment provision pending before the Commission on Tennessee's application for rehearing in Docket No. RP74-73 should be accepted and requests a waiver of the Commission's regulations in the interest of customer rate stability for the inclusion of the R&D rate adjustment in this filing. Alternatively, in the event the Commission does not accept the tariff

V 39 112 JUN 10 74 XUM

sheets including the R&D rate adjustment, Tennessee states that it has filed Third Substitute Fourth Revised Sheet Nos. 12A and 12B which exclude the R&D rate adjustment.

Tennessee states that copies of the filing have been mailed to all of its jurisdictional customers and affected state regulatory commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 20, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene, provided, however, that any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

[FR Doc.74-13210 Filed 6-7-74;8:45 am]

[Docket No. RP74-41]

TEXAS EASTERN TRANSMISSION CORP.

Proposed Changes in FPC Gas Tariff

May 31, 1974.

Take notice that Texas Eastern Transmission Corporation on May 17, 1974, tendered for filing proposed changes in its FPC Gas Tariff, Fourth Revised Volume No. 1, the following sheets:

First Revised Sheet No. 14
First Revised Sheet No. 14A
First Revised Sheet No. 14B
First Revised Sheet No. 14C
First Revised Sheet No. 14D

Texas Eastern states that these sheets are being issued pursuant to Texas Eastern's purchased gas cost adjustment provision contained in section 23 of the general terms and conditions of its FPC Gas Tariff, Fourth Revised Volume No. 1, and that the change in Texas Eastern's rates proposed by this filing reflects a cost of gas adjustment and an adjustment to clear the balance of the gas cost adjustment account.

The proposed effective date of the above tariff sheets is July 1, 1974.

Copies of the filing were served upon the company's jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 13, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Kenneth F. Plumb,
Secretary.

[FR Doc.74-13208 Filed 6-7-74;8:45 am]

[Docket No. CP74-288]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Application

May 31, 1974.

Take notice that on May 13, 1974, Texas Eastern Transmission Corporation (Applicant), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP74-288 an application pursuant to section 7 (b) and (c) of the Natural Gas Act and § 157.7(g) of the regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission and approval of the abandonment, for the 12-month period commencing July 1, 1974, and operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment will not exceed $2,000,000, nor will the cost of any single project exceed $500,000. Applicant states that the proposed facilities will be initially financed from funds made available from company operations and may at some later date be financed through issuance of long-term debt or additional equity.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by section 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Kenneth F. Plumb,
Secretary.

[Docket No. RI74-240]

TERRA RESOURCES, INC.

Petition for Special Relief

May 31, 1974.

Take notice that on May 20, 1974, Terra Resources, Inc. (Petitioner), P.O. Box 2329, Tulsa, Oklahoma 74101, filed a petition for special relief in Docket No. RI74-240, seeking a rate above the applicable area ceiling under Order No. 481. Petitioner seeks a price of 61.0 cents per Mcf for the sale of gas to Texas Eastern Transmission Corporation from the Skull Creek Field, Colorado County, Texas. The petition is based upon economic conditions, and Petitioner states that it cannot justify producing his well at the presently authorized contractual price; and Texas Eastern desires to prevent the premature abandonment of production due to economic reasons.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

Kenneth F. Plumb,
Secretary.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

COMMISSIONER'S ADVISORY GROUP

Notice of Meeting

Notice is hereby given that pursuant to section 10(a) (2) of the Federal Advisory Committee Act, Pub. L. 92-463, a meeting of the Commissioner's Advisory Group will be held on June 26 and 27, 1974, beginning at 10 a.m. in Room 3313, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224. The agenda will include various topics concerning the procedures and operations of the Internal Revenue Service.

The meeting will be open to the public. It is to be held in a room accommodating 50 people. In addition to discussion of agenda topics by Committee Members, there will be time for statements by nonmembers. Persons wishing to make oral statements should so advise the Executive Secretary prior to the meeting to aid in scheduling the time available. Any interested person may file a written statement for consideration by the Committee by sending it to the Executive Secretary, Room 3009, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224.

Donald C. Alexander,
Commissioner.

FEDERAL RESERVE SYSTEM

INGALLS INSURANCE AGENCY, INC., AND McCUNE AGENCY

Order Approving Retention of Assets

Ingalls Insurance Agency, Inc., Ingalls, Kansas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 4(c) (8) of the Act and § 225.4(b) (2) of the Board's Regulation Y to retain the assets of Ingalls Insurance Agency, Ingalls, Kansas ("Ingalls") and the assets of McCune Agency, Montezuma, Kansas ("McCune"), both of which engage in the activity of acting as general insurance agencies in communities with populations of less than 5,000. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a) (9) (iii) (a)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 12386). The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in the light of the public interest factors set forth in section 4(c) (8) of the Act (12 U.S.C. 1843(c) (8)).

Applicant controls one bank, The Farmers State Bank, Ingalls, Kansas, with deposits of $3.5 million representing about one-half of 1 percent of total deposits in commercial banks in Kansas.[1] Applicant has applied to retain the assets of Ingalls and, as a consequence, also retain the assets of McCune. The assets of McCune are customer referral lists, and these have been so integrated with the customer referral lists of Ingalls that it would be difficult to separate the two.[2] Ingalls had premium income of $231,000 for the year 1973.

The Board regards the standards under section 4(c) (8) for retention to be the same as the standards for proposed acquisition. The Board must find that proposed retention of a nonbanking company can reasonably be expected to produce benefits to the public such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices.

Applicant acquired Ingalls in 1970 when it acquired The Farmers State Bank. The acquisition of Ingalls did not have any adverse effects on existing competition since Applicant did not then operate an insurance agency. Moreover, Applicant's acquisition of Ingalls guaranteed that the latter would be able to continue to operate and provide a convenient service.

Applicant subsequently acquired McCune when the sole proprietor of McCune was in the process of curtailing his activities. Therefore, the acquisition did not have any significant effect on existing or potential competition between Ingalls and McCune. Additionally, the acquisition of McCune provided positive benefits in guaranteeing that the customers of McCune would continue to have available insurance services.

Approval of applicant's application to retain Ingalls will provide benefits to the public by enabling Ingalls to remain a viable source of convenient insurance services in a community of under 5,000. There is no evidence in the record to indicate that the proposed retention of Ingalls by Applicant would lead to an undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects on the public interest.

Based on the foregoing and other considerations reflected in the record, the Board has determined that the balance of public interest factors the Board is required to consider under section 4(c) (8) is favorable. Accordingly, the application is hereby approved. This determination is subject to conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

By order of the Board of Governors,[3] effective May 31, 1974.

[SEAL] Chester B. Feldberg,
Secretary of the Board.

[FR Doc.74-13185 Filed 6-7-74;8:45 am]

---

[1] All banking data are as of June 30, 1973.

[2] From here on, reference to this retention of Ingalls will also be considered to include reference to McCune. McCune's office in Montezuma was closed after the acquisition by Applicant and the insurance business is now conducted on the premises of The Farmers State Bank.

[3] Voting for this action: Chairman Burns and Governors Brimmer, Sheehan, Holland, and Wallich. Absent and not voting: Governors Mitchell and Bucher.

KOREA EXCHANGE BANK

Order Approving Formation of Bank Holding Company

Korea Exchange Bank, Seoul, Korea, has applied for the Board's approval under section 3(a) (1) of the Bank Holding Company Act (12 U.S.C. 1842(a) (1)) of formation of a bank holding company through acquisition of 100 percent of the shares) of Korea Exchange Bank of California, Los Angeles, California ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, wholly-owned by the Korean government,[1] is the largest commercial bank in Korea with total assets of approximately $4.0 billion and total deposits of approximately $1.4 billion.[2] Applicant operates a total of 15 branches in Korea, and also has 19 overseas offices, including an agency in Los Angeles and an agency in New York City.

Bank proposes to be a full service bank competing both in the wholesale and retail banking markets in the Los Angeles area. In the wholesale market, bank will specialize in the financing of trade between the Republic of Korea and the United States, and in this regard is expected to compete primarily with the larger California banks having international banking capabilities. While bank proposes to engage in all areas of retail banking, it is expected that most of its retail banking business will come from the Korean community in the Los Angeles area. Applicant does have one office in Los Angeles, but that office is an agency and is not authorized to accept deposits. Based on the record before it, the Board concludes that bank's entry into the Los Angeles area will have no adverse effects on existing or potential competition, nor would it have a significant effect on the concentration of banking resources in any relevant area. Rather, the addition of Bank will provide increased banking facilities and competition.

---

[1] Bank of Korea, the Korean central bank which is wholly-owned by the Republic of Korea, and the Republic of Korea together own all of Applicant's outstanding capital stock.

[2] All banking and financial data for Applicant are as of December 31, 1973.

V 39 112 JUN 10 74 XUM

The financial and managerial resources and prospects of applicant and bank are regarded as satisfactory and consistent with approval. Considerations relating to the convenience and needs of the community to be served lend some weight toward approval, due to the addition to the area of a new bank and an additional international banking link with the Republic of Korea.

On the basis of the record, the application is approved for the reasons set forth in the Board's statement of this date. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after that date, and (c) Korea Exchange Bank of California, Los Angeles, California, shall be opened for business not later than six months after the effective date of this Order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of San Francisco pursuant to delegated authority.

By order of the Board of Governors,[1] effective May 31, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74–13184 Filed 6–7–74;8:45 am]

TENNESSEE VALLEY BANCORP, INC.

Order Amending Requirement for Divestiture of Ownership of Real Estate in Connection with Acquisition of Shares of Kimbrough-Kavanaugh and Associates, Inc., Nashville, Tennessee

By Order dated July 30, 1973, the Board approved an application of Tennessee Valley Bancorp, Inc., Nashville, Tennessee, a bank holding company within the meaning of the Bank Holding Company Act, to acquire 90 percent or more of the voting shares of Kimbrough-Kavanaugh and Associates, Inc., Nashville, Tennessee ("Company"). The Board's Order required divestiture of Company's equity interests in real estate, not utilized as offices, prior to consummation of the acquisition. The acquisition of Company by Applicant has not been effected.

By letter dated April 9, 1974, Applicant requested modification of the Board's Order to permit retention of two remaining parcels of unimproved real estate which are owned by Company and which has been acquired through loan foreclosures in the normal course of Company's business. Applicant anticipates that one of the two tracts of land, now under an option to purchase, will be disposed of within a short time, and states that active efforts are being made to sell the remaining tract of land.

The Board has concluded that the request should be granted. Accordingly, the Board's Order of July 30, 1973, is hereby amended to authorize retention of the two remaining tracts of land subject to the condition that Applicant divest such real estate properties at the earliest possible date, but in no event later than one year from the date of consummation of the proposal.

By order of the Board of Governors,[1] effective May 31, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74–13183 Filed 6–7–74;8:45 am]

UNITED VIRGINIA BANKSHARES INC.

Proposed Acquisition of Bank Management Consultants Inc.

United Virginia Bankshares Incorporated, Richmond, Virginia, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843 (c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire voting shares of Bank Management Consultants Inc., Richmond, Virginia. Notice of the application was published on various dates during the month of April and the first week in May, 1974, in newspapers of general circulation in approximately fifteen cities throughout the states of Virginia, Maryland, North Carolina, South Carolina, West Virginia, Georgia, Pennsylvania, New Jersey and New York and the District of Columbia.

Applicant states that the proposed subsidiary would engage in the activities of offering management consulting advice and technical assistance to non-affiliated banks, including but not limited to bank operations, planning, market research and financial analysis. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Richmond.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than June 28, 1974.

Board of Governors of the Federal Reserve System, May 31, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

SECURITIES AND EXCHANGE COMMISSION

BROKER-DEALER MODEL COMPLIANCE PROGRAM ADVISORY COMMITTEE

Notice of Public Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committees Act, Public Law 92–463, 86 Stat. 770, the Securities and Exchange Commission announces the following public advisory committee meetings.

The Commission's Advisory Committee on a Model Compliance Program for Broker-dealers, established on October 25, 1972 (Securities Exchange Act Release No. 9835), will hold meetings on June 19–20, 1974, at the Essex House, 160 Central Park South, New York, New York, Room M 11. The meeting on June 19 will commence at 10 a.m. and the meeting on June 20 will commence at 9 a.m.

This Advisory Committee was formed to assist the Commission in developing a model compliance program to serve as an industry guide for the broker-dealer community. Assisted by this Committee's work, the Commission plans to publish a guide to broker-dealer compliance under the securities acts in order to advise broker-dealers of the standards to which they should adhere if investor confidence in the fairness of the market place is to be warranted and sustained. The Committee's recommendations are not intended to result in the expansion of Commission rules governing broker-dealers, but to inform broker-dealers as to the existing requirements and how they may comply with them.

The Committee's scheduled meetings will be for the purpose of reviewing drafts and proposals concerning the Committee's proposed report to the Commission on these compliance guidelines for broker-dealers.

These meetings are open to the public. Any interested person may attend and appear before or file statements with the Advisory Committee—which statements, if in written form, may be filed before or after the meetings or, if oral, at the time and in the manner and extent permitted by the Advisory Committee.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

JUNE 4, 1974.

[FR Doc.74–13318 Filed 6–6–74;12:29 p.m.]

[Rel. No. 8374]

BACHE & CO. INC.

Notice of Application Filed

JUNE 3, 1974.

Notice is hereby given that Bache & Co. Incorporated, a registered broker-dealer corporation with its principal office at 100 Gold Street, New York, New York 10038 (the "Applicant"), in connection with a proposed public offering of shares of Common Stock of Extractable Resources, Inc. (the "Company"), a registered, diversified, closed-end management investment company that intends to propose to its shareholders in 1975 that the Company should become an open-end investment company for purposes of redemption and also intends to have as its investment adviser the Vestaur Corporation ("Adviser"), a wholly-owned subsidiary of the First Pennsylvania Corporation, a bank holding company, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (the "Act") for an order exempting Applicant and its co-underwriters from section 30(f) of the Act, which incorporates section 16 of the Securities Exchange Act of 1934 ("Exchange Act"), with respect to their transactions incidental to the distribution of Company shares. All interested persons are referred to the application on file with the Commission for a statement of the representations therein, which are summarized below.

Applicant and Harris, Upham & Co. Incorporated, 120 Broadway, New York, New York 10005, are the prospective representatives (the "Representatives") of a group of underwriters (the "Underwriters") being formed in connection with the above-mentioned public offering.

Shares of the company are to be purchased by the Underwriters pursuant to an Underwriting Agreement (the "Underwriting Agreement") to be entered into between the Underwriters, represented by the Representatives, and the

V 39—112 JUN 10 74 XUM

Company. It is also contemplated that one or more dealers will offer and sell certain of the shares and in connection with such offer and sale, each such dealer will execute a Selected Dealers Agreement. It is intended that the several Underwriters will make a public offering of all the Company shares which such Underwriters are to purchase under the Underwriting Agreement at the price therein specified, as soon on or after the effective date of the Company's Registration Statement on Form S–4 (the "Registration Statement") as the representatives deem advisable, and such shares are initially to be offered to the public at a per share public offering price and subject to underwriting commissions to be specified in the prospectus (the "Prospectus" incorporated in the Registration Statement at the time the registration statement becomes effective under the Securities Act of 1933, as amended. Although 4,840,000 shares have been included for registration in the Registration Statement, the actual number of shares which may be the subject of the proposed public offering may be increased or decreased by the Representatives and the Company shortly before the effective date of the Registration Statement and the proposed public offering, depending upon market conditions and other factors and the exercise of an overallotment election granted to the Underwriters.

The underwriting commitment of any one or more of the Underwriters, including each of the Representatives, may exceed 10 percent of the aggregate number of shares of the Company's Common Stock to be outstanding after the purchase by the several Underwriters pursuant to the Underwriting Agreement or upon the completion of the initial public offering or at some interim time. In addition to purchases of shares from the Company and sales of shares to customers, there may also be the usual transactions of purchase or sale incident to a distribution, such as stabilizing purchases, purchases to cover overallotments or other short positions created in connection with such distribution, and sales of shares purchased in stabilization. Since section 30(f) of the Act subjects every person who is directly or indirectly the beneficial owner of more than 10 percent of any class of outstanding securities of the Company to the same duties and liabilities as those imposed by section 16 of the Exchange Act in respect of their transactions in certain securities, such Underwriter or Underwriters may, accordingly, become subject to the filing requirements of section 16(a) of the Exchange Act and, upon resale of the shares purchased by them to their customers, become subject to the obligations imposed by section 16 (b) of the Exchange Act.

However, Rule 16b–2 under the Exchange Act exempts certain transactions in connection with a distribution of securities from the operation of section 16(b) of that Act. Applicant states that the purpose of the purchase of the shares by the Underwriters will be for resale in connection with the initial distribution of the shares and that such purchase and sales, therefore, will be transactions effected in connection with a distribution of a substantial block of securities within the purpose and spirit of Rule 16b–2. Nevertheless, the Underwriters may fail to meet the requirement for exemption from section 16(b) stated in Rule 16b–2(a)(3), i.e., that the aggregate participation of persons not within the purview of section 16(b) of the Exchange Act must be at least equal to the participation of persons receiving the exemption under Rule 16b–2, because one or more of the Underwriters who, pursuant to the Underwriting Agreement, may purchase more than 10 percent of the shares of the Company, may be obligated to purchase more than 50 percent of the shares of the Company being offered.

Applicant states that prior to the initial distribution of the shares, the Company will have no assets, other than cash, or business of any sort, and all material facts with respect to the Company will be set forth in the prospectus pursuant to which the shares will be offered and sold. Except for Charles J. Anderson, Jr., who is a First Vice President and Director of the Harris, Upham & Co. Incorporated and a Director of the Company, no director or officer of the applicant or of Harris, Upham & Co. Incorporated, is a director or officer of either the Comany or the Adviser, and Applicant states that it does not anticipate that any partner, director, or officer of any other Underwriter will be a director or officer of the Company or the Adviser.

Applicant submits that the requested exemption from the provisions of section 30(f) of the Act is necessary or appropriate in the public interest and consistent with the protection of investors and purposes fairly intended by the policy and provisions of the Act. Applicant further contends that the transactions sought to be exempted cannot lend themselves to the practices section 16(b) of the Exchange Act and section 30(f) of the Act were enacted to prevent.

Section 6(c) of the Act authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities, or transactions from any provision or provisions of the Act or of any rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than June 25, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his or her interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he or she may request that he or she be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following June 25, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 8373]

EXTRACTABLE RESOURCES, INC.

Notice of Filing of Application

JUNE 3, 1974.

Notice is hereby given that Extractable Resources, Inc. ("Applicant"), 1411 Walnut Street, Philadelphia, Pennsylvania 19102, a diversified, closed-end management investment company which intends to propose to its shareholders in 1975 that the company should become an open-end investment company for purposes of redemption, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (the "Act"), for an order of exemption from sections 15(a) and 16(a) of the Act to the extent necessary to permit Vestaur Corporation, a wholly-owned subsidiary of the First Pennsylvania Corporation, a bank holding company, to serve as investment adviser of the Applicant pursuant to a written investment advisory contract approved by the Applicant's Board of Directors without the prior approval of the stockholders of the Applicant, and to permit directors of Applicant to serve as directors without having been elected to such position by the stockholders of the Applicant, such exemptions to be effective until the first meeting of stockholders to be held within 180 days after the effective date of Applicant's Form S–4 Registration Statement filed under the Securities Act of 1933 ("1933 Act"). All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

Applicant presently has no stockholders. It proposes to issue up to 4,840,000 shares of its Common Stock when its

1933 Act Registration Statement becomes effective. Applicant proposes to enter into an agreement with Vestaur Corporation under which that company will serve as investment adviser of the Applicant.

Section 15(a) of the Act provides that "[i]t shall be unlawful for any person to serve or act as investment adviser of a registered investment company, except pursuant to a written contract, which * * * has been approved by the vote of a majority of the outstanding voting securities of such registered investment company * * *" Section 16(a) of the Act provides, with limited exceptions not here applicable, that "[n]o person shall serve as a director of a registered investment company unless elected to that office by the holders of the outstanding voting securities of such company, at an annual or a special meeting duly called for that purpose * * * Inasmuch as the Applicant has not had any stockholders to date, the present Board of Directors of the Applicant has not been elected by the stockholders.

Applicant represents that the proposed investment advisory contract will comply with the provisions of the Act in all respects, except that the adviser will initially serve as such before the advisory contract has been approved by the stockholders as provided in section 15(a) of the Act. Applicant also represents that the persons serving as directors of the Applicant will meet all of the requirements of the Act, except that they will serve initially without having been elected to that office by the stockholders as provided by Section 16(a) of the Act.

Applicant states that at the meeting of stockholders to be held within 180 days of effectiveness of the Registration Statement on Form S–4, the investment advisory contract will be presented for approval and the entire Board of Directors will stand for election. Applicant also states that as to the period prior to such meeting, the prospectus used by the Applicant in connection with the sale of its shares pursuant to the 1933 Act will contain full appropriate information concerning the investment advisory contract and the directors.

Section 6(c) of the Act authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities or transactions, from any provision or provisions of the Act or of any rule or regulation thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policies and provisions of the Act.

Applicant submits that the proposed postponement of formal shareholder action on the approval of the investment advisory contract and the selection of the Applicant's directors is reasonable and fair and the exemptions requested are necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than June 25, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or such person may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued as of course following June 25, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[Rel. No. 8372]

HIGHLAND CAPITAL CORP., ET AL.

Notice of and Order for Hearing on Application

JUNE 3, 1974.

Highland Capital Corporation ("Highland") and Marathon Securities Corporation ("Marathon"), Delaware corporations registered under the Investment Company Act of 1940 ("Act") as closed-end investment companies, Messrs. Walter Scheuer, Edwin Robbins and Louis Shorenstein and Gaymark Associates (hereinafter collectively referred to as "Applicants") have filed a joint application pursuant to sections 6(c), 17(b), and 17(d) of the Act and Rule 17d–1 thereunder for an order exempting from section 17(a) and permitting under section 17(d) and Rule 17d–1 thereunder the merger of two affiliated investment companies, and exempting from section 17(e)(1) the continued receipt of salaries from both companies by common officers of both companies until consummation of the merger.

The Commission, on January 31, 1973, issued a notice of the filing of said application (Investment Company Act Release No. 8211). The notice, which is incorporated herein by reference, gave interested persons an opportunity to request a hearing and stated that an order disposing of the application might be issued upon the basis of the information stated therein, unless a hearing should be ordered.

Certain interested persons have filed a request for a hearing. It appears to the Commission that it is appropriate in the public interest and consistent with the protection of investors to hold a hearing with respect to said application.

It is ordered, Pursuant to section 40 (a) of the Act, that a hearing on said application under the applicable provisions of the Act and the Commission rules thereunder be held on Monday, July 15, 1974 at 10 a.m., in the offices of the Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549. At such time, the Hearing Room Clerk will advise as to the room in which such hearing will be held. Any person desiring to be heard or otherwise wishing to participate in the proceeding is directed to file with the Secretary of the Commission his application as provided by Rule 9(c) of the Commission's Rules of Practice, on or before the date provided in the Rule, setting forth any issues of law or fact which he desires to controvert, or any additional issues which he deems raised by this Notice and Order or by said application. Persons filing an application to participate or be heard will receive notice of any adjournment of the hearing as well as other actions of the Commission involving the subject matter of these proceedings.

It is further ordered, That any officer or officers of the Commission designated by it for that purpose shall preside at said hearing. The officer so designated is hereby authorized to exercise all the powers granted to the Commission under sections 41 and 42(b) of the Act and to an Administrative Law Judge under the Commission's Rules of Practice.

The Division of Investment Management Regulation has advised the Commission that it has made a preliminary examination of the application and that upon the basis thereof the following matters and questions are presented for consideration without prejudice to its specifying additional matters and questions upon further examination:

(1) Whether the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned;

(2) Whether the proposed transaction is consistent with the policies of Highland and Marathon, as recited in their registration statements and reports filed under the Act;

(3) Whether the proposed transaction is consistent with the general purposes of the Act;

(4) Whether the participation of Highland and Marathon in such transaction on the basis proposed is consistent with the provisions, policies and purposes of the Act, and the extent to which

V 39 112 JUN 10 74 XUM

the participation of Highland and Marathon is on a basis different from, or less advantageous than, that of other participants;

(5) Whether Marathon's distributions of cash and securities to its shareholders in 1972 and 1973 call into question the stated purposes for the proposed merger: (a) Making possible meaningful operating economies for the combined entity; (b) improving the viability of the continuing company; and (c) enhancing the marketability of the securities of the continuing company; and

(6) Whether the securities in the portfolios of Marathon and Highland were properly valued.

It is further ordered, That at the aforesaid hearing attention should be given to the foregoing matters.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this notice and order by registered mail to the Applicants and to the persons who have requested a hearing; that notice to all other persons be given by publication of this notice and order in the FEDERAL REGISTER; and that a general release of this Commission in respect of this notice and order be distributed to the press and mailed to the mailing list for release.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.74-13276 Filed 6-7-74;8:45 am]

[Rel. No. 18432]

NEW ENGLAND ELECTRIC SYSTEM

Notice of Proposed Issue and Sale of Short-Term Notes to Banks

JUNE 3, 1974.

Notice is hereby given that New England Electric System ("NEES"), 20 Turnpike Road, Westborough, Massachusetts 01581, a registered holding company, has filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 9(a), and 12 of the Act and Rules 42(a) and 50(a)(2) promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transaction.

NEES requests that, for the period ending December 31, 1975, it be permitted from time to time to issue short-term notes to banks provided that the aggregate principal amount of such notes outstanding at any one time shall not be more than $50,000,000. Upon completion of the next common share issue, the proceeds of which are expected to aggregate about $50,000,000, the borrowing authority requested hereby will terminate.

The proceeds from the sales of the notes will be made available to subsidiaries (particularly New England Power Company (NEPCO)) through the purchase of additional shares of their capital stocks, capital contributions, or loans or some combination thereof, in furtherance of their construction programs, such additional investments to be subject to additional filing with this Commission.

The proposed borrowings from the banks listed below will be evidenced by notes payable maturing in less than one year from date of issuance and will provide for prior payment in whole or in part without premium or penalty.

NEES proposes to borrow $30,000,000 for investment in additional shares of NEPCO's common stock. For such borrowings the banks will not require customary 20 percent compensating balances. In lieu thereof the short-term notes will bear interest at rates which vary among the several banks from 110 percent to 118 percent of the floating prime rate. The bank which will charge 110 percent of the prime rate will also require 5 percent compensating balances.

In addition, borrowings of up to $20,000,000 will be made from time to time to provide funds for further investments in NEPCO and/or other subsidiaries. The interest rates on such borrowings will also vary up to a maximum of 118 percent of the prime rate. In addition, fees ranging from 4 percent to 9 percent of the prime rate as applied to any unused line of credit will be required. The bank which will charge the 4 percent fee will also require compensating balances equal to 5 percent of the line of credit.

The effective interest cost of the borrowings from the banks will range from 13.11 percent to 13.57 percent or an aggregate effective interest cost to NEES of 13.34 percent assuming the full lines of credit are in use and the prime rate is 11.5 percent. In each case the effective interest cost for the proposed borrowings will be less than the effective interest cost of borrowing at the prime rate plus the customary 20 percent compensating balances, which would be 14.375 percent based on 11.5 percent prime rate.

Name of Bank	$30 million borrowing amount	$20 million borrowing amount
Continental Illinois National Bank and Trust Co., Chicago	$10,000,000	
The Chase Manhattan Bank, N.A., New York	5,000,000	$5,000,000
First National City Bank, New York	5,000,000	
Irving Trust Co., New York	5,000,000	5,000,000
Morgan Guaranty Trust Co., New York	5,000,000	10,000,000
Total	30,000,000	20,000,000

NEES requests that it be permitted to file certificates of notification covering all transactions effected pursuant to the authority requested hereby during such quarter within thirty days after the end of each calendar quarter.

Total estimated expenses in connection with the proposed transaction is $5,000, of which $3,000 will be for services preferred at cost by NEPCO, an affiliated service company. No state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than June 25, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DEPARTMENT OF LABOR

Manpower Administration

IMMIGRANT LABOR CERTIFICATION

Delegation of Authority

Pursuant to the provisions of 29 CFR Part 60 and for the purposes of that Part, effective June 1, 1974, the Certifying Officer for Manpower Administration Region III is hereby appointed as a Certifying Officer for the District of Columbia area, and the Reviewing Officer for Manpower Administration Region III is hereby designated as my representative for the carrying out of reviews under that part.

On July 1, 1974, as part of the transfer of functions of the District of Columbia area office of the Manpower Administration of the U.S. Department of Labor, the immigration functions of this area office will be placed in the Department of Labor Regional Office in Philadelphia, Pennsylvania. The appointment and designation herein are intended to facilitate the orderly removal of these immigration responsibilities to the Philadelphia Regional Office.

During the June 1974 transitional period, certifying and review authority for the District of Columbia area will remain in the present District of Columbia Manpower Administration Certifying and Reviewing Officers as well as with the Region III officers being appointed and designated.

It is the intention that after May 31, 1974, all certification requests will be processed by the Certifying Officer in Philadelphia and review of the denials of such requests will also be made in that city. Review of request for certification denials issued by the Certifying Officer in the District of Columbia will, to the extent feasible, be made by the Reviewing Officer in the District of Columbia during the month of June and, to the extent necessary, by the Reviewing Officer in Philadelphia.

Signed at Washington, D.C., this 4th day of June, 1974.

THOMAS A. WILKINS,
Administrator,
D.C. Manpower Administration.

FOURTH SECTION APPLICATION FOR RELIEF

JUNE 5, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before June 25, 1974.

FSA No. 42838—*Fresh Frozen Fruit, Juices or Concentrates from Delta, Colorado.* Filed by Southwestern Freight Bureau, agent (No. B-469), for interested rail carriers. Rates on food, fresh frozen, viz.: fruit, juices or concentrates, viz.: fruit, natural, or artificial; pulps, fruit and purees, fruit, in carloads, as described in the application, from Delta, Colorado, to points in southwestern territory.

Grounds for relief—Market competition.

Tariff — Supplement 62 to Southwestern Freight Bureau, Agent, tariff SW/W-2006-J, I.C.C. No. 5056. Rates are published to become effective on July 10, 1974.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

JUNE 5, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before June 10, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC-504 (Sub-No. E1), filed May 3, 1974. Applicant: HARPER MOTOR LINES, INC., 903 Frank Nelson Bldg., Birmingham, Ala. 35203. Applicant's representative: John P. Carlton (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Chicago and Peoria, Ill., on the one hand, and, on the other, points in South Carolina (except points in Anderson, Oconee, Pickens, Greenville, Spartanburg, and Cherokee Counties and those in York County, S.C., on and north of South Carolina Highway 49). The purpose of this filing is to eliminate the gateway of Columbia, S.C.

No. MC-2452 (Sub-No. E7), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Hastings and Lansing, Mich., on the one hand, and, on the other, points in Cook County, Ill., and points in the Chicago, Ill., commercial zone as defined by the Commission in 1 M.C.C. 673. The purpose of this filing is to eliminate the gateway of San Pierre, Ind.

No. MC-2452 (Sub-No. E8), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale

V 39—112 JUN 10 74 XUM

Ave., Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Davenport, Iowa, on the one hand, and, on the other, Grand Rapids, Kalamazoo, St. Joseph, Shoreham, and Three Rivers, Mich. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC-2452 (Sub-No. E9), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Rock Island and Moline, Ill., on the one hand, and, on the other, Grand Rapids, Kalamazoo, St. Joseph, Shoreham, and Three Rivers, Mich. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC-2452 (Sub-No. E10), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Burlington, Iowa, on the one hand, and, on the other, Grand Rapids, Kalamazoo, St. Joseph, Shoreham, and Three Rivers, Mich. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC-2452 (Sub-No. E11), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Paducah, Ky., on the one hand, and, on the other, Grand Rapids, Kalamazoo, St. Joseph, Shoreham, and Three Rivers, Mich. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC-2452 (Sub-No. E12), filed May 5, 1974. Applicant: HAJEK TRUCKING CO. INC., 7635 Lawndale Avenue, Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between St. Louis, Mo., on the one hand, and, on the other, Grand Rapids, Kalamazoo, St. Joseph, Shoreham, and Three Rivers, Mich. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC-2452 (Sub-No. E13), filed May 5, 1975. Applicant: HAJEK TRUCKING CO., INC., 7635 Lawndale Ave., Summit, Ill. 60502. Applicant's representative: Steven Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Grand Rapids, Kalamazoo, St. Joseph, Shoreham, and Three Rivers, Mich., on the one hand, and, on the other points in that part of Illinois on and south of Interstate Highway 80. The purpose of this filing is to eliminate the gateways of Chicago Heights, Ill., and San Pierre, Ind.

No. MC-2452 (Sub-No. E14), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale, Summit, Illinois 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Grand Rapids, Mich., on the one hand, and, on the other, Alton, Beardstown, Bloomington, Cairo, Centralia, Champaign, Chester, Danville, Decatur, Effingham, Galesburg, Jacksonville, Kankakee, La Salle, Marion, Mt. Vernon, Pekin, Peoria, Quincy, and Springfield, Ill. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC-2452 (Sub-No. E20), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, liquid commodities in bulk, and commodities requiring special equipment), between the plant site of Ford Motor Co., located at the junction of Westport Road and Murphy Lane, Jefferson County, Ky., on the one hand, and, on the other, points in that part of Illinois on and north of U.S. Highway 136. The purpose of this filing is to eliminate the gateway of points in Jasper County, Ind.

No. MC-2452 (Sub-No. E21), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, liquid commodities in bulk, and commodities requiring special equipment), between the plant site of Ford Motor Co., located at the junction of Westport Road and Murphy Lane, Jefferson County, Ky., on the one hand, and, on the other, Holland, Grand Rapids, and Lansing, Mich., and points in that part of Michigan on, west, and south of a line beginning at Holland, thence along Michigan Highway 21 to Grand Rapids, thence along U.S. Highway 16 to Lansing, thence along U.S. Highway 27 to the Michigan-Indiana State line. The purpose of this filing is to eliminate the gateway of points in Fulton County, Ind.

No. MC-11727 (Sub-No. E7), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Hwy., Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between New York, N.Y., on the one hand, and, on the other, points in that part of New York within 150 miles of Newark, N.J., except those in Nassua, Suffolk, Rockland, Westchester, Putnam, and Orange Counties, N.Y., but including Newburgh, Orange County, N.Y. The purpose of this filing is to eliminate the gateway of Essex County, N.J.

No. MC-11727 (Sub-No. E8), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Hwy., Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043.

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Corning, N.Y., on the one hand, and, on the other, New York, N.Y. The purpose of this filing is to eliminate the gateway of Essex County, N.J.

No. MC-11727 (Sub-No. E9), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Hwy., Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Corning, N.Y., on the one hand, and, on the other, points in that part of Pennsylvania within 25 miles of the City Hall of Philadelphia, Pa. The purpose of this filing is to eliminate the gateway of Camden, N.J.

No. MC-11727 (Sub-No. E10), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Hwy., Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Camden, N.J., on the one hand, and, on the other, points in Cape May, Atlantic, Ocean, Monmouth, Middlesex, Somerset, Union, Hudson, Essex, and Morris Counties, N.J. The purpose of this filing is to eliminate the gateway of Philadelphia, Pa.

No. MC-11727 (Sub-No. E11), filed May 12, 1974. Applicant: JAMES H. RUSSELL, Washington Hwy., Smithfield, R.I. 02917. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Rd., Hingham, Mass. 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in Essex County, N.J., on the one hand, and, on the other, points in that part of New Jersey located on and south of New Jersey Highway 33 (except those in Salem and Cumberland Counties, N.J.). The purpose of this filing is to eliminate the gateway of New York, N.Y.

No. MC-16682 (Sub-No. E1), filed May 13, 1974. Applicant: MURAL TRANSPORT, INC., 2900 Review Avenue, Long Island City, N.Y. 11101. Applicant's representative: Robert L. Shapiro (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, undated, (1) from Chicago, Ill., to points in Arizona, California, Colorado, Kansas, Oklahoma, and Texas. (2) From Chicago, Ill., to points in Idaho, Nevada, Oregon, Washington, and Wyoming. (3) From Kansas City, Mo., to points in Idaho, Montana, Nevada, Oregon, Washington, and Wyoming. (4) From Kansas City, Mo., to points in Alabama, Florida, Georgia, Mississippi, North Carolina, South Carolina, and Virginia. (5) From Kansas City, Mo., to points in Connecticut, Delaware, Maine, Massachusetts, New Hampshire, New Jersey, Rhode Island, and Vermont. (6) From New York, N.Y., to points in Arizona, California, Idaho, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming. (7) From New York, N.Y., to Houston, Tex., Oklahoma City, Okla., and points in California. (8) From New York, N.Y., to points in Colorado, Kansas, and Oklahoma. (9) From points in Delaware, Maryland, New Jersey, New York (other than New York, N.Y.), Pennsylvania, and the District of Columbia to points in Arizona, California, Idaho, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming (except from points in Maryland, Pennsylvania, and the District of Columbia to points in Arizona, Idaho, Utah, and Washington, from points in Delaware Maryland, Pennsylvania, and the District of Columbia to points in New Mexico, and from points in Maryland, New York, Pennsylvania, and the District of Columbia to points in Wyoming).

(10) From points in Connecticut, Maine, Massachusetts, Rhode Island, and Vermont to points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming (except from points in Vermont to points in Montana and Wyoming). (11) From points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York (other than New York, N.Y.), Pennsylvania, Rhode Island, Vermont, and the District of Columbia to points in Arizona, New Mexico, and Texas (except from points in Maryland, Pennsylvania, and the District of Columbia to points in New Mexico and from points in Delaware, Maryland, New Jersey, Pennsylvania, and the District of Columbia to points in Texas). (12) From points in Connecticut, Maine, Massachusetts, New Hampshire, New York (other than New York, N.Y.), Rhode Island, and Vermont to points in Colorado, Kansas, and Oklahoma (except from points in Rhode Island and Vermont to points in Colorado and from New York to Oklahoma). (13) From points in Arizona, California, Colorado, Kansas, Missouri, and New Mexico to points in Connecticut, Delaware, New Jersey, and Rhode Island (except from points in Arizona to New Jersey and Rhode Island and from points in Missouri to points in Connecticut and New Jersey). (14) From points in Arizona, California, Colorado, Kansas, New Mexico, and South Dakota to points in Maine, New Hampshire, and Vermont. (15) From points in Arizona, California, Colorado, Kansas, Missouri, New Mexico, North Dakota, and South Dakota to points in Maryland, Massachusetts, and the District of Columbia (except from points in Colorado, Kansas, Missouri, North Dakota, and South Dakota in Maryland and the District of Columbia).

(16) From points in Michigan to points in Connecticut, Maine, Massachusetts, New Hampshire, and Rhode Island. (17) Between points in Connecticut, Massachusetts, New Jersey, and New York (other than New York, N.Y.), on the one hand, and, on the other, points in Florida. (18) Between points in Connecticut, Massachusetts, and New York (other than New York, N.Y.), on the one hand, and, on the other, points in Delaware, Maryland, Michigan, North Carolina, Ohio, South Carolina, Virginia, and the District of Columbia. (19) Between points in Connecticut, Massachusetts, New Jersey, and New York (other than New York, N.Y.), on the one hand, and, on the other, points in Georgia, Indiana, and Wisconsin. (20) Between points in Connecticut, Massachusetts, New Jersey, and New York (other than New York, N.Y.), one the one hand, and, on the other, points in Alabama, Kentucky, Louisiana, Mississippi, Missouri, Tennessee, and West Virginia (except between points in New Jersey and points in West Virginia). (21) Between points in Maine, on the one hand, and, on the other, points in Florida. (22) Between points in Maine, on the one hand, and, on the other, points in Delaware, Illinois, Maryland, Michigan, New Jersey, North Carolina, Ohio, Pennsylvania, South Carolina, Virginia, and the District of Columbia. (23) Between points in Maine, New Hampshire, North Carolina, Vermont, and Virginia, on the one hand, and, on the other, Kansas and Oklahoma.

(24) Between points in Florida, Georgia, Maine, New Hampshire, North Carolina, South Carolina, Vermont, and Virginia, on the one hand, and, on the other, points in Idaho, Montana, Oregon, Utah, Washington, and Wyoming. (25) From points in Colorado to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, Wisconsin, and the District of Columbia. (26) From Oklahoma City, Okla., to Alabama, Connecticut, Delaware, Florida, Georgia, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio,

V39 112 JUN 10 74 XUM

Pennsylvania, Rhode Island, South Carolina, Vermont, Virginia, and the District of Columbia. The purpose of this **filing is** to eliminate the gateway of (1) Kansas City, Mo. (proposed number 1); (2) Kansas City, Mo., and points in Nebraska (proposal number 2); (3) points in Nebraska (proposal number 3); (4) points in Kentucky (proposal number 4); (5) New York, N.Y. (proposal number 5); (6) Syracuse, N.Y., St. Louis, Mo., Kansas City, Kansas, and points in Colorado (proposal number 6); (7) Syracuse, N.Y. (proposal number 7); (8) Syracuse, N.Y., and Kansas City, Mo. (proposal number 8); (9) New York and Syracuse, N.Y., St. Louis, Mo., Kansas City, Kans., and points in Colorado (proposal number 9);

(10) New York and Syracuse, N.Y., St. Louis, Mo., Kansas City, Kans., and points in Colorado (proposal number 10); (11) New York and Syracuse, N.Y., and Oklahoma City, Okla. (proposal number 11); (12) New York and Syracuse, N.Y., St. Louis, Mo., and Kansas City, Kans. (proposal number 12); (13) Kansas City, Kans., and New York, N.Y. (proposal number 13); (14) Kansas City, Kans., and Chicago, Ill. (proposal number 14); (15) Kansas City, Kans., and Syracuse, N.Y. (proposal number 15); (16) Syracuse and New York, N.Y. (proposal number 16); (17) New York, N.Y. (proposal number 17); (18) New York, N.Y. (proposal number 18); (19) New York, N.Y. (proposal number 19); (20) New York, N.Y., and Philadelphia, Pa. (proposal number 20); (21) New York, N.Y. (proposal number 21); (22) New York, N.Y. (proposal number 22); (23) Chicago, Ill., and Kansas City, Mo. (proposal number 23); (24) Chicago, Ill., Kansas City, Mo., and points in Nebraska (proposal number 24); (25) points in Nebraska (proposal number 25); and (26) points in Tennessee (proposal number 26).

No. MC–37599 (Sub-No. E1), filed April 5, 1974. Applicant: VAN HAAREN SPECIALIZED CARRIERS, INC., P.O. Box 672, Bay City, Mich. 48706. Applicant's representative: Gerald Schneider (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Commodities the transportation of which because of size or weight require the use of special equipment and related machinery parts and related contractors material and supplies* when their transportation is incidental to the transportation of commodities which because of size or weight, require the use of special equipment. (a) Between points in the Lower Peninsula of Michigan on, east, and north of a line beginning at Cheboygan, and extending south along U.S. Highway 27 to the intersection of Michigan State Highway 21 and thence east on Michigan Highway 21 to Michigan Highway 24, thence north on Michigan Highway 24 to its intersection with Michigan Highway 46 to and including Port Sanilac, Mich., on the one hand, and, on the other, to points in Pennsylvania. (b) Between points in Huron, Sanilac, St. Clair, Macomb, Tuscola, Lapier, Genesee, Saginaw, Bay, Gladwin, Roscommon, Crawford, Otsego, and Cheboygan Counties, Mich., Clare County, Mich., on and east of U.S. Highway 27, Midland County north of U.S. Highway 10, and on and east of Michigan Highway 30 and Meridian Road, and Oakland County, Mich., on and east of U.S. Highway 10, and on and north of Michigan Highway 59, on the one hand, and, on the other, points in Illinois. (c) Between points in Huron, Sanilac, St. Clair, Macomb, Tuscola, Lapier, Genesee, Saginaw, Bay, Gladwin, Roscommon, Crawford, Otsego, and Cheboygan Counties, Mich., and Midland County, Mich., on and north of U.S. Highway 10 and on and east of Michigan Highway 30 and Meridian Road, and Oakland County, Mich., on and each of U.S. Highway 10, on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateway of Saginaw, Mich.

No. MC–43683 (Sub-No. E2), filed May 14, 1974. Applicant: BAKER DRIVEAWAY CO., INC., 3999 E. South Blvd., Bloomfield Hills, Mich. 48013. Applicant's representative: William O. Bridge (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *New passenger automobiles, including ambulances, hearses, and taxis, and new automobile chasis,* in initial movements in truckaway service, from Newark, Del., to St. Louis, Mo., points in St. Louis County, Mo., and points in Indiana, Michigan, and Ohio, and points in that part of Illinois on and north of U.S. Highway 36. The purpose of this filing is to eliminate the gateway points in Pennsylvania (on and west of U.S. Highway 11).

No. MC–93980 (Sub-No. E7), filed April 22, 1974. Applicant: VANCE TRUCKING CO., INC., P.O. Box 1119, Henderson, N.C. 27536. Applicant's representative: N. P. Strause (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: (a) *Cement conduits, cement couplings, and cement pipe, all containing asbestos fibre, and accessories* used in the installation thereof, on flat-bed vehicles (not including commodities which because of size or weight require the use of special equipment), from Manville, N.J., to points in Florida, Georgia, North Carolina, and Tennessee; (b) *Cement conduit containing asbestos fibre,* from Manville, N.J., to points in Kentucky, Ohio, Virginia, and West Virginia. The purpose of this filing is to eliminate the gateway of Ambler, Pa.

No. MC–95540 (Sub-No. E351), filed May 15, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen fruits and vegetables,* from points in Florida to points in Rhode Island. The purpose of this filing is to eliminate the gateway of points in Maryland.

No. MC–95540 (Sub-No. 352), filed May 15, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Georgia 30301. Applicant's representative: Clyde W. Carver (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Canned goods,* from points in Maryland, Delaware, and Virginia, east of the Chesapeake Bay and south of the Chesapeake and Delaware Canal to points in Louisiana. The purpose of this filing is to eliminate the gateway of points in Pike or Spaulding Counties, Ga.

No. MC–95540 (Sub-No. E353), filed May 15, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Frozen foods,* from Pittsburgh and Saltsburgh, Pa., to points in Louisiana, on and south of line beginning at the Louisiana-Mississippi State line and extending along Louisiana Highway 26 to Bogalusa, thence along Louisiana Highway 21 to its junction with U.S. Highway 190, thence along U.S. Highway 190 to Baton Rouge, thence along Interstate Highway 10 to the Louisiana-Texas State line. The purpose of this filing is to eliminate the gateway of Richmond, Va.

No. MC 107295 (Sub-No. E8), filed May 5, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Metal building panels* and *metal building parts and accessories,* from the plantsite of Allied Tube and Conduit Corporation at Harvey, Ill., to points in Arizona, that part of Alabama in, south, and west of Baldwin, Clarke, and Choctaw Counties, and that part of New Mexico in and south of McKinley, Sandoval, Sante Fe, San Miguel, and Quay Counties, restricted against the transportation of pipe used in connection with the construction, operation, servicing or dismantling of pipe lines. The purpose of this filing is to eliminate the gateway of Pine Bluff, Ark.

No. MC 107295 (Sub-No. E13), filed May 5, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Cabinets, vanities,* and *cases,* from Jeffersonville, Ind., to points in Montana, North Dakota, South Dakota, and that part of Wyoming in and north of Niobrana, Converse, Natrona, Fremont, Sublette, and Lincoln Counties. The purpose of this filing is to eliminate the gateway of Ladysmith, Wis.

No. MC 107295 (Sub-No. E15), filed May 5, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Adhesive cement,* from the plant site of Wal-Lite Products, Division of U.S. Gypsum Company at Pittsburg, Kans., to points in Maine, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateway of New Philadelphia, Ohio.

No. MC–107295 (Sub-No. E103), filed May 8, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Insulating materials,* from Hamlin, Tex., to points in Kentucky. The purpose of this filing is to eliminate the gateway of Sedalia, Mo.

No. MC–107295 (Sub-No. E106), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Roofing,* from Pittston, Pa., to points in Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington. The purpose of this filing is to eliminate the gateway of Paris, Ill.

No. MC–107295 (Sub-No. E111), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Roofing,* from Philadelphia, Pa., to points in Arizona, California, Idaho, Nevada, Oregon, Utah, and Washington. The purpose of this filing is to eliminate the gateway of Paris, Ill.

No. MC–107295 (Sub-No. E113), filed May 9, 1974. Applicant: PRE-FAB TRANSIT CO., P.O. Box 146, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Particleboard,* from Suffolk, Va., (1) to points in Arizona, California, Kansas, Nevada, New Mexico, Oklahoma, Texas, and Utah, (Truman, Ark.); (2) to points in Colorado, Nebraska, North Dakota, and South Dakota (Fort Dodge, Iowa); and (3) to points in Idaho, Montana, Oregon, Washington, and Wyoming (Kalamazoo, Mich.). The purpose of this filing is to eliminate the respective gateways indicated by asterisks above.

No. MC–110525 (Sub-No. E271), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston,* 63 M.C.C. 677, (except bituminous products and materials), in bulk, in tank vehicles, from points in Maryland to points in Illinois. The purpose of this filing is to eliminate the gateways of Morgantown and Natrium, W. Va.

No. MC–110525 (Sub-No. E272), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston,* 63 M.C.C. 677 (except bituminous products and materials), in bulk, in tank vehicles, from points in that part of Maryland on and east of Interstate Highway 81, to those points in that part of Indiana on and north of Interstate Highway 70. The purpose of this filing is to eliminate the gateways of Morgantown and Natrium, W. Va.

No. MC–110525 (Sub-No. E274), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in Kansas. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E278), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in the Lower Peninsula of Michigan. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC–110525 (Sub-No. E279), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* as defined in *The Maxwell Co., Extension—Addyston,* 63 M.C.C. 677, in bulk, in tank vehicles, from points in Maryland to points in Minnesota. The purpose of this filing is to eliminate the gateway of Bridgeville, Pa.

No. MC–110525 (Sub-No. E280), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous materials), in bulk, in tank vehicles, from points in Maryland to points in Mississippi. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E281), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in Missouri. The purpose of this filing is to eliminate the gateway of South Fayette Township, Allegheny County, Pa.

No. MC–110525 (Sub-No. E282), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in Montana. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Addyston, Ohio.

No. MC–110525 (Sub-No. E283), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in Nebraska. The purpose of this filing is to eliminate the gateway of S. Charleston, W. Va.

No. MC–110525 (Sub-No. E286), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals,* in bulk, in tank vehicles, from points in Maryland to points in New Mexico. The purpose of this filing is to eliminate the gateways of S. Charleston, W. Va., and Addyston, Ohio.

No. MC–110525 (Sub-No. E302), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier,* by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous materials), in bulk, in tank vehicles, from points in Massachusetts to points in Alabama. The

V 39 112 JUN 10 74 XUM

purpose of this filing is to eliminate the gateways of Newark, N.J., and Greensboro, N.C.

No. MC–110525 (Sub-No. E303), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Arizona. The purpose of this filing is to eliminate the gateway of Newark, N.J., Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E304), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension—Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Massachusetts to points in Arkansas. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Institute, W. Va.

No. MC–110525 (Sub-No. E305), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicles, from points in Massachusetts to ing: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in California. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Mapleton, Ill.

No. MC–110525 (Sub-No. E307), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Delaware. The purpose of this filing is to eliminate the gateway of Carteret, N.J.

No. MC–110525 (Sub-No. E317), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Kentucky. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Pittsburgh, Pa.

No. MC–110525 (Sub-No. E318), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivatives of petroleum or bituminous materials), from points in Massachusetts to points in Louisiana. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Greensboro, N.C.

No. MC–110525 (Sub-No. E319), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in Massachusetts to points in Maryland. The purpose of this filing is to eliminate the gateway of Carteret, N.J.

No. MC–110525 (Sub-No. E320), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Massachusetts to points in Minnesota. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Bridgeville, Pa.

No. MC–110525 (Sub-No. E321), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in Massachusetts to points in Mississippi. The purpose of this filing is to eliminate the gateways of Newark, N.J., and Pittsburgh, Pa.

No. MC–110525 (Sub-No. E416), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Arizona. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E417), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension—Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in New York to points in Arkansas. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Charleston, W. Va.

No. MC–110525 (Sub-No. E418), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in California. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E419), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Colorado. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E420), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, Inc., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except derivations of petroleum or bituminous products), in bulk, in tank vehicles, from points in New York to points in Florida. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E421), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except bituminous products and materials), from points in New York to points in Georgia. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

No. MC–110525 (Sub-No. E422), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Idaho. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E423), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in that part of New York on and east of New York Highway 19 to points in Illinois. The purpose of this filing is to eliminate the gateway of Bridgeville, Pa.

No. MC–110525 (Sub-No. E425), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals as defined in The Maxwell* Co., *Extension—Addyston*, 63 M.C.C. 677 (except bituminous products and materials), in bulk, in tank vehicles, from points in that part of New York on and east of New York Highway 19 to points in Iowa. The purpose of this filing is to eliminate the gateways of Follansbee and Natrium, W. Va.

No. MC–110525 (Sub-No. E426), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Kansas. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E427), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in that party of New York on and east of New York Highway 19 to points in Kentucky. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and S. Charleston, W. Va.

No. MC–110525 (Sub-No. E428), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell Co., Extension—Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in New York to points in Louisiana. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Charleston, W. Va.

No. MC–110525 (Sub-No. E429), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in that part of New York on and east of Interstate Highway 81, to those points in the Lower Peninsula of Michigan on and west of a line beginning at the Michigan-Indiana State line, thence along U.S. Highway 27 to Claire, thence along Interstate Highway 75 to Mackinaw City. The purpose of this filing is to eliminate the gateway of Kobuta, Pa.

No. MC–110525 (Sub-No. E430), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, as defined in *The Maxwell Co., Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in New York to points in Minnesota. The purpose of this filing is to eliminate the gateway of Bridgeville, Pa.

No. MC–110525 (Sub-No. E431), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* as defined in *The Maxwell* Co., *Extension-Addyston*, 63 M.C.C. 677, in bulk, in tank vehicles, from points in New York to points in Mississippi. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Charleston, W. Va.

No. MC–110525 (Sub-No. E432), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Missouri. The purpose of this filing is to eliminate the gateway of S. Fayette Township, Allegheny County, Pa.

No. MC–110525 (Sub-No. E433), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Montana. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E434), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Nebraska. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC–110525 (Sub-No. E435), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Nevada. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC 110525 (Sub-No. E439), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in North Dakota. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC 110525 (Sub-No. E440), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Oklahoma. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC 110525 (Sub-No. E441), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, from points in New York to points in Oregon. The purpose of this filing is to eliminate the gateways of Pittsburgh, Pa., and Addyston, Ohio.

No. MC 110525 (Sub-No. E442), filed May 8, 1974. Applicant: CHEMICAL LEAMAN TANK LINES, INC., P.O. Box 200, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liqquid chemicals* (except bituminous products and materials), in bulk, in tank vechiles, from points in New York to points in South Carolina. The purpose of this filing is to eliminate the gateway of Greensboro, N.C.

[Notice 100]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before July 1, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74873. By order entered June 4, 1974, the Motor Carrier Board approved the transfer to Tri-Line Expressways, Ltd., Calgary, Alberta, Canada, of the operating rights set forth in Certificate No. MC-125395 (Sub-No. 2), issued June 30, 1964, to Harvie Wilkening, doing business as Harv Wilkening Transport, Regina, Saskatchewan, Canada authorizing the transportation of reinforcing, fabricated, unfabricated, and structural steel and accessories, materials, and supplies used in the assembly of such commodities, from ports of entry on the United States-Canada Boundary line at points in North Dakota and Montana, to points in North Dakota, Montana, Wyoming, and Idaho. Gene P. Johnson, 425 Gate City Building, Fargo, N.Dak. 58102, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

SENIOR COMMUNITY SERVICE EMPLOYMENT PROGRAM

V 39 112 JUN 10 74 XUM

Title 29—Labor

SUBTITLE A—OFFICE OF THE SECRETARY OF LABOR

PART 89—SENIOR COMMUNITY SERVICE EMPLOYMENT PROGRAM

Pursuant to section 902 (b) (2) of the Older American Community Service Employment Act of 1973 (Pub. L. 93–29), which authorizes the Secretary of Labor to issue such regulations as he deems necessary to carry out the provisions of this Act, the following regulations are promulgated to facilitate the implementation of the Act at the earliest possible date.

The Act provides for the establishment of a Senior Community Service Employment Program to provide, foster, and promote useful part-time work opportunities in community service activities for unemployed low-income persons who are 55 years old or older and who have poor employment prospects.

The regulations published herein shall be effective upon signing by the Secretary of Labor.

As these regulations relate to public property, loans, benefits, or contracts, they have been excepted from the application of the notice and comments provisions of the Administrative Procedure Act, 5 U.S.C. 553(a) (2). The policy of the Department of Labor as stated in 29 CFR 2.7 is not to use this exception as a basis of not giving opportunity for notice and comment. In this case, in order to effect promptly the purposes of the Older American Community Service Employment Act, it is contrary to the public interest to delay the issuance of these regulations to the extent necessary for the preparation, receipt and evaluation of the comments. Accordingly, they are not issued for comments prior to publication in their final form.

Nevertheless, although these regulations are being published in final form and are made effective immediately, it is the policy of the Department of Labor to solicit and consider comments on its regulations. Accordingly, comments will be received, just as though this document were a proposal until July 10, 1974, after which the comments received will be evaluated and, if warranted, the regulations will be appropriately amended. Meanwhile, however, in the interest of expediting the program, these regulations shall remain in force until amended.

Interested persons are invited to submit comments, data or arguments to: Assistant Secretary for Manpower, United States Department of Labor, 6th and D Streets, NW., Washington, D.C. 20213. Attention: Pierce A. Quinlan, Associate Manpower Administrator for the Office of Manpower Development Programs.

The regulations set forth below amend Title 29 by adding the new Part 89. The new Part 89, which shall be effective immediately, reads as follows:

Subpart A—General

Sec.
89.1 Scope and purpose.
89.2 Allotment of funds.
89.3 Potential project sponsors eligible for Federal assistance under the Act.
89.4 Definitions.

Subpart B—Application for Federal Assistance under the Act

89.5 General.
89.6 Solicitation of application for Federal assistance under the Act.
89.7 Consideration of applications.
89.8 Preparation of the application for Federal assistance under the Act.
89.9 Comment and review.
89.10 Submission of the application for Federal assistance under the Act.
89.11 Award of Federal assistance under the Act.
89.12 Special procedures and priorities for Fiscal Year 1974.

Subpart C—Project Operations

89.13 General.
89.14 Basic responsibilities of the project sponsor.
89.15 Cooperation and coordination.
89.16 Eligibility for enrollment in a project.
89.17 Special consideration for individuals 60 years old and older.
89.18 Recruitment and selection.
89.19 Medical examination.
89.20 Orientation and pre-placement training.
89.21 Placement of enrollees into subsidized employment.
89.22 Training after placement.
89.23 Enrollees supportive services.
89.24 Enrollee transportation.
89.25 Placement into unsubsidized employment.
89.26 Duration of enrollment.
89.27 Adverse actions against enrollees.
89.28 Enrollee wages.
89.29 Enrollee fringe benefits.
89.30 Working conditions for enrollees.
89.31 Non-Federal status of enrollees.
89.32 Special limitations on' projects and enrollee selection.
89.33 Maintenance of effort.
89.34 Limitations on Federal funds.
89.35 Sponsor contribution to the costs of the project.

Subpart D—Grant Administration

89.36 General.
89.37 Cash depositories.
89.38 Bonding and insurance.
89.39 Retention and custodial requirements for records.
89.40 Single State agency not required.
89.41 Program income.
89.42 Matching share.
89.43 Standards for grantee financial management systems.
89.44 Financial reporting requirements.
89.45 Monitoring and reporting of project performance.
89.46 Grant payment requirements.
89.47 Budget revision procedures.
89.48 General closeout procedures.
89.49 Property management standards.
89.50 Procurement standards.
89.51 Allowable costs.

Subpart E—Contract Administration

89.52 General.
89.53 Reference to applicable regulations and requirements.

Subpart F—Assessment and Evaluation

89.54 General.
89.55 Responsibilities of the Secretary.
89.56 Limitation.
89.57 Consultation with other agencies.

AUTHORITY: Pub. L. 98–29, sec. 902(b) (2); 87 Stat. 62.

Subpart A—General

§ 89.1 Scope and purpose.

(a) This Part 89 contains the regulations of the Department of Labor for the establishment and operation of the Senior Community Service Employment Program which is authorized under the Older American Community Service Employment Act, Title IX of the Older Americans Comprehensive Services Amendments of 1973. The Senior Community Service Employment Program is designed to provide, foster, and promote useful part-time work opportunities in community service activities for low-income persons who are 55 years old and older and who have poor employment prospects.

(b) Statutory authority for the regulations contained in this part is found in the provisions of section 902(b) (2) of Title IX of the Older Americans Comprehensive Services Amendments of 1973, Pub. L. 93–29.

§ 89.2 Allotment of funds.

(a) From the sums appropriated for any fiscal year under the Act there shall be initially allotted for projects within each State an amount which bears the same ratio to such sums as the population, aged 55 or over in all States, except that (1) no State shall be allotted less than one-half of 1 per centum of the sum appropriated for the fiscal year for which the determination is made; and (2) Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands shall each be allotted an amount equal to one-fourth of 1 per centum of the sum appropriated for the fiscal year for which the determination is made. For the purpose of the exception contained in this paragraph, the term "State" does not include Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(b) The number of persons aged 55 and over in any State and for all States shall be determined by the Secretary on the basis of the most recent census reports published by the U.S. Department of Commerce.

(c) The amount allotted for projects within any State under paragraph (a) of this section for any fiscal year which the Secretary determines will not be required for that year shall be reallotted to projects within other States in proportion to the original allotments for projects within such States under paragraph (a) of this section for that year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates that projects within such State need and will be able to use for such year; and the total of such reductions shall be similarly reallotted among the States whose proportionate amounts were not so reduced. Any amount reallotted to a State under this paragraph during a year shall be deemed part of its allotment under paragraph (a) of this section for that year. Such reallotment will be made no earlier than after the ninth month of the fiscal year in which the funds were allotted and no later than the last day of the fiscal year in which the funds were allotted.

(d) The amount apportioned for projects within each State under paragraph (a) of this section shall be apportioned among areas within each such State in an equitable manner, taking into consideration the proportion which eligible persons in each such area bears to such total number of such persons, respectively, in that State.

§ 89.3 Potential project sponsors eligible for Federal assistance under the Act.

(a) The Secretary may enter into agreements with and provide direct Federal financial assistance under the Act to eligible organizations which will enable these organizations to conduct and sponsor projects under the Act.

(b) Potential project sponsors, i.e., organizations eligible to receive direct Federal financial assistance under the Act, are limited to the following:

(1) States and agencies of a State;

(2) Political subdivisions of a State (having elected or duly appointed officials);

(3) A combination of such political subdivisions;

(4) Indian tribes on Federal or State reservations;

(5) Public agencies or organizations; or

(6) Private nonprofit agencies or organizations.

(c) Project sponsors receiving direct Federal financial assistance under the Act are authorized to enter into subproject agreements with and provide all or part of the direct Federal financial assistance received to other potential project sponsors to implement and carry out all or part of the activities to be conducted under the project agreement.

(d) With respect to funds appropriated for the Act in Fiscal Year 1974, the Secretary hereby selects and designates those organizations which will receive sole or primary consideration for receipt and utilization of such funds. These special restrictions and priorities for Fiscal Year 1974 are established in response to Congressional intent in this matter as expressed and contained in the Report of the Senate Committee on Appropriations as incorporated into the Conference Report on the Supplemental Appropriations Act of 1974.

(1) Except as provided for in paragraph (d) (2) of this section, the Secretary selects and designates the following organizations for receipt and utilization of funds appropriated for the Act in Fiscal Year 1974. These organizations, all of which are experienced in operating similar programs on behalf of the Department as prime contractors under the National Older Workers Program—Operation Mainstream, are:

(i) Green Thumb, Inc., an affiliate of the National Farmers Union;

(ii) National Council of Senior Citizens;

(iii) National Council on the Aging;

(iv) National Retired Teachers Association — American Association of Retired Persons; and

(v) U.S. Forest Service.

(2) All funds appropriated for the Act in Fiscal Year 1974 will be made available to the organizations identified in paragraph (d) (1) of this section, except such funds which are allotted to those States in which none of these organizations presently administer activity under the National Older Workers Program—Operation Mainstream. Funds so allotted will first be made available for utilization by the State. These States are:

(i) Alaska;
(ii) Delaware;
(iii) Hawaii;
(iv) American Samoa;
(v) Guam;
(vi) Trust Territories of the Pacific; and
(vii) Virgin Islands.

§ 89.4 Definitions.

The following definitions consistent with section 907 of the Act apply to all sections of the regulations presented herein:

"Act" means the Older American Community Service Employment Act of 1973, Title IX of the Older Americans Comprehensive Services Amendments of 1973, Pub. L. 93–29.

"Allocation" and "allotment" mean the distribution of funds among States according to the formula contained in the Act.

"ARDM" means the Department of Labor's "Assistant Regional Director for Manpower", or his designee, having the responsibility for the area in which a project sponsor is located.

"Chief Executive Officer" includes their designees.

"Community service" means social, health, welfare, educational, library, recreactional, and other similar services; conservation, maintenance or restoration of natural resources; community betterment or beautification; antipollution and environmental quality efforts; economic development; and such other services which are essential and necessary to the community as the Secretary may prescribe. It excludes building and highway construction work (except that which is normally performed by the project sponsor) and other work which inures primarily to the benefit of a private profit-making organization.

"Contribution in kind" means a contribution in lieu of cash, of an item or service, the purchase of which would be an allowable cost, including but not limited to the use of plant and equipment fairly evaluated.

"Department" means the United States Department of Labor and includes each of its operating agencies and other organizational units.

"Enrollee" means an individual who qualifies and receives services or takes part in activities under provisions of the Act.

"Eligible individual" means an individual who is 55 years old or older; who has a low income; and who has or would have difficulty in securing employment or is unemployed.

"Federal reservation" means lands which have been set aside for Indian tribes and for which the United States is trustee, as identified by the Bureau of Indian Affairs, including non-trust land under the tribual jurisdiction.

"Host agency" means a public agency or private nonprofit organization (excluding political parties) other than a project sponsor or subsponsor, which provides a work-site and work supervision for project enrollees.

"Indian tribe" means a tribe, group or band of American Indians, or Alaskan natives identified on the basis of historical, geographical or cultural characteristics, or subpart of such a tribe, group or band.

"Low-income" for the purpose of the Act means the annual income threshold below which families are considered to live in poverty, as determined in accordance with criteria established by the Director, U.S. Office of Management and Budget.

"Non-Federal share" means a contribution of not less than 10 percent of the total cost of any project under the Act which may be provided by the project sponsor in cash or in kind.

"Obligation" means the amount of Federal funds which the Department has legally committed and authorized a project sponsor to expend.

"Part time" means employment in a position that provides not more than 30 hours of employment in a standard week nor more than 1300 hours in a 12-month period.

"Potential project sponsor" for purposes of this Act mean (a) a State or agency of a State, (b) a political subdivision of a State having elected or duly appointed officials, (c) a combination of such political subdivisions, (d) an Indian tribe on Federal or State reservations, (e) public agencies or organizations, or (f) private non-profit agencies or organizations. Such organizations are eligible to enter into agreements with and receive funds directly from the Department to undertake projects authorized in this part.

"Project" means an undertaking by a project sponsor pursuant to an agreement between the Secretary and the project sponsor which is authorized under Title IX of the Older Americans Act as implemented in the regulation contained in this part.

"Project agreement" means an agreement, either a grant or a contract, entered into between a potential project sponsor and the Department of Labor, for the purpose of providing Federal financial assistance under the Act to the potential project sponsor and enabling the potential project sponsor to conduct a project under the Act.

"Project sponsor" means a potential project sponsor which has entered into an agreement directly with the Department to undertake a project authorized in this part.

"State" includes the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American

V 39 112 JUN 10 74 XUM

Samoa, and the Trust Territory of the Pacific Islands.

"State reservation" means an Indian reservation recognized by the State in which it is located.

"State Employment Security Agency" means the State agency affiliated with the United States Employment Service, established by the Wagner-Peyser Act of 1933, as amended. The term shall include the system of public employment service offices and Unemployment Insurance offices.

"Subproject" means an undertaking by a subsponsor pursuant to an agreement between a project sponsor and the subsponsor which has been entered for the purpose of authorizing and enabling the subsponsor to carry out all or some of the activity specified in the project agreement.

"Subsidized employment" means employment of enrollees in employment positions for which wages are paid in whole or in part from funds made available under the Act.

"Subsponsor" means a potential project sponsor, which has entered into an agreement with a project sponsor to undertake a subproject.

"Unemployed persons" for purposes of this Act means:

(a) An adult who, or whose family, receives supplemental security income or money payments pursuant to a State plan approved under the Social Security Act, Title IV (Aid to Families with Dependent Children), or under the Social Security Act, Title XVI (Supplemental Security Income for the Aged, Blind, and Disabled), or

(b) a person who is without a job and who wants and is available for work. A person is "without a job" if, during the 30 days preceding his application or selection, he has earned no more than $30 in any calendar week.

"Political subdivision of a State" means any city, municipality, county, town, township, parish, village, or other general purpose political subdivision which has the power to levy taxes and spend funds, as well as general corporate and police powers.

"Unsubsidized employment" means employment not financed from funds provided under this Act.

Subpart B—Application for Federal Assistance under the Act

§ 89.5 General.

(a) This Subpart B provides procedures to be followed in the process of applying for Federal assistance under the Act.

(b) Special procedures and priorities pertaining to funds appropriated for the Act in Fiscal Year 1974 are set forth in § 89.12 of this part. These procedures and priorities are established in accordance with § 89.3(d) of this part.

§ 89.6 Solicitation of application for Federal assistance under the Act.

(a) The Secretary will solicit application for Federal assistance under the Act from among potential project sponsors.

(b) The Secretary reserves the right to limit such solicitation to organizations or types of organizations that possess special capabilities to conduct manpower programs or to coordinate projects under the Act with other Federal manpower efforts.

§ 89.7 Consideration of applications.

(a) Except during Fiscal Year 1974, the Secretary will receive and consider the application for Federal assistance under the Act which is submitted by any potential project sponsor. Interested parties should contact:

Associate Assistant Secretary for Manpower
Office of Manpower Development Programs
Room 6000, Patrick Henry Building
601 D Street, N.W.
Washington, D.C. 20213

(b) The Secretary reserves the right to give priority consideration to applications submitted by organizations or types of organizations that possess special capabilities to conduct manpower programs or to coordinate projects under the Act with other Federal manpower efforts, such as State and local agencies responsible for administering grants and programs under the Comprehensive Employment and Training Act of 1973.

§ 89.8 Preparation of the application for Federal assistance under the Act.

(a) This section sets forth procedures to be followed by potential project sponsors in preparing the application for Federal assistance under the Act. These procedures are not in effect for Fiscal Year 1974, but they shall be in effect for subsequent fiscal years, if any, in which funds are appropriated for the Act.

(b) Any potential project sponsor which is a unit of State or local government shall, in applying for Federal assistance under the Act, adhere to the requirements and procedures contained in OMB Circular A–102, Attachment M. Upon request, each such potential project sponsor will be provided a complete application package, including forms and detailed instructions for their preparation.

(c) Any potential project sponsor which is not a unit of State or local government shall, in applying for Federal assistance under the Act, submit a proposal for a cost-reimbursement type contract. Such proposal, which is to include a proposed statement of work and a proposed budget, shall be prepared in accordance with the instructions of the Department. Upon request, each such potential project sponsor will be provided a complete application package, including forms and detailed instructions for their preparation.

(d) Applications for Federal assistance under the Act shall, as appropriate, be prepared in consultation with the State Agency on Aging supported under the Older Americans Act and in consultation with the State Agency responsible for administering grants or programs under the Comprehensive Employment and Training Act.

§ 89.9 Comment and review.

(a) This section sets forth comment and review procedures and requirements pertaining to the process of applying for Federal assistance under the Act. These requirements are not in effect during Fiscal Year 1974, but they shall be in effect during subsequent fiscal years, if any, in which funds are appropriated for the Act.

(b) In accordance with the procedures and requirements contained in OMB Circular A–95, potential project sponsors shall provide adequate notification of intent to apply for Federal assistance under the Act to the appropriate State and areawide planning and development clearinghouse. Such notification shall, with respect to timeliness and content, meet the standards set forth in OMB Circular A–95.

§ 89.10 Submission of the application for Federal assistance under the Act.

(a) This section sets forth requirements relating to the submission of applications for Federal assistance under the Act. These requirements will not be in effect during Fiscal Year 1974, but they shall be in effect for subsequent fiscal years, if any, in which funds are appropriated for the Act.

(b) Applications for Federal assistance and funds appropriated under the Act in a fiscal year shall be submitted to the Secretary and will be received by the Secretary no later than the 6th of the month of the fiscal year for which such funds are appropriated.

(c) Any and all comments on the application which have been received by the project sponsor from a State or areawide planning and development clearinghouse shall accompany the application when it is submitted to the Secretary.

§ 89.11 Award of Federal assistance under the Act.

(a) This section sets forth procedures relating to the award of Federal assistance under the Act. These procedures are not in effect during Fiscal Year 1974, but they shall be in effect during subsequent fiscal years, if any, in which funds are appropriated for the Act.

(b) No applicaton for Federal assistance under the Act will be approved for award until it has been reviewed by the Secretary to determine if it assures compliance will all requirements of the Act, the regulations contained in this part, and all other applicable laws. The review will determine whether:

(1) The application is complete and has been prepared in accordance with the instructions of the Department;

(2) The application evidences, as appropriate, consultation with the State Agency on Aging supported under the Older Americans Act and with the State agency responsible for administering grants and programs under the Comprehensive Employment and Training Act;

(3) The appropriate State and areawide planning and development clearinghouses have been adequately notified of the application;

(4) The project sponsor has adequate internal administrative, accounting requirements, personnel standards, monitoring and evaluation procedures, and such other policies as may be necessary

---

to promote the effective use of funds provided under the Act;

(5) Any comment on the application evidences noncompliance with the Act, the regulations contained in this part, or any other applicable law; and

(6) In the case of competing applications, the potential project sponsor possesses the greatest capability to conduct manpower programs or to coordinate projects under the Act with other Federal manpower efforts.

(c) On the basis of the determinations made pursuant to paragraph (b) of this section, the Secretary will approve for award those applications for Federal assistance under the Act which (1) assure compliance with the Act, the regulations contained in this part, and all other applicable laws and which (2), in the case of competing applications, assure the most effective use of funds provided under the Act.

(d) Potential project sponsors which have submitted application for Federal assistance under the Act approved for award will be requested to negotiate and enter into a legally binding agreement, either grant or contract, with the Department in order that Federal funds may be provided to conduct the project. The project agreement shall contain the approved application for Federal assistance under the Act as amended by negotiations, if any, and shall also contain terms and provisions relating to grant or contract administration, respectively.

(e) Potential project sponsors which have submitted applications for Federal assistance under the Act not approved for award, will be so notified. The grounds therefor will also be transmitted to such potential project sponsors.

§ 89.12 Special procedures and priorities for Fiscal Year 1974.

(a) This section sets forth special procedures and priorities with respect to the implementation of projects under the Act through funds appropriated for Fiscal Year 1974.

(b) Except as provided for in paragraph (c) of this section, the Secretary selects and designates the following organizations for receipt and utilization of funds appropriated for the Act in Fiscal Year 1974. These organizations, all of which are experienced in operating similar programs on behalf of the Department as prime contractors under the National Older Workers Program—Operation Mainstream, are:

(1) Green Thumb, Inc., an affiliate of the National Farmers Union;

(2) National Council of Senior Citizens;

(3) National Council on the Aging;

(4) National Retired Teachers Association—American Association of Retired Persons; and

(5) U.S. Forest Service.

(c) All funds appropriated for the Act in Fiscal year 1974 will be made available to the organizations identified in paragraph (b) of this section except such funds which are allotted to those States in which none of these organizations presently administer activity under the National Older Workers Program—Operation Mainstream. Funds so allotted will first be made available for utilization by the State. The States are:

(1) Alaska;
(2) Delaware;
(3) Hawaii;
(4) American Samoa;
(5) Guam;
(6) Trust Territories of the Pacific; and
(7) Virgin Islands.

(d) With respect to Fiscal Year 1974 funds which are to be made available to those organizations identified in paragraph (b) of this section, the Secretary will solicit from each a proposal for a cost reimbursement type contract or, in the case of the U.S. Forest Service, an interagency agreement. Such proposals shall be prepared in consultation with the Department and shall contain (1) a proposed statement of work and (2) a proposed budget. Both the proposed statement of work and the proposed budget shall be subject to negotiation. Such proposals shall be submitted to the Department no later than June 14, 1974.

(e) In the event that suitable arrangements cannot be made among those organizations identified in paragraph (b) of this section to conduct projects in and utilize funds allocated to a State, the Secretary will select from among other potential project sponsors the most appropriate organization(s) to conduct and sponsor the project(s) in and utilize the funds allocated to that State.

Subpart C—Project Operations

§ 89.13 General.

(a) This Subpart C sets forth the basic guidelines and standards which shall be followed and enforced in the operation of projects under the Act. Adherence to the requirements of this subpart is a condition for the utilization of funds provided under the Act.

(b) The basic design of a project, as embodied in the guidelines and standards set forth herein, is intended to provide two-fold benefits. They are:

(1) *Benefits accruing to members of the client group who enroll in a project.* The client group to be served and enrolled by the program are low-income individuals who are 55 years old or older and who have poor employment prospects. The basic thrust of the program is to provide these individuals with the general benefits resulting from subsidized part-time employment and a moderate level of related supportive services. Specifically, the benefits and services to be provided program enrollees are:

(i) Wages;

(ii) The therapeutic and restorative experience of community service work;

(iii) A renewed sense of personal value arising from involvement with the community and the mainstream of life generally;

(iv) The acquisition or revitalization of specific job skills through limited prejob training and continued training on-the-job;

(v) The upgrading of jobseeking skills;

(vi) Yearly physical examination;

(vii) Assistance with personal and job-related problems through counseling and referral to capable human service agencies;

(viii) Provision of important consumer related information in areas such as Social Security benefits, income tax requirements, nutrition, personal health, and so forth; and

(ix) In some cases, placement into the regular, competitive labor market.

(2) *Benefits to communities.* The program is also intended to provide the communities in which it operates with a Federally subsidized pool of manpower which can be drawn upon to upgrade existing human services or to establish new ones. It is not the intention of the program that this pool of manpower be used to displace already employed workers or to provide services or perform work assignments, such as highway construction, which inure mainly to the benefit of private, profit-making organizations. The program is intended to enable communities to enhance or establish human service activities which could not normally be enhanced or established through existing local resources.

§ 89.14 Basic responsibilities of the project sponsor.

The Department will hold the project sponsor responsible for:

(a) Following and enforcing the requirements set forth in this subpart, the Act, all regulations promulgated under the Act, and all other applicable laws;

(b) Implementing and carrying out the project plan as it is set forth in the project agreement;

(c) ensuring that any and all subsponsors under the project:

(1) Follow and enforce the requirements set forth in this subpart, the Act, all regulations promulgated under the Act, all other applicable laws, and

(2) Implement and carry out that portion of the project plan which is assigned under subproject agreement to the subsponsor;

(d) Requesting, receiving, utilizing Federal financial assistance provided under the Act;

(e) Distributing such financial assistance among areas within the geographical jurisdiction of the project in an equitable manner; equitable distribution shall be made by taking into consideration the number of eligible individuals in each area as related proportionately to the number of eligible indidividuals within the entire geographical jurisdiction of the project; and

(f) Assuring that the project enrolls and serves minority, Indians and limited-English-speaking eligible individuals in proportion to their numbers within the entire geographical jurisdiction of the project.

V39–112 JUN 10 74 XUM

§ 89.15 Cooperation and coordination.

Each project and project sponsor shall, to the extent possible, establish cooperative relationships, liaison, and working linkages with other manpower programs and agencies and with agencies concerned with or experienced in problems of aging. To facilitate the establishment of such relationships and linkages, project sponsors shall adhere to the guidelines and requirements set forth below.

(a) Project sponsors shall provide a copy of the project agreement to the State and area agencies on aging supported under the Older Americans Act and to the State and local agencies (CETA Prime Sponsors) responsible for administering grants and programs under the Comprehensive Employment and Training Act of 1973 (CETA).

(b) Project sponsors shall consult and confer with the organizations identified in paragraph (a) of this section with respect to planning the most effective utilization of project funds allocated to the State or area. Such consultation shall be undertaken to consider:

(1) Those areas of the State most in need of project services, with special regard being paid to the avoidance of duplicative services; and

(2) The possibilities for coordinating and linking services to be provided under the project with programs administered by these other agencies.

(c) Project sponsors shall notify the State Employment Security Agency of the project(s) established within the State. The project sponsor shall establish a close working relationship with the State Employment Security Agency for the purpose of facilitating:

(1) The recruitment and referral of eligible individuals for enrollment in the project; and

(2) The placement of enrollees into unsubsidized employment positions.

§ 89.16 Eligibility for enrollment in a project.

(a) To be selected for enrollment in a project an individual must:

(1) Be 55 years old or older;

(2) Have a low income; and

(3) Be unemployed or be an individual who has or would have difficulty in securing employment.

(b) To remain eligible for continuing enrollment in a project an individual must have an income which does not exceed the low-income level by more than $500. For the purpose of determining eligibility for continuing enrollment, income earned as wages from employment under the project shall not be counted. Each enrollee's eligibility for continuing enrollment in the project shall be established annually. Such eligibility shall be established and documented by a signed and dated statement indicating the enrollee's current income, exclusive of wages under the project.

(c) No upper age limitation for enrollment eligibility shall be imposed by any project or project sponsor.

§ 89.17 Special consideration for individuals 60 years old and older.

Special consideration in selection of eligible individuals for enrollment in projects shall be given to persons who are 60 years old or older.

§ 89.18 Recruitment and selection.

Projects shall recruit and select eligible individuals for enrollment.

(a) Projects shall recruit sufficient numbers of eligible individuals to be enrolled and employed by the project. All enrollment vacancies shall be listed with the appropriate State Employment Security Agency. Recruitment efforts shall ensure that the enrollment positions within the project are occupied to the fullest possible extent and that enrollment vacancies are kept to a minimum.

(b) Projects shall select individuals for enrollment on the basis of the individuals' eligibility and on the basis of the earliest application for enrollment into the project, except that individuals who are 60 years old or older shall be granted first consideration for selection.

(c) Each applicant's eligibility shall be established, documented and retained on record. Adequate documentation shall consist of a signed and dated application form which attests that information the application form contains is true, to the best of the applicant's knowledge. This form which, will be established by the Department, shall indicate the applicant's age, income, and employment status as well as other personal characteristics.

§ 89.19 Medical examination.

(a) Each eligible individual selected for enrollment in a project shall undergo a physical examination prior to taking part in the employment activities under the project.

(b) Each individual enrolled shall undergo a physical examination no less frequently than once each year while enrolled in the project.

(c) Project sponsors are encouraged to obtain these medical services through locally available resources at no cost or reduced cost to the project. However, the costs of such examinations will be considered an allowable fringe benefit for eligible individuals selected and enrolled in the project.

§ 89.20 Orientation and pre-placement training.

(a) Each individual enrolled in a project shall, as soon as is practicable, receive a formal orientation to the project. Such orientation shall provide the new enrollee with information related to:

(1) The nature and objectives of the project;

(2) Employment opportunities and work assignments available under the project;

(3) Training available under the project;

(4) Supportive services available under the project;

(5) The responsibilities of enrollees under the project; and

(6) The rights and privileges of enrollees under the project.

(b) Project sponsors are authorized to provide enrollees with job-related training prior to and as preparation for their actual placement into productive, part-time, community service work under the project. Such training may be delivered through lectures, seminars, classroom instruction, or through other arrangements. Project sponsors are encouraged to seek and obtain such training services through locally available resources at no cost or reduced cost to the project.

(c) Such training, combined with orientation, shall not be continued for any individual past the 4th week after the individual's enrollment in the project.

(d) Time spent by enrollees in such orientation and pre-placement training shall be considered as employment under the project and shall be reimbursed at the Federal or State minimum wage, whichever is highest.

§ 89.21 Placement of enrollees into subsidized employment.

Projects shall, after a thorough assessment of the individual's skills, aptitudes, and work preferences, place enrollees into subsidized, part-time, community service employment positions. Placement shall be made in accordance with the following guidelines:

(a) Enrollee employment positions under the project are to provide for no more than 1300 hours of employment annually nor more than 30 hours of employment in a given week. No enrollee shall be employed (which includes orientation and training) in excess of these periods.

(b) Projects shall ensure that enrollees receive adequate orientation and instruction from their worksite supervisor with regard to job responsibilities and duties and job safety. Projects shall further ensure that enrollees receive the job supervision necessary to enable them to perform as productive and effective workers. In this regard, enrollees shall be placed into employment positions in which:

(1) Supervision is provided directly by the project sponsor or its subsponsor, or

(2) supervision is provided by an eligible host agency. Organizations eligible to act as host agencies are public agencies and private organizations exempt from taxation under the provision of section 501(c)(3) of the Internal Revenue Code of 1954, other than political parties.

(c) Enrollees shall be employed at worksites in or nearby the communities in which they reside.

(d) Acceptable work assignments for enrollees are those which contribute to the general welfare of the community. Enrollees may be employed in projects or at facilities which involve community service such as social, health, welfare, education, library, recreational, and other similar services; conservation, maintenance or restoration of natural

resources; community betterment or beautification; anti-pollution and environmental quality efforts; economic development; and other services which are essential and necessary to the community; except that (1) enrollees shall not be employed in projects involving the construction, operation or maintenance of any facility used as a place for sectarian religious instruction or worship, and (2) enrollees shall not be assigned work involving building and construction of highways and other work which inures primarily to the benefit of private, profit-making organizations.

(e) Projects shall give special consideration to work assignments which (1) involve projects delivering direct services to the low-income elderly and the elderly in general and (2) which involve projects delivering direct services to the economically disadvantaged. Furthermore, project sponsors shall, to the extent feasible, give qualified enrollees consideration for work assignments involving the administration of the project.

(f) Enrollees shall be placed into productive, part-time community service work under the project immediately after their orientation and pre-placement training (if any) is completed. However, the project shall ensure that such placement is accomplished no later than 4 weeks after the individual's enrollment in the project.

(g) Each enrollee shall be offered the opportunity to work at least 20 hours each week. However, if it is mutually agreeable to both the enrollee and the project sponsor, the enrollee may work fewer hours each week.

(h) Although enrollees are authorized to work up to 30 hours each week, no enrollee shall be required to work more than 24 hours each week.

§ 89.22 Training after placement.

(a) Project sponsors are authorized to provide enrollees with continued training after they have been placed into productive, part-time community service work under the project. Such training, when it is conducted, shall be concerned mainly with teaching and upgrading job skills so that enrollees are enabled to make the most effective use of their talents and abilities. It may also be concerned with teaching of jobseeking skills in preparation for unsubsidized employment and with providing the enrollees with important consumer information in such areas as Social Security benefits, personal health, nutrition, tax requirements, retirement laws, and so forth. Such training may be delivered through lectures, seminars, classroom instruction, or through other arrangements. Project sponsors are encouraged to seek and obtain such training services through locally available resources at no cost to the project.

(b) Such training shall be conducted during normal working hours or in lieu of normal working hours. Time spent by enrollees in such training shall be considered as employment under the project and shall be reimbursed at the individual's established rate of pay. Reimbursement for any individual engaged in such training is limited to 16 hours in a given month.

§ 89.23 Enrollee supportive services.

(a) Projects shall provide job-related and personal counseling to enrollees designed to mitigate the problems encountered by the enrollee which might militate against successful participation in the project. Such counseling shall be offered freely to enrollees and shall, as a minimum, provide knowledgeable referral assistance to capable service agencies.

(b) Where not available from local resources, projects are authorized to provide enrollees with incidentals necessary for their successful participation in the project. Such incidentals may include, but are not limited to: Work shoes, badges, uniforms, safety and eye glasses, and tools.

§ 89.24 Enrollee transportation.

Project sponsors are authorized to provide for the transportation of enrollees only when (a) the travel is performed by enrollees in the direct accomplishment of project activities or (b) the travel is accomplished from central pick-up points to worksites in the cases or urban and rural worksites where public transportation is inadequate.

§ 89.25 Placement into unsubsidized employment.

(a) Projects shall strive to move individuals enrolled and employed under the project into unsubsidized full-time or part-time employment in both private and public sector jobs.

(b) The target goal established by the Secretary for the effort is that the number of enrollees so placed annually from a project be no less than 10 percent of the authorized enrollment of the project.

(c) Project sponsors shall follow-up on enrollees placed into unsubsidized employment. If such enrollee has become subsequently unemployed, the project sponsor shall grant him special consideration for reenrollment in the project. Follow-up shall be accomplished once within the 1st month of unsubsidized employment and once more within the 6th month.

§ 89.26 Duration of enrollment.

No arbitrary time limitation on duration of enrollment shall be established within any project.

§ 89.27 Adverse actions against enrollees.

Each project sponsor shall establish a procedure for resolving any issue arising between it and an enrollee under the Act. Such procedures shall include an opportunity for an informal hearing, and a prompt determination of any issue which has not been resolved. When the project sponsor proposes to take an adverse action against an enrollee, such procedures shall also include a notice setting forth the grounds for any adverse action proposed to be taken by the project sponsor and giving the enrollee an opportunity to respond. Final determinations made as a result of the review process shall be provided to the participant in writing.

§ 89.28 Enrollee wages.

(a) While engaged in orientation or pre-placement training, enrollees shall be paid the Federal or State minimum wage, whichever is highest.

(b) Upon placement into productive, part-time, community service work under the project, enrollees shall receive wages at a rate no less than the highest of the following:

(1) The minimum wage which would be applicable to the employee under the Fair Labor Standard Act of 1938, if section 6(a)(1) of the Act applied to the participant and if he were not exempt under section 13 thereof;

(2) The State or local minimum wage for the most nearly comparable covered employment; or

(3) The prevailing rate of pay for persons employed in similar public occupations by the project sponsor, its subsponsor, or host agency when that rate is no higher than $3 per hour.

(c) Hourly wage compensation for any enrollee is limited to a maximum hourly rate of $3 per hour for all hours of allowable employment.

(d) Enrollees shall be allowed compensation for not more than 1,300 hours of employment, which includes orientation and training, in any 12-month period.

§ 89.29 Enrollee fringe benefits.

Projects shall establish a single, uniform package of fringe benefits for enrollees employed under the project in accordance with the following guidelines.

(a) The following fringe benefits shall be provided to enrollees employed under a project:

(1) All fringe benefits required by law;

(2) Where enrollees are not covered by the State Workmen's Compensation Law, they shall be covered by insurance providing equal benefits with a recognized carrier or by self assurance as allowed by State law that provides equal benefits to those provided by covered employment;

(3) The project sponsor shall assure that enrollees in positions which are covered by the State Unemployment Insurance laws participate in the State Unemployment Insurance program. In the event that the services of enrollees are not covered by the State Unemployment Insurance laws, the project sponsor shall be responsible for providing from grant funds under the project a system of severance benefits for enrollees unemployed after participation in the project. This system shall provide severance benefits equivalent to the unemployment insurance to which the enrollees would be entitled had their services for the project sponsor been covered by the State Unemployment Insurance laws; and

(4) Physical examinations as required by § 89.19 of this part.

(b) The following fringe benefits will be allowable provided they are administered uniformly to all enrollees within

V 39—112 JUN 10 74 XUM

a project or subproject and conform to the established policy of the project sponsor or subsponsor for regular employees:

(1) Annual leave;

(2) Sick leave;

(3) Holidays;

(4) Health insurance; and

(5) Any other fringe benefit provided pursuant to the established policy of the project sponsor or subsponsor for regular employees, except as limited by paragraph (c) of this section.

(c) Expenditures into a retirement fund for enrollees under the Act may be made only under one of the following conditions:

(1) Payments are for retirement benefits that are part of a consolidated package, including such benefits as health insurance and workmen's compensation, if separation of the benefits is not allowed; or

(2) Payments are for enrollees whom the project sponsor or subsponsor intends to hire into a permanent, unsubsidized job, provided that payments on behalf of such enrollees are made into and retained in a reserve account, and not paid into the retirement fund until the enrollee has acquired regular employee status.

§ 89.30 Working conditions for enrollees.

Enrollees shall work only under safe and healthy conditions. No enrollee shall be permitted to work in buildings or surroundings or under working conditions which are unsanitary, hazardous or dangerous to his health or safety.

§ 89.31 Non-Federal status of enrollees.

Enrollees who are employed in any project funded under the Act shall not be considered to be Federal employees as a result of such employment, and shall not be subject to the provisions of Part III of Title 5, U.S.C.

§ 89.32 Special limitations on projects and enrollee selection.

(a) No project under this part may involve political activities, and neither the project nor the funds provided therefore, nor the personnel employed in the administration of the project, shall be in any way or to any extent engaged in the conduct of political activities in contravention of Chapter 15 of Title 5, U.S.C. Prohibited activities under this section include, but are not necessarily limited to, the assignment of any enrollee by a project sponsor or subsponsor or host agency to work for or on behalf of a partisan political activity; to take part in voter registration activities; or to participate in other partisan political activities such as lobbying, collecting funds, making speeches, assisting at meetings, and doorbell ringing, and distributing political pamphlets in an effort to persuade others of any political view.

(b) Participants employed in the administration of the program and participants whose principal employment is in connection with an activity financed by other Federal grants or loans are covered by the Hatch Act. Other enrollees are not precluded from taking an active part in political management or in a political campaign outside of working hours, provided they do not identify themselves as spokesmen for any funded project under the Act. All participants may take part in nonpartisan activities outside of working hours.

(c) No enrollee in any project under this part may be employed in the construction, operation, or maintenance of such part of any facility as is used or will be used for sectarian instruction or as a place of religious worship.

(d) No project will be funded if the project sponsor discriminates with respect to political affiliation. Specifically, no project sponsor, subsponsor or host agency may select, reject, or promote a participant based on that individual's political affiliation or beliefs. The selection or advancement of employees as a reward for political services or as a form of political patronage, whether or not the political service or patronage is partisan in nature, is discrimination based on political belief or affiliation, and is prohibited.

(e) No project sponsor, subsponsor or host agency may hire a person into a funded position if a member of his or her immediate family is employed in an administrative capacity for the same project sponsor, subsponsor or host agency. However, where a State or local statute regarding nepotism exists which is more restrictive than this policy, the project sponsor should follow the State or local statute in lieu of this policy. For purposes of this subparagraph, the term "member of the immediate family" includes: wife, husband, son, daughter, mother, father, brother, brother-in-law, sister, sister-in-law, daughter-in-law, son-in-law, mother-in-law, father-in-law, aunt, uncle, niece, nephew, stepparent and stepchild. The term "administrative capacity" includes those who have selection, hiring or supervisory responsibilities for project enrollees, or operational responsibility for the project.

(f) Every grant or contract made pursuant to the Act shall contain a certification statement signed by the project sponsor concerning the provision of equal employment opportunity under the project agreement. No discrimination shall be permitted in any project under this part with respect to race, creed, color, national origin, sex, handicap, political affiliation, or beliefs.

§ 89.33 Maintenance of effort.

(a) Employment of enrollees funded under the Act shall only be in addition to employment which would otherwise be funded by the project sponsor without assistance under the Act.

(b) Projects funded under the Act:

(1) Shall result in an increase in employment opportunities over those which would otherwise be available;

(2) Shall not result in the displacement of currently employed workers, including partial displacement such as a reduction in hours of non-overtime work, wages, or employment benefits;

(3) Shall not impair existing contracts for service or result in the substitution of Federal funds for other funds in connection with work that would otherwise be performed; and

(4) Shall not substitute project jobs for existing Federally assisted jobs.

§ 89.34 Limitations on Federal funds.

(a) No more than 10 percent of the Federal funds provided to a project sponsor under the Act shall be expended for administrative costs.

(b) No less than 90 percent of the Federal funds provided to a project sponsor under the Act shall be expended for enrollee costs.

(1) As to the allocation of enrollee costs, no less than 80 percent of the Federal funds provided to a project sponsor under the Act shall be expended for enrollee wages and enrollee fringe benefits.

(2) Funds allocated to enrollee costs other than enrollee wages and fringe benefits may be expended for other enrollee costs as defined in paragraph (d) of this section.

(c) No portion of the Federal financial assistance provided to a project sponsor under the Act shall be expended directly or indirectly for the purchase, erection, or repair of any building except for minor remodeling of a public building necessary to make it suitable for use by project administrators.

(d) The following definitions apply for the purposes of this section:

(1) "Administrative costs" include, but are not limited to salaries, wages and fringe benefits of project administrators; costs of consumable office supplies used by project staff; costs incurred in the development, preparation, presentation, management and evaluation of the project; the costs of establishing and maintaining accounting and management information systems; cost incurred in the establishment and maintenance of advisory councils; travel of project administrators; rent, utilities, custodial services and indirect costs allowable to the project; training of staff and technical assistance to contractor and subgrantee staff; costs of equipment and material for use by staff; indirect costs allowable to the project; training of staff and technical assistance to contractor and subgrantee staff; and audit services. Project sponsors may be able to lower these costs by using enrollees in the administration of the project. In such event, wages, fringe benefits, and travel costs for such persons shall be charged as enrollee costs;

(2) "Enrollee wages" means wages paid to enrollees for their hours of employment, including orientation and pre-placement training, under the project;

(3) "Enrollee fringe benefits" means fringe benefits provided to enrollees for their hours of employment, including orientation and pre-placement training, under the project;

(4) "Other enrollee costs" include, but are not limited to (i) enrollee transportation costs, (ii) enrollee training costs, including costs for instructors, rental of facilities, supplies, materials, equipment, tuition, and other costs directly attributable to the training of enrollees as are allowable, (iii) enrollee supportive services including special counseling and incidentals necessary for successful enrollee participation such as work shoes, badges, uniforms, safety and eyeglasses, and tools, where such incidentals are not available through local resources.

§ 89.35 Sponsor contribution to the costs of the project.

(a) The Secretary shall pay not to exceed 90 per centum of the cost of any project which is the subject of an agreement entered into under this part, except that the Secretary is authorized to pay all of the costs of any such project which is (1) an emergency or disaster project or (2) a project located in an economically depressed area as determined in consultation with the Secretary of Commerce or with other appropriate Federal agencies.

(b) Except as specifically exempted by the provisions of paragraph (a) of this section, project sponsors shall contribute no less than 10 per centum to the costs of the project. The sponsor contribution shall be from non-Federal sources. The sponsor contribution may be in cash or in-kind. The Secretary shall attribute fair market value to services and facilities contributed from non-Federal sources.

Subpart D—Grant Administration

§ 89.36 General.

(a) This Subpart D sets forth the requirements of the Department of Labor which relate to the administration of grants under the Act. Project agreements under the Act entered into between the Department and units of State and local government shall take the form of a grant.

(b) The administrative requirements contained in this Subpart D reflect those authorized and required by OMB Circular A–102. This Subpart D explicates the administrative requirements contained in OMB Circular A–102 as they apply specifically to grants under the Act.

§ 89.37 Cash depositories.

(a) The grantee may, at its own discretion, include grant funds received under this grant within its established system of funds control or may establish a separate bank account for those funds made available under the grant.

(b) A separate bank account may be used when payments under letter of credit are made on a "checks-paid" basis in accordance with agreements entered into by a grantee, the Federal Government, and the banking institutions involved.

(c) Any moneys advanced to the State or local governments which are determined to be "public moneys" (owned by the Federal Government) must be deposited in a bank with FDIC insurance coverage and the balances exceeding the FDIC coverage must be collaterally secure, as provided for in 12 U.S.C. 265.

(d) Consistent with the national goal of expanding the opportunities for minority business enterprises, State and local governments shall be encouraged to use minority banks.

§ 89.38 Bonding and insurance.

The grantee shall apply its normal bonding and insurance requirements, including fidelity bonds, to protect the interest of the Federal Government.

§ 89.39 Retention and custodial requirements for records.

(a) The grantee shall maintain all records pertinent to the grant program in accordance with its established procedures with the exception that financial records, supporting documents, statistical records, and all other records pertinent to this grant program shall be retained for a period of 3 years, with the following qualifications:

(1) The records shall be retained beyond the 3-year period if audit findings have not been resolved;

(2) Records for nonexpendable property which was acquired with Federal grant funds shall be retained for 3 years after its final disposition;

(3) When grant records are transferred to or maintained by the Federal grantor agency, the 3-year retention requirement is not applicable to the grantee.

(b) The retention period starts from the date of the submission of the final expenditure report or, for grants which are renewed annually, from the date of submission of the annual expenditure report.

(c) The substitution of microfilm copies in lieu of original records may be authorized by the Federal grantor agency upon request of the grantee.

(d) The Federal grantor agency shall request transfer of certain records to its custody from the grantee when it determines that the records possess long-term retention value. However, in order to avoid duplicate recordkeeping, the Federal grantor agency may make arrangements with the grantee to retain any records which are continuously needed for joint use.

(e) The Secretary of Labor and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access to any books, documents, papers, and records of the grantee and its subgrantees which are pertinent to this grant program for the purpose of making audit, examination, excerpts and transcripts.

(f) No restrictions are placed on the grantee which will limit public access to the grantee's records except when records must remain confidential for the following reasons:

(1) To prevent a clearly unwarranted invasion of personal privacy;

(2) To specifically comply with a Federal Executive Order or statute requiring the record to be kept secret;

(3) To protect commercial or financial information obtained from a person or a firm on a privileged or confidential basis; or

(4) To avoid the disclosure of any other information which can be exploited for the purpose of personal gains.

§ 89.40 Single State agency not required.

There is no requirement contained in the Act nor will any requirement be imposed by the Department to the effect that a single State agency or multimember board or commission must be established or designated to administer or supervise the administration of grant projects under the Act.

§ 89.41 Program income.

(a) This section sets forth standards applicable to grantees in accounting for program income related to programs under the grant. For the purpose of this section, program income means gross income earned by the grant-supported activities.

(b) In accordance with section 203 of the Intergovernmental Cooperation Act of 1968 (Pub. L. 90–577), the States and any agency or instrumentality of a State, who are project sponsors under the grant, shall not be held accountable for interest earned on grant funds pending their disbursement for program purposes.

(c) Units of local government shall be required to return to the Federal Government interest earned on advances of grant funds (42 Comp. Gen. 289).

(d) Proceeds from the sale of real and personal property, either provided by the Federal Government or purchased in whole or in part with Federal funds, shall be handled in accordance with the requirements set forth in § 89.48 of this part pertaining to property management.

(e) Royalties received from copyrights and patents during the grant period shall be retained by the grantee and added to the funds already committed to the program. After termination or completion of the grant, the Federal share of royalties in excess of $200 annually shall be returned to the grantor agency.

(f) All other program income earned during the grant period shall be retained by the grantee and shall be added to funds committed to the program and be used to further eligible program objectives.

(g) The grantee is required to record the receipt and expenditure of revenues (such as taxes, special assessments, levies, fines, etc.) as a part of grant project transactions.

§ 89.42 Matching share.

As stated in § 89.35 of this part the required non-Federal contribution to the costs of the project shall be no less than 10 percent of the total costs of the project except as otherwise provided in § 89.35. The criteria and procedures for the allowability and evaluation of cash and in-kind contributions made by the grantee in satisfying the matching share requirement shall be those set forth in OMB Circular A–102, Attachment F.

V39—112 JUN 10 74 XUM

§ 89.43 Standards for grantee financial management systems.

(a) This section sets forth the Federal grantor agency's standards for financial management systems of grants awarded to grantees under the Older American Community Service Employment Act.

(b) The grantee's financial management systems shall provide for:

(1) Accurate, current, and complete disclosure of the financial results of the grant program in accordance with the grantor's reporting requirements. The grantor requires reporting on an accrued expenditure basis. If the grantee's accounting system is not kept on that basis, the grantee shall develop such information through an analysis of the documentation on hand or on the basis of best estimates;

(2) Records which identify adequately the source and application of funds for the grant program. The non-Federal matching share must be identified and supported by documentation and records comparable to that required for the Federal share. These records shall contain information pertaining to the grant awards and authorizations, obligations, unobligated balances, assets, liabilities, outlays, and incomes;

(3) Effective control over and accountability for all funds, property, and other assets. Grantees shall adequately safeguard all such assets and shall assure that they are used solely for authorized purposes;

(4) Comparison of actual with budgeted amounts for the grant, and the relationship of financial information with performance or productivity data, including the production of unit cost information whenever appropriate and required by the grantor;

(5) Procedures to minimize the time elapsing between the transfer of funds from the U.S. Treasury and the disbursement by the grantees, whenever funds are advanced by the Federal Government. When advances are made by a letter-of-credit method, the grantee shall make drawdowns from the U.S. Treasury through his commercial bank as close as possible to the time of making the disbursements. Cash on hand and on deposit will be limited to an estimated 3 days requirement;

(6) Procedures for determining the allowability and allocability of costs in accordance with the provisions of OMB Circular A–87, 41 CFR 1–3, or 41 CFR 1–15, whichever is applicable;

(7) Accounting records which are supported by source documentation and procedures to assure that these records will be retained for the 3-year period as prescribed elsewhere; and

(8) Audits to be made by the grantee or at his discretion to determine, at a minimum, the fiscal integrity of financial transactions and reports, and the compliance with laws, regulations, and administrative requirements. The grantee will schedule such audit with reasonable frequency, usually annually, but not less frequently than once during the life of the grant, considering the nature, size, and complexity of the activity.

(9) A systematic method to assure timely and appropriate resolution of audit findings and recommendations.

(c) Grantees shall require subsponsors (i.e., recipients of subproject agreements which are passed through by the grantee) to adopt all of the above standards in their financial management-systems.

§ 89.44 Financial reporting requirements.

(a) This section provides the grantee with the Federal grantor agency's basic financial and accounting policies and procedures for controlling and reporting program funds relating to grants awarded under the Older American Community Services Employment Act.

(b) The following definitions apply for the purposes of this section:

"Accrued expenditures" are the charges incurred by the grantee during a given period requiring the provision of funds for: (1) Goods and other tangible property received; (2) services performed by employees, contractors, subgrantees, and other payees; and (3) amounts becoming owed under programs for which no current services or performance are required;

"Accrued income" is the earnings during a given period which is a source of funds resulting from (1) services performed by the grantee, (2) goods and other tangible property delivered to purchasers, and (3) amounts becoming owed to the grantee for which no current services or performance are required by the grantee;

"Disbursements" are payments in cash or by check;

"Federal funds authorized" represent the total amount of the Federal funds authorized for obligations within the grant award document or any amendment thereto, and establish the ceilings for obligation of Federal funds;

"In-kind contributions" represent the value of noncash contributions provided by (1) the grantee, (2) other public agencies and institutions, and (3) private organizations and individuals. In-kind contributions may consist of charges for real property and equipment, and value of goods and services directly benefiting and specifically identifiable to the grant program;

"Obligations" are the amounts of orders placed, contracts and grants awarded, services received, and similar transactions during a given period;

"Outlays" represent charges made to the grant project or program. Outlays will be reported on an accrued expenditure basis;

"Program income" represents earnings by the grantee realized from the grant-supported activities. Such earnings exclude interest income and may include, but will not be limited to, income from service fees, sale of commodities, usage or rental fees, sale of assets purchased with grant funds, and royalties on patents and copyrights. Program income will be reported on an accrued income basis;

The "unobligated balance" is the portion of the funds authorized by the Federal grantor agency which has not been obligated by the grantee and is determined by deducting the cumulative obligations from the funds authorized; and

"Unpaid obligations" represent the amount of obligations incurred by the grantee which have not been paid.

(c) The grantee will be responsible for maintaining a system of financial records which will provide the financial information necessary to complete the following reports: Financial Status Report, Report of Federal Cash Transactions, and Request for Advance or Reimbursement.

(1) The Financial Status Report shall be prepared and submitted in accordance with the following guidelines:

(i) The grantee will prepare and submit the Financial Status Report to coincide with the ending dates of Federal fiscal year quarters. This report should be sent by the grantee to be received by the ARDM no later than 30 days after the end of the reporting period;

(ii) The grantee shall prepare and submit a final Financial Status Report within 90 days after completion of the grant. An extension to reporting due dates may be granted when requested by the grantee;

(iii) The grantee shall submit an original and two copies of the completed Financial Status Report for each reporting period to the ARDM.

(iv) The Financial Status Report shall specify two separate functional cost areas. They are (A) Administrative costs and (B) Enrollee costs.

(2) The Report of Federal Cash Transactions shall be prepared and submitted in accordance with the following guidelines:

(i) When funds are advanced to the grantee through letter of creditor or by individual written requests, the grantee shall prepare and submit on an accrued basis a "Report of Federal Cash Transactions." This report will be used by the grantor to monitor cash advanced to the grantee and to obtain cash outlay information for the grant;

(ii) The grantee shall submit an original and two copies of the completed "Report of Federal Cash Transactions" not later than 15 working days following the end of the quarterly reporting period to the ARDM.

(3) The Request for Advance or Reimbursement shall be prepared and submitted in accordance with the following guidelines:

(i) When funds are advanced on an indivdual request basis, the grantee shall prepare and submit on an accrued basis a "Request for Advance or Reimbursement" for all advances or reimbursements;

(ii) Procedure for requesting an advance are outlined in § 89.46 of this part.

---

§ 89.45 Monitoring and reporting of project performance.

The grantee shall monitor and report program performance for grants under the Older American Community Services Employment Act as set forth below:

(a) The grantee shall constantly monitor the performance under grant-supported activities to assure that time schedules are being met, projected work units by time periods are being accomplished, and other performance goals are being achieved.

(b) Grantees shall submit the Senior Community Service Employment Program Quarterly Progress Report (QPR). The QPR shall be prepared on the format established by the Department in accordance with the instructions appearing thereon. The QPR will provide vital management information relating to:

(1) Enrollment levels, turnover, and placements into unsubsidized employment;

(2) Aggregate characteristics of project enrollees; and

(3) Allocation of employment positions among specific community service areas.

(c) The grantee shall submit the Quarterly Progress Report to the Federal grantor agency with the Financial Status Reports, in the frequency established by § 89.44.

(d) The grantee shall, prior to any reporting period, report to the Federal grantor agency the following type of conditions that may have a significant impact on the grant project as soon as they become known:

(1) Problems, delays, or adverse conditions which will materially affect the ability to attain program objectives, prevent the meeting of time schedules and goals, or preclude the attainment of project work units by established time periods; this disclosure shall be accompanied by a statement of the action taken, or contemplated, and any Federal assistance needed to resolve the situation; and

(2) Favorable developments or events which enable meeting time schedules and goals sooner than anticipated or producing more work units than originally projected.

(e) If any performance review conducted by the grantee discloses the need for change in the budget estimates in accordance with the criteria established in § 89.47 of this part, the grantee shall submit a request for budget revision.

(f) The Federal grantor agency will make site visits as frequently as practicable to:

(1) Review program accomplishments and management control systems; and

(2) Provide such technical assistance as may be required.

§ 89.46 Grant payment requirements.

(a) Grant payments shall be made to grantees in such a manner as to minimize the time elapsing between the transfer of funds from the U.S. Treasury and the actual disbursement thereof by the grantee. Any cash on hand or on deposit in excess of a 3-day supply will be considered as excessive to the grantee's immediate needs.

(b) Grant payments are made to grantees either through letter of credit, by an individual written request, or a reimbursement by Treasury check. The grant payment procedures set forth in OMB Circular A–102, Attachment J, shall govern payment for grants under the Act.

§ 89.47 Budget revision procedures.

(a) This section sets forth requirements for grantees with respect to reporting deviations from the grant budget and in requesting approvals for budget revisions.

(b) The grant budget as used in this section means the approved financial plan, as contained in the project agreement, for both the Federal and non-Federal shares to carry out the purpose of the grant. This plan is the financial expression of the project as approved during the grant application and award process.

(c) The grantee shall request prior approvals promptly from the grantor agency for budget revisions whenever:

(1) The revision results from changes in the scope or the objective of the grant-supported project;

(2) The revision indicates the need for additional Federal funding;

(3) The grant budget is over $100,000 and the cumulative amount of transfers among direct cost object class budget categories exceeds or is expected to exceed $10,000, or 5 percent of the grant budget, whichever is greater. The same criteria apply to the cumulative amount of transfers among programs, functions, and activities when budgeted separately for a grant, except that the grantor agency shall permit no transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended;

(4) The grant budget is $100,000, or less, and the cumulative amount of transfers among direct cost object class budget categories exceeds or is expected to exceed 5 percent of the grant budget. The same criteria apply to the cumulative amount of transfers among programs, functions, and activities when budgeted separately for a grant, except that the grantor agency shall permit no transfer which would cause any Federal appropriation, or part thereof, to be used for purposes other than those intended;

(5) The revisions involve the transfer of amounts budgeted for indirect costs to absorb increases in direct costs; or

(6) The revisions pertain to the inclusion of reimbursable costs requiring prior approval in accordance with the provisions of OMB Circular No. A–87.

(d) All other changes to grant budgets do not require approval. These changes include (1) the use of grantee funds in furtherance of program objectives over and above the grantee minimum share included in the approved grant budget, and (2) the transfer of amounts budgeted for direct costs to absorb authorized increases in indirect costs.

(e) Grantees shall notify the grantor agency promptly whenever the amount of Federal authorized funds is expected to exceed the needs of the grantee by more than $5,000 or 5 percent of the Federal grant, whichever, is greater. This notification shall be made no later than the 1st day of the 8th month of the fiscal year in which the grant was executed. The Secretary reserves the right to reduce the amount of Federal funds obligated under the grant by the amount indicated by the grantee as being excessive to the requirements of the project. The notification requirement contained in this section shall not be in effect for Fiscal Year 1974 nor shall it be in effect for any grant which was executed after the 8th month of the fiscal year.

(f) When requesting approval for budget revisions, grantees shall use the budget forms which were used in the grant application. However, grantees may request by letter the approvals required by the provisions of OMB Circular No. A–87.

(g) Within 30 days from the date of receipt of the request for budget revisions, the grantor agency will review the request and notify the grantee whether or not the budget revisions have been approved. If the revision is still under consideration at the end of 30 days, the grantor will inform the grantee in writing as to when the grantee may expect the decision.

§ 89.48 Grant closeout procedures.

(a) This section prescribes uniform closeout procedures for Federal grants under the Act.

(b) The following definitions shall apply for the purpose of this section:

"Grant closeout" is the process by which a Federal grantor agency determines that all applicable administrative actions and all required work of the grant have been completed by the grantee and the grantor;

"Date of completion" is the date when all work under a grant is completed or the date in the grant award document, or any supplement or amendment thereto, on which Federal assistance ends;

"Termination" of a grant means the cancellation of Federal assistance, in whole or in part, under a grant at any time prior to the date of completion;

"Suspension" of a grant is an action by a Federal grantor agency which temporarily suspends Federal assistance under the grant pending corrective action by the grantee or pending a decision to terminate the grant by the grantor agency; and

"Disallowed costs" are those charges to a grant which the grantor agency or its representative determines to be unallowable. (See OMB Circular No. A–87.)

(c) The following procedures are to be observed in the grant closeout process:

(1) Upon request, the Federal grantor agency will make prompt payment to the grantee for allowable reimbursable costs under the grant being closed out;

V 39 112 JUN 10 74 XUM

(2) The grantee shall immediately refund to the grantor agency any unencumbered balance of cash advanced to the grantee;

(3) The grantee shall submit to the grantor agency within 90 days after the date of completion of the grant all financial, progress, and other reports required as a condition of the grant. Extensions may be allowed upon request of the grantee;

(4) The grantor agency shall make a settlement for any adjustments to the Federal share of costs after these reports are received;

(5) The grantee shall account for any property acquired with grant funds, or received from the Government in accordance with the provisions of § 89.49 of this part;

(6) In the event a final audit has not been performed prior to the closeout of the grant, the grantor agency shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

(d) In the event that the Federal grantor agency determines that a grantee has failed to comply with stipulations, standards, or conditions of the grant agreement, the grantor agency may, on reasonable notice to the grantee, but no less than 7 days, suspend the grant, and withhold further payments, or prohibit the grantee from incurring additional obligations of grant funds, pending corrective action by the grantee or a decision to terminate in accordance with paragraph (e)(1) of this section. The grantor agency may allow all necessary and proper costs which the grantee could not reasonably avoid during the period of suspension provided that they meet the provisions of OMB Circular No. A–87.

(e) Termination of a grant may be accomplished under the following conditions:

(1) The grantor agency may terminate any grant in whole, or in part, at any time before the date of completion, whenever it is determined that the grantee has failed to comply with the conditions of the grant. The grantor agency shall promptly notify the grantee in writing of the determination and the reasons for the termination, together with the effective date. Payments made to grantees or recoveries by the grantor agencies under grants terminated for cause shall be in accord with the legal rights and liabilities of the parties; and

(2) The grantor agency or grantee may terminate grants in whole, or in part, when both parties agree that the continuation of the project would not produce beneficial results commensurate with the further expenditure of funds. The two parties shall agree upon the termination conditions, including the effective date and, in the case of partial terminations, the portion to be terminated. The grantee shall not incur new obligations for the terminated portion after the effective date, and shall cancel as many outstanding obligations as possible. The Federal agency shall allow full credit to the grantee for the Federal share of the noncancellable obligations, properly incurred by the grantee prior to termination.

§ 89.49 Property management standards.

The grantee may use its own property management standards and procedures providing it also complies with the requirements of the Property Handbook for A–102, Eligible Grantees. This handbook will be provided to each grantee by the Department.

§ 89.50 Procurement standards.

The procurement standards set forth in OMB Circular A–102, Attachment O, shall be followed and enforced by grantees under the Act in their procurement of services, supplies, and equipment necessary to implement the scope of work covered by the grant agreement.

§ 89.51 Allowable costs.

Within the restrictions contained in § 89.34 of this part, entitled "Limitations on Federal Funds.", funds granted under the Act may be expended only for purposes permitted under the provisions of Subpart 1–15.7 of Title 41 of the Code of Federal Regulations (OMB Circular A–87).

Subpart E—Contract Administration

§ 89.52 General.

This Subpart E provides a reference to those regulations which relate to the administration of contracts under the Act. Project agreements under the Act which are entered into between the Department and organizations other than units of State or local government shall take the form of a cost reimbursement contract.

§ 89.53 Reference to applicable regulations and requirements.

The regulations and requirements contained in 41 CFR, Chapter 1, shall apply to cost reimbursement contracts under the Act.

Subpart F—Assessment and Evaluation

§ 89.54 General.

This Subpart F sets forth the procedures which will be observed by the Department in assessing and evaluating the results and effectiveness of projects under the Act. The Department will assess project sponsors to determine whether they are carrying out the purposes and provisions of the Act in accordance with their project agreements. The Secretary will also evaluate the overall program conducted under the Act to aid in the overall administration of the Act.

§ 89.55 Responsibilities of the Secretary.

(a) As used in this section, the term "assessment" refers to the Federal review of plans and performance of individual project sponsors and the term "evaluation" refers to the Federal study of the overall results and effectiveness of projects under the Act.

(b) The Secretary has the responsibility to determine that the project sponsor is operating in general accordance with its project agreement in carrying out the purposes and provisions of the Act, and has demonstrated maximum efforts to implement the provision in its prior year's agreement.

(1) The Secretary will assess the projects in order to determine compliance with assurances and provisions contained in the project agreements, compliance with the purposes and provisions of the Act, and performance in the achievement of objectives specified in the project agreement.

(2) Such assessment will be conducted through the review of required periodic reports and, as necessary, be supplemented by special reports from the project sponsor, the examination of records maintained by the project sponsor, selective on-site reviews, including in certain instances, the investigation of allegations or complaints, or other examination as deemed necessary and appropriate by the Secretary.

(3) Assessment may also be conducted for purposes of offering technical assistance and recommendations for corrective actions to project sponsors as considered necessary.

(c) The Secretary has the responsibility to provide for the continuing evaluation of all programs and activities conducted pursuant to the Act. Such studies will include examination of:

(1) Cost in relation to effectiveness;

(2) Impact on communities and participants;

(3) Implications for related programs;

(4) Extent to which needs of the target client group are being met;

(5) Adequacy of mechanisms for the administration of the program;

(6) Opinions of participants about the strengths and weaknesses of the project; and

(7) The extent to which artificial barriers restricting employment and advancement opportunities in organizations receiving funds under the Act have been removed.

(d) The Secretary will compile, on a State, regional, and national basis, information obtained from periodic reports or special reports, surveys, or samples required from project sponsors, including information related to:

(1) Enrollee characteristics;

(2) Levels of enrollment and turnover in enrollment;

(3) Allocation of enrollment positions among specific areas of community service; and

(4) Total dollar cost per enrollment position.

(e) Evaluations carried out in accordance with paragraph (c) of this section may be conducted directly by the Department or through contract, grant or other arrangement as the Secretary deems necessary or appropriate.

§ 89.56 Limitation.

The Secretary will not, in arranging for evaluation of any project under the Act, utilize for such evaluation any nongovernmental individual, institution, or organization which is associated with that project as a consultant, technical advisor or in any similar capacity.

§ 89.57 Consultation with other agencies.

The Secretary will consult and cooperate with the Office of Economic Opportunity, the Administration on Aging, the Department of Health, Education and Welfare, and any other related Federal agency administering related programs with a view to achieving optimal coordination with other such programs and will promote the coordination of projects under the Act with other public and private programs or projects of a similar nature.

Signed at Washington, D.C. this 4th day of June, 1974.

PETER J. BRENNAN,
Secretary of Labor.

EPA—Soap and detergent manufacturing point source category; effluent limitations guidelines and standards of performance	13370; 4–12–74
FDA—Color additives; use of D&C Violet No. 2 on certain surgical sutures.	13266; 4–12–74

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

Title 3—The President

PROCLAMATION 4297

Father's Day, 1974

By the President of the United States of America

A Proclamation

For many Americans, Father's Day is best celebrated by showering the male head of the household with carefully chosen gifts.

These gifts are symbolic, of course, of the year-round love and gratitude which children feel for both of their parents. From their fathers frequently come the strength and stability which children of all ages need in order to grow up to be constructive, confident men and women. Fathers offer guiding hands for children to pass successfully through the difficulties and awkwardness of youth. And fathers bring harmony and balance to life in the home.

Nineteen seventy-four is an especially poignant time to celebrate Father's Day, since this year no young American soldiers are being sent to fight anywhere in the world. A nation at peace: this is the legacy that all fathers want to leave their children and is ultimately the greatest gift of all on Father's Day.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, in accordance with a joint resolution of Congress approved April 24, 1972, do hereby request that June 16, 1974 be observed as Father's Day. I direct Government officials to display the flag of the United States on all Government buildings, and I urge all citizens to display the flag at their homes and other suitable places on that day.

IN WITNESS WHEREOF, I have hereunto set my hand this seventh day of June, in the year of our Lord nineteen hundred seventy-four, and of the independence of the United States of America the one hundred ninety-eighth.

Richard Nixon

V39-113 JUN 11 74 XUM

EXECUTIVE ORDER 11786

Inspection of Tax Returns by the Committee on the Judiciary, House of Representatives

By virtue of the authority vested in me by sections 6103(a) and 6106 of the Internal Revenue Code of 1954, as amended (26 U.S.C. 6103(a), 6106), it is hereby ordered that the Committee on the Judiciary, House of Representatives, or any duly authorized subcommittee thereof is authorized, in connection with House Resolution 803, authorizing and directing an investigation to determine whether grounds exist for the House of Representatives to exercise its constitutional power to impeach Richard M. Nixon, President of the United States of America, to inspect all tax returns of President Nixon for the years 1969 through 1972, including other records, reports, information received orally or in writing, factual data, documents, papers, abstracts, memoranda, or evidence relating to such returns. Whenever a return is open to inspection by such Committee or subcommittee, a copy thereof shall, upon request, be furnished to such Committee or subcommittee. Such inspection shall be in accordance and upon compliance with the rules and regulations prescribed by the Secretary of the Treasury in Treasury Decision 6132, relating to the inspection of returns by committees of the Congress, approved by the President on May 3, 1955.

Richard Nixon

THE WHITE HOUSE,
June 7, 1974.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Fedaral Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER VI—SOIL CONSERVATION SERVICE, DEPARMENT OF AGRICULTURE

PART 631—GREAT PLAINS CONSERVATION PROGRAM

Correction

In FR Doc. 74-26655, appearing at page 34644, in the issue for Monday, December 17, 1973, the following changes should be made:

1. In § 631.11(a) (33), delete the 11th and 12th lines from the bottom of the paragraph.

2. In § 631.25(1), first line preceding "where" insert "case".

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FmHA Instruction 442.12]

PART 1823—ASSOCIATION LOANS AND GRANTS—COMMUNITY FACILITIES, DEVELOPMENT, CONSERVATION, UTILIZATION

Grants for Facilitating Development of Private Business Enterprises and Community Water and Waste Disposal Facilities

Sections 1823.466 to 1823.469 of Subpart O of Part 1823 published at 39 FR 3814-3815; 39 FR 4870-4871, are deleted from Chapter XVIII of Title 7, Code of Federal Regulations. Water and waste disposal grants are contained in the new Subpart P of this Part 1823. Sections 1823.461 to 1823.470 are hereby reserved.

(Sec. 7 U.S.C. 1989; delegation of authority by the Sec. of Agri., 38 FR 14944, 14948, 7 CFR 2.23; delegation of authority by the Asst. Sec. for Rural Development, 38 FR 14944, 14952, 7 CFR 2.70.)

Effective date. This deletion is effective on June 11, 1974.

Dated: June 7, 1974.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[FR Doc.74-13430 Filed 6-7-74; 11:31 am]

[FmHA Instruction 442.13]

PART 1823—ASSOCIATION LOANS AND GRANTS—COMMUNITY FACILITIES, DEVELOPMENT, CONSERVATION, UTILIZATION

Subpart P—Development Grants for Community Domestic Water and Waste Disposal Systems

An amendment to Subchapter B, "Loans and Grants Primarily for Real Estate Purposes," adds a new Subpart P, "Development Grants for Community Domestic Water and Waste Disposal Systems," of Part 1823, Title 7, Code of Federal Regulations, which provides the policies and authorizations for making and processing grants to assist in the financing of domestic water and waste disposal facilities in rural areas.

The Farmers Home Admnistration (FmHA) has been making grants under the sections of Subpart O of this Part 1823, being deleted, and which are now being placed, in an expanded form, in this new Subpart P. Since it is necessary that the FmHA proceed with the making of needed grants and not deprive the public of immediate benefits, it is unnecessary and would be contrary to the public interest to delay the program by publishing notice of proposed rulemaking as provided by 5 U.S.C. 553 (b) and (c).

In accordance with the spirit of the public policies set forth in 5 U.S.C. 553, interested persons may submit, on or before Sept. 9, 1974, written comments, suggestions, data or arguments to the Office of the Deputy Administrator Comptroller, Farmers Home Administration, U. S. Department of Agriculture, Room 5007, South Building, Washington, D.C. 20250. Material thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal. However, this amendment shall remain effective until it is amended in order to permit the public business to proceed expeditiously. This new Subpart P reads as follows:

Subpart P—Development Grants for Community Domestic Water and Waste Disposal Systems

Sec.
1823.471 General—water and waste disposal development.
1823.472 Application processing.
1823.473 Eligibility.
1823.474 Compliance with comprehensive water and waste disposal development plan and other regulatory requirements.
1823.475 Regional Commission grant funds.
1823.476 Management assistance.
1823.477 Redelegation of authority.

AUTHORITY: 7 U.S.C. 1989; delegation of authority by the Secretary of Agriculture, 38 FR 14944, 14948, 7 CFR 2.23; delegation of authority by the Assistant Secretary for Rural Development, 38 FR 14944, 14952, 7 CFR 2.70.

Subpart P—Development Grants for Community Domestic Water and Waste Disposal Systems

§ 1823.471 General—water and waste disposal development.

This Subpart P sets forth Faarmers Home Administration (FmHA) policies and requirements pertaining to grants for the development of water and waste disposal facilities. FmHA shall cooperate fully with appropriate State agencies in the making of grants in a manner which will assure maximum support of the States' strategies for development of rural areas. State and substate A-95 Agencies may recommend priorities for applications. FmHA will give due consideration to all A-95 Agency review comments and priority recommendations in selecting applications for funding. Priority will be given to water facility projects.

§ 1823.472 Application processing.

Applications will be processed in accordance with applicable portions of present Subpart A of this Part, and the following:

(a) Grants may not exceed fifty percent (50%) of eligible project development costs listed in paragraph (c) of this section.

(d) Determining the need for development grant: Grants will be used for projects serving the most financially needy communities, and to reduce family user costs to a reasonable level. Reasonable shall be defined as that which is not less than existing prevailing rates in communities being served by established systems constructed at similar per family user cost, having similar economic conditions, and with families having income levels comparable to those in the applicant community. User costs shall include charges, taxes, and assessments attributable to the project.

(1) Ordinarily a grant will be considered only when the debt service portion of the average family user cost for either water or sewer service exceeds one percent (1%) of the median family income (average income if median income is not available) as determined in accordance with paragraph (b) (3) of this section for those families in the applicant service area and will be limited to an amount necessary to reduce the debt service portion of family user cost to such one percent (1%) level. This procedure shall not be used to result in a rate below that deemed to be reasonable as defined in paragraph (b) of this section.

(2) If, after applying the formula described in paragraph (b) (1) of this section FmHA determines that a reasonable family user cost has not been achieved due to unusually high operation and maintenance costs, construction or water acquisition costs, or other factors, FmHA may proceed with a grant in an amount necessary to reduce family user costs to not below a reasonable level as defined in paragraph (b) of this section.

V 39 — 113 JUN 11 74 XUM

(3) The median family income in the applicant community or those reference communities used in comparing the proposed system with similar systems, will be determined by the FmHA State Director as follows:

(i) The median family income will be determined from the U.S. Department of Commerce, Bureau of the Census, Publication PC (1)—C series, which is available for each State.

(ii) For those projects where the FmHA State Director has reason to believe that the census data is not an accurate representation of the median family income within the area to be served, he may determine the median family income taking into consideration the following:

(A) Data from responsible public or private sources.

(B) His knowledge of the community based on available FmHA data gained through individual loans.

(C) The results of a survey conducted by the applicant.

(D) By using a combination of the above.

(4) Preliminary engineering reports and suggested operating budgets included therein will be prepared without taking into consideration a grant.

(c) Use of grant funds: Funds may be used only for the following purposes:

(1) *Domestic water and waste disposal facilities*. Install and improve central community domestic water and waste disposal facilities including:

(i) Facilities for the development, storage, treatment, purification, and distribution of water.

(ii) Sanitary sewer facilities including collecton lines, treatment plants, outfall lines, disposal fields, and stabilization ponds.

(iii) Storm sewers for the collection and disposal of surface drainage.

(iv) Solid waste disposal projects including facilities for the collection, treatment, or disposal of human, animal, agricultural, and other wastes. Items such as garbage trucks and equipment, sanitary landfills, and incinerators are included.

(2) *Acquire land and rights*. Acquiring land, interest in land, and rights such as water rights, leases, permits, rights-of-way, and other evidence of land or water control which are necessary for development of the facility.

(3) *Buildings, fences, secondary facilities, and relocation*. (i) Construct buildings of modest design, size, and cost, and fences essential to the successful operation or protection of authorized facilities and to provide storage for tools and supplies needed to operate the facility, and secondary facilities such as gas or electric service lines to convey fuel or energy for, or utilities for, primary facilities.

(ii) Relocate roads, bridges, utilities, fences, and other public or private improvements.

(4) *Services and fees*. Pay costs incidental to establishment of such facilities or for services necessary in accomplishing any of the above purposes, including, but not limited to:

(i) Paying fees or other legal expenses of establishing a water right through appropriation, agreement, permit, or court decree.

(ii) Paying for other services necessary in planning and completing the facilities to be financed.

(iii) Acquiring a water supply by the purchase of water stock or membership in a water users association.

(d) Grant limitations: (1) Grant funds may not be used to:

(i) Pay for the construction of any new combined storm and sanitary sewer facilities.

(ii) Pay any annually recurring costs that are generally considered to be operation and maintenance expenses.

(iii) Construct or repair electric generating plants, electric transmission lines, or gas distribution lines to provide services for commercial sale.

(iv) Purchase firetrucks, hoses, and other firefighting equipment or construct housing for such equipment.

(v) Pay rental for the use of equipment or machinery owned by the association.

(vi) Pay for sales rooms or other purposes not directly related to operation and maintenance of the facility being installed or improved.

(vii) Purchase existing systems.

(viii) Refinance existing indebtedness.

(ix) Pay any portion of the cost of a facility in cases where the annual reserve based on a typical year exceeds one-tenth of the average annual debt service requirement unless State regulatory agencies require a larger reserve, or where operation and maintenance costs are unrealistic.

(x) Pay interest.

(2) An FmHA development grant may not be made in excess of fifty percent (50%) of the eligible development cost.

(3) FmHA grants may be used on projects where other Federal financial assistance (such as Environmental Protection Agency (EPA), Economic Development Administration (EDA), shared revenue, Appalachia, or other Regional Development Commission grants) is available on all or part of the facility. FmHA grants may be used on collection systems where EPA grants are available only on waste treatment plants. If any Federal grants, other than FmHA are made in connection with the proposed project, the amount of any FmHA grant plus the amount of other Federal grants may not exceed fifty percent (50%), or the appropriate EPA percentage for sewage facilities, of the development costs of the project unless such other Federal grants are being made by the Department of Defense, EDA, or a Regional Economic Development Commission. In determining the Federal grant limitations, waste treatment and waste collection facilities will be recognized as separate projects.

(4) Facilities previously installed will not be considered in determining the development costs. The amount of any FmHA advance for planning previously made may be included in the development cost.

(e) Grant closing and delivery of funds:

(1) Grants will be closed in accordance with instructions received from the Office of the General Counsel. The policy of FmHA is not to disburse grant funds from the Treasury until they are actually needed by the applicant. If grant funds are available from other agencies and they are transferred to the Finance Office for disbursement by FmHA, these grant funds should be used before FmHA grant funds.

(2) When FmHA is not making a loan and all or a portion of the grant is for construction, the grant will not be closed and funds will not be delivered before construction is completed.

(i) Grantees shall provide FmHA through the use of Forms AD–627, "Report of Federal Cash Transaction," and AD–629, "Outlay Report and Request for Reimbursement for Construction Programs," a complete factual report regarding financial transactions pertaining to the project to be financed with grant funds.

(ii) Final costs shall be determined and should there remain a cash balance after paying the allowable items as shown on Forms AD–627 and AD–629, the grantee shall immediately refund such balance to FmHA. In the event the required audit has not been performed prior to grant closing, FmHA retains the right to recover an appropriate amount after considering the recommendations on disallowed costs resulting from the audit. FmHA, of course, may also recover amounts which by subsequent investigation are found to have been improperly spent by Grantee.

(iii) Grant funds will be delivered by Treasury check.

(f) Obtaining development grant agreement: Form FmHA 442–31, "Association Water or Sewer System Grant Agreement," will be completed and executed in accordance with requirements of approval and closing instructions. Both County Supervisors and State Directors are authorized to sign the grant agreement on behalf of the FmHA. For grants that supplement FmHA loan funds, the grant should be closed simultaneously with the closing of the loan. The grant will be considered closed when Form FmHA 442–31 has been properly executed. Form FmHA 442–31 provides that the grantee will agree to the following:

(1) Cause said project to be constructed within the total sums available to it, including said grant, in accordance with the project plans and specifications and any necessary modifications thereof prepared by Grantee and approved by Grantor.

(2) Permit periodic inspection of the construction by a designated representative of Grantor during construction.

(3) Manage, operate and maintain the system, including this project if less than the whole of said system, continuously in an efficient and economical manner.

(4) Make the services of said system available within its capacity to all persons in Grantee's service area without discrimination as to race, color, religion, or national origin, at reasonable charges, including assessments, taxes, or fees in accordance with a schedule of such charges, whether for one or more classes of service, adopted by resolution dated ____________, 19__, as may be modified from time to time by Grantee. The initial rate schedule must be approved by Grantor. Thereafter Grantee may make such modifications to the rate schedule as Grantee deems necessary to efficiently and economically provide for the financial requirements of the system as long as the rate schedule remains reasonable and nondiscriminatory.

(5) Adjust its operating costs and service charges from time to time to provide for adequate operation and maintenance, emergency repair reserves, obsolescence reserves, debt service and debt service reserves.

(6) Expand its system from time to time to meet reasonably anticipated growth or service requirements in the area within its jurisdiction.

(7) Not transfer or dispose of the system, or any part thereof, being constructed or improved with such grant funds without the written consent of Grantor, and not encumber the project for a period of five years from the date hereof without the written consent of the Grantor.

(8) Provide Grantor with such periodic reports as it may require and permit periodic inspection of its operations by a designated representative of the Grantor.

(9) To execute Form FmHA 400–1, "Equal Opportunity Agreement," to which is annexed a Form FmHA 400–2, "Equal Opportunity Clause," and to incorporate in or attach as a rider to each construction contract for the project involving $10,000 or more a Form FmHA 400–2; to execute Form FmHA 400–4, "Nondiscrimination Agreement," and to execute any other agreements required by Grantor which Grantee is legally authorized to execute. If any such Form has been executed by Grantee as a result of a loan being made to Grantee by Grantor contemporaneously with the making of this grant, another Form of the same type need not be executed in connection with this grant.

(10) Upon any default under its representations or agreements set forth in this instrument, Grantee, at the option and demand of Grantor, will, to the extent legally permissible, repay to Grantor forthwith the original principal amount of the grant stated hereinabove, with interest at the rate of 5 per centum per annum from the date of the default. The provisions of this Grant Agreement may be enforced by Grantor, at its option and without regard to prior waivers by it of previous defaults of Grantee, by judicial proceedings to require specific performance of the terms of this Grant Agreement or by such other proceedings in law or equity, in either Federal or State courts, as may be deemed necessary by Grantor to assure compliance with the provisions of this Grant Agreement and the laws and regulations under which this grant is made.

§ 1823.473 Eligibility.

To be eligible for water or waste disposal development grant assistance an applicant must meet the requirements of § 1823.2.

§ 1823.474 Compliance with comprehensive water and waste disposal development plan and other regulatory requirements.

(a) Each grant shall meet the requirements of § 1823.10 and the following. No grant shall be made in connection with any project unless the project—

(1) Will serve a rural area which, if such project is carried out, is not likely to decline in population below that for which the project was designed,

(2) Is designed and constructed so that adequate capacity will or can be made available to serve the present population of the area to the extent feasible and to serve the reasonably foreseeable growth needs of the area, and

(3) Is necessary for an orderly community development consistent with a comprehensive community water, waste disposal, or other development plan of the rural area in which the project is located.

§ 1823.475 Regional Commission grant funds.

When Regional Commission grant funds are administered by FmHA and an FmHA loan or grant is associated with the Regional Commission grant no administrative charges will be made. If no FmHA loan or grant is associated with the Regional Commission grant an administrative charge will be made pursuant to the Economy Act of 1932 (31 U.S.C. 686). A fee of five percent (5%) of the first $50,000 of a Regional Commission grant and one percent (1%) of any amount over $50,000 will be paid FmHA by the commission.

§ 1823.476 Management assistance.

Grant recipients will be supervised to the extent necessary to assure that facilities are constructed in accordance with approved plans and specifications to assure that funds are expended for approved purposes.

§ 1823.477 Redelegation of authority.

The State Director is responsible for implementing the authorities contained in this Subpart. He may redelegate such authority to appropriate FmHA employees.

Effective date: This amendment is effective on June 11, 1974.

Dated: June 7, 1974.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 4, Amdt. 1]

PART 108—LOANS TO STATE AND LOCAL DEVELOPMENT COMPANIES

Section 501 Loans

On May 10, 1974, the Small Business Administration published in the FEDERAL REGISTER (39 FR 16907) a notice of proposed rule making which amends Revision 4, § 108.501–1(f).

It limits the interest rate to 8 percent taking into consideration the cost of money to the Treasury.

The public was invited to comment by May 20, 1974. No comments were received and the proposed amendment is adopted. This amendment is effective as of May 24, 1974.

§ 108.501–1 Section 501 Loans.

* * * * *

(f) *Interest Rate*. The rate of interest on section 501 loans to state development corporations shall be at a rate (not to exceed 8 percent per annum) which shall be established annually at the beginning of each fiscal year by the Administrator, taking into consideration the average market yield on outstanding U.S. Treasury obligations of comparable maturity, plus such additional charge, if any, to cover other costs of the program as the Administrator may determine and as consistent with the section 501 program.

Dated: June 3, 1974.

THOMAS S. KLEPPE,
Administrator.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74–EA–32; Amdt. 39–1871]

PART 39—AIRWORTHINESS DIRECTIVES

DeHavilland Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation regulations so as to amend AD 69–2–1 applicable to deHavilland DHC–6 type airplanes.

Since the publication of AD 69–2–1 experience has indicated the feasibility and need to inspect the total wing front spar fitting P/N C6WM1031–1 and –2. As this inspection further relates to air safety, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation regulations is amended so as to amend AD 69–2–1 as follows:

(1) Add the following subparagraph (3) to paragraph (a):

V39—113 JUN 11 74 XUM

(3) At the next inspection required by paragraph (a)(1) above after the effective date of this amendment (amendment 39-1871), inspect the whole fitting in accordance with the procedure and repetitive inspection interval as specified in paragraph (a)(1) above.

This amendment is effective June 18, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on June 4, 1974.

James Bispo,
Acting Director, Eastern Region.

[FR Doc.74-13288 Filed 6-10-74;8:45 am]

[Docket No. 74-SO-59; Amdt. 39-1867]

PART 39—AIRWORTHINESS DIRECTIVES

Lockheed Model 382 Series

There have been cracks of the outer wing lower forward beam cap and web on Lockheed Model 382 series airplanes that could result in wing failures. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require an inspection of the outer wing lower forward beam cap and web on Lockheed Model 382 series airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation regulations is amended by adding the following new airworthiness directive:

Lockheed. Applies to all Model 382 Series Airplanes, Serial Numbers 3948 and 4101 Through 4541 Certificated in all Categories

Compliance as indicated

(a) For airplanes with 5000 or more hours total time in service on the effective date of this AD comply with paragraph (c) within the next 50 hours time in service, and thereafter at intervals not to exceed 1000 hours time in service from the last inspection.

(b) For airplanes with less than 5000 hours total time in service on the effective date of the AD comply with paragraph (c) before the accumulation of 5050 hours total time in service, and thereafter at intervals not to exceed 1000 hours time in service from the last inspection.

(c) Inspect outer wing lower forward beam cap, web, and skin for cracks in the area extending from outer wing stations 153 to 162 and 198 to 207, both left and right.

(1) Inspect outer wing lower forward beam cap at the fastener holes used to attach skin panel and beam web in the area extending from outer wing stations 153 to 162 and 198 to 207, both left and right inside the number 1 and number 4 dry bay areas. Inspection shall be by dye penetrant method in accordance with Lockheed Alert Service Bulletin A382-169 or later FAA-approved revision, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, FAA, Southern Region.

(2) Inspect outer wing lower forward beam web from top of cap flange upward 3 inches in the area extending from Outer Wing Stations 153 to 162 and 198 to 207, both left and right, inside the number 1 and number 4 dry bay areas. Inspection shall be visual in accordance with Lockheed Alert Service Bulletin A382-169 or later FAA-approved revision, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, FAA, Southern Region, using flashlight after cleaning area to be inspected.

(3) Inspect outer wing lower forward skin panel from aft side of beam cap aft to the first skin panel riser (approximately 2 inches) in the area extending from Outer Wing Stations 153 to 162 and 198 to 207, both left and right, externally. Inspection shall be visual in accordance with Lockheed Alert Service Bulletin A382-169 or later FAA-approved revision, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, FAA, Southern Region, using flashlight through lower nacelle access doors.

(4) Repair shall be in accordance with Lockheed Service Bulletin 382-169A or later FAA-approved revision, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, FAA, Southern Region.

(5) Preventive modification shall be in accordance with Lockheed Service Bulletin 382-169A or later FAA-approved revision, or Lockheed ECP 954, or Lockheed Drawing 3304406, or in an equivalent manner approved by the Chief, Engineering and Manufacturing Branch, FAA, Southern Region.

(d) The inspections required by this AD may be discontinued for those airplanes repaired or reinforced in accordance with paragraph (c) or in accordance with an equivalent repair or reinforcement approved by the Chief, Engineering and Manufacturing Branch, FAA, Southern Region.

(e) Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Engineering and Manufacturing Branch, FAA, Southern Region, may adjust the repetitive inspection intervals specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for such operator.

(f) Aircraft may be flown to a base for performance of the inspections required per this AD in accordance with FARs 21.197 and 21.199.

(g) Report inspection findings to Chief, Engineering and Manufacturing Branch, FAA, Southern Region, P.O. Box 20636, Atlanta, Georgia 30320.

Lockheed-Georgia Alert Service Bulletin A382-169, dated May 30, 1974, covers this same subject.

This amendment becomes effective May 30, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Georgia, on May 30, 1974.

P. M. Swatek,
Director, Southern Region.

[FR Doc.74-13289 Filed 6-10-74;8:45 am]

[Docket No. 74-EA-31; Amdt. 39-1870]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation regulations so as to issue an airworthiness directive applicable to Piper PA-24, PA-30 and PA-39 type airplanes.

There have been reports of looseness of the high shear rivets attaching the stabilator torque tube bearing fittings. Since this deficiency can exist or develop in airplanes of similar type design, an airworthiness directive is being issued which will require an inspection and repair when necessary.

In view of the effect on air safety which results from the foregoing deficiency, notice and public procedure hereon are impractical and good cause exists for making the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of Part 39 of the Federal Aviation regulations is amended by adding the following new Airworthiness Directive:

Piper. Applies to Models PA-24, PA-24-250 and PA-24-260, Serial Nos. 24-1 Through 24-5047; PA-24-400, Serial Nos. 26-2 Through 26-148; PA-30, Serial Nos. 30-1 Through 30-2000; PA-39, Serial Numbers 39-1 Through 39-155, Certificated in all Categories

Compliance required as indicated.

To prevent possible hazards in flight associated with loose high shear rivets which attach the stabilator torque tube bearing support fittings P/Ns 20420-00, -01 and 20419-00, -01 to the aft fuselage, accomplish the following:

1. Within the next 25 hours in service from the effective date of this AD unless previously accomplished, inspect in accordance with paragraph 2.

2. Inspect the stabilator torque tube bearing support fittings for looseness as follows:

a. Remove the tail cone and right rear aft fuselage access door.

b. Grasp the stabilator tip and exert a fore-and-aft force and then an up-and-down force.

c. Simultaneously with 2b, have another person check by feel for any looseness of the stabilator torque tube bearing support fittings.

d. Repeat 2b and 2c at the opposite stabilator tip.

3. If looseness is detected, repair in accordance with Piper Kit No. 760835 Instructions; Hi-Shear Rivet Replacement dated 12/20/73 or equivalent, before further flight, except that the airplane may be flown in accordance with FAR 21.197 to a base where repair can be made.

4. Equivalent repairs must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region.

(Piper Service Bulletin No. 411, refers to this subject.)

This amendment is effective June 18, 1974.

(Sec. 313(a), 601, 603, of Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423); Sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on June 4, 1974.

James Bispo,
Acting Director, Eastern Region.

[FR Doc.74-13290 Filed 6-10-74;8:45 am]

[Docket No. 74-EA-28; Amdt. 39-1872]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Aircraft

The Federal Aviation Administration is amending § 39.13 of Part 39 of the Federal Aviation regulations so as to issue an airworthiness directive applicable to Piper PA-23, PA-24 and PA-30 type airplanes.

There have been reports of findings of corrosion on stabilator attachment bolts. The corrosion can affect the structural integrity of the stabilator, which presents a hazard to air safety. Since this deficiency can occur or exist in airplanes of the same type design, an airworthiness directive is being issued which will require periodic inspections and replacement when necessary.

In view of the effeca on air saftey, notice and public procedure hereon are impractical and cause exists to make the amendment effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 FR 13697) § 39.13 of Part 39 of the Federal Aviation regulations is amended by adding the following new Airworthiness Directive:

Piper. Applies to Models PA-23-235 and PA-23-250 aircraft Serial Nos. 27-1 through 27-4654, Models PA-24, PA-24-250 and PA-24-260 aircraft Serial Nos. 24-1 through 24-5047, Model PA-24-400 aircraft Serial Nos. 26-2 through 26-148, Model PA-30 aircraft Serial Nos. 30-1 through 30-2000 certificated in all categories

Compliance required as indicated unless previously accomplished. To prevent possible hazards in flight associated with the corrosion of the stabilator attachment bolts, accomplish the following:

1. Within the next 100 hours in service, unless previously accomplished, and at intervals not to exceed three years or five hundred hours in service from the last inspection, whichever occurs first, remove the four (4) stabilator attachment bolts and inspect for corrosion.

2. If corrosion is found, before further flight, replace the bolt, nut and washer with unused parts of the same part numbers or equivalent. The bolt can be replaced with an equivalent corrosion resistent AN bolt.

3. If a corrosion-resistant AN bolt or equivalent is used, compliance with the requirements of the AD may be discontinued.

4. Equivalent parts must be FAA approved.

5. Upon submission of substantiating data by an owner or operator through an FAA Maintenance Inspector, the Chief, Engineering and Manufacturing Branch, FAA, Eastern Region, may adjust the repetitive inspection interval specified in this AD.

(Piper Service Letter No. 667A refers to this subject.)

This amendment is effective June 18, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on June 4, 1974.

James Bispo,
Deputy Director, Eastern Region.

[FR Doc.74-13291 Filed 6-10-74;8:45 am]

[Airspace Docket No. 74-SO-39]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On April 16, 1974, a notice of proposed rule making was published in the Federal Register (39 FR 13668), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation regulations that would designate the Cartersville, Ga., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., August 15, 1974, as hereinafter set forth.

In § 71.181 (39 FR 440), the following transition area is added:

Cartersville, Ga.

That airspace extending upward from 700-feet above the surface within a 9-mile radius of Cartersville Airport (latitude 34°07'30'' N., longitude 84°51'00'' W.).

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on May 30, 1974.

Phillip M. Swatek,
Director, Southern Region.

[FR Doc.74-13292 Filed 6-10-74;8:45 am]

[Airspace Docket No. 74-EA-13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE AND REPORTING POINTS

Alteration of Transition Areas

On page 11097 of the Federal Register for March 25, 1974, the Federal Aviation Administration published a proposed rule which would alter the Potsdam, N.Y. (39 FR 571) and Ogdensburg, N.Y. (39 FR 557) Transition Areas.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulations are hereby adopted, effective 0901 G.m.t. August 15, 1974.

(Sec. 307(a), Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Jamaica, N.Y., on May 24, 1974.

James Bispo,
Deputy Director, Eastern Region.

1. Amend § 71.181 of Part 71, Federal Aviation Regulations by amending the description of the Potsdam, N.Y. 700-foot floor transition area by adding, "and within 3.5 miles each side of a 044° bearing from the Potsdam, N.Y. radio beacon (lat. 44°43'24'' N., long. 74°52'59'' W.) extending from the 6.5 mile radius area to 11.5 miles northeast of the radio beacon." following, "long. 74°57'00'' W.".

2. Amend § 71.181 of Part 71, Federal Aviation Regulations by amending the description of the Ogdensburg, N.Y. 1200-foot floor transition area by deleting, "to point of beginning." and by substituting "44°42'00'' N., 74°54'00'' W.; to 44°36'00'' N., 75°00'00'' W.; to point of beginning.", therefor.

[FR Doc.74-13293 Filed 6-10-74;8:45 am]

[Docket No. 13823, Amdt. No. 920]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–10825]

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Audit Requirements of Annual Report of Members, Brokers and Dealers

The Securities and Exchange Commission today announced the adoption of amendments to Form X–17A–5 (17 CFR 249.617) and the Audit Requirements thereto which reflect the additional information necessary to monitor compliance with Rule 15c3–3 (17 CFR 240.15c3–3) as well as developments in the securities industry since 1967 which have affected the auditing and financial regulation of brokers and dealers.

SUMMARY OF THE AMENDMENTS

The principal amendments to the Form relate to the Commission's adoption of Rule 15c3–3 (17 CFR 240.15c3–3) under the Securities Exchange Act of 1934 and require the submission of a schedule in support of the computation of a broker-dealer's "Formula for Determination of Reserve Requirement" ("Reserve Requirement") under Rule 15c3–3 (17 CFR 240.15c3–3) as of the audit date, and the financial questionnaire requires reporting of the amount required to be deposited in the "Special Reserve Bank Account for the Exclusive Benefit of Customers" ("Reserve Bank Account") and any amount on deposit in such account in excess of the Reserve Requirement.

Question 4 of the financial questionnaire has been revised to classify open items with other brokers and dealers, clearing organizations or issuers in accordance with the amounts which are to be included in the calculation of a firm's Reserve Requirements, the amounts includable in aggregate indebtedness under the net capital rules and amounts which are not included in either computation. The revised disclosure is intended to simplify reporting and facilitate review of the questionnaire by self-regulators and the Commission.

In order to determine whether a broker-dealer has an undue concentration of a specific security long in a customer's margin account, the amended Form requires note disclosure of any security in such accounts exceeding 15 percent of the aggregate value of all securities which collateralize all secured margin accounts receivable so that proper determination of any Reserve Requirement adjustments pursuant to Note (B) of the Reserve Requirement computation may be determined. This requirement should not be construed as precluding the respondent from combining accounts as permitted by General Instruction 6 to Form X–17A–5 (17 CFR 249.617).

The Form has also been revised to test the broker-dealer's compliance with the requirements of Rule 15c3–3 (17 CFR 240.15c3–3) to reduce customers' fully paid for and excess margin securities to a broker-dealer's possession or control.

Question 6G.1 will disclose whether instructions to obtain physical possession or control which were properly issued by the margin department were, in fact, accomplished or acted upon by the cashering department or other persons responsible for accomplishing such instructions as required by Rule 15c3–3 (17 CFR 240.15c3–3).

Question 6G.2 will indicate whether or not the margin department or other personnel responsible for the margin function had issued appropriate instructions within the parameters required by Rule 15c3–3 (17 CFR 240.15c3–3).

OTHER AMENDMENTS TO FORM X–17A–5

Question 4 of the financial questionnaire has been amended to require reporting of open items with clearing organizations using a continuous net settlement system. In addition, the Form now requires separate disclosure of free shipments of securities to other broker-dealers as well as redemptions receivable from registered investment companies or other issuers redeeming their securities.

In addition, all cash accounts which are subject to Regulation T of the Board of Governors of the Federal Reserve System will now be reported in Question 6A rather than limiting reporting to those accounts which are considered bona fide cash accounts. As a result of this change, the Audit Requirements of Form X–17A–5 (17 CFR 249.617) have also been amended to require the independent public accountant to review and test respondent's procedures relating to the prompt payment for securities purchased in a Special Cash Account pursuant to Regulation T.

The Audit Requirements of Form X–17A–5 (17 CFR 249.617) have also been amended to require that the scope of the review and tests of the accounting system, internal accounting control and procedures for safeguarding securities shall be sufficient to provide reasonable assurance that any material inadequacies existing at the date of the examination would be disclosed.

Finally, review of the procedures for complying with Rule 15c3–3 (17 CFR 240.15c3–3) is also required by these amendments.

COMMISSION ACTION

These amendments are hereby adopted under the Securities Exchange Act of 1934, particularly sections 15(c)(3), 17(a), 10(b) and 23(a) thereof and shall be effective for all audits pursuant to Rule 17a–5 under the Securities Exchange Act of 1934 commencing on or after July 15, 1974.

The text of the amendments to § 249.617 is as follows:

(1) General Instruction B.2 is amended to read as follows:

2. The valuations of customers' fully paid securities and excess margin securities in respondent's possession or control need not be included in the answers. For the purpose of this questionnaire, the terms "fully paid securities," "excess margin securities" and "physical possession or control" shall have the meanings found in the applicable provisions of Rule 15c3–3.

The following questions in Part I of the Questionnaire are amended to read as follows:

Question 1—*Bank Balances and Other Deposits.* State separately total of each kind of deposit (cash and/or market value of securities) with adequate description. This shall include cash on hand; cash in banks, representing funds subject to immediate withdrawal; "Special Reserve Bank Account for the Exclusive Benefit of Customers"; "Special Account for the Exclusive Benefit of Customers"; cash in banks subject to withdrawal restrictions; cash and securities segregated pursuant to regulations of any agency of the Federal Government, any state, any national securities exchange or national securities association; contributions to clearing organizations incident to membership; deposits with clearing organizations in connection with commitments; guaranty and margin deposits; good faith deposits (see Note 3 to Question 14); drafts with securities attached deposited for collection.

NOTES: 1. In support of the amount in the "Special Reserve Bank Account for the Exclusive Benefit of Customers" submit a schedule of the computation required under Rule 15c3–3(e) in the form prescribed in Exhibit A of Rule 15c3–3. The computation shall be as of the audit date and shall be accompanied by a reconciliation of the amounts set forth in the schedule with the amounts reported in this Questionnaire. A schedule shall be submitted even though no deposit was required to be maintained as a result of the computation unless the broker-dealer is exempt from Rule 15c3–3 by any provision of paragraph (k) of that rule. If the broker-dealer was not required to maintain a "Special Reserve Bank Account for the Exclusive Benefit of Customers" because he was exempt from Rule 15c3–3, a note shall so state.

2. The amount reported for "Special Reserve Bank Account for the Exclusive Benefit of Customers" shall indicate the required deposit and any amount in excess of requirements shall be classified as "Amount on Deposit in Special Reserve Bank Account for the Exclusive Benefit of Customers in Excess of Requirement and Subject to Immediate Withdrawal."

Question 2—*Money Borrowed and Accounts Carried by Respondent by Other Banking and Brokerage Houses, Secured by or Containing Customers' Collateral.*

A new Note 3 is added:

NOTES: * * *

3. State separately the market value of securities collateralizing a loan on behalf of the respondent which securities are reportable as customer securities as defined in Rule 15c3–3.

The caption to Question 4 is amended to read as follows:

Question 4—*Other Open Items With Brokers and Dealers, Clearing Organizations and Issuers.*

Items A, B and Note 1 are amended and Items E, F and Note 3 added as follows:

State separately totals of ledger debit balances; ledger credit balances; long security valuations; short security valuations, and classify as follows:

A. Securities borrowed (i.e., amount to be received from others upon return to them of securities borrowed by respondent):
1. Items includable in "Formula for Determination of Reserve Requirement."
2. Other.

B. Securities failed to deliver (i.e., amount to be received from brokers and dealers upon delivery of securities sold by respondent):
1. Items includable in "Formula for Determination of Reserve Requirement."
2. Other.

C. Securities loaned (i.e., amounts to be paid to others upon return of securities loaned by respondent):
1. Items excludable from aggregate indebtedness and "Formula for Determination of Reserve Requirement."
2. Items includable in aggregate indebtedness but excluded from "Formula for Determination of Reserve Requirement."
3. Items includable in both aggregate indebtedness and "Formula for Determination of Reserve Requirement."
4. Items includable only in "Formula for Determination of Reserve Requirement."

D. Securities failed to receive (i.e., amount to be paid to brokers and dealers upon receipt of securities purchased by respondent):
1. Items excludable from aggregate indebtedness and "Formula for Determination of Reserve Requirement."
2. Items includable in aggregate indebtedness but excluded from "Formula for Determination of Reserve Requirement."
3. Items includable in both aggregate indebtedness and "Formula for Determination of Reserve Requirement."
4. Items includable only in "Formula for Determination of Reserve Requirement."

E. Balances with clearing organizations utilizing a continuous net settlement system (representing securities borrowed or failed to deliver; and securities loaned or failed to receive):
1. Items excludable from aggregate indebtedness and "Formula for Determination of Reserve Requirement."
2. Items includable in aggregate indebtedness but excluded from "Formula for Determination of Reserve Requirement."
3. Items includable in both aggregate indebtedness and "Formula for Determination of Reserve Requirement."
4. Items includable only in "Formula for Determination of Reserve Requirement."
5. Other (See Note 3).

F. Free shipments (i.e., amount to be received from others for securities already delivered to them not accompanied by documents requiring payment upon delivery or for which payment was not received upon delivery).

G. Redemptions Receivable (i.e., amount to be received from issuers or their agents for securities submitted for redemption):
1. Includable in "Formula for Determination of Reserve Requirement."
2. Other.

NOTES: 1. Where it is impractical or unduly expensive to allocate all securities to each category in A, B, C, D, E, F and G proper allocation shall be made to the extent feasible and all other such ledger balances and security valuations shall be reported in the case of receivables as "Other" and in the case of liabilities and related security valuations in C.3, D.3 and E.3.

2. State separately or in a footnote the totals of ledger debit balances; ledger credit balances; long security valuations; short security valuations, for transactions outstanding 30 calendar days or longer included in the answers to Question 4.B (Securities Failed to Deliver); and Question 4.D.3 (Securities Failed to Receive). The amounts reported for Question 4.B shall be classified in accordance with the period that the transactions have been outstanding: 30 to 39 calendar days; 40 to 49 calendar days; 50 to 59 calendar days; and 60 or more calendar days.

3. Where it is impractical or unduly expensive to allocate the ledger balance to each category in E, a net amount may be reported and the balance shall be so indicated. Security valuations shall be allocation to E.1, 2, 3 and 4 to the extent feasible and all other such security valuations shall be reported under E.3 (in the case of net short valuations) or E.5 (in the case of net long valuations).

The caption to Question 5 is amended to read as follows:

Question 5—*Valuation of Securities and Spot (Cash) Commodities in Box, Depositories, Transfer and Transit.*

The present note is redesignated Note 1 and the following Note 2 is added:

NOTES: 1. Question 5 requires entries in short valuation column only.

2. State separately or in a footnote the market value of securities which have been in transfer in excess of 40 calendar days and have not been confirmed to be in transfer by the transfer agent or the issuer during the 40 days immediately preceding the audit date. The market value of securities in transfer in excess of 40 days which have been confirmed only by the independent public accountant in connection with his audit shall be included in such footnote or classification.

Question 6—*Customers' Security Accounts*

Items A, G and Note 1 are amended and Items H, I and Notes 6 and 7 are added as follows:

State separately totals of ledger debit balances; ledger credit balances; long security valuations; short security valuations and classify as follows:

A. Cash accounts (i.e., accounts subject to Section 4(c) of Regulation T of the Board of Governors of the Federal Reserve System) which have both unsettled money balances and positions in securities.
1. Accounts with debit balances.
2. Accounts with credit balances.

B. Secured Accounts:
1. Accounts with debit balances.
2. Accounts with credit balances.

C. Partly secured accounts (accounts liquidating to a deficit):
1. Accounts with debit balances.
2. Accounts with credit balances.

D. Unsecured accounts.

E. Accounts with credit balances having open contractual commitments.

F. Accounts with free credit balances.

G.1 Securities for which instructions to reduce to possession or control had been issued and which were not in possession or control as of the examination date:

(a) Required by Rule 15c3–3 to be in possession or control but for which no action was required by the respondent as of the audit date or required action was taken by respondent within the time frames specified pursuant to Rule 15c3–3.

V39—113 JUN 11 74
XUM

(b) Required to be in possession or control as of the audit date for which the required action was not taken by respondent within the time frames specified by Rules 15c3–3 (Note 7).

2. Market value of excess margin securities and fully paid securities in cash accounts having either credit or no money balance for which instructions to place in possession or control were not reflected on the books and records of the respondent as of the audit date.

(a) Arising from "temporary lags which result from normal business operations" permitted pursuant to Rule 15c3–3.

(b) Not arising from "temporary lags which result from normal business operations" permitted pursuant to Rule 15c3–3.

H. Fully paid securities borrowed from customers pursuant to specific agreement.

I. Allowance for customers' accounts doubtful of collection.

NOTES: 1. All unsecured cash accounts shall be reported under D and partly secured accounts deemed doubtful of collection shall be reported under C.

* * * * *

6. State separately or in a footnote, description, quantity, price and valuation of any, specific security (other than an exempted security) which is collateral for margin accounts included in the long security valuations at B.1 and C.1 and which exceeds in aggregate value 15 percent of the aggregate value of all securities which collateralize all margin accounts receivable reported at these two questions. A specific security is deemed to be collateral for a margin account only to the extent it represents in value not more than 140% of the customer debit balance in a margin account.

7. State separately or in a footnote whether securities reported in 6G(1)(b) above were subsequently reduced to possession or control by the respondent. Also state the number of individual items which were reported in 6G(1)(b) above.

Question 8—*Accounts of Officers and Directors.*

The Note is redesignated Note 1 and Note 2 is added:

NOTES: 1. * * *

2. All "excess margin" and "fully paid securities" of officers and directors shall be reported together and Notes 6 and 7 to Question 6 shall not apply to this Question.

Question 9—*General Partners' Individual Accounts.*

A new Note 3 is added as follows:

NOTES: 1. * * *

3. All "excess margin" and "fully paid securities" shall be reported together and Notes 6 and 7 to Question 6 shall not apply to this Question.

Question 10—*Trading and Investment Accounts of Respondent.*

A new Note 4 is added as follows:

NOTES: * * *

4. State separately or in a footnote both long and short security valuations attributable to principal purchases or sales from or to customers which are included in the answer to Question 10.A.

Question 13—*Other Accounts, etc.*

This Question is amended to read as follows:

State details (ledger balances, valuations of securities and spot (cash) commodities; status of future commodity positions; and any other relevant information) of any accounts which have not been included in one of the answers to the above questions. These shall include: accounts for exchange memberships; furniture, fixtures, and other fixed assets; valuation reserves; funds provided or deposited by the respondent as margin in joint accounts; revenue stamps; dividends receivable, payable and unclaimed; floor brokerage receivable and payable, commissions receivable and payable, advances to salesmen and other employees; commodity difference account; goodwill; organization expense, prepaid expenses and deferred charges; liability reserves; mortgages payable; other liabilities and deferred credits; market value of securities borrowed (other than for delivery against customers' sales) to the extent to which no equivalent value is paid or credited (other than securities borrowed from customers which are reported in Question 6.H); drafts payable (issued in settlement of customers' credit balances); long security count difference valuations; short security count difference valuations, and other accounts not specifically mentioned herein.

NOTES: * * *

3. State in a footnote the number of securities in which there were long security count differences; the number in which there were short security count differences; and the total number of securities in which there were positions as of the date of the accountant's report.

4. State separately or in a footnote as of the audit date (a) the market value of stock dividends, stock splits and similar distributions receivable outstanding over 30 calendar days, (b) market value of short security count difference valuations over 30 calendar days old, and (c) ledger credit balances and short security valuations in all suspense accounts over 30 calendar days.

AUDIT REQUIREMENTS

The introductory paragraph and Items 2, 10 and 11 are amended as follows:

The audit shall be made in accordance with generally accepted auditing standards and shall include a review of the accounting system, the internal accounting control and procedures for safeguarding securities including appropriate tests thereof for the period since the prior examination date. The scope of such review and tests shall be sufficient to provide reasonable assurance that any material inadequacies existing at the date of the examination would be disclosed. The audit shall include all procedures necessary under the circumstances to substantiate the assets and liabilities and securities and commodities positions as of the date of the responses to the financial questionnaire and to permit the expression of an opinion by the independent public accountant as to the financial condition of the respondent at that date. Based upon such audit, the accountant shall concurrently comment upon any material inadequacies found to exist in: (a) The accounting system; (b) the internal accounting control; (c) procedures for safeguarding securities and (d) the practices and procedures whose review is specified in Items 8, 9, 10 and 11 below; and shall indicate any corrective action taken or proposed. If the audit did not disclose any material inadequacies, the accountant shall so report.

The independent public accountant may perform audit procedures at any time which he may deem appropriate; however, if the procedures prescribed in Items 2, 3, 4 and 6(c)–(g), excluding Item 6(e)(v), are performed at a date other than the audit date, then all such aforementioned procedures shall be performed as of the same date, which shall not be more than 190 days prior to the financial statement date.

The scope of the audit shall include the following procedures, but nothing herein shall be construed as limiting the audit or permitting the omission of any additional audit precedures which an independent accountant would deem necessary under the circumstances. As part of his audit the independent public accountant shall:

* * * * *

(2) Account for by physical examination and comparison with the books and records: all securities, including customers' fully paid and excess margin securities; material amounts of currency and tax stamps; warehouse receipts; and other assets on hand, in vault, in box or other otherwise in physical possession. Control shall be maintained over such assets during the course of the physical examination and comparison.

* * * * *

(10) Review and test respondent's procedures relating to compliance with the requirement for the prompt payment for securities pursuant to section 4(c) of Regulation T of the Board of Governors of the Federal Reserve System; and,

(11) (a) Review the procedures followed in making the periodic computations and deposits required under the provisions of paragraph (e) and Exhibit A of Rule 15c3–3.

(b) Review the procedures followed in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required under the provisions of Rule 15c3–3.

(c) If respondent is exempt from Rule 15c3–3, the independent public accountant shall ascertain that the conditions of the exemption were being complied with as of the examination date and that no facts came to his attention to indicate that the exemption had not been complied with during the period.

* * * * *

Section 249.617—No change in description in text.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

MAY 24, 1974.

[FR Doc.74-13319 Filed 6-10-74;8:45 am]

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—DRUGS FOR HUMAN USE

PART 310—NEW DRUGS

PART 314—NEW DRUG APPLICATIONS

Special Packaging

In a proposal published in the FEDERAL REGISTER of December 13, 1973 (38 FR 34329), the Commissioner of Food and Drugs set forth guidelines to define when premarket clearance is required for anticipated packaging changes for drugs as a result of "special packaging" standards promulgated by the Consumer Product Safety Commission pursuant to section 3 of the Poison Prevention Packaging Act of 1970.

Seven comments were received: five from pharmaceutical manufacturers, one from a pharmaceutical manufacturer's association, and one from a government agency. A summary of these comments and the Commissioner's responses are as follows:

1. The majority of the comments expressed concern over the requirement for advance approval of changes in the closure system where the composition of the material in contact with the drug (e.g., cap liner, inside surface of the plastic laminate, etc.) remains unchanged and the only other change is in the outer shell of the closure. It was argued by some that in this instance there would be no adverse effect on water vapor and gas transmission and therefore immediate implementation should be permitted. Some felt that this type of change could be put into effect immediately if certain supporting data and necessary commitments for ongoing tests are submitted. These comments also stated that the requirement that the package be "at least comparable" to that provided for in the approved application is unduly rigid and fails to take into account difference in physical characteristics and capabilities of various types of closures and the virtual impossibility of proving "comparability" of some of these.

While the Commissioner recognizes that in some cases a liner or innerseal which is identical to that in the approved application may provide the necessary protection for the drug product, data are not available to substantiate a claim that an across-the-board exemption can be provided for all changes of this type. The Commissioner has accepted, and this was the intent of the proposal, that if the closure component in contact with the drug remains the same, the change to the composition and/or physical characteristics of the outer cap or lid may be placed into effect before approval of the supplements provided certain supporting data and necessary commitments are submitted. Further, the Commissioner recognizes the difficulties which may occur in requiring comparability of special packaging with that provided in an approved application which may actually be more than adequate to protect the integrity of the product. Therefore, § 314.8(d)(5) (21 CFR 314.8(d)(5)) has been modified to provide that changes in the composition and/or physical characteristics of the lid, or the cap liner when an innerseal is used, provided there is no change in the closure component in contact with the drug (cap liner or innerseal) and in the torque of the closure, may be made in advance of approval of the supplemental application. Such applications shall include, however, data showing that the package is satisfactory as a barrier to moisture and gas transmission or 3 months accelerated stability data which include assay data, as well as data on other significant properties of the product at room temperature and at exaggerated temperatures and conditions of high humidity. In the event that the change in the package is in the composition and/or configuration of the cap, but not in the cap liner, other data or information which demonstrate the adequacy of the liner will be accepted in lieu of moisture and gas transmission or the accelerated stability studies. The applicant must also agree to test the stability of initially marketed batches of the drug.

2. Several comments addressed the issue of application/removal torque or tightness of the closure and the protection it provides the product when applied consistently as specified in the approved new-drug application thus making it unnecessary to require time-consuming and expensive stability testing.

The Commissioner disagrees that tightness of the container/closure alone should be controlling in this regard. It is an important factor which must be considered in developing packaging standards along with the physical and chemical characteristics of the container/closure systems for drug products and in cognizance of this, as indicated above, the regulation has been modified to add tightness of the closure as an additional parameter for testing when compared with the currently approved packaging. Such data when submitted along with accelerated stability data or data showing that the package is satisfactory as a barrier to moisture and gas transmission may be used to justify changes put into effect in advance of approval of a supplemental application providing no change has been made in the composition of the container and the closure component in contact with the drug remains unchanged.

3. One comment stated that stability data other than that relating to vapor and gas transmission may be more appropriate for a particular drug product and that it should be permitted to demonstrate the suitability of a package.

The Commissioner agrees that appropriate stability studies may actually provide a more accurate assessment of the adequacy of a particular contained closure system for a drug product. Accordingly, the regulation has been amended to provide for the alternative submission of accelerated stability data.

4. Comments were submitted concerning the implication that all marketed batches produced must be tested for stability.

The Commissioner finds that this implication was unintentional, and the final order has been modified to state explicitly that only initially marketed batches of the drug are to be tested and that reports be submitted at specified intervals.

5. A comment questioned the requirement that the applicant withdraw from the market any batch found to fall outside the approved specifications for the drug, thus requiring a recall or market withdrawal of a product regardless of whether the deviation was minor and irrespective of any pertinent facts. The comment contended that recalls or withdrawals for miniscule violations tend to dilute the effectiveness of such removal actions and provide little or no additional protection to the public health. Several examples were presented.

The Commissioner advises that it is not the policy of the Food and Drug Administration to require recalls or withdrawals for minor deviations from acceptable specifications. In order to clarify this intent the final order has been modified to indicate that if the applicant does not believe the deviation is significant and does not justify a withdrawal from the market, the deviation shall be discussed with the Food and Drug Administration.

6. A general comment was made that clarification is necessary to show that these regulations have been written to include all forms of packaging such as bottles, plastic blisters, strip packages, etc.

The Commissioner concludes that although it is not necessary for the regulation to be amended in this regard, such is the intent of the requirements of § 314.8. Supplements for changes in these types of packaging must have prior approval.

7. A single comment expressed concern that implementation of these requirements at this time might cause reversals in industry plans to implement "special packaging" and cause discontinued marketing of necessary life-saving drugs. Extension of the April 15, 1974 "special packaging" deadline for prescription drug packaging was requested.

The Commissioner concludes that he has no authority to extend the deadline for use of "special packaging" which currently lies with the Consumer Product Safety Commission. The Commission stated in comments submitted on the proposed regulations that it has no reason at the present time to believe that special packaging adequate to protect the purity and effectiveness of drugs is not available, thus enabling manufacturers to comply with requirements of both the Federal Food, Drug, and Cosmetic Act and the Poison Prevention Packaging Act. The Commission also stated that it believes that the time provided from the date on which a packaging standard is proposed until the effective date of the subsequent final order is adequate to allow the affected industry to comply with the requirements of such packaging standards as well as to obtain the necessary Food and Drug Administration approval of a supplemental new-drug application, and that the Commissioner of Food and Drugs, in promulgating packaging standards for drugs prior to the activation of the Consumer Product Safety Commission on May 14, 1973, made the finding that special packaging was available which would protect the integrity of drugs. As expressed in its comment, the Commission is, however, willing to consider those individual cases where unusual circumstances may result in a drug manufacturer who has acted in good faith being unable to comply with requirements imposed by the Food and Drug Administration to assure purity and effectiveness of the drug within the effective date specified in the packaging standards.

The Commissioner emphasizes that these regulations require that supplements submitted to provide for special packaging be plainly marked "Special Container Packaging Supplement." Such identification is to expedite the handling and review of such supplements.

V 39—113—JUN 11 74 XUM

On March 29, 1974, there was published in the FEDERAL REGISTER (39 FR 11680) a recodification of Part 130 of the Food and Drug Regulations. These amendments reflect the recodified section numbers rather than the section numbers used in the proposal.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 507, 701; 52 Stat. 1050–1053, as amended; 1055–1056, as amended by 70 Stat. 919 and 72 Stat. 948; 59 Stat. 463, as amended (21 U.S.C. 352, 255, 357, 371)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 310 and 314 of Title 21 of the Code of Federal Regulations are amended as follows:

1. In § 310.3 by adding a new paragraph (l) as follows:

§ 310.3 Definitions and interpretations.

* * * * *

(l) "Special packaging" as defined in section 2(4) of the Poison Prevention Packaging Act of 1970 means packaging that is designed or constructed to be significantly difficult for children under 5 years of age to open or obtain a toxic or harmful amount of the substance contained therein within a reasonable time and not difficult for normal adults to use properly, but does not mean packaging which all such children cannot open or obtain a toxic or harmful amount within a reasonable time.

* * * * *

2. In § 314.8, by adding a new paragraph (a)(4)(vi), by revising the last three sentences in (a)(4), by adding new paragraphs (a)(5) (xi) and (xii) and (d)(5) as follows:

§ 314.8 Supplemental applications.

(a) * * *

(4) * * *

(vi) A change in container to provide for "special packaging" as defined in § 310.3(l) of this chapter pursuant to the requirements of regulations under the Poison Prevention Packaging Act of 1970. The mailing cover and supplement shall be plainly marked "Special Container Packaging Supplement."

Any number of changes may be submitted at any one time; but if they fall into different categories as listed in paragraph (a)(4) (i) through (vi) of this section, the proposed changes should be covered by separate communications. Where, however, a change necessitates an "overcap" to the existing closure of a submitted in a single communication. For example, a change in tablet potency would require other changes such as in components, composition, and labeling and should be submitted in a single communication.

(5) * * *

(xi) Changes which provide for "special packaging" as defined in § 310.3(l) of this chapter which are in the form of an "overlap" to the existing closure of a container without any other changes in the container/closure system. The report or written communication shall contain information as to the manufacturer of the safety closure and any identification applied to such closure.

(xii) Addition to the labeling of such statements as required by the Poison Prevention Packaging Act of 1970 or regulations promulgated thereunder.

* * * * *

(d) * * *

(5) Changes which provide for "special packaging" as defined in § 310.3(l) of this chapter other than the use of an additional closure as provided for in paragraph (a)(5)(xi) of this section, where the composition of the container, the torque (tightness) of the container, and the composition of the closure component in contact with the drug (cap liner or innerseal) remain the same as provided in the approved new-drug application. Each such supplement shall include:

(i) A representative market package and any identification applied to such package and

(ii) Preliminary data showing that the package is satisfactory as a barrier to moisture and gas transmission or 3 months accelerated stability data which include assay data, as well as data on other significant properties of the product at room temperature and at exaggerated temperatures and conditions of high humidity. In the event that the sole change in package is in the composition or configuration of the cap (outer shell not in contact with the drug) other data or information which demonstrate the adequacy of the liner alone to serve as an effective barrier will be acceptable in lieu of moisture and gas transmission or accelerated stability data. For any changes instituted under the provisions of this paragraph, the applicant shall submit a written commitment that he will test the stability of initially marketed batches of the drug; submit the information at intervals of 3 months beginning with the date of initial packaging during the first year following such date, at intervals of 6 months during the second year following such date, and at yearly intervals thereafter for as long as necessary to support or establish an assigned expiration date, unless otherwise ordered in a written communication by the Food and Drug Administration; and withdraw from the market any batch found to fall outside the approved specifications for the drug or discuss the deviation with the Food and Drug Administration if the applicant believes the deviation is not significant.

* * * * *

Effective date. This order shall be effective July 11, 1974.

(Secs. 502, 505, 507, 701; 52 Stat. 1050–1053, as amended; 1055–1056, as amended by 70 Stat. 919 and 72 Stat. 948; 59 Stat. 463, as amended (21 U.S.C. 352, 355, 357, 371))

Dated: June 4, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Revisions to Utah Plan

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved, with specific exceptions, a plan for implementation of the national ambient air quality standards submitted by Utah. On July 27, 1972 (37 FR 15094), the Administrator proposed regulations to correct deficiencies in the regulatory provisions of the Utah plan. On March 23, 1973 (38 FR 7584), the Administrator set forth a regulation limiting sulfur dioxide emissions from the first operating unit of Utah Power and Light Company's Huntington Canyon power plant located in the Utah portion of the Four Corners Interstate Region. The basis for the regulation was the diffusion modeling performed by the National Oceanic and Atmospheric Administration (NOAA) for the Southwest Energy Study, which indicated that emissions from the first operating unit at Huntington Canyon would violate the primary and secondary short-term national ambient air quality standards for sulfur dioxide.

Subsequent to the promulgation of the sulfur dioxide regulation, the Administrator received the results of smoke and fluorescent particle tracer studies conducted at the Huntington Canyon site by Air Resources Laboratory, NOAA, and North American Weather Consultants, a firm retained by Utah Power and Light Company. These studies indicated that the dispersion rate of sulfur oxides under stable conditions was significantly greater than the rate used in the original NOAA model and that a correction factor was appropriate to compensate for the initial dilution of the plume before it reaches the effective stack height.

Based on projections developed from the results of these studies, the Administrator determined that emissions from the first operating unit of the Huntington Canyon power plant would not violate the short-term national standards for sulfur dioxide. On December 7, 1973, (38 FR 33777), the Administrator proposed to withdraw the sulfur dioxide regulation promulgated for the facility, revoke the extension provided for the attainment of the primary standards for sulfur dioxide, amend the Federal compliance schedule to exclude sulfur dioxide control for the first operating unit at Huntington Canyon, and indicate that ambient levels of sulfur dioxide in the Utah portion of the Four Corners Interstate Region are below the national standards. A public hearing on the proposed amendments was held in Salt Lake City on March 20, 1974. There was no challenge to the technical information supporting the proposals. Consequently, the Administrator is promulgating the amendments as proposed.

In order to insure that the national standards are not exceeded at Huntington Canyon, The Administrator intends to utilize his authority under Section 114 of the Act to require Utah Power and Light Company to perform ambient air quality monitoring. Should such monitoring indicate that some degree of control is necessary for the power plant to achieve the national standards, the Administrator will propose the required regulations.

Since these amendments remove, rather than enlarge or amplify, previously existing regulations, the Administrator has determined that good cause exists for not deferring the effective date of this promulgation. In addition, immediate effectiveness will allow Utah Power and Light to proceed with certainty in conducting its affairs and will afford other interested parties an opportunity to immediately seek judicial review.

(Sec. 110(c), 301(a), Clear Air Act (42 U.S.C. 1857 et seq.))

Dated: June 4, 1974.

JOHN QUARLES,
Administrator.

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart TT—Utah

§ 52.2322 [Amended]

1. In § 52.2322, paragraph (d) is revoked.

§ 52.2325 [Amended]

2. In § 52.2325, paragraph (c) is revoked.

3. In 52.2327, paragraph (b) is revised to read as follows:

§ 52.2327 Compliance Schedules.

* * * * *

(b) *Federal compliance schedule.* (1) Except as provided in paragraph (b)(2) of this section, the owner or operator of any stationary source subject to § 52.2330 (c) shall comply with such regulation on or before January 31, 1974. The owner or operator of the source subject to § 52.2330 (b) shall comply with such regulation at initial startup of such source unless a compliance schedule has been submitted pursuant to paragraph (b)(2) of this section.

(i) Any owner or operator in compliance with § 52.2330(c) on the effective date of such section shall certify compliance to the Administrator no later than 120 days following the effective date of § 52.2330(c).

(ii) Any owner or operator who achieves compliance with § 52.2330 (b) or (c) after the effective date of this regulation shall certify such compliance to the Administrator within 5 days of the date compliance is achieved.

(2) Any owner or operator of a stationary source subject to paragraph (b)(1) of this section may, no later than 120 days following the effective date of § 52.2330 (b) or (c), submit to the Administrator for approval a proposed compliance schedule that demonstrates compliance with § 52.2330 (b) or (c) as expeditiously as practicable but no later than July 31, 1975.

(3) The compliance schedule shall provide for periodic increments of progress toward compliance. The dates for achievement of such increments shall be specified. Increments of progress shall include, but not be limited to: Submittal of the final control plan to the Administrator; letting of necessary contracts for construction or process change or issuance of orders for the purchase of component parts to accomplish emission control or process modification; initiation of on-site construction or installation of emission control equipment or process modification; and final compliance.

(4) Any owner or operator who submits a compliance schedule pursuant to this paragraph shall, within 5 days after the deadline for each increment of progress, certify to the Administrator whether or not the required increment of the approved compliance schedule has been met.

§ 52.2331 [Amended]

4. In § 52.2331, the attainment date table is amended by replacing the date "March 1976" for attainment of the primary and secondary standards for sulfur oxides in the Four Corners Interstate Region with the letter "c".

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 73—RADIO BROADCAST SERVICES

United States-Mexico FM Broadcasting Requirement; Correction

In the matter of amendment of the Commission's rules and regulations to effectuate the United States-Mexico FM Broadcasting Agreement.

The Order, adopted March 28, 1974, promulgating amendments to various Rules and Regulations to further implement the United States-Mexico FM Broadcasting Agreement (FCC 74-309; 39 FR 12989; 46 F.C.C. 2d 153), is hereby corrected. In the Note to § 73.207(a), which was supplemented to set forth additional mileage separations to Mexican channel assignments and authorizations, for Class D to Class B, the 1st Adjacent Channel mileage should read "60" instead of "69".

Released: June 5, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 35]

STUDENT RIGHTS AND DUE PROCESS PROCEDURES

Notice of Proposed Rulemaking

JUNE 6, 1974.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 FR 13938).

Notice is hereby given that it is proposed to add a new Part 35 to Subchapter E, Chapter I, of Title 25 of the Code of Federal Regulations This addition is proposed pursuant to the authority contained in 5 U.S.C. section 301.

The purpose of this addition is to establish rules and regulations regarding the rights and due process procedures pertaining to students in Bureau of Indian Affairs schools.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed addition to Field Administrator, Indian Education Resources Center, Bureau of Indian Affairs, P.O. Box 1788, Albuquerque, New Mexico 87103, on or before July 11, 1974.

It is proposed to add a new Part 35 to Subchapter E or Chapter I, Title 25 of the Code of Federal Regulations to read as follows:

Sec.
35.1 Purpose.
35.2 Application to Bureau schools.
35.3 Rights of the individual student.
35.4 Due process.
35.5 Application to schools under Bureau contract.

AUTHORITY: 5 U.S.C. sec. 301.

§ 35.1 Purpose.

The regulations in this part govern establishing programs of student rights and due process procedures in Bureau of Indian Affairs schools and in schools that are operating under contract with the Bureau of Indian Affairs.

§ 35.2 Application to Bureau schools.

All Bureau of Indian Affairs schools shall be governed by the regulations set forth in this part and said regulations shall be expressly included as a part of the local school regulations of each Bureau of Indian Affairs school. Upon admission, all students of Bureau of Indian Affairs schools shall be given a copy of the school regulations governing the conduct of students and shall be notified of any amendments thereto.

§ 35.3 Rights of the individual student.

Individual students at Bureau of Indian Affairs schools have, and shall be accorded, the following rights:

(a) The right to an education.

(b) The right to be free from unreasonable search and seizure of their person and property, to a reasonable degree of privacy, and to a safe and secure environment.

(c) The right to make his or her own decisions where applicable.

(d) The right to freedom of religion and culture.

(e) The right to freedom of speech and expression, including symbolic expression, such as display of buttons, posters, choice of dress, and length of hair, so long as the symbolic expression does not unreasonably and in fact disrupt the educational process or endanger the health and safety of the student or others.

(f) The right to freedom of the press, except where material in student publications is libelous, slanderous, or obscene.

(g) The right to peaceably assembly and to petition the redress of grievances.

(h) The right to freedom from discrimination.

(i) The right to due process. Every student is entitled to due process in every instance of disciplinary action for alleged violation of school regulations for which the student may be subjected to penalties of suspension, expulsion, or transfer.

§ 35.4 Due process.

Due process shall include:

(a) Written notice of charges within a reasonable time prior to a hearing. Notice of the charges shall include reference to the regulation allegedly violated, the facts alleged to constitute the violation; and notice of access to all statements of persons relating to the charge and to those parts of the student's school record which will be considered in rendering a disciplinary decision.

(b) A fair and impartial hearing prior to the imposition of disciplinary action absent the actual existence of an emergency situation seriously and immediately endangering the health or safety of the student or others. In an emergency situation the official may impose disciplinary action not to exceed a temporary suspension, but shall immediately thereafter report in writing the facts (not conclusions) giving rise to the emergency and shall afford the student a hearing which fully comports with due process, as set forth herein, as soon as practicable thereafter.

(c) The right to have present at the hearing the student's parent(s) or guardian(s) (or their designee) and to be represented by lay or legal counsel of the student's choice. Private attorney's fees are to be borne by the student.

(d) The right to produce, and have produced, witnesses on the student's behalf and to confront and examine all witnesses.

(e) The right to a record of hearings of disciplinary actions, including written findings of fact and conclusions in all cases of disciplinary action.

(f) The right to administrative review and appeal.

(g) The student shall not be compelled to testify against himself.

(h) The right to have allegations of misconduct and information pertaining thereto expunged from the student's school record in the event the student is found not guilty of the charges.

§ 35.5 Application to schools under Bureau contract.

Non-Bureau of Indian Affairs schools which are funded under contract with the Bureau of Indian Affairs must also recognize these student rights.

MORRIS THOMPSON,
Commissioner of Indian Affairs.

National Park Service

[36 CFR Part 7]

NATCHEZ TRACE PARKWAY, TENNESSEE-ALABAMA-MISSISSIPPI

Trucks, Trailers, Buses and Towed Vehicles; Possession of Beer and Alcoholic Beverages

Notice is hereby given that pursuant to the authority contained in section 3 of the Act of August 25, 1916 (39 Stat. 535, as amended; 16 U.S.C. 3), and the Act of May 18, 1938 (52 Stat. 407, as amended; 16 U.S.C. 460), 245 DM–1 (34 FR 13879), as amended, National Park Service Order No. 77 (38 FR 7478), as amended, Regional Director Southeast Regional Order No. 5 (37 FR 7721), it is proposed to revise § 7.43 of Title 36 of the Code of Federal Regulations as set forth below.

The purpose of the revision and additions is to clarify the use of the Natchez Trace Parkway motor road by trucks, trailers, buses and towed vehicles, and to establish restrictions on the posses-

V 39 — 113 JUN 11 1974 XUM

sion of beer and alcoholic beverages on the parkway.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rulemaking process. Accordingly, interested persons may submit written comments, suggestions, or objections regarding the proposed revision and additions to the Superintendent, Natchez Trace Parkway, Rural Route 1, NT-143, Tupelo, Mississippi 38801, on or before July 11, 1974.

Paragraph (c) (1) and (4) of § 7.43 is revised, and paragraphs (c) (5), (6), (7), and (d) are added, to read as follows:

§ 7.43 Natchez Trace Parkway.

* * * * *

(c) *Vehicles*—(1) *Trucks.* Trucks over one ton rated capacity are not permitted on the parkway. Trucks, not exceeding one ton rated capacity, are permitted to travel on the Natchez Trace Parkway when used solely for transportation of persons, their baggage, camping equipment and related articles for recreational purposes only. Trucks used for the purpose of hauling non-recreational materials are not permitted.

* * * * *

(c) *Vehicles*—(4) *Recreational vehicles.* Recreational vehicles, including but not limited to self-propelled mobile homes, campers, housetrailers, and vehicles up to 1½ ton rated capacity, when such recreational vehicles are used solely to carry persons for recreational purposes together with their baggage, camping equipment, and related articles for vacation or recreational purposes, are permitted on the parkway.

(5) *Trailers.* Trailers are permitted when used non-commercially to transport baggage, camping equipment, horses for recreational riding, small boats and other similar items used for vacation or recreational purposes, provided they meet the following criteria:

(i) Utility type trailers must be enclosed or covered and are not to exceed 5 feet by 8 feet.

(ii) Trailers must be equipped with red taillights, red stoplights and mechanical turn signals. Clearance lights are required on trailers over 6 feet high.

(iii) Trailers carrying over one ton must be properly equipped with brakes, adequate to control the movement thereof and to stop and to hold such vehicle, and designed so as to be applied by the driver of the towing motor vehicle from its cab; said brakes shall be so designed and connected that in case of an accidental breakaway of the towed vehicle the brakes shall be automatically applied.

(iv) All trailers shall be coupled to the towing vehicle by means of a safety chain or equivalent device in addition to the regular trailer hitch or coupling. No more slack shall be left in safety chains than shall be necessary to permit proper turning and the safety chains shall be so connected to the towed and towing vehicles and to the drawbar to prevent the drawbar from dropping to the ground if the drawbar fails and shall be of sufficient strength to control the trailer in event of failure of the regular trailer hitch or coupling.

(v) Only one trailer of any type may be towed by any one vehicle along the parkway. The towing vehicle and trailer must not exceed 55 feet in length.

(6) *Buses.* Commercial passenger carrying buses, when used for touring purposes, may travel the Natchez Trace Parkway by obtaining special written permission in advance from the Superintendent or his representative. School buses may travel on the parkway without such written permission when transporting people for special recreational or educational purposes.

(7) *Towed vehicles other than trailers.* Such vehicles must be towed with a rigid tow bar which does not require a driver for the towed vehicle. Tow bar must be equipped with safety chains that are so connected to the towed and towing vehicles and to the tow bar that, if the tow bar fails, it will not drop to the ground and the chains shall be of sufficient strength to prevent breakaway of the towed vehicle in the event of such tow bar failure. The towed vehicle must be equipped with brakelights, tail lights, and signal lights in accordance with applicable State regulations. The towing vehicle and towed vehicle must not exceed 55 feet in length.

(d) *Beer and alcoholic beverages.* (1) The possession of beer or any alcoholic beverage in an open or unsealed container, is prohibited except in designated picnic, lodging, residence, and camping areas, in accordance with applicable State and local regulations.

(2) The possession of beer or any alcoholic beverage in an open or unsealed contained in any motor vehicle is prohibited in accordance with applicable State or local laws.

BRUCE W. BLACK,
Acting Superintendent,
Natchez Trace Parkway.

PREPARATION OF ENVIRONMENTAL STATEMENTS

Proposed Guidelines

Pursuant to the guidelines of the Council on Environmental Quality (CEQ), as published in the FEDERAL REGISTER on August 1, 1973 (38 FR 20549), appearing as 40 CFR Part 1500, and the proposed USDA guidelines published in the FEDERAL REGISTER on November 19, 1973 (38 FR 31935), the Agricultural Stabilization and Conservation Service herewith publishes its proposed guidelines for the preparation of environmental statements required by section 102(2) (C) of the National Environmental Policy Act of 1969 dated January 1, 1970, Pub. L. 91-190. These proposed guidelines were developed in consultation with CEQ.

Before taking action to issue the proposed guidelines in final form, ASCS will consider comments and suggestions received in writing by July 10, 1974. Comments should be sent to the Administrator, ASCS, Washington, D.C. 20250.

Issued in Washington, D.C., on May 31, 1974.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

§ 799.1 Purpose and Authority.

(a) Section 102(2) (C) of the National Environmental Policy Act (Pub. L. 91-190) requires the submission of an environmental statement with "every recommendation or report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment". The act and Executive Order 11514 mandate that Federal agencies, to the fullest extent possible, direct their policies, plans and programs to protect and enhance environmental quality. Agencies are required to view their actions in a manner calculated to encourage productive and enjoyable harmony between man and his environment, to promote efforts preventing or eliminating damage to the environment and biosphere and stimulating the health and welfare of man, and to enrich the understanding of the ecological systems and natural resources important to the Nation.

(b) The Council on Environmental Quality (CEQ) issued Guidelines for Preparation of Environmental Impact Statements in the FEDERAL REGISTER on August 1, 1973. Proposed USDA guidelines for filing environmental statements (EIS) were published in the FEDERAL REGISTER on November 19, 1973 (38 FR 31935). These guidelines provide for the implementation of section 102(2)(C) of the National Environmental Policy Act (NEPA) in administering programs of the Agricultural Stabilization and Conservation Service.

§ 799.2 Policy.

(a) *ASCS mission.* The mission of the Agricultural Stabilization and Conservaition Service is to provide services both to the farmers and consumers through the administration of domestic agricultural programs as provided by law. These programs are designed to:

(1) Encourage a level of agricultural production which will assure ample supplies of food and fiber for American consumers and for an adequate response to improved export sales opportunities;

(2) Provide farmers with production freedom so that they may use their resources in the way they feel will earn them the most income from the marketplace;

(3) Protect farm income—through guaranteed prices with deficiency payments which would be triggered by depressed market prices, through commodity loans to producers to help assure orderly crop marketing, and through payments to eligible farmers compensating for crop production losses suffered due to natural disasters; and

(4) Assist farmers in their long-term role as conservationists in protecting basic natural resources and improving the quality of the environment.

In carrying out this mission under the authority of the Agriculture and Consumer Protection Act of 1973, which continues the market-oriented approach to farm programs established by the Agricultural Act of 1970, ASCS has the added responsibility of helping farmers gain a better understanding of modern marketing methods to enable them to utilize the marketplace as a source of income.

(b) *General.* ASCS administers various commodity and related land use programs through State, county, and community committees established in accordance with provisions of section 8(b) of the Soil Conservation and Domestic Allotment Act of 1935, as amended. The programs are based upon specific legislative authorities; provisions for national programs within these authorities are developed by the Washington staffs on specified program divisions under the supervision of the agency Administrator. A number of the programs administered by ASCS provide direct and/or indirect financial assistance to individual landowners and operators. In some instances, the assistance may be to a combination of such producers or an organization composed of landowners and operators. The environmental assessment and EIS process shall be carried out in harmony with the intent of the various programs and of those to whom assistance is to be provided to the extent feasible.

(c) *Assessing environmental quality and impacts of proposed actions.* (1) In accordance with national policy and directives, and as early as possible and in all cases prior to the agency decision concerning recommendations for or favorable reports on proposals for legislation and other major actions (administrative actions) significantly affecting the quality of the human environment, ASCS will in consultation with other appropriate Federal, State and local agencies and the public, assess in detail the potential environmental impact in order to avoid or minimize adverse effects wherever possible and to restore or enhance environmental quality to the fullest extent practicable. Alternative actions that will avoid or minimize adverse impacts should be explored. The long- and short-range implications of the proposed actions to man, his physical and social surroundings and to nature should be evaluated.

(2) Assessments of the environmental impacts of the proposed action should be undertaken as early as possible and should be considered along with the economic, technical and other related studies of the proposed action or program provisions. A draft EIS should be prepared on administrative actions where provided for in these guidelines and accompany the proposal through the agency review process. The draft statement is to be submitted to CEQ and circulated for comments as outlined in § 799.5(e).

§ 799.3 Implementing in ASCS.

(a) *Responsible official.* The administrator of ASCS, or his designee, is the responsible Federal official for carrying out the purpose of NEPA for all ASCS programs. County committees, State committees, and directors of Washington divisions, within their respective areas of responsibility, through the ASCS member of the USDA Environmental Quality Executive Committee (EQEC), shall assist the Administrator in assessing compliance with the policies and purposes of NEPA generally, and, in particular, in determining whether the quality of the human environment will be significantly affected in implementing agency programs and whether an environmental statement is or is not needed.

(b) *Offices responsible for preparing environmental statements*—(1) *Washington divisions.* Legislative proposals and favorable legislative reports, and multi State and national programs or major revisions of national programs.

(2) *State committees.* Major actions on a State or area basis within a State.

(3) *County committee.* Major actions within a county. The environmental statement will be forwarded through the appropriate agency channels to the ASCS member of EQEC for review and submission to the Administrator.

§ 799.4 Identifying major actions significantly affecting the environment.

(a) (1) The identification of major actions significantly affecting the quality of the environment is to be carried out against the background of ASCS' own program responsibility.

(2) In considering what constitutes a major action significantly affecting the environment, the responsible official should bear in mind that the effect of many Federal decisions about a project or complex of projects can be individually limited but cumulatively considerable. This can occur when ASCS, over a period of years, puts into a project or program individually minor but collectively major resources. In all such cases, an EIS should be prepared if it is reasonable to anticipate a cumulatively significant impact on the environment from such an ASCS project or program. In all cases where the proposed environmental impact of which is likely to be highly controversial a statement shall be prepared. Broad public reaction will generally be necessary for deeming that a controversy exists.

(b) ASCS actions covered or excluded:

(1) *Actions which normally require an EIS.* Environmental statements will be prepared on all national commodity programs for which a set-aside or diverted acreage program is in effect and all conservation programs. The programs in this category include:

(i) Wheat, feed grains, cotton or any other commodity program for which a set-aside or diverted acreage program is in effect.

(ii) Rural Environmental Conservation Measures Program

(iii) Emergency Conservation Program

(iv) Water Bank Program

(v) Other conservation type programs

(2) *Actions normally excluded from the prepaartion of an EIS.* The following or similar types of actions will not generally be considered as major federal actions significantly affecting the human environment and are excluded from the EIS process and negative determination.

(i) Individual farm participation in ASCS programs.

(ii) Conservation land treatment projects.

(iii) Installation of water conservation measures.

(iv) Installation of erosion control and land stabilization measures.

(v) Rehabilitation of farmlands as a result of a natural disaster or other work of improvement which is covered by a program statement such as the Emergency Conservation Measures Program.

(3) *Other major ASCS actions which may require an EIS.* Major actions (programs or projects) which do not fall under the criteria established by paragraph (b) (1) or (2) of this section will require a decision by the responsible Federal official whether to prepare an EIS based on individual considerations. The decision made is to be based on an appropriate environmental assessment of environmental factors and significant effects, including beneficial and adverse effects. Significant adverse effects may be those which degrade the environment, curtail the use of the environment, or serve only short-term needs. Assessment is to cover secondary effects such as socioeconomic impacts as well as direct effects.

(i) Identifying major actions which may or may not significantly affect the environment. At least the following environmental factors are to be assessed by the committee as appropriate to determine whether an EIS is needed:

Upland wildlife habitat.
Bottom land wildlife habitat.
Wildlife migration routes.
Bottom land hardwoods.
Stream fisheries including potential not presently productive.
Wetlands.
Endangered animals and plants.
Natural streams.
Man-altered streams.
Archeological and historical resources.

V39 113 JUN 11 74 XUM

Water quantity.
Air quality.
Appearance of the landscape.

(ii) The degree of public interest, potential controversy, urban or rural setting, and economic and social impacts should also be assessed. Factors are to be quantified and qualified to the extent practicable as to the total amount in the area, the amount affected by the proposed actions, and the percent of the total resources in the area which will be affected. No single or multiple effect of factors can give the absolute answer. The data, once assembled will provide an indication of the probable impact and aid in making a judgment as to whether an EIS is needed.

(4) *Negative determination.* On major ASCS actions where an assessment indicates no significant impact on the environment and no major controversy, the decision office should document the basis for the negative determination. This may include the State or county committee minutes where that level is the decision office. Information assembled in assessing the environmental impacts should be retained in appropriate files. A list of actions on which EIS's will not be prepared will be maintained and available for public inspection.

(5) *Statement on continuing programs.* Where a final EIS has been issued on a program, a new EIS will not be required in the next program year unless significant changes are made in the operations of the program. If significant changes are made, a new draft statement shall be prepared and circulated as provided in § 799.5.

Significant changes in operations may include, but is not limited to, important changes in the conduct of the program, scope of the program is significantly expanded, the program may be changed as a result of controversial impacts on the environment, etc. The CEQ should be advised of the decision that a new EIS is not required.

§ 799.5 Preparation of environmental statements.

(a) *Types of statements.* An EIS is prepared in two stages. A draft EIS is the first formal statement for filing with CEQ and for review and comment by Federal and State agencies and the public as outlined in Appendix 4. A final EIS reflects the results of the draft review process. It is also filed with CEQ and each Federal and State agency, organization, group or individual who furnished substantive comments on the draft EIS or who requests a copy.

(b) *EIS development.* (1) The draft EIS is to be prepared early in the decisionmaking process in conjunction with other technical and economic studies. It should be circulated for public review before the significant program or project provisions are announced. The draft EIS must fulfill and satisfy to the fullest extent possible, at the time the draft is prepared, the requirements established for the final EIS by Section 102(2)(C) of NEPA. Comments received during preliminary consultations on the draft EIS and the final EIS will be carefully evaluated and considered in the decisionmaking process.

(2) Applicants or consultants on certain type projects may be requested to furnish analyses and information in connection with the project. This material may be used in the preparation of the EIS.

(3) A systematic, interdisciplinary approach integrating the natural, economic, social science, and environmental design arts should be used in the preparation of an EIS. Alternative actions that will reduce adverse impacts or enhance positive effects will be thoroughly explored. Long- and short-range implications to man, to his physical and social surroundings and to nature will be examined.

(4) The EIS's will be documents complete enough to stand on their own, yet they should be succinct and understandable as possible. Highly technical and specialized analyses and data should, if needed, be appended to the body of the statement. Attention should be given to the substance of the information conveyed rather than to the particular form, length or detail of the EIS.

(c) *Content of environmental statements.* The following points must be addressed in the EIS: (See Appendix 3 for outline.)

(1) *Description.* The proposed action or alternative should be clearly described by including enough information and technical data to give readers a clear understanding of the nature of the proposed action or program. Where relevant, maps, photographs, and other materials may be used. Give the relevant background information on the project or program including its purpose, the origin of the proposal, the social, economic or environmental objective. The description should include, as appropriate, population and growth assumption used to justify the project or program or to determine secondary population and growth impacts resulting from the proposed action and its alternatives. The sources of data used should be identified (i.e., OBERS projection). The relationship of the proposal to land use plans, policies and controls for the affected area must be described. Where conflicts exist, the proposed resolution of these conflicts or the reasons why they can't be resolved must be thoroughly addressed. If appropriate, describe the present environment, location, size, landownership, and status, physiography, ecosystems, climate, and other special features. The interrelationships of this proposed action with other projects and possible cumulative effects shall be presented.

(2) *Environmental impacts.* This requires an analysis of both the anticipated favorable and adverse impacts of the proposed action as it affects both the national and international environment. The environment in this case includes both the natural environment and the social and economic environment. Discuss both primary and secondary effects.

(i) Identify, analyze, and discuss the full range of social, physical, and biological factors which change as a result of direct or indirect effects of the proposed program or project. Examples of areas of environmental impact are: air quality, weather modification, water quality, fish and wildlife, noise, radiation, hazardous substances, energy supply, land use, soil, plants, outdoor recreation, historic, architectural and archeological preservation, impacts on low-income populations, and employment. Refer to CEQ Guidelines, Appendix II.

(ii) Both primary and secondary consequences should be considered in the analysis. The implications, if any, of the proposed program or project on population distribution or concentration should be objectively estimated and an assessment made of the probable effects of such changes in population patterns upon the resource bases, including land use and public services of the area in question as well as economic impacts on employment, unemployment, changes in local culture, social and other economic factors.

(iii) The distinction between primary and secondary impacts is important for insuring consideration of all alternatives. One way to describe the distinction is that project inputs generally cause primary impacts and projects outputs generally cause secondary impacts. Primary impacts are generally easier to analyze and measure, while secondary impacts may require analyses by a number of agencies because they generally are not within any single agency area of responsibility or expertise. Secondary impact may, in fact, be more important or more damaging than primary impacts.

(iv) Summarize any environmental effects which are considered as favorable. This listing should contain only sufficient detail to identify the items.

(v) Discuss any planned measures to minimize and mitigate any probable adverse environmental impacts of the proposed action.

(3) *Summary of probable adverse environmental effects which cannot be avoided.* Identify and discuss the nature and extent of probable adverse effects and explain why they cannot be avoided. Such adverse effects may include water, air, sound, or visual pollution; undesirable land use patterns; damage to life systems; threats to health; or other urban congestion consequences adverse to the environmental goals set out in section 101(b) of NEPA.

(4) *Relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.* This in essence requires the agency to assess the action for cumulative and long-term effects from the perspective that each generation is trustee of the environment for succeeding generations. Discuss the extent of trade-offs between short- and long-term impacts.

(5) *Irreversible and irretrievable commitment of resources.* This requires the agency to identify the extent to which the action curtails the range of potential beneficial uses of the environment.

(6) *Alternatives to the proposed action.* The intent of this section is to assure that the responsible officer has identified the objective(s) and formulated the alternatives to achieve the objectives based upon a rigorous exploration and objective evaluation. The range of alternative means to reach the objectives of the proposed action including alternatives as to location, design, scale, sequence, and timing. All reasonable alternatives and their environmental impacts should be discussed. The alternatives should be described, and the analysis presented, including costs and impacts on the environment. The viable alternatives should not be foreclosed prematurely in the agency review and decision process. Creativity is required in recognizing and developing alternatives. Examples of categories of alternatives that must be considered in connection with specific actions are as follows:

(i) The alternative of taking no action.

(ii) Alternatives requiring actions of a significantly different nature which would provide similar benefits with different environmental impacts.

(iii) Alternatives related to different designs or details of the proposed program or project which would present different environmental impacts. In each case, the analysis of alternatives should be sufficiently detailed and rigorous and permit independent and comparative evaluation of the benefits, costs, and environmental risks of the proposed action and each alternative.

(7) *Other Federal policies and considerations.* There should be included an indication of what other interests and consideration of Federal policy are thought to offset the adverse environmental effects.

(8) *Consultation with appropriate Federal agencies and review by States and the public.* (i) In the draft environmental statement, list the agencies, groups, and individuals consulted in the preliminary consultation phases. Also, list the agencies and groups to whom the draft environmental statement will be sent.

(ii) In the final environmental statement, this section will include a discussion of comments on the draft environmental statement. Comments received from Federal, State and local agencies, leading national organizations and substantive comments received from individuals which influence decisionmaking are to be attached.

(d) *Cover page and summary sheet for environmental statements.* The EIS will include a cover page and a summary sheet constructed as shown in Appendix 1 and 2.

(e) *Distribution of environmental statements.* (1) The EIS is to be forwarded to the CEQ and then made available to other Federal agencies, State Clearinghouses, known interested organizations or groups, and the public. Statements issued by this agency will be forwarded to CEQ by the Administrator or his designee, where required under the USDA Guidelines, through the USDA Coordinator of Environmental Quality Activities. Preparing offices will submit the prepared EIS to the ASCS member of EQEC for review, assigning report number, and preparation of transmittal memorandum before submission to the Administrator for approval.

(2) Five (5) copies of the draft EIS and five (5) copies of the final EIS will be supplied to CEQ. The EIS's will be circulated for review and comment as required by the CEQ Guidelines, as summarized in Appendix 4.

(3) EIS prepared on legislation is to accompany the legislative proposal or report. The proposal or report should make reference to the EIS. The Office of Budget and Finance will forward the copies to CEQ. Following clearance of the legislative proposal or report by OMB, the EIS will be made available to the Congress and the public.

§ 799.6 Consultation, review and public involvement.

(a) *Consultation.* (1) Prior to the development of draft environmental statements, preparing office shall consult with interested parties, including appropriate Federal, State and local agencies. Comments and views of such interested parties may be considered in developing the draft environmental statement. Appendix II, CEQ Guidelines should be consulted for possible agencies which should be consulted.

(2) In addition, the NEPA process is to the extent possible, to meet the consulting and coordinating requirements of the Fish and Wildlife Coordination Act or the wildlife requirement of the Watershed Protection and Flood Prevention Act, National Historic Preservation Act, and section 4–f of the Department of Transportation Act, 49 U.S.C. 1653(f).

(b) *Circulation for review and comment, Federal, State and local agencies and time limit.* (1) The draft EIS shall be circulated for review and comment by Federal, State and local agencies having jurisdiction by law or special expertise with respect to environmental impacts and shall be made available for comment by the public.

(2) A time limit of not less than sixty (60) days from the date of transmittal to CEQ will be observed to receive comments by reviewers. To the maximum extent practicable no administrative action is to be taken for 30 days after the final statement has been furnished to CEQ and made available to all who commented on the draft statement or who requests a copy. The EIS's will be circulated for review and comment as outlined in Appendix 4.

(c) *Expedited procedures.* Where emergency circumstances make it necessary to take action with significant environmental impact without observing the provisions of paragraphs (a) and (b) of this section, the agency will work through the Office of the Coordinator of Environmental Quality Activities in consulting with the CEQ about alternative arrangements.

(d) *Public Information and involvement.* (1) The agency will use appropriate procedures to insure the fullest practicable provision of timely public information, understanding and involvement in plans and programs with environmental impact in order to obtain views and information on alternative courses of action as required in Executive Order No. 11514 of March 5, 1970.

(2) It is an objective of the USDA to involve the public in developing its policies and in formulating and implementing its programs. To assist in accomplishing these objectives, the agency may utilize timely and effective procedures such as direct verbal contact, public meetings, printed materials, news media, public notices, and hearings, as appropriate.

(3) When hearings are held relating to environmental concerns, draft environmental statements should be available at least fifteen (15) days in advance of the meeting. In determining whether a recorded public hearing is needed the officials responsible for the program or activity should consider (i) the magnitude of the proposal in terms of potential environmental impact, (ii) the degree of controversy or opposing views, (iii) complexity of issues and (iv) the degree of public review of the proposal already achieved.

(e) *List of statements.* The ASCS member of EQEC will maintain a list of the environmental statements under preparation by this agency. The list will be furnished to CEQ on a quarterly basis as required in the CEQ Guidelines and will be available for public inspection. A listing of those major actions for which it has been decided an EIS is not required will be maintained.

(f) *Availability of EIS's.* Draft and final EIS's will be made available to the public as required in the CEQ guidelines as summarized in Appendix 4. A notice will be placed in the FEDERAL REGISTER to advise the public of the proposed program or activity, the availability of the draft or final EIS and where a copy may be obtained. This action will be coordinated by the ASCS member of EQEC.

§ 799.7 Lead agency.

In certain instances, several USDA agencies may have program responsibilities relative to a major Federal action with significant environmental impact. If ASCS is designated as the lead agency, the ASCS Member of EQEC will coordinate the input of all concerned agencies in development of the EIS. In actions involving several departments the role of ASCS will be determined in consultation with the USDA Office of the Coordinator of Environmental Activities and the CEQ.

§ 799.8 Review of EIS prepared by another agency.

ASCS will review and comment on EIS's initiated by other agencies as re-

V 39 113 JUN 11 74 XUM

quested by the Office of the Coordinator. This review and development of comments will be coordinated by the ASCS Member of EQEC.

§ 799.9 CEQ requests.

In order to assist the CEQ in fulfilling its responsibilities under NEPA and Executive Order 11514, ASCS will give careful consideration to requests by CEQ for reports, and other information and actions dealing with issues arising in connection with the implementation of NEPA. This involvement will be coordinated by the ASCS member of EQEC.

APPENDIX 1

COVER PAGE FORMAT

The cover page should not include the description title shown on the left margin, but only that information within the box, which is given as an example:

	DRAFT (or Final) Environmental Statement
Title [1]	RURAL ENVIRONMENTAL CONSERVATION PROGRAM
Report Number [2]	USDA–ASCS–ES (Adm.) 74–1–D
Responsible Official [3]	Kenneth E. Frick, Administrator Agricultural Stabilization and Conservation Service
Performing Organization [4]	Agricultural Stabilization and Conservation Service State and County Offices
Date Prepared	January 1974
Sponsoring Agency	Prepared by
Name and Address [5]	U.S. Department of Agriculture Agricultural Stabilization and Conservation Service Washington, D.C. 20205

[1] Name of program or project on which EIS is prepared.

[2] Indicates the following: USDA–ASCS–Environmental Statement, Administrative type statement (Leg. for legislative statement), program year 1974, sequential number 1 within that year, draft or "F" for final statement. The sequential number will be assigned by the Washington office.

[3] Name and title of responsible official.

[4] For State or county statement show appropriate title.

[5] Address of responsible official.

APPENDIX 2

FORMAT—SUMMARY SHEET

USDA Environmental Statement

(Statement Title)

Prepared in Accordance with Section 102(2)(C) of Public Law 91–190

SUMMARY SHEET

I. ( ) Draft ( ) Final

II. Agricultural Stabilization and Conservation Service (ASCS) (Name, address and telephone number of individual who can be contacted for additional information about the proposed action or the statement.)

III. ( ) Administrative ( ) Legislative

IV. Brief description of action: (This should indicate what States (and counties) are particularly affected and other Federal actions in the area, if any, are discussed in the statement.)

V. Summary of Environmental Impacts:

VI. Summary of Alternatives Considered:

VII. Comments:

For draft statements, list all Federal, State, and local agencies and other sources from which comments have been requested.

For final statements, list all Federal, State, and local agencies and other sources from which written comments have been received.

VIII. Date Statement Made Available to CEQ and the Public:

Draft statement on ____________.[1]

Final statement on ____________.[1]

---

[1] Leave date blank for completion when delivered to CEQ. Enter final statement only when appropriate.

APPENDIX 3

OUTLINE OF ENVIRONMENTAL STATEMENT CONTENT

USDA (ASCS) Environmental Statement

(Statement Title)

Type of Statement:
  Draft ( )
  Final ( )
Type of Action:
  Administrative ( )
  Legislative ( )

I. Description:[1]

II. Environmental Impacts:[1]

III. Summary of Probable Adverse Environmental Effects Which Cannot be Avoided:[1]

IV. Relationship Between Local Short-Term Uses of Man's Environment and the Maintenance and Enhancement of Long-Term Productivity:[1]

V. Any Irreversible and Irretrievable Commitments of Resources:[1]

VI. Alternatives to the Proposed Action:[1]

VII. Other Interests and Consideration of Federal Policy Thought to Offset the Adverse Enironmental Effects of the Proposed Action:[1]

VIII. Consultation with Appropriate Federal Agencies and Review by States and the Public:[1]

---

[1] See Section 799.5(c) for discussion of the content of each section of the statement.

APPENDIX 4

CIRCULATION OF ENVIRONMENTAL STATEMENTS

After sign-off by the responsible ASCS official, and where required, the USDA Coordinator of Environmental Quality Activities, the draft and final EIS's will be forwarded for review and comment as follows:

Draft environmental statements

	Copies
Federal and State agencies, interested organizations, public:	
Council on Environmental Quality.	5.
Environmental Protection Agency.[1]	5.
Department of the Interior	5.
Department of Commerce	5.
Department of Health, Education, and Welfare.	5.
Other Federal agencies having special expertise or jurisdiction by law on areas of environmental impact.	1 each.
State clearinghouses (OMB Circular A–95, attachment D) (for national programs having national scope circulate to all States, otherwise only to States where the program or project EIS is applicable).	
Organizations, groups, individuals with expertise or known special interest in the program or project and its environmental impacts.	1 each.
Public upon request	1.

Final environmental statement

To the Federal and State agencies, organizations and groups listed above for the draft statement and to any other public body, private organization or individual who made substantive comments on the draft statement.

Statements on legislation

Following clearance by OMB of the related legislative proposal or report, the EIS will be circulated as provided above and made available to the Congress.

[FR Doc.74–13139 Filed 6–10–74;8:45 am]

---

[1] Draft environmental statements must be submitted to the Environmental Protection Agency (EPA) for review and comment in accordance with section 309 of the Clean Air Act, as amended. For regional, State and county actions, the EIS will be sent to the appropriate Regional Administrator.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

STANDARD FOR OCCUPATIONAL EXPOSURE TO INORGANIC ARSENIC

Advance Notice of Proposed Rulemaking

The National Institute for Occupational Safety and Health (NIOSH), U.S. Department of Health, Education, and Welfare has submitted to the Secretary of Labor, pursuant to the Williams-Steiger Occupational Safety and Health Act of 1970, criteria for a recommended standard on the occupational exposure to inorganic arsenic. The Office of Standards Development, Occupational Safety and Health Administration, U.S. Department of Labor is studying the criteria and would appreciate public participation on the issues of whether a new standard for inorganic arsenic should be issued on the basis of the criteria or any other information, and, if so, what should be the contents of a proposed standard for inorganic arsenic. The issues are set forth with greater particularity below.

Accordingly, interest persons are invited to submit written data, views, and arguments concerning a standard on occupational exposure to inorganic arsenic. Comments are specifically requested concerning:

(1) Whether a new standard on occupational exposure to inorganic arsenic should be issued;

(2) Each section of the standard recommended by NIOSH;

(3) Suitable alternatives to the recommendations of NIOSH;

(4) Work injury and illness experience with inorganic arsenic;

(5) Supported cost data of the estimated costs of coming into compliance with the standard recommended by NIOSH;

(6) Supported data on any possible environmental impact of the recommended standard, and specifically (a) any adverse environmental effects which cannot be avoided should the standard be adopted, (b) alternatives to such standard, (c) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and (d) any irreversible commitments of resources which would be involved if the standard should be implemented; and

(7) Any other related issues.

Communications should be submitted to the Docket Officer, Occupational Safety and Health Administration, U.S. Department of Labor, Room 220, 1726 M Street, NW., Washington, D.C. 20210, before August 12, 1974. The communications will be available for public inspection and copying at the above location.

The NIOSH document containing the criteria and the recommended standard on occupational exposure to inorganic arsenic will be available for inspection and copying, upon request, at any of the following addresses:

[29 CFR Part 1910]

STANDARD FOR OCCUPATIONAL EXPOSURE TO SULFUR DIOXIDE

Advance Notice of Proposed Rulemaking

The National Institute for Occupational Safety and Health (NIOSH), U.S. Department of Health, Education, and Welfare has submitted to the Secretary of Labor, pursuant to the Williams-Steiger Occupational Safety and Health Act of 1970, criteria for a recommended standard on the occupational exposure to sulfur dioxide. The Office of Standards Development, Occupational Safety and Health Administration, U.S. Department of Labor is studying the criteria and would appreciate public participation on the issues of whether a new standard for sulfur dioxide should be issued on the basis of the criteria or any other information, and, if so, what should be the contents of a proposed standard for sulfur dioxide. The issues are set forth with greater particularity below.

Accordingly, interested persons are invited to submit written data, views, and arguments concerning a standard on occupational exposure to sulfur dioxide. Comments are specifically requested concerning:

(1) Whether a new standard on occupational exposure to sulfur dioxide should be issued;

(2) Each section of the standard recommended by NIOSH;

(3) Suitable alternatives to the recommendations of NIOSH;

(4) Work injury and illness experience with sulfur dioxide;

(5) Supported cost data of the estimated costs of coming into compliance with the standard recommended by NIOSH;

(6) Supported data on any possible environmental impact of the recommended standard, and specifically (a) any adverse environmental effects which cannot be avoided should the standard be adopted, (b) alternatives to such standard, (c) the relationship between local short-term uses of man's environmental and the maintenance and enhancement of long-term productivity, and (d) any irreversible commitments of resources which would be involved if the standard should be implemented; and

(7) Any other related issues.

Communications should be submitted to the Docket Officer, Occupational Safety and Health Administration, U.S. Department of Labor, Room 220, 1726 M Street, NW., Washington, D.C. 20210, before August 12, 1974. The communications will be available for public inspection and copying at the above location.

The NIOSH document containing the criteria and the recommended standard on occupational exposure to sulfur dioxide will be available for inspection and copying, upon request, at any of the following addresses:

GROUND-FAULT CIRCUIT PROTECTION

Advance Notice of Proposed Rulemaking

In accordance with the Williams-Steiger Occupational Safety and Health Act of 1970, the 1971 edition of the National Electrical Code (ANSI C1–1971) has been adopted by reference in §§ 1910.309 and 1926.400. Section 210–7 of the NEC contains the following provision:

"All 15- and 20-ampere receptacle outlets on single-phase circuits for construction sites shall have approved ground-fault circuit protection for personnel. This requirement shall become effective on January 1, 1974."

On the basis of the recommendations of the Advisory Committee on Construction Safety and Health and the petition of the National Constructors Association, the January 1, 1974 effective date of the above provision was deferred (38 FR 33397). Also, comments by interested persons were solicited and a public hearing was scheduled (38 FR 33983), and the issues subject to comment were listed (38 FR 35235) as follows:

(1) Voltage level of "all 15- and 20-ampere receptacles."

(2) Clarification of "construction sites."

(3) Clarification of "ground-fault circuit protection for personnel."

(4) Trip level of approved ground-fault circuit protection for personnel.

In response to the Federal Register notices, 61 written comments were received and 36 exhibits were submitted. After careful technical evaluation of all comments received and all evidence submitted at the hearing, it appeared that there might be a need for ground-fault circuit protection for personnel whenever an employee uses electricity in a wet, damp, or conductive location.

The Office of Standards Development, Occupational Safety and Health Administration, U.S. Department of Labor is studying the general application of ground-fault circuit interrupters throughout all industries. A standard similar to the following is being considered:

§ 19__.__ * * * *Ground-fault circuit protection for personnel.* (1) All 120v, 15- and 20-ampere receptacles used by personnel at work sites which are in wet, damp or muddy locations, or are in conductive locations consisting of exposed structural steel or other large grounded metallic surfaces, such as metal floors, tanks, boilers, shall have approved ground fault circuit protection for personnel.

EXCEPTION No. 1: Receptacles used to power fixed lighting shall not have ground fault circuit protection for personnel, nor shall fixed lighting necessary for illumination of the work site be wired to ground fault circuit interrupters (GFCI's).

EXCEPTION No. 2: Receptacles on a portable generator, where the circuit conductors and the frame of the generator are insulated from earth and all grounded surfaces, need not be protected with GFCI's.

(2) The approved ground fault circuit protection for personnel shall be provided by a device whose function is to interrupt the electric circuit to the load when a fault current to ground exceeds a predetermined value that is less than that required to operate the overcurrent protective device of the supply circuit. The ground fault current trip level for this device shall be 5 ma ±1. This device shall be used in addition to the equipment grounding conductor when this conductor is required by other provisions of this Part.

EXCEPTION: Ground fault circuit interrupters which have a trip level lower than 4 ma may continue to be used at the user's option.

(3) For the purpose of this paragraph, the following definitions and clarification shall apply:

(i) Damp location: Partially protected locations under canopies, roofed open shelters, and locations subject to a moderate degree of moisture such as basements, barns, etc.

(ii) Wet location: Installations underground or in concrete slabs or masonry in direct contact with the earth; locations of raw concrete, locations subject to saturation with water or other liquids, and locations exposed to weather and unprotected.

(iii) Following are examples of work sites which have environments as indicated in paragraph (__)(1) of this section and at which ground fault circuit protection for personnel is required:

(A) Vehicle repair and service bays,
(B) Wet scrubbing areas,
(C) Vehicle washing areas,
(D) Inside metal tanks or boilers,
(E) Outdoors.

V 39 — 113 — JUN 11 1974 XUM

Accordingly, interested persons are invited to submit by August 9, 1974, written data, views, and arguments concerning a standard on ground-fault circuit protection for personnel to Docket Officer, Room 220, 1726 M Street NW., Washington, D.C. 20210. Comments are specifically requested concerning:

(1) The suggested standard;

(2) Suitable alternatives to the suggested standard;

(3) Supported work injury experience with respect to 120 volt A.C. circuits; and

(4) Supported cost data of the estimated costs of coming into compliance with the suggested standard.

This advance notice of proposed rulemaking is issued under Section 6 of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1593; 29 U.S.C. 655) and Secretary of Labor's Order No. 12-71 (36 FR 8754).

Signed at Washington, D.C. this 3rd day of June 1974.

JOHN STENDER,
Assistant Secretary of Labor.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74-EA-37]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.171 of Part 71 of the Federal Aviation regulations so as to alter the Hot Springs, Va., Control Zone (39 FR 390).

The control zone is presently designated during the hours 0800 to 1800 local time daily. Weather observations to support the control zone designations are provided by Piedmont Airlines personnel. However, due to seasonal schedule changes, the control zone designation must be varied to coincide with weather reporting capability which is dependent on the air carrier. Therefore it is proposed to delete the specificity as to time in the designation, and permit changes by issuance of a NOTAM in the Airman's Information Manual, which may vary from the present 10 hours up to 24 hours.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York 11430. All communications received on or before July 11, 1974 will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, New York.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Hot Springs, Virginia, proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71, Federal Aviation regulations so as to alter the description of the Hot Springs, Va. Control Zone by deleting the last sentence and by substituting in lieu therefor: "This control Zone is effective during the specific days and times established in advance by a Notice to Airmen. The effective times will thereafter be published in the Airman's Information Manual.".

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on May 24, 1974.

JAMES BISPO,
Deputy Director, Eastern Region.

[14 CFR Part 71]

[Airspace Docket No. 74-SW-27]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to designate a 700-foot transition area at Eagle Pass, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before July 11, 1974, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation regulations as hereinafter set forth.

In § 71.181 (39 FR 440), the following transition area is added:

EAGLE PASS, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Eagle Pass Municipal Airport (latitude 28°42'00" N., longitude 100°28'45" W.) and within 3 miles each side of the 089° bearing from the Eagle Pass RBN (latitude 28°42'20" N., longitude 100°29'10" W.) extending from the 5-mile radius area to 8 miles east of the Eagle Pass RBN excluding the portion outside the United States.

The proposed transition area will provide controlled airspace for aircraft executing the proposed NDB-A instrument approach procedure.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on May 30, 1974.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[14 CFR Part 71]

[Airspace Docket No. 74-SW-30]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to alter the 700-foot transition area at Intracoastal City, La.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before July 11, 1974, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (39 FR 440), the Intracoastal City, La., transition area is amended as follows:

INTRACOASTAL CITY, LA.

That airspace extending upward from 700 feet above the surface within 2 miles each side of the White Lake, La., VORTAC 062° radial extending from 9 miles NE of the VORTAC to 13 miles NE of the VORTAC and within 3.5 miles each side of the White Lake VORTAC 065° radial extending from 17 miles NE of the VORTAC to 23 miles NE of the VORTAC.

The proposed amendment to the transition area will provide controlled airspace for helicopters executing the proposed COPTER VORTAC 239° Special Instrument Approach Procedure.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on May 30, 1974.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[14 CFR Part 71]

[Airspace Docket No. 74-SW-29]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to designate a 700-foot transition area at Sabine Pass, Tex.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before June 11, 1974 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation regulations as hereinafter set forth.

In § 71.181 (39 FR 440), the following transition area is added:

SABINE PASS, TEX.

That airspace extending upward from 700 feet above the surface within 3.5 miles each side of the Sabine Pass, Tex., VORTAC 093° radial extending from the VORTAC to 17.5 miles east of the VORTAC.

The proposed transition area will provide controlled airspace for helicopters executing the proposed COPTER VOR TAC 086° and COPTER VORTAC 266° Special Instrument Approach Procedures.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on May 30, 1974.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[Airspace Docket No. 74-SW-28]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to designate a 700-foot transition area at Morgan City, La.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before July 11, 1974 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation regulations as hereinafter set forth.

In § 71.181 (39 FR 440), the following transition area is added:

MORGAN CITY, LA.

That airspace extending upward from 700 feet above the surface within 3.5 miles each side of the Tibby, La., VORTAC 281° radial extending from 11.5 miles west of the VORTAC to 23 miles west of the VORTAC.

The proposed transition area will provide controlled airspace for helicopters executing the proposed Copter VORTAC 096° and Copter VORTAC 276° Special Instrument Approach Procedures.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Forth Worth, Tex., on May 30, 1974.

National Highway Traffic Safety Administration

[49 CFR Part 590]

[Docket No. 74-24; Notice 1]

MOTOR VEHICLE EMISSION INSPECTIONS

Criteria and Procedures

The purpose of this notice is to propose criteria and procedures for motor vehicle emission inspections to be conducted by, or under the supervision of, a State diagnostic inspection demonstration project.

Section 1962(b)(1) of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1901) requires the Secretary of Transportation, in consultation with the Administrator of the Environmental Protection Agency, to establish emission inspection criteria for motor vehicle diagnostic inspection demonstration projects. These projects are carried out with the help of grants and technical assistance of this Department.

The proposed criteria are minimum requirements for exhaust emissions of passenger cars powered by spark-ignition engines, and are based on the studies of the Environmental Protection Agency. Although it is the NHTSA's belief that the proposed criteria would also be appropriate for emissions inspection of light trucks and other light duty vehicles with spark-ignition engines, these vehicles would not be subject to the inspection projects. The proposal is not intended to restrict or replace emission inspection programs already adopted.

Since one of the major purposes of the diagnostic inspection demonstration projects is to determine whether such projects would be both feasible and cost beneficial, the proposed emission criteria are not the lowest motor vehicle emission levels attainable. The criteria are, however, reasonable limits for such inspection programs. Amendments to the criteria will be proposed when appropriate based on the evaluation of data provided

V39 113 JUN 11 74 XUM

by the projects and upon recommendations of the EPA.

The two emission pollutants for which criteria are proposed are carbon monoxide (CO) and hydrocarbons (HC). Instruments that can accurately measure these pollutants are readily available and can be utilized in a cost effective manner for the projects. Nitrogen oxides (NOx) are not included in the criteria due to the relative difficulty of their measurement.

Two alternative and mutually exclusive procedures for emission inspections are proposed: the loaded-mode, which requires testing on a chassis dynamometer, and the idle-mode, which does not include dynamometer testing. Either of these testing procedures may be chosen, although the loaded-mode inspection is preferred due to its greater diagnostic capability. For the idle-mode inspection, it is important to avoid the futile exercise of starting an emissions inspection, and then rejecting the vehicle because it has an improper idle speed adjustment. Accordingly, before a vehicle may be inspected for emissions, it must first be determined by the inspection personnel, whether the vehicle has an acceptable idle speed. If not, the vehicle must be rejected, and properly adjusted before being tested for emission concentrations.

In consideration of the foregoing, it is proposed that a new Part 590, Emission Inspections, be added to Chapter V, Title 49, Code of Federal Regulations, to read as set forth below.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material, as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: August 12, 1974.

Proposed effective date: 30 days after publication of final rule.

(Sec. 302(b) (1), Pub. L. 92–513, 86 Stat. 947, 15 U.S.C. 1901; delegation of authority at 49 CFR 1.51.)

Issued on June 1, 1974.

James B. Gregory,
Administrator.

PART 590—EMISSION INSPECTIONS

Sec.
590.1 Scope.
590.2 Purpose.
590.3 Applicability.
590.4 Definitions.
590.5 Requirements.
590.6 Idle-mode inspection.
590.7 Loaded-mode inspection.
590.8 Inspection conditions.

Authority: Sec. 302(b) (1), Pub. L. 92–513, 86 Stat. 947, 15 U.S.C. 1901; delegation of authority at 49 CFR 1.51.

§ 590.1 Scope.

This part specifies standards and procedures for motor vehicle emission inspections by State or State-supervised diagnostic inspection demonstration projects.

§ 590.2 Purpose.

The purpose of this part is to support the development of effective regulation of automobile exhaust emissions and thereby improve air quality, by establishing appropriate uniform procedures for diagnostic emission inspection demonstration projects.

§ 590.3 Applicability.

This part does not impose requirements on any person. It is intended to be implemented by State diagnostic inspection demonstration projects established under Title III of the Motor Vehicle Information and Cost Savings Act (15 U.S.C. 1961) with respect to emission inspections of passenger cars in use that are powered by spark-ignition engines.

§ 590.4 Definitions.

All terms used in this part that are defined in Part 571 of this chapter, Motor Vehicle Safety Standards, are used as defined in that part.

§ 590.5 Requirements.

A diagnostic inspection demonstration project shall test vehicles in accordance with either the idle-mode inspection of § 590.6, or the loaded-mode inspection of § 590.7.

§ 590.6 Idle-mode inspection.

(a) *Criteria.* The vehicle must meet the following criteria when tested by the idle-mode inspection method.

(1) The vehicle's idle speed, measured with the transmission in the position recommended by the manufacturer for adjusting the idle speed, shall not be more than 100 rpm higher than the idle speed recommended by the manufacturer.

(2) Concentrations of emission samples taken from each exhaust outlet shall not exceed the following levels:

(i) For model years 1967 and earlier: hydrocarbons (HC) 1200 ppm, and carbon monoxide (CO) 9.0 percent.

(ii) For model years 1968 and later: HC 600 ppm, and CO 7.0 percent.

(b) *Method.* Idle-mode inspection is conducted by measuring two emission samples from each exhaust outlet. The first emission sample is collected with the vehicle's transmission in neutral and the engine operating at 2250 rpm. The second sample is collected with the vehicle's transmission in the position recommended by the manufacturer for adjusting the idle speed, and the engine idling.

§ 590.7 Loaded-mode inspection.

(a) *Criteria.* When the loaded-mode inspection is conducted, concentrations of the emission samples taken from each exhaust outlet for each of the three phases of the driving cycle in Table I, conducted in the sequence indicated, shall not exceed the levels given in Table II. For the purpose of determining the weight classification of a motor vehicle for the loaded-mode inspection, 300 pounds are added to the vehicle's curb weight.

Table I

Curb weight plus 300 lb	Driving cycle (speed-load combination)		
	1st phase high cruise	2d phase low cruise	3d phase idle
3,801 lb and up	48 to 50 mi/h at 27 to 30 hp	32 to 35 mi/h at 10 to 12 hp	At idle.
2,801 to 3,800 lb	44 to 46 mi/h at 21 to 24 hp	29 to 32 mi/h at 8 to 10 hp	Do.
2,000 to 2,800 lb	36 to 38 mi/h at 13 to 15 hp	22 to 25 mi/h at 4 to 6 hp	Do.

Table II

High cruise	Low cruise	Idle
1967 and earlier model years		
HC 900 p/m CO 4.5 percent	HC 900 p/m CO 5.5 percent	HC 1,200 p/m. CO 9.0 percent.
1968 and later model years		
HC 450 p/m CO 3.75 percent	HC 450 p/m CO 4.25 percent	HC 600 p/m. CO 7.0 percent.

(b) *Method.* Loaded-mode inspection for the first two phases of the driving cycle described in Table I is conducted by measuring the levels of emission concentrations from each exhaust outlet of a motor vehicle operated on a chassis dynamometer, with the vehicle's transmission in the setting recommended by the vehicle manufacturer for the speed-load combination being tested. For the idle phase, vehicles with automatic transmissions are tested in drive and vehicles with standard transmissions are tested in neutral.

§ 590.8 Inspection conditions.

(a) The vehicle engine is at its normal operating temperature, as specified by the vehicle manufacturer.

(b) An engine speed indicator with a graduated scale from zero to at least 2500 rpm is used for the idle-mode inspection procedure.

(c) The equipment used for analyzing the emission concentration levels—

(1) Has a warm-up period not to exceed 30 minutes;

(2) Is able to withstand sustained periods of continuous use;

(3) Has a direct and continuous meter readout that allows readings for concentration levels of carbon monoxide (CO) from 0–10 pereent, and of hydrocarbon (HC) from 0–2000 ppm hexane; and, if used for the loaded-mode inspection, has at least one additional expanded direct and continuous readout for concentration levels of carbon monoxide and of hydrocarbon, such as from 0–5 percent and from 0–1000 ppm hexane, respectively;

(4) Has an accuracy of better than ±5 percent of the full scale reading for each concentration range;

(5) Permits a reading for each emission concentration level, within 10 seconds after the emission sample has been taken, that is not less than 90 percent of the final reading; and

(6) Has a calibration system using a standard gas, or an equivalent mechanical or electrical calibration system which itself is based on a standard gas.

[FR Doc.74–13355 Filed 6–10–74;8:45 am]

CIVIL AERONAUTICS BOARD

[14 CFR Part 293]

[EDR–272; Docket No. 26769]

AIR TAXIS IN ALASKAN BUSH ROUTES

Operations Pursuant to Subcontract Agreements With Certificated Air Carriers

June 4, 1974.

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment to its Economic Regulations to be identified as Part 293 (14 CFR Part 293) which would (1) require prior Board approval for subcontract agreements involving Alaskan bush routes; and (2) specify guidelines to be followed by the Board in approving such agreements.

The principal features of the proposed amendments are described in the attached Explanatory Statement and the complete text of the proposed rule is attached thereto. The rule is proposed under the authority of Sections 204, 401, 407, 412, 416 and 1001 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 754 (as amended), 766, 770, 771 and 788; 49 U.S.C. 1324, 1371, 1377, 1382, 1386 and 1481.

Interested persons may participate in the proposed rule making through submission of twelve (12) copies of written data, views or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before July 11, 1974, will be considered by the Board before taking final action upon the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 710 Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C. upon receipt thereof.

By the Civil Aeronautics Board.

[seal] Edwin Z. Holland,
Secretary.

Explanatory Statement

Heretofore the operation of scheduled air service by air taxis over Alaska bush routes pursuant to subcontract agreements with Board certificated air carriers has been permitted under Part 302, Subpart L of the Board's Procedural Regulations, which does not require prior Board approval for implementation of such agreements. The proposed rule herein will require prior Board approval of such agreements in accordance with procedures specified in Part 302, Subpart P; and will establish guidelines which the Board will consider in reaching decisions on the agreements.

We believe that the need for guidelines was established in the "Alaska Service Investigation," as recommended by Judge Merritt Ruhlen in his initial Decision, March 26, 1971. Judge Ruhlen's recommendation was not adopted at that time, but rather those bush phase issues in the proceeding involving subcontracted service and related issues were remanded so that the Board could consider additional service alternatives prior to reaching a final decision (Order 72–9–91, 72–9–92, September 25, 1972). Principally, the remanded proceedings were ordered specifically to include among the possible service alternatives the issue of "subsidized services by air carriers, whether or not certificated, operating pursuant to a competitive bid contract." However, because of intervening developments, the promulgation of any proposed competitive bid contract system would not now appear to be viable and the issue must be considered moot.[1]

Thus, the range of alternatives available within the issues in the remanded bush phase of the "Alaska Service Investigation" concerning subcontracted bush service, has, as a practical matter, reverted to the limited alternatives that were available prior to the Board's order to remand and expand the scope of the proceeding.

Moreover, it is now evident, based on pleadings received to date in the remanded stage of the proceeding that the further development of the evidentiary record in terms of reliable historic data which the Board stated would be useful in resolving the complex issues in the case, cannot be accomplished in the detail contemplated.

In the light of these considerations, it is argued that issues involving subcontract agreements can and should be resolved now on the basis of policy considerations and existing evidence of record, and that Judge Ruhlen's recommendations in this respect provide a reasonable foundation for such decision.

The Board agrees with this position. Within the relegated scope of real options now open to the Board, we believe that a sufficient basis exists for adopting defined procedures and economic guidelines for processing of subcontract agreements in Alaskan bush markets. Accordingly, we are of the tentative view that the attached proposed rule, patterned after the guidelines recommended by Judge Ruhlen in his initial decision, should be adopted.

The proposed rule contains the following major provisions: (1) It will require air taxi parties to subcontract agreements involving Alaskan bush routes to comply with Part 298, both as a Federal air taxi operator and as a scheduled route operator properly authorized by the State of Alaska. (2) It specifies that the agreements may not be implemented without prior Board approval. (3) It requires the filing of an application for prior Board approval of the agreement, demonstrating, with supporting economic data, that sufficient compensation will be provided to guarantee the sustained operation of a satisfactory level of service by the air tax party to the agreement; that the agreement is of sufficient duration to justify the necessary investment in equipment and facilities by the air taxi; that the certificated air carrier will provide any necessary backup equipment and services that may be required in emergency situations; and that the public be adequately informed that the air taxi operator is operating as an agent of the certificated air carrier who is responsible for the services rendered. The rule also allows interested parties to file answers to the application for approval of the agreement.

The Board's primary concerns are that the agreements provide the basis for a sustained, satisfactory level of reliable bush service—including equitable provisions for whatever reasonable compensation may be required. The applicants will be expected to demonstrate that the provisions of the agreement will fulfill this objective.

We are of the tentative view that the subcontracting parties should propose the method of providing any necessary compensation for the air taxi in each individual agreement. Historically, the record in the Investigation indicates that in some cases the certificated air carrier pays its subcontractor a predetermined rate per round trip, per aircraft mile, or per other unit of operations. Other agreements provide for the certificated carrier to forward to the air taxi a rate for carrying mail that exceeds the actual rate paid by the Postal Service to the certificated air carrier. These types of support arrangements may be satisfactory in specific cases, but the application must contain detailed information, including the projected amounts of gross

---

[1] A proposed competitive bid contract system is not within the Board's existing statutory alternatives. A bill was introduced in the 92nd Congress to authorize an experimental contract program involving competitive bids for air routes, but it was not enacted into law, and it has not been reintroduced in the 93rd Congress. Accordingly, there would be no statutory basis for the Board to implement a competitive bid system in Alaska at this time.

V 39 — 113 JUN 11 74 XUM

and net additional compensation that will flow to the air taxi party.

Reporting procedures, for the major purpose of monitoring the ongoing results of subcontracted operations, are also specified in the proposed rule.

PART 293—OPERATIONS BY AIR TAXIS IN ALASKAN BUSH ROUTES PURSUANT TO SUBCONTRACT AGREEMENTS WITH CERTIFICATED AIR CARRIERS

Sec.
293.1 Applicability.
293.2 Procedural requirements.
293.3 Standards.
293.4 Reporting requirements.

§ 293.1 Applicability.

This subpart sets forth the rules applicable to the processing of and guidelines applicable to the approval of, section 412 subcontract agreements involving the operation of scheduled air services by an air taxi operator over Alaskan bush routes of a certificated air carrier.

§ 293.2 Procedural requirements.

An agreement submitted pursuant to this part shall be filed in accordance with the provisions of Subpart P of the Board's Rules of Practice in Economic Proceedings (14 CFR Part 302), and in accordance with the following additional provisions:

(a) A copy of every document subject to this part shall be filed with the Board's Alaska Regional Office.

(b) A copy of every document subject to this part shall be served upon the Alaska Transportation Commission.

(c) Contents of an application for prior Board approval of an agreement submitted pursuant to this part shall include economic and other factual data specifically bearing on each of the criteria for approval prescribed in section 293.4.

§ 293.3 Standards.

Subcontract agreements filed pursuant to this part shall comply with the following standards:[1]

(a) The air taxi party to the agreement must (1) be authorized by the State of Alaska to operate as a common carrier in scheduled services, and (2) be in compliance with all provisions of Part 298 as an air taxi operator within the definitions of that Part.

(b) The agreement shall be of sufficient duration to justify the necessary investment in equipment and facilities by the air taxi party. Sufficient duration shall be deemed to be at least one year but may be any period of greater duration as the Board may find the circumstances to indicate.

(c) The agreement shall provide that the air taxi party to the agreement be guaranteed sufficient compensation as may be necessary to support the sustained operation of a satisfactory level of service over the routes described in the agreement. Such compensation shall be determined on the basis of best estimates of both parties to the agreement, as evaluated and modified by the Board, of the projected financial results of operations performed pursuant to the agreement during the fiscal year periods for which the agreement will be effective. A detailed description of the method and projected amount of compensation must be included in the application for Board approval of the agreement.

(d) The agreement shall provide that the certificated air carrier party will provide backup support, including extra equipment in emergency situations in which the air taxi party is unable to meet the demands of the subject routes.

(e) The traveling public affected by the agreement shall be informed by appropriate and conspicuous notice that the air taxi party is operating as an agent of the certificated air carrier party and that the certificated air carrier party is responsible for the services rendered.

§ 293.4 Reporting requirements.

An air taxi party to an agreement approved pursuant to this part shall file, in addition to any reports which may be required under Part 298, such other reports (including detailed data of operating income and expenses in subcontracted operations) as may be prescribed in the Board's order approving such agreement.

[14 CFR Part 298]

[EDR-273; Docket No. 21761]

AIR TAXI OPERATORS

Classification and Exemption

JUNE 4, 1974.

Notice is hereby given that the Civil Aeronautics Board has under consideration proposed amendments to Part 298 of its Economic Regulations (14 CFR Part 298) to make applicable to air taxi operators in the State of Alaska the aircraft size and weight limitations presently applicable to air taxi operators in the 48 continguous States and the territories.

The principal features of the proposed rule are set forth in the attached Explanatory Statement and the proposed amendments are set forth in the Proposed Rule. The amendments are proposed under authority of sections 204(a) and 416 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743 and 771; 49 U.S.C. 1324 and 1386.

Interested persons may participate in the proposed rulemaking through submission of twelve (12) copies of written data, views or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before July 11, 1974, will be considered by the Board before taking final action upon the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 710 Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C. upon receipt thereof.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

EXPLANATORY STATEMENT

Part 298 of the Board's Economic Regulations (14 CFR Part 298) provides for the classification and exemption of air taxi operators.

In the "Part 298 Weight Limitation Investigation," Orders 72-7-61 and 72-9-62, the Board replaced the preexisting 12,500 pound takeoff weight limitation on air taxi aircraft with a more liberal 30 seat/7500 pound payload restriction.[1] This change, however, was made applicable only to air taxi service in the continental United States. The Board decided not to relax the 12,500 pound rule for intra-Hawaii services and to defer any decision as to intra-Alaska operations until after the determination of the bush route issues in the "Alaska Service Investigation." When we remanded the bush routes phase of the "Alaska Investigation," we consolidated into that proceeding the question of whether the Part 298 aircraft weight restrictions should be relaxed in the case of intra-Alaska services.

For reasons detailed in Order 74-6-21, issued contemporaneously herewith, we have now decided to sever the Part 298 issue from the "Alaska Service Investigation." Similarly, we have also concluded that there is no need for further hearings on this question. The question of appropriate air taxi standards for Alaska was in issue in the Part 298 "Weight Limitation Investigation" and the record in that proceeding contains information concerning the nature of certificated services in Alaska and the views of the parties on whether the revised limitations governing air taxi operations should be made applicable to Alaska. No matters requiring resolution through evidentiary procedures have been presented in the materials which have been filed in the remanded Alaska proceeding, nor does it appear likely that any significant additional such matters would emerge if further evidentiary hearings were held. Rather, the changing conditions in Alaska and their significance to the question of appropriate weight limitations are matters susceptible of evaluation and consideration upon the basis of written comment. While the Board well might proceed to decision on the basis of the materials now before it and its informed judgment, we think it desirable to afford interested persons yet another opportunity to comment on the proposed amendment, and hence will proceed by way of notice of proposed rulemaking to provide that opportunity.

Our tentative conclusion is that the air taxi weight limitations now applicable in the continental United States should be extended to intra-Alaska services. In the "Weight Limitation" case, Administrative Law Judge Merritt Ruhlen recommended against a relaxation of the 12,500 pound test, claiming it would cause serious harm to Alaska's unique pattern of certificated air routes, which consists largely of widely scattered, sparsely populated bush points served by heavily subsidized carriers who still operate a substantial number of small aircraft (with takeoff weights below 12,000 pounds). This conclusion was based on Judge Ruhlen's general evaluation of the nature of these markets rather than on specific evidence that a more liberal air taxi standard would result in substantial diversion from certificated airlines. While we agree with Judge Ruhlen's analysis of the special character of Alaskan air transportation, we disagree with his opinion that the State's network of certificated services requires protection against a liberalization of air taxi weight standards. In our judgment, the distinctive nature of Alaskan air transportation is clearly recognized and sufficiently safeguarded by two existing provisions of section 298.21 (c) which will continue in effect. First, under this section an exempted carrier may not operate scheduled services between points served by a certificated airline with at least two scheduled single-plane flights per week, including flag stops. This provision sharply limits any diversionary impact air taxis might otherwise have on scheduled certificated services. Second, the regulation requires Part 298 operators to obtain air taxi authority from the State of Alaska as well, thus assuring that any new services that may result from our proposed amendment will accord with local requirements and needs as determined by the State.[2] Accordingly, we tentatively conclude that our reasons for adopting the 30 seat/7,500 pound test for air taxi operations in the continental United States justify a similar relaxation of aircraft weight standards within Alaska.

PROPOSED RULE

It is proposed to amend Part 298 of the Board's Economic Regulations (14 CFR 298) as follows:

1. Amend § 298.2 by revising the definitions of "Large aircraft" and "Maximum passenger capacity," to read as follows:

§ 298.2 Definitions.

As used in this part:

* * * * *

"Large aircraft" means an aircraft having a maximum passenger capacity of more than 30 seats or a maximum payload capacity of more than 7,500 pounds; except that in connection with operations conducted within the State of Hawaii, large aircraft shall mean an aircraft whose maximum certificated takeoff weight is more than 12,500 pounds: *Provided, however,* That, for the purposes of this part, large aircraft shall include all models of the Convair 240, 340 and 440; Martin 202 and 404; F-27 and FH-227; and Hawker Siddeley 748; and shall also include any other aircraft with a maximum zero fuel weight in excess of 35,000 pounds.

* * * * *

2. Amend § 298.21 by revising paragraphs (a) and (c), the section as amended to read in pertinent part as follows:

§ 298.21 Scope of service authorized: geographical, equipment and mail service limitations, insurance and reporting requirements.

(a) *General scope.* Subject to the prohibitions of paragraphs (b), (c), (d), (f), and (g) of this section, the exemption authority provided to air taxi operators by this part shall extend to the direct air transportation of persons, property and mail (subject to the limitations imposed in section 298.3(a) and 298.13) in aircraft having a maximum passenger capacity of 30 seats or less and a maximum payload capacity of 7,500 pounds or less: *Provided, however,* That, with respect to operations conducted within Hawaii said exemption authority shall be limited to aircraft having a maximum takeoff weight of 12,500 pounds or less.[1]

* * * * *

(c) *Air taxi service in Alaska.* No service in air transportation shall be offered or performed by an air taxi operator between points both of which are in the State of Alaska, or one of which is in Alaska and the other in Canada, unless the air taxi operator also holds authority from the State of Alaska to operate aircraft of a maximum passenger capacity of 30 seats or less and a maximum payload capacity of 7,500 pounds or less as a common carrier in intrastate commerce, or has applied to the Board for, and received, special exemption authority (see Subpart D of Part 302 of the Procedural Regulations) : *Provided,* That the operator is prohibited from rendering the above authorized service in air transportation, or holding out to the public expressly or by course of conduct that it renders such service, regularly or with a reasonable degree of regularity between points where a certificated carrier schedules two or more single-plane round trips per week, including flag stops.

COST ACCOUNTING STANDARDS BOARD

[4 CFR Part 409]

DEPRECIATION OF TANGIBLE CAPITAL ASSETS

Proposed Cost Accounting Standard

Notice is hereby given of a proposed Cost Accounting Standard on the Depreciation of Tangible Capital Assets, being considered by the Cost Accounting Standards Board for promulgation to implement further the requirement of Section 719 of the Defense Production Act of 1950, as amended, Public Law 91-379, 50 U.S.C. App. 2168. When promulgated, the Standard will be used by all relevant Federal agencies and national defense contractors and subcontractors.

The proposed Standard, if adopted, would be one of a series of Cost Accounting Standards which the Board is promulgating "to achieve uniformity and consistency in the cost accounting principles followed by defense contractors and subcontractors under Federal contracts." (See section 719(g) of the Defense Production Act of 1950, as amended.) It is anticipated that any contractor receiving an award of a contract on or after the effective date of this Standard will be required to follow it in accordance with the provisions of § 409.80.

Income tax regulations have established bases for selection of depreciation lives and methods of depreciation for assigning depreciation cost to accounting periods. Our research has indicated that contractors often select depreciation lives and methods for contract costing purposes based on what is permitted by these regulations rather than on bases which are representative of the consumption of the service potential of the tangible capital asset. In these circumstances many choices have resulted in unduly accelerating allocation of depreciation cost to earlier cost accounting periods and to final cost objectives within those earlier cost accounting periods.

The proposed Standard would establish the principle that for contract costing purposes the service lives established for tangible capital assets be the expected actual service lives at the date of acquisition. Accordingly, the proposed Standard would require that the service lives used shall be the estimates used for financial accounting purposes unless financial accounting lives are unrealistic, in which case the proposed Standard would require that more realistic estimated service lives be used. The proposed Standard also would require that the method of depreciation used for contract costing purposes approximate the expected consumption of asset services in each cost accounting period. The method of depreciation used for financial ac-

---

[1] The standards listed are not intended to be all inclusive. The Board remains free to disapprove an agreement as contrary to the public interest even if the agreement complies with these standards.

[1] ER-748, July 18, 1972, 37 FR 14692, as revised by ER-759, September 15, 1972, 37 FR 19609. By ER-846, effective May 8, 1974, we further clarified and amended the 30 seat/7500 pound payload text by specifying certain aircraft that would not qualify under this standard and by adding an upper limit on air taxi aircraft of 35,000 pounds maximum zero fuel weight. Our present proposal to conform air taxi standards within Alaska to those applicable in the continental United States reflects this recent change.

[2] The Alaska Transportation Commission supports the proposed relaxation of the weight restrictions on Alaskan air taxi aircraft.

[1] The carriers are cautioned that safety regulations of the FAA applicable to air taxi aircraft in excess of 12,500 pounds may be different from those applicable to aircraft weighing 12,500 pounds or less and that, as in the case of all operations conducted under this part, the operations with aircraft in excess of 12,500 pounds must be conducted pursuant to applicable safety regulations.

V39 113 JUN 11 74 XUM

counting purposes is satisfactory if reasonable in the circumstances.

The Board calls attention to the treatment that would be prescribed in connection with changes in estimated service life, residual value, or method of depreciation. This proposed Standard would require that adjustments be applicable only to the remaining undepreciated cost of the assets, which remaining cost shall be amortized in the current and future periods in accordance with the new determinations. The treatment provided in this proposed Standard for changes in accounting estimates such as changes in expected life is the same as that which Opinion No. 20 of the Accounting Principles Board (July 1971) provides for financial reporting. APB Opinion No. 20, however, provides that changes in accounting principle may involve corrections for cumulative effects in prior periods; a change in depreciation method for existing assets is used (paragraph 22 of the Opinion) as an example of a change in accounting principle requiring changes related to prior periods. For contract costing purposes, the Board does not proposed retroactive changes. Amounts once charged off as depreciation expense should not be reinstated and again be available for charge against future projects. Conversely, if assets have not yet been charged off, it would be equitable that the entire remaining depreciable cost of those assets be identified to cost objectives of future periods.

Included in the proposed Standard is an Appendix A, which was derived from the Internal Revenue Service's Revenue Procedure 71-25. The proposed Standard would use Revenue Procedure 71-25 "Asset Guideline Periods" to establish lower limits for estimated service lives that may be used for contract costing purposes where contractors' accounting records do not support shorter lives.

The proposed Standard is expected to be applied by contractors in situations where depreciation cost is a factor in determining equitable charging rates to be used as a basis for contract costing. For example, the development of rate schedules for construction plant and equipment and ownership costs for comparison to lease or rental costs would be accomplished in conformance with the requirements of the proposed Standard. The proposed Standard also would be used by educational institutions in determining amounts to be compensated for use of buildings, capital improvements and equipment.

The Cost Accounting Standards Board is particularly interested in comments on the above subjects. The Board also solicits comments on any other matter concerning the proposed Cost Accounting Standard which will assist the Board in its consideration of the proposal.

Interested persons should submit written data and views, concerning the proposed Cost Accounting Standard to the Cost Accounting Standards Board, 441 G Street, NW., Washington, D.C. 20548.

To be given consideration by the Board in its determination relative to final promulgation of the Cost Accounting Standard covered by this notice, written submissions must be made to arrive no later than August 12, 1974.

NOTE: All written submissions made pursuant to this notice will be made available for public inspection at the Board's office during regular business hours.

Sec.
409.10 General applicability.
409.20 Purpose.
409.30 Definitions.
409.40 Fundamental requirement.
409.50 Techniques for application.
409.60 Illustrations.
409.70 Exemptions.
409.80 Effective date.

AUTHORITY: Sec. 719 of the Defense Production Act of 1950, as amended, Pub. L. 91-379, 50 U.S.C. App. 2168.

§ 409.10 General applicability.

This Standard shall be used by defense contractors and subcontractors under Federal contracts entered into after the effective date hereof and by all relevant Federal agencies in estimating, accumulating, and reporting costs in connection with the pricing, administration, and settlement of all negotiated prime contract and subcontract national defense procurements with the United States in excess of $100,000, other than contracts or subcontracts where the price negotiated is based on (a) established catalog or market prices of commercial items sold in substantial quantities to the general public, or (b) prices set by law or regulation.

§ 409.20 Purpose.

(a) The purpose of this Standard is to provide criteria and guidance for assigning costs of tangible capital assets to cost accounting periods and for allocating such costs to cost objectives within such periods in an objective and consistent manner. The standard is based on the concept that depreciation costs identified with cost accounting periods and benefiting cost objectives within periods should be a reasonable measure of the expiration of service potential of the tangible assets subject to depreciation. Adherence to this Standard should provide a systematic and rational flow to benefiting cost objectives of the costs of tangible capital assets over their expected service lives.

(b) This Standard does not cover nonwasting assets or natural resources which are subject to depletion.

§ 409.30 Definitions.

(a) *Residual value.* The proceeds (less removal and disposal costs, if any) realized upon disposition of a tangible capital asset. It usually is measured by the net proceeds from the sale or other disposition of the asset, or the fair value if the asset is traded in on another asset.

(b) *Service life.* The period of usefulness of a tangible capital asset (or group of assets) to its current owner. The period may be expressed in units of time or output. The estimated service life of a tangible capital asset (or group of assets) is a forecast of the period of usefulness of the asset(s) and is the period over which depreciation cost is to be assigned.

(c) *Tangible capital asset.* An asset that has physical substance, more than minimal value, and is expected to be held by an enterprise for continued use or possession beyond the current accounting period for the services it yields.

§ 409.40 Fundamental requirement.

(a) The depreciable cost of a tangible capital asset (or group of assets) shall be assigned to cost accounting periods in accordance with the following criteria:

(1) The depreciable cost of a tangible capital asset shall be its capitalized cost less its estimated residual value.

(2) The estimated service life of a tangible capital asset (or group of assets) shall be used to determine the cost accounting periods to which the depreciable cost will be assigned.

(3) The method of depreciation selected for assigning the depreciable cost of a tangible capital asset (or group of assets) to the cost accounting periods representing its estimated service life shall reflect the expected consumption of services in each cost accounting period.

(4) Gain or loss upon disposition of a tangible capital asset shall be assigned to the cost accounting period in which the disposition occurs.

(b) The annual depreciation cost of a tangible capital asset (or group of assets) shall be allocated to cost objectives for which it provides service in accordance with the following criteria:

(1) Depreciation cost may be directly charged to cost objectives only when such charges are made on the basis of usage and depreciation costs of all like assets used for similar purposes are charged in the same manner.

(2) Where tangible capital assets are part of, or function as, an organizational unit whose costs are charged to other cost objectives based on a measure of the services provided by the organizational unit, the depreciation cost of such assets shall be included as part of the cost of the organizational unit.

(3) All depreciation costs which are not allocated in accordance with paragraph (b)(1) or (2) of this section shall be included in appropriate indirect cost pools.

(4) Gains or losses from disposition of a tangible capital asset shall be allocated in the same manner as the depreciation cost of the asset had been or would have been allocated for the cost accounting period in which the disposition occurs.

§ 409.50 Techniques for application.

(a) Depreciation of a tangible capital asset shall begin when the asset is ready for use in a normal or acceptable fashion. However, where partial utilization of a tangible capital asset is identified with a specific operation, depreciation shall commence on any portion of the asset which is substantially completed and used for that operation. Depreciation of capitalized spare parts which are normally required for the operation of a

tangible capital asset shall be accounted for over the service life of the asset.

(b) A consistent policy shall be followed in determining the depreciable cost to be assigned to the beginning and ending cost accounting periods of asset use. Although depreciation begins for accounting purposes as of the time an asset is ready for use, the policy may provide for any reasonable starting and ending dates in computing the first and last year depreciable cost.

(c) Tangible capital assets may be accounted for by treating each individual asset as an accounting unit, or by combining two or more assets as a single accounting unit provided such treatment is consistently applied over the service life of the assets or group of assets.

(d)(1) Estimated service lives initially established for tangible capital assets (or groups of assets) shall be their expected actual periods of usefulness. Where service lives used for financial accounting purposes reflect such periods of usefulness, those lives shall be used for contract costing. In no case, however, shall such lives be used if they are shorter than the asset guideline periods established for asset guideline classes under the rules in Appendix A, except as authorized by paragraph (e)(1) of this section. If the contractor's estimated service lives established for financial accounting purposes are unrealistic or shorter than the asset guideline periods under the rules in Appendix A, he shall establish and support, if requested, appropriate estimated service lives for contract costing.

(2) If a contractor accounts for tangible capital assets other than by asset guideline classes established by the rules in Appendix A, the contractor shall, if requested, be required to demonstrate that service lives used are the same as or longer than the asset guideline periods. This shall be accomplished by grouping all tangible capital assets in accordance with the groups required by the rules in Appendix A. If annual depreciation cost computed for any asset guideline class using the asset guideline periods is less than the depreciation cost which would have been computed for those assets using the contractor's established depreciation method, the contractor must make appropriate adjustment to the lives used or support those lives as provided in paragraph (e)(1) of this section.

(e)(1) Shorter estimated service lives than those required by paragraph (d)(1) of this section may be used if the shorter lives are supported by records of past retirement or replacement experience.

(2) The contracting parties may agree in advance on the estimated service life of an individual tangible capital asset where special circumstances warrant a different estimated service life than the life applied to the group in which that asset would be included in the absence of the agreement.

(f)(1) The method of depreciation used for financial accounting purposes shall be used for contract costing unless (i) such method does not reflect the expected consumption of services for the tangible capital asset (or group of assets) to which applied, or (ii) the method is unacceptable for Federal income tax purposes. If the contractor's method of depreciation used for financial accounting purposes does not approximate the expected consumption of services or is unacceptable for Federal income tax purposes, he shall establish and support, if requested, a method of depreciation for contract costing which meets these criteria.

(2) Consumption of asset services may be measured either by the expected activity or by the expected physical output of the assets, as for example: Hours of operation, number of operations performed, number of units produced, or number of miles traveled. An acceptable surrogate for expected activity or output might be a monetary measure of that activity or output such as estimated labor dollars, total cost incurred or total revenues generated by use of tangible capital assets to the extent that such monetary measures can reasonably be related to specific tangible capital assets (or group of assets). The appropriate method of depreciation should be selected as follows:

(i) An accelerated method of depreciation is appropriate where the consumption of asset services is significantly greater in early years of asset life.

(ii) The straight line method of depreciation is appropriate where the consumption of asset services is reasonably level over the service life of the asset (or group of assets).

(iii) A decelerated method of depreciation (e.g., sinking fund method) may be used by the owner of assets that are used by others under a financing lease.

(g) Each original complement of low-cost equipment shall be depreciated to half its depreciable cost over half of the average service life of the original group of items which comprise the original complement. The complement shall not be further depreciated until such time as it can be determined when the complement will be disposed of or when the operational unit for which the complement was acquired will cease operation. At that time the remaining depreciable cost shall be written off over the remaining service life of the complement.

(h) Estimated residual values shall be determined for all tangible capital assets (or groups of assets). Only estimated residual values which exceed 10% of the capitalized cost of the asset must be used in establishing depreciable costs. However, where the declining balance method of depreciation is used the residual value need not be deducted from capitalized cost to determine depreciable costs. No depreciation cost shall be charged which would reduce book value of the tangible capital asset below the residual value.

(i) Estimates of service life, consumption of services, and residual value shall be reexamined periodically for tangible capital assets (or groups of assets). Where changes are made to the estimated service life, residual value, or method of depreciation during the life of a tangible capital asset, the remaining depreciable costs for cost accounting purposes shall be limited to the undepreciated cost of the assets and shall be assigned only to the cost accounting period in which the change is made and subsequent periods.

(j)(1) Gains and losses on disposition of tangible capital assets shall be considered as adjustments of the depreciation costs previously recognized and shall be assigned to the cost accounting period in which disposition occurs. The gain or loss for each asset disposed of is the difference between the amount realized and its undepreciated balance, adjusted for costs of disposal.

(2) Gains and losses on the disposition of tangible capital assets shall not be recognized where: (i) Such gains and losses are processed through the depreciation valuation account (e.g., reserve for depreciation, allowance for depreciation, contra asset valuation), (ii) the asset is given in exchange as part of the purchase price of a similar asset and the gain or loss is included in computing the depreciable cost of the new asset, or (iii) the disposition results from an involuntary conversion and the asset is replaced by a similar asset. In the last case the gain or loss shall be included in computing the depreciable cost of the new asset.

(3) The contracting parties may agree on a different treatment of gains and losses arising from mass or extraordinary dispositions.

(4) Gains and losses on disposition of tangible capital assets transferred in other than an arms-length transaction and disposed of within 12 months from the date of transfer shall be assigned to the transferor.

(k) Where, in accordance with Section 409.40(b)(1), the depreciation costs of like tangible capital assets used for similar purposes are directly charged to cost objectives on the basis of usage, average charging rates shall be established for such assets where the depreciation cost of one or more assets is charged on a usage basis. Any variances between total depreciation cost charged to cost objectives and total depreciation cost for the cost accounting period shall be accounted for in accordance with the contractor's practice for handling such variances.

(l) Depreciation methods, estimated service lives and estimated residual values need not be changed for assets acquired prior to compliance with this Standard if otherwise acceptable under applicable procurement regulations. However, any changes to depreciation methods, estimated service life or estimated residual value must conform to the criteria established in this Standard and may be effected on a prospective basis to cover the undepreciated balance of cost by agreement between the contracting parties pursuant to (a)(4)(B) of the Contract Clause set out at § 331.50 of this title (4 CFR 331.50).

§ 409.60 Illustrations.

The following examples are illustrative of the provisions of this Standard.

V 39 — 113 — JUN 11 74
XUM

(a) A contractor purchases a milling machine for its machine shop to replace a milling machine which was fully depreciated and retired from service. Production records, maintained for a group of like milling machines in the machine shop by the contractor, indicate that the milling machines have a capability to produce more units of product in the earlier years of service life than in later years and the number of units produced decrease for each succeeding year of service life. Therefore, the contractor's records support depreciation charges on an accelerated basis for the replacement milling machine. Since the Standard requires that the contractor's method approximate the expected consumption of services, annual charges for depreciation should be higher in early years to reflect the decreasing usage of the asset over time.

(b) The contractor also purchases a lathe for its machine shop. The contractor, as a regular step in its fixed asset procurement process, prepares a summary of estimated revenues to be derived from the use of the lathe to support the company's decision to buy the asset. The summary shows estimated revenues by fiscal year and indicates that, because of inability to hold tolerances, revenues to be derived from use of the lathe will be lower in later years. Therefore, the summary of estimated revenues supports depreciation charges on an accelerated basis for the lathe. Since the Standard requires that the contractor's depreciation method approximate the expected consumption of services, and estimated revenues may be used as a surrogate for actual machine usage, annual charges for depreciation should be higher in early years of asset life.

(c) The contractor desires to charge depreciation of the milling machine described in paragraph (a) of this section directly to final cost objectives. Usage of the milling machine can be measured easily based on units produced. Contractor may charge depreciation cost directly on a unit of production basis provided he uses an average depreciation charge for all like milling machines in the machine shop and charges depreciation for all like milling machines directly to final cost objectives.

(d) The capitalized cost of the milling machine described in paragraph (a) of this section was $50,000. It is estimated that the milling machine will have a residual value of $4,500 upon disposition. Because $4,500 is less than 10% of capitalized cost, annual depreciation charges may be based on capitalized cost of $50,000. However, the asset must not be depreciated below the $4,500 residual value.

(e) (1) A contractor outfits a new office building with miscellaneous low cost furniture and fixtures total $250,000 which he capitalizes as an original complement of low cost equipment. The service life of the new building is estimated at 40 years and it is expected that the building will be operated as an office building for its entire life. It is expected that the furniture and fixtures will have an average life of 12 years and will have a minimal residual value upon disposition. Contractor should depreciate half of the capitalized cost of the original complement over six years. Replenishments to the original complement may be expensed as acquired.

(2) At the beginning of the 15th year of use of the complement, the contractor decides to replace the total complement in that cost accounting period. The net book value of the original complement should be adjusted to actual residual value in that cost accounting period.

(f) A contractor acquires a test facility with an estimated physical life of ten years, to be used on contracts for a new program. The test facility was acquired for $5 million. It is expected that the program will be completed in six years and the test facility acquired will not be required for other products of the contractor. Although the facility will last ten years, the contractor may depreciate the equipment over six years. If the use of a six-year life for this asset would cause the average lives used for the asset guideline class to be shorter than the periods established under the rules in Appendix A, the contracting parties may agree that the asset is to be treated separately for the test of guideline lives.

(g) Contractor acquires a building by donation from its local Government. The building had been purchased new by another company and subsequently acquired by the local Government. Contractor capitalizes the building at its fair value. Under this Standard the depreciable cost of the asset based on that value, if otherwise allowable, may be accounted for over its estimated service life and allocated to cost objectives in accordance with the contractor's cost allocation practices.

(h) A contractor accounts for two groups of assets subject to this Standard. This illustration describes the average estimated service life that shall be used to determine the cost accounting periods to which the depreciation cost will be assigned for contract costing purpose.

[In years]

	Average service lives	
	Group A	Group B
Estimated service life for financial accounting purposes	12	12
Estimated service life for income tax purposes using the lower limit of the asset depreciation range	8	12
Asset guideline periods under Appendix A	10	15
The life which must be used for contract costing in compliance with § 409.50(d)(1)	[1] 12	[2] 15

---

[1] Unless such life reflects an unrealistic expectation of actual service life.

[2] Unless contractor can support a shorter service life.

§ 409.70 Exemptions.

None for this standard.

§ 409.80 Effective date.

(a) The effective date of this Cost Accounting Standard is [Reserved].

(b) This Cost Accounting Standard shall be followed by each contractor for all assets acquired on or after the start of his next fiscal year beginning after the receipt of a contract to which this Cost Accounting Standard is applicable.

APPENDIX

Asset guideline classes and periods

Asset guideline class	Description of assets included	Asset guideline period (in years)
00.0	Depreciable assets used in all business activities, except as noted:	
00.1	Office furniture, fixtures, machines, and equipment: Includes furniture and fixtures which are not a structural component of the building, and machines and equipment used in the preparation of papers or data. Includes such assets as desks, files, safes, typewriters, accounting, calculating and data processing machines, communications, duplicating and copying equipment	10
00.2	Transportation equipment:	
00.21	Aircraft (airframes and engines) except aircraft of air transport companies	6
00.22	Automobiles, taxis	3
00.23	Buses	9
00.24	General purpose trucks, including concrete ready-mix trucks and ore trucks for use over-the-road:	
00.241	Light (actual unloaded weight less than 13,000 lb)	4
00.242	Heavy (actual unloaded weight 13,000 lb or more)	6
00.25	Railroad cars and locomotives, except those owned by railroad transportation companies	15
00.26	Tractor units used over-the-road	4
00.27	Trailers and trailer-mounted containers	6
00.28	Vessels, barges, tugs and similar water transportation equipment, except those used in marine contract construction	18
01.0-79.0	Depreciable assets used in the following activities:	
01.0	Agriculture: Includes only such assets as are identified below and that are used in the production of crops or plants, vines and trees (including forestry); the keeping, grazing, or feeding of livestock for animal products (including serums), for animals increase, or value increase; the operation of dry lot or farm dairies, nurseries, greenhouses, sod farms, mushroom cellars, cranberry bogs, apiaries, and fur farms; the production of bulb, flower, and vegetable seed crops; and the performance of agricultural, animal husbandry and horticultural services.	
01.1	Machinery and equipment, including grain bins and fences but no other land improvements	10
01.2	Animals:	
01.21	Cattle, breeding or dairy	7
01.22	Horses, breeding or work	10
01.23	Hogs, breeding	3
01.24	Sheep and goats, breeding	5
01.3	Farm buildings[1]	25
10.0	Mining: Includes assets used in the mining and quarrying of metallic and nonmetallic minerals (including sand, gravel, stone, and clay) and the milling beneficiation and other primary preparation of such materials	10
13.0	Petroleum and natural gas production and related activities:	

Asset guideline classes and periods—Continued

Asset guideline class	Description of assets included	Asset guideline period (in years)
13.1	Drilling of oil and gas wells: Includes assets used in the drilling of oil and gas wells on a contract, fee or other basis and the provision of geophysical and other exploration services; and the provision of such oil and gas field services as chemical treatment, plugging and abandoning of wells and cementing or perforating well casings; but not including assets used in the performance of any of these activities and services by integrated petroleum and natural gas producers for their own account	6
13.2	Exploration for petroleum and natural gas deposits: Includes assets used for drilling of wells and production of petroleum and natural gas, including gathering pipelines and related storage facilities,[1] when these are related activities undertaken by petroleum and natural gas producers	14
13.3	Petroleum refining: Includes assets used for the distillation, fractionation, and catalytic cracking of crude petroleum into gasoline and its other components	16
13.4	Marketing of petroleum and petroleum products: Includes assets used in marketing, such as related storage facilities and complete service stations,[1] but not including any of these facilities related to petroleum and natural gas trunk pipelines	16
15.0	Contract Construction: Includes such assets used by general building, special trade, heavy construction and marine contractors; does not include assets used by companies in performing construction services on their own account.	
15.1	Contract construction other than marine	5
15.2	Marine contract construction	12
20.0	Manufacture of foods and beverages for human consumption, and certain related products, such as manufactured ice, chewing gum, vegetable and animal fats and oils, and prepared feeds for animals and fowls:	
20.1	Grain and grain mill products: Includes assets used in the production of flours, cereals, livestock feeds, and other grain and grain mill products	17
20.2	Sugar and sugar products: Includes assets used in the production of raw sugar, syrup or finished sugar from sugar cane or sugar beets	18
20.3	Vegetable oils and vegetable oil products: Includes assets used in the production of oil from vegetable materials and the manufacture of related vegetable oil products	18
20.4	All other food and kindred products: Includes assets used in the production of foods, beverages and related production not included in classes 20.1, 20.2, and 20.3	12
21.0	Manufacture of tobacco and tobacco products: Includes assets used in the production of cigarettes, cigars, smoking and chewing tobacco, snuff and other tobacco products	15
22.0	Manufacture of textile mill products:	
22.1	Knitwear and knit products: Includes assets used in the production of knit apparel and other finished articles from yarn	9
22.2	Textile mill products, except knitwear: Includes assets used in the production of spun, woven or processed yarns and fabrics; of mattresses, carpets, rugs, pads, and sheets, and of other products of natural or synthetic fibers	14
22.3	Finishing and dyeing: Includes assets used in the finishing and dyeing of natural and synthetic fibers, yarns, and fabric and knit apparel	12
23.0	Manufacture of apparel and other finished products: Includes assets used in the production of clothing and fabricate textile products by the cutting and sewing of woven fabrics, other textile products and furs; but does not include assets used in the manufacture of apparel from rubber and leather	9
24.0	Manufacture of lumber and wood products:	
24.1	Cutting of timber: Includes logging machinery and equipment and road building equipment used by logging and sawmill operators and pulp manufacturers on their own account	6
24.2	Sawing of dimensional stock from logs: Includes machinery and equipment installed in permanent or well-established sawmills	10
24.3	Sawing of dimensional stock from logs: Includes machinery and equipment installed in sawmills characterized by temporary foundations and a lack, or minimum amount, of lumber-handling, drying, and residue-disposal equipment and facilities	6
24.4	Manufacture of lumber, wood products and furniture; Includes assets used in the production of plywood, hardboard, flooring, veneers, furniture and other wood products, including the treatment of poles and timber	10
26.0	Manufacture of paper and allied products:	
26.1	Manufacture of pulps from wood and other cellulose fibers and rags: Includes assets used in the manufacture of paper and paperboard, but does not include the assets used in pulpwood logging nor the manufacture of hardboard	16
26.2	Manufacture of paper and paperboard: Includes assets used in the production of converted products such as paper coated off the paper machine, paper bags, paper boxes, and envelopes	12
27.0	Printing, publishing and allied industries: includes assets used in printing by one or more of the common processes, such as letterpress, lithography, gravure, or screen; the performance of services for the printing trade, such as book binding, typesetting, engraving, photoengraving, and electrotyping; and the publication of newspapers, books, and periodicals, whether or not carried out in conjunction with printing	11
28.0	Manufacture of chemicals and allied products: Includes assets used in the manufacture of basic chemicals such as acids, alkalines, salts, and organic and inorganic chemicals; chemical products to be used in further manufacture, such as synthetic fibers and plastics materials, including petro-chemical processing beyond that which is ordinarily a part of petroleum refining; and finished chemical products, such as pharmaceuticals, cosmetics, soaps, fertilizers, paints and varnishes, explosives, and compressed and liquified gases. Does not include assets used in the manufacture of finished rubber and plastic products or in the production of natural gas products, butane, propane, and by-products of natural gas production plants	11
30.0	Manufacture of rubber and plastics products:	
30.1	Manufacture of rubber products: Includes assets used for the production of products from natural, synthetic, or reclaimed rubber, gutta percha, balata, or gutta siak, such as tires, tubes, rubber footwear, mechanical rubber goods, heels and soles, flooring, and rubber sundries; and in the recapping, retreading, and rebuilding of tires	14
30.2	Manufacture of miscellaneous finished plastics products: Includes assets used in the manufacture of plastics products and the molding of primary plastics for the trade. Does not include assets used in the manufacture of basic plastics materials nor the manufacture of phonograph records	11
31.0	Manufactura of leather: Includes assets used in the tanning, currying, and finishing of hides and skins; the processing of fur pelts; and the manufacture of finished leather products, such as footwear, belting, apparel, luggage and similar leather goods	11
32.0	Manufacture of stone, clay, glass, and concrete products:	
32.1	Manufacture of glass products: Includes assets used in the production of flat, blown, or pressed products of glass, such as plate safety and window glass, glass containers, glassware and fiberglass. Does not include assets used in the manufacture of lenses	14
32.2	Manufacture of cement: Includes assets used in the production of cement, but does not include any assets used in the manufacture of concrete and concrete products nor in any mining or extraction process	20

V39—113—JUN 11 74 XUM

Asset guideline classes and periods—Continued

Asset guideline class	Description of assets included	Asset guideline period (in years)
32.3	Manufacture of other stone and clay products: Includes assets used in the manufacture of products from materials in the form of clay and stone, such as brick, tile and pipe; pottery and related products, such as vitreous-china, plumbing fixtures, earthenware and ceramic insulating materials; and also includes assets used in manufacture of concrete and concrete products. Does not include assets used in any mining or extraction processes	15
33.0	Manufacture of primary metals: Includes assets used in the smelting and refining of ferrous and nonferrous metals from ore, pig, or scrap, the rolling, drawing, and alloying of ferrous and nonferrous metals; the manufacture of castings, forgings, and other basic products of ferrous and nonferrous metals; and the manufacture of nails, spikes, structural shapes, tubing, and wire and cable:	
33.1	Ferrous metals	18
33.2	Nonferrous metals	14
34.0	Manufacture of fabricated metal products: Includes assets used in the production of metal cans, tinware, nonelectric heating apparatus, fabricated structural metal products, metal stampings and other ferrous and nonferrous metal and wire products not elsewhere classified	12
35.0	Manufacture of machinery, except electrical and transportation equipment:	
35.1	Manufacture of metalworking machinery: Includes assets used in the production of metal cutting and forming machines, special dies, tools, jigs, and fixtures, and machine tool accessories	12
35.2	Manufacture of other machines: Includes assets used in the production of such machinery as engines and turbines; farm machinery, construction, and mining machinery; general and special industrial machines including office machines and nonelectronic computing equipment; miscellaneous machines except electrical equipment and transportation equipment	12
36.0	Manufacture of electrical machinery, equipment, and supplies: Includes assets used in the production of machinery, apparatus, and supplies for the generation, storage, transmission, transformation, and utilization of electrical energy:	
36.1	Manufacture of electrical equipment: Includes assets used in the production of such machinery as electric test and distributing equipment, electrical industrial apparatus, household appliances, electric lighting and wiring equipment; electronic components and accessories, phonograph records, storage batteries and ignition systems	12
36.2	Manufacture of electronic products: Includes assets used in the production of electronic detection, guidance, control, radiation, computation, test and navigation equipment and the components thereof. Does not include the assets of manufacturers engaged only in the purchase and assembly of components	8
37.0	Manufacture of transportation equipment: includes assets used in the production of such machinery as vehicles and equipment for the transportation of passengers and cargo:	
37.1	Manufacture of motor vehicles and parts: Includes assets used in the production of automobiles, trucks, trailers, buses and their component parts	12
37.2	Manufacture of aerospace products: includes assets used in the production of aircraft, spacecraft, rockets, missiles and their component parts	8
37.3	Ship and boat building: Includes assets used in the manufacture and repair of ships and boats, but excludes dry docks	12
37.4	Manufacture of railroad transportation equipment: Includes assets used in the building and rebuilding of railroad locomotives, railroad cars, and street railway cars	12
38.0	Manufacture of professional, scientific, and controlling instruments; photographic and optical goods; watches and clocks: Includes assets used in the manufacture of mechanical measuring, engineering, laboratory and scientific research instruments; optical instruments and lenses; surgical, medical and dental instruments, equipment and supplies; ophthalmic goods, photographic equipment and supplies; and watches and clocks	12
39.0	Manufacture of products not elsewhere classified: Includes assets used in the production of jewelry; musical instruments; toys and sporting goods; pens, pencils, office and art supplies. Also includes assets used in production of motion picture and television films and tapes; as waste reduction plants; and in the ginning of cotton	12
40.0	Railroad transportation: includes the assets identified below and which are used in the commercial and contract carrying of passengers and freight by rail. Excludes any nondepreciable assets included in Interstate Commerce Commission accounts enumerated for this class:	
40.1	Railroad machinery and equipment	14
	Includes assets classified in the following Interstate Commerce Commission accounts: [1]	
	Road accounts:	
	(16) Station and office buildings (freight handling machinery and equipment only)	
	(26) Communication systems	
	(27) Signals and interlockers	
	(37) Roadway machines	
	(44) Shop machinery	
	Equipment accounts:	
	(52) Locomotives	
	(53) Freight train cars	
	(54) Passenger train cars	
	(55) Highway revenue equipment	
	(57) Work equipment	
40.2	Railroad structures and similar improvements	30
	Includes assets classified in the following Interstate Commerce Commission road accounts: [1]	
	(6) Bridges, trestles, and culverts	
	(7) Elevated structure	
	(13) Fences, snowsheds, and signs	
	(16) Station and office buildings (stations and other operating structures only)	
	(17) Roadway buildings	
	(18) Water stations	
	(19) Fuel stations	
	(20) Shops and enginehouses	
	(31) Power transmission systems	
	(35) Miscellaneous structures	
	(39) Public improvements construction	
40.3	Railroad wharves and docks [1]	20
	(23) Wharves and docks	
	(24) Coal and ore wharves	
40.5	Railroad powerplant and equipment:	
	Electric generating equipment:	
40.51	Hydraulic	50
40.52	Nuclear	20

Asset guideline classes and periods—Continued

Asset guideline class	Description of assets included	Asset guideline period (in years)
40.53	Steam	28
40.54	Steam, compressed air, and other powerplant equipment	28
41.0	Motor transport—passengers: Includes assets used in the urban and interurban commercial and contract carrying of passengers by road, except the transportation assets included in class 00.2 above	8
42.0	Motor transport—freight: Includes assets used in the commercial and contract carrying of freight by road, except the transportation assets included in class 00.2 above	8
44.0	Water transportation: Includes assets used in the commercial and contract carrying of freight and passengers by water except the transportation assets included in class 00.2 above	20
45.0	Air transport: Includes assets used in the commercial and contract carrying of passengers and freight by air	6
46.0	Pipeline transportation: Includes assets used in the private, commercial, and contract carrying of petroleum, gas, and other products by means of pipes and conveyors. The trunklines and related storage facilities of integrated petroleum and natural gas producers are included in this class [1]	22
48.0	Communication: Includes assets used in the furnishing of point-to-point communication services by wire or radio, whether intended to be received aurally or visually; and radio broadcasting and television:	
48.1	Telephone: Includes the assets identified below and which are used in the provision of commercial and contract telephonic services:	
48.11	Central office buildings: Special purpose structures intended to house central office equipment and which are classified in Federal Communications Commission Account No. 212 [1]	45
48.12	Central office equipment: Includes central office switching and related equipment classified in Federal Communications Commission Account No. 221	20
48.13	Station equipment: Includes such station apparatus and connections as teletypewriters, telephones, booths, and private exchanges as are classified in Federal Communications Commission Account Nos. 231, 232, and 234	10
48.14	Distribution plant: Includes such assets as pole lines, cable, aerial wire and underground conduits as are classified in Federal Communications Commission Account Nos. 241, 242.1, 242.2, 242.3, 242.4, 243, and 244	35
48.2	Radio and television broadcasting	6
49.0	Electric, gas, and sanitary services:	
49.1	Electric utilities: Includes assets used in the production, transmission and distribution of electricity for sale, including related land improvements,[1] and identified as:	
49.11	Hydraulic production plant: Includes dams, flumes, canals and waterways. Also includes jet engines and other internal combustion engines used to operate auxiliary facilities for load shaving purposes or in case of emergencies	50
49.12	Nuclear production plant: Includes et engines and other internal combustion engines used to operate auxiliary facilities for load shaving purposes or in case of emergencies	20
49.13	Steam production plant: Includes jet engines and other internal combustion engines used to operate auxiliary facilities for load shaving purposes or in case of emergencies	28
49.14	Transmission and distribution facilities	30
49.2	Gas utilities: Includes assets used in the production, transmission, and distribution of natural and manufactured gas for sale, including related land improvements [1] and identified as:	
49.21	Distribution facilities: Including gas water heaters and gas conversion equipment installed by utility on customers' premises on a rental basis	35
49.22	Manufactured gas production plant	30
49.23	Natural gas production plant	14
49.24	Trunk pipelines and related storage facilities	22
49.3	Water utilities: Includes assets used in the gathering, treatment, and commercial distribution of water	50
49.4	Central steam production and distribution: Includes assets used in the production and distribution of steam for sale	28
50.0	Wholesale and retail trade: Includes assets used in carrying out the activities of purchasing, assembling, storing, sorting, grading, and selling of goods at both the wholesale and retail level. Also includes assets used in such activities as the operation of restaurants, cafes, coin-operated dispensing machines, and in brokerage of scrap metal	10
70.0	Services: Includes assets used in the provision of personal services such as those offered by hotels and motels, laundry and dry cleaning establishments, beauty and barber shops, photographic studios and mortuaries. Includes assets used in the provision of professional services such as those offered by doctors, dentists, lawyers, accountants, architects, engineers, and veterinarians. Includes assets used in the provision of repair and maintenance services. Includes equipment or facilities used by cemetery organizations, news agencies, teletype wire services, plumbing contractors, frozen food lockers, research laboratories, hotels, and motels (except office furniture and fixtures)	10
79.0	Recreation and amusement: Includes assets used in the provision of amusement or entertainment services on payment of a fee or admission charge, as in the operation of bowling alleys, billiard and pool establishments, theaters, concert halls, amusement parks, and miniature golf courses. Does not include such assets which consist primarily of specialized land improvements or structures, such as golf courses, sports stadia, racetracks, ski slopes, or buildings which house bowling alleys	10

---

[1] Includes only property which is "eligible property" as defined in section 1.167(a)-11(b)(2) of the Income Tax Regulations, such as certain special-purpose structures and certain research and storage facilities (but not a building and its structural components).

ARTHUR SCHOENHAUT,
Executive Secretary.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

WASHINGTON AIR IMPLEMENTATION PLAN

Promulgation for Variances and Review of New Sources

On May 31, 1972, the Administrator of the Environmental Protection Agency approved, with certain exceptions, the Washington Air Implementation Plan. Soon thereafter the Natural Resources Defense Council, Inc. (NRDC) challenged the Administrator's approval of the State's variance and new source review procedures in the Ninth Circuit Court Court of Appeals (NRDC v. EPA, Docket No. 72-2147).

NRDC challenges that variance procedures, as developed and implemented by the Department of Ecology and the local air pollution control authorities pursuant to the Revised Code of Washington (RCW) 70.94.181, provide that sources may be granted variances without satisfying the postponement requirements of section 110(f) of the Clean Air Act. In companion cases brought by NRDC in the First, Second and Eighth Circuit Courts of Appeal the Courts determined that the Administrator should not have approved variance provisions in State implementation plans which defer compliance with applicable regulations past the statutory attainment dates for achieving the national ambient air quality standards. (A fourth case decided by the Fifth Circuit reached an even more restrictive result and would preclude EPA approval of variances during both the pre- and post-attainment date periods. The Agency has requested that this case be appealed.) On February 1, 1974, in an attempt to resolve this issue, EPA, under the authority of section 110(c) of the Clean Air Act, issued a 60-day notice to the Department of Ecology requesting that it revise the Washington implementation plan procedures for the granting of variances in a manner consistent with the results reached by the First, Second and Eighth Circuit Courts of Appeal.

NRDC's other contentions in this case relate to the State's new source review procedure. On brief, NRDC contends that the Department of Ecology's and the local agency new source review procedures contained in the State implementation plan are not in strict conformance with Section 110 of the Clean Air Act or the regulations contained in 40 CFR 51.18.

On September 10, 1973, the Department of Ecology submitted statutory changes and regulatory revisions to Sec-

V 39—113 JUN 11 74 XUM

tions 18-04-100 and 18-04-110 of the Washington Administrative Code (WAC) which resolve most of the issues raised by NRDC. The revised Department of Ecology regulations specifically provide for review of sources to which new source performance standards apply and require the Department to consider the location of a new source and the source's effect on all ambient air quality standards prior to granting approval to construct or modify a source. In addition, the requirement for preconstruction review by the Department within 30 days of receipt on an application has been replaced with more viable procedures. These revisions substantially correct provisions in the implementation plan which EPA now acknowledges should not have been approved as originally submitted.

However, this action by the State does not meet all of NRDC's contentions. Nor, in the estimation of EPA does the September 10 submission cure all the defects inherent in the original plan submission. NRDC contends that State implementation plan regulations allow conditions under which a source can be granted automatic approval of a notice of construction without review and that, within local jurisdictions, new source review procedures do not explicitly require the regulatory agency to review new stationary sources with respect to ambient air quality standards and geographical location. The Agency agrees with these contentions, and advised the State on February 1, 1974, that the plan should be revised to add four categories of sources (Kraft pulp mills, sulfite pulp mills, primary aluminum plants and sawmills) which are not in the list of sources required to register for preconstruction review. In addition, EPA requested that all new source review regulations of local air pollution control agencies contained in the plan which did not satisfy the requirements of section 110(a)(2)(D) and section 110(a)(4) of the Clean Air Act and 40 CFR 51.18 be revised. Accordingly, the Agency finds it necessary to disapprove the implementation plan insofar as those regulations remain inadequate.

NRDC raises several other issues pertaining to the new source review procedures. NRDC argues that RCW 70.94.331(6) does not provide for the enforcement of new source review procedures by the Department of Ecology where a local agency regulation is less stringent. EPA believes the purpose and intent of the air pollution control regulations of the Department of Ecology are to lay the foundation for air pollution control regulations in the entire State and that RCW 70.94.331(6) provides the necessary legal authority to the Department to establish the basic new source review procedure, as well as any other regulations relating to air pollution control. Therefore, EPA is satisfied that RCW 70.94.331(6) provides the Department with the authority to enforce its new source review procedure within a local jurisdiction whose procedure is less stringent than that of the Department of Ecology.

NRDC also contends that the use of the word "any" in the phrase "any ambient air quality standard" of WAC 18-04-110(6)(a) does not adequately refer to the national ambient air quality standards. EPA believes "any" refers to State air quality standards approved in the implementation plan which are at least as stringent as the national ambient air quality standards. Since EPA would not approve State revisions to air quality standards that are less stringent than the national standards, EPA believes NRDC's point is insubstantial.

Finally, NRDC believes that deferral of WAC 18-04 to RCW 80.58 for review of new thermal power plants constitutes a partial circumvention of the requirement to review new sources on the basis of the air pollution abatement considerations set forth in WAC 18-04. EPA concurs with NRDC on this issue.

In addition, EPA finds that all new source review procedures in the Washington implementation plan, as well as in the revised State regulations submitted on September 10, 1973, do not provide for a period of 30 days for public comment after receipt of a notice of construction of a new stationary source. EPA acknowledges that the anticipated adoption of an indirect source regulation by the Department of Ecology in the near future will remove this deficiency, at least in part.

EPA also finds that sawmills as a category of sources are omitted from the requirements to register in WAC 18-04-100 and thereby from new source review. It is conceivable that without prior review, emissions from new or modified sawmills could interfere with the attainment or maintenance of national ambient air quality standards in certain locations in the State of Washington.

Accordingly EPA herein proposes the following:

(1) Disapproval of the variance regulations in the Washington implementation plan.

(2) Disapproval of RCW 70.94.181, the State statute concerning variance,

(3) Disapproval of portions of new source review procedures in State and local agency regulations in the Washington implementation plan,

(4) Approval of portions and disapproval of other portions of the new source review provisions of WAC 18-04-100 and 110, as revised by the Department and submitted on September 10, 1973.

(5) Promulgation for those disapproved portions identified in items (1), (3), and (4), above.

The proposed disapproval and replacement of the variance procedures in the Washington Air Implementation Plan and the proposed disapproval and replacement of portions of the new source review procedures in the Plan, as well as approval of portions of WAC 18-04 submitted as revisions on September 10, 1973, should correct all deficiencies in the Plan cited by the Natural Resource Defense Council, Inc. in its case against the Environmental Protection Agency.

EPA encourages the adoption of consistent procedures for variances as well as new source review by both the State and local air pollution control agencies. EPA believes that the State regulations submitted on September 10, 1973, substantially cure deficiencies raised by NRDC and EPA and that local agency revisions should build upon the underlying foundation set forth by this State regulatory framework. In addition, since EPA's February 1 letter to the State mentioned neither thermal power plants, nor the Agency's 30-day comment period pursuant to 40 CFR 51.18(h), no final action will be taken with respect to these matters for 60-days, the notice period set forth in section 110(c)(3) of the Act. During this timeframe, it is hoped that the State will come forward with provisions curing the defects in these three areas.

Should the Department of Ecology, following publication of these regulations adopt identical or equivalent regulations, EPA will withdraw its proposed regulations. If the State submits acceptable amendments after EPA promulgation, these regulations will be rescinded.

Interested persons may participate in this rulemaking by submitting written comments, preferably in triplicate, to the Regional Administrator, Environmental Protection Agency, Region X, 1200 Sixth Avenue, Seattle, Washington 98101: Attention: J. Akins. Relevant comments received on or before July 11, 1974 will be considered, and will be available during normal hours at the Region X Office.

This notice of proposed rulemaking is issued under authority of section 110(a) of the Clean Air Act as amended (42 U.S.C. 1857c-5(a)).

Dated: June 5, 1974.

RUSSELL E. TRAIN,
Administrator.

It is proposed to amend Part 52 of the Chapter I, Title 40 of the Code of Federal Regulations as follows:

Subpart WW—Washington

1. Section 52.2475 is amended by adding paragraph (b) as follows:

§ 52.2475 Legal authority.

* * * * *

(b) Revised Code of Washington (RCW) 70.94.181 is disapproved to the extent that it permits granting of variances under the conditions cited in § 52.2480 of this chapter.

2. Subpart WW is amended by adding a new § 52.2480 as follows:

§ 52.2480 Variances.

(a) Washington Administrative Code (WAC) 18-04-150 of the Washington Department of Ecology Regulations and all portions of local agency regulations pertaining to the granting of variances are disapproved insofar as they permit the granting of variances beyond the dates required for attainment of the national standards, without the approval of the Administrator, and for reasons not permitted by the Clean Air Act.

(b) Regulation limiting variances:

(1) No variance from any requirement of the Washington implementation plan shall be granted unless the variance requires compliance with the applicable plan within the time specified in § 52.2478 of this chapter.

(2) A variance may defer compliance with an applicable plan requirement beyond the times set forth in § 52.2478 if:

(i) pursuant to section 110(e) of the Act, the attainment date of national ambient air quality primary standards, which is implemented by the applicable plan requirement, has been extended beyond July 31, 1975, and the source seeking a variance is one of the sources for which the extension has been granted, or

(ii) the conditions and procedures set forth in Section 110(f) of the Act are met.

(3) a variance shall not be effective until it has been submitted to and approved by the Administrator in accordance with §§ 51.6, 51.8, 51.15(b) and (c), and, if applicable, § 51.32 (a)-(e) of this chapter.

3. Section 52.2495 is amended by adding paragraphs (c)-(j) as follows:

§ 52.2495 Review of new sources and modifications.

* * * * *

(c) Washington Administrative Code (WAC) 18-04-100 and 18-04-110, as submitted on September 10, 1973, with the exception of paragraphs (d) through (f) of this section are approved.

(d) Washington Administrative Code (WAC) 18-04-100 of the Department of Ecology Regulations and portions of local agency regulations in the approved implementation plan are disapproved insofar as they do not require sawmills as a category of sources to which registration is required.

(e) Washington Administration Code (WAC) 18-04-110(4) of the Department of Ecology Regulations, as submitted to the Administrator on September 10, 1973, is disapproved insofar as the reference to RCW 80.58 constitutes a partial circumvention of the requirements of WAC 18-04 for new source review of thermal power plants.

(f) Washington Administrative Code (WAC) 18-04-110 of the Department of Ecology Regulations, as submitted to the Administrator on September 10, 1973, is disapproved insofar as it does not provide a 30-day period following receipt of a notice of construction prior to issuance of an approval/disapproval notice to allow for ppublic comment as required by § 51.4 of this Chapter.

(g) Washington Administrative Code (WAC) 18-36-080 (Kraft pulp mills), 18-38-090 (sulfite pulp mills), 18-52-070(3) (primary aluminum plants), and 18-04-110 (Notice of Construction) of the Department of Ecology Regulations in the State implementation plan, and all portions of local agency regulations in the State implementation plan pertaining to new source review, are disapproved insofar as they:

(1) Allow automatic approval of a notice of construction if an order to prevent the construction is not issued within 30 days.

(2) Do not require the reviewing agency to review new stationary sources to determine whether construction or modification will interfere with attainment or maintenance of the national ambient air quality standards.

(3) Do not provide a 30-day period between receipt of a notice of construction prior to issuance of an approval/disapproval notice to allow for public comment.

(h) All portions of local agency regulations in the applicable implementation plan pertaining to new source review are disapproved as they do not explicitly require the local agencies to review the location of new stationary sources.

(i) Regulation for the review of new and modified sources in selected source categories:

(1) This requirement is applicable to the construction or modification of stationary sources throughout the State in the following categories:

(i) Sulfite pulp mills
(ii) Kraft pulp mills
(iii) Primary aluminum plants
(iv) Sawmills
(v) Thermal power plants

(2) No owner or operator shall commence construction or modification of any stationary source after the effective date of this regulation without first obtaining approval from the Administrator of the location of such source.

(i) Application for approval to construct or modify shall be made on forms furnished by the Administrator, or by other means prescribed by the Administrator.

(ii) A separate application is required for each source.

(iii) Each application shall be signed by the applicant.

(iv) Each application shall be accompanied by site information, stack data and the nature and amount of emissions. Such information shall be sufficient to enable the Administrator to make any determination pursuant to paragraph (i)(3) of this section.

(v) Any additional information, plans, specification, evidence or documentation that the Administrator may require shall be furnished upon request.

(3) No approval to construct or modify will be granted unless the applicant shows to the satisfaction of the Administrator that the source will not prevent or interfere with attainment or maintenance of any national standard.

(4) The Administrator will act on an application within 60 days following completion of a 30-day public comment period and will notify the applicant in writing of his approval, conditional approval, or denial of the application. The Administrator will set forth his reasons for any denial.

(5) The Administrator may cancel an approval if the construction is not begun within 2 years from the date of issuance, or if during the construction, work is suspended for 1 year.

(6) Approval to construct or modify shall not relieve any person of the responsibility to comply with any local, State, or Federal regulation which is part of the applicable plan.

(j) Regulation providing for public comment:

(1) Prior to approval or disapproval of the construction or modification of a stationary source pursuant to WAC 18-04-110 of the Washington Department of Ecology Regulations or paragraph (i) of this section, the reviewing agency shall:

(i) Make preliminary determination whether the stationary source should be approved, approved with conditions, or disapproved.

(ii) Make available in at least one location in each region in which the proposed stationary source would be constructed, a copy of all materials submitted by the owner or operator, a copy of the reviewing agency's preliminary determination, and a copy or summary of other materials, if any, considered by the agency in making its preliminary determination; and

(iii) Notify the public, by prominent advertisement in a newspaper of general circulation in each region in which the proposed stationary source would be constructed, of the opportunity for written public comment on the information submitted by the owner or operator and the reviewing agency's preliminary determination on the approvability of the source.

(2) A copy of the notice required pursuant to this paragraph shall be sent to the Administrator through the appropriate regional office (for sources subject to WAC-18-04-110 of the Washington Department of Ecology Regulations); to all other State and local air pollution control agencies having jurisdiction in the region where the stationary source will be located; and to any other agency in the region having responsibility for implementing the procedures required under WAC-18-04-110 of the Washington Department of Ecology Regulations.

(3) Public comments submitted in writing within 30 days of the date such information is made available shall be considered by the reviewing agency in making its final decision on the application.

[FR Doc.74-13365 Filed 6-10-74;8:45 am]

[40 CFR Part 120]

NAVIGABLE WATERS OF TERRITORY OF GUAM

Proposed Water Quality Standards

The purpose of this notice is to propose regulations setting forth standards of water quality to be applicable to the navigable waters of the Territory of Guam, pursuant to section 303(b) of the Federal Water Pollution Control Act as amended (33 U.S.C. 1313(b)) (the Act). A notice announcing the intention of the Environmental Protection Agency to review all navigable water quality standards pursuant to the Act was published

V 39 113 JUN 11 74 XUM

in the FEDERAL REGISTER on December 29, 1972 (37 FR 28775–28780).

Under section 303(a) of the Act, the Administrator of the U.S. Environmental Protection Agency is required to review water quality standards for navigable waters adopted and submitted by the States (and Territories). When he determines that changes in such water quality standards are required to meet requirements of the Act as in effect prior to October 18, 1972 (the date of enactment of the 1972 Amendments of the Act, P.L. 92–500), he must notify the State. If the State does not adopt the required revisions or if the revisions submitted by the State do not meet the requirements of the Act, the Administrator may publish proposed revised water quality standards in accordance with such requirements.

The Territory of Guam prior to October 18, 1972 adopted water quality standards for both interstate waters and intrastate waters. After the enactment of the 1972 Amendments, EPA reviewed both the interstate and intrastate water quality standards pursuant to section 303(a) of the Act. On January 18, 1973 the Regional Administrator notified the Governor of Guam that certain revisions to the interstate water quality standards of Guam were necessary to make the standards consistent with the applicable requirements of the Act. On March 12, 1973 a similar notification was made for intrastate water quality standards.

Guam was required to classify all waters in compliance with the national policy that requires all waters to be protected for recreational uses and for the support and propagation of aquatic life. Several of their port and harbor areas are deficient in their use classification; therefore, it is proposed to extend protection of these beneficial uses throughout Guam's waters.

Numerical limitations on toxic substances were required. A general toxicity standard based on an acute bioassay test is proposed to fulfill this need.

In order to clarify the nomenclature in the Standards of Water Quality for Waters of the Territory of Guam, April 1968, terminology corrections are also proposed.

Guam has not adopted revised interstate and intrastate water quality standards in response to EPA's request as required by the Act. Accordingly, pursuant to section 303(b)(1), EPA is now proposing regulations setting forth standards required to comply with the Act as in effect prior to October 18, 1972.

Section 303(b)(2) of the Act requires the Administrator to promulgate water quality standards no later than 190 days after the date of publication of this notice, unless by such time the State shall have adopted water quality standards which the Administrator determines to be in accordance with the requirements of section 303(a) of the Act. However, the Administrator is not required to await State action for the entire 190-day period prior to promulgation. Thus, the standards may be promulgated by the Administrator at any time following the expiration of time for public comment.

Except as provided in the attached proposed regulations, the interstate and intrastate standards previously adopted by the Territory of Guam are the effective water quality standards under Section 303 of the Act for interstate and intrastate waters within the Territory. Where the proposed regulations set forth below are inconsistent with the referenced standards, these regulations, if promulgated, will supersede such standards to the extent of the inconsistency.

The standards document is available for inspection and copying at the Guam Environmental Protection Agency, Public Health and Social Services Department, Mangilao, Guam 96910 and the EPA Regional Office, 100 California Street, San Francisco, California 94111. EPA's information regulations, 40 CFR Part 2, provide that a fee may be charged for making copies.

Interested persons may submit written data, views, or arguments, in triplicate in regard to the proposed regulations to the Regional Administrator, EPA, 100 California Street, San Francisco, California 94111. All relevant material received on or before September 9, 1974, will be considered.

In consideration of the foregoing, it is hereby proposed that 40 CFR Part 120 be amended as set forth below.

The proposed new part would be effective immediately upon republication.

(Sec. 303(b), Pub. L. 92–500, 86 Stat. 816 (33 U.S.C. 1313(b)))

Dated: June 4, 1974.

JOHN QUARLES,
Acting Administrator.

§ 120.10 [Amended]

1. In § 120.10 the paragraph entitled "Territory of Guam" is deleted.

2. A new § 120.19 is added as follows:

§ 120.19 **Guam water quality standards.**

Water quality standards included in the document entitled "Standards of Water Quality for Waters of the Territory of Guam, April 1968," are the approved water quality standards for the Territory of Guam, except as amended as follows:

(a) For clarification purposes, corrected terminology shall be read into the Standards as follows:

(1) References to "the Department of Interior" and "the Federal Water Pollution Control Administration" will be taken to mean "the Environmental Protection Agency."

(2) References to "the Secretary" or "the Secretary of Interior" will be taken to mean "the Administrator of the Environmental Protection Agency."

(3) References to the "Water Pollution Control Commission" or "the Commission" will be taken to mean, as appropriate, "the Guam Environmental Protection Agency" or "the Guam Environmental Protection Board."

(4) References to State and Federal laws will be replaced by references to current equivalent laws.

(b) The first two paragraphs of *"WATER USES,* Identification of waters and beneficial uses:"

(1) "Near-shore coastal waters." (pp. 9 and 10 of the Guam standards), shall be replaced with the following paragraph:

All near-shore coastal waters shall be protected for the present and future uses of industrial water supply, propagation of fish and other aquatic life and wildlife (including waters reserved for conservation of native marine biota, shellfish propagation, and commercial and sports fishing), esthetic enjoyment, and recreation. The following near-shore water will also be protected for uses of navigation in addition to uses listed above: Pago Bay, Talafofo Bay, Agfayan Bay, Manell and Mamaon Channels, Port Emnzo (Merizo), Umatac Bay, Outer Apra Harbor, Agana Small Craft Harbor, Inner Apra Harbor and the areas immediately adjacent to docks, piers, wharves, and loading facilities of the new Apra commercial docks, oil and ammunition docks, and Piti channel.

(c) The following provision shall be added to *"STANDARDS FOR WATER QUALITY, Additional Requirements"* (p. 9 of the Guam standards):

5. In all the waters of the territory at all times, toxic substances shall be kept below levels which are deleterious to human, animal, plant or aquatic life, or in amounts sufficient to interfere with the beneficial uses of the water. The presence of toxic substances in a water shal be evaulated by use of a 96-hour bioassay, guided by the document "Standard Methods for the Examination of Water and Wastewater", 13th edition. The survival of the test organisms shall not be less than that in controls which utilize appropriate experimental water. Experimental water shall be obtained from a nearby location having water quality representative of natural conditions at the test location, or other appropriate experimental water defined by the Terirtory and concurred in by EPA. Failure to detemine presence of toxic substances by this method shall not preclude determination of excessive levels of toxic substances on the basis of other criteria or methods.

DEPARTMENT OF DEFENSE

Department of the Air Force

PROPOSED F–15 BEDDOWN AT LUKE AIR FORCE BASE, ARIZ.

Notice of Public Hearing

JUNE 7, 1974.

Notice is hereby given that in accordance with the National Environmental Policy Act (42 U.S.C. 4321), the United States Air Force will conduct an informal public hearing in Phoenix, Arizona on the F–15 Beddown at Luke Air Force Base, Arizona. The informal hearings are scheduled to begin at 9 a.m., June 17, 1974, in the Maricopa County Board of Supervisors' Auditorium, 205 West Jefferson, Phoenix, Arizona.

The draft environmental statement on the R–15 Beddown at Luke Air Force Base discusses the proposal to locate the first squadron of F–15 fighter aircraft at Luke Air Force Base. The purpose of this action is to provide combat crew training in the F–15 in terms of operation and weapon systems delivery. As the F–15 move in, F–4 and F–104 aircraft will be phased out of the base. The overall number of jet aircraft and personnel will remain essentially the same.

Copies of the draft environmental statement have been made available to libraries in Sun City, Avondale, Litchfield Park, Phoenix and Glendale for review. Also the Chamber of Commerce of Avondale, Goodyear, Litchfield Park, Phoenix and Glendale have copies for review. Copies may be obtained from Headquarters USAF, Directorate of Civil Engineering, Environmental Protection Group (PREV), Washington, D.C. 20330.

Since notice of availability was published in the FEDERAL REGISTER (39 FR 15904, May 6, 1974) and copies were made available in the locality affected, the notice of this hearing is considered reasonable under 44 U.S.C. 1508 and further delay in the date of the hearing would serve no useful purpose.

Persons desiring to participate in the hearings are asked to submit a request in writing to the Office of Information, Luke Air Force Base, Arizona 85308, or by calling 602–935–7411, extension 2011.

WALTER G. FENERTY,
Acting Chief, Legislative Division, Office of The Judge Advocate General.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

LEWIS K. AMBROSE

Statement of Financial Interest

OCTOBER 4, 1973.

Pursuant to section 302(a) of Executive Order 10647, the following information on a WOC appointee in the Department of the Interior is furnished for publication in the FEDERAL REGISTER:

NAME OF APPOINTEE

Lewis K. Ambrose.

NAME OF EMPLOYING AGENCY

Department of the Interior, Defense Electric Power Administration.

THE TITLE OF THE APPOINTEE'S POSITION

Deputy Director, Area 13.

THE NAME OF THE APPOINTEE'S PRIVATE EMPLOYER OR EMPLOYERS

City of Seattle, Dept. of Lighting.

The statement of "financial interests" for the above appointee is enclosed.

ROGERS C. B. MORTON,
Secretary of the Interior.

APPOINTEE'S STATEMENT OF FINANCIAL INTERESTS

In accordance with the requirements of section 302(b) of Executive Order 10647, I am filing the following statement for publication in the FEDERAL REGISTER:

(1) Names of any corporations of which I am, or had been within 60 days preceding my appointment, on October 4, 1973, as Deputy Director, Area 13, Defense Electric Power Administration, an officer or director: None.

(2) Names of any corporations in which I own, or did own within 60 days preceding my appointment, any stocks, bonds, or other financial interests:

Investor's Mutual Incorporated, 1,644.081 Shares.
Investor's Stock Fund Incorporated, 216.167 Shares.

(3) Names of any partnerships in which I am associated, or had been associated within 60 days preceding my appointment: None.

(4) Names of any other businesses which I own, or owned within 60 days preceding my appointment:

Rental property—Star Route No. 1, Belfair, Washington, Box 440 (Hood Canal-South Shore Road.)

L. K. AMBROSE.

OCTOBER 24, 1973.

SOUTH KAIBAB GRAZING ADVISORY BOARD

Notice of Meeting

The South Kaibab Grazing Advisory Board will meet at 1:00 p.m. July 12, 1974, in the Forest Supervisor's Office, 103 W. Bill Williams Avenue, Williams, Arizona.

V 39 — 113 JUN 11 74 XUM

The following items will be discussed:

1. Results of 1974 Advisory Board Election.
2. Election of Advisory Board Chairman.
3. Designation of date for 1974 field day.
4. Review Sycamore Management Plan.
5. Discussion of Havasupai—Rain Tank Use.
6. Presentation of powerline proposals.
7. Review Williams Planning Unit Land Use Plan.
8. Presentation on provisions and management implications of the Endangered and Threatened Species Conservation Act of 1973.

The meeting will be open to the public. Persons who wish to attend should notify the Forest Supervisor, Kaibab National Forest, P.O. Box 817, Williams, Arizona, telephone 635-4481. Written statements may be filed with the committee before or after the meeting.

Those attending may express their views when recognized by the Chairman.

Dated: June 3, 1974.

KEITH T. PFEFFERIE,
Forest Supervisor.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

EASTERN VIRGINIA MEDICAL SCHOOL AND UNIVERSITY OF WISCONSIN

Consolidated Decision on Applications for Duty-Free Entry of Ultramicrotomes

The following is a consolidated decision on applications for duty-free entry of ultramicrotomes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74-00328-33-46500. Applicant: Eastern Virginia Medical School, Department of Pathology, 358 Mowbray Arch, Norfolk, Va. 23507. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke AG, Austria. Intended use of article: The article is intended to be used for the examination of cells, tissues, and tissue cultures infected with viral agents; studies on the ultrastructural mechanisms of kidney disease, and a cytochemical determination of the mechanisms controlling amyloid deposition in duck tissues. The article will be used in an advanced course in electron microscopy which will enable medical students and medical personnel to become highly proficient in the techniques of ultramicrotomy. Application received by Commissioner of Customs: February 11, 1974. Advice submitted by the Department of Health, Education, and Welfare on: May 6, 1974.

Docket number 74-00313-33-46500. Applicant: University of Wisconsin, Department of Anatomy, 1255 Linden Drive, Bardeen Medical Laboratories, Madison, Wisconsin 53706. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke AG, Austria. Intended use of article: The article is intended to be used for studies of biological materials, chiefly tissue from the central nervous system of normal and experimental animals. The ultrastructural morphology of nerve cells and their processes will be investigated. The experiments are concerned with the development of neuronal connections in the visual system. Application received by Commissioner of Customs: February 1, 1974. Advice submitted by the Department of Health, Education, and Welfare on: May 6, 1974.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States. Reasons: Each of the foreign articles provides a range of cutting speeds from equal to or less than 0.5 millimeters/second (mm/sec) to equal to or greater than 10 mm/sec. The most closely comparable domestic instrument is the Model MT-2B ultramicrotome which is manufactured by Ivan Sorvall, Inc. (Sorvall). The Model MT-2B has a range of cutting speeds from 0.09 to 3.2 mm/sec. The conditions for obtaining high quality sections that are uniform in thickness depend to a large extent on the hardness, consistency, toughness and other properties of the specimen materials, the properties of the embedding materials and the geometry of the block. In connection with a prior application (Docket No. 69-00118-33-46500) which relates to the duty-free entry of an article in the category of instruments to which the foregoing applications relate, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting, (among such [other] obvious factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned." In connection with another prior case (Docket No. 69-00665-33-46500) relating to the duty-free entry of an article in the same category as those described above, HEW advised that "The range of cutting speeds and a capability for the higher cutting speeds is . . . a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with still another prior case (Docket No. 70-00077-33-46500) relating to the duty-free entry of an article similar to those described above, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness etc." requires a maximum range in cutting speed and, further, that "The production of ultrathin serial sections of specimens that have great variation in physical properties is very difficult." Acordingly, HEW advises in its respectively cited memoranda, that cutting speeds in excess of 4 mm/sec are pertinent to the satisfactory sectioning of the specimen materials and the relevant embedding materials that will be used by the applicants in their respective experiments.

For these reasons, we find that the Sorvall Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials.)

A. H. STUART,
Director,
Special Import Programs Division.

[FR Doc.74-13353 Filed 6-10-74;8:45 am]

METHODIST HOSPITAL OF INDIANA INC.

Consolidated Decision on Applications for Duty-Free Entry of EMI Scanner Systems

The following is a consolidated decision on applications for duty-free entry of EMI Scanner Systems pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74-00312-99-90000. Applicant: Methodist Hospital of Indiana, Inc., 1604 N. Capitol Avenue, Indianapolis, Indiana 46202. Article: EMI Scanner. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in a teaching program which will involve instruction in the use of the machine and the significance of the information generated. Research will be limited to nonformal clinical research, in particular, studies to determine whether or not and to what degree the article will render other studies redundant. Application received by Commissioner of Customs: January 28, 1974. Advice submitted by the Department of Health, Education, and Welfare on: May 6, 1974.

Docket number: 74-00315-33-90000. Applicant: Ralph K. Davies Medical Center, Castro & Duboce Streets, San Francisco, California 94114. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to investigate and diagnose a large variety of neurologic disorders, the most common of which are cerebral vascular accident (stroke) and brain tumors. The article will also be used in the instruction of students and residents in the natural history of cerebral vascular accidents and brain tumors, particularly where radiation therapy and/or chemotherapy is involved. Application received by commissioner of customs: January 31, 1974. Advice submitted by the department of Health, Education, and Welfare on: May 6, 1974.

Docket Number: 74-00319-33-90000. Applicant: University of California, San Francisco, 1438 South Tenth Street, Richmond, California 94804. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to obtain cross sectional pictures of the brain using noninvasive techniques. Patients with suspected brain abnormalities will be studied with the article and the findings will be correlated with those of the standard neuroradiologic and isotopic diagnostic techniques. This technique will be of educational value in teaching the anatomical details of the normal and abnormal brains in the transaxial tomographic mode. Application received by Commissioner of Customs: February 12, 1974. Advice submitted by the Department of Health, Education, and Welfare on: May 6, 1974.

Docket number: 74-00324-33-90000. Applicant: Broward General Medical Center, Neurological Sciences Building, Fort Lauderdale, Fla. 33316. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used in a computerized axial tomography study of patients with varied neurological diseases involving brain tissue. Such diseases as tumors, strokes and atrophic disorders will be studied. The objectives of this research will be to identify and store pertinent disease data for comparison and use with other patients to preserve and save lives. The article will also be available for study under supervision by neurological residents at the University of Miami Medical School to familiarize the student with usefulness of the equipment in neurology. Application received by Commissioner of Customs: February 7, 1974. Advice submitted by the Department of Health, Education, and Welfare on: May 6, 1974.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States. Reasons: Each foreign article is a newly developed system which is designed to provide precise transverse axial x-ray tomography. We find that the speed accuracy of each article is pertinent to the purposes for which each of the foreign articles cited above is intended to be used. The Department of Health, Education, and Welfare advised in its respectively cited memoranda that it knows of no domestic instrument of equivalent scientific value to any of the articles to which the foregoing applications relate for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

MIDLAND MACROMOLECULAR INSTITUTE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 202230.

Docket number: 73-00253-01-56030. Applicant: Midland Macromolecular Institute, a Division of the Michigan Foundation for Advanced Research, 1910 West St., Andres, Drive, Midland, MI 48646. Article: Molecular weight apparatus, Model 117. Manufacturer: Nissei-Sangyo Co., Ltd., Japan. Intended use of article: The article is intended to be used to make measurements of solutions of various concentrations at various temperatures during studies to obtain a better understanding of properties of high molecular weight compounds and detergents. Specifically, in the high molecular weight compound study to investigate how the solution behavior influences film and fiber formation from solution and in the detergent study to investigate the solubilization of different compounds.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reason: The foreign article can measure molecular weights of at least 10^5. The most closely comparable domestic instrument, the Model 300 series manufactured by Mechrolab, does not measure molecular weights above the order of 2×10^4. The National Bureau of Standards (NBS) advised in its memorandum dated May 7, 1974 that the capability to measure molecular weights of at least 10^6 is pertinent to the applicant's intended research. NBS also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended use.

M.I.T. HAYSTACK OBSERVATORY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 2023.

Docket number: 74-00219-00-41200. Applicant: M.I.T. Haystack Observatory, E18-360, Cambridge, MA 02139. Article: Varian CW Klystron VRE-2102A49. Manufacturer: Varian Associates of Canada, Ltd., Canada. Intended use of article: The article is intended to be used as a component part of a K-band maser microwave radiometric receiver used at a radio radar observatory engaged in radio spectral line studies.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is to be used as a compatible component to a microwave receiver. The article provides the capability of at least 500 milliwatts output at frequencies above 50 gigahertz. The National Bureau of Standards (NBS) advised in its memorandum dated May 6, 1974 that the capability described above is pertinent to the purposes for which the article is intended to be used. NBS also advised that it knows of no domestic instrument or apparatus of equivalent scientific value to the foreign article for the applicant's intended use.

STANFORD UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an appliction for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 73–00479–00–77040. Applicant: Stanford University, 330 Bonair Siding Road, Stanford, Calif. 94305. Article: Fast adiabatic passage RF transition unit. Manufacturer: Auckland Nuclear Accessory Co., Ltd., New Zealand. Intended use of article: The article is to be a component on the Stanford polarized ion source and will be used to study "spin-dependent" effects of nuclear forces and properties of nuclear states. The article will also be used for education of graduate students in physics.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to a compatible accessory for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used and is pertinent to the applicant's purposes.

The Department of Commerce knows of no similar accessory being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

STATE UNIVERSITY OF NEW YORK AT BUFFALO

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74–00316–00–46070. Applicant: State University of New York at Buffalo, 3435 Main Street, Buffalo, New York 14214. Article: Accessories to JSM U3 Scanning Electron Microscope Anti-Contamination Device, Solid Pair Detector and Specimen Heating Device. Manufacturer: JEOL Ltd., Japan. Intended use of article: The articles are accessories to an existing scanning electron microscope being used for research and instructional functions on the campus in engineering and in biological sciences. Specific applications of these accessories are as follows:

Anti-contamination Device—Prevents contamination of the specimens during electron bombardment.

Specimen heating device — Permits maintaining the temperature of the specimen under observation at elevated levels (up to 450° C) necessary to study many metallurgical phenomena that are thermally activated.

Solid Pair Detector—Separates the microscopic image into two images.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to compatible accessories for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used, and is pertinent to the applicant's purposes.

The Department of Commerce knows of no similar accessory being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

TRENTON STATE COLLEGE ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before July 1, 1974.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket number: 74–00469–33–46040. Applicant: Trenton State College, Department of Biology, Trenton, New Jersey 08625. Article: Electron Microscope, Model HS–9. Manufacturer: Hitachi Ltd., Japan. Intended use of article: The article is intended to be used as a teaching and research tool. A wide variety of biological tissues will be examined from many organisms including bacteria, algae, invertebrates and vertebrates. In most instances, tissues will be examined following embedding in plastic and thin sectioning. Usually the goal will be to elucidate the ultrastructural components of this tissue in question. In some instances, tissues may have been previously treated either *in vivo* or *in vitro* with experimental drugs or antibiotics. Application received by Commissioner of Customs: May 13, 1974.

Docket number: 74–00470–33–46040. Applicant: State University of New York, Health Sciences Center, Stony Brook, New York 11790. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for the following research projects:

(A) The physical structure of bacterial plasmids (such as the so-called sex factor F and the resistance factor R responsible for multiple resistance in *E. coli* K–12) will be derived from electron microscopic studies to determine the mapping of the functional sites and/or sequences involved in specialized recombination of such plasmids with bacterial chromosomes. These studies will lead to a basic undertanding of the general mechanisms of gain and loss of genetic material.

(B) The extent to which structural elements may direct the biological function of ribonucleic acids of mammalian viruses and cells will be determined. This research involves the sequence determination or defined segments of polio virus RNA according to established procedures. The results obtained by these studies will help in the understanding of the structure and function of host cell nucleic acids.

(C) A study of the uptake of vaccinia virus in mammalian cells will be undertaken as part of a study of the synthesis and transport of messenger-RNA by vaccinia virus. This research will involve the use of electron microscopy to characterize the mechanisms of viral uptake. This investigation into the molecular biology of animal virus replication undertakes to determine how animal viruses conduct and control their replication cycle and possibly will aid in understanding how the more complicated eukaryotic cell performs similar functions.

(D) Investigation into aspects of ribosome function and structure, such as particle surface structure, is the objective of another line of research. Current work involves a study of the binding of the antibiotics tetracycline and streptomycin to the ribosome. Electron microscopy shall be performed on native and modified particles to determine the nature of the structural changes. Such information will be instrumental in understanding the mechanism and regulation of protein synthesis.

(E) The absorption process of the bacteriophage P22 will be investigated using a variety of mutants of this phage and the electron microscope. This investigation will determine the function of the genes defined by the mutations, using electron microscopic studies and classical phage techniques. This research will provide basic information on the structure and function of the regulatory genes of P22.

(F) Research involving the special structural properties of circular DNA, single-stranded breaks in the molecule, and detailed analyses of the tertiary structure of DNA superhelices. The article will also be used in the following courses to teach students the methodology and techniques of using an electron microscope for visualization of extremely small cellular components, and how to extend the results of these techniques to the possible solution of research problems:

Research project in Microbiology
Experimental Microbiology
Graduate Research
Microbial structure and function
Introduction to Electron Microscopy
Advance Methodology in Electron Microscopy
Introduction to Ultrastructure
Problem Course in Electron Microscopy

Application received by Commissioner of Customs: May 13, 1974.

Docket Number: 74–00472–90–46040. Applicant: U.S. Environmental Protection Agency, National Water Quality Lab., 6201 Congdon Blvd., Duluth, Minnesota 55804. Article: Electron Microscope, Model JEM 100C with scanning attachment and accessories. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for the study of cellular ultrastructure in a wide variety of applications which include the following:

1. Fine particle analysis of asbestiform fibers in naturally occurring aquatic and biologic systems.

2. Study of macromolecular structure of purified proteins.

3. Fine particle analysis of naturally occurring materials in Western Lake Superior with respect to on-going physical studies involving water transport, red clay turbidity, light scattering properties of particles, and remote sensing studies.

4. Ultrastructure of naturally occurring indigenous aquatic species e.g., microbial populations, phytoplankton, zooplankton and benthic invertebrates.

5. Ultrastructure studies useful for classification and taxonomy of diatomaceous populations, phytoplankton groups and periphyton communities.

6. Studies on trace metal uptake from fine particles by indigenous biological species.

7. Studies of sedimentary pollen analysis with particular reference to ectexine substructure and diatom stratigraphy as a method of assay of eutrophication levels.

Application received by Commissioner of Customs: May 13, 1974.

Docket number: 74–00473–33–90000. Applicant: Delaware Valley Neurosurgical Association, C–111 Episcopal Hospital, Front Street and Lehigh Avenue, Philadelphia, Pa. 19125. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to noninvasively study the brain anatomy in cerebral neurological causes by computer assisted axial tomography. The article will also be used in training radiology, neurology, and neurosurgical residents. Application received by Commissioner of Customs: May 13, 1974.

Docket number: 74–00474–33–46040. Applicant: Veterans Administration Hospital, 4500 South Lancaster Road, Dallas, Texas 75216. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for high resolution studies of membrane architecture to understand the molecular organization of biological membranes and related structures in terms that will explain their cellular functions. Another area of study will relate to the behavior of cancer cells. Conventional thin section and freeze etching electron microscopy will be utilized in the study of islet cells, their membranes and subcellular components. The morphology of the islet cell membranes of the diabetic verses the nondiabetic islets of Langerhans will be studied in the hope of identifying the underlying defect which may well be morphologic. Other studies of hepatic lysosomal responses to islet cell hormones in diabetes and other catabolic disorders, as well as continuation of studies of capillary basement membrane thickening in diabetes will also be carried out by electron microscopy. Application received by Commissioner of Customs: May 14, 1974.

Docket number: 74–00475–33–46040. Applicant: State University of New York, Health Sciences Center, Stony Brook, New York 11790. Article: Electron Microscope, Model EM 201C with side entry goniometer stage. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for research in the following projects: Electron microscopic studies to determine the mapping of the functional sites and/or sequences involved in specialized recombination of bacterial plasmids (such as the so-called sex factor F and the resistance factor R responsible for multiple resistance in *E. coli* K–12) with bacterial chromosomes. The extent to which structural elements may direct the biological functions of ribonucleic acids of mammalian viruses and cells will be determined. This research involves the sequence determination of defined segments of polio virus RNA according to established procedures. The results obtained by these studies will help to understand the structure and function of host cell nucleic acids. A study of the uptake of vaccinia virus in mammalian cells will be undertaken as part of a study of the synthesis and transport of messenger-RNA by vaccinia virus. Investigation into aspects of ribosome function and structure, such as particle surface structure, is the objective of another line of research. Other research includes: (a) investigation of the absorption process of the bacteriophage P22 using a variety of mutants of this phage and the electron microscope and (b) an active line of research concerned with the structure and synthesis of the nucleic acids, especially the properties of the circular DNA's.

In addition the article will be used to teach the methodology and techniques of using an electron microscope for visualization of extremely small cellular components, and how to extend the results of these techniques to the possible solution of research problems. Application received by Commissioner of Customs: May 14, 1974.

Docket number: 74–00476–33–46500. Applicant: State University of New York, School of Basic Health Sciences, Health Sciences Center, Stony Brook, New York 11790. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used to obtain thin sections for high resolution electron microscopy in a variety of studies in smooth and striated muscle of both vertebrate and invertebrate specimens, ultrastructure of membrane and central nervous system and other cells and tissues. Investigations will involve specifically ultrastructure of frog iris, structural changes in shortening of striated muscle from horseshoe crab and other marine specimens, fine structure of mammalian spinal cord, morphology of a maternally transmitted infectious sex ratio organism in Drosophila, and anatomical organization of avian brain. Information obtained through research is incorporated into teaching material for medical, dental, nursing and allied health students as well as graduate and undergraduate research course work, whenever it can provide clarification or contribution of new data. In addition, postdoctoral fellows, graduate and undergraduate students in elective research projects are trained in techniques and applications of the instruments. Application received by Commissioner of Customs: May 15, 1974.

V 39 — 113 JUN 11 74 XUM

Docket Number: 74–00477–33–46500. Applicant: University of South Alabama, College of Medicine, Department of Anatomy, 307 Gaillard Drive, Mobile, Alabama 36688. Article: Ultramicrotome, Model LKB 8800A and accessories. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article will be used in studies of biological materials with applications of specialized techniques to exhibit normal and pathological structures, e.g., histochemistries and immunological labeling, at a subcellular level. Specimens for these studies will be from both human biopsies and experimental animals. Application received by Commissioner of Customs: May 15, 1974.

UNIVERSITY OF HAWAII

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74–00118–01–59400. Applicant: University of Hawaii, Chemistry Department, 2545 The Mall, Honolulu, Hawaii 96822. Article: Quantum Yield Photoreactor. Manufacturer: Applied Photophysics Ltd., United Kingdom. Intended use of article: The foreign article is intended to be used to study photochemistry of unsaturated organic hydrocarbons. Specifically, the efficiency of reaction at different temperatures (lower than room temperature) will be examined. It is intended to investigate usually thermally stabile but photochemically labile materials. The major type of reaction to be examined is geometric isomerization and the primary objective is to determine the energy barrier in photochemical reactions or other photophysical processes.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capability of operation at liquid-nitrogen temperatures. The most closely comparable domestic instrument is manufactured by the Moses Company (Moses). The Moses instrument does not provide a capability for operation at liquid-nitrogen temperatures. The National Bureau of Standards advised in its memorandum dated May 9, 1974 that the capability of operation at liquid-nitrogen temperatures is pertinent to the applicant's purposes. NBS also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended use.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before July 1, 1974.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the Federal Register, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket number: 74–00453–99–46040. Applicant: University of Pennsylvania, School of Veterinary Medicine, 3800 Spruce Street, Philadelphia, Pa. 19174. Article: Electron Microscope, Model EM 9S–2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used for teaching veterinary pathology to second year students and graduate veterinarians pursuing both resident training programs in pathology and doctoral training programs. The courses include the following:

(1) 5001 Pathology—concerned with those basic principles of cell and tissue reaction to disease and those aspects of systemic pathology believed necessary for a student planning a career in practice, teaching or research.

(2) 5401 Small Animal Pathology—presentation of the fundamentals of systematic pathology revelant to small animal practice involving the dog and cat.

(3) 5999 Independent Study and Research—Pathology, Small Animal Pathology.

(4) 606 Veterinary Pathology—involving variable routine and investigative work in general and special veterinary pathology.

All the courses are related to the study of disease and concern themselves with such aspects relevant to the etiology—cause and pathogenesis—mechanism and effects—morphology or structural changes of disease. The article will also be used for conventional training enabling students to learn and understand the techniques, and value of electron microscopy. Application received by Commissioner of Customs: May 7, 1974.

Docket number: 74–00461–33–46040 Applicant: Florida State University, Department of Biological Sciences, Tallahassee, Florida 32306. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments, The Netherlands. Intended use of article: The article is intended for the following research projects:

(1) The study of synaptogenesis in the developing nervous system of cephalopods.

(2) High resolution autoradiography for the study of the neurogenetic patterns in the olfactory system of frog and rat.

(3) Ultrastructural studies on the degenerative-regenerative patterns in the olfactory system of frog and rat.

(4) The comparative ultrastructural make up of the vertebrate olfactory mucosa.

(5) Interreceptor contacts in the olfactory mucosa of mammals.

(6) Study of sensory structures in Schistosome cicariae.

(7) Ultrastructural studies of degenerative patterns in the thalamic nuclei of cat.

(8) Morphology and ultrastructure of Bacillariophytes.

(9) Ultrastructural studies of axon membranes in different functional conditions.

(10) Chemical and electrical synaptic contacts in the taste buds of rat.

(11) Fine structure of the capitular filaments of the cöenocytic green alga *Penicillus capitatus;* Fine structural aspects of the development of juvenile plants in Penicillus capitatus; and Fine structure of the fungus-alga association in *Cladophora Fuliginosa.*

The article will also be used in the following teaching programs:

(1) Bio 339—Submicroscopic anatomy of vertebrates organs and tissues.

(2) Bio 406—Neurobiology.

(3) Bio 608—Advanced Neurology.

Application received by Commissioner of Customs: May 9, 1974.

Docket number: 74–00467–33–46040. Applicant: Mayo Foundation, 200 First Street Southwest, Rochester, Minnesota 55901. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments, The Netherlands. Intended use of article: The article is intended to be used for studies of biological materials consisting of human and experimental animal tissues, both normal and pathological; mammalian cells grown in tissue culture under a variety of experimental conditions; subcellular fractions; and virus preparation. Experiments to be conducted will include an examination of the normal behavior and structure cells in culture and tissues; the localization of specific subcellular sites of interaction of inducing or transforming chemicals utilizing electron microscope autoradiography; and an examination of induced acute and long-term functional and structural alterations. In addition the article will be used in the course "Introduction to Transmission Electron Microscopy," which is concerned with methodology and will include an introduction to preparation of tissue, cells, and subcellular fractions for thin sectioning; cytochemical techniques, electron microscope autoradiography; use of the electron microscope; and photographic procedures. Application received by Commissioner of Customs: May 1, 1974.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

STATE OF OREGON'S PROPOSED ACTION PLAN

Availability for Review

The Oregon Department of Transportation has submitted to the Federal Highway Administration of the U.S. Department of Transportation a proposed Action Plan as required by Policy and Procedure Memorandum 90–4 issued on June 1, 1973. The Action Plan outlines the organizational relationships, the assignments of responsibility, and the procedures to be used by the State to assure that economic, social and environmental effects are fully considered in developing highway projects and that final decisions on highway projects are made in the best overall public interest, taking into consideration: (1) Needs for fast, safe and efficient transportation; (2) public services; and (3) costs of eliminating or minimizing adverse effects.

The proposed Action Plan is available for public review at the following locations:

1. Oregon State Highway Division, Public Affairs Office, 104 State Highway Building, Salem, Oregon 97310.
2. Oregon State Highway Division, Metropolitan Office, 5821 N.E. Glisan Street, P.O. Box 13160, Portland, Oregon 97213.
3. Oregon State Highway Division, Region I Office, 9200 McLoughlin Blvd., P.O. Box 02157, Portland, Oregon 97202.
4. Oregon State Highway Division, Region II Office, 206 E. Salem Highway Building, P.O. Box 30, Salem, Oregon 97310.
5. Oregon State Highway Division, Region III Office, 1523 S.E. Cobb Street, P.O. Box 1128, Roseburg, Oregon 97470.
6. Oregon State Highway Division, Region IV Office, The Dalles-California Highway, P.O. Box 1249, Bend, Oregon 97701.
7. Oregon State Highway Division, Region V Office, 2111 Adams Avenue, P.O. Box 850, Salem, Oregon 97850.
8. Oregon Division Office—FHWA, Standard Insurance Building, 477 Cottage Street, N.E., Salem, Oregon 97308.
9. FHWA Regional Office—Region 10, Room 301 Mohawk Building, 222 S.W. Morrison Street, Portland, Oregon 97204.
10. U.S. Department of Transportation, Federal Highway Administration, Environmental Development Division, Nassif Building—Room 3246, 400-7th Street, S.W., Washington, D.C. 20590.

Comments from interested groups and the public on the proposed Action Plan are invited. Comments should be sent to the FHWA Regional Office shown above before July 3, 1974.

Issued on June 5, 1974.

Norbert T. Tiemann,
Federal Highway Administrator.

Hazardous Materials Regulations Board

TRANSPORTATION OF HAZARDOUS MATERIALS

Special Permits Issued

Pursuant to Docket No. HM–1, Rule-making procedures of the Hazardous Materials Regulations Board, issued May 22, 1968 (33 F.R. 8277) 49 CFR 170, following is a list of new DOT Special Permits upon which Board action was completed during May 1974:

Special permit No.	Issued to—Subject	Mode or modes of transportation
6878	E. I. du Pont de Nemours & Co., Inc., Wilmington, Del., to ship nonflammable compressed gases in non-DOT Specification 110A600W tank car tanks.	Motor vehicle, rail freight.
6879	Parker Company, Detroit, Mich., to ship certain corrosive liquids in DOT Specification 5 drums, and in stainless steel drums erroneously marked.	Motor vehicle, rail freight.
6880	Amchem Products, Inc., Ambler, Pa., to ship certain corrosive liquids in DOT Specification 57 steel portable tanks constructed of materials that will not react dangerously with or be decomposed by the commodity.	Motor vehicle, rail freight.
6881	PPG Industries, Inc., Pittsburgh, Pa., to ship paints and certain flammable liquids in DOT Specification 52 magnesium portable tanks overdue for retest, and aluminum portable tanks having 575 gallon capacity.	Motor vehicle, rail freight.
6882	Allied Chemical Corporation, Morristown, N.J., to ship Monochlorodifluoromethane in a steel portable tank constructed in accordance with the ASME Code, Section VIII, Div. 1.	Motor vehicle:
6884	MSA Research Corporation, Evans City, Pa., to ship metallic potassium in solid form in 30-gallon DOT Specification 5C stainless steel (16 gauge) drums.	Motor vehicle.
6885	TRW Systems Group, Redondo Beach, Calif., to ship Helium—Radioactive devices in a non DOT Specification Inconel 718 nonrefillable pressure vessel.	Motor vehicle.

Alan I. Roberts,
Secretary.

WILLIAM M. BENKERT

Designation as Board Member

By Departmental Order 1100.11 dated July 27, 1967, and superseded by Order 1120.10A dated December 11, 1972, there was established within the Department of Transportation a Hazardous Materials Regulations Board. A notice appeared in the Federal Register (32 FR 14569), announcing the establishment of this Board and listing the names of the Departmental representatives serving on the Board. That notice stated that any changes and additions in the designations and authorities would be published as made. Such changes were published in Docket No. HM–1; Amendment No. 170–1 (36 FR 16658) and in a Notice of Change of Members published August 13, 1971 (36 FR 15134). The purpose of this notice is to publish a change in the designation of the Coast Guard member which has taken place.

The Commandant, U.S. Coast Guard, on May 7, 1971, designated the Chief, Office of Merchant Marine Safety as his delegated representative for membership on the Board. Rear Admiral William F. Rea III was serving and has served since that time as Chief, Office of Merchant Marine Safety and consequently, as the Coast Guard member on the Hazardous Materials Regulations Board. On May 28, 1974, the Commandant of the Coast

V39—113 JUN 11 74 XUM

Guard advised the Chairman of the Board that effective June 3, 1974, Rear Admiral William M. Benkert would relieve the incumbent and assume the post of Chief, Office of Merchant Marine Safety. Simultaneously, effective on the same date, the Commandant designated Rear Admiral William M. Benkert as the Coast Guard member of the Hazardous Materials Regulations Board.

Issued in Washington, D.C., on June 5, 1974.

ALAN I. ROBERTS,
Secretary, Hazardous Materials Regulations Board.

[FR Doc.74-13323 Filed 6-10-74;8:45 am]

Office of the Secretary

TRANSPORTATION OF HAZARDOUS MATERIALS IN AIR COMMERCE

Notice of Conference

Interested persons are invited to participate in a public conference to be held by the Department of Transportation on October 2nd to discuss what can be done to improve on the safe transportation of hazardous materials shipments via aircraft. The conference will begin 9 a.m. and will be held at the Shoreham Americana Hotel, Washington, D.C.

Our purpose in conducting the conference is to review the growing concern of the Congress and the Department of Transportation with respect to the carriage of hazardous materials and to explore with interested persons the need for more definitive action. Recent experience in the transportation of hazardous materials and evidence of non-compliance with applicable standards for packaging, labeling, documentation and handling of such materials, has given rise to varied recommendations for legislative and regulatory actions. Some recommended actions include proposed restrictions concerning the acceptability of such products for transportation by aircraft, particularly when the carriage of passengers is also involved.

We desire to consider the need for further refinement of Federal Regulations taking into account the feasibility of developing new mechanisms for industry surveillance and self-policing. Should the creation of industry screening and checking systems acceptable to the Department prove feasible, acceptance of hazardous materials may be conditioned upon evidence of conformance with such screening and checking procedures.

We would also like to consider means for increasing the effectiveness of Federal surveillance, including inspections at shippers' plants, freight forwarder facilities, the activities of brokers, and sample inspections of the contents of packages presented for shipment. In other words, what regulatory or other programs could we employ to be assured that all persons participating in the giving, handling, and moving of hazardous materials into air commerce are performing their functions in a manner that will preclude unsafe conditions when such materials are carried aboard aircraft?

Prior documentation concerning the views of interested persons would be especially helpful for this conference. Accordingly, it is requested that the Department be furnished a statement of interested persons containing their views as to the dimensions of the problem of hazardous materials shipment particularly, and the most effective solutions of the problems which have been identified. Such statements should be transmitted to the Office of Hazardous Materials, Department of Transportation, Washington, D.C. 20590, not later than August 1, 1974. Persons desiring to participate and to receive subsequent documentation which may be considered at the conference are requested to notify the Department at the above address not later than August 1, 1974. A detailed agenda of the conference will be distributed to persons intending to participate by August 22, 1974.

BENJAMIN O. DAVIS,
Assistant Secretary for Environment, Safety and Consumer Affairs.

ATOMIC ENERGY COMMISSION

[Docket No. 50-289]

METROPOLITAN EDISON CO. ET AL.

Issuance of Facility License Amendment

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has issued Amendment No. 2 to Facility Operating License No. DPR-50 issued to Metropolitan Edison Company, Jersey Central Power and Light Company and Pennsylvania Electric Company, which revised Technical Specifications for operation of Three Mile Island Nuclear Station, Unit 1, located in Dauphin County, Pennsylvania. The amendment is effective as of its date of issuance.

The amendment permits plant warm-up and low power (<5%) testing with one emergency feedwater pump disabled. This amendment relates to radiological safety matters previously considered but does not involve a significant hazards consideration.

The application for the amendment complies with the standards and requirements of the Act and the Commission's rules and regulations and the Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter 1, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment dated May 6, 1974, (2) Amendment No. 1 to License No. DPR-50, with any attachments, (3) Amendment No. 2 to License No. DPR-50, with any attachments, and (4) the Commission's related Safety Evaluation, dated May 10, 1974. All of these are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Government Publication Section, State Library of Pennsylvania, Box 1601 (Education Building), Harrisburg, Pennsylvania.

A copy of items (2), (3) and (4) may be obtained upon request, addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 4th day of June 1974.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Light Water Reactors Branch 2-3, Directorate of Licensing.

[FR Doc.74-13285 Filed 6-10-74;8:45 am]

NUCLEAR PROPULSION SYSTEMS FOR MERCHANT SHIPS

Notice of Consideration

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has received a Preliminary Safety Evaluation Report (PSAR) for the Competitive Nuclear Merchant Ship Program from the United States Department of Commerce, Maritime Administration (MarAd), which is concerned with the possession, use and operation of pressurized water nuclear reactors (the facilities) in the propulsion system of merchant ships. Each unit would operate at steady-state power levels not to exceed 315 megawatts thermal. The Commission will consider whether there are any essential issues which would preclude the licensing of such facilities under existing Commission Regulations.

These ships are to be owned and operated by one or more major shipping firms which have not yet been identified. The nuclear powered ships will be operated from the United States of America to ports of call to be identified by the owner/operator.

The PSAR is concerned with a reference design of a very large crude carrier (VLCC). The first ship is expected to be delivered by mid-1980; the remaining ships are to follow at approximately one-year intervals. The initial MarAd proposal contemplates the construction of three such ships. The successful completion of this program may result in a fleet of 100 to 500 nuclear powered ships. The PSAR is available for review at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C.

All interested persons who desire to submit written comments or suggestions for consideration by the Commission should send them to the Secretary of the Commission, United States Atomic Energy Commission, Washington, D.C. 20545, ATTN: Public Proceedings Branch by July 15, 1974.

Dated at Bethesda, Maryland, this 5th day of June 1974.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Light Water Reactors Branch 2-3, Directorate of Licensing.

[FR Doc.74-13283 Filed 6-10-74;8:45 am]

REGULATORY GUIDES

Issuance and Availability

The Atomic Energy Commission has issued three guides in its Regulatory Guide series. The Regulatory Guide series has been developed to describe and to make available to the public methods acceptable to the AEC Regulatory staff for implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain information needed by the staff in its review of applications for permits and licenses.

The new guides are in Division 4, "Environmental and Siting Guides."

Regulatory Guide 4.4, "Reporting Procedures for Mathematical Models Selected to Predict Heated Effluent Dispersion in Natural Water Bodies," provides a uniform reporting format for those license applicants who use mathematical models to predict thermal dispersion from heated discharges. Implementation of this guide in the Environmental Report will enable the Regulatory staff to assess proposed mathematical models in a thorough, yet timely, manner.

Regulatory Guide 4.5, "Measurements of Radionuclides in the Environment—Sampling and Analysis of Plutonium in Soil," describes soil sampling procedures that provide a uniform basis for quantifying and reporting plutonium in soil data. This guide also describes a radiochemical procedure which is acceptable to the Regulatory staff as a basis for performing plutonium in soil analysis.

Regulatory Guide 4.6, "Measurements of Radionuclides in the Environment—Strontium-89 and Strontium-90 Analyses," references sets of radiochemical procedures that are acceptable to the Regulatory staff as bases for analyzing strontium-89 and strontium-90 in bio-environmental samples.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in any published guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of the issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted, and Commission approval is not required to reproduce them.

Other Division 4 Regulatory Guides currently being developed include the following:

Cooling Water System—Protection of Aquatic Organisms (Entrapment).
Cooling Water System—Protection of Aquatic Organisms (Entrainment).
Cooling Water System—Protection of Aquatic Organisms (Cold Shock).
Nuclear Power Plants—General Environmental Siting Guides.

Dated at Rockville, Maryland, this 3d day of June 1974.

For the Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

[FR Doc.74-13284 Filed 6-10-74;8:45 am]

RESEARCH AND DEVELOPMENT IN GEOTHERMAL ENERGY

Invitation to Comment

I. *Introduction and objectives.* The Atomic Energy Commission (AEC) is interested in receiving comments, recommendations and suggestions concerning arrangements appropriate to conduct during FY 1975 and into the early 1980's of research and development work and pilot projects aimed at establishing the technical, economic and practical feasibility of electric and non-electric power production from geothermal resources, including possible cooperative programs between the AEC and other organizations. Responses received will be utilized in the further development of AEC's long-range geothermal program plan. The geothermal program objective is to stimulate and facilitate early and significant commercial utilization of these resources for power production. This program is a part of the national geothermal energy research and development effort and is designed to contribute toward meeting overall national energy needs.

II. *Federal Government Geothermal Program.* The Federal Government's participation in the national geothermal program is being conducted cooperatively by several Federal agencies, and is being coordinated by the National Science Foundation, and encompasses the following elements.

A. Increasing the present knowledge of the location, nature and extent of the nation's geothermal energy resources.

B. Identification and resolution of the environmental, legal and institutional barriers to geothermal resource utilization.

C. Advancement, thru technology development, of the operational efficacy and efficiency of relevant components, devices and techniques as required to achieve practical geothermal resource utilization.

D. Acceleration of the commercial production of electricity and nonelectric power from geothermal resources.

III. *AEC Geothermal Program Plan.*[1] The AEC geothermal program plan covering the period FY 1975 thru the early 1980's focuses on elements II C and D above and includes:

A. *Advanced Research and Technology.* Involving, but not necessarily limited to, research and development related to drilling in hostile geothermal environments, methods of well completion, materials and equipment for extracting hot corrosive fluids, monitoring and controlling emissions and wastes and practical binary cycles that use low temperature working fluids.

B. *Resource Utilization Projects.* Involving research and development related to, and construction and operation of, approximately 10 MWe pilot plants representative of one or more different types of geothermal resources: high temperature (>180° C) low salinity convective (HT/LS), high temperature (>180° C) high salinity convective (HT/HS), geopressurized sedimentary (GP), low temperature (<180° C) low salinity convective (LT/LS), and hot dry rock (HDR). Each facility would serve as a flexible test bed for research and engineering development as well as for demonstration of electrical generation and other uses of geothermal heat.

IV. *Tentative Program Implementation Plan.* As a basis for the comments, recommendations and suggestions hereby being requested, the AEC has developed for consideration a tentative plan, set forth in Attachment "A", for conduct of its geothermal research and development and demonstration program. This encompasses such matters as proposal submission, content, evaluation and selection, as well as cost sharing and disposition of any demonstration plants following project completion. The AEC's purpose is to seek comments on this tentative plan and not, at the present time, to invite the submission of proposals.

All interested persons who desire to submit written comments, recommendations and suggestions should send them to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, on or before July 11, 1974. Public comments received after the aforementioned thirty day period will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments filed within the period specified.

(Sec. 161, 68 Stat. 948 (42 U.S.C. 2201))

Dated at Germantown, Maryland, this 6th day of June 1974.

PAUL C. BENDER,
Secretary of the Commission.

---

[1] In addition to the applied research and development activities described herein, the AEC also supports basic physical research in geothermal science.

V39—113 JUN 11 74 XUM

ATTACHMENT "A"

TENTATIVE PLAN FOR IMPLEMENTATION OF THE AEC GEOTHERMAL RESEARCH AND DEVELOPMENT AND DEMONSTRATION PROGRAM

The following tentative plan has been developed as a basis for the comments, recommendations and suggestions being requested. The submission of proposals is not being sought at this time.

A. Proposals may be submitted by academic institutions and units of state and local governments, by non-academic, nonprofit or profit organizations, by individuals, or by a combination of these.

B. Proposals may be submitted at any time, but R&D proposals on hand usually will be considered in groups beginning in July and January of each year.

C. Evaluation of proposals will be conducted by the AEC staff, which may be supplemented by representatives from the AEC national laboratories and other Federal agencies and by representatives from the academic and industrial communities. All proposers will be deemed to have consented to the review by such representatives of the AEC. Information and materials which the AEC and proposers mutually agree to be of a privileged nature will be held in confidence to the extent permitted by law. (Reference AECPR–9–3.150–3)

D. Preference will be given to proposals which offer cost sharing of the proposed work by the proposer or other interested private organizations. The proposing organizations' views as to the final disposition of pilot plants will be a factor in the consideration of proposals for pilot plants, recognizing that it would be AEC's desire to sell its interest in such plants following completion of the proposed work. Any proposals for these plants that are accepted by the AEC will have to be beneficial to the program and in the best interests of the Government. More formal solicitations may be issued for proposals on pilot plants.

E. The AEC will select for negotiation of contracts those research and development proposals which do not unnecessarily duplicate research work already underway or contemplated by AEC; are not already known by AEC or other Federal agencies; have previously unrecognized merit or value; and which offer the greatest total value. While the estimated cost to the government and an offering of cost sharing will be considered in determining which proposals offer the greatest value, the primary basis for selection will be the showing made in the proposal relative to such factors as:

1. How the proposed work is expected to contribute toward meeting energy needs.
2. Description of the theoretical and experimental methods to be employed and program plan through completion.
3. Qualifications of the proposing organization and participating personnel.

There is no commitment to the making of any particular number of awards. Where proposals submitted for research and development involve work previously known to or contemplated by AEC or other Federal agencies, it may be necessary to solicit additional proposals for such work and undertake competitive negotiations with all such proposers.

F. Preliminary to submitting a formal proposal, proposers may, if they wish, submit a preproposal letter setting forth the substance of the proposed work in order to establish whether the AEC has any interest in the research and development area involved.

[FR Doc.74–13455 Filed 6–10–74;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket Nos. 20820, etc.; Order 74–6–21]

ALASKA SERVICE INVESTIGATION AND CERTAIN OTHER MATTERS

Order Severing Issues; Directing Applicants and Parties to Comment on Certain Matters

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 4th day of June 1974.

In the matter of Alaska Service Investigation (Bush Routes Phase), Docket 20826, *et al.*; Kodiak-Western Alaska Renewal Proceeding, Dockets 23604, 23605, 23757, 24103, and 25502; Howard J. Mays Revocation/Munz Northern Certification Proceeding, Dockets 25655 and 25450; Part 298 Weight Limitation Investigation, Docket 21761.

The Bureau of Operating Rights, the Alaska Transportation Commission and certain applicants have filed various pleadings[1] which, collectively, seek major changes in the scope of the remanded proceeding for the purpose of expediting the resolution of the outstanding issues. In its motion the Bureau contends that there are basic deficiencies in the evidentiary materials thus far submitted which preclude a meaningful trial of important issues, and that the case should not go forward unless essential data and information begins to be supplied through reporting requirements.[2] In these circumstances the Bureau suggests that the Board sever and separately adjudicate those issues which can be processed without reference to the deficient evidentiary materials. The pleadings of all parties and applicants are addressed to the Bureau's motion, and for the most part are in accord that certain issues should be severed.

Upon consideration of the Bureau's motion, answers and other pleading related thereto, the Board has concluded that the matters delineated hereafter should be severed and separately processed. In reaching this decision, we are reversing our earlier determination that all issues related to bush operations should be adjudicated in a single proceeding.[3] Our feeling at that time was that a consolidated proceeding would best fill certain gaps in the preexisting evidentiary record and could provide a meaningful forum for considering service alternatives at Alaskan bush points. Our experience since then, however, indicates that the present scope of the case creates severe practical problems which could delay the entire proceeding for a very substantial period.

Thus, at the core of the remanded case are the issue of whether Alaska's and Wien's authority at certain Alaskan bush points should be deleted or suspended and the related question of whether the Board should approve service alternatives at these and other bush points. The alternatives now placed in issue—which the parties have addressed in shaping the present record—are (a) the certification of air taxis, (b) subcontract arrangements between certificated airlines and air taxis under standards to be established by the Board, and (c) subsidized services by airlines, whether or not certificated, operating pursuant to a competitive bid contract.

However, because of changed circumstances since the scope of issues was formulated, a meaningful evaluation of these service alternatives is not feasible at this time. First, the system of competitive bid contracts we intended to consider is no longer a practical option. Such a system would have required Congressional authorization; and while a bill with that purpose was introduced in the 92nd Congress, it was not enacted and has not been reintroduced. The elimination of the service option may well affect the position of some of the parties towards the other alternatives to existing bush service. This fact, alone, raises doubts about the continuing value of much of the record evidence.

Next, because many air taxis maintain only general records, they have not been able to provide the kind of detailed data on the operating costs and general profitability of subcontracted operations that we had hoped to receive. This evidentiary gap stands in the way of a serious consideration of Alaskan subcontracting arrangements at this time. Moreover, the fact that this service alternative cannot be meaningfully examined on the existing record also means that the Board cannot evaluate other possible courses of action (for example, the deletion or suspension of Alaska or Wien at certain bush points and the certification of air taxis in their stead) which must be weighed in conjunction with the option of subcontracted services. Our proposed Part 293, discussed below and in notice of proposed rule making EDR–272, would help cure the deficiency in available evidence by requiring air taxis to provide detailed reports of their operating results as subcontractors for certificated airlines.[4] However, even assuming the adoption of the proposed regulation, the fact remains that the necessary data will not be available for some time.

Proceeding to a hearing on the existing evidence would be counter-productive and could provide burdensome to Alaska communities and air taxis who might be required to squander their limited financial resources in a case marked from the start by an inadequate record. Under the circumstances, we are left with only two viable procedural options: (1) To delay the entire investigation until the defects in the record are cured, or (2) to sever for immediate adjudication those essentially side issues which can be separated from the core of the case (and to move forward also on certain noncontroversial aspects of the mainline issues), while deferring the remaining central portion of the proceeding. In view of the rapidly changing conditions in Alaska and the time that has already elapsed since the "Bush Phase" was first remanded, we have decided to opt for the second approach because it will permit expeditious resolution of those issues as to which a satisfactory record has been compiled without undermining our ability to go forward with the rest of the case at such time as the necessary evidence becomes available.

Accordingly, we have determined to take the following actions in respect to the matters raised by the Bureau, other parties and the applicants.

1. *Application of Kodiak-Western Alaska Airlines, Inc.* We are in accord with the Bureau that the renewal of the Kodiak-Western Alaska certificate, Dockets 23604 and 23605, and the proposed King Salmon-Kodiak link between the two elements of the carrier's system, Docket 23757, should be severed and set for separate hearing as promptly as possible. Under "Ashbacker" principles the application of Wien for King Salmon-Kodiak authority in Docket 24103 will be consolidated for contemporaneous consideration. The application of Peninsula Airways, Inc., for the King Salmon-Kodiak authority and other points on the Kodiak-Western Alaska system in Docket 25502 will be similarly consolidated.

We will not consolidate the balance of Peninsula's application, which involves some points now served by Reeve Aleutian Airways since this is not required by "Ashbacker" considerations. While our action herein has the effect of splitting Peninsula's application into two parts, we have decided not to expand the route issues beyond the minimum necessary to process those matters that can readily go forward independently of the main proceeding. To do otherwise would lead to the creation of two main proceedings dealing generally with the bush issues. Wien's objection that separate treatment for Kodiak-Western Alaska route issues constitutes a piecemeal approach is, of course, well taken. However, as set forth earlier, this drawback is outweighed by countervailing considerations.

2. *Howard J. Mays Revocation Proceeding.* The Bureau has proposed, without opposition from any party, that the Board sever and separately dispose of the related issues of the termination and revocation of the Mays' certificate and the transfer of that certificate to Munz Northern, Docket 25655. The Bureau also proposes that those portions of the Munz certificate application, Docket 25450, that parallel the points served by Mays should be consolidated. Munz Northern agrees with the Bureau but suggests that all of its certificate application should be heard in the severed proceeding.

The Board agrees with the Bureau that the related revocation, termination and transfer issues should be heard in a separate proceeding. However, because there is no "Ashbacker" consideration, as was the case in respect to the Kodiak-Western Alaska applications, there is no legal requirement for us to hear the Munz Northern certificate application. Based on the rationale for going forward with severable issues, set forth above, the Munz application should not be consolidated with the Mays issues since it covers bush points that are not distinguishable from those at issue in the main proceeding. On the other hand, we recognize that the posture of Munz in this case is unique in that it claims to be successor in interest to the Mays certificate. Accordingly, since Munz may not be able to establish a legal basis for the transfer, the Board has determined, in its discretion, to consolidate the Munz application insofar as it relates to authority similar to that held by Mays. If, however, Munz presses for consolidation of its application on the grounds that the whole application should be tried in one proceeding the Board is tentatively of the view that the application should be heard in the main case.

3. *298 Weight Limitations Rule.* Among the parties and applicants, only Wien objects to the Bureau's proposal that the Board sever the issue of whether the present limitation applicable to Alaska under Part 298 of the Board's Regulations should be modified to conform with the revised standard in the same rule applicable to the 48 contiguous states (30 revenue seats, 7,500 pounds maximum payload weight).[5] Wien suggests that the Board adopt without further proceedings the conclusion of the Administrative Law Judge as set forth in the Initial Decision in the "Part 298 Limitation Investigation," Docket 21761, to the effect that the current limit should remain in force. We reject such an approach. The Board believes that all parties and applicants should have a full opportunity to express views on this question, particularly in light of rapidly changing conditions in Alaska since the Initial Decision was handed down on September 27, 1971.[6] No party has suggested that rulemaking procedures would be insufficient for this purpose in response to the Bureau's motion. Accordingly, there is issued herewith a notice of proposed rulemaking, EDR–273, to amend Part 298 in the manner described.

4. *Deletions of Alaska and Wien Authority Pursuant to section 401 (g) at Points No Longer Served by Means of Show Cause applications.* No party or applicant has objected in substance to the Bureau's proposal that the Board should act to delete from the certificate authority of both Wien and Alaska those points that no longer receive service for various reasons. Although Wien requests that the Board adopt the Administrative Law Judge's decision concerning the points to be deleted, we believe that, as in the case of the weight rule, the Board should be apprised of the latest available information. Accordingly, Wien and Alaska will be directed to file applications to the Board requesting that the Board issue an order to show cause why the points named in the applications should not be deleted. Show cause procedures will serve to establish whether there is any opposition to such deletions and, to the extent there is none, the deletions can be effected without reference to the main proceeding.

5. *Main Proceeding.* We now turn to various questions related to the issues that remain in the "Bush Phase" of the present proceeding.

The Alaska Transportation Commission has recommended that the Board adopt, on an interim basis, a rule designed to regularize and rationalize contracts under which Wien and Alaska provide air services through subcontracting carriers. The Commission suggests that for this purpose the Board adopt the findings and conclusions of the Administrative Law Judge which are set forth at pages 56–62 of the Initial Decision. No party has opposed this suggestion, and in our view it has considerable merit as an interim measure pending the final resolution of the various issues relating to subcontract operations, which have

---

[1] Initially, the Bureau of Operating Rights filed a motion to sever and establish alternate procedures. Answers to the Bureau's motion were filed by the Alaska Transportation Commission, Wien Air Alaska, Kodiak-Western Alaska Airlines, Peninsula Airways, Polar Airways (together with a motion for leave to file a late answer), Munz Northern Airlines, (Richard F. Galleher), Tanana Air Taxi, Yukon Air Service, Parkair and Southeast Skyways.

The Bureau also filed a reply, together with a motion for leave to file an unauthorized document. Answers to the Bureau's reply were filed by Parkair, Tanana Air Taxi and Yukon Air Service and the Alaska Transportation Commission (together with motions for leave to file unauthorized documents).

The motions for leave to file will be granted in order to afford the Board the opportunity to consider the complete views of all parties.

[2] The Bureau's recommendation, as modified in its reply to Wien's answer to the Bureau's motion, urges that subcontracting parties be required to submit regular financial and operating reports while the remaining procedural steps in the case are in progress.

[3] See Orders 72–9–91, September 25, 1972; 73–4–29, April 5, 1973; and 73–6–22, June 7, 1973.

[4] The Board could, of course, impose such a reporting requirement independently of Part 293. However, a detailed reporting requirement for existing subcontract arrangements could well prove burdensome to many air taxis; on the other hand, such a requirement in the context of the new subcontracting standards we are proposing (which would guarantee air taxis sufficient compensation and other support to sustain their operations) would be appropriate.

[5] The Alaska Transportation Commission appears to favor the amendment.

[6] In addition, we tentatively disagree with Wien's view that the existing air taxi weight limits within Alaska should be retained, for reasons set out in Notice of Proposed Rulemaking EDR–273.

V 39 113 JUN 11 74 XUM

been and remain a principal issue of the "Bush Phase."

In this connection, Wien suggests that the certificate applications of the subcontractors are defensive in character, having been filed only because the Board is considering changes in the present subcontract arrangements at bush points, including the certification of air taxis at Alaska or Wien points now served by subcontractors. In view of this allegation and the fact that we are now proposing standards embodying various guarantees that make subcontracting more stable and attractive, we are concerned that subcontractors may not pursue their certificate applications. Accordingly, the Board will direct all applicants to advise the Board whether they will prosecute their certificate applications if the proposed rule is adopted. These pleadings will be filed on the dates specified for responses to notice of proposed rulemaking EDR–272. If it appears that the applications will be withdrawn, there will be no need to pursue the reporting requirements suggested by the Bureau, and the remaining proceeding will be simplified. The Board will rule on this aspect of the Bureau's motion upon receipt of the comments. If, however, the main case does proceed to hear applications for route authority now conducted pursuant to subcontracts, the issues will be limited to the certification of new carriers to operate in lieu of Wien or Alaska (which would be suspended or deleted), reliance on Part 298 carriers (which would also be licensed by the state), or the continuation of subcontract arrangements subject to guidelines mandated by rule.[7]

Accordingly, it is ordered, That:

1. The application of Kodiak-Western Alaska Airlines, Inc., for renewal of its certificate of public convenience and necessity, Dockets 23604 ad 23605, and the certificate amendment application for authority to link up the carrier's system over a route between Kodiak and King Salmon, Docket 23757, together with the application of Wien Air Alaska, Inc., for Kodiak-King Salmon authority, Docket 24103, and that portion of the application of Peninsula Airways, Inc., Docket 25502, wherein the carrier seeks certificate authority over portions of the Kodiak-Western Alaska combined system, be and they hereby are severed from the Bush Routes Phase of the "Alaska Service Investigation" and redesignated as "The Kodiak-Western Alaska Renewal Proceeding;" such proceeding to be set for hearing before an Administrative Law Judge at a time and place to be hereafter designated;

2. The issue of the termination pursuant to section 401(f) of the Act or the revocation pursuant to section 401(g) of the Act of the certificate of public convenience and necessity of Howard J. Mays, together with the application of Richard F. Galleher and Munz Northern Airlines, Inc., for transfer of the Mays certificate, Docket 25655, and that portion of the application of Munz Northern Airlines, Inc., in Docket 25450 wherein the carrier seeks certificate authority paralleling the certificate of Howard J. Mays be and they hereby are severed from the Bush Routes Phase of the "Alaska Service Investigation" and redesignated as the "Howard J. Mays Revocation/Munz Northern Certification Proceeding"; such proceeding to be set for hearing before an Administrative Law Judge at a time and place to be hereafter designated;

3. The issues of (a) whether the public convenience and necessity require air service at Alaskan bush points by carriers operating pursuant to a competitive bid contract and (b) whether Part 298 of the Board's Economic Regulations should be amended to relax the existing 12,500 pound takeoff weight limitation applicable to air taxis operating within Alaska, shall be removed from consideration in the "Bush Routes Phase of the Alaska Service Investigation." By contemporaneous notices of proposed rulemaking, the Board is proposing (1) to establish standards for subcontracting arrangements between certificated airlines and Alaskan air taxis in EDR–272, and (2) to extend the 30 seat/7,500 pound payload standard already applicable to Part 298 operations in the continental United States to air taxi operations within Alaska in EDR–273.

4. On or before July 11, 1974,

(a) Each applicant seeking certificate authority over routes now served pursuant to subcontract agreements with Alaska Airlines, Inc., or Wien Air Alaska, Inc., is directed to advise the Board whether it will prosecute its certificate applications if the guidelines for Alaska subcontract operations proposed in EDR–272 are adopted.

(b) All parties are directed to advise the Board concerning additional steps believed necessary to expedite our adjudication of the remaining issues in the remanded proceeding;

5. Alaska Airlines, Inc., and Wien Air Alaska, Inc., be and they hereby are directed to file with the Board within 30 days of the date of this order motions for issuance of an order to show cause why the certificate authority of the respective carriers at points no longer receiving certificated services, either directly or through a subcontracting arrangement, should not be permanently deleted pursuant to section 401(g) of the Act;

6. Except to the extent granted herein the Motion of the Bureau of Operating Rights to sever and to establish alternate remanded procedures be and it hereby is deferred;

7. The motions of the Bureau of Operating Rights, the Alaska Transportation Commission, Polar Airways, Inc., Parkair, Inc., Tanana Air Taxi, Inc., and Yukon Air Service, Inc., for leave to file otherwise unauthorized documents be and they hereby are granted; and

8. This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74–13331 Filed 6–10–74;8:45 am]

[Docket No. 26776; Order 74–6–30]

CHARTER AUTHORITY OF CANADIAN FOREIGN AIR CARRIERS

Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 6th day of June 1974.

On May 8, 1974, the Governments of United States and Canada executed the Nonscheduled Air Service Agreement (Agreement) governing nonscheduled air services between their respective countries. The Agreement establishes a new regulatory regime in which the operation of charter flights by all air carriers specifically designated by the governments of each country to provide charter service pursuant to the Agreement will henceforth be governed in accordance with principles and conditions mutually agreed upon by the governments, as set forth in the Agreement and the diplomatic notes attached thereto.

Fifty-seven Canadian carriers now hold sixty-five foreign air carrier permits issued by the Board pursuant to section 402 of the Act each authorizing, to varying degrees, charter foreign air transportation between Canada and the United States: eighteen of these permits authorize ordinary charter-only service; forty-one authorize charter flights with aircraft under 12,500 pounds; four authorize on- and off-route charter flights as an incidental authorization to scheduled services; two authorize only on-route charters as an incident to scheduled service authority.[1] All Canadian carriers presently holding foreign air carrier permits have been designated by the Government of Canada to provide charter service in accordance with the terms of the Agreement. Each permit contains a condition making it "subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation * * * that may become effective during the period this permit remains in effect to which the United States and Canada shall be parties."

Upon consideration of the Agreement, and in light of section 1102 of the Act which requires the Board to exercise its duties consistent with any obligation assumed by the United States in any agreement between the United States and a foreign country, the Board proposes to issue to all Canadian carriers designated by their government under the agreement and currently holding foreign air carrier permits, new foreign air carrier permits containing authority limited to

---

[7] The proceeding will not attempt to identify points for low-bid contract services since consideration of the necessary legislation is no longer active.

[1] See Appendix A.

that authorized by the charter bilateral, and subject to the conditions of that Agreement and the Exchanges of Notes attached thereto. In addition, three Canadian carriers holding foreign air carrier permits authorizing charter foreign air transportation have authority to perform Canadian-originating and terminating circle tour charters, authority which is not within the scope of the charter bilateral agreement. The Board will issue separate permits to these carriers maintaining this nonbilateral authority in effect subject, however, to a requirement for prior approval of each flight as discussed hereinafter.

The charter regime established by the Agreement differentiates only between charter operations conducted with "small aircraft" and operations conducted with "large aircraft."[2] Since, pursuant to the charter bilateral agreement, the terms and conditions applicable to the respective foreign air carriers will be standard for each class of operation, the new charter permits will follow a standard form, except that those Canadian carriers designated solely for small aircraft operations will be issued a permit restricting their operations accordingly.

The proposed issuance of the respective permits will facilitate the prompt implementation of the terms of the new charter bilateral agreement, while at the same time maintaining the outstanding authorizations of the various carriers which are not covered by the bilateral agreement. This will be in accordance with the spirit of the bilateral and collateral Exchange of Notes providing for prompt implementation of the Agreement.[3]

Accordingly, the Board tentatively finds and concludes that it is in the public interest to (a) issue new and/or amended permits to all of the foreign air carriers already holding permits which have been designated by the Government of Canada to provide charter service pursuant to the terms of the Nonscheduled Air Service Agreement between the United States and Canada, in the form and manner set forth in the specimen permits contained in Appendix B;[4] (b) cancel the existing permits of all Canadian carriers authorizing charter foreign air transportation (except as an incident to scheduled service authority); and (c) issue an additional permit to Eastern Provincial Airways, Ltd. Nordair Ltee-Nordair Ltd., and Pacific Western Airlines, Ltd. in the form and manner set forth in Appendix C, setting forth only the authority contained in the subject carriers' existing permits which is not the subject of the Agreement and therefore not embraced by the permits issued pursuant to paragraph (a), above.[5]

The scheduled route permits of Air Canada, Atlantic Central Airlines Limited, Canadian Pacific Air Lines, Ltd., Nordair Ltee-Nordair Ltd., Pacific Western Airlines, Ltd., and Trans-Provincial Airlines, Ltd., currently confer authority to operate charters as an incident to their route authority. To insure that the purely U.S.-Canada charter authority of the Canadian route carriers is confined to that authorized by the Agreement and their charter permits (with respect to charters covered by the Agreement) we will require that charters between the United States and Canada operated pursuant to the ancillary authority in the route permits of these carriers shall be subject to prior Board approval. We therefore tentatively find and conclude that it is in the public interest to implement Section 212.4(b) of the Board's Regulations so as to require prior approval of such on-route charter flights performed by these six carriers pursuant to their foreign air carrier permits authorizing scheduled foreign air transportation.[6] This action is consistent with the condition in the outstanding permits of these carriers which in effect makes them subject to the charter bilateral conditions. This action will take effect upon the issuance of the permits discussed in paragraph (a), above.

In addition, the Board tentatively finds and concludes that it is in the public interest to implement condition (4) of the foreign air carrier permits authorizing Eastern Provincial Airways (1963) Ltd., Nordair Ltee-Nordair Ltd., and Pacific Western Airlines, Ltd., to perform Canada-originating circle tour charters so as to require advance approval of such flights. Since these flights are not under the Agreement (yet involve, on at least one flight leg, a traffic movement which mighto therwise be under the Agreement) we wish to determine on a case-by-case basis public interest in their operation, including reciprocity and the effects, if any, on traffic flow under the Agreement.

Finally, we tentatively find and conclude that, considering their successful operations under existing permits and our previous findings in this respect, the Canadian carriers listed in Appendix A remain fit, willing, and able properly to perform the services authorized in the permits proposed to be issued and to con-

---

[2] Large aircraft are defined as aircraft having both (a) a maximum passenger capacity of more than 30 seats or a maximum payload capacity of more than 7,500 pounds, and (b) a maximum authorized takeoff weight on wheels greater than 35,000 pounds. Small aircraft are defined as aircraft which are not large aircraft.

[3] An Exchange of Notes on Transitional Arrangements, signed in conjunction with the bilateral, provides in part:

"2. Any carrier designated by the Government of Canada shall, pending issuance of an amended foreign air carrier permit under the Agreement, be allowed to operate nonscheduled air services between the respective territories of the United States and Canada as provided for in the Agreement to the maximum extent the Civil Aeronautics Board is legally empowered to do so (e.g., by waiver of its regulations), provided such carrier holds a valid and outstanding foreign air carrier permit." By Order 74–5–37, May 8, 1974, the Board proposed to grant waivers of its charter regulations which, in effect, would permit such implementation pursuant to this provision.

[4] We intend that finalization of the action proposed herein will dispose of the pending applications for renewal of outstanding permits for small aircraft operations by Aeroplane Rental Services Ltd. (Docket 25031), Air Ambulance Service (Docket 25070, application filed in the name of Province of Saskatchewan, Central Vehicle Agency), Air Niagara (Docket 25029), Air-West Airlines Ltd. (Docket 25013), Execaire Aviation Ltd. (Docket 25032), Guelph Air Services '67 Ltd. (Docket 25068), Harrison Airways Ltd. (Docket 25030), Ignace Airways, Ltd. (Docket 25069), Kingston Flying Club (Docket 25143), Lac La Croix Quetico Air Services Ltd. (Docket 25061), Laurentian Air Services Ltd. (Docket 25014), Laurentide Aviation, Ltd. (Docket 25109), Metroair, Ltd. c.o.b. Metro Air Taxi (Docket 24990), Midwest Airlines, Ltd. (Docket 25015), Millardair, Ltd. (Docket 24898), Parsons Airways, Ltd. (Docket 25016), Peninsula Air Service, Ltd. (Docket 25006), Prince Edward Flying Club (Docket 25062), Seneca Air Services, Ltd. (Docket 25067), Skycharter Aircraft Sales, Ltd. (Docket 25038), St. Catharines Flying Club (Docket 25043), Survair Ltd. (Docket 24996), Toronto Airways Ltd. (Docket 25046), Waterloo-Wellington Flying Club (Docket 25044), West Coast Air Services Ltd. (Docket 24995), Wong Airways Ltd. (Docket 25046), Waterloo-Well-25033), Won-Del Aviation Ltd. (Docket 24988). In addition, it will dispose of the applications of Canadian Pacific Air Lines, Ltd. (Docket 25250) and International Jet Air Ltd. (Docket 26684) for amendment to include ITC authority, and the application of Aeroplane Rental Services Ltd. (Docket 25096) for use of aircraft having a 30 pas-

[5] The additional permits for the three named carriers will continue their charter authority to the extent it is not governed by the Agreement, *i.e.*, circle tour charter flights (including inclusive tour charter flights) with respect to persons and their accompanying baggage which originate and terminate at a point or points in Canada and serve a point or points in the United States and point or points in any country other than Canada and the United States. As indicated below however, this auhority will be subject to a requirement for prior Board approval of each flight. The duration of the additional permits governing this limited authority will remain the same as the existing termination date for such authority (*i.e.*, December 31, 1977). See Orders 73–5–51· 73–7–143; and 73–7–144.

[6] No such approval is required for charters operated pursuant to the new Part 214 charter permit. However, all such charters must comply with the conditions contained in that permit. In effect, the prior approval requirement will only apply to charter flights which originate in the United States and terminate in Canada or which originate in Canada and terminate in the United States. Flights which involve points outside of the United States or Canada will not be subject to prior approval. However, in the proceeding, "Charter Regulations Applicable to Foreign Route Air Carriers" (Docket 26509, Order 74–3–71), the Board has proposed to curtail such authority for all foreign route carriers in several respects. The six Canadian carriers are parties to the proceeding and their ultimate charter authority (including the right to operate fifth freedom charters and circle tour charters) will be governed by the Board's disposition of that case.

V39 113 JUN 11 74 XUM

form to the Act and the rules and regulations issued thereunder.

Accordingly, it is ordered, That:

1. All interested persons be and they hereby are directed to show cause why the Board should not (1) make final the tentative findings and conclusions herein; (2) subject to the approval of the President pursuant to section 801 of the Act (a) issue foreign air carrier permits to the carriers listed in Appendix A in accordance with the appropriate designation of each carrier in the form and manner set forth in Appendices B and C, and (b) cancel all now outstanding foreign air carrier permits held by Canadian air carriers which authorize charter foreign air transportation, except those authorizing such air transportation incidental to an authorization of scheduled foreign air transportation; (3) implement Part 212.4(b) of the Board's Regulations as proposed herein; (4) implement condition (4) of the foreign air carrier permits authorizing circle tour charters as proposed herein; and (5) except to the extent proposed to be granted herein, deny the pending applications for renewal of authority of Canadian air carriers authorized to conduct nonscheduled small aircraft operations, for amendment of authority held by Canadian Pacific Air Lines Ltd. and International Jet Air Limited to add ITC authority, and for amendment by Aeroplane Rental Services Ltd. for use of aircraft having a 30 passenger/7,500 pound maximum;

2. Any interested person having objections to the tentative findings and conclusions set forth herein or to the issuance of the proposed foreign air carrier permits or the proposed implementations of Part 212.4(b) and condition (4) shall file such objections within 21 days after the date of this order, and file with the Board and serve on the persons specified in paragraph 5, below, a statement of objections specifying the part or parts of the tentative findings and conclusions objected to and stating the specific grounds of any such objections supported by statistical data and other materials and evidence relied upon to support the stated objections; reply comments, if any, may be filed seven days after the date for filing objections;[7]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board: *Provided,* That the Board may proceed to enter an order in accordance with the tentative findings and conclusions herein if it determines that there are no factual issues presented that warrant the holding of an evidentiary hearing;

4. In the event no objections are filed, all further procedural steps shall be deemed waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. This order shall be served upon all Canadian holders of, and Canadian applicants for, foreign air carrier permits; all holders of certificates of public convenience and necessity; the air taxi operators listed in Appendix B to Order 74-5-37; the Departments of State and Transportation; and the Ambassador of Canada.

This order will be published in the FEDERAL REGISTER and will be transmitted to the President.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

APPENDIX B

SPECIMEN

PERMIT TO FOREIGN AIR CARRIER

Name is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958 and the orders, rules, and regulations issued thereunder, to engage in charter foreign air transportation as follows:

Charter flights with respect to persons and their accompanied baggage, and planeload charter flights with respect to property, between any points or points in Canada and any point or points in the United States.

The holder shall be authorized to perform those types of charters originating in Canada and in the United States, as are now, or may hereafter be, prescribed in Annex B of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, including any amendments, supplements, reservations, or supersessions to that Agreement.[1]

This permit shall be subject to the following terms, conditions, and limitations:

(1) The authority of the holder to perform United States originating large aircraft charter flights shall be subject to the provisions of Part 214 of the Board's Economic Regulations and Part 378 of the Board's Special Regulations. The authority of the holder to perform United States originating small aircraft charter flights shall be limited to commercial air transportation of passengers and their accompanied baggage, and property, on a time, mileage or trip basis, where the entire planeload capacity of one or more aircraft has been engaged by a person for his own use or by a person for the transportation of a group of persons and/or their property, as agent or representative of such group. The authority of the holder to perform Canadian-originating charter flights shall be subject to the Air Carrier Regulations of the Canadian Transport Commission. The holder shall, nevertheless, not be authorized to provide charters of a type other than as authorized by Annex B of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, including any amendments, supplements, reservations or supersession to that Agreement.

---

[7] Since provision is made for the filing of objections to this order, petitions for reconsideration of this order will not be entertained.

[1] Permit grants authority to conduct casual, occasional or infrequent nonscheduled individually ticketed or individually waybilled air services with aircraft under 12,500 pounds.

[2] Permit grants scheduled route authority and charter authority pursuant to Part 212.

[3] Permit grants authority for charter flights only.

[4] Permit grants scheduled route authority and on-route charter authority only, without specific reference to Part 212.

[1] Annex B(II)(B) and (III)(B) presently authorize the following types of large and small aircraft charters originating in Canada: Single Entity Passenger, Single Entity Property, Pro Rata Common Purpose, Advance Booking, and Inclusive Tour; and split passenger charters of the types set forth, subject to Canadian Transport Commission Regulations which presently do not permit Advance Booking Charters for small aircraft. Annex B(II)A presently authorizes the following types of large aircraft charters originating in the United States: Single Entity Passenger, Single Entity Property, Pro Rata Affinity, Mixed (Entity/Pro Rata), Inclusive Tour, Study Groups, Overseas Military Personnel, and Travel Group; and split passenger charters of the types set forth. United States originating small aircraft charters are governed by the definition set forth in condition (1). (Annex B, (III)(A), (I)(C).)

(2) The holder shall not engage in foreign air transportation between the United States and any point or points, other than a point or points in Canada, or transport any property or persons whose journey includes a prior, subsequent, or intervening movement by air (except for the movement of passengers independently of any group) to or from a point not in the United States or Canada: *Provided,* That the Board may, upon application by the holder, or by regulation, authorize the performance of charters where such movements are involved.

(3) The holder shall not perform United States-originating charter flights which at the end of any calendar quarter would result in the aggregate number of all United States-originating charter flights performed by the holder on or after May 8, 1974 exceeding by more than one-third the aggregate number of all Canadian-originating charter flights performed by the holder on or after May 8, 1974: *Provided,* That the Board may authorize the performance of charter flights not meeting the requirements set forth. For the purpose of making such computation the following shall apply:

(a) A charter shall be considered to originate in the United States (or Canada) if the passengers or property are first taken on board in that country, and shall be considered as one flight whether the charter be one-way, round-trip, circle tour, or open jaw, even if a separate contract is entered into for a return portion of the charter trip from Canada (or the United States).

(b) The computation shall be made separately for (i) "large aircraft" flights of persons; (ii) "large aircraft" flights of property; (iii) "small aircraft" flights of persons; and (iv) "small aircraft" flights of property.[2]

(c) In the case of a lease of aircraft with crew for the performance of a charter flight on behalf and under the authority of another carrier, the flight shall be included in the computation if the holder is the lessee, and shall not be included if the holder is the lessor.

(d) There shall be excluded from the computation:

(i) Flights utilizing aircraft having a maximum authorized takeoff weight on wheels (as determined by Canadian Transport Commission Regulations) not greater than 18,000 pounds; and

(ii) Flights originating at a United States terminal point of a route authorized pursuant to the Air Transport Services Agreement between the United States and Canada, signed January 17, 1966, as amended, or any agreement which may supersede it, or any supplementary agreement thereto which establishes obligations or privileges thereunder (if, pursuant to any such agreement, the holder also holds a foreign air carrier permit authorizing individually ticketed or individually waybilled service over such route, and provides some scheduled service on any route pursuant to any such agreement), when such flights serve either (a) a Canadian terminal point on such route, or (b) any Canadian intermediate point authorized for service on such route by such foreign air carrier permit.

(4) The holder may grant stopover privileges at any point or points in the United States only to passengers and their accompanied baggage moving (a) on a Canadian-originating large aircraft flight operating under a contract for charter transportation to be provided solely by the holder (even if a different aircraft is used), or (b) on a Canadian-originating small aircraft flight operating under a contract for round-trip charter transportation to be provided solely by the holder and as to which the same aircraft stays with the passengers throughout the journey. *Provided,* That the Board may authorize the performance of charters not meeting the requirements set forth.

(5) The Board, by order or regulation and without hearing, may require advance approval of individual charter trips conducted by the holder pursuant to the authority granted by this permit, if it finds such action to be required in the public interest.

(6) The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Canada for Canadian international air service.

(7) This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Canada shall be parties.

(8) This permit shall be subject to the condition that the holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E-23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

(9) The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

(10) By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall become effective on ______. Unless otherwise terminated at an earlier date pursuant to the terms of any applicable treaty, convention, or agreement, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement, or amendment thereto, which shall have the effect of eliminating the charter foreign air transportation hereby authorized from the transportation which may be operated by carriers designated by the Government of Canada (or in the event of the elimination of part of the charter foreign air transportation hereby authorized, the authority granted herein shall terminate to the extent of such elimination), or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of Canada in lieu of the holder hereof, or (3) upon the termination or expiration of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974: *Provided, however,* That clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foreign air transportation herein authorized becomes the subject of any treaty, convention, or agreement to which the United States and Canada are or shall become parties.

IN WITNESS WHEREOF, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board, and the seal of the Board to be affixed hereto, on the ________________________________.

Secretary.

Issuance of this permit to the holder approved by the President of the United States on ___________ in Order ___________.

SPECIMEN

PERMIT TO FOREIGN AIR CARRIER FOR SMALL AIRCRAFT OPERATIONS

Name is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958 and the orders, rules, and regulations issued thereunder, to engage in charter foreign air transportation as follows:

Charter flights with respect to persons and their accompanied baggage, and planeload charter flights with respect to property, between any point or points in Canada and any point or points in the United States.

The holder shall be authorized to perform those types of charters originating in Canada as are now, or may hereafter be, prescribed for carriage by small aircraft in Annex B (III)(B) of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, including amendments, supplements, reservations, or supersessions to that Agreement: *Provided,* That any such charters may be performed only to the extent authorized by the Air Carrier Regulations of the Canadian Transport Commission applicable to operations by small aircraft, and the authority of the holder to perform such charters shall be subject to those regulations.[1] The authority of the

---

[2] Annex A(I)(A) of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, defines a "large aircraft" as an aircraft having both: (1) A maximum passenger capacity (as determined by CAB Regulations) of more than 30 seats or a maximum payload capacity (as determined by CAB Regulations) of more than 7,500 pounds; and (2) a maximum authorized takeoff weight on wheels (as determined by Canadian Transport Commission Regulations) greater than 35,000 pounds. A "small aircraft" is defined as an aircraft which is not a "large aircraft."

[1] Annex B(III)(B) presently authorizes Canadian originating small aircraft charters of the types prescribed in section (II)(B); but only to the extent applicable to small aircraft pursuant to Canadian Transport Commission Regulations. The applicable types of charters presently authorized are: Single Entity Passenger, Single Entity Property, Pro Rata Common Purpose, and Inclusive Tour. (In some instances split passenger charters are authorized.)

V39—113 JUN 11 74 XUM

holder to perform United States originating charters shall, in accordance with Annex B (III)(A) of such nonscheduled Air Service Agreement, be limited to commercial air transportation of passengers and their accompanied baggage, and property, on a time, mileage or trip basis, where the entire planeload capacity of one or more aircraft has been engaged by a person for his own use or by a person for the transportation of a group of persons and/or their property, as agent or representative of such group, or such small aircraft operations as may be authorized pursuant to any amendment, supplement, reservation or supersession to that Agreement.

This permit shall be subject to the following terms, conditions, and limitations:

(1) In the performance of the charter operations authorized by this permit, the holder shall not use "large aircraft" as defined in Annex A(I)(A) of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974, including amendments, supplements, reservations, or supersessions to that Agreement.

(2) The holder shall not engage in foreign air transportation between the United States and any point or points, other than a point or points in Canada, or transport any property or persons whose journey includes a prior, subsequent, or intervening movement by air (except for the movement of passengers independently of any group) to or from a point not in the United States or Canada: *Provided,* That the Board may, upon application by the holder, or by regulation, authorize the performance of charters where such movements are involved.

(3) The holder shall not perform United States-originating charter flights which at the end of any calendar quarter would result in the aggregate number of all United States-originating charter flights performed by the holder on or after May 8, 1974 exceeding by more than one-third the aggregate number of all Canadian-originating charter flights performed by the holder on or after May 8, 1974: *Provided,* That the Board may authorize the performance of charters not meeting the requirements set forth. For the purpose of making such computation the following shall apply:

(a) A charter shall be considered to originate in the United States (or Canada) if the passengers or property are first taken on Board in that country, and shall be considered as one flight whether the charter be one-way, round-trip, circle tour, or open jaw, even if a separate contract is entered into for a return portion of the charter trip from Canada (or the United States).

(b) The computation shall be made separately for (i) "small aircraft" flights of persons; and (ii) "small aircraft" flights of property.

(c) In the case of a lease of aircraft with crew for the performance of a charter flight on behalf and under the authority of another carrier, the flight shall be included in the computation if the holder is the lessee, and shall not be included if the holder is the lessor.

(d) There shall be excluded from the computation:

(i) flights utilizing aircraft having a maximum authorized takeoff weight on wheels (as determined by Canadian Transport Commission Regulations) not greater than 18,000 pounds; and

(ii) flights originating at a United States terminal point of a route authorized pursuant to the Air Transport Services Agreement between the United States and Canada, signed January 17, 1966, as amended, or any agreement which may supersede it, or any supplementary agreement thereto which establishes obligations or privileges thereunder (if, pursuant to any such agreement, the holder also holds a foreign air carrier permit authorizing individually ticketed or individually waybilled service over such route, and provides some scheduled service on any route pursuant to any such agreement), when such flights serve either (a) a Canadian terminal point on such route, or (b) any Canadian intermediate point authorized for service on such route by such foreign air carrier permit.

(4) The holder may grant stopover privileges at any point or points in the United States only to passengers and their accompanied baggage moving on a Canadian-originating flight operating under a contract for round-trip charter transportation to be provided solely by the holder and as to which the same aircraft stays with the passengers throughout the journey; *Provided,* That the Board may authorize the performance of charters not meeting the requirements set forth.

(5) The Board, by order or regulation and without hearing, may require advance approval of individual charter trips conducted by the holder pursuant to the authority granted by this permit, if it finds such action to be required in the public interest.

(6) The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Canada for Canadian international air service.

(7) This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Canada shall be parties.

(8) This permit shall be subject to the condition that the holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E–23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

(9) The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts of liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

(10) By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall become effective on ------------. Unless otherwise terminated at an earlier date pursuant to the terms of any applicable treaty, convention, or agreement, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement, or amendment thereto, which shall have the effect of eliminating the charter foreign air transportation hereby authorized from the transportation which may be operated by carriers designated by the Government of Canada (or in the event of the elimination of part of the charter foreign air transportation hereby authorized, the authority granted herein shall be terminated to the extent of such elimination), or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of Canada in lieu of the holder hereof, or (3) upon the termination or expiration of the Nonscheduled Air Service Agreement between the United States and Canada, signed May 8, 1974: *Provided, however,* That clause (3) of this paragraph shall not apply if, prior to the occurrence of the event specified in clause (3), the operation of the foreign air transportation herein authorized becomes the subject of any treaty, convention, or agreement to which the United States and Canada are or shall become parties.

IN WITNESS WHEREOF, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board, and the seal of the Board to be affixed hereto, on the ------------.

Secretary.

APPENDIX C

SPECIMEN

PERMIT TO FOREIGN AIR CARRIER

Eastern Provincial Airways (1963) Ltd. is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued thereunder, to engage in charter foreign air transportation as follows:

Circle tour charter flights (including inclusive tour charters) with respect to persons and their accompanying baggage which originate and terminate at a point or points in Canada and serve a point or points in the United States and a point or points in any country other than Canada and the United States.

This permit shall be subject to the following terms, conditions, and limitations:

(1) The holder shall not engage in foreign air transportation between the United States and any point or points, other than a point or points in Canada, or transport any person whose journey, by any means of transportation, includes a prior, subsequent, or intervening movement to or from a point not in the United States or Canada: *Provided,* That the Board may, upon application by the holder, or by regulation, authorize the performance of charters where such movements are involved, and that this condition shall not prevent the holder, under the above authorization, from serving a point or points in any foreign country between the point of origin and the point of termination of the charter flight in Canada.

(2) The authority of the holder to perform inclusive tour charters originating in Canada

---

shall be subject to the terms, conditions, and limitations contained in licenses to be issued by the Air Transport Committee of the Canadian Transport Commission authorizing the performance of such charters.

(3) The exercise of the privileges granted by this permit, except with respect to the authorization to perform inclusive tour charters, shall be subject to the provisions of Part 214 of the Board's Economic Regulations, and all amendments and revisions thereof as the Board, by order or regulation and without hearing, may adopt.

(4) The Board, by order or regulation and without hearing, may require advance approval of individual charter trips conducted by the holder pursuant to the authority granted by this permit, if it finds such action to be required in the public interest.

(5) The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Canada for Canadian international air service.

(6) This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Canada shall be parties.

(7) This permit shall be subject to the condition that the holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E–23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

(8) The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability inusrance in the amount of $1,000,000 or more to meet potential liablity claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

(9) By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall be effective on ------------ and shall terminate on December 31, 1977: *Provided, however,* That if in the aforesaid period during which this permit shall be effective, the operation of the foreign air transportation herein authorized becomes the subject of any treaty, convention, or agreement to which the United States and Canada are or shall become parties, then and in that event, this permit is continued in effect during the period provided in such treaty, convention, or agreement.

IN WITNESS WHEREOF, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board, and the seal of the Board to be affixed hereto, on the ---- day of ------------.

Secretary.

SPECIMEN

PERMIT TO FOREIGN AIR CARRIER

Nordair Ltee—Nordair Ltd. is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958 and the orders, rules, and regulations issued thereunder, to engage in charter foreign air transportation as follows:

Circle tour charter flights (including inclusive tour charters) with respect to persons and their accompanying baggage which originate and terminate at a point or points in Canada and serve a point or points in the United States and a point or points in any country other than Canada and the United States.

This permit shall be subject to the following terms, conditions, and limitations:

(1) The holder shall not engage in foreign air transportation between the United States and any point or points, other than a point or points in Canada, or transport any person whose journey by any means of transportation includes a prior, subsequent, or intervening movement to or from a point not in the United States or Canada: *Provided,* That the Board may, upon application by the holder, or by regulation, authorize the performance of charters where such movements are involved, and that this condition shall not prevent the holder, under the above authorization from serving a point or points in any foreign country between the point of origin and the point of termination of the charter flight in Canada.

(2) The authority of the holder to perform inclusive tour charters originating in Canada shall be subject to the terms, conditions, and limitations contained in licenses to be issued by the Air Transport Committee of the Canadian Transport Commission authorizing the performance of such charters.

(3) The exercise of the privileges granted by this permit, except with respect to the authorization to perform inclusive tour charters, shall be subject to the provisions of Part 214 of the Board's Economic Regulations, and all amendments and revisions thereof as the Board, by order or regulation and without hearing, may adopt.

(4) The Board, by order or regulation and without hearing, may require advance approval of individual charter trips conducted by the holder pursuant to the authority granted by this permit if it finds such action to be required in the public interest.

(5) The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Canada for Canadian international air service.

(6) This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Canada shall be parties.

(7) This permit shall be subject to the condition that the holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E–23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

(8) The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

(9) By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall be effective on ------------ and shall terminate on December 31, 1977: *Provided, however,* That if in the aforesaid period during which this permit shall be effective, the operation of the foreign air transportation herein authorized becomes the subject of any treaty, convention, or agreement, to which the United States and Canada are or shall become parties, then and in that event this permit is continued in effect during the period provided in such treaty, convention, or agreement.

IN WITNESS WHEREOF, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board, and the seal of the Board to be affixed thereto, on the ------ day of ------------.

SPECIMEN

PERMIT TO FOREIGN AIR CARRIER

Pacific Western Airlines, Ltd. is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued thereunder, to engage in charter foreign air transportation as follows:

Circle tour charter flights (including inclusive tour charters) with respect to persons and their accompanying baggage which originste and terminate at a point or points in Canada and serve a point or points in the United States and a point or points in any country other than Canada and the United States.

This permit shall be subject to the following terms, conditions, and limitations:

V39—113 JUN 11 1974 XUM

(1) The holder shall not engage in foreign air transportation between the United States and any point or points, other than a point or points in Canada, or transport any person whose journey, by any means of transportation, includes a prior, subsequent, or intervening movement to or from a point not in the United States or Canada: *Provided*, That the Board may, upon application by the holder, or by regulation, authorize the performance of charters where such movements are involved and that this condition shall not prevent the holder, under the above authorization from serving a point or points in any foreign country between the point of origin and the point of termination of the charter flight in Canada.

(2) The authority of the holder to perform inclusive tour charters originating in Canada shall be subject to the terms, conditions, and limitations contained in licenses to be issued by the Air Transport Committee of the Canadian Transport Commission authorizing the performance of such charters.

(3) The exercise of the privileges granted by this permit, except with respect to the authorization to perform inclusive tour charters, shall be subject to the provisions of Part 214 of the Board's Economic Regulations, and all amendments and revisions thereof as the Board, by order or regulation and without hearing, may adopt.

(4) The Board, by order or regulation and without hearing, may require advance approval of individual charter trips conducted by the holder pursuant to the authority granted by this permit, if it finds such action to be required in the public interest.

(5) The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Canada for Canadian international air service.

(6) This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Canada shall be parties.

(7) This permit shall be subject to the condition that the holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E–23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

(8) The holder (a) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1,000,000 or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (b) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

(9) By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The exercise of the privileges granted by this permit shall be subject to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall be effective on ____________ and shall terminate on December 31, 1977: *Provided, however*, That if in the aforesaid period during which this permit shall be effective, the operation of the foreign air transportation herein authorized becomes the subject of any treaty, convention, or agreement to which the United States and Canada are or shall becomes parties, then and in that event, this permit is continued in effect during the period provided in such treaty, convention, or agreement.

In witness whereof, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board, and the seal of the Board to be affixed hereto, on the ______ day of ____________.

ENVIRONMENTAL PROTECTION AGENCY

COMMENTS ON ENVIRONMENTAL IMPACT STATEMENTS AND OTHER ACTIONS IMPACTING THE ENVIRONMENT

Notice of Availability

Pursuant to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969, and section 309 of the Clean Air Act, as amended, the Environmental Protection Agency (EPA) has reviewed and commented in writing on Federal agency actions impacting the environment contained in the following appendices during the period of May 1, 1974 and May 15, 1974.

Appendix I contains a listing of draft environmental impact statements reviewed and commented upon in writing during this review period. The list includes the Federal agency responsible for the statement, the number and title of the statement, the classification of the nature of EPA's comments as defined in Appendix II, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix II contains the definitions of the classifications of EPA's comments on the draft environmental impact statements as set forth in Appendix I.

Appendix III contains a listing of final environmental impact statements reviewed and commented upon in writing during this reviewing period. The listing will include the Federal agency responsible for the statement, the number and title of the statement, a summary of the nature of EPA's comments, and the EPA source for copies of the comments as set forth in Appendix V.

Appendix IV contains a listing of proposed Federal agency regulations, legislation proposed by Federal agencies, and any other proposed actions reviewed and commented upon in writing pursuant to section 309(a) of the Clean Air Act, as amended, during the referenced reviewing period. The listing includes the Federal agency responsible for the proposed action, the title of the action, a summary of the nature of EPA's comments, and the source for copies of the comments as set forth in Appendix V.

Appendix V contains a listing of the names and addresses of the sources for copies of EPA comments listed in Appendices I, III, and IV.

Copies of the EPA Manual setting forth the policies and procedures for EPA's review of agency actions may be obtained by writing the Public Inquiries Branch, Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460. Copies of the draft and final environmental impact statements referenced herein are available from the originating Federal department or agency.

Dated: May 28, 1974.

SHELDON MEYERS,
Director,
Office of Federal Activities.

APPENDIX II

DEFINITION OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

ENVIRONMENTAL IMPACT OF THE ACTION

LO—Lack of Objection. EPA has no objections to the proposed action as described in the draft impact statement; or suggests only minor changes in the proposed action.

ER—Environmental Reservations. EPA has reservations concerning the environmental effects of certain aspects of the proposed action. EPA believes that further study of suggested alternatives or modifications is required and has asked the originating Federal agency to reassess these impacts.

EU—Environmentally Unsatisfactory. EPA believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the potential safeguards which might be utilized may not adequately protect the environment from hazards arising from this action. The Agency recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

ADEQUACY OF THE IMPACT STATEMENT

Category 1—Adequate. The draft impact statement adequately sets forth the environmental impact of the proposed project or action as well as alternatives reasonably available to the project or action.

Category 2—Insufficient Information. EPA believes that the draft impact statement does not contain sufficient information to assess fully the environmental impact of the proposed project or action. However, from the information submitted, the Agency is able to make a preliminary determination of the impact on the environment. EPA has requested that the originator provide the information that was not included in the draft statement.

Category 3—Inadequate. EPA believes that the draft impact statement does not adequately assess the environmental impact of the proposed project or action, or that the statement inadequately analyzes reasonable available alternatives. The Agency has requested more information and analysis concerning the potential environmental hazards and has asked that substantial revision be made to the impact statement.

APPENDIX III.—*Final environmental impact statements for which comments were issued between May 1, 1974, and May 15, 1974*

Identifying No.	Title	General nature of comments	Source for copies of comments
Department of Agriculture:			
F-AFS-65043-CA	Fox Unit Plan, Six Rivers National Forest, Del Norte County, Calif.	The final statement adequately assesses the environmental impact of the proposed action and responds to the various concerns raised with respect to the draft statement.	J
F-AFS-85077-OO	Cooperative Gypsy Moth suppression and Regulatory Program, 1974.	EPA generally agreed with the proposed program but identified a proposed use of carbaryl for spraying recreational vehicles as an unregistered use of the chemical, however, the Department of Agriculture has stated they will request this registration.	A
Corps of Engineers (Civil Works):			
FS-COE-32071-FL	Jacksonville Harbor, Sections 1 and 2, Florida.	EPA generally agreed with the project as proposed.	E
F-COE-31070-GA	Closure of Academy Creek, Brunswick Harbor, Ga.	EPA requested the COE to supplement the final statement to enable the Agency to complete a full environmental evaluation of the project.	E
F-COE-34081-TX	Aubrey Lake Project, Elm Fork of the Trinity River, Tex.	EPA had no objections to the project as proposed.	G
F-COE-99003-NY	U.S. Postal Service, Manhattan Vehicle Maintenance Facility, New York.	This project has been further studied and modified by the Corps of Engineers in response to EPA questions and recommendations on two draft environmental impact statements. Housing above the vehicle maintenance facility will be adequately protected from air contaminants. Additional emissions to the surrounding area will be minimal while existing ambient noise levels will remain high.	C
Department of the Interior:			
F-IBR-31038-CA	San Luis Water District Distribution Works, California.	The final statement adequately assessed the environmental impact of the proposed action and responds to the various concerns raised with respect to the draft statement.	J
F-IBR-31042-AZ	Gila Gravity Main Canal, Rehabilitation and Betterment, Arizona.	The final statement adequately assessed the environmental impact of the proposed action and responds to the various concerns raised with respect to the draft statement.	J
Department of Transportation:			
F-FAA-51335-KY	Wayne County Airport, Monticello, Ky.	EPA generally agreed with the project as proposed.	E
FS-FHW-41404-TX	Highway 190, west of Molanville to Balton, Bell County, Tex.	EPA requested that the air quality analysis provide more information on background levels of hydrocarbons in the vicinity of the proposed project.	G
FS-FHW-41866-TX	State Highway 31 from 34th St. in Corsicana to the Hill County Line, Navarro County, Tex.	EPA requested to improve air quality analysis the provision of total pollutant loads for CO and photochemical oxidants under existing conditions.	G
F-FHW-41881-AZ	McConnico-Kingman and Kingman Interstate Freeway, Mojave County, Ariz.	The final statement adequately assessed the environmental impact of the proposed action and responds to the various concerns raised with respect to the draft statement.	J
F-FHW-42208-OK	U.S. 69, Muskogee and Wagoner Counties, Okla.	EPA requested that additional information be provided with respect to air quality analysis.	H
F-FHW-42254-OH	State Route 76 near the Village of Holmesville, Holmes County, Ohio.	EPA did not review the draft, however, EPA generally had no objections to the project as proposed.	F

APPENDIX IV:—*Regulations, legislation and other Federal agency actions for which comments were issued between May 1, 1974, and May 15, 1974*

Identifying No.	Title	General nature of comments	Source for copies of comments
Department of Commerce:			
R-NOA-90004-00	15 CFR Part 922—Marine Sanctuaries, Program Guidelines.	EPA found the proposed guidelines to be generally adequate; however, it requested that some examples of limited use be stated in the guidelines, and that procedures for modifying or discontinuing a sanctuary also be detailed. In addition, EPA also suggested modification of several other sections of the guidelines, to aid in strengthening them from an environmental viewpoint.	A
Department of the Interior:			
R-BIA-01025-00	25 CFR 183—Leasing, Osage Reservation Lands for Oil and Gas Mining.	The Environmental Protection Agency has reviewed the proposed regulations and found them to be generally adequate, but suggested measures for strengthening their effectiveness and interpretation. General comments were centered about the responsibilities of the "mining superintendent" whereas more specific comments related to control and abatement of pollution arising from the mining operations.	A
Department of Transportation:			
R-CGD-99078-00	33 CFR Part 159—Marine Sanitation Devices, Proposed Certification Procedures and Design and Construction Requirements.	The Environmental Protection Agency generally agrees with the regulation as written. Technical comments were offered and the terminology, "visible floating solids," was clarified as meaning EPA's standard is intended to be an aesthetic consideration. It was strongly recommended that a statement be included in the final regulation to the effect that Coast Guard certification of flow through devices applies only where devices are not prohibited from use in no-discharge zones by State or Federal Law (sec. 312(F)(3) and 312 (F)(4) of Public Law 92-500).	A

APPENDIX V

SOURCE FOR COPIES OF EPA COMMENTS

A. Director, Office of Public Affairs, Environmental Protection Agency, 401 M Street, SW., Washington, D.C. 20460.

B. Director of Public Affairs, Region I, Room 2303, John F. Kennedy Federal Building, Boston, Massachusetts 02203.

C. Director of Public Affairs, Region II, Environmental Protection Agency, Room 847, 26 Federal Plaza, New York, New York 10007.

D. Director of Public Affairs, Region III, Environmental Protection Agency, Curtis Building, 6th and Walnut Streets, Philadelphia, Pennsylvania 19106.

E. Director of Public Affairs, Region IV, Environmental Protection Agency, Suite 300, 1421 Peachtree Street, NE., Atlanta, Georgia 30309.

F. Director of Public Affairs, Region V, Environmental Protection Agency, 1 N. Wacker Drive, Chicago, Illinois 60606.

G. Director of Public Affairs, Region VI, Environmental Protection Agency, 1600 Patterson Street, Dallas, Texas 75201.

H. Director of Public Affairs, Region VII, Environmental Protection Agency, 1735 Baltimore Street, Kansas City, Missouri 64108.

I. Director of Public Affairs, Region VIII, Environmental Protection Agency, Lincoln Tower, Room 916, 1860 Lincoln Street, Denver, Colorado 80203.

NOTICE OF RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 979), and its procedures for implementation. This policy provides that EPA will, upon receipt of every application, publish in the Federal Register a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-37, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before August 12, 1974, any person who (a) is or has been an applicant, (b) desires to assert a claim for compensation under section 3(c)(1)(D) against another applicant proposing to use supportive data previously submitted and approved, and (c) wishes to preserve his opportunity for determination of reasonable compensation by the Administrator must notify the Administrator and the applicant named in the Federal Register of his claim by certified mail. Every such claimant must include, at a minimum, the information listed in this interim policy published on November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy in regard to usage of existing supportive data for registration will be processed in accordance with existing procedures. Applications submitted under 2(c) will be held for the 60-day period before commencing processing. If claims are not received, the application will be processed in normal procedure. However, if claims are received within 60 days, the applicants against whom the particular claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after August 12, 1974.

APPLICATIONS RECEIVED

EPA File Symbol 1363-CO. Acme Chemical Company, 2506 North 32nd Street, Milwaukee, Wisconsin 53245. *Acco Algicide 15-01.* Active Ingredients: Poly [oxyethylene(dimethyliminio) ethylene (dimethyliminio)-ethylene dichloride] 15.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 32991-R. Ashland Chemical Co., Box 6066, Kansas City, Kansas 66106. *Glidco Pine Oil—150.* Active Ingredients: Pine Oil 100%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 6414-T. Bain Pest Control Service, 347 Central Street, Lowell, Massachusetts 01852. *Checker Brand 72% Chlordane Spray Kills Ants and Lawn Insects.* Active Ingredients: Technical Chlordane 72.0%; Petroleum Distillate 21.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 960-ROL. Balcom Chemicals, Inc., P.O. Box 667, 240 22nd Street, Greeley, Colorado 80631. *Clean Crop Methyl Parathion-Toxaphene 3-6 EC.* Active Ingredients: Methyl Parathion 25.8%; Toxaphene 51.5%; Xylene 8.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 6125-RT. Bixon Chemical Company, 50-19 97th Place, Corona, New York 11368. *Food Plant Fogging Insecticide.* Active Ingredients: Pyrethrins 0.5%; Piperonly Butoxide, Technical 5.0%; Petroleum Distillate 94.5%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 4-131. Bonide Chemical Co., 2 Wurz Avenue, Yorkville, New York 13495. *Captan—50% WP.* Active Ingredients: Captan N-(trichloromethyl) thio-4-cyclohexene-1,2-dicarboximide 50%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 34132-R. Cealin Chemicals, 6141 Arlington Expressway, Jacksonville, Florida 32211. *Trichlorin.* Active Ingredients: Potassium Dichloroisocyanurate 100%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 34132-E. Cealin Chemicals, 6141 Arlington Expressway, Jacksonville, Florida 32211. *Duochlorin.* Active Ingredients: Sodium isocyanurate 100%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 239-EUEL. Ortho Division, Chevron Chemical Company, 940 Hensley Street, Richmond, California 94804. *Ortho Weed-B-Gon Lawn Weed Killer.* Active Ingredients: Butoxy propyl esters of 2,4-dichlorophenoxyacetic acid 21.4%; Butoxy propyl esters of silvex [2-(2,4,5-trichlorophenoxy) propionic acid] 10.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 8203-EG. Chipman Chemicals Limited, P.O. Box 3100, Station C, Hamilton, Ontario L8H7K5. *Chipman 2,4-D Amine 80 2,4-D Liquid Weedkiller.* Active Ingredients: 2,4-D Acid 43.06%; Dimethylamine 14.72%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 192-RRN. Dexol Industries, 1450 West 228th Street, Torrance, California 90501. *Dexol Fruit & Vegetable Spray.* Active Ingredients: Rotenone 1.1%; Other Cube Extractive 2.2%; Pyrethrins 0.8%; Petroleum Distillate 3.2%; Aromatic Petroleum Hydrocarbons 84.7%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 352-GAE. E. I. Du Pont De Nemours & Company (Inc.), 6054 DuPont Building, Wilmington, Delaware 19898. *Du-Pont Lannate WP Methomyl Insecticide.* Active Ingredients: S-methyl-N-[(Methylcarbamoyl)oxy]thioacetimidate 25%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 8764-ET. FMC Corporation, Citrus Machinery Division, P.O. Box 552, Riverside, California 92502. *Fungicide Conc. 2020.* Active Ingredients: Benomyl Methyl 1-(butylcarbamoyl)-2-benzimidazolecarbamate 10.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 8764-EA. FMC Corporation, Citrus Machinery Division, P.O. Box 552, Riverside, California 92502. *Fungicide conc. 1015.* Active Ingredients: Benomyl Methyl 1-(butylcarbamoyl)-2-benzimidazolecarbamate 10.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 279-EOTA. FMC Corporation, Agricultural Chemical Division, 100 Niagara Street, Middleport, New York 14105. *Pyrenone Multi-Purpose Insecticide code 250-15.* Active Ingredients: Pyrethrins 0.5%; Piperonyl Butoxide, Technical 5.0%; Petroleum Distillate 4.3%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 34139-R. G & G Chemical Co., Inc., 1550 Carroll Avenue, San Francisco, California 94124. *Formula 4026 Sanitizer-Cleaner.* Active Ingredients: Alkyl (60% C14, 30% C16, 5% C12, 5% C18) Dimethyl Benzyl Ammonium Chlorides 1.28%; Alkyl (68% C12, 32% C14) Dimethyl Ethylbenzyl Ammonium Chlorides 1.28%; Sodium carbonate 2.00%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 9998-G. Gardner Corporation, 311 Whelis Street, P.O. Box 35, West Monroe, Louisiana 71291. *Pine + Plus Pine Odor Disinfectant.* Active Ingredients: Pine Oil 9.00%; Soap 8.50%; Ortho-benzyl-para-chlorophenol 5.00%; Isopropyl alcohol 3.00%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 8544-RL. General Pool Supply, 8700 Bellanca Avenue, Los Angeles, California 90045. *Sani-Tab 300.* Active Ingredients: Trichloro-s-Triazinetrione 100%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4651-RE. Hunter Chemicals, Inc., P.O. Box 14532, Houston, Texas 77021. *Hunter's Disinfectant Concentrate 510.* Active Ingredients: Alkyl (C14 58%, C16 28%, C12 14%) dimethyl benzyl ammonium chloride 10.00%; Sodium Carbonate 1.00%; Ethylenediaminetetraacetic acid, tetrasodium salt 0.38%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 2342-OGU. Kerr-McGee Chemical Corporation, Kerr-McGee Center, Oklahoma City, Oklahoma 73125. *KM Fasco Susperse Nu-Tri-Hi-Cop.* Active Ingredients: Copper as metallic 70.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 2342-OGN. Kerr-McGee Chemical Corporation, Kerr-McGee Center, Oklahoma City, Oklahoma 73125. *Fasco Toxaphene Bait-8.* Active Ingredients: Toxaphene (Technical Chlorinated Camphene containing 67% to 69% Chlorine) 8.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 30943-RA. Lea Chemicals, P.O. Box 868, Marianna, Florida 32446. *Lea Bowl White Disinfectant.* Active Ingredients: Isopropanol 10.0%; Hydrogen Chloride 7.86%; n-Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chloride 5.0%; phosphoric acid 4.50%; nonyl phenoxy polethoxy ethanol 3.0%; Bis (tri-n-butyltin) oxide 0.95%; Essential oils 0.4%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 1021-RGRI. McLaughlin Gormley King Company, 8810 Tenth Avenue North, Minneapolis, Minnesota 55427. *MGK Pyrocide Fogging Formula 7221.* Active Ingredients: Pyrethrins 0.6%; Piperonyl butoxide, technical 3.0%; Petroleum distillate 96.4%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11800-RE. Midwest Agricultural Warehouse Co., 200 South Main, Fremont, Nebraska 68025. *Clean Crop Captan—Heptachlor Seed Protectant.* Active Ingredients: N-[(trichloromethyl) thio]-4-cyclohexene-1,2-dicarboximide 10.0%; Heptachlorotetrahydro-4,7-methanoidene (Heptachlor) 25.0%; Related Compounds 9.7%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5967-REI. Moyer Chemical Company, 1310 Bayshore Highway, P.O. Box 945, San Jose, California 95108. *Moyer Dormant Emulsion.* Active Ingredients: Petroleum Oil 80.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5967-RET. Moyer Chemical Company, 1310 Bayshore Highway, P.O. Box 945, San Jose, California 95108. *Moyer Dormant Soluble.* Active Ingredients: Petroleum Oil 99.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 1258-OIR. Olin Corporation, P.O. Box 991, Little Rock, Arkansas 72203. *Olin Calcium Hypochlorite Sanitizer—40%.* Active Ingredients: Calcium Hypochlorite 40%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 3635-ROT. Oxford Chemicals, P.O. Box 80202, Atlanta, Georgia 30341. *Oxford 1922 Disinfectant—Detergent.* Active Ingredients: Isopropanol 11.12%; Tetrasodium ethlylenediamine tetraacetic acid 4.00%; Sodium o-benzyl-p-chlorophenate 3.75%; Sodium para-tertiary butylphenol 3.28%; Sodium xylene sulfonate 3.20%; Sodium lauryl sulfonate 3.00%; Sodium 4-chloro-2-cyclopentyl phenate 2.35%; Sodium 2,4,5-trichlorophenate 2.32%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 3635-ROA. Oxford Chemicals, P.O. Box 80202, Atlanta, Georgia 30341. *Oxford BiopHect Disinfectant—Detergent.* Active Ingredients: Dodecylbenzene sulfuric acid 19.2%; Isopropanol 16.3%; Phosphoric acid 4.5%; P-tertiary-butyl phenol 4.1%; O-benzyl-p-chlorophenol 3.8%; 4-chloro-2-cyclopentyl phenol 1.1%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 13680-RT. Ozark Chemical Company, 413 East 10th Street, No. Little Rock, Arkansas 72203. *Sanadine Liquid Iodine Bearing Detergent/Sanitizer.* Active Ingredients: Nonylphenoxpoly (ethyleneoxy) ethanol Iodine Complex (providing 1.75% available iodine) 8.75%; Phosphoric Acid 8.00%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 4389-TN. Pacific Chemical, Division Pace National Corporation, 500 7th Avenue South, Kirkland, Washington 98033. *Master Cax, A Heavy Duty Cleaner-Santizer-Deodorizer.* Active Ingredients: Sodium Hydroxide 30%; Sodium Carbonate 30%; Trisosodium Phosphate 15%; Sodium Dichloro-s-triazinetrione 1%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4389-AO. Pacific Chemical, Division Pace National Corporation, 500 7th Avenue South, Kirkland, Washington 98033. *Pole Top Fluid.* Active Ingredients: Pentachlorophenol 8.6%; Other chlorinated phenols and related compounds 1.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 4389-AI. Pacific Chemical, Division Pace National Corporation, 500 7th Avenue South, Kirkland, Washington 98033. *Alldet—76 Detergent-Sanitizer for Food Processors.* Active Ingredients: Sodium metasilicate 16.0%; Sodium carbonate 15.0%; Sodium dichloro-s-triazinetrione 2.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 655-87. Prentiss Drug & Chemical Co., Inc., 363 Seventh Avenue, New York, New York 10001. *Prentex Pyronyl 75—an Insecticide for Formulating Use.* Active Ingredients: Piperonyl Butoxide, Technical 75.00%; Pyrethrins 7.50%; Deodorized Kerosene 17.50%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11963-R. Roman Chemical Corp., P.O. Box 1462, Rome, Georgia 30161. *Roman Mint 7 Disinfectant-Detergent Sanitizer-Deodorizer.* Active Ingredients: Alkyl (C14 58%, C16 28%, C12 14%) dimethyl benzyl ammonium chloride 2.0%; Isopropanol 2.0%; Methyl salicylate 0.5%. Method of Support: Application proceeda under 2(b) of interim policy.

EPA File Symbol 11963-L. Roman Chemical Corp., *Roman Lemon 7 Disinfectant-Detergent Sanitizer-Deodorizer.* Active Ingredients: Alkyl (C14 58%, C16 28%, C12 14%) dimethyl benzyl ammonium chloride 2.00%; Isopropanol 1.00%; Essential Oils 0.25%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 11963-U. Roman Chemical Corp. *Roman Pine 13 Disinfectant-Detergent Sanitizer-Deodorizer.* Active Ingredients; Isopropanol 9.50%; Pine oil 7.90%; Alkyl (C14 58%, C16 28%, C12 14%) dimethyl benzyl ammonium chloride 3.95%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 11963-G. Roman Chemical Corp. *Roman Lemon 15 Disinfectant-Detergent Sanitizer-Deodorizer.* Active Ingredients: Alkyl (C14 58%, C16 28%, C12 14%) dimethyl benzyl ammonium chloride 4.0%; Isopropanol 2.0%; Essential Oils 0.5%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 11963-E. Roman Chemical Corp. *Roman Mint 15 Disinfectant-Detergent Sanitizer-Deodorizer.* Active Ingredients: Alkyl (C14 58%, C16 28%, C12 14%) dimethyl benzyl ammonium chloride 4.00%; Isopropanol 4.00%; Methyl Salicylate 1.00%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 11963-A. AMERICAN CYANAMID CO.

Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 4F1496) has been filed by American Cyanamid Co., Post Office Box 400, Princeton, NJ 08540, proposing establishment of tolerances (40 CFR Part 180) for combined negligible residues of the insecticide S[(*tert*-butylthio) methyl]*O,O*-diethyl phosphorodithioate and its cholinesterase-inhibiting metabolites in or on the raw agricultural commodities field corn grain, fodder, and forage at 0.05 part per million.

The analytical method proposed in the petition for determining residues of the insecticide is a gas-liquid chromatographic procedure using a thermionic detector.

Dated: June 1, 1974.

[OPP–32008]

ELI LILLY & COMPANY

Registration of a Pesticide Product Containing Chlorophenothane (DDT)

Pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973), Eli Lilly & Company applied to the Environmental Protection Agency to register a pesticide product containing chlorophenothane (DDT). Notice of receipt of this application was published in the Federal Fegister (38 FR 22509).

On the basis of the information furnished by the applicant, this pesticide product was registered under the Act as amended on May 9, 1974, as follows:

EPA Reg. No. 1471–98. Eli Lilly & Co., Indianapolis, Indiana 46206. Lilly Liquid No. 31, Topocide Benzyl Benzoate Compound, Topical. Active Ingredients: Benzyl Benzoate 12%; Benzocaine 2%; Chlorophenothane (name used in medicine and pharmacy for DDT) 1%. Uses: For infestations with *Phthirus pubis* (crab louse) *Sarcoptes scabiei* (scabies), and *Pediculus capitis* (head louse).

Registration of this product is consistent with the Order of the Administrator of June 14, 1972, which was published in the Federal Register of July 7, 1972 (37 FR 13399). This Order did not cancel those uses of DDT intended for public health disease control, health quarantine, and prescription drugs. Registration is in no way to be construed as an endorsement or approval of this product by the Environmental Protection Agency.

A copy of the registered label for this product is on view to the public at the Environmental Protection Agency, 401 M Street, SW., Room B31—East Tower, Washington, D.C. 20460, during normal working hours (8 a.m. to 4:30 p.m.), Monday through Friday.

Dated: June 5, 1974.

James L. Agee,
Acting Assistant Administrator
for Water and Hazardous Materials.

FMC CORP.

Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 4F1482) has been filed by FMC Corp., 100 Niagara Street, Middleport, New York 14105, proposing establishment of a tolerance (40 CFR Part 180) for combined residues of the insecticide carbofuran (2,3-dihydro-2,2-dimethyl-7-benzofuranyl-*N*-methlycarbamate); its carbamate metabolite 2,3-dihydro-2,2-dimethyl-3-hydroxy-7-benzofuranyl - *N* - methylcarbamate; and its phenolic metabolites 2,3-dihydro-2,2-dimethyl -7 - benzofuranol, 2,3-dihydro-2,2-dimethyl-3-oxo-7-benzofuranol, and 2,3-dihydro-2,2-dimethyl-3,7-benzofurandiol in or on the raw agricultural commodity strawberries at 0.5 part per million, of which no more than 0.2 part per million is carbamates.

The analytical method proposed in the petition for determining residues of the insecticide and its metabolites is a gas chromatographic procedure using a nitrogen specific detector. The phenolic metabolites are first converted to their 2,4-dinitrophenyl ethers by reacting with 1-fluoro-2,4-dinitrobenzene.

Dated: June 1, 1974.

INTERIOR DEPARTMENT

Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 4F1494) has been filed by the United States Department of the Interior, Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20250, proposing establishment of tolerances (40 CFR Part 180) for residues of phosphine from use of the rodenticide zinc phosphide in or on the raw agricultural commodities rangeland grasses, forbs (broadleaf herbs), and shrubs at 0.1 part per million.

The analytical method proposed in the petition for determining residues of the rodenticide is one in which zinc phosphide is hydrolyzed to phosphine gas which is then measured by a gas chromatographic procedure using a flame photometric detector.

Dated: June 1, 1974.

UPJOHN CO.

Filing of Petition Regarding Pesticide Chemical

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408 (d)(1), 68 Stat. 512; 21 U.S.C. 346a(d)(1)), notice is given that a petition (PP 4F1500) has been filed by The Upjohn Co., Kalamazoo, MI 49001, proposing revision of the existing tolerance (40 CFR 180.200) for residues of the fungicide 2,6-dichloro-4-nitroaniline in or on the raw agricultural commodity apricots at 20 parts per million to allow postharvest application.

The analytical method proposed in the petition for determining residues of the fungicide is a gas chromatographic procedure utilizing an electron capture detector.

Dated: June 1, 1974.

FEDERAL COMMUNICATIONS COMMISSION

CABLE TELEVISION TECHNICAL ADVISORY COMMITTEE, PANEL 9

Notice of Public Meeting

June 5, 1974.

Pursuant to Pub. L. 92–463, notice is hereby given of a meeting of the CTAC Panel 9 Committee on June 24, 1974, to be held at the RCA Laboratory, Main Entry, Princeton, New Jersey. The time of the meeting is 10 a.m.

The agenda is as follows:

(1) Approval of Minutes.
(2) Report on Steering Committee Activities.
(3) Review of Panel 9 Final Report.
(4) Final Report of Subcommittee Data System Survey.
(5) Draft of Recommendations to FCC.
(6) Establish Date, Time and Place for Next Meeting.

Any member of the public may attend or may file a written statement with the Committee either before or after the meeting. Any member of the public wishing to make an oral statement must consult with the Committee prior to the meeting. Inquiries may be directed to Mr. Cort Wilson, FCC, 1919 M Street NW., Washington, D.C. 20554—(202) 632–9797.

Dated: June 4, 1974.

Federal Communications Commission,
[seal] Vincent J. Mullins,
Secretary.

[Docket Nos. 20067, 20068]

STEAMBOAT BROADCASTING CO. AND BIG COUNTRY RADIO, INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Mountain States Communications, Inc., d/b as Steamboat Broadcasting Co., Steamboat Springs, Colorado, Docket No. 20067, File No. BP-19394; Requests: 1230 kHz, 250 W, 1 kW-LS, U; Big Country Radio, Inc., Steamboat Springs, Colorado, Docket No. 20068, File No. BP-19443; Requests: 1230 kHz, 250 W, 1 kW-LS, U; for construction permits.

1. The Commission, by the Chief of the Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned applications which are mutually exclusive in that operation by the applicants as proposed would result in mutually destructive interference.

2. The community survey portion of the application of Mountain States Communications, Inc., d/b as Steamboat Broadcasting Co., states that the main sources of income in the Steamboat Springs vicinity are tourism, recreation, agriculture (hay and cattle) and coal mining. While the survey included leaders from three of the four aforementioned groups, the applicant has apparently failed to interview any miners, mine labor leaders, or mine owners. In addition, the applicant's original survey stated that the community leader interviews and general public contacts were conducted by William R. Dunaway and two college students. The amendment to the survey section stated that all interviews were conducted by William R. Dunaway personally. The amendment then went on to state that the list of those interviewed was previously included in the original survey exhibit. As a result, it remains uncertain who, if anyone, was contacted by the two college students. Unless the college students fit the requirements of question and answer 11(a) and (b) of the Primer on the Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650 (1971), any interviews conducted by them must be disregarded. Accordingly, a Suburban[1] issue will be included.

3. Big Country Radio, Inc., has apparently failed to interview any religious or educational leaders, despite the fact that these groups are significant. Accordingly, an appropriate issue has been included as to this applicant as well.

4. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

5. *Accordingly, it is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the efforts made by the applicants to ascertain the community problems of the area to be served and the means by which the applicants propose to meet those problems.

2. To determine which of the proposals would, on a comparative basis, better serve the public interest.

3. To determine, in light of the evidence adduced pursuant to the foregoing issues which, if either, of the applications should be granted.

6. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to § 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

7. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and § 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by § 1.594(g) of the rules.

Adopted: June 3, 1974.

Released: June 4, 1974.

Federal Communications Commission,
[seal] Wallace E. Johnson,
Chief, Broadcast Bureau.

SECURITIES AND EXCHANGE COMMISSION

SOURCE CAPITAL, INC. AND COMPUTER EXCHANGE, INC.

[812-3619]

Filing of Application

June 3, 1974.

Notice is hereby given that Source Capital, Inc., 1888 Century Park East, Los Angeles, California 90067 ("Source Capital"), a closed-end, diversified management investment company registered under the Investment Company Act of 1940 ("Act"), and The Computer Exchange, Inc., 11 Grace Avenue, Great Neck, New York 11021 ("Computer Exchange"), a Delaware corporation (collectively "Applicants"), have filed an application for an order of the Commission, pursuant to section 17(b) of the Act, exempting from section 17(a) of the Act the proposed repurchase by Computer Exchange from Source Capital of 175,000 shares of Computer Exchange Common Stock (the "Shares") and warrants to purchase an additional 75,000 shares of Computer Exchange Common Stock (the "Warrants") for an aggregate purchase price of $100,000. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein, which are summarized below.

Pursuant to an agreement dated January 31, 1969 (the "Agreement") between Source Capital and Computer Exchange, a company primarily engaged in the purchase and sale of used computers and related equipment, Source Capital purchased the Shares and Warrants for an aggregate purchase price of $1,500,000. The Agreement granted to Source Capital the right to require Computer Exchange to register under the Securities Act of 1933 ("Securities Act") the Shares, the Warrants, and shares issued upon exercise of the Warrants.

The Shares represent approximately 20 percent of the outstanding Computer Exchange Common Stock. By reason of such ownership, Computer Exchange and Source Capital are "affiliated persons" as that term is defined in section 2(a)(3) of the Act. Apart from Source Capital's ownership of the Shares and Warrants, Applicants represent that there is no relationship between Computer Exchange and Source Capital.

Source Capital's management states the repurchase is in the best interests of Source Capital in that the repurchase price is approximately equal to its estimate of the value of the Shares and Warrants and permits the liquidation of its investment without the attendant costs and market risks of alternative dispositions. Source Capital also states that it will not incur any underwriting or brokerage commissions or expenses. Source Capital and Computer Exchange will each pay one-half of the out-of-pocket expenses of the other party in connection with the transaction to a maximum of $5,000. Source Capital represents that the proposed transaction is consisent with its investment policies.

Computer Exchange's management states that the repurchase of the Shares and Warrants is in its best interests and that of its shareholders because (1) Computer Exchange would thereby avoid the substantial expense of registration of the Shares and Warrants under the Securities Act as well as the substantial and continual expense and burden it would be contractually obligated to incur in keeping a registration statement current with respect to the Warrants and Shares issuable upon exercise hereof; (2) the proposed transaction would serve to avoid the disorderly impact in the over-the-counter market which might result from the offering of the Shares and Warrants; and (3) Computer Exchange is presently in a favorable position to pay the price for the Shares and Warrants, a price substantially less than originally received by Computer Exchange.

Computer Exchange Common Stock is traded in the over-the-counter market. The following table, as set forth in the application, shows the high and low bid prices and the high and low asked prices of Computer Exchange Stock as reported by the National Quotation Bureau, Inc. for the periods indicated.

	High bid	Low bid	High asked	Low asked
1971:				
1st quarter	6⅝	3⅝	7	4⅛
2d quarter	6	4⅝	6¼	5⅛
3d quarter	5⅛	2⅝	6	3⅜
4th quarter	3¼	1¼	3¾	1¾
1972:				
1st quarter	2⅜	1¼	2⅞	1¾
2d quarter	2⅝	1¾	3⅜	2¼
3d quarter	1¾	1⅛	2¼	1¾
4th quarter	1¼	½	1½	1
1973:				
1st quarter	¾	½	1¼	⅞
2d quarter	¾	⅜	1¼	⅞
3d quarter	⅝	⅛	1	½
4th quarter	½	⅛	⅞	⅜
1974: January	⅜	¼	¾	¾

On Feburary 20, 1974, the bid and asked quotations for Computer Exchange Stock were reported to be ¼ and ¾ respectively. There is no public market for the Warrants.

Applicants also represent that the terms of the proposed repurchase of the Shares and Warrants by Computer Exchange is the result of arms-length negotiation and is preferable to the alternative dispositions which may otherwise be undertaken. Applicants further represent that the proposed repurchase is reasonable and fair and does not involve overreaching on the part of any person concerned and that the transaction is consistent with the general purposes of the Act.

Section 17(a) of the Act, as here pertinent, makes it unlawful for an affiliated person of a registered investment company, acting as principal, to sell to or purchase from such registered investment company any securities or other property. Section 17(b) of the Act provides that the Commission, upon application, may exempt a proposed transaction from the provisions of section 17(a) if the evidence established that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned and that the proposed transaction is consistent with the policy of such investment company and the general purposes of the Act.

Notice is further given, That any interested person may, not later than June 26, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, on order disposing of the application will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[seal] George A. Fitzsimmons,
Secretary.

FEDERAL HOME LOAN BANK BOARD

[H. C. 175]

BEL-FRAN INVESTMENTS LTD., ET AL.

Notice of Receipt of Application for Permission to Acquire Control of State Mutual Savings and Loan Association

June 6, 1974.

Notice is hereby given that the Federal Savings and Loan Insurance Corporation has received an application from First City Financial Corporation Ltd., Vancouver, British Columbia, Canada, for approval of acquisition of control of the State Mutual Savings and Loan Association, Los Angeles, California, under the provisions of section 408(e) of the National Housing Act, as amended (12 U.S.C. 1730a(e)), and § 534.4 of the regulations for Savings and Loan Holding Companies. First City Financial is controlled by Bel-Fran Investments Ltd., Bel-Cal Holdings Ltd., and Bel-Alta Holdings Ltd., Edmonton, Alberta, Canada. State Mutual Savings and Loan Association is currently controlled by Far West Financial Corporation. First City Financial intends to effect its acquisition of State Mutual Savings and Loan Association by purchasing for cash shares of Far West Financial Corporation. Comments on the proposed acquisition should be submitted to the Director, Holding Companies Section, Office of Examinations and Supervision, Federal Home Loan Bank Board, Washington, D.C. 20552, on or before July 11, 1974.

[seal] Eugene M. Herrin,
Secretary,
Federal Home Loan Bank Board.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on June 6, 1974 (44 USC

V 39 — 113 JUN 11 74 XUM

3509). The purpose of publishing this list in the Federal Register is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget Washington, D.C. 20503 (202-395-4529).

NEW FORMS

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Center for Disease Control: Occupational Safety Priorities Survey, Form CDC 2.4, Single time, Ellett, Safety professionals.
Health Resources Administration:
  A Prototype Course in Rural Prepaid Health Care for Advanced Medical and Dental Students and its Effects on Student Attitudes, Form HRABHRD 0531, Occasional HRD/Planchon, Advanced medical or dental students.
  Intern and Resident Task Inventory Forms, Form HRABHRD 0521, Single time, Reese, Interns and resident physicians.
  Survey of Quality Assurance and Utilization Review Mechanisms, Form HSABCHS, 0404, Single time, HRD/Lowry, 37 HMO-like organizations.
National Institutes of Health:
  Birth Defects and Contraceptive Study, Form NIH CH 18, Single time, Reese, Women who recently delivered.
  Congenital Hearth Disease Study, Form ------, Single time, Reese, Women who recently delivered.

Architectural/Engineering Firm Supplement, Form NIH OD-5, Annual, Sheftel, Architectural/engineering firms.

SMALL BUSINESS ADMINISTRATION

[License No. 08/08-0034]

FIRST DAKOTA CAPITAL CORP.

Filing of Application for Approval of Conflict of Interest Transaction

Notice is hereby given that First Dakota Capital Corporation (First Dakota), Suite 110 Professional Building, 100 South 4th, Fargo, North Dakota 58102, a Federal Licensee under the Small Business Investment Act of 1958, as amended (Act), has filed an application pursuant to § 107.1004 of the Regulations governing small business investment companies (13 CFR 107.1004 (1974), for an exemption from the provisions of the conflict of interest regulation.

The exemption, if granted, will permit First Dakota to provide a $60,000 financing to Speedo Electronics and Automation, Inc. (Speedo), and receive warrants to purchase 40 percent of the outstanding shares of Speedo. The warrants obtained will have a purchase price per share ranging from $4.00 per share during the first year of the warrant to $5.86 per share during the fifth year.

A portion of the proposed financing, an amount of $25,000, will be used to repay an obligation in full of Speedo's to Mr. John C. Schultz and Mr. John H. Lindsay. The warrants to purchase 40 percent of Speedo's outstanding stock, issued to Messrs. Schultz and Lindsay, in connection with this obligation will be cancelled. Messrs. Schultz and Lindsay are both officers, directors and 10 percent or more shareholders of First Dakota.

Information provided by the Applicant in connection with this application and information contained in the files of the Small Business Administration (SBA) indicate that:

1. The financing provided by Messrs. Schultz and Lindsay to Speedo was initiated in September 1973, at a time when Speedo urgently needed financing to begin its operations.

2. At the time the financing was provided by Messrs. Schultz and Lindsay, it was contemplated that the obligation would be offered to be assigned to First Dakota when it received its small business investment company (SBIC) license.

3. On September 7, 1973, preliminary steps were taken towards meeting the SBA requirements for an SBIC license for First Dakota which culminated in the licensing of First Dakota by SBA on November 9, 1973.

4. First Dakota's proposed long-term financing is needed by Speedo for working capital to meet the expanding needs of its business in designing, manufacturing and installing and selling electrical and electronic controlled systems.

5. Subsequent to the proposed financing, Messrs. Schultz and Lindsay will not individually be connected in any manner with Speedo.

6. On April 12, 1974, First Dakota's board of directors, with Messrs. Schultz and Lindsay abstaining from voting, adopted by unanimous vote a resolution providing for the proposed financing of Speedo. All shareholders of First Dakota are also members of the board of directors.

Pursuant to the provisions of § 107.3 (a) and (b) of the regulations, Messrs. Schultz and Lindsay are considered to be associates of First Dakota. As such, the transaction will require an exemption pursuant to § 107.1004(b)(4) of the regulations.

Notice is hereby given that any interested person may, on or before June 26, 1974 submit to the Small Business Administration (SBA), in writing, relevant comments on the proposed transaction. Any such communications should be addressed to: Associate Administrator for Finance and Investment, Small Business Administration, 1441 "L" Street, N.W., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Fargo, North Dakota.

Dated: June 3, 1974.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[V-73-12]

BETHLEHEM STEEL CORP.

Grant of Variance

I. *Background.* Bethlehem Steel Corporation, Sparrows Point Plant, Sparrows Point, Maryland 21219 made application pursuant to section 6(b)(6)(A) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1594; 29 U.S.C. 655) and 29 CFR 1905.10 for a temporary variance and for an interim order pending a decision on the application for a variance, from the safety standards prescribed in 29 CFR 1910.23(a)(8) (i) and (ii). The standard requires that every floor hole into which a person can accidentally walk shall be guarded by either a standard railing with toeboard or a floor hole cover hinged in place. Notice of the application for variance was published in the Federal Register on March 16, 1973 (38 FR 7155). The notice invited interested persons, including affected employers and employees, to submit written data, views, and arguments regarding the grant or denial of the variance requested. In addition, affected employers and employees were permitted to request a hearing on the application for a variance. No written comments and no request for a hearing have been received.

II. *Facts.* The applicant manufactures steel rods at its #3 Rod Mill by a compress and tie mandrel in-line method. This process necessitates a floor opening approximately 2½′ by 6′. Standard guardrails have not been installed at the floor opening because the coiled rods could become entangled in them. Spring-loaded floor covers have been discussed, but due to the likelihood of coil tangles, broken straps, etc., their use would not be practical.

The following precautions are taken to protect employees. Chain guardrails, a pipe rail and toeboards are used, unauthorized personnel are not permitted in the area, and extensive safety programs and inspections are in effect.

The applicant originally expected to be in compliance with the standard by the third quarter of 1973 by changing to an off-line compress and tie operation, and completely covering the floor opening. However, on November 16, 1973 the applicant amended its application to state that the expected delivery of necessary parts had not been made. The applicant now expects to have the new system operational and to be in compliance with the standard by June 30, 1974.

III. *Decision.* 29 CFR 1910.23(a)(8) (i) and (ii) requires that every floor hole into which a person can accidentally walk shall be guarded by either a standard railing with toeboard or a floor hole cover hinged in place.

The applicant has shown that a time extension is needed to come into compliance with the standard. It has also shown that it is taking steps to protect its employees by using chain guardrails, pipe rails and toeboards, restricting entry, and utilizing extensive safety programs and inspections.

In the situation described in the application, it is evident that the use of a standard railing or floor hole cover would interfere with necessary work. It is also evident that the employer is making every effort to maintain a workplace free from hazard while making the modifications necessary to come into compliance with the standard.

IV. *Order.* Pursuant to authority in section (6)(b)(6)(A) of the Williams-Steiger Occupational Safety and Health Act of 1970, 29 CFR Part 1905, and in Secretary of Labor's Order No. 12-71 (36 FR 8754), it is ordered that Bethlehem Steel Corporation, No. sign 3 Rod Mill, Sparrows Point Plant be, and it is hereby, authorized to use its present method of safeguarding its floor opening, which utilizes chain guardrails, pipe rail and toeboard, restricting entry to authorized employees, and safety programs and inspections, in lieu of complying with § 1910.23(a)(8) (i) and (ii).

As soon as possible, Bethlehem Steel Corporation, No. sign 3 Rod Mill, Sparrows Point Plant shall give notice to affected employees of the terms of this order by the same means required to be used to inform them of the application for variance.

Effective date. This order shall be effective as of June 10, 1974, and shall remain in effect until June 30, 1974, in accordance with section (6)(b)(6)(A) of the Williams-Steiger Occupational Safety and Health Act of 1970.

Signed at Washington, D.C., this 4th day of June, 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-13306 Filed 6-10-74;8:45 am]

Office of the Secretary

OREGON

Availability of Extended Unemployment Compensation

The Federal-State Extended Unemployment Compensation Act of 1970, 84 Stat. 708, establishes a program of extended unemployment compensation which provides for payment of extended unemployment compensation to unemployed workers who have received all of the regular unemployment compensation to which they are entitled, commencing when unemployment is high (according to indicators set forth in the law) and terminating when unemployment ceases to be high (according to indicators set forth in the law). Pursuant to Section 203(b)(2) of the Act, notice is hereby given that Ross Morgan, Administrator of the Oregon Employment Division, has determined that there was a State "on" indicator in Oregon for the week ending May 18, 1974, and that an extended benefit period will commence with the week beginning June 2, 1974.

Signed at Washington, D.C., June 5, 1974.

W. H. KOLBERG,
Assistant Secretary for Manpower.

FOURTH SECTION APPLICATION FOR RELIEF

JUNE 6, 1974.

An application, as summarized below, has been filed requesting relief from the

V 39 — 113 JUN 11 74 XUM

requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed on or before July 1, 1974.

FSA No. 42839—*Nursery Stock Between Points in Western Trunk Line Territory.* Filed by Western Trunk Line Committee, Agent (No. A–2705), for interested rail carriers. Rates on nursery stock, in carloads, as described in the application, between points in western trunk-line territory.

Grounds for relief—Rate relationship, short-line distance formula and grouping.

Tariff—Supplement 221 to Western Trunk Line Committee, Agent, tariff W–2000–J, I.C.C. No. A–4669. Rates are published to become effective on July 10, 1974.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

JUNE 6, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission within 10 days from the date of this publication. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC–2452 (Sub-No. E5), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Avenue, Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in that part of Ohio on and south of U.S. Highway 36 from the Indiana-Ohio State to Piqua, and on and west of U.S. Highway 25 from Piqua to Cincinnati, on the one hand, and, on the other, points in Daviess, Stephenson, Winnebago, Boone, McHenry, Lake, Kane, De Kalb, Ogle, Carroll, Whiteside, Lee Du Page, Will, Kankakee, Kendall, Grundy, LaSalle, Putnam, Bureau, Henry, and Rock Island Counties, Illinois. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC–2452 (Sub-No. E6), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between St. Louis, Mo., on the one hand, and, on the other, points in Cook County, Ill., and points in the Chicago, Ill., commercial zone as defined by the Commission in 1 M.C.C. 673. The purpose of this filing is to eliminate the gateway of San Pierre, Ind.

No. MC–2452 (Sub-No. E15), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Avenue, Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Kalamazoo, Mich., on the one hand, and, on the other, Alton, Beardstown, Bloomington, Cairo, Centralia, Champaign, Chester, Danville, Decatur, Effingham, Galesburg, Jacksonville, Kankakee, Marion, Mt. Vernon, Pekin, Peoria, Quincy, and Springfield, Ill. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC–2452 (Sub-No. E16), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Avenue, Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between St. Joseph and Shoreham, Mich., on the one hand, and, on the other, Alton, Beardstown, Bloomington, Cairo, Centralia, Champaign, Chester, Decatur, Effingham, Galesburg, Jacksonville, Marion, Mt. Vernon, Pekin, Peoria, Quincy, and Springfield, Ill. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC–2452 (Sub-No. E17), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Avenue, Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Three Rivers, Mich., on the one hand, and, on the other, Alton, Beardstown, Bloomington, Cairo, Centralia, Champaign, Chester, Danville, Decatur, Effingham, Galesburg, Jacksonville, Kankakee, Marion, Mt. Vernon, Pekin, Peoria, Quincy, and Springfield, Ill. The purpose of this filing is to eliminate the gateways of San Pierre, Ind., and points in Cook County, Ill.

No. MC–2452 (Sub-No. E18), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Avenue, Summit, Ill. 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, liquid commodities in bulk, and commodities requiring special equipment), between the plantsite of Ford Motor Co., located at the junction of Westport Road and Murphy Lane, Jefferson County, Ky., on the one hand, and, on the other, Burlington and Davenport, Iowa. The purpose of this filing is to eliminate the gateway of points in Jasper County, Ind.

No. MC–2452 (Sub-No. E19), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Illinois 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, liquid commodities in bulk, and commodities requiring special equipment), between the plant site of Ford Motor Co., located at the junction of Westport Road and Murphy Lane, Jefferson County, Ky., on the one hand, and, on the other, Aurora, Bloomington, Champaign, Dekalb, Dixon, Elgin, Freeport, Galesburg, Glen Ellyn, Joliet, Kankakee, La Salle, Pekin, Peoria, Quincy, Rockford, Savanna, Waukegan, Rock Island, and Moline, Ill. The purpose of this filing is to eliminate the gateway of points in Jasper County, Ind.

No. MC–2452 (Sub-No. E22), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Illinois 60502. Applicant's representative: Steve Zwarycz (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, liquid commodities in bulk, and commodities requiring special equipment), between the plant site of Ford Motor Co., located at the junction of Westport Road and Murphy Lane, Jefferson County, Ky., on the one hand, and, on the other, Grand Rapids, Kalamazoo, St. Joseph, Shoreham, Lansing, and Three Rivers, Mich. The purpose of this filing is to eliminate the gateway of points in Fulton County, Ind.

No. MC–2452 (Sub-No. E23), filed May 5, 1974. Applicant: HAJEK TRUCKING CO., INC., 7635 West Lawndale Ave., Summit, Illinois 60502. Applicant's representative: Steve Zwarycz (same as above). No. MC-114019 (Sub-No. E78), filed May 10, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Macon, Marshall, Moberly, and Milan, Mo., to Chicago, Ill., points in Indiana, on and north of U.S. Highway 50, points in the Lower Peninsula of Michigan, and points in Maine, New Hampshire, and Vermont. The purpose of this filing is to eliminate the gateways of Quincy, Ill., and Lafayette, Ind.

No. MC-124078 (Sub-No. E5), filed May 9, 1974. Applicant: SCHWERMAN TRUCKING CO., 611 South 28 St., Milwaukee, WI 53246. Applicant's representative: Richard H. Prevette (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals* (except hydrofluosilic acid, such naval stores as are chemicals, crude tall oil, sulphate, black liquor skimmings, and liquid alum), in bulk, in tank or hopper-type vehicles, from Atlanta, Ga., to points in North Carolina in and east of Caswell, Alamance, Chatham, Moore, and Richmond Counties, N.C., and points in South Carolina in, south, and east of Chesterfield, Kershaw, Fairfield, Newberry, Saluda, and Edgefield Counties, S.C. The purpose of this filing is to eliminate the gateway of points in Richmond County, Ga.

No. MC-124673 (Sub-No. E1), filed May 11, 1974. Applicant: FEED TRANS-

V 39 — 113 JUN 11 74 XUM

PORTS, INC., P.O. Box 2167, Amarillo, Texas 79105. Applicant's representative: Joe T. Lanhan, Suite 1102, Perry Brook Bldg., Austin, Texas 78701. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting:

(a) *Dry livestock feed cottonseed products*, in bulk, and *alfalfa meal and pellets* in bulk between points in that part of Oklahoma (excluding Cimarron County), west of a line beginning at the Kansas-Oklahoma State line and extending along U.S. Highway 77 to Oklahoma City, Okla., thence west along U.S. Highway 66 to the Oklahoma-Texas State line, on the one hand, and, on the other, those points in Curry, Eddy, Union, and Chaves County, N. Mex., and Bent and Prowers Counties, Colo. The purpose of this filing is to eliminate the gateway of points in that part of Texas west and north of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 283 to junction U.S. Highway 380, thence along U.S. Highway 380 to the Texas–New Mexico State line.

(b) *Dry livestock feedstuffs*, in bulk from points in Curry, Eddy, and Chaves Counties, N. Mex., to points in Kansas, points in Colorado on and east of a line beginning at the Wyoming-Colorado State line and extending along U.S. Highway 287 to Denver, Colo., thence on and east of the western and southern boundaries of Arapahoe, Elbert, Lincoln, Kiowa, Bent, and Prowers Counties, Colo. The purpose of this filing is to eliminate the gateway of Hale County, Texas.

(c) *Dry mixed animal feeds*, including *cottonseed products, alfalfa meal and pellets*, in bulk, from points in Kansas south and west of a line beginning at the Kansas-Colorado State line and extending along U.S. Highway 50 to junction U.S. Highway 283, thence along U.S. Highway 283 to the Kansas-Oklahoma State line, to points in that part of New Mexico, on, south, and east of a line beginning at the Texas-New Mexico border, thence west along U.S. Highway 70 to junction U.S. Highway 85, thence along U.S. Highway 85 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateway of Hale County, Texas.

(d) *Dry livestock feedstuffs*, in bulk, from points in that part of Texas west and north of a line beginning at the Oklahoma-Texas State line and extending along U.S. Highway 283 to junction U.S. Highway 380, thence along U.S. Highway 380 to the Texas-New Mexico State line and south of the northern boundaries of Bailey, Lamb, Swisher, Floyd, Motley, Cottle, Foard, Hardeman, and Wilbarger Counties, Tex., to points in that part of Colorado on and east of a line beginning at the Wyoming-Colorado State line and extending along U.S. Highway 287 to Denver, thence along Interstate Highway 25 to the Colorado-New Mexico State line (excluding points in Baca County, Colorado). The purpose of this filing is to eliminate the gateway of Hale County, Tex.

(e) *Dry livestock feedstuffs*, in bulk from points in Lubbock, Crosby, Dickens, King, Knox, Hardeman, Foard, Cottle, Motley, and Floyd Counties, Tex., to points in New Mexico on and east of U.S. Highway 85 (except Lea, Eddy, Chaves, and Roosevelt Counties, N. Mex.). The purpose of this filing is to eliminate the gateway of Hale County, Tex.

(f) *Dry livestock feedstuffs*, in bulk from points in that part of Texas bounded by a line beginning on the Texas-New Mexico State line and extending eastward along U.S. Highway 380 to junction with the eastern boundary of Kent County, thence north along the eastern boundaries of Kent, Dickens, and Motley Counties, thence west along the northern boundaries of Motley, Floyd, Hale, Lamb, and Bailey Counties, to the Texas-New Mexico State line, thence south along the Texas-New Mexico State line to the junction U.S. Highway 380 (the point of beginning), from points in Swisher County, Tex., to points in Kansas. The purpose of this filing is to eliminate the gateway of Hale County, Texas.

By the Commission.

[Notice 101]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

JUNE 11, 1974.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before July 1, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75089. By order of May 2, 1974, the Motor Carrier Board approved the transfer to Oak Harbor Freight Lines, Inc., Seattle, Wash., of the operating rights in Certificate No. MC-127960 issued May 31, 1974, to Henry Vanderpol, doing business as Oak Harbor Freight Lines, Seattle, Wash., authorizing the transportation of various commodities between specified points and areas in Washington. Carl A. Jonson, 300 Central Bldg., Seattle, Wash. 98104, attorney for applicants.

No. MC-FC-75100. By order of June 4, 1974, the Motor Carrier Board approved the transfer to Ashdown Road, Inc., Ballston Spa, N.Y., of the operating rights in Certificates Nos. MC-70585 and MC-75085 (Sub-No. 3) and the Certificate of Registration in No. MC-75085 (Sub-No. 2) issued December 31, 1942, October 13, 1967, and November 26, 1968, respectively, to Tanney's Motor Transportation, Inc., Latham, N.Y., covering the transportation of general commodities, with usual exceptions, to and from Albany, N.Y., and other named points in New York. William D. Traub, 10 East 40th Street, New York, N.Y. 10016, registered practitioner for applicants.

No. MC-FC-75157. By order of June 5, 1974, the Motor Carrier Board approved the transfer to Thompson Tours, Inc., Mickleton, N.J., of License No. MC-130041 issued July 1, 1968, to Earl M. Thompson, doing business as Tri-County Travelers Club, Mickleton, N.J., authorizing the holder to engage in operations as a broker in connection with the transportation of passengers and their baggage beginning and ending at points in Gloucester, Salem, and Cumberland Counties, N.J., and extending to points in the United States (including Alaska but excluding Hawaii). Jacob P. Billig, Esq., Billig, Sher & Jones, P.C., Suite 300, 1126 16th Street NW., Washington, D.C. 20036.

[Notice 80]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JUNE 4, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 297 (Sub-No. 6 TA), filed May 22, 1974. Applicant: WOODLAND TRUCK LINE, INC., 635 Park Street, P.O. Box 87, Woodland, Wash. 98674. Applicant's representative: Lawrence V. Smart, Jr., 419 NW. 23rd Avenue, Portland, Oreg. 97210. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, between Woodland, Wash., and its commercial zone and Spirit Lake, Wash., as follows: From Woodland, Wash., over Interstate Highway I-5 to the junction of Washington Highway 504, thence over Washington Highway 504 to Spirit Lake, and return over the same route, serving all intermediate points, and their commercial zones, and the off-route point of Longview, Wash., and its commercial zone, and points within 10 miles of Washington Highway 504, for 180 days. RESTRICTION: Service not authorized between Longview and Kelso, Wash., on the one hand, and, on the other, Portland, Oreg., and Vancouver, Wash.

NOTE.—Applicant requested that tacking be authorized with applicant's authority under MC 297 to enable service from Portland, Oreg., and it is also requested that interline be permitted at Longview and Kelso, Wash. SUPPPORTING SHIPPERS: There are approximately 12 statements of support attached to the application, which may be examined at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. SEND PROTESTS TO: District Supervisor W. J. Huetig, Bureau of Operations, Interstate Commerce Commission, 114 Pioneer Courthouse, Portland, Oreg. 97204.

No. MC 16961 (Sub-No. 5 TA), filed May 22, 1974. Applicant: HUTCHINS TRUCKING COMPANY, a Corporation, 1000 Congress Street, P.O. Box 95 West End Station, Portland, Maine 04102. Applicant's representative: George M. Hutchins (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses (except commodities in bulk) from Northboro, Mass., to South Portland, Maine, with no transportation for compensation on return, except as otherwise authorized, for 90 days. RESTRICTION: Restricted to service in behalf of Legion Square Supermarket, South Portland, Maine. SUPPORTING SHIPPER: Legion Square Supermarket, 101 Ocean Street, South Portland, Maine 04106. SEND PROTESTS TO: Donald G. Weiler, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Rm. 307, 76 Pearl Street, Portland, Maine 04112.

No. MC 47583 (Sub-No. 16 TA), filed May 24, 1974. Applicant: TOLLIE FREIGHTWAYS, INC., 41 Lyons Avenue, Kansas City, Kans. 66118. Applicant's representative: D. S. Hults, Box 225, Lawrence, Kans. 66044. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fibrous glass products and material, mineral wool, mineral wool products and materials, insulated air ducts, insulating products and materials* including products necessary in the installation thereof except commodities in bulk, from Kansas City, Kans., to points in Iowa and also from Pauline, Kans., to points in Iowa, Nebraska, and Oklahoma, for 180 days. SUPPORTING SHIPPER: Certain-teed Products Corp./CSG Group, P.O. Box 860, Valley Forge, Pa. 19482. SEND PROTESTS TO: Vernon V. Coble, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 600 Federal Office Building, 911 Walnut Street, Kansas City, Mo. 64106.

No. MC 52460 (Sub-No. 148 TA), filed May 23, 1974. Applicant: ELLEX TRANSPORTATION, INC., 1420 W. 35th Street, P.O. Box 9515, Tulsa, Okla. 74107. Applicant's representative: Steve B. McCommas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in containers, from St. Louis, Mo., to points in Tennessee, Kentucky, Alabama, and Mississippi, for 180 days. SUPPORTING SHIPPER: Mobil Oil Corporation, Richard J. W. Lehman, Supv. Truck Analysis, P.O. Box 900, Dallas, Tex. 75221. SEND PROTESTS TO: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 240, Old Post Office Building, 215 NW Third, Oklahoma City, Okla. 73102.

No. MC 52460 (Sub-No. 149 TA), filed May 23, 1974. Applicant: ELLEX TRANSPORTATION, INC., 1420 W. 35th Street, P.O. Box 9515, Tulsa, Okla. 74107. Applicant's representative: Steve B. McCommas (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unsymmetrical dimethylhydrazine*, in bulk, in specialized tank trailers, from Rocky Mountain Arsenal, Ladora, Colo., to Anniston Army Depot, Anniston, Ala., for 180 days. SUPPORTING SHIPPER: Department of Defense, Curtis L. Wagner, Office of the Judge Advocate General, Department of the Army, Washington, D.C. 20310. SEND PROTESTS TO: C. L. Phillips, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 240, Old P.O. Bldg., 215 N.W. Third, Oklahoma City, Okla. 73102.

No. MC 60014 (Sub-No. 36 TA), filed May 22, 1974. Applicant: AERO TRUCKING, INC., Box 308, Monroeville, Pa. 15146. Applicant's representative: A. Charles Tell, Columbus Center, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe and fittings and accessories therefor (except commodities which by reason or size or weight require the use of special equipment)*, from the plantsite of Johns Manville Products Corporation at or near Wilton, Iowa, to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Ohio, Virginia, Pennsylvania, and West Virginia, for 180 days. SUPPORTING SHIPPER: Johns Manville Products Corporation, Greenwood Avenue, Waukegan, Ill. 60085. SEND PROTESTS TO: John J. England, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, Pa. 15222.

No. MC 90870 (Sub-No. 1 TA), filed May 23, 1974. Applicant: GLEN RIECHMANN, doing business as RIECHMANN TRUCK SERVICE, R.R. 2, Alhambra, Ill. 62001. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Building, St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor, vehicle, over irregular routes, transporting: *Channels, trays, junction boxes, fabricated metal panels and fittings and accessories therefor*, from Troy and Highland, Ill., to points in Alabama, Georgia, Texas, Louisiana, Mississippi, Indiana, Arkansas, Tennessee, and Kentucky, for 180 days. [Notice 81]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

JUNE 5, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 C.F.R. 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies. A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 139816 (Sub-No. 1 TA), filed May 23, 1974. Applicant: SOUTHERN FARM SERVICES, INC., P.O. Box 103, Opp, Ala. 36467. Applicant's representative: Robert E. Tate, P.O. EMPLOYMENT OF THE HANDICAPPED

Affirmative Action Obligations of Contractors and Subcontractors

V 39 113 JUN 11 1974 XUM

Title 20—Employees' Benefits

CHAPTER VI—EMPLOYMENT STANDARDS ADMINISTRATION, DEPARTMENT OF LABOR

SUBCHAPTER C—REHABILITATION ACT OF 1973

PART 741—AFFIRMATIVE ACTION OBLIGATIONS OF CONTRACTORS AND SUBCONTRACTORS

On September 26, 1973, the President signed the Rehabilitation Act, Public Law 92–112, which, among other things, requires Government contractors and subcontractors to take affirmative action to employ and advance in employment qualified handicapped individuals. By virtue of authority delegated to me by Executive Order No. 11758, and pursuant to section 503 of the Rehabilitation Act, I hereby issue Title 20, Chapter VI, Subchapter C, Part 741 of the Code of Federal Regulations, setting forth the duties of contractors, subcontractors and agencies.

We find that notice of proposed rulemaking and delay in the effective date would be contrary to the public interest in view of the need for prompt implementation of the affirmative action requirements contained in the Rehabilitation Act, and accordingly such notice and delay are not required under 5 U.S.C. 553 (b) and (d). Therefore, these regulations shall be effective on June 11, 1974.

However, in accordance with the spirit of the public policy set forth in 5 U.S.C. 553, interested persons may submit written comments, suggestions, data or arguments to Mr. Bernard E. DeLury, Assistant Secretary for Employment Standards, U.S. Department of Labor, Washington, D.C., on or before July 26, 1974. Material thus submitted will be evaluated and acted upon in the same manner as if this document were a proposal.

AUTHORITY: Sec. 503, Pub. Law 93–112, 87 Stat. 393 (29 U.S.C. 793) and Executive Order 11758.

Subpart A—Preliminary Matters, Affirmative Action Clause, Compliance

§ 741.1 Purpose and application.

The purpose of the regulations in this part is to assure compliance with section 503 of the Rehabilitation Act of 1973, which requires government contractors and subcontractors to take affirmative action to employ and advance in employment qualified handicapped individuals. The regulations in this part apply to all government contracts for personal property or nonpersonal services (including construction) in excess of $2,500. Failure of a contractor to comply with any provision of the regulations in this part shall be grounds for the imposition of any or all of the sanctions authorized herein. The regulations in this part do not apply to any action taken to effect compliance with respect to employment or participation in Federal grant programs under section 504 of the Rehabilitation Act of 1973.

§ 741.2 Definitions.

(a) The term "Act" means the Rehabilitation Act of 1973, Public Law 93–112.

(b) The term "affirmative action clause" means the contract provisions set forth in § 741.3.

(c) The term "agency" means any contracting agency of the government.

(d) The term "Assistant Secretary" means the Assistant Secretary of Labor for Employment Standards or his designee.

(e) The term "certification" means a signed statement which is issued as a service of such qualified vocational rehabilitation agencies or facilities listed by the Employment Standards Administration and which describes the handicapped individual's disabilities.

(f) The term "construction work" means the construction, rehabilitation, alteration, conversion, extension, demolition, or repair of buildings, highways, or other changes or improvements to real property, including facilities providing utility services. The term also includes the supervision, inspection, and other onsite functions incidental to the actual construction.

(g) The term "contract" means any government contract for the procurement of personal property or non-personal services, including construction.

(h) The term "contracting agency" means any department, agency, establishment or instrumentality of the United States, including any wholly owned government corporation, which enters into contracts.

(i) The term "contractor" means, unless otherwise indicated, a prime contractor or subcontractor.

(j) The term "Employment Standards Administration" means the Employment Standards Administration of the United States Department of Labor, its regional and area offices and any division, branch or bureau thereof engaged in activities under this regulation.

(k) The term "government" means the government of the United States of America.

(l) The term "government contract" means any agreement or modification thereof between any contracting agency and any person for the furnishing of personal property or non-personal services or for the use of real or personal property, including lease arrangements. The term "services", as used in this section includes, but is not limited to the following services: utility, construction, transportation, research, insurance, and fund depository. The term "government contract" does not include (1) agreements in which the parties stand in the relationship of employer and employees, and (2) federally-assisted contracts.

(m) The term "handicapped individual" means any individual who has a physical or mental disability which for such individual constitutes or results in a substantial barrier to employment, provided such individual has reasonably benefited in terms of employability from any of the types of services (including certification) provided pursuant to Titles I and III of the Act or their equivalent.

(n) The term "modification" means any alteration in the terms and conditions of a contract, including supplemental agreements, amendments, and extensions.

(o) The term "person" means any natural person, corporation, partnership or joint venture, unincorporated, association, State or local government, and any agency, instrumentality, or subdivision of such a government.

(p) The term "prime contractor" means any person holding a contract, and for the purposes of Subpart B of this part, any person who has held a contract subject to the Act.

(q) The term "procurement activity" means the organizational element of a federal agency which has responsibility to contract for the procurement of personal property or non-personal services, including construction.

(r) The term "recruiting and training agency" means any person who refers workers to any contractor or subcontractor, or who provides or supervises apprenticeship or training for employment by any contractor or subcontractor.

(s) The term "rules, regulations, and relevant orders of the Secretary of Labor" used in paragraph (d) of the affirmative action clause means rules, regulations, and relevant orders of the Secretary of Labor or his designee issued pursuant to the Act.

(t) The term "Secretary" means the Secretary of Labor, U.S. Department of Labor, or his designee.

(u) The term "subcontract" means any agreement or arrangement between a contractor and any person (in which the parties do not stand in the relationship of an employer and an employee):

(1) For the furnishing of supplies or services or for the use of real or personal property, including lease arrangements, which, in whole or in part, is necessary to the performance of any one or more contracts; or

(2) Under which any portion of the contractor's obligation under any one or more contracts is performed, undertaken, or assumed.

(v) The term "subcontractor" means any person holding a subcontract and, for the purposes of Subpart B of this part, any person who has held a subcontract subject to the Act. The term "first-tier subcontractor" refers to a subcontractor holding a subcontract with a prime contractor.

(w) The term "United States" as used herein shall include the several States, the District of Columbia, the Virgin Islands, the Commonwealth of Puerto Rico, Guam, the Panama Canal Zone, American Samoa and the Trust Territory of the Pacific Islands.

§ 741.3 Affirmative action clause.

Each procuring activity shall include the following affirmative action clause in each of its nonexempt Government contracts (and modifications thereof if not included in the original contract).

EMPLOYMENT OF THE HANDICAPPED

(This clause applies to all nonexempt contracts and subcontracts which exceed $2,500 as follows: (1) Part A applies to contracts and subcontracts which provide for performance in less than 90 days, (2) Parts A and B apply to contracts and subcontracts which provide for performance in 90 days or more and the amount of the contract or subcontract is less than $500,000, and (3) Parts A, B, and C apply to contracts and subcontracts which provide for performance in 90 days or more and the amount of the contract or subcontract is $500,000 or more.)

PART A

(a) The contractor will not discriminate against any employee or applicant for employment because of physical or mental handicap in regard to any position for which the employee or applicant for employment is qualified. The contractor agrees to take affirmative action to employ, advance in employment and otherwise treat qualified handicapped individuals without discrimination based upon their physical or mental handicap in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment or recruitment advertising; layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship.

(b) The Contractor agrees that, if a handicapped individual files a complaint with the Contractor that he is not complying with the requirements of the Act, he will (1) investigate the complaint and take appropriate action consistent with the requirements of 20 CFR 741.29 and (2) maintain on file for three years, the record regarding the complaint and the actions taken.

(c) The Contractor agrees that, if a handicapped individual files a complaint with the Department of Labor that he has not complied with the requirements of the Act, (1) he will cooperate with the Department in its investigation of the complaint, and (2) he will provide all pertinent information regarding his employment practices with respect to the handicapped.

(d) The Contractor agrees to comply with the rules and regulations of the Secretary of Labor in 20 CFR Ch VI, Part 741.

(e) In the event of the Contractor's noncompliance with the requirements of this clause, the contract may be terminated or suspended in whole or in part.

(f) This clause shall be included in all subcontracts over $2,500.

PART B

(g) The Contractor agrees (1) to establish an affirmative action program, including appropriate procedures consistent with the guidelines and the rules of the Secretary of Labor, which will provide the affirmative action regarding the employment and advancement of the handicapped required by P.L. 93–112, (2) to publish the program in his employee's or personnel handbook or otherwise distribute a copy to all personnel, (3) to review his program on or before March 31 of each year and to make such changes as may be appropriate, and (4) to designate one of his principal officials to be responsible for the establishment and operation of the program.

(h) The Contractor agrees to permit the examination by appropriate contracting agency officials or the Assistant Secretary for Employment Standards or his designee, of pertinent books, documents, papers and records concerning his employment and advancement of the handicapped.

(i) The Contractor agrees to post in conspicious places, available to employees and applicants for employment, notices in a form to be prescribed by the Assistant Secretary for Employment Standards, provided by the contracting officer stating contractor's obligation under the law to take affirmative action to employ and advance in employment qualified handicapped employees and applicants for employment and the rights and remedies available.

(j) The Contractor will notify each labor union or representative of workers with which he has a collective bargaining agreement or other contract understanding, that the contractor is bound by the terms of Section 503 of the Rehabilitation Act, and is committed to take affirmative action to employ and advance in employment physically and mentally handicapped individuals.

PART C

(k) The Contractor agrees to submit a copy of his affirmative action program to the Assistant Secretary for Employment Standards within 90 days after the award to him of a contract or subcontract.

(l) The contractor agrees to submit a summary report to the Assistant Secretary for Employment Standards, by March 31 of each year during performance of the Contract, and by March 31 of the year following completion of the contract, in the form prescribed by the Assistant Secretary, covering employment and complaint experience, accommodations made and all steps taken to effectuate and carry out the commitments set forth in the affirmative action program.

§ 741.4 Affirmative action policy.

(a) *General requirements.* Under the affirmative action obligation imposed by section 503 of the Rehabilitation Act of 1973, contractors are required to take affirmative action to employ and advance in employment qualified handicapped individuals. Such action shall apply to employment practice, including, but not limited to the following: Employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.

(b) *Outreach and positive recruitment.* Contractors shall review their employment practices to determine whether their programs provide the required affirmative action for employment and advancement of qualified handicapped individuals. Based upon the findings of such reviews, contractors shall undertake appropriate outreach and positive recruitment activities, such as those listed below. It is not contemplated that contractors will necessarily undertake all of the listed activities. The scope of a contractor's efforts shall depend upon all the circumstances, including the extent in which existing employment practices are adequate and the contractor's size and resources.

(1) Internal communication of the contractor's obligation to engage in affirmative action efforts to employ qualified handicapped individuals in such a manner as to foster understanding, acceptance and support among the contractor's executive, management, supervisory and all other employees and to encourage such persons to take the necessary action to aid the contractor in meeting this obligation.

(2) Development of reasonable internal procedures to insure that the contractor's obligation to engage in affirmative action to employ and promote qualified handicapped individuals is being fully implemented.

(3) Periodically informing all employees of the contractor's commitment to engage in affirmative action to increase employment opportunities for qualified handicapped individuals.

(4) Enlisting the assistance and support of all recruiting sources (including the State Employment Services, State vocational rehabilitation agencies or facilities, sheltered workshops, college placement officers, State education agencies, labor organizations, and social service organizations serving handicapped individuals) for the contractor's commitment to provide meaningful employment opportunities to qualified handicapped individuals. (A list of national organizations serving the handicapped, many of which have State or local affiliates, is found in the "Directory of Organizations Interested in the Handicapped", published by the People to People Committee on the Handicapped, 1146 16th Street, NW., Washington, D.C. 20036.)

(5) Engaging in recruitment activities at educational institutions which participate in training of the handicapped, such as schools for the blind, deaf, or retarded.

(6) Establishment of meaningful contacts with appropriate social service organizations, Vocational Rehabilitation agencies or facilities, for such purposes as advice, technical assistance and referral of potential employees.

(7) Reviewing employment records to determine the availability of promotable and transferrable qualified handicapped individuals presently employed, and to determine whether their present and

V39—113 JUN 11 74 XUM

potential skills are being fully utilized or developed.

(8) Use of appropriate media for institutional and employment advertising to indicate the contractor's commitment to nondiscrimination and affirmative action under this part.

(c) *Accommodation to physical and mental limitations of employees.* A contractor must attempt to make a reasonable accommodation to the physical and mental limitations of an employee or applicant unless the contractor can demonstrate that such an accommodation would impose an undue hardship on the conduct of the contractor's business. In determining the extent of a contractor's accommodation obligations, the following factors among others may be considered: (1) Business necessity (2) financial cost and expenses and (3) resulting personnel problems.

§ 741.5 [Reserved]

§ 741.6 Certification of handicap.

(a) Any handicapped individual may request, at any time, a certification of his handicap from any Vocational Rehabilitation agency or facility listed by the Employment Standards Administration. such lists shall be available through local U.S. Department of Labor, Employment Standards Administration offices. The certification shall be in the form prescribed by the Secretary, and shall represent the determination of a facility listed by the Employment Standards Administration that the individual is handicapped and has benefited in employability from a type of service provided pursuant to Title I and III of the Act or their equivalent.

(b) Handicapped individuals filing administrative complaints under this part may do so only upon certification of their handicapping disability or condition as provided in paragraph (a) of this section.

§ 741.7 [Reserved]

§ 741.8 Listing of employment openings.

The mandatory listing obligation of 41 CFR Part 50–250, which requires contractors to list their job openings with State employment services offices shall be utilized by State employment security agencies to refer qualified handicapped individuals.

§ 741.9 Labor unions and recruiting and training agencies.

(a) Whenever performance in accordance with the affirmative action clause or any matter contained in the regulations in this part may necessitate a revision of a collective bargaining agreement, the labor union or unions which are parties to such agreements shall be given an adequate opportunity to present their views to the contracting agency, or, if he has assumed jurisdiction, the Assistant Secretary.

(b) The Secretary shall use his best efforts, directly and through contractors, subcontractors, local officials, vocational rehabilitation facilities, and all other available instrumentalities, to cause any labor union, recruiting and training agency or other representative of workers who are or may be engaged in work under contracts and subcontracts to cooperate with, and to assist in the implementation of, the purposes of the Act.

Subpart B—General Enforcement and Complaint Procedure

§ 741.20 Subcontracts.

Each nonexempt prime contractor and subcontractor under a Government contract shall include the affirmative action clause prescribed in § 741.3 in each of their nonexempt subcontracts.

§ 741.21 Adaptation of language.

Such necessary changes in language may be made to the affirmative action clause (see § 741.3) as shall be appropriate to identify properly the parties and their undertakings.

§ 741.22 Incorporation by reference.

The affirmative action clause may be incorporated by reference in Government transportation requests, contracts for deposit of Governmental funds, contracts for issuing and paying U.S. savings bonds and notes, contracts and subcontracts less than $50,000, and such other contracts as the Assistant Secretary may designate.

§ 741.23 Incorporation by operation of the Act and agency regulations.

By operation of the Act, the affirmative action clause shall be considered to be a part of every contract and subcontract required by the Act and the regulations in this part and to include such a clause whether or not it is physically incorporated in such contracts. The clause may also be applied by agency regulations to every nonexempt contract where there is no written contract between the agency and the contractor.

§ 741.24 [Reserved]

§ 741.25 Exemptions.

(a) *General*—(1) *Transactions not exceeding $2,500.* Contracts and subcontracts not exceeding $2,500 are exempt from the requirement of the affirmative action clause. No agency, contractor or subcontractor shall procure supplies or services in less than usual quantities to avoid applicability of the affirmative action clause.

(2) *Contracts and subcontracts for indefinite quantities.* With respect to indefinite delivery-type contracts and subcontracts (including, but not limited to, open end contracts, requirement-type contracts, Federal Supply Schedule contracts, "call-type" contracts, and purchase notice agreements), the affirmative action clause shall be included unless the procuring activity has reason to believe that the amount to be ordered in any year under such contract will not exceed $2,500. The applicability of the affirmative action clause shall be determined by the purchaser at the time of award for the first year, and annually thereafter for succeeding years, if any. Notwithstanding the above, the affirmative action clause shall be applied to such contract whenever the amount of a single order exceeds $2,000. Once the affirmative action clause is determined to be applicable, the contract shall continue to be subject to such clause for its duration, regardless of the amounts ordered, or reasonably expected to be ordered in any year.

(3) *Work outside the United States.* Contracts and subcontracts are exempt from the requirements of the affirmative action clause with regard to work performed outside the United States by employees who were not recruited within the United States.

(4) *Contracts with State or local governments.* The requirements of the affirmative action clause in any contract or subcontract with a State or local government (or any agency, instrumentality or subdivision thereof) shall not be applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract or subcontract.

(5) *Facilities not connected with contracts.* The Assistant Secretary may exempt from the requirements of the affirmative action clause any of a prime contractor's or subcontractor's facilities which he finds to be in all respects separate and distinct from activities of the prime contractor or subcontractor related to the performance of the contract or subcontract, provided that he also finds that such an exemption will not interfere with or impede the effectuation of the Act.

(b) *Waivers*—(1) *Specific contracts and classes of contracts.* The head of an agency, with the concurrence of the Assistant Secretary, may exempt any contract or subcontract from any or all of the affirmative action clause when he deems that special circumstances in the national interest so require. The agency head, with the concurrence of the Assistant Secretary, may also exempt groups or categories of contracts or subcontracts of the same type where it is (i) in the national interest, (ii) found impracticable to act upon each request individually, and (iii) where group exemption will substantially contribute to convenience in administration of section 503 of the Act.

(2) *National security.* Any requirement set forth in these regulations in this part shall not apply to any contract or subcontract whenever the head of the contracting agency determines that such contract or subcontract is essential to the national security and that its award without complying with such requirements is necessary to the national security. Upon making such a determination, the head of the agency will notify the Assistant Secretary in writing within 30 days.

(c) *Withdrawal of exemption.* When any contract or subcontract is of a class exempted under this section other than contracts exempted under paragraph(b) (2) of this section, the Assistant Secretary may withdraw the exemption for a specific contract or subcontract or group of contracts or subcontracts when in his judgment such action is necessary or appropriate to achieve the purposes of the Act. Such withdrawal shall not apply to contracts or subcontracts awarded prior to the withdrawal, except that in procurements entered into by formal advertising, or the various forms of restricted formal advertising, such withdrawal shall not apply unless the withdrawal is made more than 10 calendar days before the date set for the opening of the bids.

§ 741.26 Duties of contracting agencies.

(a) *General responsibility.* Each agency shall cooperate with the Assistant Secretary in the performance of his responsibilities under the Act.

(b) *Designation of agency official.* The head of each agency, or his designee, shall identify and submit to the Assistant Secretary the name, address and telephone number of the official within the agency who is primarily responsible for implementation of this program within the Agency.

(c) *Certification requirement.* The following certification shall be included in all invitations for bids and requests for proposals for contracts to be awarded after January 1, 1976.

HANDICAPPED

The offeror certifies with respect to the Employment of the Handicapped clause as follows:

1. He [ ] has, [ ] has not previously been awarded a contract which included the clause. (*If affirmative, execute 2*).

2. The time specified for contract performance [ ] exceeded 90 days, [ ] did not exceed 90 days. (*If more than 90 days, execute 3*).

3. The amount of the contract was [ ] less than $500,000, [ ] more than $500,000, and he [ ] has, [ ] has not published his program for the employment of the handicapped. (*If more than $500,000, execute 4*).

4. He [ ] has, [ ] has not submitted the required annual report to the Assistant Secretary of Labor for Employment Standards.

5. He [ ] has, [ ] has not made a good faith effort to effectuate and carry out his affirmative action program.

6. He will not award subcontracts to persons or concerns that have not published programs and submitted annual reports as required by the clause.

(d) *Award of contracts.* Effective January 1, 1976, each agency shall follow the procedures described in this paragraph (d) before awarding any nonexempt contracts.

(1) The certification required by this section shall be executed by all offerors prior to the award of a contract.

(2) Failure to execute the certificate shall be deemed a defect in form and not in substance, and the bidder or offeror shall be permitted to satisfy the requirements prior to award (see 41 CFR 1–2.405.)

(3) Awards shall not be made where the certifications indicate that required programs have not been published or annual reports have not been submitted to the Assistant Secretary of Labor for Employment Standards, or a good faith effort has not been made to effectuate and carry out affirmative action program.

(e) *Criteria for good faith efforts.* By October 1, 1975, the Assistant Secretary shall promulgate criteria for defining good faith "effort" to effectuate and carry out an affirmative action program.

§ 741.27 Noncompliance with the Affirmative Action Clause.

Noncompliance with the prime contractor's or subconstractor's obligations under the Affirmative Action Clause is a ground for the imposition by the agency, the Assistant Secretary, prime contractor, or subcontractor of appropriate sanctions. Any such failure shall be reported in writing to the Assistant Secretary by the agency as soon as practicable after it occurs.

§ 741.28 Evaluations by Assistant Secretary.

The Assistant Secretary shall undertake such evaluations as may be necessary to assure that the purposes of Section 503, of the Rehabilitation Act of 1973 are being effectively carried out.

§ 741.29 Complaints.

(a)(1) Any handicapped employee of any contractor or handicapped applicant for employment with such contractor or subcontractor may, by himself or by an authorized representative, file in writing a complaint of alleged violation of the Employment of the Handicapped clause with the contractor or subcontractor. Where established, contractors and subcontractors shall utilize their internal review procedure, which may be governed by the terms of an applicable collective bargaining agreement generally meeting the requirements of this paragraph, to receive complaints from handicapped employees alleging the employer's failure to promote or advance them in employment or otherwise failing to comply with the Act. Procedures utilized under this paragraph shall provide for fair, expeditious and effective processing of complaints. Actions under these procedures shall be processed to completion within 60 days after the complaint is filed. At the completion of the review and appropriate action thereunder, the employer shall inform the complainant of his right to file a complaint with the Department of Labor if the decision is adverse to the employee. A statement describing the procedures under this subsection shall be disseminated to all employees in an effective manner.

(2) No employee may file an administrative complaint with the Employment Standards Administration of the Department of Labor until the internal review procedure, where available, has been accorded 60 days to resolve the matter.

(3) If a contractor does not have an internal review procedure, employees may file administrative complaints directly with the Department of Labor.

(b) Any handicapped employee of any contractor or handicapped applicant for employment with such contractor may, by himself or by an authorized representative, file in writing a complaint of alleged violation of the affirmative action clause. Such complaint is to be filed not later than 180 days from the date of the alleged violation unless the time for filing is extended by the Assistant Secretary upon good cause shown.

(c) Complaints shall be filed with the nearest office of the Employment Standards Administration of the Department of Labor. The Department of Labor may refer complaints to the contracting agency or in the case of multiple contracting agencies, the contracting agency designated by the Assistant Secretary for processing, or they may be processed in accordance with § 741.31.

(d) Complaints will be required to be signed by the complainants or their authorized representatives and to contain the following information: (1) Name and address (including telephone number) of the complainant, (2) name and address of the contractor or subcontractor who committed the alleged violation, (3) a description of the act or acts considered to be a violation, (4) a brief statement describing the complainant's job skills or training, if any, job experience or other qualifications for the position, (5) a copy of the complainant's certification, and (6) other pertinent information available which will assist in the investigation and resolution of the complaint, including the name of the Federal Agency with which the employer has contracted.

(e) Where a complaint contains incomplete information, the agency or the Assistant Secretary shall promptly seek the needed information from the complainant. In the event such information is not furnished to the agency or the Assistant Secretary within 60 days of the date of such request, the case may be closed.

(f) Upon final resolution of a complaint by the agency, the complainant shall be furnished with a copy of the decision. The complainant may file an appeal with the Secretary requesting assumption of jurisdiction under the provisions of § 741.31. The Secretary shall review the complaint and all relevant material related thereto, including the decision issued by the agency head. If he determines that assumption of jurisdiction under § 741.31 is necessary or appropriate to achieve the purposes of the Act, he shall notify the complainant and agency, and take whatever action he deems appropriate in accordance with the provisions set forth therein.

§ 741.30 Processing of matters by agencies.

(a) *Investigations.* The agency shall institute a prompt investigation of each complaint referred to it, and shall be responsible for developing a complete case record. A complete case record consists of the following: (1) Name and address of each person interviewed, (2) A summary of his statement, (3) Copies or summaries of pertinent documents, (4) A narrative summary of the evidence disclosed in the investigation as it relates

V 39 — 113 JUN 11 74 XUM

to each charge, and (5) Recommended resolution and/or actions.

(b) *Resolution of matters.* (1) If the investigation of a complaint by an agency pursuant to paragraph (a) of this section shows no violation of the affirmative action clause, the agency shall so inform the Assistant Secretary. The Assistant Secretary shall periodically review such findings of the agency, and he may request further investigation by the agency or may undertake such investigation as he may deem appropriate. (2) If any complaint investigation indicates a violation of the affirmative action clause, the matter should be resolved by informal means whenever possible. (3) Complaint-initiated hearings shall be conducted in accordance with established agency procedures, except that where the Assistant Secretary has assumed jurisdiction hearings shall be conducted in accordance with the procedures set forth under the Service Contract Act in 29 CFR Part 6. (4) For reasonable cause shown, the Assistant Secretary or his designee or an agency head may reconsider or cause to be reconsidered any matter on his own motion or pursuant to a request from the complainant or contractor.

(c) *Reports to the Assistant Secretary.* Within 60 days from receipt of a complaint by the agency, or within such additional time as may be allowed by the Assistant Secretary for good cause shown, the agency shall process the complaint and submit to the Assistant Secretary the case record and a summary report containing the following information: (1) Name and address of the complainant; (2) brief summary of findings including a statement as to the agency's conclusions regarding the contractor's compliance or noncompliance with the requirements of the affirmative action clause; (3) a statement of the disposition of the case, including any corrective action taken and any sanctions or penalties imposed or, whenever appropriate, the recommended corrective action and sanctions or penalties.

§ 741.31 Assumption of jurisdiction by the Assistant Secretary.

(a) The Assistant Secretary my inquire into the status of any matter pending before an agency, including complaints and matters arising out of reports, reviews, and other investigations. Where he considers it necessary or appropriate to achieve the purposes of the Act, he shall assume jurisdiction over complaints, advise the contracting agency, and proceed as provided herein. Whenever the Assistant Secretary assumes jurisdiction over any matter, he may conduct, or have conducted, such investigation, hold such hearings, make such findings, issue such recommendations and request the contracting agencies to take such action as may be appropriate. The agency shall take such action, as may be appropriate, and report the results thereof to the Assistant Secretary within the time specified.

(b) Hearings convened by the Assistant Secretary shall be conducted in accordance with the rules and regulations promulgated by the Secretary of Labor under the Service Contract Act at 29 CFR Part 6.

§ 741.32 Actions for non-performance.

(a) *General.* In every case where any complaint investigation indicates the existence of a violation of the affirmative action clause or these regulations, the matter should be resolved by informal means, including conciliation, and persuasion, whenever possible. This will also include, where appropriate, establishing a program for future performance. Where the apparent violation is not resolved by informal means the agency shall proceed in accordance with established agency procedures.

(b) *Specific performance and/or breach.* The agency or Assistant Secretary may, as an alternative or supplement to the administrative remedies set forth herein, seek appropriate judicial relief for breach of contract or specific performance of the affirmative action clause of the contract or both.

(c) *Withholding progress payments.* So much of the accrued payment due on the contract or any other contract between the government prime contractor and the Federal government may be withheld as is authorized under applicable procument law to correct any violations of the provisions of the affirmative action clause.

(d) *Termination.* A contract or subcontract may be cancelled, suspended or terminated, in whole or in part, for failure to comply with the provisions of the affirmative action clause.

(e) *Debarment.* A prime contractor or subcontractor or a prospective contractor or subcontractor may be debarred from receiving future contracts for failure to comply with the provisions of the affirmative action clause.

§ 741.33 Disputed matters related to the affirmative action program.

Disputes related to matters pertaining to the affirmative action program shall be handled pursuant to standard agency procedures for government contracts and subcontracts unless the Assistant Secretary has assumed jurisdiction under § 741.31, in which case the procedures set forth in that section shall apply.

§ 741.34 Notification of agencies.

The Assistant Secretary of Labor shall notify the heads of all agencies of any sanctions taken against any contrator after such sanctions have been imposed. No agency may issue a waiver under § 741.25(b)(1) to any contractor subject to sanctions without prior approval of the Assistant Secretary.

§ 741.35 Formal hearings.

(a) *Hearing opportunity.* An opportunity for a formal hearing shall be afforded to a prime contractor or a subcontractor or a prospective prime contractor or subcontractor by the agency or Assistant Secretary in any of the following circumstances:

(1) An apparent violation of the affirmative action clause by a contractor or subcontractor, as shown by any complaint investigation, is not resolved by informal means and a hearing is requested pursuant to § 741.30(b)(3); or

(2) The Assistant Secretary or an agency proposes to debar the prime contractor or subcontractor and a hearing is requested pursuant to § 741.30(b)(3).

(b) *General procedure.* The Assistant Secretary or the agency head, with the approval of the Assistant Secretary may convene formal hearings pursuant to Subpart B. Such hearings shall be conducted in accordance with procedures prescribed by the contract, unless the Assistant Secretary has assumed jurisdiction under § 741.31, in which case hearings shall be conducted as prescribed in 29 CFR Part 6.

(c) *Decision following hearing.* When the hearing is convened by the Assistant Secretary under the rules set forth in 29 CFR Part 6, the Administrative Law Judge shall make recommendations to the Assistant Secretary who shall make the final decision. Parties shall be furnished with copies of the Administrative Law Judge's recommendations and shall be given an opportunity to file their exceptions to the recommended decision.

(d) *Debarment by an agency.* No decision of an agency to debar a contractor or subcontractor shall be final without the prior approval of the Assistant Secretary.

§ 741.36 Contractor ineligibility list.

The Assistant Secretary shall distribute periodically a list to all executive departments and agencies giving the names of prime contractors and subcontractors who have been declared ineligible under the regulations in this part and the Act.

Subpart C—Ancillary Matters

§ 741.50 Reinstatement of ineligible contractors and subcontractors.

Any prime contractor or subcontractor debarred from further contracts or subcontracts under the Act may request reinstatement in a letter directed to the Assistant Secretary. In connection with the reinstatement proceedings, the prime contractor or subcontractor shall be required to show that it has established and will carry out employment policies and practices in compliance with the affirmative action clause.

§ 741.51 Intimidation and interference.

The sanctions and penalties contained in this regulation may be exercised by the agency or the Assistant Secretary against any prime contractor or subcontractor, who fails to take all necessary steps to ensure that no person intimidates, threatens, coerces, or discriminates against any individual for the purpose of interfering with the filing of a complaint, furnishing information, or assisting or participating in any manner in an investigation, performance evaluation, hearing, or any other activity related to the administration of the Act.

§ 741.52 Access to records of employment.

Each prime contractor and subcontractor shall permit access during normal business hours to his places of business, books, records and accounts pertinent to compliance with the Act, and all rules and regulations promulgated pursuant thereto by the agency or the Assistant Secretary for the purposes of evaluations and investigations of performance under the affirmative action clause of the contract or subcontract. Information obtained in this manner shall be used in tained in this manner shall be used only in connection with the administration of the Act.

§ 741.53 Rulings and interpretations.

Rulings under or interpretations of the Act, the regulations of the Secretary of Labor, and the regulations contained in this Part 741 shall be made by the Secretary or his designee.

§ 741.54 Effective date.

The regulations contained in this part become effective on June 11, 1974. All solicitations issued after July 11, 1974, shall contain the contract clause required by this regulation, and all contracts executed after October 11, 1974, shall contain the contract clause, regardless of the period of solicitation. Subject to any prior approval of the Secretary, any agency may defer the effective date of the regulations in this part, for such period of time as the Secretary finds to be reasonably necessary.

Signed at Washington, D.C., this 5th day of June 1974.

Bernard E. DeLury,
Assistant Secretary for Employment Standards.

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

Title 3—The President

MEMORANDUM OF MAY 13, 1974

[Presidential Determination No. 74–19]

Determination To Authorize the Ordering of Defense Articles from Department of Defense Stocks and Defense Services for Military Assistance to Cambodia

Memorandum for the Secretary of State

THE WHITE HOUSE,
Washington, May 13, 1974.

Pursuant to the authority vested in me by Section 506(a) of the Foreign Assistance Act of 1961, as amended, I hereby determine that the ordering of up to $50 million in defense articles from the stocks of the Department of Defense and defense services to provide military assistance for Cambodia is in the security interests of the United States.

This Determination shall be published in the FEDERAL REGISTER.

Richard Nixon

V39 114 JUN 12 74 XUM

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER XIV—COMMODITY CREDIT CORPORATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[Cotton Loan Program Regs., Amdt. 6]

PART 1427—COTTON

Subpart—Cotton Loan Program Regulations

INCREASE IN SERVICE CHARGES; CHANGE IN WAREHOUSE RECEIPT REQUIREMENTS

Notices of proposed rulemaking with respect to the loan programs for the 1974 crops of extra long staple and upland cotton regarding the operating provisions to carry out the programs were published in the FEDERAL REGISTER on September 11, 1973, and April 2, 1974 (38 FR 24911 and 39 FR 12027), respectively. One response was received which recommended several changes in the operating provisions. After careful consideration of the recommendations it has been determined that the operating provisions will remain basically the same as those for the 1973 crop. However, the following changes have been determined necessary. Because of increased costs in processing documents, the loan service charges will be increased for the 1974 and subsequent crops of cotton. Also, any charges by warehouses for rebanding must be shown on warehouse receipts. Interest on amounts invested by financial institutions shall be at the same rate as is applicable to commodity loans under price support programs.

The Cotton Loan Program Regulations, issued by Commodity Credit Corporation, published in 36 FR 13981, as amended, are hereby further amended as follows:

1. Section 1427.12 is amended to provide for an increase in service charges payable to CCC by producers for each loan disbursed. The amended section reads as follows:

§ 1427.12 Service charges.

A producer shall pay a service charge to CCC for each loan disbursed at the rate of $1.50 per loan plus 25 cents for each bale thereon: *Provided, however,* That for a loan for which the loan documents are prepared by a loan clerk and the Forms A-1 are prepared in a manner which does not require retyping by CCC for machine processing, the fee shall be $1 plus 10 cents for each bale thereon. The service charge to be paid to CCC by the producer shall be in addition to any clerk fee paid to a loan clerk as authorized in § 1427.13. The service charge is not refundable.

* * * * *

2. Paragraph 1427.19(c) is amended to provide for payment of charges, if any, for a new set of ties for compressing flat bales tied with ties which cannot be reused. The amended paragraph (c) reads as follows.

§ 1427.19 Warehouse receipts and insurance.

* * * * *

(c) *Storage and receiving charges.* If warehouse storage charges have been paid, the receipt must be stamped or otherwise noted to show the date through which the storage charges have been paid. For receipts showing accrued storage charges in excess of 60 days as of the date of tender to CCC, the loan amount will be reduced for each month of unpaid storage or fraction thereof in excess of 60 days by the monthly storage charge specified in the storage agreement between the warehouseman and CCC. If warehouse receiving charges have been paid or waived, the receipt must be stamped or otherwise noted to show such fact. If the receipt does not show that receiving charges have been paid or waived, the loan amount will be reduced by the amount of the receiving charges specified in the storage agreement: *Provided, however,* That if receiving charges due on the bale include a charge, if any, for a new set of ties for compressing flat bales tied with ties which cannot be reused, the warehouse receipt must show such receiving charges and state "Rec. charges due include charge for new set of ties," or similar notation, and the loan amount will be reduced by the amount of the receiving charges shown on the warehouse receipt (this will be the amount payable by CCC if it pays for receiving, notwithstanding the provisions of the storage agreement). In any case where the loan amount is reduced by unpaid storage or receiving charges, the charges will be paid to the warehouseman by CCC after loan maturity if the cotton is not redeemed from the loan, or as soon as practicable after the cotton is ordered shipped by CCC or destroyed by fire while in loan status. If the bale is stored at a warehouse which does not have compress facilities or arrangements, and if the bale ties are not suitable for reuse when the bale is compressed, the warehouse receipt must show this fact, and the loan amount will be reduced by the charge which will be assessed by the nearest compress in line of transit for furnishing new bale ties.

* * * * *

3. Paragraph 1427.20 (h) is amended to provide that interest on amounts invested by financial institutions shall be at the same rate as is applicable to commodity loans under price support programs. This change is necessary to more nearly reflect the cost of money to CCC. The amended paragraph (h) reads as follows:

§ 1427.20 Special procedure where note amount advanced.

* * * * *

(h) *Rate of interest.* Interest will be at the same rate as is applicable to commodity loans under price support programs, as announced in a separate notice published in the FEDERAL REGISTER.

* * * * *

(Secs. 4, 5, 62 Stat. 1070, as amended; secs. 101, 103, 401 63 Stat. 1051, as amended; 15 U.S.C. 714 b and c; 7 U.S.C. 1441, 1444, 1421.)

Effective date. This amendment shall become effective for all loans made on 1974 and subsequent crops of cotton.

Signed at Washington, D.C. on June 5, 1974.

KENNETH E. FRICK,
Executive Vice President,
Commodity Credit Corporation.

[FR Doc.74-13534 Filed 6-11-74;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF AINMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 82—EXOTIC NEWCASTLE DISEASE; AND PSITTACOSIS OR ORNITHOSIS IN POULTRY

Area Quarantined

This amendment quarantines a portion of Comal County in Texas because of the existence of exotic Newcastle disease. Therefore, the restrictions pertaining to the interstate movement of poultry, mynah and Psittacine birds, and birds of all other species under any form of confinement, and their carcasses and parts thereof, and certain other articles, from quarantined areas, as contained in 9 CFR Part 82, as amended, will apply to the quarantined area.

Accordingly, Part 82, Title 9, Code of Federal Regulations, is hereby amended in the following respect:

In § 82.3, in paragraph (a) (1) relating to the State of Texas, a new subdivision (i) relating to Comal County is added to read:

V39 114 JUN 12 74 XUM

§ 82.30 [Amended]

(a) * * *

(1) *Texas.* (i) That portion of *Comal County* bounded by a line beginning at the junction of State Highway 46 and Blanco Road; thence, following the eastern edge of Blanco Road in a southerly direction to Amman Road; thence, following the northern edge of Amman Road in an easterly direction to Bulverde Road; thence, following the western edge of Bulverde Road in a northerly direction to State Highway 46; thence, following the southern edge of State Highway 46 in a westerly direction to its junction with Blanco Road.

* * * * *

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3 and 11, 76 Stat. 130, 132 (21 U.S.C. 111–113, 115, 117, 120, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendment shall become effective June 6, 1974.

The amendment imposes certain restrictions necessary to prevent the interstate spread of exotic Newcastle disease, a communicable disease of poultry, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 6th day of June 1974.

J. M. HEJL,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.74-13532 Filed 6-11-74;8:45 am]

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER V—FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

[No. 74-481]

PART 563—OPERATIONS

Nationwide Lending

JUNE 5, 1974.

The Federal Home Loan Bank Board considers it desirable to amend § 563.9 of the Rules and Regulations for Insurance of Accounts (12 CFR 563.9) for the purpose of authorizing loans secured by first liens on improved real estate in the Trust Territory of the Pacific Islands. Accordingly, the Board hereby amends § 563.9 to read as set forth below, effective June 12, 1974.

The present § 563.9 would permit the making of insured loans secured by first liens on improved real estate in the Trust Territory of the Pacific Islands as there is no area restriction in paragraphs (c) and (d) of the regulation. In addition, under § 563.9, guaranteed loans as defined in § 561.21, which are secured by real estate, may be made in this region. However, the remaining paragraphs in both §§ 563.9 and 563.9-1 refer to loans or investments in loans made on real estate located within a "State". The definition of "State" in paragraph (g) includes possessions of the United States, but not Trust Territories. Thus, loans authorized would not include loans secured by first liens on improved real estate in the Trust Territory of the Pacific Islands.

In order to correct this situation, § 563.9 is amended by revising paragraph (g) (4) to include within the term "State" the Trust Territory of the Pacific Islands.

Since the above amendment relieves restriction, the Board hereby finds that notice and public procedure with respect to said amendment are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since publication of said amendment for the 30-day period specified in 12 CFR 508.14 and 4 U.S.C. 553(d) prior to the effective date of said amendment would in the opinion of the Board be unnecessary for the same reason, the Board hereby provides that said amendment shall become effective as hereinbefore set forth.

Section 563.9 is amended by revising the section heading and by amending paragraph (g) as follows:

§ 563.9 Nationwide lending.

* * * * *

(g) *Definitions.* As used in this section—

* * * * *

(4) The term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the Trust Territory of the Pacific Islands, and the possessions of the United States.

* * * * *

(Secs. 402, 403, 48 Stat. 1256, 1257, as amended; 12 U.S.C. 1725, 1726. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74-SO-54]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone; Correction

On May 28, 1974, FEDERAL REGISTER Document No. 74-12139 was published in the FEDERAL REGISTER (39 FR 18425), amending Part 71 of the Federal Aviation Regulations by altering the Myrtle Beach AFB, S.C., control zone.

In the amendment, "Conway TACAN 335° radial" was erroneously cited in lieu of "Conway TACAN 355° radial." It is necessary to amend the FEDERAL REGISTER Document to correct this error. Since this amendment is editorial in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, FEDERAL REGISTER Document No. 74-12139 is amended as follows:

In lines one and four of the amended Myrtle Beach AFB, S.C., control zone description "* * * 335° * * *" is deleted and "* * * 355° * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on June 4, 1974.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.74-13378 Filed 6-11-74;8:45 am]

[Airspace Docket No. 74-AL-9]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of Colored Airways, Controlled Airspace, Reporting Points and Jet Route

The purpose of these amendments to Parts 71 and 75 of the Federal Aviation regulations is to make editorial changes in the descriptions of certain airways, controlled airspace, reporting points, and a jet route as a result of the conversion and renaming of the following navigational aids:

1. Annette Island, Alaska, RR to Nichols, Alaska, RBN.
2. Fairbanks, Alaska, RR to Chena, Alaska, RBN.
3. McGrath, Alaska, RR to Takotna River, Alaska, RBN.
4. Northway, Alaska, RR to Nebesna, Alaska, RBN.
5. Unalakleet, Alaska, RR to North River, Alaska, RBN.
6. Yakutat, Alaska, RR to Ocean Cape, Alaska, RBN.

A plan for the conversion of all low frequency four course radio ranges to nondirectional radio beacons in the State of Alaska was circulated January 14, 1972, with a request for comment. No objections were received.

Since these actions simply redescribe airways, controlled airspace, reporting points and a jet route with no substantive alteration to any route structure or airspace dimension, it is a minor matter in which the public is not particularly interested. Therefore, notice and public procedure thereon are unnecessary, and it could be made effective immediately. However, in order to provide sufficient time for changes to be depicted on appropriate aeronautical charts, these amendments will be made effective September 12, 1974.

In consideration of the foregoing, Parts 71 and 75 of the Federal Aviation regulations are amended, effective 0901 GMT, September 12, 1974, as hereinafter set forth.

1. § 71.103 (39 FR 305, 1272) is amended as follows:

In G-7 "INT Galena RBN 089° bearing and west course Fairbanks, Alaska, RR; Fairbanks RR." is deleted and "INT Galena RBN 089° and Chena, Alaska, RBN 269° bearings; Chena RBN." is substituted therefor.

2. § 71.105 (39 FR 305, 1272, 3670, 10115, 15259, 38 FR 34728) is amended as follows:

a. A-1 is amended to read as follows:

From Sandspit, British Columbia, Canada, RBN via Sitka, Alaska, RBN; 31 miles 12 AGL, 50 miles 48 MSL, 112 miles 20 MSL, Ocean Cape, Alaska, RBN; INT Ocean Cape RBN 283° and Hinchinbrook, Alaska, RBN 106° bearings; Hinchinbrook RBN; INT Hinchinbrook RBN 286° and Campbell Lake, Alaska, RBN 122° bearings; Campbell Lake RBN; Squentna, Alaska, RBN; Puntilla Lake, Alaska, RBN; Farewell, Alaska, RBN; Takotna River, Alaska, RBN; 24 miles 12 AGL, 53 miles 55 MSL, 46 miles 40 MSL, Nabesna, Alaska, RBN; 52 miles 12 AGL, 51 miles 25 MSL, to Fort Davis, Alaska, RBN. The airspace within Canada is excluded.

b. In A-2 "Northway, Alaska, RR;" is deleted and "Nabesna, Alaska, RBN;" is substituted therefor, also "Fairbanks, Alaska, RR;" is deleted and "Chena, Alaska, RBN;" is substituted therefor.

c. In A-15 "Annette Island, Alaska, RR;" is deleted and "Nichols, Alaska, RBN;" is substituted therefor; "Northway, Alaska, RR;" is deleted and "Nabesna, Alaska, RBN;" is substituted therefor; "Fairbanks, Alaska, RR;" is deleted and "Chena, Alaska, RBN;" is substituted therefor.

3. § 71.107 (39 FR 306) is amended as follows:

a. In R-27 "Fairbanks, Alaska, RR." is deleted and "Chena, Alaska, RBN." is substituted therefor.

b. In R-39 "McGrath, Alaska, RR;" is deleted and "Takotna River, Alaska, RBN;" is substituted therefor; "Fairbanks, Alaska, RR." is deleted and "Chena, Alaska, RBN." is substituted therefor.

c. In R-50 "Fairbanks, Alaska, RR." is deleted and "Chena, Alaska, RBN." is substituted therefor.

4. § 71.109 (39 FR 306, 10115, 15259, 38 FR 34728) is amended as follows:

a. In B-12 "From McGrath, Alaska, RR," is deleted and "From Takotna River, Alaska, RBN" is substituted therefor.

b. IN B-26 "INT Summit RBN 007° bearing and southwest course Fairbanks, Alaska, RR; Fairbanks RR;" is deleted and "INT Summit RBN 007° and Chena, Alaska, RBN 218° bearings; Chena RBN;" is substituted therefor.

c. In B-38 "Annette Island, Alaska, RR;" is deleted and "Nichols, Alaska, RBN;" is substituted therefor.

d. In B-79 "Annette Island, Alaska, RR;" is deleted and "Nichols, Alaska, RBN;" is substituted therefor; "Yakutat, Alaska, RR, Southeast course." is deleted and "Ocean Cape, Alaska, RBN 213° bearing." is substituted therefor.

5. § 71.171 (39 FR 354, 19449) is amended as follows:

a. In Fairbanks, Alaska (Fairbanks International-Fort Wainwright AAF), "Fairbanks RR E course, extending from the Fort Wainwright 5-mile radius zone to 5 miles E of the RR." is deleted and "Chena, Alaska, RBN 089° bearing, extending from the Fort Wainwright 5-mile radius zone to 5 miles E of the RBN." is substituted therefor.

b. In Northway, Alaska "Northway RR NW course, extending from the 5-mile radius zone to 8 miles NW of the RR." is deleted and "Nabesna, Alaska, RBN 307° bearing extending from the 5-mile radius zone to 8 miles NW of the RBN." is substituted therefore.

c. In Unalakleet, Alaska "Unalakleet RR, west course, extending from the 5-mile radius zone to 8.5 miles west of the RR." is deleted and "North River, Alaska, RBN 290° bearing, extending from the 5-mile radius zone to 8.5 miles west of the RBN." is substituted therefor.

d. In Yakutat, Alaska "Yakutat RR," is deleted wherever it appears and "Ocean Cape, Alaska, RBN," is substituted therefor.

6. § 71.181 (39 FR 440, 3670) is amended as follows:

a. In Annette Island, Alaska "Annette Island radio range northwest course, extending from the RR to 28 miles northwest of the RR;" is deleted and "Nichols, Alaska, RBN, 331° bearing, extending from the RBN to 28 miles NW of the RBN;" is substituted therefor.

b. In Darby, Alaska "Unalakeet, Alaska, RR, extending from 32 miles to 52 miles W of the RR." is deleted and "North River, Alaska, RBN, extending from 32 miles to 52 miles W of the RBN." is substituted therefor.

c. In Northway, Alaska, the text is amended to read as follows: That airspace extending upward from 700 feet above the surface within 5 miles NE and 8 miles SW of the 307° and 127° bearings from the Nabesna, Alaska, RBN, extending from 8 miles SE to 12 miles NW of the RBN; and that airspace extending upward from 1,200 feet above the surface within 16 miles NE and 25 miles SW of the 307° and 127° bearings from the Nabesna RBN, extending from 22 miles SE to 42 miles NW of the RBN.

d. In Unalakleet, Alaska "the Unalakleet RR west course extending from the RR to 24.5 miles west of the RR;" is deleted and "the North River, Alaska, RBN 290° bearing, extending from the RBN to 24.5 miles west of the RBN;" is substituted therefor.

e. In Yakataga, Alaska "the west course of the Yakutat, Alaska, RR." is deleted and "the 283° bearing from the Ocean Cape, Alaska, RBN." is substituted therefor.

f. In Yakutat, Alaska "the Yakutat RR," is deleted and "the Ocean Cape, Alaska, RBN," is substituted therefor.

7. § 71.211 (39 FR 632, 10115, 15259) is amended as follows:

a. "Annette Island, Alaska, RR" is deleted and "Nichols, Alaska, RBN" is added.

b. "Fairbanks, Alaska, RR" is deleted and "Chena, Alaska, RBN" is added.

c. In Halibut INT: "southwest course Annette Island, Alaska," is deleted and "236° bearing Nichols, Alaska, RBN." is substituted therefor.

d. In Harbor Point INT: "southeast course Yakutat, Alaska, RR." is deleted and "140° bearing Ocean Cape, Alaska, RBN." is substituted therefor.

e. "McGrath, Alaska, RR" is deleted and "Takotna River, Alaska, RBN." is added.

f. In Muzon LF INT: "southwest course Annette Island, Alaska, RR." is deleted and "236° bearing Nichols, Alaska, RBN." is substituted therefor.

g. "Northway, Alaska, RR" is deleted and "Nabesna, Alaska, RBN" is added.

h. In Porpoise, INT: "southwest course Yakutat, Alaska RR." is deleted and "213° bearing Ocean Cape, Alaska, RBN." is substituted therefor.

i. "Unalakleet, Alaska, RR." is deleted and "North River, Alaska, RBN." is added.

j. "Yakutat, Alaska, RR." is deleted and "Ocean Cape, Alaska, RBN." is added.

8. § 71.213 (39 FR 634) is amended as follows:

"Yakutat, Alaska, RR." is deleted and "Ocean Cape, Alaska, RBN." is added.

9. § 75.100 (39 FR 699) is amended as follows:

In Jet Route No. 525 "Annette Island, Alaska, RR," is deleted and "Nichols, Alaska, RBN," is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on June 6, 1974.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74-13377 Filed 6-11-74;8:45 am]

[Reg. Docket No. 13825; Amdt. 95-247]

PART 95—IFR ALTITUDES

Miscellaneous Amendments

The purpose of this amendment to Part 95 of the Federal Aviation Regulations is to make changes in the IFR altitudes at which all aircraft shall be flown over a specified route or portion thereof. These altitudes, when used in conjunction with the current changeover points for the routes or portions thereof, also assure navigational coverage that is adequate and free of frequency interference for that route or portion thereof.

As a situation exists which demands immediate action in the interest of safety, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

V 39 114 JUN 12 74 XUM

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 FR 5662), Part 95 of the Federal Aviation regulations is amended, effective July 18, 1974 as follows:

1. By amending Subpart C as follows:

Section 95.48 *Green Federal airway 8* is amended to read in part:

From; to; and MEA

Mordvinoff INT, Alaska; *Fort Randall, Alaska, LF/RBN; 6,000. *5,300—MCA Fort Randall LF/RBN, southwest bound (8,000 MEA required without FH airborne communication equipment).
Fort Randall, Alaska, LF/RBN; Marlin INT, Alaska; 4,500.
Marlin INT, Alaska, Crab INT, Alaska; 3,000.
Crab INT, Alaska; Naknek River, Alaska, LF/RBN; 3,000.
Naknek River, Alaska, LF/RBN; Big Mountain, Alaska, LF/RBN; 4,500.
Big Mountain, Alaska, LF/RBN; Kakhonak, INT, Alaska; 5,000.
Kakhonak INT, Alaska; Kachemak, Alaska, LF/RBN; 6,000.
Kachemak, Alaska, LF/RBN; Wildwood, Alaska, LF/RBN; 4,000.
Wildwood, Alaska, LF/RBN; Delta Island INT, Alaska; 1,900.
Delta Island INT, Alaska; *Campbell Lake, Alaska, LF/RBN; 2,000. *3,800—MCA Campbell Lake LF/RBN, northbound.

Section 95.51 *Green Federal airway 11* is amended to read in part:

Wide Bay INT, Alaska; Woody Island, Alaska, LF/RBN; *7,000. *5,900—MOCA.

Section 95.101 *Amber Federal airway 1* is amended to read in part:

Sandspit, British Columbia, LF/RBN; Muzon INT, Alaska; *#5,000. *4,600—MOCA. #For that airspace over U.S. territory.

Section 95.102 *Amber Federal airway 2* is amended to read in part:

Northway, Alaska, LFR; Delta Junction, Alaska, LF/RBN; 8,000.
Delta Junction, Alaska, LF/RBN; Fairbanks, Alaska, LFR; 5,000.

Section 95.115 *Amber Federal airway 15* is amended to read in part:

Northway, Alaska, LFR; Delta Junction, Alaska, LF/RBN; 8,000.
Delta Junction, Alaska, LF/RBN; Fairbanks, Alaska, LFR; 5,000.

Section 95.240 *Red Federal airway 40* is amended by adding:

Woody Island, Alaska, LF/RBN; Kachemak, Alaska, LF/RBN; 6,000.
Kachemak, Alaska, LF/RBN; Shilak INT, Alaska; 5,000.

Section 95.240 *Red Federal airway 40* is amended to delete:

Kodiak, Alaska, LFR; Homer, Alaska, LFR; 6,000.
Homer, Alaska, LFR; Skilak INT, Alaska; 5,000.

Section 95.303 *Red Federal airway 103* is amended to read in part:

Cleare INT, Alaska; Wessels, Alaska, LF/RBN: 2,000.

Section 95.303 *Red Federal airway 103* is amended to delete:

*5,800—MCA Skilak INT, southeastbound.

Section 95.303 *Red Federal airway 103* is amended by adding:

Wildwood, Alaska, LF/RBN; *Shelak INT, Alaska; 2,000. *5,800—MCA Shelak INT, southeastbound.

Section 95.625 *Blue Federal airway 25* is amended to read in part:

Glenallen, Alaska, LF/RBN; *Delta Junction, Alaska, LF/RBN; 12,000. *9,200—MCA Delta Junction LF/RBN, southbound.

Section 95.627 *Blue Federal airway 27* is amended to delete:

Kodiak, Alaska, LFR; King Salmon, Alaska, LFR; *10,000. *9,700—MOCA.
King Salmon, Alaska, LFR; Oscarville, Alaska, LF-RBN; 7,500.

Section 95.627 *Blue Federal airway 27* is amended by adding:

Woody Island, Alaska, LF/RBN; Naknek River, Alaska LF/RBN; *10,000. *9,700—MOCA.
Naknek River, Alaska, LF/RBN; Oscarville, Alaska, LF/RBN; 7,500.

Section 95.1001 *Direct routes—U.S.* is amended to read in part:

*Huntsville, Alaska, VOR; Rome, Ga., VOR; **4,000. *2,800—MCA Huntsville VOR, southeastbound. **3,500—MOCA.
Esler, La., VOR; Monroe, La., VOR; 3,000.
Grand Isle, Fla., RBN; *Neptune INT, Fla. (via control 1226); **2,500. *5,000—MRA. **1,300—MOCA.

Section 95.1001 *Direct routes—U.S.* is amended to delete:

Biltimore, N.C., RBN; Hickory, N.C., VOR; *8,000. *7,700—MOCA.
Collett INT, N.C.; Hickory, N.C., VOR; 4,000.
Int. 188 M rad Holston Mountain, Tenn., VOR and 121 M brq from Boone, Tenn., RBN; Hickory, N.C., VOR; 8,000.
Crab LF INT, Fla.; Egmont Key, Fla., RBN (via control 1226); *2,000. *1,200—MOCA.
Middleton Island, Alaska, LF/RBN; Porpoise INT, Alaska (via control 1310); *3,000. *2,000—MOCA (VHF/UHF communications available 10,000 ft. and above, HF only below 10,000 ft.).
*Neptune LF INT, Fla.; Crab LF INT, Fla.; **2,000. *5,000—MRA. **1,300—MOCA.

Section 95.1001 *Direct Routes*—U.S. is amended by adding:

Biltimore, N.C., LF/RBN; Barretts Mountain, N.C., VOR; 8,000.
*Collett INT, N.C., Barretts Mountain, N.C., VOR; 5,000. *7,000—MCA Collett INT, northwestbound.
Int. 188 M rad Holston Mountain VOR and 121 M brq from Boone LF/RBN; Barretts Mountain, N.C., VOR; 8,000.
*Neptune INT, Fla.; Cobia INT, Fla. (via control 1226); **2,500. *5,000—MRA. **1,300—MOCA.
Cobia INT, Fla.; Edmont Key, Fla. RBN (via control 1226); *2,500. *1,200—MOCA.
Wessels, Alaska, LF/RBN; Porpoise INT, Alaska (vit control 1310); *3,000. *2,000—MOCA. (VHF/UHF communication available 10,000 ft and above, HF only below 10,000 ft.)

Section 95.5000 *High altitude RNAV routes.*

From/to; total distance; changeover point distance from geographic location; track angle; MEA; and MAA

J812R is amended to read in part:

Alma, Ga., W/P, Sinca, Ga., W/P; 107; 53, Alma; 332°/152° to COP, 332°/152° to Sinca; 18,000; 45,000.
Sinca, Ga., W/P, Cante, Ga., W/P; 86; 43, Sinca; 331°/151° to COP, 328°/148° to Cante; 18,000; 45,000.
Cante, Ga., W/P, Shuto, Ky., W/P; 181; 91, Cante; 344°/164° to COP, 347°/167° to Shuto; 18,000; 45,000.

J869R is added to read:

Sinca, Ga., W/P, Augusta, Ga., W/P; 76; 38, Sinca; 070°/250° to COP, 072°/252° to Augusta; 18,000; 45,000.
Augusta, Ga., W/P, Zolly, S.C., W/P 40; 071°/251° to Zolly; 18,000; 45,000.

J873R is deleted:

Section 95.5500 *High altitude RNAV routes.*

J902R is amended to delete:

Shero, Oreg., W/P, Hyatt, Oreg., W/P; 175.9; 85.2, Shero, 43°56′59″ N., 122°39′57″ W.; 150°/330° to COP, 152°/332° to Hyatt; 18,000; 45,000.

J902R is amended by adding:

Newberg, Oreg., W/P, Hyatt, Oreg., W/P; 176; 85, Newberg; 150°/330° to COP, 152°/332° to Hyatt; 18,000; 45,000.

J911R is amended to delete:

Shero, Oreg., W/P, Dayah, Oreg., W/P; 157.4; 78.7, Shero, 44°59′21″ N., 121°12′09″ W.; 085°/265° to COP, 088°/268° to Dayah; 18,000; 45,000.

J911R is amended by adding:

Newberg, Oreg., W/P, Dayah, Oreg., W/P; 157; 79, Newberg; 085°/265° to COP, 088°/268° to Dayah; 18,000; 45,000.

J913R is amended to delete:

Shero, Oreg., W/P, Paula, Oreg., W/P; 144.0; 77, Shero; 094°/274° to COP, 097°/277° to Paula; 18,000; 45,000.

J913R is amended by adding:

Newberg, Oreg., W/P, Paula, Oreg., W/P; 144; 72, Newberg; 094°/274° to COP, 097°/277° to Paula; 18,000; 45,000.

Section 95.6002 *VOR Federal airway 2* is amended to read in part:

From; to; and MEA

Columbus DME Fix; Billings, Mont., VOR; 6,000.
Helena, Mont., VOR via N alter.; *Watson INT, Mont., via N alter.; 9,400. *10,700—MCA Watson INT, eastbound.
Watson INT, Mont., via N alter.; Baxter INT, Mont., via N alter.; *13,000. *10,900—MOCA.
Miles City, Mont., VOR; Dickinson, N. Dak., VOR; *6,000. *5,400—MOCA.
Mullan Pass, Mont., VOR; Alton DME Fix, Mont.; *9,600. *9,300—MOCA.
Alton DME Fix, Mont.; Missoula, Mont., VOR; 9,000.

Section. 95.6006 *VOR Federal airway 6* is amended to read in part:

Niles INT, Ill.; South Bend, Ind., VOR; 2,600.

Section 95.6010 *VOR Federal airway 10* is amended to read in part:

Plano INT, Ill.; Valley INT, Ill.; *4,000. *2,000—MOCA.
Valley INT, Ill.; Chicago O'Hare, Ill., VOR; 2,500.
Niles INT, Ill.; South Bend, Ind., VOR; 2,600.

Section 95.6013 *VOR Federal airway 13* is amended to read in part:

Fox INT, Tex., via W alter; Noria INT, Tex., via W alter; *2,000. *1,300—MOCA.
Noria INT, Tex., via W alter.; Jetty INT, Tex., via W alter.; *4,000. *1,300—MOCA.
Jetty INT, Tex., via W alter.; Corpus Christi, Tex., VOR via W alter.; *1,600. *1,500—MOCA.

Section 95.6019 *VOR Federal airway 19* is amended to read in part:

Morton INT, Wyo.; Deer Creek INT, Wyo.; 11,500.
Douglas, Wyo., VOR via E alter.; Casper, Wyo., VOR via E alter.; 7,900.

*Trail DME Fix; Billings, Mont., VOR; 6,000. *6,100—MCA Trail DME Fix, southeastbound.
*Woody DME Fix, Mont., via E alter.; Billings, Mont., VOR via E alter.; 6,000. *6,200—MCA Woody DME Fix, southeastbound.
Forest Grove INT, Mont.; Lewistown, Mont., VOR; 7,700.
Lewistown, Mont., VOR via W alter.; Int. 103 M rad Great Falls VOR and 256 M rad Lewistown VOR via W alter.; *11,000. *10,300—MOCA.

Section 95.6037 *VOR Federal airway 37* is amended to delete:

Columbia, S.C., VOR via W alter.; Lexington INT, S.C., via W alter.; *2,200. *1,900—MOCA.
Lexington INT, S.C., via W alter.; Fort Mill, S.C., VOR via W alter.; *3,500. *2,000—MOCA.

Section 95.6053 *VOR Federal airway 53* is amended to read in part:

Jackson INT, Ind.; Lafayette, Ind., VOR; *2,600. *2,100—MOCA.

Section 95.6082 *VOR Federal airway 82* is amended to read in part:

Bemidji, Minn., VOR; Acock DME Fix, Minn.; 3,400.
Acock DME Fix, Minn.; Brainerd, Minn., VOR; 3,000.

Section 95. 6086 *VOR Federal airway 86* is amended to read in part:

Billings, Mont., VOR; *Trail DME Fix, Mont.; 6,000. *6,100—MCA Trail DME Fix, southeastbound.

Section 95.6086 *VOR Federal airway 97* is amended to read in part:

*Lobster INT, Fla.; Addax INT, Fla.; **2,500. *3,000—MRA. **1,200—MOCA.
Addax INT, Fla.; Tallahassee, Fla., VOR; *2,000. *1,600—MOCA.

Section 95.6020 *VOR Federal airway 20* is amended to read in part:

Montgomery, Ala., VOR via N alter.; Seman INT, Ala., via N alter.; 2,300.

Section 95.6120 *VOR Federal airway 120* is amended to read in part:

Haines, Alaska, LF/RBN; Whitehorse, Yukoh Territory, Canada, VORTAC; 19, Haines.

V–307 is amended to delete:

Biorka Island, Alaska, VOR; Sisters Island, Alaska, VOR; 50, Biorka Island.

V–160 is amended by adding:

Fort Yukon, Alaska, VORTAC; Komakuk, Yukon Territory, Canada; 130, Fort Yukon.

(Secs. 307, 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1510).)

Issued in Washington, D.C., on June 5, 1974.

JAMES M. VINES,
Chief,
Aircraft Programs Division.

[FR Doc.74–13286 Filed 6–11–74;8:45 am]

[Docket No. 13588; Amdt. No. 121–109]

PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

Appendix A—First-Aid Kits

The purpose of this amendment to Appendix A of Part 121 of the Federal Aviation regulations is to extend the effective date of Amendment 121–107, which will amend the requirements for first-aid kits specified in Appendix A to Part 121.

Amendment 121–107 (published in 38 FR 35233) was prescribed with an effective date of June 24, 1974. However, the FAA has determined that Appendix A, as amended, will not permit non-inflatable splints to be stowed nearby a first-aid kit where size precludes stowage within the first-aid kit, nor do all of the Appendix A quantity and content requirements comply with certain federal specifications. Moreover, petitions received from certain Part 121 certificate holders indicate that the June 24, 1974, effective date for compliance is impractical because it does not permit sufficient lead time to accomplish the engineering, planning, scheduling, and installation of the new and additional first-aid kits for each aircraft type and configuration.

Since the FAA intends to issue a notice of proposed rulemaking and propose appropriate changes to the requirements for first-aid kits adopted in Amendment 121–107, the FAA considers it appropriate to extend until January 1, 1975, the effective date for compliance with the installation of first-aid kits requirements adopted in Amendment 121–107.

Since this amendment extends the effective date for compliance with Amendment 121–107, grants relief, and does not impose any additional burden on any person, I find that public notice and procedure hereon unnecessary, and that good cause exist for making this amendment effective on less than 30 days notice.

This amendment is made under the authority of sections 313(a), 601, and 604 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1354(a), 1421, and 1424), and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, Part 121 of the Federal Aviation regulations is amended, effective June 12, 1974, by deleting the June 24, 1974, effective date prescribed in Amendment 121–107 (published in the FEDERAL REGISTER December 26, 1973; 38 FR 35233), and by substituting in lieu thereof January 1, 1975, as the effective date of that amendment.

Issued in Washington, D.C., on June 3, 1974.

ALEXANDER P. BUTTERFIELD,
Administrator.

Subpart B—Headquarters Organization

701.51 The Council.
701.52 Definitions.
701.53 Council decisions by Members.
701.54 Council decisions by Representatives.
701.55 Associate Members.
701.56 Observers.
701.57 Official decisions of the Council.
701.58 Subordinate groups at headquarters.
701.59 Advisory committees.
701.60–701.70 [Reserved]
701.71 The Chairman.
701.72–701.75 [Reserved]
701.76 The Water Resources Council Staff.
701.77 Director—duties and responsibilities.
701.78 Director—delegation of authorities.
701.79 Selection policy for professional personnel.
701.80–701.99 [Reserved]

Subpart C—Field Organization

701.100 Field directors.
701.101 Field committees.
701.102 Existing committees.

AUTHORITY: Sec. 402, 79 Stat. 244; (42 U.S.C. 1962d–1).

Subpart A—Introduction

§ 701.1 General.

This part describes the organization established by the Water Resources Council in discharging its duties and responsibilities. The organization is designed to assure that Council Members will meet at least quarterly and consider and decide major matters before the Council. It provides that Representatives of Council Members together with the Director can take action when necessary and appropriate and, after consideration, submit recommendations to the Council Members on matters requiring their action. It also provides that the Council Members shall be continuously advised of the actions of their representatives and the Council staff. Council Members expect to participate personally in the work of the Council.

§ 701.2 Creation and basic authority.

The Water Resources Council was established by the Water Resources Planning Act (42 U.S.C. 1962–1962d–5). The rules and regulations of this part are promulgated under section 402 of the Act (42 U.S.C. 1962d–1).

§ 701.3 Purpose of the Water Resources Council.

It is the purpose of the Water Resources Council to effectuate the policy of the United States in the Water Resources Planning Act (hereinafter the Act) to encourage the conservation, development, and utilization of water and related land resources of the United States on a comprehensive and coordinated basis by the Federal Government, States, localities, and private enterprise

with the cooperation of all affected Federal agencies, States, local governments, individuals, corporations, business enterprises, and others concerned, within the limitations set forth in section 3 of the Act (42 U.S.C. 1962–1).

§ 701.4 Functions.

The functions of the Water Resources Council are:

(a) To maintain a continuing study and prepare periodically an assessment of the adequacy of supplies of water necessary to meet the water requirements in each water resource region in the United States and of the national interest therein.

(b) To maintain a continuing study of the relation of regional or river basin plans and programs to the requirements of larger regions of the Nation.

(c) To appraise the adequacy of administrative and statutory means for coordination and implementation of the water and related land resources policies and programs of the several Federal agencies and to make recommendations to the President with respect to Federal policies and programs.

(d) To establish, after consultation with appropriate interested Federal and non-Federal entities, and with the approval of the President, principles, standards, and procedures for Federal participation in the preparation of comprehensive regional or river basin plans and for the formulation and evaluation of Federal water and related land resources projects, including primary direct navigation benefits as defined by section 7a, P.L. 89–670.

(e) To coordinate schedules, budgets, and programs of Federal agencies in comprehensive interagency regional or river basin planning.

(f) To carry out its responsibilities under title II of the Act with regard to the creation, operation, and termination of Federal-State river basin commissions.

(g) To receive plans or revisions thereof submitted by river basin commissions in accordance with section 204(3) of the Act (42 U.S.C. 1962b(3)), and to review and transmit them, together with its recommendations, to the President in accordance with section 104 of the Act (42 U.S.C. 1962a–3).

(h) To assist the States financially in developing and participating in the development of comprehensive water and related land resources plans in accordance with title III of the Act.

(i) To perform such other functions as the Council may be authorized by law, executive orders, regulations, or other appropriate instructions to perform.

(j) To take such actions as are necessary and proper to implement the Act and to carry out the functions enumerated herein.

§ 701.5 Organization pattern.

(a) The Office of the Water Resources Council is composed of the Water Resources Council, the Chairman of the Water Resources Council, the Water Resources Council Staff headed by a Director, and Field Organizations within its jurisdiction.

(b) The Water Resources Council consists of the following members: The Secretary of the Interior, the Secretary of Agriculture, the Secretary of the Army, the Secretary of Health, Education, and Welfare, the Secretary of Transportation (pursuant to section 7a, P.L. 89–670), the Chairman of the Federal Power Commission, and the heads of such other agencies as may be added by statute.

(c) The Chairman of the Council is designated by the President.

(d) The Water Resources Council staff is employed, assigned duties and responsibilities, and supervised by the Director.

(e) Administrative consultative and technical committees are established and assigned duties and responsibilities by the Council and are supervised by the Director.

(f) Field organizations are established by or operate under the Council and include field committees formerly under the Inter-Agency Committee on Water Resources and the offices of the Chairmen of Federal-State River Basin Commissions established under title II of the Act.

§ 701.6 Location of office.

The Headquarters is located in the Washington, D.C. area.

§§ 701.7–701.50 [Reserved]

Subpart B—Headquarters Organization

§ 701.51 The Council.

Decisions of the Council are made as hereinafter described in §§ 701.53 and 701.54.

§ 701.52 Definitions.

(a) As used in this part the term "Member" means the Secretary of the Interior, the Secretary of Agriculture, the Secretary of the Army, the Secretary of Health, Education, and Welfare, the Secretary of Transportation, the Chairman of the Federal Power Commission, or Alternates appointed in accordance with § 701.53(a) when the Alternate is acting for one of the above-named.

(b) As used in this part the term "Representative" means an individual authorized by a "Member" to act for such member pursuant to § 701.54.

§ 701.53 Council decisions by Members.

Council decisions by Members with respect to the purpose stated in § 701.3 and the functions listed in § 701.4 are determined by majority vote of Members present except that decisions affecting the authority or responsibility of a Member, within the meaning of section 3(b) of the Act (42 U.S.C. 1962–1(b)), can be made only with his concurrence. In exceptional cases a Council decision may be made by written communication. Such decision requires unanimous approval of the Members.

(a) Each of the Secretaries named in § 701.5 and the Chairman of the Federal Power Commission shall designate in writing those individuals who may act as his Alternate in fulfilling his duties as a Member.

(b) A quorum for the transaction of business consists of four or more Members.

(c) Each Member has equal responsibility and authority in all decisions and actions of the Council and each Member and Associate Member shall have full access to all information relating to the performane of his duties and responsibilities.

(d) No vote shall be taken until each Member and Associate Member shall have had full opportunity to express his views.

(e) Members shall meet regularly at least quarterly, upon the call of the Chairman, or when requested by a majority of Members.

(f) The agenda and related documents for such meetings will be distributed to Members at least 7 days in advance.

(g) Matters specifically reserved for Council decision by Members are:

(1) Actions requiring Presidential action or approval.

(2) Approval of Annual Budget requests and the Annual Operating Program of the Office of the Water Resources Council.

(3) Decisions involving substantial policy issues.

(4) Delegations of authority.

(5) Determination that testimony taken or evidence received shall be taken under oath.

(6) Issuance of invitations to become Associate Members or Observers.

(7) Appointment and termination of the appointment of the Director.

§ 701.54 Council decisions by Representatives.

Council decisions may be made by Representatives except for matters specifically reserved in § 701.53(g) for Council decision by Members. Only one Representative of a Member shall participate officially in a Council decision by Representatives, but up to four individuals may be authorized to act as Representatives of a Member. Council decisions by Representatives shall be by unanimous agreement of the Representatives and the Director, or in his absence the Acting Director. In exceptional cases, a decision may be made by written communication.

(a) The Representatives and the Director shall work to coordinate the water and related land activities for which the Council Members are responsible.

(b) Each Representative and the Director has equal responsibility and authority for Council decisions and shall have full access to all information relating to the performance of his duties and responsibilities.

(c) The Director shall serve as Chairman of meetings of Representatives. The Acting Director, designated in accordance with § 701.77(b), shall serve as Chairman in the absence or disability of the Director or vacancy in that office.

(d) Regular meetings for the transaction of business shall be the second Wednesday of each month, and special meetings shall be at the call of the Di-

V39—114 JUN 12 74 XUM

rector or when requested by the Representatives of two Members. The Director will arrange, after consultation with the Representatives, the agenda of items for consideration; shall distribute the agenda for regular meetings and related documents to Representatives at least 7 days in advance of the meeting and as expeditiously as possible for special meetings; and shall insure that all matters within the purpose and scope of the functions of the Water Resources Council are presented for consideration. The Director shall include on the agenda for a regular meeting any matter proposed by any Representative. When items on the agenda have not been fully considered they shall take precedence, in the same order, over other matters to be placed on the agenda for the next regular meeting. The Director or a Representative may introduce matters not on the agenda or change the order of business at a particular meeting with the concurrence of a simple majority of the Representatives present.

(e) A quorum for the transaction of business consists of at least four Representatives of different Members and the Director or in his absence the Acting Director.

(f) Except for the appointment and tenure of the Director, matters specifically reserved for Council decision by Members should be considered by Representatives and the Director and proposals and recommendations formulated and presented at Council meetings of Members. The Council Members shall be advised of minority views, if any, on such proposals and recommendations.

(g) If unanimity of Representatives and the Director is not achieved, after full opportunity for expression of views and reasonable consideration, the Director shall upon his own initiative or upon the request of a Representative present the issue for consideration at the next meeting of Members of the Council. Presentation of the issue shall include a statement of the conflicting positions and recommendations for resolution.

(h) Upon the declaration by any Representative or the Director that an issue involves "substantial policy" (see § 701.-53(g)(3), it shall be referred with recommendations to a subsequent meeting of Council Members for decision.

§ 701.55 Associate Members.

(a) The Chairman, with concurrence of the Council, may invite the heads of other Federal agencies having authorities and responsibilities relating to the work of the Council to become Associate Members. Associate Members, on the same terms and conditions as Members, may designate persons to serve for them as Associate Members and to act for them as Associate Representatives.

(b) Associate Members and their Associate Representatives may participate with Members and Representatives in consideration of all matters relating to their areas of responsibility, except that their concurrence in a decision of the Council is not required. Where such decision affects the authority and responsibility of any non-Member agency within the meaning of section 3(b) of the Act, the Council shall request such agency to take concurrent action along the basis of the Council recommendations.

§ 701.56 Observers.

(a) Chairmen of River Basin Commissions established under title II of the Act shall be Observers.

(b) The Chairman, with the concurrence of the Council, may invite the heads of offices or other officials of the Executive Office of the President or other Federal agencies to become Observers.

(c) Observers may designate persons to attend Council meetings of Members and Representatives. Observers and their representatives will be furnished agenda and other materials on the same basis as Associate Members.

§ 701.57 Official decisions of the Council.

Official decisions of the Council shall be of record. Decisions of record shall be recorded in accepted minutes of duly called regular or special meetings or set forth in resolutions, memoranda, or other documents approved by Members or by Representatives and the Director. Decisions which would affect the authority and responsibilities of heads of other Federal agencies, including Associate Members, within the meaning of section 3(b) of the Act, shall only be made during a regular or special meeting of Members and recorded in the minutes thereof.

§ 701.58 Subordinate groups at headquarters.

The Council may establish administrative, consultative and technical committees. Task Forces; Hearing Panels; and other appropriate subordinate groups to aid in the performance of its work.

(a) Membership on each such group shall be decided by the Council. Members representing Federal agencies shall be named by such agencies. Others shall be named as the Council shall decide.

(b) The Council shall determine the Chairmanship of each such group.

(c) All such subordinate groups shall report regularly to the Council upon their own initiative, or as the Council may direct. In any event, they shall prepare a final report on their assignments prior to termination.

(d) The Director, in consultation with the Representatives, may establish task forces and other subordinate groups to aid in the performance of his duties and responsibilities. The Director shall decide the chairmanship and membership of such groups. Members representing Federal agencies shall be named by such agencies.

(e) Subordinate groups shall be appointed for specific periods and termination dates shall be set forth in establishing documents.

(f) Each duly constituted subordinate group will be provided administrative and secretarial support by the Water Resources Council Staff to the extent possible, directly or through arrangements with other Federal agencies.

§ 701.59 Advisory committees.

The Council may establish standing and ad hoc advisory committees. The establishment, operation, and termination of such committees shall be in accordance with the Federal Advisory Committee Act (PL 92-463) and other pertinent law and directives.

§§ 701.60–701.70 [Reserved]

§ 701.71 The Chairman.

(a) The Chairman shall preside at Council meetings of Members.

(b) The Chairman is the official spokesman of the Council and represents it in its relations with the Congress, the States, Federal agencies, persons, or the public. He shall from time to time report, on behalf of the Council, to the President. He shall keep the Council apprised of his actions under this section.

(c) The Chairman shall request the heads of other Federal agencies to participate with the Council when matters affecting their responsibilities are considered by the Council.

(d) In the case of absence, disability, or vacancy, the acting Chairman shall be, in order of precedence, as designated (1) by the President (2) by the Chairman from among the Members, or (3) by the Council from among the Members.

§§ 701.72–701.75 [Reserved]

§ 701.76 The Water Resources Council Staff.

The Water Resources Council Staff (hereinafter the Staff) serves the Council and the Chairman in the performance of their functions and in the exercise of their authorities in accordance with the Act, the rules and regulations and other decisions of the Council, and all other laws, rules, regulations, and orders applicable to the Water Resources Council, and will be organized in accordance with a structure approved by the Council.

§ 701.77 Director—duties and responsibilities.

In addition to his role as Chairman of Representatives in Council meetings, the Director acts as the principal executive officer for the Council and head of the staff. He shall see to the faithful execution of the policies, programs, and decisions of the Council; report thereon to the Council from time to time or as the Council may direct; administer the office and staff of the Council within the limits of the Annual Budget and the Annual Operating Program related thereto; make recommendations to the Council and the Chairman relating to the performance of their functions and the exercise of their authorities; and facilitate the work of the Council and the Chairman. His duties and responsibilities include, but are not limited to, the following:

(a) Acting for the Chairman, represents the Council in its relations with the Congress, States, Federal agencies, persons, or the public under the general supervision and direction of the Council.

(b) Establishes the line of succession as Acting Director among the other officers of the Council below the Deputy Director.

(c) Directs the Staff in its service to the Council and the Chairman in the performance of their functions and in the exercise of their authorities. The Director is responsible to the Council for the organization of the Staff, employment and discharge of personnel, training and personnel development program, assignment of duties and responsibilities, and the conduct of its work.

(d) Insures that the quality of the work of the Staff in its studies, reports, and in other assignments is high, that the professional integrity of its personnel is respected, and that its overall perspective and independence of judgment with regard to water and related land resources matters is approximately maintained within the context of the interagency, intergovernmental, and other staff collaboration that is both necessary and desirable in the fulfillment of the purpose of the Council as set forth in § 701.3.

(e) Prepares and recommends reports on legislation, Executive orders, and other documents requested of the Council.

(f) Prepares and recommends an Annual Budget request in accordance with policies, rules, and regulations applicable thereto. During its consideration by the Office of Management and Budget the President and the Congress, the Director shall seek acceptance of the proposed Annual Budget by every appropriate means. On behalf of the Council, he is authorized in his discretion to make appeals and agree to adjustments. However, to the extent that time and circumstances permit, he shall consult with and obtain the approval of the Council on all substantial appeals and adjustments.

(g) Prepares and recommends the Annual Operating Program to carry out the work of the Council, within the appropriations provided by the Congress and allowances approved by the Office of Management and Budget.

(h) Prepares and recommends proposed rules and regulations, including proposed delegations of authority, for carrying out the provisions of the Act, or other provisions of law which are administered by the Council.

(i) Prepares and recommends reports and materials for public information that are explanatory of the work and accomplishments of the Council.

(j) Appoints representatives of the Staff on Subordinate Groups established by the Council on which the Staff has membership. (See § 701.59.)

(k) Establishes and enforces administrative rules and regulations pertaining to the Staff consistent with applicable laws, Executive orders, Budget Circulars, and other regulations and orders.

§ 701.78 Director—delegation of authorities.

(a) Under the authority of section 403 of the Act (42 U.S.C. 1962d-2), the Director is delegated authority to—

(1) Hold hearings, sit and act at such times and places, take such testimony, receive such evidence, and print or otherwise reproduce and distribute so much of its proceedings and reprints thereon as he may deem advisable.

(2) Acquire, furnish, and equip such office space as is necessary.

(3) Use the U.S. mails in the same manner and upon the same conditions as other departments and agencies of the United States.

(4) Employ and fix the compensation of such personnel below the grade of GS-16 as he deems advisable and after consultation with the Representatives such personnel of GS-16 and above in accordance with the civil service laws and the Classification Act of 1949, as amended; assign duties and responsibilities among such personnel and supervise personnel so employed.

(5) Procure services as authorized by section 15 of the Act of August 2, 1946 (5 U.S.C. 3109, at rates not to exceed $100 per diem for individuals.

(6) Purchase, hire, operate, and maintain passenger motor vehicles.

(7) Utilize and expend such funds as are deemed advisable for proper administration of the authorities delegated herein. However, contracts and individual modifications thereof in excess of $25,000 shall be submitted to the Council for approval before execution.

(8) Request any Federal department or agency (i) to furnish to the Council such information as may be necessary for carrying out its functions and as may be available to or procurable by such department or agency, and (ii) to detail personnel to temporary duty with the Council on a reimbursable basis.

(9) Make available for public inspection during ordinary office hours all appropriate records and papers of the Council.

(10) Compute and certify for payment funds to the States in accordance with standards and formula approved by the Council, and perform related functions of the Council contained in section 305 of the Act.

(11) Serve as a duly authorized representative of the Chairman of the Council for the purpose of audit and examination of any pertinent books, documents, papers, and records of the recipient of a grant under title III of the Act, and recommend to the Chairman the appointment of further representatives as may be necessary for such function.

(12) Review, for compliance, State programs approved under title III; conduct full inquiries as the Council may direct; and recommend for Council decision such withholding or reinstatement of payments as is appropriate and authorized by section 304 of the Act.

(b) The authorities delegated in this section may be redelegated by the Director to the extent determined by him to be necessary and desirable for proper administration.

§ 701.79 Selection policy for professional personnel.

In the selection for employment of the professional staff as a whole, the Director shall be guided by the following criteria:

(a) Outstanding character and competence—both personal and professional.

(b) Spread and balance of training and experience in the several relevant professions—ecology; economics; economic geography; engineering; fish and wildlife biology; forestry; hydrology; irrigation; landscape architecture; law; political science; recreation; sanitary engineering; soil conservation; urban and other land planning; etc.

(c) Diversity of prior identification and experience, both planning and operating in Washington and in the field; including personnel with prior identification and experience with Federal, State, or local government, private enterprise, or university teaching and research.

§§ 701.80–701.99 [Reserved]

Subpart C—Field Organization

§ 701.100 Field Directors.

The Council may employ as professional staff Field Directors who shall be designated as chairman of committees or groups established by the Council to develop and prepare regional or river basin assessments or plans. Such Field Directors shall perform their official functions at locations established by the Council.

§ 701.101 Field committees.

The Council may establish or continue already established regional committees to carry out assigned functions at field level.

701.102 Existing committees.

Field Committees operating under the Water Resources Council (formerly under the Inter-Agency Committee on Water Resources) are as follows:

Pacific Southwest Inter-Agency Committee
Arkansas-White-Red Inter-Agency Committee
Southeast Basins Inter-Agency Committee

WARREN D. FAIRCHILD,
Director.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Lincomycin, Monensin Sodium, 3-Nitro-4-Hydroxyphenylarsonic Acid, Robenidine Hydrochloride

The Commissioner of Food and Drugs has evaluated the following new animal drug applications filed by The Upjohn Co., Kalamazoo, MI 49001:

1. Supplemental application No. 92-482V proposing safe use of 2 grams per ton of lincomycin combined with monensin sodium at a level of 110 grams per ton as monensic acid activity for improved

V39—114 JUN 12 74 XUM

feed efficiency in floor-raised broiler chickens.

2. New animal drug application No. 93-106V proposed safe use of 2 grams per ton of lincomycin combined with 30 grams per ton of robenidine hydrochloride for use in chicken feed.

3. New animal drug application No. 92-522V proposing safe use of 2 grams per ton of lincomycin combined with 15 to 45 grams per ton of 3-nitro-4-hydroxyphenylarsonic acid combined with monensin sodium equivalent to 110 grams per ton monensic acid activity in chicken feed. The applications are approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 121 and 135e are amended as follows:

1. In § 121.262(c) by adding a new item 1.23 to Table 1, as follows:

§ 121.262 3-Nitro-4-hydroxyphenylarsonic acid.

• • • • •

(c) • • •

TABLE 1.—*3-Nitro-4-hydroxyphenylarsonic acid in complete chicken and turkey feed*

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
•	•	•	•	•	•
1.23 3-Nitro-4-hydroxyphenylarsonic acid.	15-45	Monensin sodium. + Lincomycin.	110 (as monensic acid activity). 2	For floor-raised broiler chickens; do not feed to laying chickens; feed continuously as the sole ration; withdraw 5 days before slaughter; as sole source of organic arsenic; 3-nitro-4-hydroxyphenyl-arsonic acid as provided by code No. 031, § 135.501(c) of this chapter; monensin sodium as provided by code No. 014, § 135.501(c) of this chapter; lincomycin as provided by code No. 037, § 135.501(c) of this chapter; approval for this combination granted to firm No. 037 as identified in § 135.501(c) of this chapter.	For increase in rate of weight gain; as an aid in the prevention of coccidiosis caused by *E. necatrix*, *E. tenella*, *E. acervulina*, *E. brunetti*, *E. mivati*, and *E. maxima*.
•	•	•	•	•	•

2. In § 135e.49 by adding a new paragraph (e)(2) (viii) and (ix) to read as follows:

§ 135e.49 Lincomycin.

• • • • • • •

(e) • • •
(2) • • •
(viii) Robenidine hydrochloride in accordance with § 135e.66.
(ix) 3-Nitro-4-hydroxyphenylarsonic acid, monensin sodium in accordance with § 121.262 of this chapter and § 135e.50.

3. In § 135e.50(f) by revising the text under the "Indications for use" column for item 5 and by adding a new item 6 to the table as follows:

§ 135e.50 Monensin; monensin sodium.

• • • • • • •

(f) • • •

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use

4. In § 135e.66(f) by revising the table as follows:

§ 135e.66 Robenidine hydrochloride.

• • • • •

(f) • • •

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1. Robenidine hydrochloride.	30 (0.0033%)	....		For broiler or fryer chickens only; do not feed to layers; feed continuously as the sole ration; withdraw 5 days prior to slaughter.	As an aid in the prevention of coccidiosis caused by *Eimeria mivati*, *E. brunetti*, *E. tenella*, *E. acervulina*, *E. maxima* and *E. necatrix*.
2. Robenidine hydrochloride.	30 (0.0033%)	Lincomycin.	2	For floor-raised broiler or fryer chickens only; do not feed to laying hens; feed continuously as the sole ration; withdraw 5 days before slaughter; lincomycin as provided by code No. 037, § 135.501(c) of this chapter; approval for this combination granted to firm No. 037 as identified in § 135.501(c) of this chapter.	For increase in rate of gain and improved feed efficiency and as an aid in prevention of coccidiosis caused by *Eimeria mivati*, *E. brunetti*, *E. tenella*, *E. acervulina*, *E. maxima* and *E. necatrix*.

Effective date. This order shall be effective June 12, 1974.

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i).)

Dated: June 5, 1974.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.74-13303 Filed 6-11-74;8:45 am]

Title 38—Pensions, Bonuses, and Veterans' Relief

CHAPTER I—VETERANS ADMINISTRATION

PART 21—VOCATIONAL REHABILITATION AND EDUCATION

Subpart D—Administration of Educational Benefits; 38 U.S.C. Chapters 34, 35 and 36

PAYMENT OF BENEFITS DURING EMERGENCY CLOSING OF SCHOOL

Section 21.4205(c)(1) provides for continued payment of educational benefits within a certified period of enrollment during which the school is closed due to Executive order of the President or for any emergency situation so authorized by Public Law 93-208, effective December 28, 1973. A minor editorial change, unrelated to the substantive change, is being made in § 21.4206(c) designed to reflect agency policy to avoid any appearance of seeming to preclude benefits for female veterans.

It is found that it is impracticable and contrary to the public interest to give preliminary notice in the FEDERAL REGISTER (§ 1.12 of this chapter) because of the need for an immediate liberalization of the requirements for awarding educational assistance for veterans and eligible persons.

1. In § 21.4205, paragraph (c)(1) is amended to read as follows:

§ 21.4205 Absences.

• • • • •

(c) *Reporting.* (1) Veterans and eligible persons must report each full day of absence from scheduled attendance as well as days when the school was closed for local and school holidays and, if reported enrollment was on an ordinary school year basis, intervals between terms, quarters or semesters. When the school is closed for the weekend, those days will not be reported. However, if classes are normally scheduled for Saturday and Sunday, absences must be reported. At the discretion of the Administrator, days of absence will not be reported for days of nonattendance within a certified period of enrollment during which the school is closed under an established policy based upon an Executive order of the President or due to an emergency situation.

• • • • •

2. In § 21.4206, paragraph (c) is amended to read as follows:

§ 21.4206 Reporting fee.

• • • • •

(c) An additional $1 will be paid to those institutions who have delivered to the veteran or eligible person at registration the educational assistance check representing the advance payment. In order to receive this fee, the institution shall submit to the Veterans Administration a certification of delivery of the check. If the check is not delivered within 30 days after commencement of the student's program, the check is to be returned to the Veterans Administration. (38 U.S.C. 1784)

(72 Stat. 1114; 38 U.S.C. 210)

Section 21.4205(c)(1) is effective December 28, 1973.

Approved: June 5, 1974.

By direction of the Administrator.

[SEAL] R. L. ROUDEBUSH,
Deputy Administrator.

[FR Doc.74-13373 Filed 6-11-74;8:45 am]

Title 39—Postal Service

CHAPTER I—U.S. POSTAL SERVICE

SUBCHAPTER C—POST OFFICE SERVICES [DOMESTIC MAIL]

PART 111—GENERAL INFORMATION ON POSTAL SERVICE

The purpose of this document is to incorporate by reference Chapter I of the Postal Service Manual pursuant to the policy and provisions of 5 U.S.C. 552(a) relating to material deemed published in the FEDERAL REGISTER when the material is readily available to the public. Chapter I of the Manual contains provisions which are substantially identical to the present Subchapter C of 39 CFR Chapter I concerning domestic mail service; therefore, this document involves no substantive change in the regulations.

Chapter I of the Manual is and will remain readily available to all users of the U.S. Postal Service at all United States Post Offices and classified stations and branches during normal business hours. The Postal Service also issues a publication entitled Instructions for Mailers, which reproduces Chapter I of the Manual almost in its entirety, omitting merely a handful of sections containing procedures of interest only to postal employees. This publication is sold in looseleaf, subscription form by the Superintendent of Documents for $5.00. The entire Postal Service Manual, comprising six chapters, may also be purchased in looseleaf, subscription form for $33.00 from the Superintendent of Documents, Washington, DC 20402. The entire Manual may be examined during normal business hours at any of the more than 31,000 United States Post Offices.

All amendments to Chapter I of the Manual will be noticed by publication in the FEDERAL REGISTER and filed at the Office of the Federal Register as they occur. Each notice will recite the issuance of a numbered and dated Transmittal Letter, and will describe the amendments made to particular sections of Chapter I of the Manual. The amended sections will be listed in the daily List of Parts Affected and in the monthly and annual List of CFR Sections Affected. This should assure proper access to these regulations through the finding aids of the Federal Register system. In addition, the Postal Service maintains a subject-matter index to the Manual for the convenience of users, which will be filed at the Office of the Federal Register and periodically updated. For an indefinite period, the initial subscription price of the Manual will entitle subscribers to receive copies of all amendments (including amendments of Chapter I) when issued.

This change in the manner of publication of Postal Service regulations governing domestic mail service establishes a more efficient and economical means of making the material available to the mailing public. It will greatly reduce the amount of duplication of published material appearing in the Manual, the FEDERAL REGISTER and the *Code of Federal Regulations*. The Postal Service believes this can be accomplished without any impairment to the value of the Federal Register system. Indeed, the usefulness of the FEDERAL REGISTER system will be enhanced because the time between the issuance of a change to Chapter I of the Manual and notice of the change in the FEDERAL REGISTER will be shortened. This would come about in part through the elimination of time-consuming preparation of documents for printing in the FEDERAL REGISTER, whose format and internal paragraphing system differs from that of the Manual.

Soon after the effective date of this document users of the Code of Federal Regulations will have the 1974 volume of the Code of Federal Regulations. Each amendment of Subchapter C of the 1974 volume will appear only in the form of a "notice of amendment" of specified sections of Chapter I of the Manual. The Manual sections correspond to the sections in the 1974 volume.

The Postal Service is exempt from the provisions of 5 U.S.C. 553 by reason of 39 U.S.C. 410(a). However, in the spirit of those provisions and notwithstanding the immediate effectiveness of this document, the Postal Service invites public comment upon the effects of this approach to postal regulations and of their availability to the mailing public.

There will be almost one year's experience with this new system before the basic material in the 1974 volume of CFR would be dropped. Accordingly, during this period the Postal Service will receive public comments concerning the new format for postal regulations and information and the experience of working with this system. Comments should identify this document as the basis for communication and be directed to: W. Allen Sanders, Assistant General Counsel, Legislative Division, Law Department, Room 9112, 475 L'Enfant Plaza West, SW., Washington, D.C. 20260.

(5 U.S.C. 552(a), 39 U.S.C. 401, 404, 407, 408, 3001-3011, 3201-18, 3403-05, 3601, 3621, and 50 U.S.C. 1463-64.)

ROGER P. CRAIG,
Deputy General Counsel.

Accordingly, effective July 1, 1974, Subchapter C is amended by adding Part 111 to read as follows:

Sec.
111.1 Postal Service Manual; incorporation by reference of general information on postal services.
111.2 Availability of Chapter I of the Postal Service Manual.
111.3 Amendments to Chapter I of the Postal Service Manual.
111.4 Approval of the Director of the Federal Register.
111.5 Contents of Chapter I of the Postal Service Manual.

V39 114 JUN 12 74 XUM

Authority: 5 U.S.C. 552(a), (39 U.S.C. 401, 404, 407, 408, 3001–3011, 3201–18, 3403–3405, 3601, 3621; 50 U.S.C. 1463, 1464.)

§ 111.1 Postal Service Manual: incorporation by reference of general information on postal services.

Section 452(a) of title 5, United States Code, relating to the public information requirements of the Administrative Procedure Act, provides in pertinent part that "* * * matter reasonably available to the class of persons affected thereby is deemed published in the Federal Register when incorporated by reference therein with the approval of the Director of the Federal Register." In conformity with that provision, and with 39 U.S.C. section 410(b)(1), and as provided in this part, the United States Postal Service hereby incorporates by reference in this part, Chapter I of its Postal Service Manual, a looseleaf publication published and maintained by the U.S. Postal Service, Washington, DC, 20260.

§ 111.2 Availability of Chapter I of the Postal Service Manual.

(a) Copies of Chapter I of the Postal Service Manual are available for reference and inspection upon request at the National Headquarters and regional offices of the U.S. Postal Service and at all United States Post Offices and classified stations and branches during normal business hours. Regional offices are located in New York, Philadelphia, Memphis, Chicago, and San Francisco.

(b) A copy of Chapter I of the Postal Service Manual, together with each amendment of it, is on file with the Director, Office of the Federal Register, National Archives and Records Service, General Services Administration, at 1100 "L" Street, NW., Room 8401, Washington, D.C., 20408.

(c) Copies of the entire Postal Service Manual may be purchased from the Superintendent of Documents, Washington, D.C., 20402 for $33.00. This price includes entitlement to receive, for an indefinite period, changes in the Postal Service Manual which may be published from time to time. A companion publication entitled Instructions for Mailers excerpts all portions of Chapter I which are directed to the mailing public. This publication is sold to the public on a subscription basis for $5.00 by the Superintendent of Documents.

§ 111.3 Amendments to Chapter I of Postal Service Manual.

Notices of changes made in Chapter I of the Postal Service Manual will periodically be published in the Federal Register. The text of such changes will be filed with the Director, Office of the Federal Register. Subscribers to the Postal Service Manual will automatically receive the amendments from the Government Printing Office.

§ 111.4 Approval of the Director of the Federal Register.

(a) Incorporation by reference of Chapter I of the Postal Service Manual was approved by the Director of the Federal Register under 5 U.S.C. 552(a) and 1 CFR Part 51.

(b) This approval was granted on June 7, 1974 for the period of one year at the conclusion of which it will expire without further action unless renewed and extended by the Director upon application by the U.S. Postal Service.

§ 111.5 Contents of Chapter I of Postal Service Manual.

Chapter I of the Postal Service Manual contains the following parts:

(a) Subchapter 110—General Information on Postal Service.
(1) Part 111—What this chapter covers.
(2) Part 112—Domestic mail service.
(3) Part 113—Service in post offices.
(4) Part 114—Complaints.
(5) Part 115—Mail treated in confidence.
(b) Subchapter 120—Preparation for mailing.
(1) Part 121—Packaging.
(2) Part 122—Addresses.
(3) Part 123—Nonmailable matter.
(4) Part 124—Matter mailable under special rules.
(5) Part 125—Second-class bulk mailings.
(6) Part 126—Mail addressed to military post offices overseas.
(7) Part 127—Mail sent via Department of State to U.S. foreign service personnel abroad.
(c) Subchapter 130—Mail classification and rates.
(1) Part 131—First class.
(2) Part 132—Second class.
(3) Part 133—Controlled circulation publications.
(4) Part 134—Third class.
(5) Part 135—Fourth class.
(6) Part 136—Air and priority mail.
(7) Part 137—Official mail.
(8) Part 138—For the blind and other handicapped persons.
(9) Part 139—Mixed classes.
(d) Subchapter 140—Postage.
(1) Part 141—Envelopes, postal cards, aerogrammes.
(2) Part 142—Stamps (adhesive).
(3) Part 143—Precanceled stamps.
(4) Part 144—Postage meters and meter stamps.
(5) Part 145—Permit imprints.
(6) Part 146—Prepayment and postage due.
(7) Part 147—Exchanges and refunds.
(8) Part 148—Revenue deficiencies developed by audit.
(e) Subchapter 150—Collection and delivery.
(1) Part 151—General.
(2) Part 152—Who may carry letters.
(3) Part 153—Mail deposit and collection.
(4) Part 154—Conditions of delivery.
(5) Part 155—City delivery.
(6) Part 156—Rural service.
(7) Part 157—Star route box delivery service.
(8) Part 158—Forwarding mail.
(9) Part 159—Undeliverable mail.
(f) Subchapter 160—Special mail services.
(1) Part 161—Registered mail.
(2) Part 162—Insured mail.
(3) Part 163—COD mail.
(4) Part 164—Indemnity claims.
(5) Part 165—Certificates of mailing.
(6) Part 166—Special delivery.
(7) Part 167—Special handling.
(8) Part 168—Certified mail.
(9) Part 169—Post office boxes.
(g) Subchapter 170—Nonmail services.
(1) Part 171—Money orders.
(2) Part 172—Nonpostal stamps and bonds.
(3) Part 173—Postal savings.

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Utah Plan; Correction

On June 22, 1973 (38 FR 16568), a disapproval of Utah's implementation plan for the State's failure to meet the requirements of § 51.20 was entered in the Federal Register. The notice was incorrect in that a previously revoked section (§ 52.2329) was amended by adding a paragraph (b). To correct this error, the disapproval notice for Utah is republished below in the proper format.

(42 U.S.C. 1857c–5)

Dated: June 6, 1974.

Roger Strelow,
Acting Assistant Administrator for Air and Waste Management.

Subpart TT is amended by adding § 52.2329 to read as follows:

§ 52.2329 Resources.

(a) The requirements of § 51.20 of this chapter are not met because the transportation control plan does not contain a sufficient description of resources available to the State and local agencies and of additional resources needed to carry out the plan during the 5-year period following submittal.

[FR Doc.74–13538 Filed 6–11–74;8:45 am]

SUBCHAPTER E—PESTICIDE PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carbofuran

Two petitions (PPs 1F1163 and 2F1283) were filed by FMC Corp., 100 Niagara Street, Middleport, NY 14105, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of tolerances for combined residues of the insecticide carbofuran (2,3-dihydro-2,2-dimethyl-7-benzofuranyl *N*-methylcarbamate) and its metabolites 2,3-dihydro-2,2-dimethyl-3-hydroxy-7-benzofuranyl-*N*-methylcarbamate in or on the raw agricultural commodities sugar beet tops at 1 part per million and sugar beet roots at 0.1 part per million (PP 1F1163) and sorghum fodder and forage at 0.5 part per million and sorghum grain at 0.1 part per million (PP 2F1283).

Subsequently, the petitioner amended the petitions by proposing that:

a. The existing regulation (§ 180.254) be expanded to include the phenolic metabolites of carbofuran (2,3-dihydro-2,2-dimethyl-7-benzofuranol, 2,3-dihydro-2,2-dimethyl-3-oxo-7-benzofuranol and 2,3-dihydro-2,2-dimethyl-3,7-benzofurandiol).

b. The established tolerance of 20 parts per million for residues in or on alfalfa hay be increased to 40 parts per million (of which no more than 20 parts per million are carbamates).

c. The established tolerance of 5 parts per million for residues in or on corn fodder and forage be increased to 25 parts per million (of which no more than 5 parts per million are carbamates).

d. The established tolerance of 5 parts per million for residues in or on alfalfa (fresh) be increased to 10 parts per million (of which no more than 5 parts per million are carbamates).

e. The established tolerance of 1 part per million for residues in or on peanut hulls be increased to 5 parts per million (of which no more than 1 part per million is carbamates).

f. The proposed tolerance of 1 part per million for residues in or on sugar beet tops (PP 1F1163) be increased to 2 parts per million (of which not more than 1 part per million is carbamates).

g. The proposed tolerance of 0.5 part per million for residues in or on sorghum fodder and forage (PP 2F1283) be increased to 3 parts per million (of which no more than 0.5 part per million is carbamates).

h. The established tolerance of 0.2 part per million for residues in or on rice straw be increased to 1 part per million (of which no more than 0.2 part per million is carbamates).

i. The established tolerance of 0.02 part per million (negligible residue) for residues in milk be increased to 0.1 part per million (of which no more than 0.02 part per million (negligible residue) is carbamates).

j. The established tolerances of 0.1 part per million for residues in or on corn grain and peanuts be increased to 0.2 part per million (of which no more than 0.1 part per million is carbamates).

k. The proposed tolerance of 0.1 part per million in or on sugar beet roots be changed to read "0.1 part per million in or on sugar beets."

Based on consideration given the data submitted in the petitions and other relevant material, it is concluded that:

1. The insecticide is useful for the purpose for which the tolerances are being established.

2. There is no reasonable expectation of residues in eggs or poultry and § 180.6(a)(3) applies. Established tolerances for residues in meat and the proposed tolerance for residues in milk are adequate to cover residues resulting from the established and proposed uses and § 180.6(a)(2) and (1) apply respectively to meat and milk.

3. The tolerances established by this order will protect the public health.

4. The tolerances listed in § 180.254a for carbofuran and its metabolites should be combined with the tolerances established by this order.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (39 FR 18805), Part 180 is amended as follows:

§ 180.254a [Deleted]

1. By deleting § 180.254a *Carbofuran and its metabolites (including phenolic metabolites); tolerances for residues.*

2. By revising § 180.254 to read as follows:

§ 180.254 Carbofuran; tolerances for residues.

Tolerances are established for combined residues of the insecticide carbofuran (2,3-dihydro-2,2-dimethyl-bensofuranyl-*N*-methylcarbamate), its carbamate metabolite 2,3-dihydro-2,2-dimethyl-3-hydroxy-7-benzofuranyl-*N*-methylcarbamate, and its phenolic metabolites 2,3-dihydro-2,2-dimethyl-7-benzofuranol, 2,3-dihydro-2,2-dimethyl-3-oxo-7-benzofuranol, and 2,3-dihydro-2,2-dimethyl-3,7-benzofurandiol in or on the following raw agricultural commodities:

40 parts per million in or on alfalfa hay (of which no more than 20 parts per million are carbamates).

25 parts per million in or on corn fodder and forage (of which no more than 5 parts per million are carbamates).

10 parts per million in or on alfalfa (fresh) (of which no more than 5 parts per million are carbamates).

5 parts per million in or on peanut hulls (of which no more than 1 part per million is carbamates).

3 parts per million in or on sorghum fodder and forage (of which no more than 0.5 part per million is carbamates).

2 parts per million in or on sugar beet tops (of which no more than 1 part per million is carbamates).

1 part per million in or on peppers, potatoes (of which no more than 0.1 part per million is carbamates), and rice straw (of which no more than 0.2 part per million is carbamates).

0.2 part per million in or on corn grain and peanuts (of each, no more than 0.1 part per million is carbamates) and rice.

0.1 part per million in milk (of which no more than 0.02 part per million (negligible residue) is carbamates).

0.1 part per million in or on bananas (negligible residue), sorghum grain, sugar beets, and sugarcane.

0.05 part per million in the fat, meat, and meat byproducts of cattle, goats, hogs, horses, and sheep (of which no more than 0.02 part per million (negligible residue) is carbamates).

Any person who will be adversely affected by the foregoing order may at any time on or before July 12, 1974 file with the Hearing Clerk, Environmental Protection Agency, Room 1019E, 4th and M Streets, SW., Waterside Mall, Washington, D.C. 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective June 12, 1974.

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: June 7, 1974.

Henry J. Korp,
Deputy Assistant Administrator for Pesticide Programs.

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

PART 414—ORGANIC CHEMICALS MANUFACTURING POINT SOURCE CATEGORY

Corrections

In FR Doc. 74–9355 appearing at 39 FR 14676–14683 of the Federal Register of April 25, 1974, the Environmental Protection Agency published final effluent guidelines, and standards of performance and pretreatment standards for new sources, for the major organic products segment of the organic chemicals manufacturing point source category. As published, the final rules contained several errors. Accordingly, in order to correct those errors, the following changes are made, effective immediately.

1. Page 14676, column 1, first paragraph, fifth line, after the word "effluent", delete the comma.

2. Page 14677, column 3, first paragraph, line 12, delete the comma after "BATEA" and insert a period.

3. Page 14678, column 2, section F, sixth line, after the word "Organic", delete the word "Chemicals".

§ 414.20 [Amended]

4. Page 14679, column 3, in the table under the heading "B2-process descriptions", change the word "n-butane" in "Oxidative-dehydrogenation of n-butane" to "butylene".

§ 414.22 [Amended]

5. Page 14680, column 1, last paragraph (b), change the word "n-butane" in "oxidative-dehydrogenation of n-butane" to "butylene".

§ 414.23 [Amended]

6. Page 14680, column 2, last paragraph (b), change the word "n-butane"

V39—114 JUN 12 74 XUM

in "oxidative-dehydrogenation of n-butane" to "butylene".

§ 414.25 [Amended]

7. Page 14680, column 3, last paragraph (b), change the word "n-butant in "oxidative-dehydrogenation of n-butane" to "butylene".

8. Page 14680, column 3, § 414.25(b), in the table under the heading "English units (pounds per 1,000 of product)" in the line beginning "TSS____", delete the number ".23" in the second column and substitute therefor ".32".

§ 414.35 [Amended]

9. Page 14683, column 1, § 414.35(a), in the table under the heading "Metric units (kilograms per 1,000 kg of product), in the line beginning "TSS____", delete the number ".94" in the second column and substitute therefor ".094".

10. Page 14683, column 1, § 414.35(a), in the table under the heading "English units (pounds per 1,000 lb of product), in the line beginning "TSS____", delete the number ".94" in the second column and substitute therefor ".094".

Dated: June 6, 1974.

JOHN QUARLES,
Acting Administrator.

Title 41—Public Contracts and Property Management

CHAPTER 3—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 3-7—CONTRACT CLAUSES

Subpart 3-7.50—Special Contract Clauses

CONFIDENTIALITY OF INFORMATION

Chapter 3, Title 41, Code of Federal Regulations, is amended as set forth below. Section 3-7.5010 is being revised to state the purpose of the Government's review of the data submitted by the contractor under the terms of the "Confidentiality of Information" clause.

It is the general policy of the Department of Health, Education, and Welfare to allow time for interested parties to participate in the rule making process. However, since the revision is being made in response to a letter from a member of the general public and the clause was previously published in the FEDERAL REGISTER, the public rule making process is deemed unnecessary in this instance.

1. Section 3-7.5010, Confidentiality of information is hereby deleted and the following is substituted in lieu thereof:

§ 3-7.5010 Confidentiality of information.

The clause set forth below shall be used in all contracts where the contractor shall have access to or is expected to generate information which relates to individual person(s) or institution(s). In accordance with the terms of the clause, the contracting officer must designate such information in the contract.

CONFIDENTIALITY OF INFORMATION

The contracting officer may, from time to time, identify elsewhere in this contract any confidential data that the Government will furnish to the contractor or that the contractor is expected to generate.

The contractor shall not disclose any confidential information obtained in the performance of this contract. Any presentation of any statistical or analytical material or reports based on information obtained from the studies covered by this contract will be subject to review by the Government's project officer before publication or dissemination in order to determine whether safeguards of privacy have been observed.

(5 U.S.C. 301; 40 U.S.C. 486(c))

Effective date. These amendments shall become effective June 12, 1974.

Dated: June 6, 1974.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

PART 5A-2—PROCUREMENT BY FORMAL ADVERTISING

Subpart 5A-2.2—Solicitation of Bids

UNSOLICITED SAMPLES, DESCRIPTIVE LITERATURE OR BRAND NAME REFERENCES

This change to the General Services Administration Procurement Regulations (GSPR) provides for a notice entitled "Notice Concerning Unsolicited Samples, Descriptive Literature, or Brand Name References" which emphasizes that the Government is not responsible for determining whether or not unsolicited material offered with a bid meets the requirements of the specifications.

Section 5A-2.202-70 is revised as follows:

§ 5A-2.202-70 Unsolicited samples, descriptive literature, or brand name references.

(a) The following provision (Article 25 of GSA Form 1424) shall be inserted in each invitation for bids:

UNSOLICITED SAMPLES, DESCRIPTIVE LITERATURE OR BRAND NAME REFERENCES

Where procurement is effected under specifications or purchase descriptions (other than "brand name or equal") and the Government does not specifically request bid samples, descriptive literature, or references to brand names, models, or part numbers as an integral part of the bid, bids which are accompanied by any of the foregoing will be rejected unless it is clear from the bid or accompanying papers that the samples, descriptive literature, or references to brand names, models, or part numbers are not intended to qualify the bid and that the bidder proposes to furnish items fully in accordance with the specifications or purchase descriptions. Where offers contain unsolicited material such as samples, descriptive literature, or references to brand names, models, or part numbers, the Government will not be responsible in any way for determining whether the items which are offered meet the Government's requirements set forth in the applicable specifications or purchase descriptions.

(b) The following notice shall be included in GSA Form 1602, Notice to Prospective Bidders:

NOTICE CONCERNING UNSOLICITED SAMPLES, DESCRIPTIVE LITERATURE, OR BRAND NAME REFERENCES

Bidders are cautioned that submission of unsolicited material may result in rejection of bids under the provisions of this solicitation (see Article 25 of GSA Form 1424). It is also emphasized that the Government will not be responsible for determining if unsolicited material offered meets the requirements of the specifications or purchase description of the solicitation.

(c) The following clause shall be included in Solicitations for Offers:

UNSOLICITED SAMPLES

Bidders are cautioned that the submission of unsolicited material will result in rejection of bids under the provisions of this solicitation unless it is clear from the bid or accompanying papers that the samples, descriptive literature, or references to brand names, models, or part numbers are not intended to qualify the bid and that the bidder proposes to furnish items fully in accordance with the specifications or purchase descriptions (see Article 25 of GSA Form 1424). It is also emphasized that the Government will not be responsible for determining if unsolicited material offered meets the requirements of the specifications or purchase description of the solicitation.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective on the date shown below.

Dated: May 30, 1974.

M. J. TIMBERS,
Commissioner, Federal Supply Service.

[FR Doc.74-13463 Filed 6-11-74;8:45 am]

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER E—SUPPLY AND PROCUREMENT

[FPMR Amdt. E-142]

PART 101-26—PROCUREMENT SOURCES AND PROGRAMS

Additional Supply Support To Federal Agencies

This amendment provides policy relating to the use by civil agencies of the inventory control points of the Military Departments as sources of supply, the acquisition by civil agencies of commodities in addition to petroleum products and electronic items from the Defense Supply Agency, and the purchase by all executive agencies of goods and services from the workshops of the blind and other severely handicapped persons.

The table of contents for Part 101-26 is amended as follows:

Subpart 101-26.6—Procurements Sources of the Department of Defense

101-26.601	[Reserved]
101-26.604	[Reserved]

Sec.	
101-26.605	Items other than petroleum products and electronic items available from the Defense Supply Agency.
101-26.606	Supply support available from the inventory control points of the Military Departments.

Subpart 101-26.7—Procurement Sources Other Than GSA and the Department of Defense

101-26.700	Scope and applicability of subpart.
101-26.701	Purchase of products and services from the blind and other severely handicapped persons.
101-26.702	Purchase of products manufactured by the Federal Prison Industries, Inc.
101-26.703	Marginally punched continuous forms.

Subparts 101-26.8—101-26.47 [Reserved]

Subpart 101-26.6 is amended as follows:

Subpart 101-26—Procurement Sources of the Department of Defense

1. Section 101-26.600 is revised to read as follows:

§ 101-26.600 Scope and applicability of subpart.

This subpart prescribes the policies, procedures, and limitations relating to civil agency use of procurement sources of the Department of Defense (DOD), which include the Defense supply centers of the Defense Supply Agency (DSA) and the inventory control points of the Military Departments. The provisions of this Subpart 101-26.6 are applicable to executive agencies unless otherwise specifically indicated. Other Federal agencies are encouraged to obtain their requirements in the same manner.

§ 101-26.601 [Reserved]

2. Section 101-26.601 is reserved.

3. Section 101-26.602-2 is amended as follows:

§ 101-26.602-2 Procurement of packaged petroleum products.

(a) Packaged petroleum products listed in Federal Supply Catalog C 2510-9999 CA shall be obtained by submitting requisitions prepared in accordance with the FEDSTRIP Operating Guide (§ 101-26.2) to the Defense General Supply Center (DGSC), Richmond, VA 23219, using routing identifier code S9G. Federal Supply Catalog C 2510-9999 CA may be obtained, upon written request, from the Commander, Defense Logistics Services Center, Attn: DLSC-T, Battle Creek, MI 49016. Requisitions for packaged petroleum items not in this catalog and not otherwise included in Defense Fuel Supply Center (DFSC) procurements under the provisions of § 101-26.602-1 may be submitted to DGSC. DGSC will supply the items from inventory or will refer the requisitions to DFSC for purchase and direct delivery to the requisitioner. Packaged petroleum items may be obtained from other Federal activities by agreement with the activity concerned or by local purchase when such action is authorized under the provisions of the DSA local purchases policy contained in subparagraph (b), below.

* * * * *

(d) Billings will be rendered at least monthly on Standard Form 1080 Voucher for Transfers Between Appropriations and/or Funds (Disbursement), supported by a mechanically prepared listing of documents including identification of requisitions and the related punch cards reflecting appropriate data pertaining to the gross sale, the retail loss allowance, and any credits for adjustments applicable to prior billings or for material returned. In addition, an accessorial charge will be made on shipments destined for overseas to cover expenses incident to overseas packing, handling, and transportation. DGSC shall be provided with a continental U.S. billing address for requisitioning activities requiring overseas shipments.

(e) Payments are expected to be made within 15 days of receipt of Standard Form 1080 from DGSC. Payment shall not be deferred until receipt of shipment or withheld pending resolution of adjustments.

(f) Requests for billing adjustments will be submitted to DGSC in accordance with instructions contained in the FEDSTRIP Operating Guide.

4. Section 101-26.603 is revised to read as follows:

§ 101-26.603 Electronic items available from the Defense Supply Agency.

Executive agencies shall obtain their requirements for electronic items listed in Federal Supply Catalog C 2510-9999 CA (FSC group 59, except classes 5940, 5970, 5975, 5977, and 5995) from the Defense Electronic Supply Center (DESC), DSA. Requisitions shall be prepared in accordance with the FEDSTRIP Operating Guide and submitted to DESC, 1507 Wilmington Pike, Dayton, OH 45401, using routing identifier code S9E. Electronic items may be obtained from local purchase sources when such action is authorized under the provisions of § 101-26.602-2(b). DESC may return requisitions for local purchase under the same conditions governing the return of requisitions by DGSC set forth in § 101-26.602-2(c).

§ 101-26.604 [Reserved]

5. Section 101-26.604 is reserved.

6. Sections 101-26.605 and 101-26.606 are added as follows:

§ 101-26.605 Items other than petroleum products and electronic items available from the Defense Supply Agency.

Agencies required to use GSA sources may obtain, on an optional basis, a variety of items available from Defense supply centers (DSC) of DSA, provided the items are not listed in the GSA Supply Catalog or Federal Supply Schedules. A listing of items available is included in Federal Supply Catalog C 2510-9999 CA. A list of DSC's and their corresponding commodity areas along with instructions for obtaining items from these sources are in the FEDSTRIP Operating Guide.

§ 101-26.606 Supply support available from the inventory control points of the Military Departments.

Federal civil agencies may obtain items of supply which are procured and managed by the inventory control points (ICP) of the Army, Navy, and Air Force and are available in the United States, provided that a Federal stock number has been assigned to the items. A list of ICP's and their corresponding commodity areas is in the FEDSTRIP Operating Guide. Agencies should also refer to the FEDSTRIP Operating Guide for additional information concerning supply support from the ICP's and for instructions on obtaining items from these sources.

7. Subpart 101-26.7 is added to read as follows:

Subpart 101-26.7—Procurement Sources Other Than GSA and the Department of Defense

§ 101-26.700 Scope and applicability of subpart.

This subpart prescribes policy and procedures relating to procurement sources other than those of GSA and the Department of Defense. The provisions of this Subpart 101-26.7 are applicable to executive agencies unless otherwise indicated. Other Federal agencies are encouraged to obtain their requirements in the same manner.

§ 101-26.701 Purchase of products and services from the blind and other severely handicapped persons.

(a) Purchases by executive agencies of products produced by workshops of the blind or other severely handicapped persons which are carried in GSA supply distribution facilities must be made as provided in Subpart 101-26.3.

(b) Purchases by all Federal agencies of products and services offered for sale by workshops of the blind or other severely handicapped persons which are not carried in GSA supply distribution facilities, and purchases by executive agencies under exceptions set forth in § 101-26.301, must be made in accordance with the procurement list published by the Committee for Purchase of Products and Services of the Blind and Other Severely Handicapped. Products and services offered by the blind shall be given precedence over those offered by other severely handicapped persons. (See § 101-26.702(d) for priority accorded to products manufactured by Federal Prison Industries, Inc.)

(c) Products produced by workshops of the blind or other severely handicapped persons available from GSA supply distribution facilities are identified by Federal stock numbers in the Procurement List identified in paragraph (b), of this section.

V39 114 JUN 12 74 XUM

§ 101–26.702 Purchase of products manufactured by the Federal Prison Industries, Inc.

(a) Purchases by executive agencies of prison-made products carried in GSA supply distribution facilities must be made as provided in Subpart 101–26.3.

(b) Purchases by all Federal agencies of prison-made products not carried in GSA supply distribution facilities, or supply items procured under exceptions set forth in § 101–26.301, must be made in accordance with the provisions in the Schedule of Products Made in Federal Penal and Correctional Institutions.

(c) Prison-made products available from GSA supply distribution facilities are identified by Federal stock numbers in the product schedule referred to in (b), above.

(d) Products available from Federal Prison Industries, Inc., shall be accorded priority over products offered for sale by the workshops of the blind and other severely handicapped persons.

§ 101–26.703 Marginally punched continuous forms.

GSA has delegated authority to the U.S. Government Printing Office (GPO) to procure all marginally punched continuous forms for use by Federal agencies except those procured by GSA for stock. Therefore, all Federal agencies shall submit their requirements for such forms in accordance with the provisions of this § 101–26.703.

(a) Except for those marginally punched continuous forms which GSA procures for stock, all requirements for such forms shall be ordered from GPO contracts or other established GPO sources. If an item is available from GSA stock, acquisition shall be from this source.

(b) Requirements for marginally punched continuous forms which are not available from GPO or GSA sources or which exceed the maximum monetary limitations of the GPO contract shall be submitted to GPO for appropriate action. If requirements are less than the minimum orders/shipment limitations of the GPO contract, agencies may procure them directly from commercial sources.

Subparts 101–26.8—101–26.47 [Reserved]

8. Subparts 101–26.8—101–26.47 are reserved.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective June 12, 1974.

Dated: June 4, 1974.

ARTHUR F. SAMPSON,
Administrator of General Services.

[FR Doc.74–13462 Filed 6–11–74;8:45 am]

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19939; FCC 74–550; RM–2222.]

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

Signaling Communications

In re the Amendment of Part 21 of rules and regulations, applicable to Domestic Public Land Mobile Radio Service to Allow "Signaling Communications" by Sub-Audible Means of Information Intended for Reception at Multipoint Mobile and/or Fixed Points.

1. On February 19, 1974, the Commission released a Notice of Proposed Rule Making in the above-referenced proceeding (FCC 74–149, 45 FCC 2d 290). Since that time the petitioner, CSA Applications, Inc., has changed its name to Laser Credit Control, Inc. (Hereinafter "LCC"). The basic purpose of this rule making was set out in paragraph 2 of our Notice:

> Using facilities leased from mobile common carriers, CSA, which is a communications system corporation, seeks to offer one-way delivery of a "package" of digital information to a large number of mobile and/or fixed points. The digital information "package" is intended to be received at many hundreds of retail locations in a given metropolitan area by an "extremely low-cost" combination of a receiver and miniature computer designed and developed by CSA. This miniature computer can carry out simple "inquiry and response" functions necessary in ordinary retail transactions such as credit card verification.

We also set out our reaction to the proposal in paragraph 14 of the Notice:

> Since the service proposed by CSA could apparently be accommodated with no increased use of the radio spectrum, we find it is in the public interest to issue this Notice of Proposed Rule Making.

Provision was made for Comments to be filed on March 29, 1974, and Reply Comments on April 10, 1974.

2. Comments were filed by LCC, Airsignal International, Inc., Airways Communications, Autophone Company, GT&E Service Corporation, the National Association of Radiotelephone Systems (NARS) and RAM Broadcasting Company. Most of these comments need not be summarized in detail, since all favored the proposal and pointed out that it would provide a useful service without requiring any new frequency allocation.

3. While all comments were favorable, some points raised should be mentioned. First, NARS stated that the question it had raised in a previous comment had been answered to its satisfaction by LCC.

4. Next, Airsignal International, Inc., noted its earlier comments in support of LCC's Petition for Rule Making and its "active interest" in LCC's proposed service. Airsignal further stated that it had "reviewed with approavl" the developmental report relating to LCC's service submitted, on behalf of LCC, by United Telephone Company of Ohio. Although Airsignal indicated that its "more detailed comments" would be reserved until "a thorough study of (LCC's) further particularization of its proposal," Airsignal commented that "it clearly wishes to indicate its continuing support of the (LCC) proposal".

5. Finally, the GTE Service Corporation (GT&E), commenting on behalf of the telephone operating companies of the General System, also expressed its support for the proposed amendments of Part 21. GT&E stated that "the proposed rules, if adopted, would not only provide for the establishment of a useful communications service, but would do so without taking valuable spectrum space from existing radio services." If sufficient safeguards are incorporated in the new service, GT&E noted, the proposed digital information service would be offered without interference with sub-audible paging service. GT&E further noted that common carriers must know what equipment will be required "for the appropriate interface of the service with the various mobile services they now provide, such as IMTS, MTS and one-way paging." GT&E further suggested that the amended rules should "include a specific bit rate and time requirement for updating of remote terminals, and the determination of whether only one channel will be utilized or whether the proposed (LCC) receivers will be capable of idle channel hunting." GT&E stated its belief that, with the suggested modifications, "the Commission should adopt the proposed Rules . . ."

6. Reply comments were filed by Airsignal and LCC. Airsignal stated that its problems had been answered by LCC and it now fully supported the proposal. LCC, in its reply, focused primarily on the GT&E comments.

7. With reference to GT&E's comments which request data about the appropriate interface of LCC's service with existing mobile services, LCC noted that the transfer to the IMTS, MTS or one-way paging transmitters would be at the same impedance level as presently used paging tone inputs. As to specifying a bit rate requirement for updating receiver-terminals, LCC believed that this matter is an operational decision and should be determined by radio station operators. It stated that during its tests using United Telephone of Ohio's IMTS facilities, LCC used a single tone with phase reversal keying to provide the digital format; and it used a bit rate of 110Hz. However, other sub-audible frequencies such as 112Hz, 115Hz and so forth could be used equally well, it believed. As noted above, LCC submitted that the bit rate need not—and should not—be specified in the rules but should, as an operational matter, be determined by the station operator.

8. LCC further believed that no time requirement for updating need be specified in the proposed amendments to Part 21, as urged by GT&E, because of the interruptible character of LCC's proposed service in the event the sub-audible channel is required for paging. Further, digital transmission would normally take place in low demand periods such as after midnight. In view of the likely variations in the time necessary for updating and the ability of LCC's service to operate without interference with existing services, LCC submitted that no time requirements for the proposed service need be incorporated in the proposed amendments.

9. LCC concluded that, "after consideration of these operational characteristics of LCC's proposed service, GT&E has indicated to LCC that no modifications are required in the proposed amendments to Part 21. GT&E has authorized LCC to state that it now urges the adoption of the amendments to Part 21 as proposed by the Commission."

10. We agree with LCC that purely operational requirements are not necessary in the amended rules. The carriers who provide this service are under an obligation to maintain control of this operation to operate without interference to their primary operations, and we will make this explicit in the rule adopted herein. From the information contained in the developmental report submitted by United Telephone Company of Ohio, February 14, 1974, concerning their test programming of an LCC system, it appears that this is practicable. Thus we find that the operation proposed is feasible, will benefit the public, and will not require any frequency allocation. In view of this finding, we have concluded that the LCC proposal should be allowed and the rules amended as set out in the Appendix.

11. Authority for the action taken herein is contained in Sections 4 and 303 of the Communications Act of 1934, as amended.

12. Accordingly, *It is ordered,* That effective July 12, 1974 Sections 21.1 and 21.509(e) of the Commission's Rules are amended as set forth below.

13. *It is further ordered,* That this proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Adopted: May 28, 1974.

Released: June 4, 1974.

FEDERAL COMMUNICATIONS COMMISSION
[SEAL] VINCENT J. MULLINS,
Secretary.

The specific amendments adopted are as follows:

1. In Part 21, Subpart A, § 21.1 the definition of "signaling communications" is amended to read as follows:

§ 21.1 Definitions.

* * * * *

Signaling communication. One-way communications from a base station to a mobile receiver or to multipoint mobile and/or fixed locations by subaudible means for the purpose of actuating a signaling device in the mobile unit, for communicating information to the desired mobile unit or for communicating information for reception at multipoint mobile and/or fixed locations.

* * * * *

2. Section 21.509(e) is amended to change present paragraph (e) to paragraph (e)(1) and to add a new paragraph (e)(2) as follows:

§ 21.509 Permissable communications.

* * * * *

(e)(1) * * *

(2) Base stations in this service may also be authorized to render one-way signaling communications service by subaudible means to multipoint mobile and/or fixed locations for purposes of communicating information intended for reception at multipoint mobile and/or fixed locations, provided that this does not interefere with normal communications.

2-MERCAPTOIMIDAZOLINE

Use in Closures and Product Delivery Systems for Drugs and Cosmetics and in Components of Medical Devices; Extension of Time for Comments

A notice of proposed rulemaking published in the FEDERAL REGISTER of May 2, 1974 (39 FR 15306), as amended by a correction published in the FEDERAL REGISTER of May 29, 1974 (39 FR 18660), proposed regulations with regard to discontinuing the use of 2-mercaptoimidazoline in container closures and product delivery systems for drugs and cosmetics and in components of medical devices.

The Commissioner of Foods and Drugs has been requested to extend the time for filing comments on the grounds that additional time is required to obtain data necessary to prepare and file responsive, meaningful comments to the proposal, such as information on safety of 2-mercaptoimidazoline, the extent of its use in the manufacturing process, assessment of available literature to ascertain the extent of conversion to ethylenethiourea as well as extent of dissemination of the material, if any, from containers, manner and levels in which 2-mercapotimidazoline is used, product types involved, availability of alternatives for use as a curing agent, time needed for transition to alternatives and degree of human risk, if any, from inhalation or dermal exposure to 2-mercaptoimidazoline when used as a curing agent in the neoprene gasket sealer of aerosol products. Accordingly, having found good reason, the Commissioner hereby extends the time for submitting comments on this proposal and will consider all comments received not later than close of business August 12, 1974.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201, 501, 505, 512, 701, 52 Stat. 1041, 1049, 1052–1053, 1055, 82 Stat. 347; 21 U.S.C. 321, 351, 355, 360b, 371), the Public Health Service Act (sec. 351, 58 Stat. 702, as amended; 42 U.S.C. 262), and under authority delegated to the Commissioner (21 CFR 2.120).

Dated: June 6, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

DISCLOSURE OF INFORMATION UNDER THE FREEDOM OF INFORMATION ACT

Notice of Proposed Rulemaking

Notice is hereby given in accordance with the administrative provisions in 5 U.S.C. 553, that pursuant to the Federal Property and Administrative Services Act of 1949, as amended, the Office of the Secretary is considering an amendment to 41 CFR, Chapter 3, by adding a new Subpart 3–50.8, Disclosure of Information Under the Freedom of Information Act.

This amendment would provide procurement personnel with a policy and procedure for responding to requests for information from the general public, with particular regard as to how such requests are affected by the provisions of the Freedom of Information Act.

Any person who wishes to submit written data, views, or objections pertaining to the proposed amendment may do so by filing them with the Deputy Assistant Secretary for Grants and Procurement Management, OASAM, Room 2038, HEW Switzer Building, 330 C Street SW, Washington, D.C. 20201, on or before July 12, 1974. All comments submitted pursuant to this notice will be available for inspection during regular business hours in the Office of Grants and Procurement Management.

Dated: June 5, 1974.

JOHN OTTINA,
Assistant Secretary for Administration and Management.

As proposed, the new Subpart 3–50.8 would read as follows:

Subpart 3–50.8—Disclosure of Information under the Freedom of Information Act

Sec.
3–50.800 Scope.
3–50.801 General.
3–50.802 Release of procurement information.
3–50.803 Denial of requests for information.
3–50.804 Resolution of doubtful cases.
3–50.805 Fees.

Subpart 3–50.8—Disclosure of Information under the Freedom of Information Act

§ 3–50.800 Scope.

This subpart provides policy and procedures pertaining to the release of procurement information to the public in accordance with the provisions of the "Freedom of Information Act" (5 U.S.C. 552).

§ 3–50.801 General.

The "Freedom of Information Act" provides that certain Government records shall be made available to the public upon request. This Act has been implemented by the Department in 45 CFR Part 5 (this material also appears in Exhibit 1–120–1 of the General Administration Manual). The Department's policy is one of the fullest responsible disclosure limited only by the obligations of confidentiality and administrative necessities recognized by the Act. Any record requested and properly identified by any member of the public will be made available unless it is exempt from public disclosure. Neither the fact that the person making the request does not have a particular interest in its subject matter, nor that he does not provide justification for the request, is a basis for denying his request.

§ 3–50.802 Release of procurement information.

It is anticipated that the majority of requests for information from the public may be handled by procurement offices in accordance with the following guidelines.

(a) *Information generally available.* (1) Name of contractor, subject matter, date, and amount of contract.

(2) Contract performance review report.

(3) Deficiency report.

(4) Final report.

(b) *Information generally not available.* (1) Trade secrets.

(2) Confidential pricing data contained in a contract proposal if in the contracting officer's judgment it is properly so designated by the offeror.

(3) Proprietary technical data contained in a contract proposal if in the contracting officer's judgment it is properly so designated by the offeror.

(4) Confidential financial information.

(5) Draft of proposed final report submitted for comment prior to acceptance.

(6) Research protocol, design, processing, and other technical information to the extent proprietary or of a confidential nature, including proprietary contents of unsolicited proposals.

(7) Proposals on which no award is made.

§ 3–50.803 Denial of requests for information.

(a) Written requests for inspection or copying of records shall be denied only by the following officials:

Office of the Secretary	Director of Public Services, Department Information Center Officer, or Regional Public Affairs Officers.
Health Services Administration, Center for Disease Control, Health Resources Administration, and National Institutes of Health.	Director of Public Services, Department Information Center Officer.
Food and Drug Administration	Assistant Commissioner for Public Affairs.
Office of Education	Do.
Social Security Administration	Do.
Social and Rehabilitation Service	Assistant Administrator for Public Affairs.
National Institute of Education	Assistant to the Director for Public Affairs.

In those instances where a contracting officer considers it necessary to deny a written request for information, a statement justifying denial shall be prepared and the concurrence of the Business and Administrative Law Division, Office of General Counsel or cognizant regional attorney shall be obtained. A copy of the request and of the justification for denial shall then be forwarded to the appropriate duly authorized officer for his consideration.

(b) *Oral requests.* Oral requests may be dealt with orally, but if the requester is dissatisfied with the disposition of such a request he shall be asked to put the request in writing.

§ 3–50.804 Resolution of doubtful cases.

Whenever a contracting officer entertains a reasonable doubt as to whether records requested are or may be exempt from disclosure, he shall promptly request a determination from the Business and Administrative Law Division, Office of General Counsel or from the cognizant regional attorney, and the appropriate public affairs officer.

§ 3–50.805 Fees.

(a) *Policy.* Routine information shall be provided to the general public without charge. Special information services involving a benefit that does not accrue to the general public shall be subject to the payment of fees, which shall be fixed in such amounts as to recover the cost to the Government of providing such services. Fees will be charged for the following special services: (1) Reproduction, duplication, or copying of records; (2) certification or authentication of records; (3) searches of or for records.

(b) *Fee schedules.* Fee schedules of the various components of the Department are set forth in 45 CFR Part 5.

[FR Doc.74–13516 Filed 6–11–74;8:45 am]

CIVIL AERONAUTICS BOARD

[14 CFR Part 243]

[Economic Regs.; Docket No. 26770; EDR–271]

REPORT OF CHARTER SERVICES PERFORMED FOR THE MILITARY AIRLIFT COMMAND

Proposed Standard Allocation Procedures and Reporting of Additional Data

JUNE 4, 1974.

Notice is hereby given that the Civil Aeronautics Board has under consideration a proposed amendment to Part 243 of the Economic Regulations which would establish standard allocation procedures for allocating investment and expenses to Military Airlift Command charter contracts, and require the reporting of additional data on CAB Form 243 "Report of Charter Services Performed for the Military Airlift Command."

The principal features of the proposed amendment are described in the attached Explanatory Statement, and the proposed amendment is set forth in the proposed rule. The amendment is proposed under the authority of sections 204(a) and 407 of the Federal Aviation Act of 1958, as amended (72 Stat. 743, 766; 49 U.S.C. 1324, 1377).

Interested persons may participate in the proposed rulemaking through submission of twelve (12) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material received on or before July 15, 1974, will be considered by the Board before taking final action on the proposed rule. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 710, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., upon receipt thereof.

By the Civil Aeronautics Board.

Dated: June 4, 1974.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

EXPLANATORY STATEMENT

On June 5, 1973, by notice of proposed rulemaking EDR–249/PSDR–35 (38 FR 15368), the Board proposed, in addition to other amendments to Part 288 of the Economic Regulations (14 CFR Part 288) and Part 399—Statements of General Policy (14 CFR Part 399), the establishment of interim final minimum rates applied prospectively to certain foreign and overseas air transportation services for the Department of Defense (DOD) through procurement by the Military Airlift Command (MAC~~). This~~ modification of MAC ratemaking procedure, subsequently adopted in ER–819, August 28, 1973, is based on an expedited analysis of available reported results and other related data. The interim final rates determined are to be effective prospectively and shall not be subject to retroactive adjustment. Moreover, the analyses are to be updated periodically for the latest available data to determine whether or not the interim final rates established should be further adjusted prospectively.

The primary source data for interim final rate analyses are the Form 243 reports submitted by the carriers to the Board covering MAC charter contract operations, which served as the base for the interim rate determinations adopted by the Board in ER–819. DOD comments in response to the Notice took issue with the validity of the carrier reports, pointing out a number of discrepancies in the results reported within and between the carriers. While our review of the DOD comments revealed most of the items raised were not substantive and the reports at that time were reasonably acceptable for the interim rate determinations therein, we are nonetheless concerned about maintaining the reliability of these reported data, particularly in view of the procedural modification for interim final rate determinations. In this connection, a study of the Form 243 reports and related procedures was made which indicates that the inconsistencies and deficiencies in the reporting noted by the DOD are primarily due to the inability under the present regulation to relate the assigned MAC operational investment and cost elements with those reported for these same elements as they are reflected in the Form 41 reports for the system operations. Moreover, the present regulation does not prescribe the bases for assignment and allocation of investment and expenses to MAC operations. Rather, each carrier has been permitted to assign investment and expenses on its own bases, subject to the filing of policy statements for its methodologies. While the carrier allocations have been reasonably acceptable, the fact remains that the variations in methodologies reduced their usefulness for

V 39 — 114 JUN 12 74 XUM

analytical purposes. Accordingly, on the basis of the foregoing, and since the services provided for MAC are to a large extent standardized and the rates are fixed on a class basis, we conclude that: (1) Form 243 reporting for such services performed would be improved through prescription of standard allocation methods[1] to be employed in this reporting by all of the participating carriers; and, (2) that an enlargement of the reported data base is required for administration of the recently adopted modification of MAC ratemaking procedure.

Therefore, we are proposing herein additional reporting and standardization of investment and cost assignments for the MAC operations, as reported on the Form 243 directed towards significantly enhancing the reliability of these reports as an analytical base for expedited monitoring and processing of MAC rates. Due to a limited statistical reporting currently required of the supplemental carriers under Part 241, we cannot accomplish complete standardization at this time. However, upgrading of reporting for the supplemental carriers is under consideration, and it is contemplated that in the near future all of the carriers reporting on Form 243 will have a standard Form 41 data base. In the interim, in order to achieve a major part of our objective herein, the assignment bases for operations by supplemental carriers which are not mutually reported with the route operations will temporarily be keyed to what are considered the best bases currently available, At such time as the Form 41 reporting for the supplementals provides data comparable to that now provided by the route carriers, we intend to convert the supplemental carrier assignment standards for MAC services on Form 243 reports to be compatible with those being proposed for the route carriers. We believe that the proposed amendments to Form 243 reporting will strengthen the tie-in to the system data reported on the Form 41, improve the reliability and the consistency of reporting both within and between the carriers, and provide for better cost perspectives relating to the equipment types utilized by all of the participating carriers in the various classes of services performed for MAC. We are very much aware that our proposed amendments to Part 243 will impose an added reporting burden upon the carriers. This was duly considered and weighed against the benefits, which are anticipated to be derived, in reaching our conclusion to issue this Notice. Diligence was extended to keep the report revisions to a minimum. As for the added data requirements, particularly Schedules D–2 (b) and (c), we have closely aligned the format of these reports with the related schedules for similar data submissions for the Form 41 system reports, which we expect will facilitate their preparation—especially if performed through automated data processing.

ADDITIONAL DATA

A. *Investment.* Schedule D–1, Summary of Invested Capital, would be amended to provide separate reporting of assigned investment related to passenger, cargo and mixed traffic services performed under MAC charter contracts during the report period. In addition, we will require memorandum reporting for the net valuation of assigned leased equipment, pursuant to regulatory provisions. The foregoing, coupled with the standard methods for assignment, should provide us with more direct information detail for the carriers' capital costs as they pertain to the different MAC services performed which underlie our rate determinations.

B. *Operating revenues and expenses.* 1. Schedule D–2, Summary of Financial Results of Operations, would be amended to provide separate reporting for passenger, cargo and mixed traffic services. We will also require the carriers to submit a 12-months-to-date summary of these results commencing with the fourth quarter of reporting under this rule. During the first year that the regulation is in effect, the reporting carriers will report the totals to date, each quarter, and use the to-date summaries in lieu of the computations required on an annual basis. For example, after six months' effectiveness in cases where the base for assignment is required on all or one-twelfth of the annual data, the assignment would be made on the basis of all or one-sixth of the six-month totals as is appropriate—etc., all or one-ninth of the nine-month totals. It should also be noted that the reporting of revenues and expenses related to commercial backhaul services is being deleted from this report. This is consistent with the treatment accorded to the results of this service by the Board in ER–819 for the determination of the interim final rates adopted therein.

2. Supplemental Schedules D–2(a), D–2(b) and D–2(c) are added to provide memorandum reports covering out-of-period adjustment entries reflected within the reported data, objective account reporting of direct operating expenses, and objective account reporting for indirect expenses, respectively. We feel that this cost breakdown is necessary for two reasons: (1) To enable the carriers to comply with the standard cost assignments being prescribed herein; and, (2) to provide adequate reported data detail so as to permit analytical focus on selected cost areas which come to the forefront in expedited rate reviews and monitoring.

C. *Service and traffic.* Schedule D–3, Summary of Operating Statistics and Aircraft Utilization, would also be amended to provide separate reporting for passenger, cargo and mixed traffic services performed quarterly and 12 months to date beginning with the fourth quarter after this amendment is effective. During the first year, totals will be accumulated to date. The commercial backhaul miles have been eliminated consistent with the deletion of revenues and expenses for this service. The assignment of aircraft days to MAC services has been specifically defined in the proposed rule. For cost assignment purposes, revenue passengers enplaned, revenue passenger-miles and departures performed have been added to this report. Further, gallons of fuel consumed, reflecting purchases from military and commercial sources, have also been included in the report which we consider a relevant information item for analytical purposes.

STANDARD ALLOCATIONS

The proposed rule sets out in detail the standard allocations, specified where necessary for the different methods to be used by route and supplemental carriers, which are to be applied to the system results in order to obtain the investment and expenses related to MAC contract charter services. Revenues will be reported on Form 243 as directly derived from the performance of MAC operations. The prescribed allocation standards reach to each element of the reported investment and to each expense function and sub-function reporting required herein.

It is proposed to amend Part 243 of the Economic Regulations (14 CFR Part 243) as follows:

1. Amend the Table of Contents by revising the title of § 243.4, changing the present § 243.8 to § 243.11, and adding new §§ 243.8, 243.9, and 243.10. As amended, the table of contents will read:

Sec.

* * * * *

243.4 Standard allocation procedures.

* * * * *

243.8 Schedule D–2(a)—Notes to Summary of Financial Results of Operations—MAC Charter Contracts.
243.9 Schedule D–2(b)—Summary of Direct Expenses—MAC Charter Contracts.
243.10 Schedule D–2(c)—Summary of Indirect Expenses—MAC Charter Contracts.
243.11 Schedule D–3—Summary of Operating Statistics and Aircraft Utilization—MAC Charter Contracts.

§ 243.1 [Amended]

2. Amend § 243.1 by deleting the definition for Category X charter services.

3. Amend § 243.2 by revising paragraphs (a) and (c) to read:

§ 243.2 Applicability of CAB Form 243 requirements.

(a) This part applies only to certificated air carriers performing Category B, Logair, or Quicktrans charter services under fiscal year contracts with the Military Airlift Command.

* * * * *

(c) List of Schedules in CAB Form 243 report.

---

[1] The standards for the proposed cost assignments are based primarily on the allocations which were employed by the Board in its cost analyses made for the Domestic Passenger-Fare Investigation, Docket 21866. (DPFI).

Schedule No.	Schedule title	Filing frequency	Due dates
	Certification	Quarterly	June 1, Sept. 1, Dec. 1, Mar. 30.
D-1	Summary of Invested Capital—MAC Charter Contracts	do	Do.
D-2	Summary of Financial Results of Operations—MAC Charter Contracts.	do	Do.
D-2(a)	Notes to Summary of Financial Results of Operations—MAC Charter Contracts.	do	Do.
D-2(b)	Summary of Direct Expenses—MAC Charter Contracts	do	Do.
D-2(c)	Summary of Indirect Expenses—MAC Charter Contracts.	do	Do.
D-3	Summary of Operating Statistics and Aircraft Utilization—MAC Charter Contracts.	do	May 10, Aug. 10, Nov. 10, Feb. 10.

Due dates falling on a Saturday, Sunday, or national holiday will become effective the first following working day.

4. Revise § 243.4 to read as follows:

§ 243.4 Standard allocation procedures.

(a) Balance sheet, revenue, and expense classifications shall be allocated in accordance with the standard allocation procedures set forth in the subsequent paragraphs of this section.

(b) Standard allocation procedures for Schedule D–1—Summary of Invested Capital—MAC Charter Contracts.

(1) Working capital—one month's cash operating expenses determined from the expenses reported by type of MAC charter contract, type of service, and type of aircraft on Schedule D–2 shall be reported by similar groupings as working capital on this schedule. In each instance, one month's cash operating expenses shall be determined by multiplying the related 12-months-to-date cash operating expenses reported on Schedule D–2 by one-twelfth.

(2) Flight equipment costs and reserves for depreciation—costs and depreciation reserves for those aircraft types used in MAC operations included in the system amounts reported on CAB Form 41 (column 7—Costs, column 8—Regulatory Reserves for Depreciation, and column 10—Total Reserves for Depreciation of Schedule B–5 for route air carriers; and Account 1609—Flight Equipment Cost and Account 1619—Reserves for Depreciation of Schedule B–1, and the Regulatory Reserves for Depreciation shown on Schedule B–2.1 for supplemental air carriers) shall be allocated to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios of the related "aircraft days assigned to service—carrier's equipment" reported on line 19 of Schedule D–3 to the respective aircraft type system "aircraft days assigned to service—carrier's equipment" reported on CAB Form 41 Schedule T–2 (b) or Schedule T–3.1.

(3) Ground equipment costs and reserves for depreciation—costs and depreciation reserves reported on CAB Form 41 Schedule B–1 shall be allocated to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the following bases:

(i) Route air carriers—costs of ground equipment at stations operated solely for MAC charter services shall be directly assigned to MAC operations, and costs of ground equipment at stations operated for both MAC charter services and other services shall be allocated on the basis of the ratios of the related MAC charter aircraft departures to the total aircraft departures by respective type reported for the station on CAB Form 41 Schedules T–3(b) and T–3(c). Ground equipment reserves for depreciation shall be allocated on the basis of the ratios of the ground equipment costs allocated to MAC operations on this schedule to the system ground equipment costs.

(ii) Supplemental air carriers—costs of ground equipment at stations operated solely for MAC charter services shall be directly assigned to MAC operations, and costs of ground equipment at stations operated for both MAC charter services and other services shall be allocated on the basis of the ratios of the related MAC charter airborne aircraft hours flown reported on line 18 of Schedule D–3 to the respective aircraft type system revenue airborne aircraft hours flown reported on CAB Form 41 Schedule T–3.1. System reserves for depreciation shall be allocated on the basis of the ratios of the ground equipment costs allocated to MAC operations on this schedule to the system ground equipment costs.

(4) Developmental and preoperating costs—unamortized costs applicable to aircraft utilized in MAC operations included in the system amounts reported in column 6 of CAB Form 41 Schedule B–10 (Account 1830 of CAB Form 41 Schedule B–1 for Group I supplemental air carriers) shall be allocated to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating the related flight equipment costs and reserves for depreciation (§ 243.4(b)(2)).

(5) Other—with respect to capital items for which no allocation basis is otherwise prescribed herein, the carrier shall provide a description of each investment item, the amounts capitalized for each in the MAC services investment, and an explanation of the allocation method utilized. In those instances where the item is related to one of the foregoing investment items listed above, the allocation should be made on the same basis as prescribed for the related items.

(6) Constructive asset value of leased flight equipment—costs and depreciation accumulations for those aircraft types used in MAC operations included in the system amounts reported on CAB Form 41 Schedule B–14 (columns 3 and 4) shall be reported as memorandum items and allocated to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating related owned flight equipment costs and reserves for depreciation (§ 243.4(b)(2)). If type of equipment is totally leased, costs and depreciation accumulations included in system amounts reported on CAB Form 41 Schedule B–14 (columns 3 and 4) shall be allocated to MAC operations on the basis of ratios developed in accordance with the provisions of § 243.4(b)(2).

(c) Standard allocation procedures for Schedule D–2—Summary of Financial Results of Operations—MAC Charter Contracts.

(1) Operating revenues—actual revenues shall be reported by type of MAC charter contract, type of service, and type of aircraft.

(2) Operating expenses—totals of operating expenses reported on Schedules D–2(b) and D–2(c) shall be reported on this schedule by type of MAC charter contract, type of service, and type of aircraft. Expenses not allocated to MAC operations on Schedules D–2(b) and D–2 (c) shall be allocated to MAC operations as follows:

(i) Flight equipment rentals—rental expenses for those aircraft types used in MAC operations included in the system amounts reported on CAB Form 41 Schedule P–5.1 (Group I air carriers) or Schedule P–5.2 (Groups II and III air carriers) shall be allocated to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating the constructive asset value of the related leased flight equipment (§ 243.4(b)(6)).

(ii) Form 41 components of flight equipment depreciation—depreciation expenses for those aircraft types used in MAC operations included in the system amounts reported on CAB Form 41 Schedule P–5.1 (Group I air carriers) or Schedule P–5.2 (Groups II and III air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating flight equipment costs and reserves for depreciation (§ 243.4(b)(2)).

(iii) Developmental and preoperating expenses—expenses applicable to those aircraft types utilized in MAC operations included in the system amounts reported on CAB Form 41 Schedule P–3 (all route air carriers) or Schedule B–10— column 5 (Group II supplemental air carriers) shall be allocated to MAC operations by types of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating developmental and preoperating costs (§ 243.4(b)(4)). Group I supplemental air carriers shall also allocate expenses of aircraft types used in MAC operations on the same basis as the other carriers and, because these carriers do not report these expenses on CAB Form 41, shall indicate the respective

V39 114 JUN 12 74 XUM

system expenses in the notes section of this Schedule D–2.

(iv) Interest—system interest expenses reported on CAB Form 41 Schedule P–3 (accounts 87.1, 87.2, and 87.3) shall be allocated to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating flight equipment costs and reserves for depreciation (§ 243.4(b)(2)).

(v) Income taxes—income taxes shall be allocated to MAC operations by type of MAC charter contract, type of service, and type of aircraft by multiplying the income before income taxes reported on line 12 of this schedule by the current tax rates.

(d) Standard allocation procedures for Schedule D–2(b)—Summary of Direct Expenses—MAC Charter Contracts.

(1) Flying operations—except for the direct assignment of the actual costs of aircraft fuels acquired from DOD and commercial sources to MAC operations by type of MAC charter contract, type of service, and type of aircraft, system expenses reported on CAB Form 41 Schedule P–5.1 (Group I air carriers) or Schedule P–5.2 (Groups II and III air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the following bases:

(i) Route air carriers—ratios of the related MAC charter ramp-to-ramp aircraft hours flown reported on line 22 of Schedule D–3 to the respective aircraft type system ramp-to-ramp aircraft hours flown reported on CAB Form 41 Schedule T–2(b).

(ii) Supplemental air carriers—ratios of the related MAC charter airborne aircraft hours flown reported on line 18 of Schedule D–3 to the respective aircraft type system revenue airborne aircraft hours flown reported on CAB Form 41 Schedule T–3.1.

(2) Direct maintenance—flight equipment—except for applied maintenance burden (account 79.6), system expenses reported on CAB Form 41 Schedule P–5.1 (Group I air carriers) or Schedule P–5.2 (Groups II and III air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating flying operation expenses (§ 243.4(d)(1)). Maintenance burden costs already allocated by type of MAC charter contract, type of service, and type of aircraft on Schedule D–2(c) (§ 243.4(e)(2)) shall be allocated to account 79.6 on the basis of direct labor incurred under this function.

(3) Regulatory components of flight equipment depreciation — system expenses reported on CAB Form 41 Schedule P–5(a) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating flight equipment costs and reserves for depreciation (§ 243.4(b)(2)).

(4) Obsolescence and deterioration — expendable parts—system expenses reported on CAB Form 41 Schedule P–5.1 (Group I air carriers) or Schedule P–5.2 (Groups II and III air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating flight equipment costs and reserves for depreciation (§ 243.4(b)(2)).

(e) Standard allocation procedures for Schedule D–2(c)—Summary of Indirect Expenses—MAC Charter Contracts.

(1) Direct maintenance-ground equipment—except for applied maintenance burden (account 79.8), system expenses reported on CAB Form 41 Schedule P–6 shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating flying operation expenses (§ 243.4(d)(1)). Maintenance burden expenses already allocated by type of MAC charter contract, type of service, and type of aircraft on this schedule (§ 243.4(e)(2)) shall be allocated to account 79.8 on the basis of direct labor incurred under this function.

(2) Maintenance burden—system expenses reported on CAB Form 41 Schedule P–6 shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating flying operation expenses (§ 243.4(d)(1)).

(3) Passenger service—system expenses reported on CAB Form 41 Schedule P–6 (Groups II and III air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the following basis:

(i) Route air carriers—ratios of the related MAC revenue passenger-miles flown reported on line 23 of Schedule D–3 to the respective aircraft type system revenue passenger-miles flown reported on CAB Form 41 Schedule T–2(b).

(ii) Supplemental air carriers—ratios developed for allocating flying operation expenses (§ 243.4(d)(1)(ii)).

(4) Aircraft servicing—system expenses reported on CAB Form 41 Schedule P–7 (Group III route air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios of the related MAC departures (weighted by the standard maximum landing weight) reported on line 21 of Schedule D–3 to the respective aircraft type system departures (weighted by the standard maximum landing weight) reported on CAB Form 41 Schedules T–3(b) and T–3(c). The standard maximum landing weights to be used in weighting departures are as follows:

Aircraft Type	*Standard Maximum Landing Weight (Tons)*
B–747A	282
B–747B	282
B–707–300C	123.5
B–707–321B	107.5
B–707–331/351B	103.5
DC–10–30CF	205.5
DC–8–50F	120
DC–8–61F	229
DC–8–62	120
DC–8–62F	125
DC–8–63/F	137.5
B–727/QC	68.75
L–188C	47.825
L–100–20	65.000
DC–9–30F	44.500

(5) Traffic servicing—system expenses reported on CAB Form 41 Schedule P–8 (Group III route air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios of the related MAC revenue ton-miles flown reported on line 26 of Schedule D–3 to the respective aircraft type system revenue ton-miles flown reported on CAB Form Schedule T–2(b).

(6) Servicing administration—system expenses reported on CAB Form 41 Schedule P–8 (Group III route air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios developed for allocating traffic servicing expenses (§ 243.4(e)(5)).

(7) Aircraft and traffic servicing—system expenses reported on a combined basis (also includes servicing administration expenses) on CAB Form 41 Schedule P–7 (Group II air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the following bases:

(i) Route air carriers—ratios of the related MAC revenue ton-miles flown reported on line 26 of Schedule D–3 to the respective aircraft type system revenue ton-miles flown reported on CAB Form 41 Schedule T–2(b).

(ii) Supplemental air carriers—ratios developed for allocating flying operation expenses (§ 243.4(d)(1)(ii)).

(8) General and administrative—system expenses reported on CAB Form 41 Schedule P–6 (Group I air carriers) [1] or Schedule P–7 (Groups II and III air carriers) shall be allocated by objective account to MAC operations by type of MAC charter contract, type of service, and type of aircraft on the basis of the ratios

---

[1] Classified as general services and administration, functional account 6900, on this schedule, and expenses reported are for the passenger service, aircraft and traffic servicing, promotion and sales, and general and administrative functions. Nonrecognized MAC expenses (advertising and promotion, accounts 6960 and 6962) shall not be allocated to MAC operations.

of the related MAC cash operating expenses [2] reported on Schedule D–2 to total system cash operating expenses [2] reported on CAB Form 41 Schedule P–1.1 (Group I air carriers) or Schedule P–1.2 (Groups II and III air carriers).

5. Amend § 243.6 by deleting paragraph (e–1) and revising paragraphs (c) and (e) to read:

§ 243.6 Schedule D–1—Summary of invested capital—MAC charter contracts.

* * * * *

(c) Each indicated balance sheet classification shall be allocated in accordance with the standard allocation procedures in § 243.4(b), and reported by type of MAC charter contract, type of service, and type of aircraft.

* * * * *

(e) The flight equipment depreciation reserve shown on line 3a, "Form 41 components," represents a memorandum entry only, and is not to be considered in the computation of line 4, "Net flight equipment."

(e–1) [Deleted]

* * * * *

6. Amend § 243.7 by deleting paragraphs (c–1) and (g–1) and revising paragraphs (a), (c), (d), (f), (g), and (h) to read:

§ 243.7 Schedule D–2—Summary of financial results of operations—MAC charter contracts.

(a) This schedule shall be prepared for both the current calendar quarter and the 12-month period ended with the current quarter.

* * * * *

(c) Each indicated revenue classification, representing actual revenue earned, shall be reported by type of MAC charter contract, type of service, and type of aircraft.

(c–1) [Deleted]

(d) Each indicated expense classification shall be allocated in accordance with the standard allocation procedures in § 243.4(c), and reported by type of MAC charter contract, type of service, and type of aircraft.

* * * * *

(f) "Operating expenses" shall include all expenses incurred in empty backhauls to one-way MAC charters, consistent with mileages reported on Schedule D–3.

(g) The flight equipment depreciation shown on line 7d(1), "Form 41 components," represents a memorandum entry only, and is not to be considered in the computation of line 9, "Total operating expenses."

(g–1) [Deleted]

(h) Group III air carriers shall report expenses of aircraft servicing, traffic servicing, and servicing administration functions separately on lines 8d(1), (2), and (3). Group II air carriers shall report expenses of combined aircraft and traffic servicing function on line 8d.

7. Revise § 243.8 to read:

§ 243.8 Schedule D–2(a)—Notes to Summary of financial results of operations—MAC charter contracts.

(a) This schedule shall be prepared each calendar quarter.

(b) All substantive matters, such as out-of-period adjustments, included in the data reported on Schedules D–2, D–2(b) and D–2(c) which affect the conclusions to be drawn from the reported data shall be disclosed on this schedule and cross-referenced to the affected schedules by applicable quarter and amounts related to each quarter.

8. Add new § 243.9 to read:

§ 243.9 Schedule D–2(b)—Summary of direct expenses—MAC charter contracts.

(a) This schedule shall be prepared for both the current calendar quarter and the 12-month period ended with the current quarter.

(b) Data reported on this schedule shall conform with the instructions pertaining to expense classifications within Part 241 of the economic regulations in this chapter and the pertinent regulatory policies within Part 399—Statements of General Policy of this chapter.

(c) This paragraph applies only to those carriers whose contracts specify Category B charter services. Long-haul or short-haul operations shall be indicated on the schedule under aircraft type. Therefore, carriers utilizing a single aircraft type to perform both long-haul and short-haul Category B charter services, shall report the respective cost data separately on the schedule.

(d) Each indicated objective account shall be allocated in accordance with the standard allocation procedures in § 243.4(d), and reported by type of MAC charter contract, type of service, and type of aircraft.

(e) Regulatory components, not Form 41 components, of flight equipment depreciation are to be reported on this schedule.

9. Add new § 243.10 to read:

§ 243.10 Schedule D–2(c)—Summary of indirect expenses—MAC charter contracts.

(a) This schedule shall be prepared for both the current calendar quarter and the 12-month period ended with the current quarter.

(b) Data reported on this schedule shall conform with the instructions pertaining to expense classifications within Part 241 of the economic regulations and the pertinent regulatory policies within Part 399—Statements of General Policy.

(c) This paragraph applies only to those carriers whose contracts specify Category B charter services. Long-haul or short-haul operations shall be indicated on the schedule under aircraft type. Therefore, carriers utilizing a single aircraft type to perform both long-haul and short-haul Category B charter services shall report the respective cost data separately on the schedule.

(d) Each indicated objective account shall be allocated in accordance with the standard allocation procedures in § 243.4(e), and reported by type of MAC charter contract, type of service, and type of aircraft.

(e) All air carriers shall follow CAB Form 41 functional reporting requirements when reporting on this schedule, as follows:

(1) Group I air carriers—report expenses separately for direct maintenance—ground equipment, maintenance burden, and general and administrative [3] functions.

(2) Group II air carriers—report expenses separately for direct maintenance—ground equipment, maintenance burden, passenger service, and general and administrative functions; and report combined aircraft and traffic servicing expenses under the aircraft servicing function.

(3) Group III air carriers—report expenses separately for each function on the schedule.

10. Add new § 243.11 (supersedes present § 243.8) to read:

§ 243.11 Schedule D–3—Summary of operating statistics and aircraft utilization—MAC charter contracts.

(a) This schedule shall be prepared for both the current calendar quarter and the 12-month period ended with the current quarter.

(b) This paragraph applies only to those carriers whose contracts specify Category B charter services. Long-haul or short-haul operations shall be indicated on the schedule under aircraft type. Therefore, carriers utilizing a single aircraft type to perform both long-haul and short-haul Category B charter services, shall report the respective operating statistics separately on the schedule.

(c) Data shall be reported by type of MAC charter contract, type of service, and type of aircraft.

(d) Miles flown in Category B, Logair, and Quicktrans charters shall be reported on the basis of the great-circle distance, in statute miles, between airports served. Line 10, "Total revenue aircraft miles flown," shall reflect the total miles flown under MAC contracts and service orders.

(e) Line 9, "Paid ferry miles," shall reflect ferry miles flown in the course of round-trip charters and paid for by MAC as required by § 288.9 of the Economic Regulations.

(f) On trips designated "convertible" by MAC, the miles flown with passengers

---

[2] For purposes of this regulation, cash operating expenses for Group I air carriers are flying operation and maintenance expenses; and cash operating expenses for Groups II and III air carriers are the total operating expenses less: depreciation, amortization, and general and administrative expenses.

[3] Classified as general services and administration on CAB Form 41 Schedule P–6. See footnote 2 to § 243.4(e)(8).

V39—114 JUN 12 74 XUM

shall be reported on line 7 and not included on line 2; and the miles flown with cargo shall be reported on line 8 and not included on line 4.

(g) Line 11, "Total MAC pay miles" for Category B services shall be the miles which are used with the current rates specified in Part 288 to compute the compensation due the carriers from MAC for the routings specified in the MAC contracts and service orders. For Logair and Quicktrans "Total MAC pay miles" shall be the course-flown statute miles as specified in MAC contracts and service orders.

(h) "Revenue passengers enplaned" reported on line 15 shall reflect the number of revenue passengers who boarded aircraft used in MAC charter operations.

(i) "Available seat-miles flown (passenger)" reported on line 16 shall reflect the aircraft miles flown under each MAC charter contract by aircraft type multiplied by the minimum aircraft load set forth in § 288.8.

(j) "Available ton-miles flown (cargo)" reported on line 17 shall reflect the aircraft miles flown under each MAC charter contract by aircraft type multiplied by the minimum aircraft load set forth in § 288.8.

(k) Line 18, "MAC charter aircraft hours flown (airborne)" shall reflect all hours that relate to "Total revenue aircraft miles flown" (line 10) and "Total empty backhaul miles flown" (line 14).

(l) Line 19, "Aircraft days assigned to service—carrier's equipment" shall be based on aircraft owned and/or acquired through rental or lease as they are actually used in the carrier's MAC charter operations. It shall represent the cumulative number of days or fractions thereof during the report period for MAC services performed by each aircraft, reflecting the time from dispatch of the aircraft to MAC services to the time the aircraft is dispatched for return to commercial air transport operations.

(m) Line 20, "MAC charter hours per aircraft day" shall be determined by dividing line 19, "Aircraft days assigned to service—carrier's equipment" into line 18, "MAC charter aircraft hours flown (airborne)."

(n) "Departures" reported on line 21 shall reflect the number of departures performed in MAC charter operations.

(o) Line 22, "MAC charter aircraft hours flown (ramp-to-ramp/block hours)" shall reflect all hours that relate to "Total revenue aircraft miles flown" (line 10) and "Total empty backhaul miles flown" (line 14).

(p) "MAC revenue passenger-miles flown" reported on line 23 shall reflect the aircraft miles flown under each MAC charter contract multiplied by the number of passengers transported.

(q) "MAC revenue ton-miles flown (passenger)" reported on line 24 shall reflect the aircraft miles flown under each MAC charter contract multiplied by the passenger-tons transported. A standard weight of 200 pounds per passenger shall be used for determining the passenger-tons transported.

(r) "MAC revenue ton-miles flown (cargo)" reported on line 25 shall reflect the aircraft miles flown under each MAC charter contract multiplied by the cargo-tons transported.

(s) "MAC revenue ton-miles flown (total)" reported on line 26 shall represent the total of the ton-miles reported on lines 24 and 25.

(t) "Gallons of fuel—DOD" reported on line 27 shall reflect the number of gallons of fuel obtained from DOD sources for MAC charter operations.

(u) "Gallons of fuel—commercial" reported on line 28 shall reflect the number of gallons of fuel obtained from commercial sources for MAC charter operations.

11. Amend CAB Form 243 by deleting old Schedules D–1, D–2, D–3, D–4, and D–4(a), and by adding new Schedules D–1, D–2, D–2(a), D–2(b), D–2(c), and D–3, as shown in Exhibits A, B, C, D, E, and F which are filed as part of original document.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20071; RM–2179]

FM BROADCAST STATIONS IN PORTLAND, MAINE

Table of Assignments; Notice of Proposed Rulemaking

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations (Portland, Maine).

1. On March 6, 1973, Aurovideo, Inc. (Aurovideo), licensee of full-time AM Station WLOB, Portland, Maine, filed a petition proposing the assignment of Class B FM Channel 226 to Portland, Maine. Portland (population 65,116),[1] is the seat of Cumberland County (population 192,528) and the largest city in Maine. It has one daytime-only and three full-time AM stations and three Class B FM stations (Channels 250, 270 and 275). Westbrook (population 14,444), an adjoining community and part of the Portland Urbanized Area, has a daytime-only AM station and Channel 265A assigned (two pending applications). Channel 226 could be assigned to Portland in conformance with the Commission's minimum mileage separation rule and without affecting any other assignment in the FM Table of Assignments. The proposal is subject to Canadian clearance.

2. In support of its proposal, Aurovideo asserts that Portland, with a population of 65,116 persons, has three FM assignments which are all occupied, and would qualify under FCC criteria for a fourth assignment. It points out that unlimited-time AM Station WLOB, of which it is the licensee, is the only AM station licensee without at least one companion facility, i.e., either an FM station, a TV station, or a daily newspaper and that it is competitively disadvantaged even as to co-owned AM–FM facilities in neighboring communities. However, petitioner has not shown in his pleadings that the proposed assignment would be in the public interest. Therefore Aurovideo in its comments should submit information as to economic, sociological and governmental activities to demonstrate the importance of the community and the need for additional service. (See Docket No. 19512, re: Adrian, Michigan, FCC 72–430 and F.C.C. 2d 1021 (1972).) It should also submit information as to whether the proposed operation would provide any area and population with a first or second aural service and a first or second FM service based upon the Roanoke Rapids-Goldsboro, N.C. criteria as to FM service. (Docket No. 19161, re: Anamosa and Iowa City, Iowa, FCC 74–409, adopted April 16, 1974, published May 2, 1974, 39 FR 1234.)

3. The proposed assignment would foreclose future assignment only on Channel 226 in the area of Portland. There would be no preclusion on any of the six pertinent adjacent channels.

4. Although additional information is required to show whether the requested assignment would be in the public interest, we believe that a Notice of Proposed Rule Making should be issued to explore the possibility of making such an assignment. We are therefore inviting comments from all interested persons on the proposal to assign Channel 226 to Portland, Maine.

5. Showings required. Comments are invited on the proposal set forth and discussed above. Proponents are expected to answer questions raised in this Notice and other questions that may be presented in the initial comments. The proponents are expected to state their intentions to apply for the channel, if assigned, and if authorized to promptly build the station. Failure to make these showings may result in denial of the petition.

6. Cut-off procedures. The following procedures will govern the consideration of filings in this proceeding:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments.

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

7. In view of the foregoing and pursuant to authority contained in sections 4(i), 303 and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments (§ 73.202(b)) as follows:

---

[1] All population figures are from the 1970 U.S. Census unless otherwise indicated.

City	Channel No.	
	Present	Proposed
Portland, Maine	250, 270, 275	226, 250, 270, 275

8. Pursuant to applicable procedures set out in Section 1.415 of the Commission's Rules and Regulations, interested parties may file comments on or before July 18, 1974, and reply comments on or before August 6, 1974. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

9. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, pleadings, briefs, or other documents shall be furnished the Commission.

10. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C. (1919 M Street NW.).

Adopted: June 4, 1974.

Released: June 5, 1974.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Parts 230, 239]

[Securities Act Release No. 33–5499]

EXEMPTION FOR CLOSELY HELD ISSUERS

Notice of Proposed Rule, Form and Amendment

The Securities and Exchange Commission today published for comment a proposed Rule 240 (17 CFR 230.240) and related Form 240 (17 CFR 239.240) under the Securities Act of 1933 ("Act"), "Exemption of Certain Limited Offers and Sales by Closely Held Issuers," which would provide under Section 3(b) of the Act an exemption from registration for limited offers and sales of small dollar amounts of securities to a limited number of purchasers by an issuer that after the transaction pursuant to the rule would continue to have a small number of beneficial owners of its securities. The purpose of the proposed rule is to provide an exemption from the registration, but not the anti-fraud, provisions of the Act for offers and sales that take place in raising of capital by small businesses where, because of the size of the offering and the limited number of persons involved, the public benefits of registration are too remote. The proposed rule is available for issuers only; it is not available for resales. In connection with the proposal to adopt Rule 240 and Form 240, the Commission is proposing an amendment to Rule 144 (17 CFR 230.144) under the Act which would specify that securities sold pursuant to Rule 240 would be deemed to be "restricted securities" for the purpose of Rule 144 and could, therefore, be resold pursuant to its provisions.

PROPOSED RULE 240 AND FORM 240

This release contains a general discussion of the background, purpose and general effect of the proposed rule to assist in a better understanding of its provisions. A brief synopsis of each paragraph of the proposed rule is also included. However, attention is directed to the proposed rule itself for a more complete understanding.

BACKGROUND AND PURPOSE

Congress, in enacting the federal securities laws, created a continuous disclosure system designed to protect investors and to assure the maintenance of fair and honest securities markets. The Commission, in administering and implementing these laws, has sought to coordinate and integrate this disclosure system with the exemptive provisions provided by such laws. Proposed Rule 240 is a further effort in this direction.

The legislative history of the Securities Act of 1933 indicates that the main concern of Congress was to provide full and fair disclosure in connection with the offer and sale of securities. However, Congress recognized that there were certain situations in which the protections afforded by the registration provisions of the Act were not necessary. Concerning those specified exemptions from the Act, the House Report stated that "The Act carefully exempts from its application certain types of * * * securities transactions where there is no practical need for its application or where the public benefits are too remote."[1]

Section 3(b) of the Act provides that the Commission may by rules, and subject to such terms and conditions as it may prescribe, "add any class of securities to the securities exempted as provided in this section [Section 3 of the Act], if it finds that the enforcement of this title with respect to such securities is not necessary in the public interest and for the protection of investors by reason of the small amount involved or the limited character of the public offering." The Commission believes that offers and sales to a limited number of persons of limited dollar amounts of securities by an issuer that has few beneficial owners of its securities both before and after the offers and sales pursuant to the rule are of such limited character and of such small amount that enforcement of the registration provisions of the Act with respect to such transactions may not be necessary in the public interest or for the protection of investors. Notwithstanding the proposed exemption from registration, however, the anti-fraud provisions of the federal securities laws, and the state securities laws, continue to apply to such transactions.

The Commission recognizes that situations exist that represent in many cases a legitimate method of raising capital for small businesses where in view of the size and limited nature of the transaction the federal interest in registration may be remote, particularly in light of the applicability of most state securities laws to such transactions. The states are often in a better position to deal with such transactions. In such cases, the full registration process is uneconomical and unnecessary, and the exemptions from registration offered by sections 3(a)(11) and 4(2) of the Act may not be available because of the nature of the issuer or the nature of the investors. The proposed rule would not be available for offers and sales of interests in limited partnerships, however, because the Commission is presently unaware of any need for such an exemption with regard to limited partnerships and it believes that the potential for abuse in such cases may be great.

GENERAL DESCRIPTION

In brief, the proposed rule provides that offers and sales of securities of the issuer by an issuer are exempt from registration if all the conditions of the rule are met. These conditions relate to the manner of offering, limitations on payment for solicitation of buyers, the aggregate sales price of all securities of the issuer within a consecutive twelve month period, the number of purchasers and beneficial owners, limitations on resales of the securities, and a notice of sales.

The conditions are intended to assure that the offering is indeed one in which the dollar amount involved is small, and in which the persons affected are limited in number. The Commission is also considering the desirability of adding a condition restricting the availability of the proposed rule to securities with a minimum offering price, such as $1 or $5, in order to avoid the possibility of widespread distributions of "penny stock" sold pursuant to the rule. Comment is specifically invited on this point.

The proposed rule would only be available to issuers of securities and would not be available to affiliates of the issuer or other persons for sales of the issuer's securities. The proposed rule provides an exemption for the issuer transaction only, not for the securities themselves. Persons who would acquire securities from issuers in transactions complying with the rule would acquire securities that would be unregistered and that could only be reoffered and resold if registered or pursuant to an exemption from the registration provisions of the Act. In this connection, the proposed amendment to Rule 144 would make Rule 144 explicitly available for resales of securities acquired pursuant to Rule 240, assuming all the conditions of Rule 144 were met.

SYNOPSIS OF THE PROVISIONS OF RULE 240

Preliminary Notes. The Preliminary Notes to the proposed rule are intended to call to the attention of persons using the rule certain restraints outside the

---

[1] H.R. Rep. No. 85, 73rd Cong., 1st Sess. 5 (1933).

V39 114 JUN 12 74 XUM

rule. The first preliminary note reminds issuers that proposed Rule 240 would provide an exemption from registration only, and not from the anti-fraud or other provisions of the federal securities laws. The second note reminds issuers that state law also applies to transactions under the proposed rule and that the proposed rule does not relieve the issuer from compliance with such law. The third note makes clear that the proposed rule would be available to issuers only and is a transactional exemption, and the fourth restates the Commission's position, as with respect to Rules 144, 146 (17 CFR 230.146) and 147 (17 CFR 230.147), that the proposed rule would not be available to any issuer with respect to any transactions which, although in technical compliance with the rule, were part of a plan or scheme to evade the registration provisions of the Act. In such cases, registration pursuant to the Act would be required.

Definitions: Securities of the Issuer; Proposed Rule 240(a)(1). The term "securities of the issuer" is defined for purposes of the proposed rule to mean all securities of the issuer, its predecessors and its affiliates. Thus, securities of all classes of the issuer would be considered in applying the conditions of the rule, as well as securities of affiliated or predecessor corporation or other entities.

Definitions: Affiliate; Proposed Rule 240(a)(2). The term "affiliate" of or "affiliated" with a person is defined, as it is in Rules 144 and 146 under the Act, to be a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with such person.

Definitions: Predecessor; Proposed Rule 240(a)(3). The term "predecessor" is defined in the same manner as in Rule 405 under the Act to include persons a major portion of whose business or assets has been acquired by another person.

Proposed Rule 240(b): Use of the rule. Paragraph (b) provides that the rule is not available for the offer or sale of interests in limited partnerships, whether such offers or sales are made prior or subsequent to the formation of the partnership.

Proposed Rule 240(c): Conditions to be met. This paragraph of the proposed rule provides that transactions by an issuer involving the offer or sale of its securities in accordance with all the terms and conditions of the rule would be exempt from registration under the Act pursuant to section 3(b). The proposed rule thus applies to individual transactions in securities, and not to "offerings."

Proposed Rule 240(d): Manner of offering. The proposed rule provides that the securities cannot be offered or sold by any means of general advertising or general solicitation. The intention of this provision is that the offers and sales generally be made through individual contact between persons who have some knowledge of each other, or some reason to know about each other, and not through newspapers, advertisements or other means of general advertising. Where such means are used, it is difficult to justify an exemption on the basis of the "limited character" of the offering.

Proposed Rule 240(e): Remuneration paid for solicitation. Another condition of the proposed rule is that there be no commission or similar remuneration paid for solicitation of prospective buyers or in connection with the selling of the securities. This provision is based on similar ones in many state securities statutes and is intended to assure that securities are not offered or sold using high pressure tactics or otherwise through organized securities distribution media. The object of the proposed rule is to provide an exemption from registration for informal small business capital raising, not for organized and orchestrated sales efforts.

Proposed Rule 240(f): Aggregate sales price. In order to assure that only a limited quantity of securities is sold, the proposed rule provides as a condition that the aggregate sales price of all securities of the issuer sold by the issuer, its predecessors, or any affiliated issuers in reliance on the rule or otherwise without registration under the Act, during any consecutive twelve month period cannot exceed $100,000. This means that any sales pursuant to section 3 or 4 of the Act during the twelve month period would be included in computing the dollar maximum. The proposed rule does specifically exclude from the computation of the dollar amount two types of securities: notes or similar evidences of indebtedness issued to a commercial bank, and securities issued to 100 percent owned subsidiaries, or to a 100 percent parent of the issuer.

Proposed Rule 240(g): Number of purchasers. The proposed rule contains a limitation on the number of persons who purchase securities (other than registered securities) from the issuer, its predecessors or any affiliated issuers in any twelve month period in order to assure the limited character of any offering. As proposed, the rule limits the number of such purchasers to 25 in any consecutive twelve month period. The proposed rule contains special provisions for computing the number of purchasers, but basically, the computation is made in terms of the number of beneficial owners except in certain instances involving family relationships and where the purchaser is a corporation or trust (unless the entity was formed for the specific purpose of buying the securities). In addition, commercial banks that purchase or hold only notes or similar evidences of indebtedness of the issuer would be excluded, as would 100 percent owned subsidiaries or a 100 percent parent of the issuer.

Proposed Rule 240(h): Number of beneficial owners. The proposed rule provides that immediately before and after any sale pursuant to the rule, there can be no more than 50 beneficial owners of the securities of the issuer. The number of beneficial owners is computed in the same manner as set forth in paragraph (g) for the number of purchasers. The purpose of this condition is to make the rule available only to issuers with a limited number of beneficial owners where the public interest in registration appears to be remote.

Proposed Rule 240(i): Limitations on resale. The condition relating to resale in the proposed rule makes clear that the securities acquired pursuant to the rule are unregistered securities and that they can be resold only with registration under the Act or pursuant to an exemption therefrom. The proposed rule requires that the issuer legend the securities. Actions such as stop transfer instructions and investment letters would, of course, also be in the best interest of issuers to protect them from the consequences of a deferred distribution. The proposed rule also requires that the issuer inform each purchaser of the restrictions on resale.[1]

In connection with such restrictions, the Commission is proposing to amend Rule 144 to provide that Rule 144 would be available for resales of securities acquired pursuant to Rule 240, since such securities would not be "restricted" securities within the existing definition of that term in Rule 144.

Proposed Rule 240(j): Notice of sales. The rule as proposed requires that an issuer proposing to sell securities pursuant to the rule file a notice on Form 240 with the appropriate Regional Office of the Commission at least 10 days before its first sale pursuant to the rule.

Proposed Form 240

The proposed Form 240 is in effect a notice to be filed with the appropriate Regional Office of the Commission before any sales are made pursuant to the rule. The Form is very brief and requires information about the issuer's name, address and telephone number, its officers, directors and principal stockholders and the proposed sales.

Operation of Proposed Rule 240

If adopted, the rule would operate prospectively only since there is now no similar exemption under section 3(b) and such an exemption would not exist until such time as the rule was actually adopted. The staff would issue interpretive letters to assist persons in complying with the rule. As to resales of securities, the staff would continue its present policy of not issuing no-action letters in section 4(1) situations, as set forth in the release accompanying the adoption of Rule 144 (Securities Act Release No. 5223, January 11, 1972) (37 FR 596).

In view of the objectives and policies underlying the Act, the proposed rule would not be available to any issuer with respect to any transaction which, although in technical compliance with the provisions of the rule, was part of a plan or scheme to evade the registration provisions of the Act. In such cases, registration would be required.

Proposed Rule 240 would relate only to transactions exempted by the rule from registration pursuant to section 3(b) of the Act. It would not provide an exemption from the anti-fraud provisions of section 12(2) of the Act or other provisions of the federal or state securities laws.

The proposed rule would be available only to the issuer of the securities and not to affiliates or other persons wanting to resell or otherwise dispose of securities of the issuer. Such disposition would have to be made in compliance with the registration provisions of the Act unless an exemption from such provisions was available. Also, the proposed rule would not relieve issuers of their obligations under relevant state laws.

Commission action: Pursuant to sections 3(b), 4(1) and 19(a) of the Act, the Securities and Exchange Commission proposes to amend Parts 230 and 239 of the Code of Federal Regulations by (1) adding thereunder new § 230.240, (2) amending § 230.144(a)(3), and (3) adding new § 239.240, as set forth below:

1. A new § 230.240 is added as follows:

§ 230.240 Exemption of certain limited offers and sales by closely held issuers.

Preliminary Notes

1. Rule 240 relates to transactions exempted from section 5 of the Act by section 3(b) of the Act. It does not provide an exemption from the anti-fraud provisions of the federal securities laws or from the civil liability provisions of section 12(2) of the Act or other provisions of the federal securities laws.

2. Nothing in this rule obviates the need for compliance with any applicable state law relating to the offer and sale of securities.

3. This rule is available only to the issuer of the securities and is not available to affiliates or other persons for resales of the issuer's securities. The rule provides an exemption only for the transactions in which the securities are offered or sold by the issuer, not for the securities themselves.

4. In view of the objectives of the rule and the purposes and policies underlying the Act, the rule is not available to any issuer with respect to any transactions which, although in technical compliance with the rule, are part of a plan or scheme to evade the registration provisions of the Act. In such cases registration pursuant to the Act is required.

(a) *Definitions.* For the purposes of the rule only, the following definitions shall apply.

(1) *Securities of the issuer.* The term "securities of the issuer" shall include all securities issued by the issuer and by any predecessor or affiliates of the issuer.

(2) *Affiliate.* The term "affiliate" of or "affiliated" with a person means a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with such person.

(3) *Predecessor.* The term "predecessor" means a person the major portion of the business and assets of which another person acquired in a single succession or in a series of related successions in each of which the acquiring person acquired the major portion of the business and assets of the acquired person.

(b) *Use of the rule.* The rule is not available for offers or sales of any interests in a limited partnership, whether such interests are offered or sold prior or subsequent to the formation of the partnership.

(c) *Conditions to be met.* Transactions by an issuer involving the offer and sale of its securities in accordance with all the terms and conditions of this rule shall be exempt from registration under the Act pursuant to section 3(b) of the Act.

(d) *Manner of offering.* The securities shall not be offered, offered for sale or sold by any means of general advertising or general solicitation.

(e) *Remuneration paid for solicitation.* No commission or other remuneration shall be paid or given directly or indirectly for soliciting any prospective buyer or for selling any of the securities.

(f) *Aggregate sales price.* The aggregate sales price of all securities of the issuer sold by the issuer, its predecessors, or any affiliated issuer in reliance upon this rule or otherwise without registration under the Act during any consecutive twelve month period shall not exceed $100,000. For purposes of computing the price of securities sold, the following shall be excluded:

(1) Notes or similar evidences of indebtedness issued to a commercial bank;

(2) Securities sold to any 100 percent owned subsidiary of the issuer or to any 100 percent parent of the issuer.

(g) *Number of purchasers.* There shall be no more than twenty-five persons who purchase from the issuer, its predecessors or any affiliated issuer securities of the issuer sold by the issuer, its predecessors or any affiliated issuer in reliance upon this rule or otherwise without registration under the Act during any consecutive twelve month period. For purposes of computing the number of persons, each person who is, immediately after the purchase, a beneficial owner of the securities shall count as one, except that:

(1) the following shall be deemed to count as one with any person:

(i) any relative or spouse of a person and any relative of such spouse, who has the same home as such person; and

(ii) any trust or estate in which a person or any of the persons related to him as specified in paragraph (g)(1)(i) or (iii) of this section collectively have 100 percent of the beneficial interest (excluding contingent interests); and

(iii) any corporation or other organization of which a person or any of the persons related to him as specified in paragraph (g)(1)(i) or (ii) of this section collectively are the beneficial owners of all of the equity securities (excluding directors' qualifying shares) or equity interests;

(2) there shall be counted as one person and one beneficial owner any corporation or trust, except that if such entity was organized for the specific purpose of acquiring the securities offered, each beneficial owner of equity interest or equity securities in such entity shall count as a separate person and separate beneficial owner; and

(3) there shall be excluded from the computation:

(i) commercial banks which purchase or hold only notes or similar evidences of indebtedness of the issuer; and

(ii) any 100 percent owned subsidiary of the issuer and any 100 percent parent of the issuer.

(h) *Number of beneficial owners.* Immediately before and after any sale pursuant to the rule, the securities of the issuer shall be beneficially owned by 50 or fewer persons. The number of persons who are beneficial owners shall be computed in the manner set forth in paragraph (g).

(i) *Limitation on resale.* Securities sold in reliance on this rule cannot be resold without registration under the Act or exemption therefrom and the issuer shall so inform each person who purchases the securities and shall so legend the securities sold.

(j) *Filing of notice of sales.* At least ten days (Saturdays, Sundays and holidays excluded) prior to the first sale of securities pursuant to this rule, there shall be filed with the Regional Office of the Commission for the region in which the issuer's principal office is located three copies of a notice on Form 240 which shall be signed by a duly authorized officer of the issuer or by a person acting in a similar capacity for a noncorporate issuer.

2. Section 230.144 is amended as follows:

§ 230.144 Persons deemed not to be engaged in a distribution and therefore not underwriters.

* * * * *

(a) * * *

(3) The term "restricted securities" means securities acquired directly or indirectly from the issuer thereof, or from an affiliate of such issuer, in a transaction or chain of transactions not involving any public offering or from the issuer in a transaction in reliance on Rule 240 under the Act.

2. New § 239.240 is added as follows:

§ 239.240 Form 240, report by issuer of sales of securities pursuant to § 230.240 of this chapter.

This form shall be filed by the issuer with the appropriate Regional Office of the Commission not less than ten days, excluding Saturdays, Sundays and holidays, prior to the first sale pursuant to Rule 240.

NOTE.—Copies of proposed Form 240 have been filed with the Office of the Federal Register as part of this document. Additional copies will be available on request

---

[1] In this regard see Securities Act Release No. 5226 (January 10, 1972) (37 F.R. 600) relating to the applicability of the anti-fraud provisions of the securities laws to disclosure of the restrictions on resale of securities offered pursuant to Section 4(2) of the Act. That release would also be applicable to securities sold in reliance on Rule 240.

WATER RESOURCES COUNCIL

[18 CFR Part 703]

GRANTS TO STATES FOR COMPREHENSIVE WATER AND RELATED LAND RESOURCES PLANNING

Grant Formula

Notice is hereby given that the Water Resources Council, under the authority contained in section 402 of the Water Resources Planning Act, 79 Stat. 244, 42 USC 1962d-1, proposes to revise §§ 703.3 and 703.5, of 18 CFR, Chapter VI as set forth below.

Part 703 establishes rules and regulations under which States may apply for grants from the Water Resources Council to carry out comprehensive water and related land resources planning.

In the revised § 703.5, below, a change in the formula for computing the grant is proposed. This change is based on the Council experience with its grant program under Title III of the Water Resources Planning Act, 79 Stat. 244, 42 U.S.C. 1962c. The Council believes that these proposed changes will improve the program by providing priority consideration to allocate funds on the basis of participating in regional and river basin planning and the development of State water and related land resources plans.

Interested persons are invited to submit written comments, suggestions, or objections regarding this proposal to amend Part 703, to the Director, Water Resources Council, 2120 L Street NW., Suite 800, Washington, D.C. 20037, on or before July 12, 1974.

(Catalog of Federal Domestic Assistance Program No. 65.001.)

Dated: June 6, 1974.

WARREN D. FAIRCHILD,
Director.

In § 703.3 paragraph (b) is amended and paragraphs (c) and (d) are revised to read as follows:

§ 703.3 Allotments.

* * * * *

(b) * * *

(1) Seven and a half percent of the funds in the ratio that the population of each State bears to the population of all States,

(2) Seven and a half percent of the funds in the ratio that the land area of each State bears to the land area of all the States,

(3) Fifteen percent of the funds in the ratio that the reciprocal of all per capita income of a State bears to the sum of the reciprocals for all States, and

(4) Seventy percent of the funds according to need for comprehensive water and related land resources planning programs in each State as detemined by the Council.

(c) In determining the need of a State for comprehensive water and related land resources planning as specified in paragraph (b)(4) of this section, the Council shall consider the following:

(1) The participation in and contribution to regional and river basin planning for water and related land resource use and development,

(2) Progress in the development of a comprehensive State water plan or components of a State plan,

(3) The complexity and immediacy of the water and related land resources problems, and

(4) Other factors determined to be relevant in specific instances, such as training of personnel to carry out State contribution to comprehensive planning related to paragraphs (c) (1) and (2).

(d) Within 30 days after publication of the President's Budget each year, the Council shall publish a tabulation showing the tentative distribution of funds to each State of the amounts computed under paragraphs (b) (1), (2), and (3) of this section. This computation is based on the appropriation requested by the President for the next fiscal year. This publication does not confer entitlement to such funds; it is simply a preliminary figure that can be used by the States for budgetary planning purposes.

* * * * *

Paragraph (h) of § 703.5 is revised to read as follows:

§ 703.5 Contents of applications.

* * * * *

(h) Need for augmented planning: Include statements on at least the criteria set forth in § 703.0(c) (1), (2), (3), and (4) to assist the Council in appraising the need for comprehensive water and related land resources planning among the States for the purpose of allotting the 70 percent of Federal Title III funds available for distribution on the basis of planning need.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Chapter I]

[Docket No. 13817; Notice No. 74-20]

RESTRICTED AREA AND CONTINENTAL OPERATIONS RANGE SEGMENTS

Advanced Notice of Proposed Rulemaking

NOTE: This document was published in error as a notice document on May 31, 1974 at 39 FR 19252 and errors were made on pages 19252 and 19253. It is correctly republished here in full as an advanced notice of proposed rulemaking.

The Federal Aviation Administration has received a proposal from the Department of the Air Force that would designate a new restricted area and two new areas where special air traffic rules would apply. These new areas are located adjacent to existing restricted areas located generally north of Nellis AFB near Las Vegas, Nevada. In addition, the Air Force proposal would restructure restricted area R-4807 into three separate areas and would redesignate it and restricted areas R-4806 and R-4809 as joint use airspace.

This advance notice of proposed rule making is being issued in accordance with the FAA's policy for early institution of public proceedings in actions related to rule making. An "advance" notice is issued to invite early public participation in the identification and selection of a course or alternate courses of action with respect to a particular rule making action.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be sumitted in duplicate to the Federal Aviation Administration, Office of the Chief Counsel, Attention: Rules Docket, AGC-24, 800 Independence Avenue SW, Washintgon, D.C. 20591. All communications received on or before August 2, 1974, will be considered by the Administrator before taking action with respect to the subject matter. All comments will be available, both before and after the closing date for comments, in the Rules Docket, for examination by interested persons. Copies of comments will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division, Federal Aviation Administration, 15000 S. Aviation Boulevard, Lawndale, California 90261.

Informal meetings to present the Air Force's airspace proposal, together with question and answer sessions, will be held during the comment period in order that interested persons may avail themselves of all aspects and present their views. These meetings are scheduled for June 25, 1974, at 1:00 p.m., and 7:30 p.m., Room 1, Las Vegas Convention Center, Las Vegas, Nevada.

The newly designated areas proposed by the Air Force are part of an overall program entitled a Continental Operations Range (COR), for the operational testing and evaluation of aircraft weapons systems. The COR encompasses an area describing approximately a triangle having corners at Reno, Nevada; Salt Lake City, Utah; and Las Vegas, Nevada. Designation of airspace for the COR program is limited to the one new restricted area and two special use areas described in this notice.

The Air Force proposal envisions a three phase development for the near-term, mid-term, and far-term requirements. The three steps, as planned by the Air Force, cover the development periods from the present through June, 1975, the mid-term through June, 1978, and the far-term through June, 1983. The mid-term and far-term requirements are not projected to include additional airspace. It is anticipated that restricted airspace will be reduced.

The Continental Operations Range is required by the Air Force to develop a realistic operational environment for simulating combat conditions with the capability to test and evaluate air crew effectiveness in the delivery of airborne munitions and performance of combat tactics. Specifically, the military activity to be scheduled within the special rule areas and the new restricted area would include the following: air-to-air combat maneuvering; air-to-ground attack maneuvering; simulated combat search and rescue; simulated combat tactical airlift; reconnaissance missions at low and intermediate altitudes at varying speeds; tests of remotely piloted vehicles; and simulated strategic bombing missions. Activities will be conducted through individual aircraft missions, small formations and, on occasion, large scale exercises.

The two new segments of airspace, requested by the Air Force and identified as "COR North" and "COR East," wherein special air traffic rules apply, would be used for operational testing under simulated combat conditions. The maneuvers would include both high speed, subsonic low altitude and vertical movement tactics. To accommodate this activity, with safety, an area as free as possible from population density and air traffic density is desired. The proposed area was selected on this basis.

The Air Force request for the new restricted area is based upon a need for an area adjacent to existing restricted areas for delivery of weapons that will impact within existing restricted area R-4807. Since flight within the new restricted area could be potentially hazardous to other aircraft, and since there is not adequate radar surveillance within the area to provide separation and insure safety, the new restricted area is considered necessary by the Air Force. This restricted area would be designated joint use, that is, available to the public when not in use by the Air Force. When adequate radar surveillance and control become available, the new restricted area would be revoked and the airspace would become part of the eastern COR airspace.

The Air Force plans to provide extensive instrumentation and communication capability, including expanded radar surveillance. These facilities, although primarily oriented to support the military activity, will be employed also to enhance the safe transit of all aircraft.

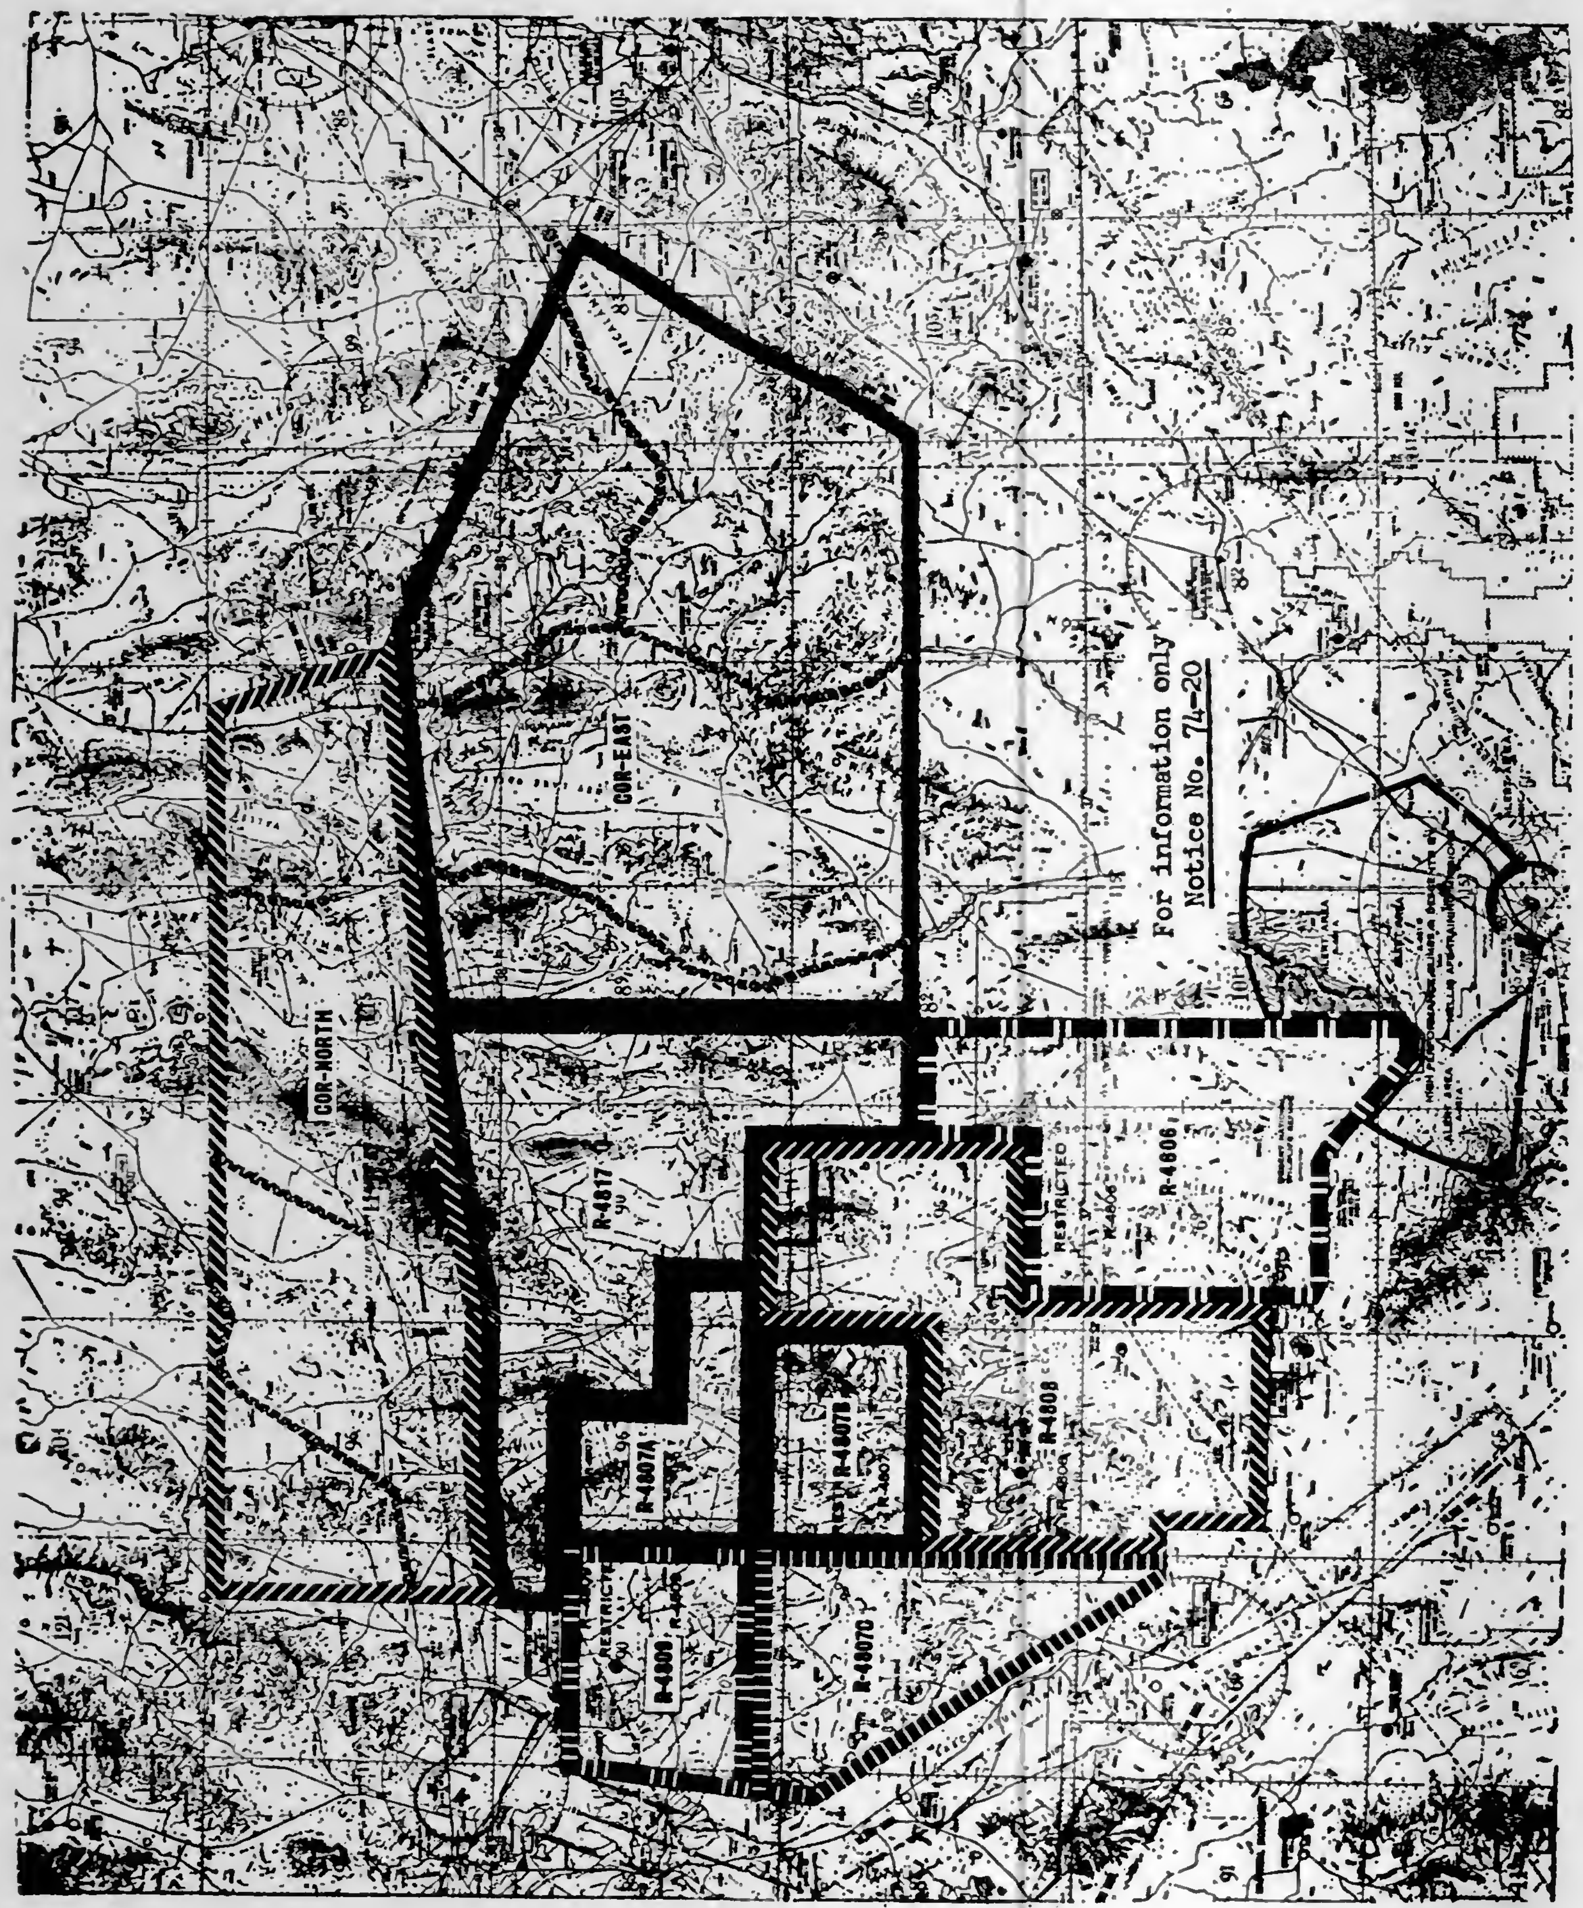
The FAA and the Air Force wish to minimize the burden of the Continental Operations Range on nonparticipating aircraft and request public comment concerning alternate airspace options and regulatory concepts that may be available.

Every effort will be made consistent with safety to allow flight through the COR area. Accordingly, visual flight rules (VFR) flight corridors are planned along commonly flown east-west and north-south routes. Although communications are encouraged to aid in providing separation, flight through these corridors would be permitted without radio communication or prior permission. An east-west corridor is proposed as being along V-244 from 1,500 feet AGL up to 12,500 feet MSL, North-south corridors, as shown in the diagram, are proposed for the same altitudes and are generally located above highways for easy identification.

In order to cause the least amount of inconvenience to transiting pilots, existing restricted areas R-4807 and R-4806, which form part of the COR, R-4809, and the new restricted area identified as R-4817, would all be designated as joint use areas. This would provide for release of this airspace for public use when it is not needed by the using agency.

The following diagram describes the Air Force proposal for the COR including restricted areas R-4817, the proposed realignment of restricted area R-4807, R-4808, R-4809, the proposed special rule areas, COR-North and COR-East, and the proposed VFR Flight corridors.

V39 114 JUN 12 74 XUM



The details of the areas shown on the diagram would be as follows:

1. R–4817 Tonopah, Nevada (as proposed).

Boundaries. Bounded on the E by longitude 115°18'00" W.; on the S., W., and N. by a line from latitude 37°17'00" N., longitude 115°18'00" W.; via latitude 37°17'00" N., longitude 115°35'00" W.; latitude 37°33'00" N., longitude 115°35'00" W.; latitude 37°33'00" N., longitude 115°53'00" W.; latitude 37°42'00" N., longitude 115°53'00" W., latitude 37°42'00" N., longitude 116°11'00" W.; latitude 37°42'00" N., longitude 116°11'00" W.; latitude 37°53'25" N., longitude 116°38'20" W.; latitude 37°59'55" N., longitude 116°38'10" W.; latitude 38°00'10" N., longitude 116°33'30" W.; latitude 38°00'30" N., longitude 116°33'45" W.; latitude 38°01'50" N., longitude 116°19'45" W.; latitude 38°01'40" N., longitude 115°58'40" W.; latitude 38°06'00" N., longitude 115°28'00" W.; to latitude 38°07'00" N., longitude 115°18'00" W.

Altitude. 200 feet AGL to but not including FL 180.

Time. Continuous.

Controlling agency. Los Angeles ARTC Center.

Using agency. Commander, Continental Operations Range, Nellis AFB, Nevada.

2. R–4807 Tonopah, Nevada, would be redesignated as R–4807 A, B, and C.

(a) R–4807A Tonopah, Nevada.

Boundaries. Beginning at latitude 37°53'00" N., longitude 116°30'00" W.; via latitude 37°42'00" N., longitude 116°11'00" W.; latitude 37°42'00" N., longitude 116°11'00" W.; latitude 37°42'00" N., longitude 115°53'00" W.; latitude 37°33'00" N., longitude 115°53'00" W.; latitude 37°33'00" N., longitude 116°30'00" W.; to the point of beginning.

Altitude. Unlimited.

Time. Continuous.

Controlling agency. Los Angeles ARTC Center.

Using agency. Commander, Continental Operations Range, Nellis AFB, Nevada.

(b) R–4807B Tonopah, Nevada.

Boundaries. Bounded on the N. by latitude 37°33'00" N.; on the E. by longitude 116°00'00" W.; on the S. by latitude 37°16'00" N.; on the W. by longitude 116°30'00" W.

Altitude. Unlimited.

Time. Continuous.

Controlling agency. Los Angeles ARTC Center.

Using agency. Commander, Continental Operations Range, Nellis AFB, Nevada.

(c) R–4807C Tonopah, Nevada.

Boundaries. Bounded on the N. by latitude 37°33'00" N.; on the E. by longitude 116°30'00" W.; on the S. and W. by a line from latitude 36°51'00" N., longitude 116°30'00" W.; via latitude 36°51'00" N., longitude 116°33'30" W.; latitude 37°26'30" N., longitude 117°04'30" W.; to latitude 37°33'00" N., longitude 117°03'40" W.

Altitude. Unlimited.

Time. Continuous.

Controlling agency. Los Angeles ARTC Center.

Using agency. Commander, Continental Operations Range, Nellis AFB, Nevada.

3. Special Rule Airspace.

Description of area. (a) Continental Operations Range North (COR-North).

Boundaries. Beginning at latitude 37°59'55" N., longitude 116°38'10" W.; via latitude 38°00'00" N., longitude 116°34'00" W.; latitude 38°01'00" N., longitude 116°33'00" W.; latitude 38°01'50" N., longitude 116°19''45" W.; latitude 38°01'40" N., longitude 115°58'00" W.; latitude 38°06'00" N., longitude 115°28'00" W.; latitude 38°07'00" N., longitude 115°18'00" W.; latitude 38°10'50" N., longitude 114°24'40" W.; latitude 38°11'50" N., longitude 114°27'30" W.; latitude 38°30'00" N., longitude 114°35'15" W.; latitude 38°30'00" N., longitude 116°38'00" W.; to the point of beginning.

Altitude. 100 feet to but not including FL 180.

Time. Continuous.

Controlling agency. Salt Lake City ARTC Center.

Using agency. Commander, Continental Operations Range, Nellis AFB, Nevada.

(b) Continental Operations Range East (COR-East).

Boundaries. Beginning at latitude 38°07'00" N., longitude 115°18'00" W.; via latitude 37°17'00" N., longitude 115°18'00" W.; latitude 37°17'00" N., longitude 113°58'45" W.; latitude 37°31'00" N., longitude 113°47'30" W.; latitude 37°36'00" N., longitude 113°44'00" W.; latitude 37°41'00" N., longitude 113°40'00" W.; latitude 37°52'20" N., longitude 113°30'30" W.; latitude 38°11'00" N., longitude 114°24'30" W.; to the point of beginning.

Altitude. 100 feet to but not including FL 180.

Time. Continuous.

Controlling agency. Los Angeles ARTC Center.

Using agency. Commander, Continental Operations Range, Nellis AFB, Nevada.

VFR CORRIDORS

(a) *COR-North—Flyway A.* Beginning at latitude 38°30'00" N., longitude 115°55'00" W.; thence southwest, one NM on either side of U.S. Highway 6 to latitude 38°08'30" N., longitude 116°38'00" W.

(2) *Flyway B.* Beginning at latitude 38°30'00" N., longitude 115°37'00" W.; thence southwest, one NM on either side of a direct line to latitude 38°13'00" N., longitude 115°48'00" W.

(3) *Flyway C.* Beginning at latitude 38°30'00" N., longitude 115°01'30" W.; thence south, one NM on either side of State Highway 38 to latitude 38°16'45" N., longitude 115°01'45" W.

(4) *Flyway D.* V–244 will serve as a VFR flyway for east/west bound traffic between Tonopah and Wilson Creek, Nevada.

(b) *COR-East*—(1) *Flyway A.* Beginning at latitude 37°17'00" N., longitude 115°07'00" W.; thence north one NM on either side of U.S. Highway 93 to latitude 37°31'40" N., longitude 115°13'30" W.; thence northwest one NM on either side of State Highway 25 to latitude 37°32'00" N., longitude 115°14'00" W.; thence north one NM on either side of State Highway 38 to latitude 38°08'30" N., longitude 114°58'05" W.

(2) *Flyway B.* Beginning at latitude 37°17'00" N., longitude 114°28'25" W.; thence north one NM on either side of the Union Pacific Railroad to Caliente, Nevada; thence north one NM on either side of U.S. Highway 93 to latitude 38°10'05" N., longitude 114°35'20" W.

(3) *Flyway C.* Beginning at latitude 37°47'30" N., longitude 114°24'30" W.; thence east one NM on either side of U.S. Highway 25 to Modena, Utah; thence northeast one NM on either side of the Union Pacific Railroad to latitude 37°54'30" N., longitude 113°37'30" W.

Based on the foregoing, FAA solicits the views of all interested persons concerning the Air Force proposal. The FAA is particularly interested in receiving comments regarding the following aspects of the proposal:

1. The present level of VFR activity in the affected areas.
2. The effect of this proposal on present VFR activity.
3. The effect this proposal would have on existing airports underlying the proposed airspace.
4. The suitability of the proposed VFR flight corridors.
5. The effect of this proposal on Instrument Flight Rule (IFR) traffic in the area.
6. The type of communication such as direct telephone, or radio needed by civil users within the proposed airspace.
7. The regulatory options available to assure safe entry and transit through the area, including the possible need for air traffic control clearances.
8. Possible alternatives to the proposed new restricted area and the proposed special rule areas.

Comments are also invited concerning the potential environmental impact of implementing the actions proposed herein. In this connection, a Notice of Intent to prepare an environmental impact statement with respect to the Continental Operations Range was published by the Air Force in the FEDERAL REGISTER (38 FR 31691) on November 16, 1973. Comments concerning the environmental impact of the military use of the airspace discussed in this Notice should be sent to Dr. Billy E. Welch, Special Assistant for Environmental Quality, Department of the Air Force, Washington, D.C. 20330. Comments concerning other potential environmental impact (such as the affect of the Continental Operations Range on civil aircraft fuel usage) should be included in the comments to the rules docket for this notice.

(Secs. 307 and 313(a), Federal Aviation Act of 1958, 49 U.S.C. 1348, 1354(a); and sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on May 24, 1974.

RAYMOND G. BELANGER,
Director, Air Traffic Service, AAT–1.

[FR Doc.74–12508 Filed 5–30–74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74–SW–31]

ALTERATION OF TRANSITION AREA

Notice of Proposed Rulemaking

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to alter the Midland, Tex., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Division, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before July 12, 1974, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with

V39 114 JUN 12 74 XUM

this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In Section 71.181 (39 FR 440), the Midland, Tex., transition area is amended to read:

MIDLAND, TEX.

That airspace extending upward from 700 feet above the surface within a 20-mile radius of Midland Regional Air Terminal (latitude 31°56'25" N., longitude 102°12'10" W.) and within a 5-mile radius of Mabee Ranch Airport (latitude 32°12'57" N., longitude 102°09'46" W.).

Alteration of the transition area is to provide controlled airspace for an original RNAV instrument approach procedure to the Mabee Ranch Airport and for radar vectoring by the Midland radar approach control facility down to 1,000 feet above the highest obstruction.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, TX., on June 4, 1974.

ALBERT H. THURBURN,
Acting Director, Southwest Region.

[FR Doc.74–13375 Filed 6–11–74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 73–WA–49]

ALTERATION OF MIAMI, FLA., TERMINAL CONTROL AREA

Notice of Proposed Rulemaking

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation regulations that would alter the Miami, Fla., Terminal Control Area (TCA). This proposal would redefine the lateral boundaries and floor altitudes to contain within the TCA the air traffic patterns intended for use by large turbine-powered aircraft arriving/departing the Miami International Airport. It would also delete airspace not needed within the TCA and more properly used by aircraft operating outside the TCA.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Additionally, comments are invited on the potential impacts of this proposal on the quality of the human environment. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before August 12, 1974, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Rules Docket, Room 916, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting State, derived from ICAO, wherein air traffic services are provided and also whenever a contracting State accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting State accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting State, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

Planned changes in the approach systems and procedures used, and a reevaluation of the airspace necessary to contain the large turbine-powered aircraft operating at Miami International Airport within the TCA, have given cause to propose this amendment. It is proposed to reduce the radius boundary of the surface area from 8 and 9 miles to 6 miles, raise the floor of the areas east and west of the airport between the 10 and 15 mile radii from 2,000 feet to 3,000 feet, lower the floor of the shelves north and south of the airport from 5,000 feet to 3,000 feet, add an additional area to the northwest of the airport between the 15 and 20 mile radii with a floor of 4,000 feet, extend the area between the 15 and 20 mile radii southeast of the airport with a floor of 3,000 feet, raise the floor within the New Tamiami control zone to 2,000 feet and 3,000 feet, and revise the base of the 1,000 feet floor area to 500 feet and 1,500 feet.

The adjustments would accomplish the following:

1. The revisions south and southeast of the airport would provide manuevering area and final approach airspace for use of the VOR Runway 30 approach by large turbine-powered aircraft.
2. The area northwest of the Miami VORTAC would contain flight paths for transitioning to the VOR Runway 12 approach.
3. Lowering the TCA floor north of Miami International Airport would be for the purpose of containing within rather than beneath TCA airspace, those large turbine-powered aircraft currently operating between Miami and Ft. Lauderdale-Hollywood International Airports, thus reducing the potential of midair collision for these passenger carrying aircraft.
4. Raising the TCA floor altitudes beyond 10 miles east and west of the airport, would make more airspace available for aircraft, operating beneath the TCA, using the VFR flyways of Krome Avenue and offshore Miami Beach. The floor altitude over most of the Biscayne Bay would also be raised.
5. Raising the floors within the New Tamiami airport traffic area would provide much needed relief to the aircraft operating at that airport.

The proposal was discussed at FAA Informal Airspace Meeting No. 85, held in Miami on February 13, 1974. The airspace configuration presented at this meeting differed from that now proposed in that the surface extended over Biscayne Bay within a 6-mile radius of the Miami International Airport where it is now 1,000 feet. Objection was made of containing this additional area within the TCA and several persons requested that a floor of at least 500 feet be established. The primary user needs are seaplane and helicopter operations. A review of the vertical airspace requirements reveals this is possible and this recommendation is contained herein as Area F.

The lowering of the 5,000 feet floor areas, north and south of Miami, to 3,000 feet also received some objection. Lowering the area to the south is primarily to contain the flight paths of aircraft transitioning to the VOR Runway 30 approach. The use of these altitudes is considered to be minimal and should cause little or no interference to current airspace use. Lowering the area to the north received stronger objection. Primarily, this was because VFR flights would not be able to overfly either the Opa Locka or North Perry airport traffic areas and

be able to remain clear beneath the TCA.

It is considered impractical to use a higher en route altitude than 3,000 feet for large turbine-powered aircraft operating between the Miami and Ft. Lauderdale-Hollywood International Airports because of the short distance involved. To have these aircraft continue to operate below the TCA floor does not provide the desired level of protection. Another factor is that nonparticipating aircraft operating beneath TCA floors should be able to expect a greater degree of segregation from these turbine-powered aircraft. Even though an aircraft would not be able to overfly the airport traffic areas, authorization could be obtained from ATC to operate within these areas.

There were no other objections made to the proposed airspace configuration. Except as noted, the consensus was that the proposal was a good compromise of airspace utilization for all users.

In consideration of the foregoing, it is proposed to amend Part 71 of the Federal Aviation Regulations by revising the Miami, Fla., TCA to read as follows:

MIAMI, FLA., TERMINAL CONTROL AREA

Primary Airport. Miami International Airport (Lat. 25°47'34" N., Long. 80°17'10" W.)

Boundaries.—Area A. That airspace extending upward from the surface to and including 7,000 feet MSL within a 6-mile radius of the Miami International Airport, excluding that airspace that is both northeast of the Miami VORTAC (Lat. 25°57'47" N., Long. 80°27'39" W.) 130° radial and north of Lat. 25°52'02" N. (Northwest 103rd Street/49th Street in the City of Hialeah), and within and underlying Area F described hereinafter.

Area B. That airspace extending upward from 1,500 feet MSL to and including 7,000 feet MSL within a 10-mile radius of Miami International Airport, excluding that airspace that is both northeast of the Miami VORTAC 130° radial and north of Lat. 25°52'02" N., that airspace south of the Biscayne Bay VORTAC (Lat. 25°40'17" N., Long. 80°10'40" W.) 090° and 270° radials, Area A previously described, and within and underlying Areas C and F described hereinafter.

Area C. That airspace extending upward from 2,000 feet MSL to and including 7,000 feet MSL within an area bounded on the northeast by a 5-statute mile radius arc of the New Tamiami Airport (Lat. 25°38'51" N., Long. 80°25'59" W.), on the south by the Biscayne Bay VORTAC 270° radial, and on the southwest by a 10-mile radius arc of the Miami International Airport.

Area D. That airspace extending upward from 3,000 feet MSL to and including 7,000 feet MSL within a 20-mile radius of Miami International Airport, excluding that airspace beyond a 15-mile radius of Miami International Airport extending clockwise from the Miami VORTAC 270° radial to the Miami VORTAC 090° radial, and extending clockwise from the Biscayne Bay VORTAC 150° radial to the Biscayne Bay VORTAC 270° radial, Areas A, B, and C previously described, and within and underlying Area F described hereinafter.

Area E. That airspace extending upward from 4,000 feet MSL to and including 7,000 feet MSL between the 15-mile and 20-mile radii of the Miami International Airport extending clockwise from the Miami VORTAC 270° radial to the Biscayne Bay VORTAC 331° radial.

Area F. That airspace extending upward from but not including 500 feet MSL to and including 7,000 feet MSL bounded on the east by a 6-mile radius arc of the Miami International Airport, and on the west by the west shoreline of Biscayne Bay.

(Sec. 307(a), 1110 Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510); Executive Order 10854 (24 FR 9565); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))).

Issued in Washington, D.C., on June 6, 1974.

CHARLES H. NEWPOL,
Acting Chief, Airspace and Air Traffic Rules Division.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

TECHNICAL SUBCOMMITTEE OF THE ADVISORY COMMITTEE ON EXPLOSIVES TAGGING

Notice of Closed Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (5 U.S.C. App. section 10(a)(2)), notice is hereby given that a meeting of the Technical Subcommittee of the Advisory Committee on Explosives Tagging will be held on July 16–18, 1974, at the Hilton Hotel, Park Square, Providence and Arlington Streets, Boston, Massachusetts, 02216, beginning at 9:00 a.m. each day in Room 403.

The Technical Subcommittee will hear and discuss proposals from the public and private research and development sectors concerning candidate systems for the Explosives Tagging Program.

The information which will be presented to, and discussed by, the Technical Subcommittee during the meeting will constitute trade secrets and commercial or financial information obtained from a person and privileged or confidential within the ambit of Title 5, Untied States Code, section 552(b)(4). Accordingly, the meeting of the Technical Subcommittee will, under the authority of section 10(d) of the Federal Advisory Committee Act (5 U.S.C. App. section 10(d)), not be open to public.

Any public or private sector research and development agency may present an Explosives Tagging System proposal to the Committee Manager no later than July 1, 1974. Written notification will be sent to that agency indication time and date of their presentation to the Technical Subcommittee.

All communications regarding this Technical Subcommittee meeting should be addressed to Bureau of Alcohol, Tobacco and Firearms, Explosive Tagging Program, Room 8239, 12th and Pennsylvania Avenue, NW., Washington, D.C. 20226, Attention: Mr. Robert Dexter, Committee Manager.

[SEAL] WILLIAM R. THOMPSON,
Acting Director.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[OR 11469 (Wash.)]

WASHINGTON

Notice of Proposed Withdrawal and Reservation of Lands

MAY 31, 1974.

The Department of Agriculture, on behalf of the Forest Service, has filed application OR 11469 (Wash.) for withdrawal of the lands described below, from all forms of appropriation under the mining laws (30 U.S.C. Ch. 2), but not from leasing under the mineral leasing laws, subject to valid existing rights.

The applicant desires the lands for roadside/trailside scenic areas.

All persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing no later than July 9, 1974, to the undersigned officer of the Bureau of Land Management, Department of the Interior, (729 NE. Oregon St.), P.O. Box 2965, Portland, Oregon 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate lands needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination by the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The lands involved in the application are:

WILLAMETTE MERIDIAN

MT. BAKER NATIONAL FOREST

HANNEGAN ROAD (FOREST SERVICE ROAD NO. 402)

Travel Influence Zone

A strip of land 1,320 feet on each side of surveyed centerline of said road from the west line of lot 8, sec. 31, T. 40 N., R. 9 E., to its terminus at Hannegan Campground in the NE¼SE¼, sec. 35, T. 40 N., R. 9 E., through the following sections:

T. 39 N., R. 9 E.,
  Sec. 3, NW¼NE¼, N½NW¼, and SW¼NW¼;
  Sec. 4, N½ and N½S½;
  Sec. 5, N½ and N½SE¼;
  Sec. 6, N½NE¼.
T. 40 N., R. 9 E.,
  Sec. 31, lot 8, N½SE¼, SE¼SE¼;
  Sec. 32, W½SW¼, SE¼SW¼, and SW¼SE¼;
  Sec. 33, S½SE¼;
  Sec. 34, S½NE¼, SE¼NW¼, and S½;
  Sec. 35, SW¼NE¼, W½SE¼NE¼, W½E½SE¼NE¼, S½NW¼, SW¼, W½SE¼, W½E½SE¼, and W½E½E½SE¼.

Whatcom Pass Trail (F.S. Trail No. 674)

Travel Influence Zone

A strip of land 1,320 feet on each side of said existing trail as located on-the-ground from its beginning at the end of the Hannegan Road No. 402 in the NE¼SE¼, sec. 35, T. 40 N., R. 9 E., to where it enters the North Cascades National Park on the east line of the NE¼NE¼, sec. 8, T. 39 N., R. 10 E., W.M. through the following sections:

T. 39 N., R. 9 E.,
  Sec. 1, NE¼, N½NW¼, SE¼NW¼, and N½SE¼.
T. 39 N., R. 10 E.,
  Sec. 5, SW¼SW¼ and S½SE¼;
  Sec. 6, SW¼NE¼, W½NW¼, SE¼NW¼, S½;
  Sec. 7, NE¼, NE¼NW¼ and NE¼SE¼;
  Sec. 8, N½, SW¼, N½SE¼, and SW¼SE¼.
T. 40 N., R. 9 E.,
  Sec. 35, E½E½SE¼NE¼, and E½E½E½SE¼;
  Sec. 36, S½NW¼, SW¼, W½SE¼, and SE¼SE¼.

The area described aggregates approximately 2,898 acres, in Whatcom County, Washington.

LELAND D. MORRISON,
Acting Chief, Branch of Lands and Minerals Operations.

[FR Doc.74–13422 Filed 6–11–74;8:45 am]

WESTERN SLOPE GAS CO.

Pipeline Application

JUNE 3, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 USC 185), Western Slope Gas Company, P.O. Box 840, Denver, Colorado 80201, has applied for a 1,750-foot-long right of way for a four-inch natural gas gathering pipeline across the following lands:

Sixth Principal Meridian, Colorado,
T. 2 N., R. 97 W.,
  Section 28: E½

The pipeline will convey natural gas from the No. 5–Federal–A natural gas well to an existing six-inch pipeline located northwest of Meeker in Rio Blanco County, Colorado.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application; and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed pipeline right of way to file their objections in this office. Any person asserting a claim to the lands or filing an objection must include evidence that a copy thereof has been served on the applicant. Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, within thirty days from the date of this notice.

EVERETT K. WEEDIN,
Chief,
Branch of Land Operations.

Geological Survey

GREEN RIVER BASIN, COLORADO

Power Site Cancellation 323

Pursuant to authority under the Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and 220 Departmental Manual 6.1, Power Site Classification 87 and 93 are hereby canceled to the extent that they affect the following described land:

SIXTH PRINCIPAL MERIDIAN, COLORADO

Power Site Classification 87 of February 14, 1925 (Interpreted 10–13–28 and 10–12–42):

T. 6 N., R. 99 W.,
  Sec. 18, lot 6, SE¼NW¼, and S½NE¼;
  Sec. 28, lot 2;
  Sec. 29, NE¼NW¼.
T. 6 N., R. 100 W.,
  Sec. 13, S½NE¼;
  Sec. 18, lot 5.
T. 6 N., R. 101 W.,
  (Unsurveyed) All lands within ½ mile of Yampa River.
T. 6 N., R. 102 W.,
  (Unsurveyed) All lands within ½ mile of Yampa River.
T. 6 N., R. 103 W.,
  Sec. 1, (unsurveyed) All lands within ¼ mile of Yampa River;
  Sec. 12, E½NE¼, E½SW¼, and SE¼.
T. 7 N., R. 103 W.,
  (Unsurveyed) All lands within ½ mile of Yampa River.

The area described aggregates approximately 17,268 acres.

Power Site Classification 93 of April 16, 1925 (Interpreted 4–16–25 and 4–30–28):

T. 8 N., R. 102 W.,
  Every smallest legal subdivision in unsurveyed secs. 5, 6, and 7, and unsurveyed N½ sec. 8, any portion of which, when surveyed, will lie within the limits of a survey of the Green River made in 1922 by U.S.G.S. in cooperation with the Utah Power and Light Company.
T. 9 N., R. 102 W.,
  Sec. 16, lots 5, 7, 14, 15, and 17, W½NW¼, and NW¼SW¼;
  Sec. 17, lots 1, 3, and 5, N½, N½S½, and SW¼SW¼;
  Sec. 18, NE¼ and E½SE¼;
  Sec. 19, E½E½;
  Sec. 20, lots 2, 4, and 6, NW¼NW¼, S½N½, and S½;
  Sec. 21, lots 6 and 9, S½NW¼ and SW¼;
  Sec. 29, W½NE¼, NW¼, and unsurveyed SW¼;
  Sec. 30, E½NE¼ and unsurveyed E½SE¼;
  Sec. 31, (unsurveyed);
  Sec. 32, W½ (unsurveyed).
T. 7 N., R. 103 W.,
  Sec. 32, Fractional N½;
  Every smallest legal subdivision in that portion of the township unsurveyed which, when surveyed, will lie within the limits of a survey of Green River made in 1922 by the U.S.G.S. (in cooperation with the Utah Power and Light Company).
T. 8 N., R. 103 W.,
  Sec. 26, SW¼NE¼ and unsurveyed SW¼;
  Sec. 35, unsurveyed NW¼ and unsurveyed NW¼SW¼.
T. 7 N., R. 104 W.,
  Sec. 23, lots 9, 10, and 11;
  Sec. 24, lot 1, N½SW¼, SE¼SW¼, and SE¼;
  Sec. 25, lots 1 to 8, inclusive, S½N½, and N½S½;
  Sec. 26, lots 7, 8, and 9.

The area described aggregates approximately 9,866 acres.

The total area of the land described in this notice aggregates about 27,134 acres.

The land described is subject to a permanent reservation created by a Presidential Proclamation of July 14, 1938 (53 Stat. 2454), establishing the Dinosaur National Monument. Therefore, the Secretary of Interior will not declare any of the land open to location, entry, or selection under the public land laws.

The Federal Power Commission, in DA–499–Colorado, issued October 3, 1973, found that it had no objection to the revocation of Power Site Classifications 87 and 93 insofar as they are described above.

Dated: June 3, 1974.

HENRY W. COULTER,
Acting Director.

GREEN RIVER BASIN, UTAH

Power Site Cancellation 322

Pursuant to authority under the Act of March 3, 1879 (20 Stat. 394; 43 U.S.C. 31), and 220 Departmental Manual 6.1, Power Site Classification 3 and 60 are hereby canceled to the extent that they affect the following described land:

SALT LAKE MERIDIAN, UTAH

Power Site Classification 3 of May 17, 1921.

T. 4 S., R. 23 E.,
  Sec. 24, SE¼.

The area described aggregates 160 acres.

Power Site Classification 60 of February 21, 1924:

T. 3 S., R. 25 E.,
  Sec. 23, lots 1 and 2, NE¼SW¼, SW¼SW¼, and N½SE¼;
  Sec. 24, lots 2 to 6, inclusive, and W½NE¼;
  Sec. 27, SE¼SW¼ and NW¼SE¼;
  Sec. 29, W½SW¼;
  Sec. 30, lots 1 to 8, inclusive, and N½SE¼;
  Sec. 31, lots 1 to 16, inclusive, S½NE¼, and SE¼SW¼;
  Sec. 32, lots 1 to 14, inclusive, S½NE¼, and NE¼NW¼;
  Sec. 33, S½NW¼.
  All unsurveyed tracts in secs. 23, 24, 25, 27, any part of which, when surveyed, shall be within a quarter of a mile of the left bank of the Green River.

The area described aggregates approximately 2,021 acres.

The total area of the land described in this notice aggregates about 2,181 acres.

The land described is subject to a permanent reservation created by a Presidential Proclamation of July 14, 1938 (53 Stat. 2454), establishing the Dinosaur National Monument. Therefore, the Secretary of Interior will not declare any of the land open to location, entry, or selection under the public land laws.

The Federal Power Commission, in DA–196–Utah, issued October 3, 1973, found that it had no objection to the revocation of Power Site Classifications 3 and 60 insofar as they are described above.

Dated: June 3, 1974.

HENRY W. COULTER,
Acting Director.

National Park Service

NORTH ATLANTIC REGIONAL ADVISORY COMMITTEE

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the North Atlantic Regional Advisory Committee will be held at 9:00 a.m., e.d.t., on June 26, 1974, at the North Atlantic Regional Office, Room 715, 150 Causeway Street, Boston, Massachusetts.

The purpose of the North Atlantic Regional Advisory Committee is to provide for the free exchange of ideas between the National Park Service and the public, and to facilitate the solicitation of advice or other counsel from members of the public on problems and

V39 114 JUN 12 74 XUM

programs pertinent to the North Atlantic Region of the National Park Service.

The members of the Advisory Committee are as follows:

Mrs. George E. Downing, Providence, Rhode Island.
Dr. Charles H. W. Foster, Needham, Massachusetts.
Mr. Frederick R. Micha, Ontario, New York.

The matters to be discussed at this meeting include:

1. Organization of North Atlantic Regional Advisory Committee.
2. Status of Regional Office.
3. Relationship of regional advisory committee to existing park advisory committees and to the Advisory Board on National Parks, Historic Sites, Buildings and Monuments.

The meeting will be open to the public. However, facilities and space for accommodating members of the public are limited and it is expected that not more than 25 persons will be able to attend the sessions. Any member of the public may file with the committee a written statement concerning the matters to be discussed.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact David A. Richie, Deputy Regional Director, North Atlantic Regional Office at 617–223–3769. Minutes of the meeting will be available for public inspection four weeks after the meeting at the office of the North Atlantic Region, 150 Causeway Street, Boston, Massachusetts.

Dated: May 30, 1974.

David A. Richie,
Deputy Regional Director.

Forest Service

ROGUE PLANNING UNIT, SISKIYOU NATIONAL FOREST, OREGON

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Rogue Planning Unit, Siskiyou National Forest, Oregon. USDA–FS–R6–DES–(Adm)–74–8.

The environmental statement concerns a proposed land use management plan for the Rogue Planning Unit, Siskiyou National Forest, in Coos and Curry Counties, Oregon. The proposed plan applies to a 27,000 acre roadless area.

This draft environmental statement was transmitted to CEQ on June 5, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3231
12th St. & Independence Ave., SW
Washington, D.C. 20250

USDA, Forest Service
Pacific Northwest Region
319 SW Pine Street
Portland, Oregon 97204

Siskiyou National Forest
1504 NW 6th Street
Grants Pass, Oregon 97526

A limited number of single copies are available upon request to Regional Forester T. A. Schlapfer, Pacific Northwest Region, P.O. Box 3623, Portland, Oregon 97208, or Forest Supervisor William P. Ronayne, 1504 NW. 6th Street, Grants Pass, Oregon 97526.

Comments are invited from the public, and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action requests for additional information should be addressed to responsible official, William P. Ronayne, Forest Supervisor, 1504 NW. 6th Street, Grants Pass, Oregon 97526. Comments must be received by July 22, 1974, in order to be considered in the preparation of the final environmental statement.

C. G. Jorgensen,
Acting Regional Forester,
Region 6.

June 5, 1974.

Rural Electrification Administration

CHUGACH ELECTRIC ASSOCIATION, INC.

Final Environmental Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Final Environmental Statement in accordance with Section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with a loan to Chugach Electric Association, Inc., Box 3518, Anchorage, Alaska 99501. This loan includes financing for an addition to the existing Beluga, Alaska, generating station. The addition will include two new 58.5 MW (nominal rating) natural gas-fired regenerative gas turbines to be known as Unit No. 5 and Unit No. 6.

Additional information may be secured on request, submitted to Mr. David H. Askegaard, Assistant Administrator-Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. The Final Environmental Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue, SW, Washington, D.C., Room 4310 or at the borrower address indicated above.

Final REA action with respect to this matter (including any release of funds) may be taken after thirty (30) days, but only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 3rd day of June, 1974.

George P. Herzog,
Acting Administrator,
Rural Electrification Administration.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

[Order No. 43–1]

BUREAU OF INTERNATIONAL COMMERCE

Organization and Functions

This order effective March 25, 1974 supersedes the material appearing at 38 FR 9319, April 13, 1973.

Section 1. *Purpose.* This order delegates authority to the Deputy Assistant Secretary for International Commerce and prescribes the organization and functions of the Bureau.

Sec. 2. *Delegations of authority.* .01 Pursuant to Section 4.03 of Department Organization Order 10–3 of November 11, 1973, the following authorities, delegated to the Assistant Secretary DIB by the Secretary of Commerce, are hereby delegated to the Deputy Assistant Secretary for International Commerce:

a. Such provisions of the Act of February 14, 1903 (15 U.S.C. 1512 et. seq.; 15 U.S.C. 171 et. seq.) as amended, to foster, promote, and develop the foreign commerce of the United States, as are necessary to the performance of the Bureau's functions;

b. The Foreign Assistance Act of 1961, as amended (22 U.S.C. 2151, et. seq.), and section 302 of Executive Order 10973 of November 3, 1961, issued pursuant thereto, relating to drawing the attention of private enterprise to investment opportunities abroad;

c. Such portions as are necessary to the performance of the Bureau's functions of the delegation of authority, dated June 25, 1962, from the United States Information Agency under Sec. 5 (e) of Executive Order 11034 of June 25, 1962, as amended by Executive Order 11380 of November 8, 1967, insofar as said delegation pertains to U.S. participation in trade missions abroad under the Mutual Educational and Cultural Exchange Act of 1961, as amended (22 U.S.C. 2451 et. seq.);

d. Executive Order 10978 of December 5, 1961 regarding the Presidential "E" Award, "E" Certificate of Service, and "E Star" Award, except final selection of recipients;

e. The Act of October 18, 1962, as amended (46 U.S.C. 1122b), which authorized mobile trade fairs;

f. The China Trade Act of 1922, as amended (15 U.S.C. 141 et. seq.);

g. The Act of October 27, 1972 (Pub. L. 92–598; 84 Stat. 271) relating to the participation of the U.S. in the International Exposition on the Environment to be held in Spokane, Washington in 1974;

h. Other authorities of the Assistant Secretary applicable to performing the functions assigned in this Order.

.02 The Deputy Assistant Secretary may redelegate his authority to any employee of the Bureau of International Commerce or to any other appropriate officer or agency of the Government, subject to such conditions in the exercise of such authority as he may prescribe.

Sec. 3. *Organization and Line of Authority.* .01 The Bureau of International Commerce shall be headed by the Deputy Assistant Secretary for International Commerce who shall also be the Director and who shall report and be responsible to the Assistant Secretary for Domestic and International Business. The Deputy Assistant Secretary shall be assisted by a Deputy Director who shall perform the functions of the Deputy Assistant Secretary during the latter's absence.

.02 The Bureau of International Commerce shall consist of the following principal organizational elements:

Commercial Representation Staff
Office of Market Planning
Office of Export Development
Office of International Marketing

Sec. 4. *Functions.* The Bureau of International Commerce shall perform the following functions:

a. Foster the economic strength and national security of the United States by promoting its foreign commerce;

b. Stimulate the participation of U.S. private enterprise in and its expansion of, international trade and investment by all appropriate means;

c. Recommend programs and procedures to the Assistant Secretary for Domestic and International Business regarding the foreign commerce of the United States;

d. Assist in opening new, and maintaining old, markets for U.S. private enterprise abroad through negotiations with other nations bilaterally or through international organizations and conferences, in cooperation with appropriate agencies of the U.S. Government;

e. Manage export promotion and expansion facilities such as trade fairs, trade missions, trade centers, and sample display centers, and develop other techniques to stimulate non-exporting U.S. business to participate in overseas markets or to enlarge sales for present exporters;

f. Review, approve on behalf of the Secretary, and coordinate national program activities developed by the President's Export Council for execution by the Regional and District Export Councils; and perform coordination and support services for the President's Interagency Committee on Export Expansion;

g. Collect, organize, and analyze information obtained from the Foreign Service and other sources and disseminate such information to the business community and other end-users regarding (1) the economic, commercial, industrial and financial structure of countries with which the U.S. maintains trade relations; (2) the identity of overseas importers, exporters and manufacturers of potential interest to U.S. business; (3) the investment opportunities in the United States for potential foreign investors, and opportunities for investment in developing overseas areas for U.S. investors; and (4) overseas trade opportunities developed by Foreign Service commercial officers;

h. Strengthen commercial services and commercial officer representation; and

V39 114 JUN 12 74 XUM

through full utilization of all available training, exchange and assignment techniques facilitate development and application of commercial skills in cooperation with all government activities supporting U.S. international economic activities;

i. Conduct U.S.-based export development activities designed to increase national awareness of export opportunities, improve Government/business cooperation and assist U.S. firms on specific major export projects; and

j. Carry out the domestic trade fair function including coordination of the Department's participation in domestic trade fairs and arranging of visits to expositions and U.S. businesses by foreign businessmen and government officials.

Sec. 5. *Effect on Other Orders.* This Order supersedes DIBA Organization and Function Order 43-1 of February 22, 1973.

Effective date: March 25, 1974.

Tilton H. Dobbin,
Assistant Secretary for Domestic and International Business.

[FR Doc.74-13428 Filed 6-11-74;8:45 am]

[Order No. 43-2]

BUREAU OF INTERNATIONAL COMMERCE

Organization and Functions

This order effective March 25, 1974 supersedes the material appearing at 38 FR 9320, April 13, 1973.

Section 1. *Purpose.* This order prescribes the organization and assignment of Functions within the Bureau of International Commerce.

Sec. 2. *Organization and Structure.* The organization structure and line of authority of the Bureau of International Commerce (the "Bureau") shall be as depicted in the attached organization chart. A copy of the chart is on file with the original of this document in the Office of the Federal Register.

Sec. 3. *Office of the Deputy Assistant Secretary.* .01 The Deputy Assistant Secretary for International Commerce shall assist and advise the Assistant Secretary for Domestic and International Business on export expansion, and shall serve as National Export Expansion Coordinator, and shall direct or perform coordination and support services for the President's Interagency Committee on Export Expansion. Within the framework of overall DIBA goals, the Deputy Assistant Secretary shall determine the objectives of the Bureau, formulate policies and programs for achieving those objectives, and direct the execution of Bureau programs.

.02 The Deputy Director shall assist in the direction of the Bureau and perform the functions of the Deputy Assistant Secretary in his absence.

.03 The Deputy Assistant Secretary shall supervise and direct the following organizational components:

a. Office of the Deputy Assistant Secretary and Director

b. Commercial Representation Staff

c. Office of Market Planning

d. Office of Export Development

e. Office of International Marketing

.04 The Commercial Representation Staff shall be responsible for representing the interests of the Department to other agencies with regard to the official representation of U.S. commercial interests abroad. It shall be responsible for assuring that the other organizational elements of DIBA cohesively implement the provisions of pertinent legislation, State-Commerce Agreements, Commercial skills development program, and Executive Branch determinations covering commercial representation. In cases of dispute between Bureau offices as to the mix of activities required from State Department resources, the Deputy Director shall act as the arbiter. The Staff shall concentrate its efforts in the following areas: recruitment, assignment, utilization, and career management aspects of economic/commercial personnel serving in support of Commerce programs; evaluation of past performance and evaluation of effectiveness in commercial reporting and performance of other commercial activities by personnel assigned these functions abroad; development of training requirements for the personnel scheduled for assignment or reassignment overseas; monitoring (by providing for participation in State Department inspection activities and by other activities) of both overseas and domestic programs concerned with the effectiveness of commercial services and commercial office representation abroad; and development of justification for personnel and other resource requirements involved in State and Commerce budget requests.

Sec. 4. *Office of Market Planning.* .01 The Office of the Director includes: the Director who shall plan and direct the execution of the policies and programs of the Office, provide principal direction to market planning and strategy development for the Bureau of International Commerce, shall direct the analysis of ongoing Bureau programs to insure viability and shall recommend improvements; and the Deputy Director who shall assist in the direction of the Office and perform the functions of the Director in his absence. The Office of the Director shall coordinate all Bureau publications and communications programs and information systems. The Director shall supervise and direct the following organizational components:

.02 The Strategic Planning Division shall be responsible for continually developing and reviewing BIC's role, objectives and operational plans on a worldwide basis; shall analyze impact of economic and other developments on Bureau programs and recommend changes to reflect these impacts; shall set specific objectives for all programs; shall approve the specifications and objectives for the Country Commercial program and the BIC-OFO agreement; and shall coordinate the development of rationale, strategy, and financial analysis for all programs.

.03 The Targeting Division shall analyze U.S. industry and identify those industry sectors that have the greatest export growth potential; examine foreign markets and identify those which offer the greatest export opportunities to American industry; develop for the Office of International Marketing, the Office of Export Development and the Office of Field Operations guidelines for the allocation of resources for Commerce-sponsored export programs and establish "intensive promotion cycles" for BIC's export expansion activities.

.04 The Program Evaluation Division shall develop and maintain a system to measure and evaluate the effectiveness of all commercial programs; shall develop techniques for forecasting potential results at least three years in advance, shall develop a reporting system that will permit the evaluation of actual results against forecasts and goals; shall coordinate studies and analyses performed for the Bureau, and shall assist in analysis of operating programs.

Sec. 5. *Office of Export Development.* .01 The Office of the Director includes: The Director who shall plan and direct the execution of the policies and programs of the Office and the Deputy Director who shall assist in the direction of the Office and in program planning and shall perform the functions of the Director in the latter's absence.

a. The President's Export Council Staff shall promote Government dialogue with U.S. business by providing centralized staff support and program guidance to the President's Export Council, the Regional Export Councils and the District Export Councils, and shall communicate the recommendations of these Councils to the President's Interagency Committee on Export Expansion through its liaison officer; and shall encourage increased direct exports by major U.S. exporting corporations.

b. The Domestic Investment Services Staff shall carry out the Department's "Invest In The U.S.A." program, designed to encourage and facilitate foreign direct capital investment and licensing by foreign firms in the United States as one of the continuing Department programs to improve the U.S. balance of payments; develop domestic investment, joint ventures and licensing opportunities and proposals for transmission to interested foreign businessmen; and obtain specific investment and licensing proposals from potential foreign investors for presentation to the U.S. business community.

The Director shall supervise and direct the following organizational components:

.02 The Major Export Projects Division shall serve as the focal point in the Department for providing government-wide assistance to U.S. firms on major international business transactions; identify foreign capital projects with major export potential which should be brought to the attention of U.S. industry or which are likely to require special U.S. Government assistance for successful participation by American firms; and inform U.S. firms of specific large-scale projects overseas with significant potential for exports of U.S. goods and services and assist them on a case-by-case basis in competing for such projects. The Division communicates directly with other Washington agencies and with U.S. Missions abroad as appropriate to obtain the quick reaction needed to assist U.S. firms in winning major foreign contract awards.

.03 The Export Information Division shall identify foreign agents/distributors and licensees through Trade Lists, Exporters Mailing Lists, and Agency Distributor Service; shall help U.S. businessmen evaluate foreign firms through the provision of the World Traders Data Reports; shall maintain the Foreign Traders Index to identify customers for U.S. firms; shall maintain a U.S. exporter-importer index to assist firms in developing trade and investment opportunities abroad and to provide information for the export development and international marketing programs of the Bureau; shall provide individual counseling services to U.S. exporters and prospective exporters; shall process trade inquiries from U.S. firms; shall assist in the resolution of commercial trade disputes; shall disseminate reports containing information on foreign production and commercial data to U.S. firms; shall arrange for Foreign Service assistance to U.S. businessmen traveling abroad; and shall arrange meetings and other facilitation as appropriate for foreign business and government visitors; and shall support the export control function of the Department and the economic defense activities of other U.S. agencies.

.04 The Domestic Export Programs Division shall serve as the focal point for conducting domestic programs which stimulate an interest in exporting and provide information and assistance to firms interested in international trade. In this regard it shall organize conferences, seminars and other promotional techniques to familiarize U.S. industry with the advantages of exporting; shall develop promotional literature to acquaint U.S. firms with export opportunities and procedures and with BIC programs; shall direct the national multiplier program which enlists the support of service organizations such as banks and airlines in delivery of informational material on overseas marketing opportunities to carefully identified elements of industry; shall work with trade associations to promote exporting among their membership; shall administer The Export Assistance Masters Program (TEAM) which utilizes graduate university students to prepare foreign market surveys for individual U.S. firms; shall stimulate and arrange visits to expositions and industry for foreign businessmen and government officials; shall identify, with the assistance of the Foreign Service, prospective foreign buyers and shall direct these buyers to appropriate domestic trade shows and arrange for meetings with U.S. manufacturers in order to facilitate sales; shall provide development, scheduling and displays for and shall participate in selected domestic trade shows to promote DIBA and Departmental programs; shall administer the President's "E" and "E Star" Award and other national incentive programs; shall direct national marketing and advertising efforts undertaken to stimulate export awareness; shall serve as liaison for the Bureau of International Commerce with the Office of Field Operations for the preparation of comprehensive prepackaged sales programs for the District Offices to use in their calls on target industries. It is also responsible for administering the Joint Export Association Program which provides financial and other assistance to groups of U.S. companies formed to sell their products in foreign markets.

.05 The Overseas Business Opportunities Division shall be responsible for the dissemination of foreign investment and foreign trade opportunity data and for providing assistance to firms in obtaining overseas business. In this regard it shall be responsible for the collection of specific foreign trade opportunity leads and their dissemination to interested U.S. firms through the Trade Opportunity Program; shall identify major equipment export sales opportunities which should be brought to the attention of U.S. firms or which are likely to require special U.S. Government assistance and to assist U.S. industy to obtain the sales by coordinating U.S. Government expertise and assistance on a case-by-case basis; and shall provide information and counsel, consistent with U.S. balance of payments policies and objectives, to U.S. businessmen concerning their existing and planned overseas investments; shall identify and disseminate for the benefit of the U.S. business community, foreign investment, licensing and joint venture proposals; and shall furnish information to U.S. foreign investors on private and public sources of investment capital, particularly foreign sources, guarantees and related types of investment and loan capital available for financing investment abroad, particularly developing countries.

Sec. 6. Office of International Marketing. .01 The Office of the Director includes: the Director who shall plan and direct the execution of the policies and programs of the Office, and the Deputy Director who shall provide principal direction to overseas operations and perform the functions of the Director in his absence. The Director shall have responsibility for the participation of the United States in the International Exposition on the Environment to be held in Spokane, Washington in 1974, and shall supervise and direct the following organizational components:

.02 The Assistant Director for Program Development shall be responsible for the coordination of country programs, the collection of foreign market data and the development of the mechanism for securing the necessary approvals for country commercial programs within DIBA.

a. The Program Coordination Division shall coordinate the development of individual country commercial programs with the country marketing managers, other elements of DIBA, the State Department, Foreign Service Posts, and assure concurrence with Government policy and program documents such as Policy Analysis and Resource Allocation (PARA) and the Country Analysis and Strategy Paper (CASP).

b. The Market Research Division shall design and coordinate the program to produce marketing information about countries, regions and markets which will identify U.S. export problems and opportunities; and shall collect specific product/industry information to assist U.S. industry in solving problems of advertising, pricing and product development in the marketing of specific products.

.03 The Assistant Director for Developed Markets shall direct the planning for and implementation of individual country programs within his assigned area to support the marketing needs of the U.S. business community on a targeted industry, product, and market basis. The Developed Markets area shall consist of the following geographic divisions:

a. Northern Europe Division (Scandinavia, United Kingdom, Canada, Benelux).

b. Western Europe Division (France, Germany, Austria).

c. Southern Europe Division, (Italy, Greece, Yugoslavia, Switzerland, Portugal, Spain).

d. Japan, Australia, New Zealand Division.

.04 The Assistant Director for Emergent Markets shall have similar responsibilities within his assigned area. The Emergent Markets area shall consist of the following geographic divisions:

a. Far East Division.

b. Latin America Division.

c. Africa Division.

d. Near East/South Asia Division.

.05 Each Division of the Developed Markets and Emergent Markets areas shall be responsible for the content and management of country marketing programs for its assigned territory within global export priorities and targets established by the Office of Market Planning. Each of these geographic divisions shall perform the following functions:

a. Serve as the focal point in DIBA for the development of the Country Commercial Program.

b. Provide overseas marketing information and counseling services to the U.S. business community and to other U.S. Government agencies.

c. Identify key economic, trade, financial and marketing problems in overseas country or country groupings.

d. Provide to the U.S. business community a regular review of the prospects for increased U.S. exports in significant overseas markets.

e. Provide for development in detail of the annual country commercial programs.

f. Plan and direct trade promotional activities within the country, including Trade Centers and commercial fairs.

g. Within the framework of Bureau approved country programs, provide

V39—114 JUN 12 74 XUM

guidance and direction to overseas personnel engaged in commercial activities, i.e., the Commercial Foreign Service, Trade Center staffs, commercial fair staffs, and other trade promotional personnel.

h. Maintain contact with foreign government representatives in the United States on matters concerning the marketing programs developed for their countries.

i. In addition to the functions set forth in the preceding paragraph, the Far East Division shall administer the Department's responsibilities pursuant to the China Trade Act of 1922, as amended.

.06 The Assistant Director for Resources shall plan, develop and manage the fiscal and physical resources supporting and complementing the various programs of the Office.

a. The Support Services Division shall provide logistical support for overseas promotional activities. In this regard, it shall provide for exhibition design; shall prepare specifications and provide technical administration of contracts with private design firms; shall provide for the leasing, construction, operation, and promotional support of overseas exhibitions and seminars; shall provide for the leasing, design, and construction of U.S. Trade Center facilities; and shall coordinate the shipment of exhibition products and support material. It shall also provide for program allocation of resources; shall coordinate the development of operational budgets and fiscal plans; shall provide facilitative services and coordination for Office printing, supplies, equipment, and space requirements.

b. The Special Activities Division shall plan and develop promotional techniques and activities as required by the geographic divisions to meet special export marketing needs of U.S. industry such as catalogue fairs, trade missions, instore consumer products promotions, and seminars.

Sec. 7. *Administrative, Public Affairs and Field Support.* .01 The Office of Public Affairs for Domestic and International Business Administration shall furnish public affairs and information services to Bureau of International Commerce organization units.

.02 The Directorate of Administrative Management, Domestic and International Business Administration shall furnish management, budget, personnel, travel and administrative services to Bureau of International Commerce organization units. The Directorate will also serve as liaison with Departmental elements providing other administrative service to the Bureau of International Commerce organization units.

.03 Field support necessary to Bureau of International Commerce activities will be provided by the Office of Field Operations (OFO). In particular, the Commercial Representation Staff/BIC will work in coordination with the Office of Personnel, and Office of Field Operations to provide for full utilization of available training, exchange, and assignment techniques to further develop skills of officers for service in the U.S. and abroad.

Sec. 8. *Effect on Other Orders.* This Order supersedes DIBA Organization and Function Order 43-2 of December 4, 1972.

Effective date: March 25, 1974.

M. van Gessel,
Deputy Assistant Secretary for International Commerce.

Approved:

Judith S. Chadwick,
Deputy Assistant Secretary for Administrative Management.

[FR Doc.74-13429 Filed 6-11-74;8:45 am]

[Order No. 47-1; Amdt. 3]

DEPUTY ASSISTANT SECRETARY FOR INTERNATIONAL ECONOMIC POLICY AND RESEARCH

Organization and Functions

This order effective May 24, 1974 amends the material appearing at 39 FR 1649, January 11, 1974.

DIBA Organization and Function Order 47-1, dated November 12, 1973, as amended, is hereby further amended.[1]

Section 7. Office of Competitive Assessment is revised to read, as follows:

"Sec. 7. *Office of Competitive Assessment.* .01 The Office of the Director includes: The Director who shall plan and direct the execution of policies and programs of the Office; and the Deputy Director who shall assist in the direction of the Office and perform the functions of the Director in his absence. The Director shall supervise and direct the following organizational components:

.02 The Information Development Division will organize and develop broad and internally consistent data bases, covering relevant time series data, key indicators and input-output systems tables covering a broad range of factors reflecting and affecting U.S. competitiveness and required for all phases of research and analysis to be performed within the overall program; will define, measure and monitor the changing indicators of competitiveness of U.S. industry and business in the world economy; will seek to develop through appropriate statistical analyses lead-lag indicators, early warning systems and composite indexes of competitiveness; and shall interpret, assess and communicate such descriptors of significant changes and trends in U.S. competitiveness through regular and special briefings, releases and reports to Government and business leaders.

.03 The Competitive Determinants Division will contduct and/or direct the conduct of research and analysis utilizing factor analysis, discriminant analysis and other variance analysis statistical techniques (applied on an aggregative, macro-economic, and/or sector/industry cross-sectional or vertical, multi-factor design basis) within and between industries, industry sectors and more highly aggregated economic series of the U.S. economy, identifying and measuring the impact of the most significant factor determinants and characteristics on U.S. international competitiveness in both domestic and foreign markets; will conduct special macro-economic industry or factor related studies to analyze and assess the effect of specific domestic and international actions, policies, conditions and trends—and their interactions—upon U.S. competitiveness; will also prepare policy options and recommendations for improving competitiveness of U.S. industries at home and abroad.

.04 The Competitive Systems Analysis Division will review currently or near term available econometric models, and, through selection and adaptation of those best suited to analysis and projections of both U.S. trade and balance of payments aggregate and sector trends, will develop an econometric simulation system (a) for sensitivity analysis testing and to identify sectors most critically impacting U.S. competitiveness, (b) to simulate and forecast the impact on U.S. competitiveness of specified or projected changes in significant external macro-economic factors or internal technological or micro-economic fators or conditions, and (c) to provide trade negotiation resource support prior to and during U.S. negotiations through systematic, rapid measurement and evaluation of the general economic or industry impact of any proposed changes in U.S. and tariff rates, trade terms and other non-tariff provisions; will combine use of econometric model systems, operations research, sophisticated mathematical-statistical techniques and input-output simulation systems to improve projections and quality of simulation system outputs most relevant to analyzing impacts on U.S. competitiveness; will also prepare policy options and recommendations for improving competitiveness of U.S. industries at home and abroad."

Tilton H. Dobbin,
Assistant Secretary for Domestic and International Business.

DIRECTORATE OF ADMINISTRATIVE MANAGEMENT

Organization and Functions

This order effective May 9, 1974 amends the material appearing at 39 FR 2781, January 24, 1974.

DIBA Organization and Function Order 42-2 dated January 2, 1974, is hereby amended, as follows:[1]

Sec. 6. *Office of Administrative Services.* .01 The Office of Administrative Services shall be headed by a Director who shall plan and direct all administrative services for DIBA operating units and maintain liaison with the Department's Office of Administrative Services and Procurement. The Office of the Director will administer the following DIBA programs and functions:

(1) Security program including document and physical security. The Director is the DIBA Security Officer. (2) Safety program including assuring safe working conditions and accident reporting. The Director is the DIBA Safety Officer. (3) Issuance of Building Passes, Credentials, Civil Defense Identification Cards, and Door Keys. The Director will head the following operating units:

0.2 The Communications Management Division shall analyze and assign action on all incoming overseas correspondence; dispatch all outgoing Commerce correspondence to overseas establishments; receive, sort, and distribute all correspondence; receive, log, control, and distribute all classified and registered documents from NATO, the Department of State, other Federal agencies and the Foreign Service posts. In addition, the division includes the DIBA Secretariat which is responsible for correspondence control, including review, assignment of responsibility and follow-up; special messenger service; and distribution of bulk material including newspapers and Departmental and DIBA bulk mailings.

.03 The Acquisition and Property Division processes procurement requests for all furniture, furnishings, and office equipment; processes requests for subscriptions and publications; arranges for the purchase of office supplies; processes requests for rental and lease equipment; processes requests for printing; approves requests for driver permits; arranges for repair of office equipment; maintains an inventory of furniture, furnishings and office equipment; and provides payroll services for DIBA.

.04 The Facilities Management Division plans, organizes, reviews and controls DIBA space; provides DIBA organizations with space in the main Commerce Building and contracts for Field Office space in accordance with staffing requirements and GSA guidelines; designs office layouts and arranges for improvement of office appearance and working conditions in accordance with the Office Excellence Program; provides liaison and coordination of requests for telephone, electrical service, alterations and renovations with Office of the Secretary, Office of Administrative Services and Procurement and GSA; and arranges for and supervises all moves of furniture, furnishings and equipment within DIBA.

Edward J. Henriksen,
Acting Director, Directorate of Administrative Mangement.

Maritime Administration

CITIES SERVICE TANKERS CORP.

Application Under Tanker Assistance Program; Environmental Statement

An environmental impact statement entitled, Maritime Administration Tanker Construction Program, NTIS Report No. EIS730725-F, was published on May 30, 1973. The statement concerns proposed assistance to private industry to aid in the construction in the United States of a fleet of oil-carrying vessels during the decade of the 1970's. Vessel classes included range from approximately 35,000 DWT to 400,000 DWT.

The Maritime Subsidy Board has received the following application for assistance under the Tanker Construction Program and has determined that the vessels to be constructed with such assistance are of the type, design and characteristics of those vessels treated in the above mentioned environmental impact statement. As a consequence the Board has found that no supplement to the impact statement mentioned herein, nor any new impact statement need be prepared with respect to these vessels. Future Board action with respect to the application will be, from an environmental standpoint, based on the above mentioned impact statement. This application is:

Cities Service Tanker Corporation—Application for two ships. These are to be of MarAd Design T10-S-101b, 265,000 DWT, identical to the five ships now under construction at Bethlehem Steel Shipbuilding Corporation, Sparrows Point, Maryland for MFC-Boston Corporation (3) and Gulf Oil Corporation (2). These are described in detail in Section II of the EIS as an example of a "Very Large Crude Carrier, (VLCC)." The environmental impact of such designs are covered throughout the statement in various sections.

The basis for the Board's determinations, as described herein, are available for public inspection in the Office of the Secretary, Room 3099-B, Maritime Administration, Commerce Department Building, 14th & E Streets, NW, Washington, D.C. 20230.

Dated: June 7, 1974.

By Order of the Maritime Subsidy Board, Maritime Administration.

James S. Dawson, Jr.,
Secretary.

Office of Education

ADVISORY COMMITTEE ON THE EDUCATION OF BILINGUAL CHILDREN

Notice of Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), that a subcommittee meeting of the Advisory Committee on the Education of Bilingual Children will be held from 9 a.m. to 4:30 p.m. on Tuesday, June 25, 1974. Also the meeting of the Advisory Committee on the Education of Bilingual Children will be held from 9 a.m., Wednesday, June 26, 1974, through 4:30 p.m., Thursday, June 27, 1974. Both Committees will meet in Room 1031, Regional Office Building, 1321 Second Avenue, Seattle, Washington 98101.

The Advisory Committee on the Education of Bilingual Children as well as the Subcommittee are established pursuant to section 708 of the Bilingual Education Act (20 U.S.C. 880b-5) to advise

V39—114 JUN 12 74 XUM

the Secretary of Health, Education, and Welfare and the Commissioner of Education concerning matters arising in administration of the Bilingual Education Act.

The above described meetings shall be open to the public. The proposed agenda for these meetings are the review and acceptance by the full Committee of a position paper on bilingual education which will in final form be submitted to the Commissioner of Education. Other relevant matters which the Advisory Committee deems germane to the issue shall also be discussed.

Records shall be kept of all proceedings, and shall be available for public inspection at Room 3045, Regional Office Building 3, 7th and D Streets, SW., Washington, D.C. 20202.

Signed at Washington, D.C., on June 10, 1974.

JOHN C. MOLINA,
Director, Division of Bilingual Education.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD-200, FDAA-435-DR]

ARKANSAS

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11749 of December 10, 1973; and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on May 31, 1974, the President declared a major disaster as follows:

> I have determined that the damage in certain areas of the State of Arkansas resulting from heavy rains and flooding beginning on May 14, 1974, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 93-288. I therefore declare that such a major disaster exists in the State of Arkansas. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that on June 4, 1974, the President amended his declaration of a major disaster for the State of Arkansas as follows:

> You are further authorized to apply the authorities contained in Executive Order 11749 to Public Law 93-288 (the Disaster Relief Act of 1974) pending the issuance of a new Executive order implementing Public Law 93-288.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11749, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238, I hereby appoint Mr. Joe D. Winkle, HUD Region 6, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following areas in the State of Arkansas to have been adversely affected by this declared major disaster:

The County of:

Phillips

This disaster has been designated as FDAA-435-DR.

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: June 4, 1974.

[Docket No. NFD-201; FDAA-436-DR]

OHIO

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11749 of December 10, 1973; and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on May 31, 1974, the President declared a major disaster as follows:

> I have determined that the damage in certain areas of the State of Ohio resulting from severe storms and flooding beginning about April 8, 1974, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 93-288. I therefore declare that such a major disaster exists in the State of Ohio. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that on June 4, 1974, the President amended his declaration of a major disaster for the State of Ohio as follows:

> You are further authorized to apply the authorities contained in Executive Order 11749 to Public Law 93-288 (the Disaster Relief Act of 1974) pending the issuance of a new Executive order implementing Public Law 93-288.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11749, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-73-238, I hereby appoint Mr. Robert E. Connor, HUD Region 5, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following areas in the State of Ohio to have been adversely affected by this declared major disaster:

The Counties of:

Lucas
Ottawa
Sandusky

This disaster has been designated as FDAA-436-DR.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

INTERAGENCY COMMITTEE ON SEARCH AND RESCUE (SAR)

Notice of Establishment

This notice announces the establishment of the Interagency Committee on Search and Rescue (SAR) under the sponsorship of the Commandant of the Coast Guard, Department of Transportation.

The purpose of the Committee is to oversee the National Search and Rescue Plan and to act as a coordinating forum for national search and rescue matters.

The Department Order establishing the Committee is set forth below.

This notice is issued under authority of sections 4 and 9, Department of Transportation Act, 49 U.S.C. 1653, 1657.

Issued in Washington, D.C. on May 21, 1974.

CLAUDE S. BRINEGAR,
Secretary of Transportation.

INTERAGENCY COMMITTEE ON SEARCH AND RESCUE

[DOT Order 1120.28]

MAY 21, 1974.

1. *Purpose.* This order documents the establishment of the Interagency Committee on Search and Rescue (SAR).

2. *Background.* The National Search and Rescue Conference of 1973, when considering the need to establish a continuing interagency group to oversee the National Search and Rescue Plan, recommended that the signatories to the National Search and Rescue Plan establish a standing committee to oversee the Plan and to act as a coordinating forum for national search and rescue matters. Accordingly the Conference drafted an interagency agreement for the purpose. In acting on the recommendation, the Secretary of Transportation proposed to the National Search and Rescue Plan signatories that the agreement be executed. The agreement became effective on March 5, 1974.

3. *Objectives.* The objectives of the Committee are:

a. To provide a standing committee to oversee the National Search and Rescue Plan and coordinate interagency search and rescue matters.

b. To provide a forum for preliminary development of interagency positions in search and rescue matters.

c. To provide for an interface with other national agencies involved with emergency services.

4. *Determination.* The formation and use of the Interagency Committee on Search and Rescue is determined to be in the public interest in connection with the performance of duties imposed on the Department by law.

5. *Committee membership.* a. The Committee consists of representatives of the Departments of Transportation, Defense and Commerce, the National Aeronautics and Space Administration, and the Federal Communications Commission.

b. An alternate member may be designated by each participating Department or Agency.

c. The Chairman of the Committee is the member (or alternate) of the Coast Guard representing the Department of Transportation.

d. Each member may call upon officials from his Department or Agency to serve as advisors and to participate in the meetings of the Committee.

e. Others may be invited with the approval of the Chairman or the Committee to participate as observers or serve as advisors on an ad hoc basis.

6. *Authority and Procedures.* a. The Chairman shall report to the Secretary of Transportation through the Commandant of the Coast Guard.

b. Those policy issues or plans which require the attention or approval of the signatories will be submitted by the Chairman with recommendations for action. In such cases the views of each Committee member shall be included.

c. The Chairman and any signatory authority may call a meeting when deemed necessary.

7. *Sponsorship.* The Commandant of the Coast Guard is designated as sponsor for the Committee. He is authorized to appoint a Committee Secretary and shall insure that the Committee and its officers operate according to the policy and procedure contained in current directives.

8. *Termination.* On June 30, 1975 and biennially thereafter, the Commandant of the Coast Guard will review the activities and progress with the Committee to determine if it should be continued, realigned, or terminated and make appropriate recommendations to the signatory agencies through the Secretary of Transportation.

CLAUDE S. BRINEGAR,
Secretary of Transportation.

ATOMIC ENERGY COMMISSION

BROOKHAVEN NATIONAL LABORATORY

Preparation of Environmental Impact Statement

Notice is hereby given that in accordance with the National Environmental Policy Act the U.S. Atomic Energy Commission has commenced the preparation of a draft environmental impact statement on its Brookhaven National Laboratory (BNL) at Upton, Long Island. The BNL Site has been in operation for about 25 years. The current cumulative impact on the environment of the operation of the various facilities will be assessed as well as the anticipated future impact of continuing the operations at the Site. When completed, the draft statement will be circulated for review to Federal, State and local agencies and interested public organizations and individuals. The comments received on the draft will be considered in the preparation of the final statement which will provide environmental input into Commission decisions affecting the future operations at the Site.

Copies of documents to be utilized in the preparation of this draft environmental impact statement will be available for inspection at the BNL library and the AEC Public Document Room at 1717 H Street, NW., Washington, D.C. 20545.

All interested agencies, organizations or persons desiring to submit suggestions for consideration in connection with the preparation of the draft environmental statement should submit them to James L. Liverman, Assistant General Manager for Biomedical and Environmental Research and Safety Programs, U.S. Atomic Energy Commission, Washington, D.C., on or before July 25, 1974.

Dated at Germantown, Md., this 6th day of June 1974.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

GREEN BAY X-RAY SERVICE, INC.

Prehearing Conference and Evidentiary Hearing

In the matter of Green Bay X-Ray Service, Inc., 838 Boroan Avenue, Green Bay, Wisconsin.

On May 13, 1974, the Atomic Energy Commission issued a Notice of Hearing providing for a prehearing conference and evidentiary hearing respecting the matters set forth in the Notice of Violation and Notice of Proposed Imposition of Civil Penalties, issued by the Director of Regulatory Operations. The attorney for Green Bay X-Ray Service, Inc. and the attorney for the Regulatory Staff of the Commission have conferred respecting a convenient date for a prehearing conference and evidentiary hearing and propose June 25, 1974 at a location in Green Bay, Wisconsin.

Wherefore, it is ordered, in accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission, particularly § 2.205 thereof, that a prehearing conference shall convene at 9:30 A.M. on June 25, 1974, and the evidentiary hearing shall convene at 2:00 P.M. on June 25, 1974 to consider and determine the issues set forth in the Commission's May 13, 1974 Notice of Hearing, in a Courtroom to be assigned by the Clerk of the Court in the Brown County Courthouse, 100 South Jefferson Street, Green Bay, Wisconsin 54301.

Issued: June 7, 1974, Germantown, Maryland.

SAMUEL W. JENSCH,
Chief Administrative Law Judge.

HOUSTON LIGHTING & POWER CO.

Notice of Reconstitution of Board

In the matter of Houston Lighting & Power Company (Allens Creek Nuclear Generating Station, Units 1 & 2).

Elizabeth S. Bowers, Esq. was Chairman of the Atomic Safety and Licensing Board established to consider the above applications. Because of schedule conflicts, she is unable to continue in her duties as Chairman of this Board.

Accordingly, Frederic J. Coufal, Esq., whose address is Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545, is appointed Chairman of this Board. Reconstitution of the Board in this manner is in accordance with § 2.721 of the rules of practice, as amended.

Dated at Bethesda, Maryland, this 7th day of June 1974.

NATHANIEL H. GOODRICH,
Chairman, Atomic Safety and Licensing Board Panel.

[FR Doc.74-13458 Filed 6-11-74;8:45 am]

[Docket No. STN 50-481]

BABCOCK AND WILCOX CO.

Notice of Receipt of Standard Safety Analysis Report

Babcock and Wilcox Company, in response to Option No. 1 of the policy statement of the Atomic Energy Commission (the Commission) entitled "Methods of Achieving Standardization of Nuclear Power Plants," issued March 5, 1973, has filed with the Commission a four-volume document entitled "B-SAR-241, Standard Safety Analysis Report", which was docketed May 14, 1974. The tendered application for B-SAR-241 was received on March 1, 1974. Following a preliminary review for completeness, it was accepted on May 2, 1974 for docketing. Docket No. STN 50-481 has been assigned to B-SAR-241 and should be referenced in any correspondence relating thereto.

B-SAR-241 has been submitted in accordance with the "reference system" option wherein an entire facility design or major fractions of it can be identified as a standard design to be used in multiple applications. B-SAR-241 describes and analyzes a standard four-loop pressurized water nuclear steam system (NSSS) with auxiliary and safety systems. The reactor is designed for initial operation at a core thermal power level of 3,800 megawatts.

When its review of B-SAR-241 is complete, the Commission's Regulatory staff will prepare and publish a Safety Evaluation Report documenting the results of the review. In addition, B-SAR-241 will be referred to the Advisory Committee on Reactor Safeguards (ACRS) for its review and a report thereon. Copies of the Safety Evaluation Report and the ACRS report will be made available to the public. A notice relating to the avail-

V 39 114 JUN 12 74 XUM

ability of these documents will be published in the FEDERAL REGISTER.

A copy of B–SAR–241 is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545. When available, the Safety Evaluation Report and the ACRS report will also be made available for inspection by the public at the AEC Public Document Room.

Dated at Bethesda, Md., this 5th day of June 1974.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Light Water Reactors Branch 2–3, Directorate of Licensing.

[Docket No. 50–389]

FLORIDA POWER & LIGHT CO. (ST. LUCIE PLANT, UNIT 2)

Order Postponing and Relocating Prehearing Conference

Take notice that the Prehearing Conference in the above-captioned matter, as noticed and announced by an order of this Board dated May 31, 1974, by agreement of the parties and the Board, is hereby rescheduled to occur on Thursday, June 20, 1974, commencing at 9:00 a.m. local time at the Airport Lakes Holiday Inn, 1101 NW. 57th Avenue, Miami, Florida 33126.

The purpose of this special Prehearing Conference is to discuss issues in controversy, the status of discovery, questions arising therefrom, proposed schedule for all further procedural dates, the site suitability issue, and any other matters that may aid in the orderly disposition of the matters heretofore raised.

It is so ordered.

Issued at Bethesda, Md, this 6th day of June 1974.

ATOMIC SAFETY AND LICENSING BOARD,
JOHN B. FARMAKIDES,
Chairman.

[Docket No. 50–382A]

LOUISIANA POWER & LIGHT CO. (WATERFORD STEAM ELECTRIC GENERATING STATION, UNIT 3)

Order for Sixth Prehearing Conference

Take notice, that pursuant to the Atomic Energy Commission's notice of Ferbuary 23, 1973, published in the FEDERAL REGISTER (38 FR 5502) March 1, 1973, the Commission's Memorandum and Order of September 28, 1973, and in accordance with the Commission's Rules of Practice, a Sixth Prehearing Conference will be held in the subject proceedings on July 2, 1974, at 9:30 a.m. at the U.S. Tax Court, 1111 Constitution Ave. NW., Room 2132, Washington, D.C.

The subject of this Prehearing Conference will be: (1) Applicant's motions filed May 21, 1974; (2) progress of discovery pursuant to the Board's Memorandum and Order of April 19, 1974; (3) such other matters as will aid in the disposition of these proceedings.

It is so ordered.

Issued at Bethesda, Md., this 5th day of June, 1974.

By Order of the Atomic Safety and Licensing Board.

HUGH K. CLARK,
Chairman.

[Docket No. 50–423]

NORTHEAST NUCLEAR ENERGY CO.

Notice of Limited Work Authorization

Pursuant to the provisions of 10 CFR 50.10(e) of the Atomic Energy Commission's (Commission) regulations, the Commission has authorized the Northeast Nuclear Energy Company to conduct certain site activities in connection with the proposed Millstone Nuclear Power Station Unit 3 prior to a decision regarding the issuance of a construction permit.

The authorized activities are as follows:

1. Excavation for permanent plant structures. The excavation in the containment area includes the removal of all overburden and the blasting and removal of bedrock to elevation —39'0''. Grade is at elevation 24'.

2. Erection of temporary construction facilities. These facilities include the administration building, warehouse, quality control laboratory, batch plant, trade shops, air compressor house, and clock alleys.

3. Grading of temporary construction parking area and the installation of the temporary sewer, water, fire protection, telephone and electric systems.

4. Construction of the intake structure cofferdam.

This authorization is subject to the following conditions for the protection of the environment:

1. During the construction provided by this authorization, the applicant shall take the necessary mitigating actions, including those commitments summarized in section 4.6 of the AEC's Final Environmental Statement, to avoid unnecessary adverse environmental impacts from construction activities.

2. Before engaging in a construction activity which may result in a significant adverse environmental impact that was not evaluated or that is significantly greater than that evaluated in the Final Environmental Statement, the applicant shall provide written notification to the Director of Licensing.

3. If significant harmful effects or evidence of irreversible damage from the construction activities are detected by the monitoring programs at the station, the applicant shall provide an analysis and a proposed course of action to alleviate the problem.

Any activities undertaken pursuant to this authorization are entirely at the risk of the Northeast Nuclear Energy Company and, except as to matters determined by the presiding officer under 10 CFR 50.10(e)(2), the grant of this authorization has no bearing on the issuance of a construction permit with respect tc the requirements of the Atomic Energy Act of 1954, as amended, and rules, regulations, or orders promulgated pursuant thereto. The authorization is further subject to the condition that it will terminate if the application for a construction permit is subsequently denied.

An Initial Decision on National Environmental Policy Act considerations and site suitability by the Atomic Safety and Licensing Board in this proceeding was issued on May 31, 1974. A copy of (1) the Initial Decision of May 31, 1974; (2) the applicant's Preliminary Safety Analysis Report and amendments thereto; (3) the applicant's Environmental Report and amendments thereto; (4) the staff's Final Environmental Statement dated February 1974; and (5) the Commission's letter of authorization dated June 5, 1974 are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C., and at the Waterford Public Library, Rope Ferry Road, Route 156, Waterford, Connecticut 06385.

Dated at Bethesda, Md., this 5th day of June 1974.

For the Atomic Energy Commission.

ROGER BOYD,
Acting Deputy Director for Reactor Projects, Directorate of Licensing.

[FR Doc.74–13441 Filed 6–11–74;8:45 am]

REGULATORY GUIDES

Notice of Early Comment Period for Regulatory Guides

The Atomic Energy Commission, in its continuing effort to provide for increased public participation in the regulatory process, is making a change in the issuance of its Regulatory Guides.

The primary purposes of Regulatory Guides are (1) to describe and make available to the public methods acceptable to the AEC Regulatory staff of implementing specific parts of the Commission's regulations and in some cases to delineate techniques used by the staff in evaluating specific problems or postulated accidents and (2) to provide guidance to applicants concerning certain of the information needed by the Regulatory staff in its review of applications for permits and licenses. Regulatory Guides are not intended as substitutes for regulations, and therefore compliance with these guides is not required. Methods and solutions different from those set out in the guides will be acceptable if they provide a basis for the findings requisite to the issuance or continuance of a permit or license by the Commission.

Comments and suggestions in connection with improvements in all published guides are encouraged at any time, and the guides will be revised periodically, as appropriate, to accommodate comments and to reflect new information or experience in areas covered by the guides.

However, comments and suggestions received from the public soon after a guide is issued would be particularly useful to the Regulatory staff in evaluating, in conjunction with initial experience with use of the guide and other factors, the desirability of an early revision. Accordingly, Regulatory Guides will be issued with a statement that comments and suggestions received by a date approximately 60 days after issuance will be particularly useful to the staff.

Nothing in the foregoing should be construed to imply that comments and suggestions are no longer encouraged or will not be considered after the specified date or that comments and suggestions are not encouraged on guides issued with no specified date for comments.

Comments and suggestions for improvements in all guides should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Requests for single copies of issued guides or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

(5 U.S.C. 522(a))

Dated at Rockville, Md., this 4th day of June, 1974.

For the Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

MATERIALS AND PLANT PROTECTION GUIDE

Notice of Issuance and Availability

The Atomic Energy Commission has issued a guide in its Regulatory Guide series. The Regulatory Guide series has been developed to describe and to make available to the public methods acceptable to the AEC Regulatory staff for implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain information needed by the staff in its review of applications for permits and licenses.

The new guide is in Division 5, "Materials and Plant Protection." Regulatory Guide 5.23, "In-Situ Assay of Plutonium Residual Holdup," details methods and procedures for the in-situ assay of plutonium residual holdup in reactor fuel processing areas.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. Comments and suggestions in connection with (1) items for inclusion in guides currently being developed (listed below) or (2) improvements in any published guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of the issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 5 Regulatory Guides currently being developed include the following:

Minimizing Nuclear Material Holdup in Dry Process Operations.
Organization for Materials and Plant Protection.
Management Review of Materials and Plant Protection Programs and Activities.
Standards for Physical Barrier Construction.
Special Nuclear Material Doorway Monitors.
Plant Security Force Duties.
Personnel Selection and Screening.
Perimeter Intrusion Alarms.
Road Shipment of SNM by Specially Designed Vehicle with Armed Guards.
Communication with Transport Vehicles.
Coordination of Response Plan with Law Enforcement Authority.
Monitoring Transfers of Special Nuclear Material.
Selection of Material Balance and Item Control Areas.
Internal Transfers of Nuclear Material.
Material Control in Unirradiated Scrap Recovery Facilities.
Dynamic Inventory Techniques.
Prior Measurement Verification.
Materials Protection Contingency Measures for Uranium and Plutonium Processing and Fuel Fabrication Plants.
Evaluation of Material Unaccounted for (MUF).
Evaluation of Shipper and Receiver Data.
Resolution of Shipper-Receiver Differences.
Measurement Control Program for Materials Accounting in Nuclear Material Processing Plants.
Determination of Random Measurement Errors.
Determination of Measurement Bias and Systematic Errors.
Training and Qualifying Measurement Control Personnel.
Nuclear Material Control Systems for Nuclear Power Plants.
Methods for the Accountability of Plutonium Oxide Powder.
Methods for the Accountability of High-Enriched UO_2.
Chemical, Nuclear, and Radiochemical Analysis of $UO_2(NO_3)_2$ Solutions.
Guide for Mass and Scales Calibration.
Guide for Mixing and Sampling Nuclear Materials.
Preparation of $Pu(NO_3)_4$ Solution as a Working Standard.
Guide to Making Working Standards from Production Material.
Preparation of $UO_2(NO_3)_2$ Solution as a Working Standard.
Radiometric Calibration Techniques.
Calorimetric Assay of Pu-Bearing Solids.
Nondestructive Assay of Plutonium-Bearing Fuel Rods by Gamma-Ray Spectroscopy.
Nondestructive Assay of High-Enrichment Uranium Fuel Plates.
Nondestructive Assay of Plutonium by Spontaneous Fission Coincidence Detection.
Nondestructive Assay of High-Enrichment Uranium Scrap by Active Neutron Interrogation.
Nondestructive Assay of Uranium Residual Holdup.
Nondestructive Assay of Plutonium by Gamma-Ray Spectroscopy.
Specifications for Ge(Li) Spectroscopy Systems for Material Protection—Part II: Data Reduction.
Radionuclide Analysis of Specially Prepared Samples by Gamma-Ray Spectroscopy.
Analysis and Use of Process Data for the Protection of Special Nuclear Material.
Design Considerations for Minimizing Residual Holdup of Special Nuclear Material in Equipment for Wet Process Operations.

(5 U.S.C. 552(a))

Dated at Rockville, Md. this 4th day of June, 1974.

For the Atomic Energy Commission.

LESTER ROGERS.
Director of Regulatory Standards.

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS; SUBCOMMITTEE ON SURRY POWER STATION, UNITS 3 & 4

Notice of Meeting

JUNE 10, 1974.

In accordance with the purposes of section 29 and 182 b. of the Atomic Energy Act (42 U.S.C. 2039, 2232b), the Advisory Committee on Reactor Safeguards' Subcommittee on Surry Power Station, Units 3 and 4 will hold a meeting on June 28, 1974 in the Holiday Inn—West, 902 Richmond Road, Williamsburg, Virginia 23185. The purpose of this meeting will be to develop information for consideration by the ACRS in its review of the application of the Virginia Electric and Power Co. for a permit to construct these two units. The facility will be located along the James River in Surry County, Virginia. The plant site is approximately 44 miles southeast of Richmond and 30 miles northwest of Norfolk, Virginia.

The following constitutes that portion of the Subcommittee's agenda for the above meeting which will be open to the public:

Friday, June 28, 1974, 2:00 p.m. until 5:00 p.m. The Subcommittee will hear presentations by representatives of the Regulatory Staff and Virginia Electric and Power Co. and will hold discussions with these groups pertinent to its review of the application of Virginia Electric and Power Co. for a permit to construct the Surry Power Station, Units 3 and 4.

In connection with the above agenda item, the Subcommittee will hold Executive Sessions, not open to the public, at approximately 1:30 p.m. and at the end of the day to consider matters relating to the above application. These sessions will involve an exchange of opinions and

V 39 — 114 JUN 12 74 XUM

discussion of preliminary views and recommendations of Subcommittee Members and internal deliberations for the purpose of formulating recommendations to the ACRS.

In addition to the Executive Sessions, the Subcommittee may hold a closed session with representativse of the Regulatory Staff and Applicant for the purpose of discussing privileged information relating to plant physical security.

I have determined, in accordance with subsection 10(d) of Public Law 92–463, that the above-noted Executive Sessions will consist of an exchange of opinions and formulation of recommendations, the discussion of which, if written, would fall within exemption (5) of 5 U.S.C. 552(b) and that a closed session may be held, if necessary, to discuss certain documents and information which are privileged and fall within exemption (4) of 5 U.S.C. 552(b). Further, any nonexempt material that will be discussed during the above closed sessions will be inextricably intertwined with exempt material, and no further separation of this material is considered practical. It is essential to close such portions of the meeting to protect the free interchange of internal views, to avoid undue interference with agency or Committee operation, and to avoid public disclosure of proprietary information.

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Subcommittee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda item may do so by mailing 25 copies thereof, postmarked no later than June 21, 1974 to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such comments shall be based upon the Preliminary Safety Analysis Report for this facility and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and at the Swem Library, College of William & Mary, Williamsburg, Virginia 23185.

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Subcommittee. To the extent that the time available for the meeting permits, the Subcommittee will receive oral statements during a period of not more than 30 minutes at an appropriate time, chosen by the Chairman of the Subcommittee, between the hours of 2:30 p.m. and 3:30 p.m. on June 28, 1974.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Subcommittee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting has been cancelled or rescheduled and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on June 27, 1974, to the Office of the Executive Secretary of the Committee (telephone: 301–973–5640) between 8:30 a.m. and 5:15 p.m., Eastern Daylight Time.

(e) Questions may be propounded only by members of the Subcommittee and its consultants.

(f) Seating for the public will be available on a first-come, first-served basis.

(g) The use of still, motion picture, and television cameras, the physical installation and presence of which will not interfere with the conduct of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(h) Persons desiring to attend portions of the meeting where proprietary information is to be discussed may do so by providing to the Executive Secretary, Advisory Committee on Reactor Safeguards, 1717 H Street, NW., Washington, D.C. 20545, 7 days prior to the meeting, a copy of an executed agreement with the owner of the proprietary information to safeguard this material.

(i) A copy of the transcript of the open portion of the meeting will be available for inspection on or after July 1, 1974 at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and within approximately nine days at the Swem Library, College of William & Mary, Williamsburg, Virginia 23185. Copies of the transcript may be reproduced in the Public Document Room or may be obtained from Ace Federal Reporters, Inc., 415 Second Street, NE., Washington, D.C. 20002 (telephone 202–547–6222) upon payment of appropriate charges.

(j) On request, copies of the Minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545 after August 28, 1974. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

AMERICAN-PAN AMERICAN ROUTE EXCHANGE AGREEMENT CASE

[Docket 26245]

Availability of Draft Statement of Environmental Assessment

The Civil Aeronautics Board's Bureau of Operating Rights has released a "Draft Statement of Environmental Assessment" in connection with the American-Pan American Route Exchange Agreement.

The Statement concludes that approval of the route exchange would not constitute a "major federal action significantly affecting the quality of human environment."

Interested persons and agencies of the federal, state and local governments will be given 45 days to submit comments in response to the draft statement. In the American-Pan American Route Exchange case, comments are due by July 22, 1974. Upon receipt of comments, the Bureau of Operating Rights will prepare and issue a revised statement. Comments so received will, in addition, be available to the public.

In the route exchange agreement case, American Airlines would transfer to Pan American its basic operating authority between the domestic co-terminal points New York-Newark, Washington-Baltimore, Chicago and Dallas-Ft. Worth to Hilo and Honolulu, Hawaii, and beyond Hawaii to American Samoa, Fiji, New Zealand and Australia while Pan American would transfer to American its authority in four markets: New York/Newark - Bermuda; Boston - Bermuda; New York/Newark-Barbados and New York/Newark-Santo Domingo, Dominican Republic.

Copies of the draft statement are available from the Bureau of Operating Rights, Civil Aeronautics Board, Washington, D.C. 20428.

Dated at Washington, D.C., June 7, 1974.

[Docket 25280; Order 74–6–31; Agreement C.A.B. 24340; Agreement C.A.B. 24352; Agreement C.A.B. 24353]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Specific Commodity Rates

Issued under delegated authority June 6, 1974.

Agreements have been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers and other carriers, embodied in the resolutions of the Joint Traffic Conferences of the International Air Transport Association (IATA). The agreements were adopted at the 36th Meeting of the TC1 Specific Commodity Rates Board, and at the 11th Meeting of the TC3 Specific Commodity Rates Board held in Panama City on February 20, 1974 and in Geneva on April 1, 1974 respectively.

With respect to air transportation as defined by the Act, the agreements propose revisions to the specific commodity rate structures applicable within the Western Hemisphere and Asia/Australasia/Pacific areas. We are approving these revisions, outlined in the attachments hereto, which reflect reductions from otherwise applicable general cargo rates. We are also approving a mail vote agreement which would establish cargo rates to/from San Andres Island/Leticia, Colombia and Western Hemisphere points by adding 30 cents per kilogram to existing rates for Barranquilla, Bogota, Cali, or Medellin, whichever is lower. Similarly, rates for all other Colombian points would be established by adding 15 cents to the appropriate existing rate.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that Agreement C.A.B. 24340, Agreement C.A.B. 24352 and Agreement C.A.B. 24353 are adverse to the public interest or in violation of the Act, provided that approval is subject to the conditions hereinafter ordered.

Accordingly, it is ordered that:

1. Agreement C.A.B. 24352 be and hereby is approved; and

2. Agreement C.A.B. 24340 and Agreement C.A.B. 24353 [1] be and hereby are approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publication; provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

CONSUMER PRODUCT SAFETY COMMISSION

PRODUCT SAFETY ADVISORY COUNCIL

Notice of Meeting

Notice is given that a meeting of the Product Safety Advisory Council will be held on Thursday and Friday, June 13 and 14, 1974.

The Council has been established pursuant to section 28 of the Consumer Product Safety Act (Public Law 92-573, 86 Stat. 1230; 15 U.S.C. 2077). The act provides that the Commission may consult the Council before prescribing a consumer product safety rule or taking other action under the act.

The meeting of the Council on Thursday, June 13, will be held at the Commission's Product Safety Operations Center, 5401 Westbard Ave., Bethesda, Maryland, and will consist of, beginning at 10 a.m., visits and informal discussion with various CPSC operating offices and bureaus. No formal agenda is planned.

On Friday, June 14, the Council meeting will be held in the hearing room, 6th floor, Consumer Product Safety Commission, 1750 K Street NW., Washington, D.C., from 9 a.m. to 3 p.m. The proposed agenda includes discussion of:

1. Status of CPSC efforts to obtain broad-based public participation in standards development activities.
2. Briefing on the CPSC/State Conference held May 15-17, 1974.
3. The experimental Consumer Deputy Program and prospects for its continuation.
4. Review of issues regarding sampling plans in mandatory safety standards and compliance activity.

Further information concerning this meeting, which is open to the public, may be obtained from the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, phone (202) 634-7700.

Dated: June 7, 1974.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

COST OF LIVING COUNCIL

FOOD INDUSTRY WAGE AND SALARY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Food Industry Wage and

Salary Committee, established under the authority of section 212(f) of the Economic Stabilization Act, as amended, section 4(a)(iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet on Wednesday, June 12, 1974. The meeting will be open to the public on a first-come, first-served basis at 10:00 AM, in Conference Room 8202, 2025 M Street NW., Washington, D.C.

The agenda will consist of a discussion of food industry wage cases pending before the Cost of Living Council.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business.

Issued in Washington, D.C., on June 10, 1974.

HENRY H. PERRITT, Jr.,
Executive Secretary, Cost of Living Council.

[FR Doc.74-13568 Filed 6-10-74;11:37 am]

DELAWARE RIVER BASIN COMMISSION

HOPE CREEK AND SUMMIT GENERATING STATIONS

Notice of Public Hearing

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on June 25, 1974. The subject of the hearing will be a proposal to amend the Commission's Comprehensive Plan so as to include the Hope Creek and Summit generating stations as summarized in this notice. The hearing will be held in the South Auditorium of the ASTM Building, 1916 Race Street in Philadelphia, Pa. The hearing on the Hope Creek generating station will commence at 10 a.m. and the hearing on the Summit generating station will commence at 2 p.m.

Hope Creek Generating Station. A nuclear-fueled generating station to be located on the southern half of Artificial Island on the east bank of the Delaware River in Lower Alloways Creek Township, Salem County, N.J. The plant site is approximately 15 miles south of the Delaware Memorial Bridge and eight miles southwest of Salem, N.J. Two 1,100-megawatt light water nuclear-fueled units of the boiling water type are proposed. The plant would utilize a closed-loop circulating water cooling system with wet natural draft cooling towers and a once-through service water system. Approximately 190 cubic feet per second of river water will be used for service water cooling and cooling tower makeup requirements. The service water system will discharge to the river via a submerged pipe 137 cubic feet per second of plant cooling water and cooling tower blowdown with an average heat content of 270×10^6 Btu/hr. Maximum heat discharged to the river is estimated to be 420×10^6 Btu/hr. Evaporate loss in the river due to plant discharge is estimated to be 0.61 cubic feet per second and 1.1 cubic feet per second at average and maximum design operating conditions, respectively. The plant's closed circulating water system will recirculate approximately 2,228 cubic feet per second of cooling water which will release $15{,}520 \times 10^6$ Btu/hr of rejected heat to the atmosphere through the cooling towers. To compensate for evaporative losses, the cooling towers will require an average of 52.6 cubic feet per second of makeup water to the plant. Anticipated blowdown practices for the cooling towers will require 53.5 cubic feet per second of makeup water which will be returned to the river via the service water system discharge. Unit No. 1 is planned to go into operation in 1981 and Unit No. 2 in 1982. A final environmental impact statement was filed with the U.S. Atomic Energy Commission in February 1974.

Summit Generating Station. A nuclear-fueled generating station proposed to be located about one and one-quarter miles south of the Chesapeake and Delaware Canal between the Penn Central Railroad and the duPont Parkway (U.S. Route 13), in New Castle County, Del. The project site is approximately 6 miles from Delaware City and 10 miles from Newark. The proposed plant would consist of two high temperature gas-cooled reactors each having a capacity of 770 megawatts. Exhaust steam from the turbines would be condensed by a closed cycle cooling system using mechanical draft evaporative cooling towers. The maximum heat rejection rate for the two units would be about $8{,}600 \times 10^6$ btu/hr. Makeup water to replace evaporation and blowdown is proposed to be withdrawn from the C&D Canal at a maximum rate of about 43.5 cubic feet per second. Blowdown will be discharged to the Canal through a submerged jet at a maximum rate of about 14.5 cubic feet per second. Evaporative losses will be about 19.8 cubic feet per second on the average and 29 cubic feet per second at maximum. Unit No. 1 is proposed to go into operation in 1980 and Unit No. 2 in 1982. A draft environmental impact statement was filed with the U.S. Atomic Energy Commission in March 1974.

Documents relating to each of the above projects may be examined at the Commission offices. All persons wishing to testify are requested to register with the Secretary to the Commission prior to 12 noon on June 24, 1974.

W. BRINTON WHITALL,
Secretary.

JUNE 5, 1974.

ENVIRONMENTAL PROTECTION AGENCY

[FIFRA Docket No. 246, et al.]

CHAPMAN CHEMICAL COMPANY, ET AL.

Notice of Hearing

In the above matter, relating to cancellation of registrations of pesticides containing mercury, notice is hereby given that a public hearing will be held commencing at 9:30 o'clock a.m. on July 9, 1974, at Departmental Auditorium, Conference Room B, between 12th and 14th Streets, NW., Washington, D.C.

The hearing will convene at the place and time announced in this notice but thereafter it may be moved to a different place and may be continued from day to day or recessed to a later day without other notice than announcement thereof at the hearing.

This notice is issued pursuant to the Rules of Practice governing hearings of this type, 40 CFR, Part 164, 38 FR 19371, 38 FR 34117, 39 FR 11884.

BERNARD D. LEVINSON,
Administrative Law Judge.

JUNE 7, 1974.

[OPP-50006]

PREDATOR CONTROL; COYOTES

Issuance of Experimental Use Permit to Department of Interior

Pursuant to section 5 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 983), the Department of Interior applied to the Environmental Protection Agency (EPA) for an experimental use permit. This permit (No. 6704-EXP-6G) is hereby issued in accordance with 40 CFR Part 162.19 as promulgated in the FEDERAL REGISTER on January 31, 1974 (39 FR 3939) and allows the shipment and use of sodium cyanide in the sodium cyanide spring-loaded ejector mechanism (SCSLEM) for control of predation by coyotes. The SCSLEM is to be used only in an experimental program approved by the EPA and under the supervision and control of approved SCSLEM applicators as designated by the Department of Interior.

This program began on May 28, 1974, and will expire on October 31, 1974. However, it may be revoked at any time for violation of the terms thereof, or to avoid deleterious effects on the environment.

EPA invites interested persons to submit written comments with reference to this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, 401 M Street, SW., Room EB-1, Washington, D.C. 20460. Three copies of the comments must be submitted to facilitate the work of EPA and others interested in inspecting them. The comments must be received on or before July 12, 1974, and should bear the notation OPP-50006. All written comments filed pursuant to this notice will be available for public inspection in the office of the Federal Register Section from 8:30 a.m. to 4:00 p.m., Monday through Friday.

The application, the permit issued and the label and directions for use of sodium cyanide in the SCSLEM are available for public inspection at the Environmental Protection Agency, Room EB-37, East Tower, 401 M Street, SW., Washington, D.C.

EXPERIMENTAL PROGRAM FOR USE OF THE SODIUM CYANIDE SPRING LOADED EJECTOR MECHANISM (SCSLEM) FOR PREDATOR CONTROL BY DEPARTMENT OF THE INTERIOR

I. *Purpose.* Sodium cyanide will be used in the spring loaded ejector mechanism in an experimental program designed to measure

V39—114 JUN 12 74 XUM

the usefulness of the tool as a method of reducing domestic livestock losses due to predation by coyotes in situations where mechanical control methods are not feasible or effective. The program will also evaluate the effect of the SCSLEM on nontarget species.

II. *Objectives.* A. Determine the value of the SCSLEM as used on a response-to-complaint basis where the mechanical control methods are not feasible or effective.

B. Record nontarget species taken in SCSLEM use areas.

C. Evaluate the selectivity of the SCSLEM when used to control coyotes on the basis of data collected on nontarget species taken.

D. Keep records of the use of SCSLEM for predator control with regard to human safety.

E. Determine the overall value of the SCSLEM when used on a complaint basis.

F. Obtain data on the cost of reducing livestock losses with the SCSLEM and mechanical methods.

III. *Control.* A. *Administrative Director.* The administrative director of the program will be Lynn A. Greenwalt, Director, Bureau of Sport Fisheries and Wildlife.

B. *Regional supervision.* The Division of Wildlife Service's Regional Directors will have authority to approve use of the SCSLEM within their respective regions based on requests forwarded to them.

C. *State control.* The State Animal Damage Control Office within each state will review and make recommendations on each request from private individuals in the case of private land and land administrators in the case of public land.

D. *Applications.* Application of the SCSLEM will be conducted only by Bureau, state and county employees under direct supervision of the Bureau of Sport Fisheries and Wildlife.

IV. *Procedures for implementation.* A. *Areas of use.* Use of the SCSLEM by the U.S. Fish and Wildlife Service is permitted only in those areas where the Regional Director has authorized such use.

B. The SCSLEM will not be used in areas where susceptible threatened or endangered species might be affected. Maps delineating the known ranges of susceptible threatened and endangered species will be supplied to the Regional Directors by Bureau headquarters in Washington, D.C.

C. In those states having EPA approved experimental SCSLEM programs, Bureau personnel will coordinate with the appropriate State Officials to insure that the use of the SCSLEM by Bureau personnel will not interfere with the conduct and results of the state experimental programs.

D. Use of the SCSLEM by Bureau personnel will not be permitted in any area designed as an experimental or control area in any EPA approved state experimental programs.

E. The spring loaded ejector mechanism or the sodium cyanide capsules shall not be given to, or entrusted to the care of, any person not under the supervision of the Bureau. Care shall be taken to prevent theft or loss and the possibility of their subsequent use by nonauthorized persons.

F. Distribution, storage, maintenance, and use of the SCSLEMs will be controlled by Bureau personnel and subject to the rules and policies of the Department of Interior.

G. Cyanide antidote kits shall be possessed by all employees using the SCSLEM and shall be carried with them at the time SCSLEMs are being set or maintained.

H. This program will begin May 28, 1974, and will end October 31, 1974. The termination date is subject to evaluation and modification.

I. Authorization is granted for the use of 10,000 spring loaded ejector mechanisms and 100,000 sodium cyanide capsules in the program. This authorization is subject to continuing evaluation and amendment as may be necessary.

J. The Bureau's Regional Director will provide notification of SCSLEM use within a state to the appropriate EPA regional headquarters within one working day of granting approval on any request for use.

K. *Recordkeeping and reporting.* Each applicator must submit the following information to the State Supervisor at least once a month.

1. Name of the applicator.
2. Number of SCSLEMs and capsules used, and cumulative total of SCSLEM use—years or months.
3. Number of discharged capsules at each SCSLEM location, noting cause when possible, and the number of capsules replaced at each SCSLEM location.
4. Identification of area where SCSLEM is used.
5. Total number of target species taken at each location, by direct count.
6. Number of nontarget species taken at each location, by species and direct count.
7. Number of discharges with no animal recovery.
8. Any human or domestic animal accidents associated with SCSLEM use.
9. Number and type of livestock losses to coyotes before the use of the SCSLEM.
10. Number and type of livestock losses during SCSLEM use to:
    a. Coyotes
    b. Other known causes
    c. Unknown causes
11. Other control measures used prior to and at the same time that SCSLEMs are in use in an area and the animals taken by species and direct count.

L. *Monitoring.* Each Regional Director shall establish a system for monitoring the operation of program procedures and shall provide a monthly report of findings. Surveillance may be undertaken on a sampling basis and shall include verification of:

1. Data presented in support of requests.
2. Effort expended to provide control with mechanical means.
3. Adherence to areas of use as defined by Bureau policies.
4. Adherence to policy in use of the SCSLEM.
5. Reports of results obtained from use of the SCSLEM. Prior to control or use of SCSLEM, an "Agreement for Control of Animals on Private Property" must be signed by the land owner, lessee or administrator requesting use of the SCSLEM to allow representatives of the Bureau of Sport Fisheries and Wildlife and the Environmental Protection Agency to enter on their property for the purpose of inspecting and monitoring all aspects of the experimental program. Any person found to be using the materials improperly or falsifying required data will be denied further use of SCSLEMs and may be subject to the civil and criminal penalties under the Federal Insecticide, Fungicide, and Rodenticide Act. Failure to adhere to the provisions of this program could result in suspension of the program.

V. *Data summarization and analysis.* A. The Regional Directors will be responsible for insuring the collection of reports from the applicator for summarization and forwarding to the Animal Damage Control Program Office, Washington, D.C. The Department of Interior shall furnish the Environmental Protection Agency with copies of monthly reports and findings, and a final report and analysis of the data within 60 days after the completion of the program. Copies of individual field reports of SCSLEM applicators will be sent to EPA on completion of the program.

B. The Bureau's Regional Directors will provide notification of SCSLEM use within states to the appropriate EPA regional headquarters and provide copies of the report summations to the appropriate EPA Regional Offices.

C. A precensus of livestock to be protected and a postcensus of livestock populations will be conducted in SCSLEM use areas at the completion of the program. Information on coyote populations in those areas will be derived from the Annual "Predator Survey" conducted by the Service.

D. The Bureau will continue to maintain records of ongoing nonchemical control programs. This data will be utilized by EPA for comparative purposes.

Dated: June 7, 1974.

JAMES L. AGEE,
Acting Assistant Administrator for Water and Hazardous Materials.

FEDERAL MARITIME COMMISSION

CITY OF MILWAUKEE AND O'CONNELL DISTRIBUTING CO. INC.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before July 2, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Mr. J. L. Haskell
Deputy Port Director
Board of Harbor Commissioners
Room 606—City Hall
Milwaukee, Wisconsin 53202

Agreement No. T-2966, between City of Milwaukee (City) and O'Connell Distributing Co., Inc. (O'Connell), provides for the five-year exclusive lease (with renewal options) by O'Connell of City's Municipal Terminal 1, together with nonexclusive berthing privileges and the right of usage of contiguous facilities at Milwaukee, Wisconsin, for the receiving, shipping, storing and handling of general and bulk commodities. As compensation, O'Connell shall pay City a minimum guaranteed annual rental of $20,000 plus 30% of all gross storage income in excess of $30,000 annually. In addition, O'Connell shall share with City all revenues earned from wharfage, car loading and unloading, warehousing, handling operations, or any incidental services rendered by O'Connell to its customers, at the rate of $.10 per ton of 2,000 pounds on inbound salt and at a basic rate, per 2,000 pounds on other cargo, to be negotiated prior to the time of cargo movement. After the first two years, the rental shall be reevaluated.

By Order of the Federal Maritime Commission.

Dated: June 7, 1974.

FRANCIS C. HURNEY,
Secretary.

FEDERAL POWER COMMISSION

[Docket No. E-8624]

ARIZONA PUBLIC SERVICE CO.

Order Accepting Proposed Fuel Adjustment Clause, Denying Motion to Reject, Setting Matter for Hearing, Ordering Refunds, and Permitting Intervention

JUNE 4, 1974.

On February 12, 1974, Arizona Public Service Co. (APS) tendered for filing supplements to 14 wholesale rate schedules and 1 tariff which would include in these schedules and tariff a superseding Fuel Adjustment Clause. APS requested an effective date of April 1, 1974.

By order issued March 15, 1974, the Commission accepted APS' fuel adjustment clause for filing and suspending it for 1 day until April 2, 1974. The March 15 order indicated that APS' proposed fuel adjustment clause did not conform to § 35.14 of the Commission's regulations under the Federal Power Act, and indicated certain deficiencies. Due to the possibility of APS' suffering substantial revenue loss as a result of continued operations without an effective fuel clause, the order directed that APS within 30 days from the issuance of the order, cure various specified deficiencies. The order stated that "[u]pon receipt of such filing, and our review thereof, we shall issue such further orders as may be appropriate".

On March 20, 1974, Arizona Electric Power Cooperative, Inc. (AEPCO) and Papago Tribal Utility Authority (PTU) filed a "Protest, Petition To Intervene, Motion To Reject and Petition To Revoke Unlawfully Issued Order, or Alternatively, For Rehearing Thereof".[1] On April 19, 1974, we granted (AEPCO) and PTU's application for rehearing to allow all parties the opportunity to comment upon the revised fuel clause filed by Arizona on April 3, 1974, in purported compliance with our March 15, 1974, order.

The April 3, 1974, revised fuel clause was noticed with comments due on or before April 30, 1974. On April 30, 1974, AEPCO and PTU filed a "Protest, Petition to Intervene and Motion to Reject * * *" AEPCO and PTU allege that the revised clause does not comply with the principles underlying the Commission's Opinion No. 633 in New England Power Co., 48 FPC 899 (1972) and § 35.14 of its regulations. AEPCO and PTU allege that (1) the revised fuel clause attempts to disguise a major rate increase in the form of a fuel clause with a new base fuel cost at a level which produces revenues greater than APS actually earned in 1973, without producing the various cost of service and revenue data required for such an increase by the Commission's regulations, (2) APS has erroneously computed the proposed adjustment factor by subtracting from the current cost, as adjusted for losses, a 1969 base cost which has not been similarly adjusted for losses, and by calculating the proposed adjustment factor in a manner which disregards and violates the Commission's conclusion in its March 15, 1974 order that total system losses should not be assigned to the wholesale sales but should be equitably apportioned among all classes of sales, and (3) APS has, without justification, excluded from its computation of increased fuel costs and mwh system imput "specific deliveries" made out of its system from all interchanges and deliveries for which the rate is tied to fuel costs of specific plants or units. AEPCO and PTU move that the Commission either reject the revised clause, or, in the alternative, suspend the operation of the proposed fuel clause for the full statutory period and set the matter for full evidentiary hearing.

With regard to AEPCO and PTU's suggestion that the revised clause attempts to disguise a major rate increase and their complaints relating to the computation of the proposed adjustment factor, we note that APS has provided an explanation as to their determination of base fuel cost. However, we do not find this explanation completely satisfactory, and we shall direct APS to furnish the appropriate cost support and revenue data. We also believe that the proposed adjustment factor may not be consistent with our conclusion in the March 15, 1974 order that losses should not be assigned to the wholesale sales but should be equally apportioned among all classes of sales. We also believe that the complained of exclusions from computation of increased fuel costs and mwh system input may be unreasonable.

For the foregoing reasons, we believe that the revised fuel clause has not been shown to be just and reasonable. However, we believe that the existence of the possible deficiencies discussed above does not warrant the rejection of the revised clause and we shall therefore deny AEPCO and PTU's motion to reject. We shall instead accept the revised clause in substitution for that clause accepted by our March 15, 1974, order, to be effective subject to refund as of April 2, 1974, establish an evidentiary hearing with respect to the issues of the propriety of the base fuel cost, the assignment of losses, and the exclusions from computation of increased fuel costs and mwh system input, and permit AEPCO and PTU to intervene in this proceeding.

The Commission finds:

(1) Good cause exists to accept APS' revised clause filed on April 3, 1974 in substitution for that clause accepted by the Commission, subject to further order, on March 15, 1974, to be effective subject to refund as of April 2, 1974.

---

[1] On April 22, 1974, Electric District No. 6 filed a letter supporting the filing made by AEPCO and PTU.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the issues of the propriety of the base fuel cost, the assignment of losses and the exclusions from computation of increased fuel cost and mwh system input, in APS's revised fuel clause.

(3) APS should be required to file within 30 days of the issuance of this order its complete case-in-chief, including cost support and revenue data with respect to the base fuel cost contained in the revised fuel clause.

(4) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(5) AEPCO's and PTU's motion to reject should be denied.

(6) APS should be required to refund with interest the difference, if any, between revenues collected under the fuel clause accepted by the Commission's March 15, 1974 order, and the revenues which would have been collected under the revised fuel clause.

(7) Participation in this proceeding of the above-named petitioners to intervene may be in the public interest.

The Commission orders:

(A) APS' revised fuel clause filed on April 3, 1974 is accepted in substitution for that clause accepted by the Commission subject to further order, on March 15, 1974, to be effective subject to refund as of April 2, 1974.

(B) AEPCO's and PTU's motion to reject is denied.

(C) APS shall file, within 30 days of the issuance of this order its complete case-in-chief including cost support and revenue data with respect to the base fuel cost contained in the revised fuel clause.

(D) Pursuant to the authority of the Federal Power Act particularly section 205(e) thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR, Ch. I), a public hearing shall be held September 17, 1974 at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, concerning the issues of the propriety of the assignment of losses, and the exclusions from computation of increased fuel cost and mwh system input in APS's revised fuel clause.

(E) On or before August 9, 1974, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before August 23, 1974. Any rebuttal evidence by APS shall be served on or before September 6, 1974.

(F) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(G) APS shall refund with interest the difference, if any, between revenues collected under the fuel clause accepted by the Commission's March 15, 1974 order, and the revenues which would have been collected under the revised fuel clause.

(H) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in its petition to intervene, and *Provided, further,* That the admission of such intervenors shall not be construed as recognition by the Commission that it may be aggrieved because of any order or orders issued by the Commission in this proceeding.

(I) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket Nos. E-8250, E-8071, E-8142]

ARKANSAS POWER AND LIGHT CO.

Notice of Further Extension of Time and Postponement of Hearing

MAY 31, 1974.

On May 24, 1974, the Interveners, Conway Corp., et al.,[1] filed a motion for a further extension of the procedural dates fixed by notice issued May 3, 1974, in the above-designated matter. The motion states that all parties agreed to the procedural schedule.

Upon consideration, notice is hereby given that the procedural dates are further modified as follows:

Completion of production by Arkansas Power and Light, June 4, 1974.
Service of evidence by interveners, July 16, 1974.
Service of rebuttal evidence, August 16, 1974.
Hearing, September 24, 1974 (10 a.m. E.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13389 Filed 6-11-74;8:45 am]

[Docket No. RI74-243]

ATLANTIC RICHFIELD CO.

Notice of Petition for Special Relief

JUNE 6, 1974.

Take notice that on May 28, 1974, Atlantic Richfield Co. (Petitioner), P.O. Box 2819, Dallas, Texas 75221, filed a petition for special relief in Docket No. RI74-243, seeking a rate above the applicable area ceiling under Opinion No. 662. Petitioner seeks a price of 26.5 cents per Mcf for the sale of residue gas to Northern Natural Gas Co. under its FPC Gas Rate Schedule No. 376 from the Eldorado Gas Plant remaining from gas well gas produced from the acreage commonly called the V. J. Powell "A" No. 5 proration unit. Petitioner states that since the well is depleted and shut in, it cannot justify reworking the well and attempting to obtain additional recoverable gas reserves at the current 16.5¢ rate. Petitioner estimates that additional gas reserves of 500,000 Mcf are recoverable if the well is reworked.

Any person desiring to be heard to make any protest with reference to said petition should on or before June 25, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8524]

BLACKSTONE VALLEY ELECTRIC CO.

Order Granting Late Petition To Intervene

JUNE 4, 1974.

On May 3, 1974, Narragansett Electric Co. (Narragansett) filed a petition to intervene out of time in the above captioned proceeding. Notice of the filing in this docket was issued on February 19, 1974, with protests and petitions to intervene due on or before March 4, 1974. Narragansett states that the late filing of its petition to intervene was due to extraordinary circumstances and that it has a direct and substantial interest in this proceeding.

The Commission finds:

Participation by Narragansett in this proceeding may be in the public interest and good cause exists to grant Narragansett's late petition to intervene.

The Commission orders:

(A) Narragansett is hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of the intervenor shall be limited to matters affecting rights and interests specifically set forth in its petition to intervene, and; *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

---

[1] Conway Corp. Benton Municipal Light and Water Works, Hope Water & Light Commission, City of North Little Rock, City of West Memphis, Farmers Electric Cooperative Corporation and Mississippi County Electric Cooperative, Inc., Arkansas.

V39—114 JUN 12 74 XUM

(B) The intervention granted herein shall not be the basis for delaying or deferring the procedural schedule heretofore established for the orderly and expeditious disposition of this proceeding.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13379 Filed 6-11-74;8:45 am]

[Docket No. E-8074]

CITY OF FAIRHOPE, ALABAMA AND ALABAMA POWER CO.

Order Denying Motion To Dismiss and Providing for Hearing

JUNE 4, 1974.

On March 8, 1973, the City of Fairhope, Alabama (Fairhope) filed a petition for a declaratory order concerning the proper termination date of Fairhope's contract with Alabama Power Co. (Alabama). On November 1, 1971, Alabama had tendered for filing a tariff applicable to its cooperative and municipal customers, including Fairhope. Alabama stated its intention to make the tariff applicable to the affected customers upon the termination of the then existing contracts with these customers. By order of December 30, 1971, the Commission accepted the tariff for filing, suspended the effective date until February 2, 1972, and established hearing procedures.[1]

On April 16, 1973, Alabama tendered an unexecuted service agreement to place the tariff in effect as to Fairhope. Alabama requested an effective date of May 3, 1972, as to Fairhope, contending that was the termination date of its existing contract with Fairhope. In the instant petition Fairhope contends that by the terms of the contract, the proper expiration date was September 18, 1972. Fairhope asks that all collections made under the tariff provisions for the period May 3, 1972, to September 18, 1972, be refunded.

It is Fairhope's contention (Petition, paragraph 7) that the delay in the construction by Alabama of a 44 Kv transmission line from South Foly Substation to the Fairhope Switching Station caused a delay in the commencement of delivery of power to Fairhope, and thus delayed the term of the five-year contract, pursuant to Paragraph Eight thereof, for the period from May 3 to September 18, Fairhope also alleges (Petition, paragraph 9) that "the delay was attributable to one of the causes enumerated in Paragraph Eight [of the contract], namely, the failure of Alabama Power Company to secure the necessary material and apparatus required to render the service, which material and apparatus included the necessary transmission facilities and capacity."

In its Motion to Dismiss and Answer to the Petition filed April 19, 1973, Alabama denied the allegations of paragraphs 7 and 9 of the petition. Alabama further denied that Paragraph eight of the contract would operate to extend the termination date of the contract. Alabama also contended that the Commission should not determine the controversy raised by Fairhope, and that it should not be raised by petition in any event, but rather determined in the existing proceedings, Docket No. E-7664, involving the effective dates Alabama's tariff with respect to various customers. Alabama also moved the Commission to dismiss Fairhope's petition on the ground the Fairhope, as an intervenor, could and should have raised this question in Docket No. 7674, and is now barred by the principles to res adjudicata and waiver, and that the petition is an untimely attempt to reopen the proceeding in Docket No. E-7674 for taking of additional evidence without complying with the requirements of § 1.33 of the Commission's rules of practice and procedure by filing with the presiding officer and setting forth facts showing material changes of fact or law since the conclusion of the hearing in Docket No. E-7674.

There is also a difference of three cents in the computations of the parties of the amount in dispute.

On January 4, 1974, the Commission issued an order terminating the present proceeding as moot in the light of "Alabama Power Company," ____ FPC ____, Opinion No. 679, issued December 14, 1973. On February 1, 1974, Alabama filed application for rehearing of the January 4 order. On March 1, 1974, the Commission granted rehearing for the purpose of further consideration. On April 16, 1974, the Commission issued Opinion No. 679-A, amending Opinion No. 679, and denied rehearing on May 13, 1974. In view of Opinion No. 679-A, the issues raised in this proceeding are no longer moot and must be considered on the merits.

We find that the motion of Alabama to dismiss the petition should be denied. The petition was filed more than a month prior to Alabama's filing of the unexecuted service agreement, and considerably prior to the contract's expiration date. The arguments of the participants in Docket No. E-7674, as well as the later opinions and orders of the Commission, make it clear that the procedures to be followed were both new and uncertain. While it might have been preferable for Fairhope to raise the present issue by other means, Alabama has had full notice and in no way has been prejudiced as a result of this procedure rather than another.

The question before us is the proper effective date for a rate increase by a company subject to the Commission's jurisdiction under the Federal Power Act. We find that this controversy is properly determinable by the Commission.

As to the merits, it is apparent that there are questions of fact requiring a hearing. We express no opinion upon the issues of contract interpretation at this time.

The Commission orders:

(A) The motion of Alabama Power Co. to dismiss the petition in this proceeding is denied.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Federal Power Act, and pursuant to the Commission's rules of practice and procedure, a public hearing shall be convened with the prehearing conference to be held on August 27, 1974, at 10 a.m. (e.d.t.) at the offices of the Federal Power Commission in Washington, D.C., concerning the issues in this proceeding.

(C) The direct evidence of all parties, including the Commission Staff, shall be served on or before July 2, 1974. Rebuttal evidence of all parties, including the Commission Staff, shall be served on or before August 6, 1974.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Project No. 420]

CITY OF KETCHIKAN, ALASKA

Notice of Issuance of Annual License

JUNE 5, 1974.

On August 31, 1970, City of Ketchikan, Alaska, Licensee for Ketchikan Lakes Project No. 420, located in the vicinity of Ketchikan, Alaska, on the Ketchikan Creek filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder. (§§ 16.1-16.6).

The license for Project No. 420 was issued effective July 1, 1928, for a period ending June 30, 1970. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of Licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to the City of Ketchikan, Alaska for continued operation and maintenance of Project No. 420.

Take notice that an annual license is issued to the City of Ketchikan, Alaska (Licensee) under section 15 of the Federal Power Act for the period July 1, 1974, to June 30, 1975, for the continued operation and maintenance of the Ketchikan Lakes Project No. 420, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13413 Filed 6-11-74;8:45 am]

[Docket No. E-8801]

COMMUNITY PUBLIC SERVICE CO.

Notice of Application

JUNE 6, 1974.

Take notice that on May 20, 1974, Community Public Service Co. (Applicant), filed an Application with the Federal Power Commission seeking authority pursuant to section 204 of the Federal Power Act to increase the interest rate on its First Mortgage Bonds of Series C, D, G, H and I, previously authorized.

Applicant is incorporated under the laws of the State of Texas, and is domesticated in the State of New Mexico with its principal business office at Fort Worth, Texas. Applicant is engaged primarily in the generation, purchase, distribution, and sale of electric energy and the purchase, distribution and sale of natural gas. Applicant provides electricity and natural gas service to a total of 85 incorporated municipalities in Texas and New Mexico.

Applicant proposes to create a Thirteenth Supplemental Indenture for the purpose of amending certain provisions of Community's Indenture of Mortgage and Deed of Trust dated as of November 1, 1944, with Continental Illinois National Bank and Trust Company of Chicago, as successor Trustees to the City National Bank and Trust Company of Chicago, as supplemented and to be supplemented and amended by a Thirteenth Supplemental Indenture, to be created as of July 1, 1974, will amend the original Indenture to remove therefrom a provision limiting the total amount of First Mortgage Bonds outstanding to $50,000,000. Applicant requests an order authorizing the increase in Interest Rate to be paid on the Bonds of Series C, D, G, H and I by twenty-one-hundredths of one percent (.20%).

Any person desiring to be heard or to make any protest with reference to said Application should on or before June 25, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The Application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 2646]

CONNECTICUT LIGHT AND POWER CO.

Notice of Application for Withdrawal of Application for License (Major)

JUNE 5, 1974.

Public notice is hereby given that an application was filed on December 27, 1973, under the Federal Power Act (16 U.S.C. 791a-825r), by the Connecticut Light and Power Co. (correspondence to: Edwin L. Johnson, Vice-President, the Connecticut Light and Power Co., P.O. Box 2010, Hartford, Connecticut 06101 and William H. Cuddy, Day, Berry & Howard, One Constitution Plaza, Hartford, Connecticut 06103) for withdrawal of the application for license filed April 28, 1967, for its constructed Stevenson Project No. 2646 which is located on the Housatonic River in the counties of New Haven and Fairfield, Connecticut.

The request for approval to withdraw the application for license is based on a decision of the United States Court of Appeals for the Second Circuit, "Farmington River Power Co. v. Federal Power Commission," 455 F. 2d 86 (2d Cir. 1972). Applicant argues that the decision makes the Commission's jurisdiction over the project questionable.

The constructed Stevenson Project consists of: (1) A concrete gravity dam 1,250 feet long and 124 feet high, supporting Connecticut State Highway Route No. 34, with a 630-foot overflow spillway section, topped by flashboards 3 feet high, a gated overflow spillway, a skimming gate section, a power intake section, and three non-overflow sections; (2) a reservoir known as Lake Zoar 27 miles in length with a surface area of 1,063 acres, a total storage capacity of 26,900 acre-feet, and a usable storage capacity of 5,038 acre-feet with a drawdown of five feet below the normal water surface elevation of 101.3 feet (U.S.G.S. datum); (3) an indoor powerhouse integral with the dam containing four generating units with a total capacity of 30,500 kw; and (4) all other facilities and interests appurtenant to the operation of the project.

Any person desiring to be heard or to make protest with reference to said application should on or before July 22, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13381 Filed 6-11-74;8:45 am]

[Project No. 2604]

CONNECTICUT LIGHT & POWER CO.

Application for Withdrawal of Application for License (Major)

JUNE 5, 1974.

Public notice is hereby given that an application was filed on December 27, 1973, under the Federal Power Act (16 U.S.C. 791a-825r) by the Connecticut Light and Power Co. (Applicant) (Correspondence to: Edwin L. Johnson, Vice-President, The Connecticut Light and Power Co., P.O. Box 2010, Hartford, Connecticut 06101 and William H. Cuddy, Day, Berry & Howard, One Constitution Plaza, Hartford, Connecticut 06103) for withdrawal of the application for license filed on July 1, 1966, for constructed Bulls Bridge Project No. 2604 located on the Housatonic River, near Gaylordsville, in the towns of New Milford and Kent, in the counties of Fairfield and Litchfield, Connecticut.

The request for approval to withdraw the application for license is based on a decision of the United States Court of Appeals for the Second Circuit, "Farmington River Power Co. v. Federal Power Commission," 455 F.2d 86 (2d Cir. 1972). Applicant argues that the decision makes the Commission's jurisdiction over the project questionable.

The constructed Bulls Bridge Project consists of: (1) Two dams: (a) a cyclopean concrete gravity-arch dam on the east channel about 203 feet long and 24 feet high with an overflow spillway 195 feet long and (b) a masonry gravity dam on the west channel about 156 feet long and 17 feet high with an overflow spillway 120 feet long topped by 3-foot flashboards; (2) a reservoir at elevation 354 feet about 4.5 miles long with an area of about 120 acres and a gross storage of 1,800 acre-feet of which 233 acre-feet, at a drawdown of two feet, is normally used; (3) canal spillways consisting of two gated sections and two overflow sections; (4) a headgate structure controlling flow into the canal; (5) a power canal about two miles long; (6) a six acre forebay; (7) a forebay intake structure with penstock gates; (8) two steel penstocks about 420 feet long; (9) two steel surge tanks 96 and 98 feet in height, respectively; (10) a powerhouse containing six 2,000 hp turbines each connected to a generator rated at 1,400 kw; (11) an indoor substation containing six transformers; and (12) appurtenant facilities.

Any person desiring to be heard or to make protest with reference to said application should on or before July 22, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13382 Filed 6-11-74;8:45 am]

---

[1] 46 FPC 1386; Rehearing denied February 11, 1972, 47 FPC 280.

V39—114 JUN 12 74 XUM

[Project No. 2576]

CONNECTICUT LIGHT AND POWER CO.

Application for Withdrawal of Application for License (Major)

JUNE 5, 1974.

Public notice is hereby given that an application was filed on December 27, 1973, under the Federal Power Act (16 U.S.C. § 791a–825r), by the Connecticut Light and Power Co. (correspondence to: Edwin L. Johnson, Vice-President, The Connecticut Light and Power Co., P.O. Box 2010, Hartford, Connecticut 06101 and William H. Cuddy, Day, Berry & Howard, One Constitution Plaza, Hartford, Connecticut 06103) for withdrawal of the application for license filed February 28, 1966, for its constructed Shepaug Project No. 2576 which is located on the Housatonic and Shepaug Rivers near New Milford, Southbury, Newtown, Roxbury Falls, Brookfield, and Bridgewater in the counties of Fairfield, New Haven, and Litchfield, Connecticut.

The request for permission to withdraw the application for license is based on the contention that the Federal Power Commission (Commission) does not have jurisdiction over the project and, therefore, cannot require its licensing. Applicant points to the Commission's Order of December 22, 1952, which declared that "the interests of interstate or foreign commerce would not be affected by the construction and operation of the proposed Shepaug development: * * *" (see 11 FPC 1548). Applicant argues that there is not sufficient evidence to support a change in that determination and, in any event, that the Commission lacks authority to make such a change.

The constructed Shepaug Project consists of: (1) A concrete gravity dam 147 feet high and 1,412 feet long consisting of three sections comprising an ogee spillway 293 feet long topped by five taintor gates each measuring 35 x 28 feet and two bays of flashboards each measuring 35 x 23 feet, an intake section about 100 feet long with a 25 foot steel penstock 77 feet long, and flanking nonflow sections about 268 feet long at the south bank and 751 feet long at the north bank; (2) a reservoir, Lake Lillinonah, at elevation 198.3 feet U.S.G.S. datum, about 13 miles long with a surface area of 1,870 acres and a total capacity of 74,000 acre-feet with a 3-foot drawdown of 5,400 acre-feet; (3) a brick powerhouse with a vertical generating unit rated at 37,200 kw; (4) a switchyard with out-door transformer; and (5) appurtenant facilities.

Any person desiring to be heard or to make protest with reference to said application should on or before July 22, 1974, file with the Federal Power Commission, Washington, D.C. 20426 petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13383 Filed 6-11-74;8:45 am]

[Project No. 2632]

CONNECTICUT LIGHT AND POWER CO.

Notice of Application for Withdrawal of Application for License (Major)

JUNE 5, 1974.

Public notice is hereby given that an application was filed on December 27, 1973, under the Federal Power Act (16 U.S.C. 791a–825r), by the Connecticut Light and Power Co. (correspondence to: Edwin L. Johnson, Vice-President, The Connecticut Light and Power Co., P.O. Box 2010, Hartford, Connecticut 06101 and William H. Cuddy, Day, Berry & Howard, One Constitution Plaza, Hartford, Connecticut 06103) for withdrawal of the application for license filed December 29, 1966, for its constructed Rocky River Project No. 2632 which is located on the Housatonic River in the counties of Fairfield and Litchfield, Connecticut, in the vicinity of Brookfield, Danbury, New Fairfield, New Milford, and Sherman.

The request for approval to withdraw the application for license is based on a decision of the United States Court of Appeals for the Second Circuit, "Farmington River Power Co. v. Federal Power Commission," 455 F. 2d 86 (2d Cir. 1972). Applicant argues that the decision makes the Commission's jurisdiction over the project questionable.

The existing Rocky River seasonal pumped storage project consists of: (1) An earth main dam 952 feet long (maximum height 100 feet); (2) four dikes: an 11-foot high, 181-foot long concrete gravity dike with a 57-foot overflow section; a 15-foot high, 522-foot long concrete dike with a 391-foot overflow section; a 45-foot high, 167-foot long earth dike; and a 42-foot high, 873-foot long earth dike in two parts; (3) a reservoir with a surface area of 5,600 acres at the normal elevation of 428.14 feet (U.S.G.S. datum) and with usable storage of 142,560 acre-feet at a drawdown of 30 feet; (4) an intake canal 3,190 feet long; (5) an intake tower at the end of the canal; (6) a 15-foot diameter conduit 943 feet long; (7) a surge tank; (8) a steel penstock 670 feet long, with an inside diameter reducing from 13 to 11 feet; (9) an indoor powerhouse containing three units, one a conventional generating unit rated at 24,000 kW, and two others being motor-generator units each having a rating as a generator of 3,500 kW; and (10) appurtenant facilities.

Any person desiring to be heard or to make protest with reference to said application should on or before July 22, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-670]

EMERALD PRODUCING CORP., ET AL.

Notice of Application

JUNE 6, 1974.

Take notice that on May 20, 1974, Emerald Producing Corp. (Operator), *et al.* (Applicant), P.O. Box 15325, Lafayette, Louisiana 70501, filed in Docket No. CI74–670 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Southern Natural Gas Co. (Southern) from the Diamond Field, Plaquemines Parish, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell to Southern from the subject acreage approximately 37,500 Mcf of gas per month for one year at 45.0 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Estimated monthly sales are 37,500 Mcf of gas.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 25, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP73-17]

GRANITE STATE GAS TRANSMISSION, INC.

Notice of Proposed Changes in Rates Pursuant to Purchased Gas Adjustment Provision

JUNE 5, 1974.

Take notice that Granite State Gas Transmission, Inc. (Granite), on May 30, 1974, tendered for filing Alternate Third Revised Sheet 3A in its FPC Gas Tariff, Original Volume No. 1, containing a correction to the proposed changes in rates filed on May 15, 1974, for effectiveness on July 1, 1974. According to Granite, its filing of May 15, 1974, contained an inadvertent error in the computation of the commodity charge component under its General Service Rate Schedule (G) as set forth on Third Revised Sheet 3A. Granite states that Alternate Third Revised Sheet 3A is tendered in place of Third Revised Sheet 3A. Granite further states that no other portion of its filing of May 15, 1974, is affected by this change.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 19, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petiton to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13404 Filed 6-11-74;8:45 am]

[Docket No. G-2730, etc.]

HILDA B. WEINERT AND JANE W. BLUMBERG, ET AL.

Order Consolidating Proceedings, Granting Interventions, Setting Hearing and Prescribing Procedures

JUNE 4, 1974.

In the matter of Hilda B. Weinert and Jane W. Blumberg, et al. (G–2730, etc.), Continental Oil Co. (G–6211), Reserve Oil and Gas Co. (G–12671), H. H. Phillips, Jr. (CI63–586), Gulf Oil Corp. (CI72–178), Sun Oil Co. (CI73–684), Reserve Oil and Gas Co. (CI73–808), Castle, Inc. (CI 74–124).

The United States Court of Appeals for the District of Columbia Circuit in "Transcontinental Gas Pipe Line Corp. v. FPC," 488 F. 2d 1325 (1973), modified by the Court on November 21, 1973, cert. denied sub nom., "Natural Gas Pipeline Co. v. Transcontinental Gas Pipeline Corp.", —— U.S. —— (May 28, 1974), reversed the Commission in the above consolidated dockets in the issuance of Opinion No. 655, which authorized the abandonment of deliveries of gas by the LaGloria Field producers to Transcontinental Gas Pipe Line Corp. and certificated sales to Natural Gas Pipeline Co. of America.

On November 27, 1973, Natural Gas Pipeline filed an emergency motion for an order directing the producers to make full deliveries to which it asserts it is entitled to under outstanding orders of the Commission, namely the contract and certificated volume of 125,000 Mcf per day. Natural asserts that since the field is not capable of producing a total of 206,000 Mcf/d, the producers are supplying Transco the full 81,000 Mcf per day, and Natural is suffering all of the shortfall in the La Gloria Field capacity to produce gas. By order issued on February 22, 1974, the Commission denied Natural's motion, and on April 24, 1974, denied Natural's application for rehearing.[1]

On November 29, 1973, Natural filed a motion asking for imposition of a payback obligation on Transco for all volumes received during the interim period from and after November 15, 1973, from the La Gloria Field producers, in order to make Natural whole in the event abandonment is later authorized and to recover for Natural the asserted excess volumes now taken by Transco over its proper share of the Field's production in the event said authorization is denied. Natural proposed that a five year repayment period be established for the return of the gas volumes taken by Transco after November 15, 1973. Natural further asked for a prehearing conference for disposition of the remanded proceeding.

On December 19, 1973, Transco filed a motion for an order requiring repayment

---

[1] Petition for review filed April 30, 1974, "Natural Gas Pipeline Co. v. FPC" No. 74–1462 (D.C. Cir.).

V39 114 JUN 12 74 XUM

of gas diverted under the abandonment order. Transco states that for the period April 18, 1973, through November 15, the producers de facto abandonment was not de jure abandonment, and Opinion No. 655 never existed legally. Therefore, Transco argues that Natural Gas Pipeline received 77,000 Mcf per day or 16,177,000 Mcf during that period in 1973 which it now is obligated to return to Transco. By order issued herein on February 22, 1974 (p. 11), the Commission ordered: "Payback obligations will be specifically determined during the abandonment/certificate hearing".

In the caption of this order, we have listed the names of additional applicants for abandonment of service to Transco and sale of gas to Natural from the La Gloria Field. The seven dockets involved common question of fact and law as are present in the 24 dockets previously consolidated in the order herein issued August 23, 1971. For the purposes of further proceedings involving the abandonment of sales to Transco and the certification of additional volumes to Natural, these 31 dockets should be considered together. The following petitions for intervention have been filed:

Brooklyn Union Gas Co.
Natural Gas Pipeline Company of America
Transcontinental Gas Pipe Line Corp.
Consolidated Edison Company of New York
Public Service Commission of New York

The Court of Appeals in "Transcontinental Gas Pipe Line Corp. v. FPC," 488 F. 2d 1325 (D.C. Cir. 1973) said:

> We contemplate on remand, therefore, a searching and comprehensive inquiry by the Commission into all factors relevant to determining the overall public interest in this abandonment proceeding. For this purpose it will doubtless be necessary to supplement the record with additional evidence with respect to these factors. Primary importance must be given to a broadly conceived comparison of the needs of the two natural gas systems and the public markets they serve.

Additionally, the Court directed inter alia, that:

The Commission should consider the environmental effects of its decision (see "Arizona Public Service Co. v. FPC," 483 F. 2d 1275 (D.C. Cir. 1973)).

In "Arizona Public Service Co.," supra, the Court held:

> We * * * give the Commission ninety days to conduct whatever further proceedings it deems necessary either for the preparation and circulation of an [NEPA] impact statement or for preparation of a statement of reasons as to why an impact statement is unnecessary.

On remand, the Court of Appeals affirmed the Commission's Opinion No. 615B,[2] which contained an analysis of environmental impact evidence. (490 F. 2d 783.) The Commission in this proceeding, therefore, directs applicants and interveners to submit evidence of environmental impact of a Commission decision granting or denying applications, if any.

The motion filed by Natural on November 29, 1973, to preserve the subject matter of this proceeding by imposing a payback obligation will be the subject of the hearing on remand of the abandonment certificate issues, as will the motion by Transco filed December 19, 1973, for repayment of gas volumes by Natural for gas sold to it during the April through November 1973 period.

These reserved issues have been expressly deferred from the interim orders herein of February 22 and April 24, 1974, wherein the Commission stated that:

> The order [of February 22] specifically places all parties on notice that there will be a determination of natural gas payback obligations as a result of final orders in the course of abandonment proceedings for all quantities of gas not properly received during the interim period. Order paragraph (D) further reserved Natural's rights in this matter. If, after the searching and comprehensive inquiry by the Commission into all factors relevant to determining the overall public interest, as directed by the Court of Appeals, 488 F. 2d at 1329, the Commission determines that Natural should have received volumes of natural gas sold and delivered to Transco by the producers after November 12, 1973, the legal and equitable powers of the Commission will be exercised on the payback issue.

Order paragraph (F) herein specifically sets these issues for hearing hereafter ordered.

On April 23, 1974, Natural filed a Motion for a decision of the Commission based on the existing record for a reopening of the record for limited purposes. The New York Commission on May 7, 1974, and Transco and AGD on May 8, 1974, filed answers in opposition to the motion. As Natural itself recognizes (Motion p. 2), the Court of Appeals on remand directed that "it will doubtless be necessary to supplement the record with respect to those factors", 488 F. 2d at 1329, as well as supplement the record with respect to those factors", 488 F. 2d at 1329, as well as supplemental evidence on environmental impact, supra, page 3.

The Commission has concluded, moreover, that additional evidence and hearings are required to comply with the Court's mandate. As noted, this order also consolidates seven additional dockets for abandonment and certification which were not part of the first hearings and could not be decided without a hearing. Furthermore, additional delay in resuming hearings for review of the record will not aid in resolution of these proceedings. Thus, we hereafter order reopening of the hearings and filing of evidence.

The Commission finds:

(1) Dockets Nos. G–6211, G–12671, CI63–586, CI72–178, CI73–684, CI73–808, and CI74–124 should be consolidated for the purposes of hearing and decision with the proceedings previously consolidated in Docket Nos. G–2730, et al.

(2) The parties listed above having filed petitions to intervene should be permitted to intervene.

The Commission orders:

(A) Applicants and intervenors shall submit prepared direct testimony and exhibits in support of their positions, inclusive of any evidence relative to environmental impact with and without abandonment as they may deem appropriate and in compliance with the Court's mandate on remand on June 28, 1974, and serve copies on the Office of Administrative Law Judges, the Commission Staff and all parties of record.

(B) A hearing shall commence in these consolidated proceedings on July 9, 1974, at 10 a.m. (e.d.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426. The Presiding Administrative Law Judge to be assigned by the Chief Administrative Law Judge shall control the proceeding hereafter.

(C) The dockets listed at the head of this order beginning with G–6211, are hereby consolidated with the proceedings previously consolidated in Docket No. G–2730, et al.

(D) The above-listed interveners are hereby permitted to intervene in this consolidated proceeding subject to the Commission's rules and regulations: *Provided, however,* That they shall comply with the terms of this order and that their participation shall be limited to matters affecting rights and interests expressly asserted in the petitions to intervene, and *Provided, further,* That granting of the petitions to intervene shall not be construed as recognition by the Commission that any intervener might be aggrieved by any order entered in this proceeding.

(E) The issues in this consolidated proceeding relating to the abandonment of sales by the La Gloria Field producers to Transco and the certification of additional volumes to Natural are hereby consolidated with the issues set forth in (F) below.

(F) The issues raised by the Motions of Natural and Transco for orders relating to the imposition of payback obligations for gas assertedly improperly taken by either pipeline, as more fully set forth in their Motions and described herein are hereby consolidated for hearing and decision with the issues set forth in (E) above.

(G) The motion of Natural Gas Pipeline Co. filed April 23, 1974 for a decision on the existing record is denied.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

---

[2] El Paso Natural Gas Co., —— FPC —— (Oct. 26, 1973).

[Project No. 503]

IDAHO POWER CO.

Notice of Issuance of Annual License

JUNE 6, 1974.

On June 26, 1969, Idaho Power Co., Licensee for Swan Falls Project No. 503, located in Ada and Owyhee Counties, Idaho, on the Snake River, filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6). Licensee also made supplemental filing pursuant to Commission Order No. 384 on February 19, 1970.

The license for Project No. 503 was issued effective January 1, 1928, for a period ending June 30, 1970. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of licensee's application and Commission action thereon, it is appropriate and in the public interest to issue an annual license to Idaho Power Co. for continued operation and maintenance of Project No. 503.

Take notice that an annual license is issued to Idaho Power Co. (Licensee) under section 15 of the Federal Power Act for the period July 1, 1974, to June 30, 1975, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Swan Falls Project No. 503, subject to the terms and conditions of its license.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13403 Filed 6-11-74;8:45 am]

[Docket No. E-8450]

IDAHO POWER CO.

Notice of Application

JUNE 5, 1974.

Take notice that on April 25, 1974, Idaho Power Co. (Applicant) filed a supplemental application with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, seeking authority to increase to $130,000,000 the amount of short-term unsecured promissory notes, including commercial paper, which it may have outstanding at any one time.

The Commission authorized the issuance of short-term unsecured promissory notes by the Applicant in its order issued December 28, 1973, in the above docket. The Commission authorized Applicant to issue short-term unsecured promissory notes in amounts of up to a maximum of $100,000,000 with maturities of not later than December 31, 1974.

Applicant is incorporated under the laws of the State of Maine with its principal business office at Boise, Idaho and is engaged in the electric utility business in the States of Idaho, Oregon, Nevada and Wyoming.

Applicant requests that its short-term borrowing authorization of up to $130,000,000 be composed of the following:

(a) Bank loans evidenced by the issuance of unsecured notes to Revolving Credit Agreement in the principal amount of not to exceed $90,000,000 outstanding at any one time;

(b) The issuance of unsecured notes pursuant to a line of credit, in the amount of $18,000,000; and

(c) The issuance of unsecured promissory notes in the form of commercial paper in the aggregate principal amount of not to exceed $22,000,000 outstanding at any one time.

The proceeds from the issuance of short-term unsecured promissory notes will be used to provide funds for current corporate transactions, including the interim financing of the Applicant's construction programs.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8815]

IOWA PUBLIC SERVICE CO.

Notice of Changes in Rates and Charges

JUNE 6, 1974.

Take notice that Iowa Public Service Co., on May 29, 1974, tendered for filing proposed changes in its FPC Electric Service Tariff, Volume No. 1. The proposed changes to be effective July 1, 1974, would increase revenues in jurisdictional sales and service by $293,116 based on the twelve month period, ending December 31, 1973.

Applicant states that the reasons for this increase in electric revenues are the increased pressure of inflation on labor costs, taxes, interest rates and the cost of capital.

Copies of the filing were served upon the public utility jurisdictional customers and the Iowa State Commerce Commission.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 14, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13407 Filed 6-11-74;8:45 am]

[Docket No. RP72-149]

MISSISSIPPI RIVER TRANSMISSION CORP.

Notice of Proposed Change in Rates

JUNE 5, 1974.

Take notice that Mississippi River Transmission Corp. ("Mississippi") on May 23, 1974 tendered for filing Nineteenth Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1 to become effective July 1, 1974.

The instant filing was made pursuant to the purchased gas cost adjustment provisions of Mississippi's tariff in order to reflect rate changes applicable to Mississippi by United Gas Pipe Line Co. ("United") and Natural Gas Pipeline Company of America ("Natural") pursuant to the provisions of their tariffs.

Mississippi states that copies of its filing were served on Mississippi's jurisdictional customers and the State Commissions of Arkansas, Illinois and Missouri.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 21, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene unless such petition has previously been filed. Copies of the filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74-1]

NORTHWESTERN PUBLIC SERVICE CO. AND KANSAS-NEBRASKA NATURAL GAS CO., INC.

Order Denying Application for Rehearing

JUNE 4, 1974.

The Northwestern Public Service Co., pursuant to § 1.34 of the Commission's rules of practice and procedure and section 19 of the Natural Gas Act has filed an application for rehearing of the Commission's "Order Affirming Initial Decision, Denying Relief sought by Northwestern Public Service Co." of April 8, 1974. The order affirms a December 14, Initial Decision of Administrative Law Judge Michel Levant, which denies a petition by Northwestern to the Commission that the Commission order Kansas-Nebraska Natural Gas Company, Inc., to provide Northwestern with an additional 2000 Mcf per day of contract demand and concluding that Kansas-Nebraska's denial of Northwestern's request does not violate its tariff nor is unjust, unreasonable, unduly discriminatory or preferential.

The Commission orders:

V 39 114 JUN 12 74 XUM

The application for rehearing on the Commission's order of April 8, 1974, affirming the Administrative Law Judge's initial decision is denied.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13394 Filed 6-11-74;8:45 am]

[Project No. 308]

PACIFIC POWER & LIGHT CO.

Notice of Issuance of Annual License

JUNE 6, 1974.

On June 22, 1971, Pacific Power & Light Co., Licensee for Wallowa Falls Project No. 308, located in Wallowa Whitman National Forest, Wallowa county, State of Oregon, filed an application for a new license under section 15 of the Federal Power Act and Commission Regulations thereunder (§§ 16.1–16.6).

The license for Project No. 308 was issued effective June 27, 1924, for a period ending June 26, 1974. In order to authorize the continued operation of the project pursuant to section 15 of the Act, Pending completion of Licensee's application and Commission action thereon, it is appropriate and in the public interest to issue an annual license to Pacific Power & Light Co. for continued operation and maintenance of Project No. 308.

Take notice that an annual license is issued to Pacific Power & Light Co. (Licensee) for the period June 27, 1974, to June 26, 1975, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of Project No. 308, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13396 Filed 6-11-74;8:45 am]

[Docket Nos. RP71-119; RP74-31-20]

PANHANDLE EASTERN PIPE LINE CO. AND ANCHOR HOCKING CORPORATION

Proposed Stipulation and Agreement in Settlement of Proceeding

JUNE 5, 1974.

Take notice that on March 4, 1974, Anchor Hocking Corp. (Anchor Hocking) filed a petition for extraordinary relief and a motion for immediate temporary relief to avoid irreparable injury in the above-styled proceeding. By order issued on April 2, 1974, the Commission partially granted Anchor Hocking's request for temporary relief by requiring that Panhandle Eastern Pipe Line Co. (Panhandle) provide that company with 790 Mcf a day in order for it to maintain the operation of its Winchester, Indiana plant. In the aforementioned order the Commission further set the aforementioned matter down for formal hearing in order to determine the merits underlying the request made in Anchor Hocking's petition for extraordinary relief.

A formal hearing with respect to this matter commenced and was terminated on May 30, 1974. During the course of this hearing, the participating parties tendered the following Stipulation and Agreement to the Presiding Administrative Law Judge for certification to the Commission in the hope that this proceeding could be resolved in this manner:

> The parties stipulate that extraordinary relief from curtailment of gas deliveries will be granted to Anchor Hocking allowing it to take 790 Mcf on an average day basis during each month. Panhandle will not curtail volumes covered by this grant of extraordinary relief to the extent they are classified as Priority No. 3 until all other Priority 3 volumes not similarly subject to extraordinary relief are curtailed.
>
> Anchor Hocking's maximum take on any given day will be determined as provided by § 16.4(c) of Panhandle's tariff. Anchor Hocking will pay back as operating conditions permit those Priority 3 volumes taken pursuant to this grant of extraordinary relief to the extent they exceed the volumes allocated to Anchor Hocking under Panhandle's effective curtailment plan.
>
> The volumes taken pursuant to this grant of extraordinary relief will be for Anchor Hocking's use only. This stipulation will continue in effect until a new curtailment plan goes into effect. This stipulation shall not constitute a waiver of any party's rights in Docket No. RP71-119 to contest categorization of any volumes.
>
> This stipulation is made to settle all issues raised in Anchor Hocking's petition for extraordinary relief in Docket No. RP74-31-20 and is without prejudice to Anchor Hocking's right to apply for extraordinary relief in any new curtailment plan put into effect on Panhandle's system.
>
> That completes the stipulation, Your Honor.

The participating parties indicated that there were no present objections to the Stipulation and Agreement. They did, however, request to be afforded the opportunity to indicate the existence of objections in the event that such a course of action subsequently became necessary. It was decided that this could be accomplished by providing all parties with an opportunity to make comment as provided for in a Notice relating to the proposed Stipulation and Agreement to be issued at a subsequent date (Tr. 139). The Presiding Judge indicated his intent to certify this Stipulation and Agreement and the record developed with respect to this proceeding to the Commission at an early date (Tr. 139).

Any party desiring to be heard with respect to this stipulation and agreement should on or before June 20, 1974, file with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, comments indicating its support or opposition to this proposal.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13405 Filed 6-11-74;8:45 am]

[Docket No. G-3332]

PHILLIPS PETROLEUM CO.

Notice of Application for Termination of Certificate

JUNE 6, 1974.

Take notice that on May 16, 1974, Phillips Petroleum Co. (Phillips), 583 Frank Phillips Building, Bartlesville, Oklahoma 74004, filed in Docket No. G-3332 an application for termination of the certificate of public convenience and necessity issued in said docket pursuant to section 7(c) of the Natural Gas Act, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

By order issued September 28, 1956, Phillips was granted a certificate of public convenience and necessity in Docket No. G-3332 authorizing the sale of gas-well gas from the Rodessa Field, Cass County, Texas, under its FPC Gas Rate Schedule No. 140 to Breckenridge Gasoline Co. (Breckenridge). Phillips states that the contract dated June 30, 1952, covering said sale of gas expired on September 4, 1972, and that the replacement contract calls for Phillips to continue casinghead gas delivery to Breckenridge for a percentage of the proceeds received by Breckenridge. Phillips anticipates such basis of payment will be permanent. Phillips requests, therefore, that the certificate in Docket No. G-3332 be terminated because the Commission does not permit the producer's filing of percentage-type contracts and certificate applications based thereon (18 CFR 154.91(e)).

Any person desiring to be heard or to make any protest with reference to said application should on or before June 25, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13398 Filed 6-11-74;8:45 am]

[Project No. 2685]

POWER AUTHORITY OF THE STATE OF NEW YORK

Notice of Complaint

JUNE 5, 1974.

Public notice is hereby given that a complaint was filed November 5, 1973 under the Federal Power Act (16 U.S.C. 791a–825r) by the Towns of Fulton and Blenheim, New York, Complainants (Correspondence to Kafin and Needleman, Robert J. Kafin, 115 Maple Street, Glens Falls, New York 12801) against Power Authority of the State of New York, Licensee, concerning operation of the Blenheim-Gilboa Pumped Storage Project No. 2685, which is located in Schoharie County on Schoharie Creek in the Towns of Blenheim and Gilboa, New York.

Complainants allege that the Licensee is operating the project in such a manner with regard to flow releases that it is violating its license with respect to flows in Schoharie Creek downstream from the project.

Any person desiring to be heard or to make protest with reference to said complaint should on or before July 22, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The complaint is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13397 Filed 6-11-74;8:45 am]

[Docket No. RI74-241]

SHELL OIL CO.

Notice of Petition for Special Relief

JUNE 6, 1974.

Take notice that on May 28, 1974, Shell Oil Co., (Petitioner), One Shell Plaza, P.O. Box 2463, Houston, Texas 77001, filed a petition for special relief in Docket No. RI74-241, seeking a rate above the applicable area ceiling under Opinion No. 662, (Permian Basin Area II). Petitioner seeks a price of 46 cents per Mcf for the sale of gas to El Paso Natural Gas Co. under its FPC Gas Rate Schedule No. 334 from new wells to be drilled by it in Crockett, Terrell, and Val Verde Counties, Texas (JM Area). Petitioner states that without the price requested further exploration and development in this area cannot be economically justified and recoverable reserves underlying the acreage here involved will be lost to the interstate market.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 25, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13411 Filed 6-11-74;8:45 am]

[Project No. 372]

SOUTHERN CALIFORNIA EDISON CO.

Notice of Issuance of Annual License

JUNE 6, 1974.

On June 16, 1969, Southern California Edison Co., Licensee for Lower Tule River Project No. 372, located on the Tule River in Tulare County, California, filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on February 9, 1970.

The license for Project No. 372 was issued effective December 31, 1941, for a period ending June 15, 1970. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending Commission action thereon, it is appropriate and in the public interest to issue an annual license to Southern California Edison Co. for continued operation and maintenance of Project No. 372.

Take notice that an annual license is issued to Southern California Edison Co. (Licensee) under section 15 of the Federal Power Act for the period June 16, 1974, to June 15, 1975, or until Federal takeover or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Lower Tule River Project No. 372, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13400 Filed 6-11-74;8:45 am]

[Docket No. E-8570]

SOUTHERN CALIFORNIA EDISON CO.

Order Denying Rehearing

JUNE 5, 1974.

By order of March 1, 1974, the Commission, inter alia, suspended certain changes in jurisdictional rates proposed by Southern California Edison Co. (Edison), set the matter for hearing and permitted various petitions to intervene, including the Anza Electric Cooperative, Inc. (Anza). On March 29, 1974, Edison filed a Petition for Rehearing or Clarification of the March 1 order wherein Edison sought to have the Commission modify the order so as to proscribe any consideration of the issue of "price-squeeze", involving a comparison between retail and resale rate levels, or other anti-trust issue or issues based on allegations of anti-competitive practices. The request for clarification was based upon Commission action in "Southern California Edison Co.," Docket No. E-8176, order issued September 21, 1973, and "Indiana and Michigan Electric Co.," Docket No. E-7740, order issued May 31, 1973. On April 15, 1974, Anza filed a Reply to the Edison Petition. This pleading will be further discussed below.

By order of April 25, 1974, the Commission, inter alia, clarified its March 1 order as requested by Edison, so as to avoid the implication that by granting interventions, including that of Anza, the Commission was broadening the issues in this proceeding to include questions of "price squeeze" or anticompetitive behavior.

On May 9, 1974, Anza filed a Petition for Rehearing of the April 25 order insofar as that order purports to clarify the March 1 order so as to limit the participation of Anza in the proceeding to matters other than the alleged "price squeeze" and anticompetitive behavior on the part of Edison. The Petition correctly indicates that, as to the question of alleged "price squeeze" and of alleged anticompetitive behavior by Edison "not related to contracts or agreements to which it is a party which are or should be on file with the Commission," Anza's views have been rejected by the Commission in Docket No. E-8176 and are currently pending petitions for review in the Courts.[1] Further discussion of these questions is therefore unnecessary and Anza's Petition will be denied insofar as it is based upon views previously rejected in Docket No. E-8176.

Anza's petition, however, states that, in addition to the above, the Commission's order of April 25 is in error to the extent that it rejects Anza's "separate argument", set forth in Anza's Reply to Edison's Petition for Clarification, which Anza filed on April 15. The "separate argument" in Anza's Reply concerns the Commission's order of March 14, 1974, in "Pacific Gas and Electric Co.", Docket No. E-7777. In the Reply, Anza expresses its view that the Commission made clear in the Pacific Gas order "that it did have jurisdiction to consider, in rate proceedings under sections 205 and 206 of the Act, the possible modification of contracts between a utility and other utilities or parties which as part of an anticompetitive policy on the part of the utility adversely affect service to a wholesale customer of a utility." Anza points out that a number of the contracts specifically referred to by the Commission in the Pacific Gas order involve contracts between Pacific Gas and Electric Co. (PG&E) and Edison "which may improperly restrict service to the customers of both utilities, including Anza." Anza gives its view that if it is appropriate for PG&E's customers to examine into the propriety of such restriction agree-

---

[1] Cities of Anaheim, California, et al., v. Federal Power Commission, Case No. 72-2173; Anza Electric Cooperative, Inc. v. Federal Power Commission, Case No. 73-2255.

V 39 114 JUN 12 74 XUM

ments in the Pacific Gas proceeding, it is equally appropriate for Edison's customers to do so in this proceeding. Anza also contends that the Commission has jurisdiction to look into another contract between Edison and the Imperial Irrigation District, referred to in its pleadings in Docket No. E–8176, to determine if the contract inhibits Anza from securing service from Imperial. Finally, Anza contends that it is appropriate to consider in the present rate case whether certain agreements entered into by Edison with the Cities of Anaheim, Riverside, and Banning in Docket No. E–7618 should be modified to require Edison to file a rate schedule for transportation service with Anza as well as to include a displacement service.

We do not believe that the "separate argument" contained in Anza's Reply, and reasserted in its Petition, provides an adequate basis to either set aside our order of April 25 so as to permit Anza to participate as an intervenor in this proceeding without limitation or to authorize Anza to raise herein the matters discussed in its Reply. Our conclusion is based upon the following:

(1) The Commission cannot institute an investigation into the contract between Edison and the Imperial Irrigation District because this contract is apparently applicable to service over which this Commission has no jurisdiction.[1] As we stated in Pacific Gas:

> "If * * * after hearing and decision PG&E is found by virtue of contract provisions subject to FPC jurisdiction, to have (engaged in unlawful anticompetitive practices), this Commission will not hesitate to order contract reform * * *"[2] (emphasis added).

(2) While the Commission will reform contracts containing anticompetitive provisions when such provisions are subject to Commission jurisdiction (Cf. Carolina Power and Light Company, Docket No. E–7918, order issued March 12, 1973), the Commission cannot "reform" such contracts or any other agreements among parties in such a manner as to order a utility to wheel power (or provide a displacement service) for a customer. The Commission believes that this question was resolved in Otter Tail Power Co. v. U.S., 410 U.S. 366 (1973). The fact that such services may be offered to another customer does not give the Commission an authority which the courts have clearly indicated the Commission does not possess.

(3) We have instituted an investigation, pursuant to Section 206 of the Federal Power Act, into contracts in Pacific Gas, some of which Anza states may improperly restrict service to the customers of PG&E and Edison, including Anza. Such relief as might be granted through the reformation of these contracts is (as was the case in the Pacific Gas proceeding) unrelated to the determination of just and reasonable rates to be made in this proceeding. Since an investigation into these contracts has already been instituted, it would appear that any contractual remedies which Anza may wish to pursue may be fully considered through intervention in that proceeding.

For the foregoing reasons, we shall deny in its entirety Anza's Petition for Rehearing.

The Commission finds:

Anza's Petition for Rehearing, filed on May 9, 1974, raised no facts or points of law which would provide an appropriate basis for modifying the Commission's order of April 25, 1974, and such Petition should be denied.

The Commission orders:

(A) Anza's Petition for Rehearing, filed May 9, 1974, is denied.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13390 Filed 6-11-74;8:45 am]

---

[1] Anza's Amended Petition for Intervention filed in Docket E–8176 on August 10, 1973 indicates that the contract is on file with the Public Service Commission for the State of California, has never been filed with the Federal Power Commission, and is not a part of Edison's Rate Schedules No. 7 and No. 12 (the only rate schedules on file with this Commission involving the Imperial Irrigation District). Since we do not have this contract before us, we must assume that the contract relates only to service over which this Commission has no jurisdiction (i.e., it is directly applicable to nonjurisdictional service).

[2] Pacific Gas and Electric Co., supra, at page 6.

[Project No. 1398]

SOUTHERN CALIFORNIA EDISON CO.

Notice of Application for Approval of Revised Exhibit K

JUNE 5, 1974.

Public notice is hereby given that application for approval of revised exhibits was filed January 25, 1974, under the Federal Power Act (16 U.S.C. 791a–825r) by Southern California Edison Co. (Correspondence to: Mr. P. B. Peecook, Manager, Right of Way and Land Dept., Southern California Edison Co., P.O. Box 800, 2244 Walnut Grove Avenue, Rosemead California 91770), Licensee for Transmission Line Project No. 1398, located in Mono and Inyo Counties, California. The project affects lands of the United States under the jurisdiction of the Forest Service, Department of Agriculture and the Bureau of Land Management, Department of Interior.

Southern California Edison Co., Applicant, states that the realignment of U.S. Highway 395 necessitates relocating sections of their 115 kV transmission and telephone lines designated as Transmission Line Licensed Project No. 1398. The subject transmission and telephone lines extend from the Rush Creek powerhouse (Rush Creek Project No. 1389) to a substation near, Bishop and cross lands of the United States. The proposed action would affect public lands under the jurisdiction of the Department of Agriculture, Forest Service, Inyo National Forest within the S.½ of section 7 and the N.½ of section 18, T. 5 S., R. 31 E. M.D.M. and the Department of the Interior, Bureau of Land Management within section 4 T. 6 S., R. 31 E., M.D.M. The total length of the lines is approximately 54 miles.

Any person desiring to be heard or to make protest with reference to said application should on or before August 19, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13385 Filed 6-11-74;8:45 am]

[Docket No. RP74-93]

SOUTHERN NATURAL GAS CO.

Notice of Petition for Declaratory Order

JUNE 6, 1974.

Take notice that on May 15, 1974, Southern Natural Gas Co. (Southern), tendered for filing a Petition for Declaratory Order (Petition). In the Petition, Southern requests the Commission to issue an order declaring that the cost of acquiring certain coal reserves to be dedicated to a coal gasification plant is an appropriate item for inclusion in Southern's rate base and cost of service in Account No. 105 as Gas Plant Held for Future Use.

In its filing, Southern states that on May 1, 1974, Southern entered into an option agreement with Consolidated Coal Co. (Consol) whereby Southern was granted an exclusive option to purchase approximately one-half of Consol's "Hillsboro" coal reserves. Southern further states that the Option Agreement provides that within a two year period ending April 30, 1976. Southern may exercise its right to purchase said coal at a price of 10¢ a ton of recoverable coal. Finally, Southern states that the option period was designed to permit Southern an opportunity to seek and obtain from the Commission an order stating that the investment in said coal reserves is appropriate for inclusion in Southern's rate base.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 20, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file

a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 74-13409 Filed 6-11-74;8:45 am]

[Docket No. CP74-301]

SOUTHWEST GAS CORP.

Notice of Application

JUNE 5, 1974.

Take notice that on May 22, 1974, Southwest Gas Corp. (Applicant), P.O. Box 1450, Las Vegas, Nevada 89101, filed in Docket No. CP74–301 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of enlarged measuring facilities at the Tracy Power Plant delivery point (Tracy) on Applicant's Northern Nevada Transmission System near Reno, Nevada, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate a 10-inch orifice tube in parallel with two existing 10-inch tubes, a differential controller, and associated metering facilities at the Tracy delivery point on Applicant's Reno lateral. The application states that the expanded measuring facilities will permit delivery of up to 390,000 therms per day to the Tracy Power Plant of Sierra Pacific Power Co. (Sierra) for the generation of electricity.

Applicant states that by this application it does not propose to increase its power plant sales to Sierra and notes that such sales are the first sales curtailed on Applicant's system and that annual and peak day power plant sales have recently declined. Applicant states further that as curtailments from Northwest Pipeline Corp., the sole supplier of Applicant's Northern Nevada Transmission System, increase and as Applicant's high priority loads increase, deliveries to Sierra will probably continue to decline. Applicant also notes, however, that Sierra's electrical generation requirements are increasing and to meet these requirements Sierra is presently installing a third generating unit at its Tracy plant.

Applicant states that it presently delivers gas to Sierra for electrical generation at two delivery points, Tracy and Fort Churchill. Applicant states further that since Sierra has alternative fuel facilities at both plants its proposed measuring facilities will enable Applicant to reduce deliveries at Fort Churchill as necessary to meet operating requirements at Tracy. Applicant asserts that such a proposal will allow it to meet Sierra's needs as related to the additional generating unit while keeping within existing contract entitlements and thereby permit Sierra to meet its increased electrical generation requirements by the increased use of alternative fuels in conjunction with existing levels of natural gas service.

The application states that the cost of constructing the proposed facilities will be borne entirely by Sierra and is anticipated to be approximately $13,100.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 25, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-13391 Filed 6-11-74;8:45 am]

[Docket No. RI74-242]

SUN OIL CO.

Notice of Petition for Special Relief

JUNE 6, 1974.

Take notice that on May 28, 1974, Sun Oil Co. (Petitioner), Southland Center, Post Office Box 2880, Dallas, Texas 75221, filed a petition for special relief in Docket No. RI74–242, seeking a rate above the applicable area ceiling under Opinion No. 586. Petitioner seeks a price of 30 cents per Mcf for the sale of gas to Northern Natural Gas Co. under its FPC Gas Rate Schedule No. 461 from the Griffith "A" Well No. 1 located in section 22–6N–12E, Texas County, Oklahoma. The petition is based on the installation of water pumping equipment on the subject well. Petitioner states that the current contract rate of 14.15 cents per Mcf would not recover the cost of installing the necessary pumping equipment, Sun and Northern Natural entered into an amendment to the Gas Purchase Contract, dated April 24, 1974, to provide for 30 cents per Mcf for gas produced from the Griffith "A" Well No. 1 commencing the first of the month following the month in which pumping equipment is installed and operating on said well.

Any person desiring to be heard or to make any protest with reference to said petition should on or before June 25, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding, or to participate as a party in any hearing therein, must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74-41]

TEXAS EASTERN TRANSMISSION CORP.

Notice of Proposed Changes in FPC Gas Tariff

JUNE 5, 1974.

Take notice that Texas Eastern Transmission Corp. on May 24, 1974, tendered for filing proposed changes in its FPC Gas Tariff, Fourth Revised Volume No. 1, the following sheets:

First Revised Sheet No. 14
First Revised Sheet No. 14A
First Revised Sheet No. 14B
First Revised Sheet No. 14C
First Revised Sheet No. 14D

Texas Eastern states that these sheets are being issued pursuant to Texas Eastern's Purchased Gas Cost Adjustment Provision contained in section 23 of the general terms and conditions of its FPC Gas Tariff, Fourth Revised Volume No. 1, and that the change in Texas Eastern's rates proposed by this filing reflects a cost of gas adjustment and an adjustment to clear the balance of the Gas Cost Adjustment Account.

The proposed effective date of the above tariff sheets is July 1, 1974.

Copies of the filing were served upon the company's jurisdictional customers and interested State commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before June 21, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing

V 39—114 JUN 12 74 XUM

are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP74-297]

TEXAS GAS TRANSMISSION CORP.

Notice of Application

JUNE 5, 1974.

Take notice that on May 17, 1974, Texas Gas Transmission Corp. (Applicant), P.O. Box 1160, Owensboro, Kentucky 42301, filed in Docket No. CP74-297 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon approximately 10.22 miles of its Scottsville 3-inch pipeline, together with certain measuring and regulating equipment associated therewith which were constructed in 1931, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon in place a 10.22-mile portion of its Scottsville 3-inch pipeline located in Warren and Allen Counties, Kentucky, and to salvage, at a value of $258, associated measuring and regulating equipment. The application states that the facilities to be abandoned have deteriorated to the point where they cannot be operated and meet the requirements of the Natural Gas Pipeline Safety Act of 1968 (49 U.S.C. 1671, et seq.) and the regulations promulgated thereunder.

Applicant states that the subject facilities are currently used to supply 16 farm tap or rural customers of Western Kentucky Gas Co. (Western Kentucky) in Applicant's Zone 3. Applicant further states that Western Kentucky and all the farm tap customers have agreed to the proposed abandonment and that the latter have made arrangements for alternate fuels. Applicant states that there will be no change in the contract demand or the quantity entitlements of Western Kentucky in Zone 3.

Any person desiring to be heard or to make any protest with reference to said application should on or before June 25, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Project No. 472]

UTAH POWER AND LIGHT CO.

Notice of Issuance of Annual License

JUNE 5, 1974.

On June 5, 1969, Utah Power and Light Co., Licensee for Oneida Project No. 472, located in Franklin County, Idaho, on the Bear River, filed an application for a new license under Section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6). Licensee also made supplemental filings pursuant to Commission Order No. 384 on February 27, 1970, and October 7, 1970.

The license for Project No. 472 was issued effective June 1, 1927, for a period ending June 30, 1970. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation of the project pursuant to Section 15 of the Act pending completion of Licensee's application and Commission action thereon, it is appropriate and in the public interest to issue an annual license to Utah Power and Light Co. for continued operation and maintenance of Project No. 472.

Take notice that an annual license is issued to Utah Power and Light Co. (Licensee) under section 15 of the Federal Power Act for the period July 1, 1974, to June 30, 1975, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Oneida Project No. 472, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

[Project No. 597]

UTAH POWER AND LIGHT CO.

Notice of Issuance of Annual License

JUNE 5, 1974.

On June 26, 1969, Utah Power and Light Co., Licensee for Stairs Project No. 597, located in Salt Lake County, Utah, on the Big Cottonwood Creek, filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on December 15, 1969.

The License for Project No. 597 was issued effective June 1, 1927 for a period ending June 30, 1970. Since the original date of expiration, the project has been under annual license. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of licensee's application and Commission action thereon, it is appropriate and in the public interest to issue an annual license to Utah Power and Light Co. for continued operation and maintenance of Project No. 597.

Take notice that an annual license is issued to Utah Power and Light Co. (Licensee) under section 15 of the Federal Power Act for the period July 1, 1974, to June 30, 1975, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Stairs Project No. 597, subject to the terms and conditions of its license.

KENNETH F. PLUMB,
Secretary.

[Project No. 1979]

WISCONSIN PUBLIC SERVICE CORP.

Notice of Issuance of Annual License

JUNE 5, 1974.

On Marth 29, 1971, Wisconsin Public Service Corp., Licensee for Alexander

Project No. 1979, located in Lincoln County, Wisconsin, on the Wisconsin River, filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6).

The License for Project No. 1979 was issued January 4, 1949 for a period ending June 30, 1974. In order to authorize the continued operation of the project, pursuant to section 15 of the Act pending completion of Licensee's application and Commission action thereon, it is appropriate and in the public interest to issue an annual license to Wisconsin Public Service Corporation for the continued operation and maintenance of Alexander Project No. 1979.

Take notice that an annual license is issued to Wisconsin Public Service Corp. (Licensee) for the period July 1, 1974, to June 30, 1975, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of Project No. 1979, subject to the terms and conditions of its present license.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

FIRST ALABAMA BANCSHARES, INC.

Order Approving Acquisition of Bank

First Alabama Bancshares, Inc., Birmingham, Alabama, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of the successor by merger to the First City National Bank of Gadsden, Gadsden, Alabama ("Bank"). The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the second largest banking organization in Alabama, controls 10 banks with aggregate deposits of approximately $859 million, representing about 12 percent of the total deposits in commercial banks in the State.[1] Acquisition of Bank would increase Applicant's share of State deposits only slightly and would not alter Applicant's ranking among other State banking organizations. The four largest bank holding companies now control 14 of Alabama's largest 20 banks and, in the past three years, have increased their share of state deposits from 30 percent to 50 percent. Thus, any further increase in concentration is viewed with some degree of concern by the Board. However, in considering the circumstances of this case, including the competitive environment in the relevant market, the Board concludes that the increase in Statewide concentration resulting from this proposal would not have such adverse competitive effects as to require denial of the application.

Bank is the second largest of nine commercial banks in the relevant banking market,[2] and holds deposits of approximately $33 million, representing slightly more than 18 percent of total market deposits in commercial banks. The largest and third largest banks in the market hold deposits of about 23 percent and 15 percent, respectively. Applicant's banking subsidiary closest to Bank is located 40 miles away in Gunterville. No meaningful competition presently exists between any of Applicant's banking subsidiaries and Bank; nor does it appear likely that any significant future competition would develop between Applicant's banking subsidiaries and Bank because of the distances involved and Alabama's restrictive branching laws. Although the market's population and deposits per banking office are above the State average, it appears unlikely that Applicant would enter the market de novo in view of the fact that from 1960 to 1970 the population of the market declined. Moreover, after acquisition of Bank, seven independent banks, including the largest bank in the market, would remain available for acquisition by other banking organizations seeking to enter the market. Therefore, the Board concludes that consummation of the proposal would not have a significantly adverse effect on existing or potential competition in any relevant area, and that competitive considerations are consistent with approval of the application.

The financial and managerial resources of Applicant and its subsidiaries are generally satisfactory and the future prospects for each appear favorable. In view of Applicant's commitment to inject $500,000 of equity capital into Bank within six months of its acquisition, Bank's financial and managerial resources are also regarded as satisfactory and its future prospects appear favorable. Thus, the banking factors are consistent with approval of the application. Although there is no evidence in the record to indicate that the major banking needs of the area are not currently being met, Applicant proposes to provide Bank with the services of its real estate financing subsidiary, increase the volume of agricultural lending and introduce lease financing. These considerations relating to the convenience and needs of the communities to be served lend weight toward approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[3] effective June 4, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[FR Doc.74-13435 Filed 6-11-74;8:45 am]

RUSH COUNTY INSURANCE AGENCY, INC.

Order Approving Formation of Bank Holding Company and Engaging in Insurance Agency Activities

Rush County Insurance Agency, Inc., La Crosse, Kansas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 80 percent or more of the voting shares of The Home State Bank, La Crosse, Kansas ("Bank"). The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

At the same time, Applicant has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and section 225.4(b)(2) of the Board's Regulation Y, for permission to acquire the insurance agency business conducted by Full Service Insurance Incorporated, La Crosse, Kansas ("Full Service"). Applicant will engage in the general insurance agency business, selling fire, casualty, automobile, and credit life insurance in a community of less than 5,000 people. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(9)).

Notice of the applications, affording an opportunity for interested persons to submit comments and views, has been given in accordance with sections 3 and 4 of the Act (39 FR 12388). The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in sections 3(c) and 4(c)(8) of the Act.

---

[1] All banking data are as of June 30, 1973, and reflect bank holding company formations and acquisitions approved through March 31, 1974.

[2] The relevant banking market is approximated by Etowah County.

[3] Voting for this action: Chairman Burns and Governors Mitchell, Brimmer, Sheehan, Bucher, Holland and Wallich.

V39—114 JUN 12 74 XUM

Applicant is a recently organized corporation formed for the purpose of becoming a holding company through the purchase of Bank's stock and of acquiring the insurance agency business of Full Service. Bank, with deposits of $4.4 million,[1] controls about 14 percent of total deposits in commercial banks in the relevant banking market[2] and is the third largest of nine commercial banks operating therein. Since the proposal represents a restructuring of Bank's ownership, and Applicant has no banking subsidiaries, the acquisition of Bank by Applicant would have no adverse effects on existing or potential competition. Therefore, the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant are satisfactory and consistent with approval of the applications. Applicant plans to improve Bank's capital position by retaining a large portion of Bank's earnings for the next several years. The proposed improvement in Bank's capital condition supports approval of the application. There is no evidence that the banking or insurance needs of the community are not being adequately met at present. However, the proposed reorganization and planned improvement of Bank's capital position should enhance Bank's financial condition and improve its ability to serve the community. Considerations relating to the convenience and needs of the community to be served are consistent with approval of the application. It is the Board's judgment that consummation of the transaction would be in the public interest and that the application to acquire Bank should be approved.

Applicant proposes to acquire the general insurance agency business of Full Service and operate it as a division of Applicant. Since Applicant is not presently engaged in the business of selling insurance, it does not appear that such acquisition will have any significant impact on existing or future competition. There is no evidence in the record indicating that consummation of the proposed acquisition would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects on the public interest.

Based on the foregoing and other considerations reflected in the record, the Board has determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of the public interest factors the Board must consider under section 4(c) (8) both favor approval of Applicant's proposals.

Accordingly, the applications are hereby approved for the reasons summarized above. The determination as to Applicant's insurance activities is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require reports by, and make examinations of, holding companies or any of their subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder or to prevent evasion thereof.

The acquisition of Bank shall not be made before the thirtieth calendar day following the effective date of this Order; and neither the acquisition of Bank nor the acquisition of the insurance agency business of Full Service Insurance Incorporated shall be made later than three months after the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City pursuant to delegated authority.

By order of the Board of Governors,[3] effective June 3, 1974.

[SEAL] CHESTER B. FELDBERG,
Secretary of the Board.

[1] Banking data are as of June 30, 1973.

[2] The relevant banking market is approximated by Rush County and the western section of Barton County.

[3] Voting for this action: Chairman Burns and Governors Mitchell, Brimmer, Sheehan, Bucher, Holland, and Wallich.

GENERAL SERVICES ADMINISTRATION

[FPMR, Temp. Reg. D-48]

SECRETARY OF HEALTH, EDUCATION, AND WELFARE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Health, Education, and Welfare to assist in controlling violations of law at the Saint Elizabeths Hospital, a Department of Health, Education, and Welfare facility, located in Washington, D.C.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation*—a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended, and by the Act of June 1, 1948 (62 Stat. 281), as amended, authority is hereby delegated to the Secretary of Health, Education, and Welfare, to appoint uniformed guards of the Department of Health, Education, and Welfare as special policemen for the protection of the buildings and other areas of the Saint Elizabeths Hospital in the District of Columbia and under the charge and control of the Department of Health, Education, and Welfare and over which the Federal Government has acquired exclusive or concurrent jurisdiction under 24 U.S.C. 161 and authority to make all needful rules and regulations for the government of the said Federal property under his charge and control and to annex to such rules and regulation such reasonable penalties, within the limits prescribed in 40 USC 318c, as will insure their enforcement.

b. The Secretary of Health, Education, and Welfare may redelegate this authority to any officer or employee of the Department of Health, Education, and Welfare.

c. This authority shall be exercised in accordance with the limitations and requirements of the above cited acts, and of the policies, procedures, and controls prescribed by the General Services Administration.

ARTHUR F. SAMPSON,
Administrator of General Services.

OFFICE OF MANAGEMENT AND BUDGET

COST OF HOSPITAL AND MEDICAL CARE AND TREATMENT FURNISHED BY THE UNITED STATES

Tort Liability Recovery Rates from Third Persons

By virtue of the authority vested in the President by Section 2(a) of the Act of September 25, 1962 (76 Stat. 593; 42 U.S.C. 2652), delegated to the Director of the Office of Management and Budget by Executive Order No. 11541 of July 1, 1970 (35 FR 10737), the following three sets of rates are established for use in connection with the recovery, as authorized by such Act, from tortiously liable third persons of the cost of hospital and medical care and treatment furnished by the United States (28 CFR Part 43) through three separate Federal agencies. These rates have been determined to represent the reasonable cost of hospital, nursing home, medical, surgical or dental care and treatment (including prostheses and medical appliances) furnished or to be furnished:

(a) For such care and treatment furnished by the United States in Federal hospitals and nursing homes, administered by any of the three Federal agencies—Department of Defense, Veterans Administration, or Department of Health, Education, and Welfare—with the exception of Canal Zone Government Hospitals—

Effective July 1, 1974, and thereafter

	DOD	VA	HEW
Hospital care per inpatient day:			
Federal general, surgical, and tuberculosis hospitals	$133	$88	$98
Federal mental hospitals		50	
Veterans Administration nursing home units		36	
Outpatient medical and dental treatment:			
Per facility visit	16	30	20

(b) For such care and treatment furnished at Government expense in a facility not operated by the United States, the rates shall be the amounts expended by the United States for such care and treatment.

(c) For such care and treatment at Canal Zone Government hospitals, the rates shall be those established, and in effect at the time the care and treatment is furnished, by the Canal Zone Government for such care and treatment furnished to beneficiaries of other United States Government agencies.

For the period beginning July 1, 1974, the rates prescribed herein supersede those established by the Director of the Office of Management and Budget on August 8, 1973 (38 FR 160).

Dated: May 22, 1974.

ROY L. ASH,
Director,
Office of Management and Budget.

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on June 7, 1974 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503, (202-395-4529).

[812-3638]

COLONIAL FUND, INC., ET AL.

Notice of Filing of Application for Order

In the matter of the Colonial Fund, Inc., 75 Federal Street, Boston, Massachusetts 02110; Colonial Growth Shares, Inc., 75 Federal Street, Boston, Massachusetts 02110; State Mutual Life Assurance Company of America, 440 Lincoln Street, Worcester, Massachusetts 01605; Terra Chemicals International, Inc., 507 Sixth Street, Sioux City, Iowa

V39—114 JUN 12 74 XUM

51101; and Diamond Shamrock Corporation, 1100 Superior Avenue, Cleveland, Ohio 44114.

Notice is hereby given that State Mutual Life Assurance Company of America (the "Insurance Company"), and The Colonial Fund, Inc. ("Colonial") and Colonial Growth Shares, Inc. ("Colonial Growth") (collectively the "Funds"), open-end investment companies registered under the Investment Company Act of 1940 ("Act"), Terra Chemicals International, Inc. ("Terra"), and Diamond Shamrock Corporation ("Diamond"), (hereinafter collectively referred to as "Applicants"), have filed an application pursuant to section 17(d) of the Act and rule 17d-1 thereunder for an order of the Commission permitting Applicants to participate jointly in a public offering of certain shares of common stock of Terra. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Terra is engaged in the manufacture and sale of chemicals and fertilizers. It has filed with the Commission a registration statement under the Securities Act of 1933 covering its proposed sale to underwriters of 300,000 shares of its common stock together with 1,500,000 shares to be sold by various selling shareholders. The following table shows the shareholdings in Terra and the number of shares each selling shareholder who is an Applicant proposes to sell in the public offering:

Name	Number of shares owned and percent of total		Number of shares to be sold
Diamond Shamrock Corp.	1,280,000	(25.6)	215,371
The Colonial Fund, Inc.	256,000	(5.1)	232,960
Colonial Growth Shares, Inc.	64,000	(1.3)	58,240
State Mutual Life Assurance Co. of America	160,000	(3.2)	145,600

The Insurance Company, through a wholly-owned subsidiary, owns 89.8% of the outstanding stock of the investment adviser of the Funds and is, therefore, an affiliate of both Funds under the definition of "affiliated person" in section 2(a)(3) of the Act. In addition, in view of Colonial's stock ownership in Terra, Colonial and Terra are affiliated persons; Diamond and Terra are also affiliated; thus, Diamond is an affiliated person of an affiliated person of Colonial.

Rule 17d-1, adopted under section 17(d) of the Act, provides, in pertinent part, that no affiliated person of any registered investment company or any affiliated person of such a person, acting as principal, shall participate in, or effect any transaction in connection with, any joint enterprise or other joint arrangement in which such registered company is a participant unless an application regarding such joint enterprise or arrangement has been filed with the Commission and has been granted by order, and that in passing upon such application the Commission will consider whether the participation of the registered company in the joint enterprise or arrangement on the basis proposed is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of other participants.

The public offering price of the Terra shares will be determined by negotiation among Terra, the selling stockholders and the underwriters. Terra has informed the Applicants that an over-allotment option has been granted to the underwriters. Since the Insurance Company and the Funds are selling the maximum number of shares Terra has permitted, the over-allotment option may allow them to sell additional shares. In the event the Funds and the Insurance Company are able to sell additional shares in this manner, they will be sold *pro rata*, based on the number of shares each sold initially in the offering. The Funds will bear only their *pro rata* share of the selling expenses, based upon the number of shares to be sold by them.

Applicants assert that the participation of Colonial and Colonial Growth in the proposed transaction is (1) consistent with the provisions, policies and purposes of the Act and (2) is not on a basis less advantageous than or different from that of other participants.

Notice is further given that any interested person may, not later than June 27, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter, accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request As provided by rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the matter will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

OIF FUND

Notice of Filing of Application

Notice is hereby given that OIF Fund (the "Applicant"), 3, rue Maurice, 1204 Geneva, Switzerland, registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (the "Act"), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein, which are summarized below.

Applicant's shares were offered only to individual investors who were not citizens or resident aliens of the United States and to domestic and foreign institutional investors who were not subject to United States Federal income taxation. No public offering of Applicant's securities is presently being made nor is any such offering presently proposed. There have been no sales of Applicant's shares since May 1971.

As of February 21, 1974, there were approximately 5500 shares of Applicant's common stock outstanding which stock was held by 43 persons, and Applicant's sole remaining asset was cash in the amount of approximately $21,200. There are no plans to liquidate Applicant at the present time.

Applicant has consented to inform each of its shareholders, by means of a letter mailed immediately subsequent to the issuance of this notice, of its application for an order granting deregistration of Applicant under the Act and of the legal consequences of such deregistration. A copy of the notice of the application will be enclosed with each such letter.

Section 3(c)(1) of the Act excepts from the definition of "investment company" any issuer whose outstanding securities are beneficially owned by not more than 100 persons and which is not making and does not propose to make a public offering of its securities.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given, that any interested person may, not later than July 8, 1974, at 5:30 p.m., submit to the Cmmission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by rule O–5 of the rules and regulations promulgated under the Act, an order disposing of the application will be issued as of course following July 8, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area 1067]

TENNESSEE

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of May, because of the effects of a certain disaster, damage resulted to property located in the State of Tennessee;

Whereas, the Small Business Administration has investigated and received reports of other investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended:

Now, Therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Lauderdale County, and adjacent affected areas, suffered damage or destruction resulting from flooding which occurred on May 9 and 10, 1974:

OFFICE

Small Business Administration, District Office, 500 Union Street, Nashville, Tenn. 37219.

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to August 5, 1974.

Dated: June 3, 1974.

THOMAS S. KLEPPE,
Administrator.

TARIFF COMMISSION

[332-70]

CERTAIN CHAPTERS OF DRAFT CONVERSION OF THE TARIFF SCHEDULES OF THE UNITED STATES INTO THE FORMAT OF THE BRUSSELS TARIFF NOMENCLATURE

Public Notice of Hearings

The U.S. Tariff Commission hereby gives notice that preliminary drafts of the following chapters of the Tariff Schedules of the United States (TSUS) converted to the format of the Brussels Tariff Nomenclature (BTN):

Chapter 16: Preparations of meat, of fish, of crustaceans or molluscs.
Chapter 21: Miscellaneous edible preparations.
Chapter 26: Metallic ores, slag and ash.
Chapter 65: Headgear and parts thereof.
Chapter 66: Umbrellas, sunshades, walking-sticks, whips, ridingcrops and parts thereof.
Chapter 74: Copper and articles thereof.
Chapter 75: Nickel and articles thereof.
Chapter 77: Magnesium and beryllium and articles thereof.
Chapter 78: Lead and articles thereof.
Chapter 79: Zinc and articles thereof.
Chapter 80: Tin and articles thereof.

are being released today and that public hearings thereon will begin at 10:00 a.m., e.d.t., on July 8, 1974, in Court Room Number 2, Fourth Floor, Room 461, U.S. Customs Courthouse, 1 Federal Plaza, New York, New York 10007. The purpose of this hearing is to obtain the comments and views of interested parties on the preliminary draft conversion.

Requests to appear at the hearings on these chapters must be filed in writing with the Secretary of the Commission not later than July 1, 1974. Parties who have properly entered an appearance by this date will be individually notified of the date on which they are scheduled to appear. Such notice will be sent as soon as possible after July 1, 1974. Any person who fails to receive such notification by July 3, 1974, should immediately communicate with the Office of the Secretary of the Commission.

In its public notice issued March 8, 1974, regarding hearings on other chapters of the draft converted schedules (39 FR 9719 of March 13, 1974) interested parties were notified regarding the rules governing the conduct of the hearings, and the submission of written statements. The Commission's notice of March 8, 1974, applies to the hearings on the chapters being released today to the extent that it is applicable.

As each of the chapters is completed and released, copies thereof are made available for public inspection at the Offices of the Commission in Washington, D.C., and New York, New York; at all field offices of the Department of Commerce; and at the offices of Regional and District Directors of Customs. The locations of these offices are listed in the notice of March 8, 1974.

By order of the Commission:

Issued: June 7, 1974.

[SEAL] KENNETH R. MASON,
Secretary.

INTERSTATE HIGHWAY SYSTEM

V39 114 JUN 12 74 XUM

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

PART 476—INTERSTATE HIGHWAY SYSTEM

In the March 11, 1974, edition of the FEDERAL REGISTER (39 FR 9522), the Federal Highway Administration and the Urban Mass Transportation Administration published a notice of proposed rulemaking to add a new Part 476 to 23 CFR Ch. I. The regulations in Part 476 would implement certain provisions of title 23, United States Code, which were added or amended by the Federal-Aid Highway Act of 1973 (87 Stat. 250). These provisions concern modification and revision of the Interstate System of Highways, including removal, withdrawal, substitution and addition of Interstate segments, and substitution of nonhighway public mass transit projects in lieu of Interstate segments.

The public was invited to participate in this rulemaking through submission of written comments. Over one hundred comments were received from interested groups and individuals. Commentators included the Committee on Public Works of the House of Representatives, the U.S. Environmental Protection Agency, the National League of Cities and U.S. Conference of Mayors, the National Association of Counties, the Institute for Rapid Transit, the American Transit Association, the Highway Users Federation, the National Resources Defense Council, and several private citizens, as well as a number of State highway and transportation departments, mass transit authorities, regional planning agencies, and officials of individual cities and counties across the nation.

In the preparation of the final regulations, set forth below, FHWA and UMTA have given due consideration to all comments received in response to the notice of proposed rulemaking, insofar as they relate to matters within the scope of the notice. Except for editorial changes, and except as specifically discussed hereinafter, these regulations and the reasons therefor are the same as contained in the notice. Review of the comments indicated the necessity for making a number of changes in the regulations of Part 476 as proposed. Most of these changes are clarifications rather than substantive alterations. However, in view of the interest evinced in these regulations, each section of these final regulations which has been revised or which was the subject of major commentary is discussed in detail below.

SUBPART A

Subpart A contains the definitions of essential terms used in Part 476, and also provides that terms not otherwise defined are used as defined in 23 U.S.C. 101(a). Terms used in these regulations with the special meaning contained in 23 U.S.C. 101(a) include "urbanized area", "construction", and "State highway department". One comment suggested that "or State Department of Transportation" be added after "State highway department" throughout the regulations, inasmuch as some States do not have highway departments. This change is not necessary, since "State highway department" is defined in 23 U.S.C. 101(a) as "* * * that department, commission, board, or official of any State charged by its laws with the responsibility for highway construction."

The proposed rules defined "responsible local officials" as the principal elected officials of general purpose local governments, acting through the areawide transportation planning agency designated by the Governor. The proposed definition proved quite controversial; more comments were addressed to this definition than to any other portion of the proposed regulations. The definition is an important one, since "responsible local officials" have a major role under the provisions of Subparts C and D of Part 476 dealing with withdrawal of Interstate segments and substitution of other segments or of mass transit projects. One comment pointed out that the definition as proposed would not include the Mayor of the District of Columbia. We have adopted this comment and amended the definition accordingly.

Most of the comments addressed to this proposed definition objected to or expressed confusion as to the meaning of the phrase, "acting through the areawide transportation planning agency designated by the Governor". On the other hand, a number of comments supported the concept embodied in that phrase. Many of those objecting felt that the proposed definition made the designated planning agency itself the entity which is to initiate mass transit substitution actions and to take the other actions required of responsible local officials. This was not the intent or meaning of the definition. The definition means, simply that actions or decisions of local officials must be presented to and endorsed by the designated agency before they can be the basis for subsequent actions under these regulations. For example, when considering the substitution of mass transit projects for withdrawn Interstate segments under Subpart D of these regulations, the stipulation that local officials act through the designated areawide transportation planning agency means that, while individual officials may initiate or approve transportation investment proposals, the proposals must be presented to and endorsed by the designated planning agency. Each planning agency has a process by which transportation investment proposals are assigned a priority or placed on a program of projects to be undertaken in the area. Proposals initiated or approved by local officials are to be presented to and endorsed by the planning agency in conformance with that process. Such a review and endorsement process assures that decisions having a regional impact will be made with benefit of a regional perspective. Accordingly, we have not altered this portion of the definition.

The other definitions in § 476.2 did not prove particularly controversial. Several comments did request that busways be included as a "non-highway public mass transit project" which could be substituted for a withdrawn Interstate segment. We have reconsidered this question, and again come to the conclusion that busways should not be included in this definition. A busway may well be a viable alternative to a currently planned, multi-lane Interstate facility, and certainly can be an important component of the overall public mass transportation system in the local area. Under the provisions of 23 U.S.C. 142, exclusive and preferential busways may be built on any Federal-aid highway system, including the Interstate System. A presently planned Interstate segment can be redesignated as a busway if the appropriate State and local officials determine that such a facility would best serve their needs. Inasmuch as busways can be constructed with Federal-aid highway funds, it is not necessary to include busways as nonhighway public mass transit projects, which are eligible for general funds.

Another comment on "non-highway public mass transportation project" asked if carpooling support facilities would be eligible. As with busways, while carpooling is recognized as an important mode of travel, we do not feel it can properly be termed a non-highway project. Finally, one comment asked that the eligibility of people movers and personal rapid transit facilities should be expressly stated in the definition. While we feel that these facilities are within the range of eligible projects under the definition, any attempt to list all eligible projects would no doubt result in the inadvertent omission of some projects which would be eligible.

We have, however, after due consideration determined that the law requires that mass transit support facilities and equipment are eligible for funding under the provisions of these regulations only if such support facilities are part of a program for the development of an urban mass transit system which includes either the construction of fixed rail facilities or the purchase of passenger equipment. The definition is accordingly altered as follows:

> "Nonhighway public mass transit project" means any undertaking to develop or improve public mass transit facilities or equipment. A project must be included in and related to a program for the development or improvement of an urban public mass transit system which includes either the construction of fixed rail facilities, or the purchase of passenger equipment, or both. Passenger equipment includes buses, fixed rail rolling stock, and other transportation equipment.

This definition in practice would require, for example, that a project for the purchase of bus shelters or the construction of a bus garage would be eligible for funding under these provisions only if it were included in a planned transit development program contemplating the purchase of buses, or other passenger

rolling stock or the construction of fixed rail facilities. It would not be necessary, however, that all projects included in any such program be funded under the provisions of these regulations.

The definition of "initial basic construction" has been altered and clarified in response to a comment requesting that modification projects on existing Interstate segments be included. The term is used in establishing the Interstate segments for which the States must submit the information required by Subpart B of these regulations. We have adopted the comment and altered the definition accordingly.

The definition of "Interstate segment" has not been changed, despite a comment that requested the definition include the term "portion" so that a locality could request withdrawal of lanes but not mileage from an Interstate highway and use the resulting cost savings for mass transit purposes. Interstate mileage must be given up in order to obtain substitute funding for mass transit projects, since the statute speaks of the mileage withdrawn under the substitute provision as being available for designation elsewhere. Further, we do not believe that it was Congress' intent that the simple redesign of an Interstate facility should result in the availability of substitute funds for transit. The substitute funds are available when the determination is made that transit facilities rather than Interstate highway facilities best serve local needs and requirements.

SUBPART B

Subpart B contains the regulations implementing 23 U.S.C. 103(g), which authorizes the Secretary to remove from the Interstate System designated Interstate segments for which the States fail to take certain actions by specific dates.

Several commentators, including the House Public Works Committee, expressed reservations about § 476.102, which provides that information submitted in accordance with Subpart B does not preclude subsequent actions under the Cramer-Howard and transit substitution provisions implemented by Subparts C and D. The commentators felt that § 476.102 might encourage indecision and delay with respect to plans for Interstate segments and did not express Congress' sense of urgency that the problems of controversial Interstate segments be resolved. Alternatively, it was suggested that a date certain be established by which time substitution proposals would have to be made.

We have reconsidered § 476.102, and determined not to amend the section. While we are aware of, and share, Congress' concern that plans for controversial segments be finalized as quickly as possible, we do not feel it would be proper to force hasty and irrevocable decisions with respect to these segments. Further, we believe that 23 U.S.C. 103(g) must be read in pari materia with 23 U.S.C. 103 (e)(2) and (e)(4), so that the options made available by the latter provisions are not foreclosed by an unnecessarily strict interpretation of the former. We have amended a later section, § 476.106, to incorporate language expressing the sense of urgency that the problems of controversial segments be faced and resolved. Finally, we do not think it practicable to establish time limitations within which the substitution options must be exercised, other than those already contained in the law. With respect to transit substitutions, the law requires that substitute funds be obligated by June 30, 1981. The Cramer-Howard provision contains no such deadline, and should remain available as an option until the Interstate System is completed, to allow alterations to be made should circumstances require.

Section 476.106 discusses the information that must be supplied to the Federal Highway Administration by June 17, 1974, with respect to Interstate segments to which the Subpart is applicable. Under the proposed regulations, the reporting date was June 1, 1974. However, due to delay in publication of these final regulations, we have changed the date to June 17, 1974. Several commentators, including the House Public Works Committee, objected to this section on the basis that it does not properly reflect the intent of Congress, either because it does not require notification of a State's intent to construct the segment, with all other segments being removed from the Interstate System, or because it does not provide for direct expression of intent to substitute mass transit projects.

As discussed above, we have amended § 476.106 to clarify that the necessary notifications are to be made in good faith, thereby requiring that they be the best result of due deliberation and considered judgment, not mere pro forma statements. However, after reconsideration, we have decided not to alter the content of the required notification. We share the congressional concern that plans for controversial segments be settled as quickly as possible and have adopted § 476.106 in order to meet that concern. We believe that our procedure for implementing 23 U.S.C. 103(g) will, by permitting the States to provide an assessment of an unsettled intent to construct, provide us with more accurate information. If a simple notification of intent to construct were required, the States would be inclined to omit discussion of substitution proposals and announce an intent to construct in order to preserve a segment on the system. Our regulations recognize, as does title 23, that a State's true intent may well be to construct a segment if a substitution or some alternate highway project proves impossible to implement. We have therefore chosen to emphasize the informational aspects of the 1974 reporting date rather than requiring unreliable notifications of intent to construct that would be submitted to preserve future options.

Several other comments on § 476.106 need mention. One comment asked that the regulations define who is to act as the "State" in making the required submissions. The statute uses the term "State", and we have not chosen to define this term further. We anticipate that in some cases the submission will be from the Governor and in other cases from the State highway department, depending on local variations in authority and decision making apparatus. Another comment asked that the views of local officials be included in the submission, so that formal expressions of opposition to construction of a segment could be made part of the record. The Department of Transportation encourages local officials to express and submit their views on Interstate projects at any time. We feel that requiring these views as part of the notification of intent would result in delay and "red tape" if imposed at this time.

Section 476.108 requires that a schedule for construction, an assurance that the schedule will be met, and supporting material be submitted to FHWA by July 1, 1975, with respect to each Interstate segment to which these regulations are applicable. Several comments were addressed to the supporting material which the regulations require. One comment said that this material is not required by law and constitutes "red tape". We believe, however, that these supporting materials are essential for establishing a proper administrative record with respect to the affected segments, and are of such a nature as to be readily available. Therefore, we have not adopted this comment. Another comment said it was inconsistent to include a discussion of the status of the Environmental Impact Statement (EIS) as part of the supporting materials when a schedule for an assurance of construction could not properly be submitted prior to completion of the EIS. We have not adopted this comment, because we feel it is based on a misconstrual of the purpose and effect of the required 1975 submission. That submission is for programming purposes, and does not represent a decision to build the segment. The schedule will be based on the expectation that an EIS will be carefully reviewed by the responsible officials before decisions are made on design and location of any proposed major highway project. An EIS normally includes an analysis of alternatives to a proposed project, including the possibility of not constructing a project at all.

Section 476.110 details the action which FHWA will take if the States do not submit the required information with respect to affected Interstate segments. At the suggestion of the House Public Works Committee, we have added a new paragraph (d) which makes clear that the mileage from segments removed from the Interstate System because of a State's failure to submit the required information is available for designation on the Interstate System in accordance with the usual Interstate designation procedures. One comment on this section requested that FHWA take into account the possibly incomplete status of local transportation control strategies being developed to meet clean air standards before removing segments in 1975. In response to this comment, we reiterate that the information submitted by July 1, 1975, will not represent a decision to build the particular seg-

V39 114 JUN 12 74 XUM

ment. Rather, it is programing information based on the expectation that all controversies and problems surrounding the segment will be resolved and the segment subsequently constructed. If air quality transportation control strategies have not been finalized by July 1, 1975, the States should submit the required information based on their good faith estimation of the eventual results of the strategies. A final decision on these issues will be made, after consultation with the Environmental Protection Agency, at the time of project approval. Finally, one commentator requested that, in the event a State failed to make the required submissions, responsible local officials be given a 30-day period to prepare and submit a mass transit substitute proposal. We do not believe the law contemplates such a procedure.

SUBPART C

Subpart C contains the regulations implementing 23 U.S.C. 103(e)(2), commonly known as the Cramer-Howard Amendment, which allows a State to request withdrawal of an Interstate segment and to use the mileage of that segment as well as a limited amount of additional mileage for substitute or additional segments. This Subpart produced fewer comments than the others, but a few changes have been made and several of the comments merit discussion.

Section 476.202 establishes which Interstate segments may be withdrawn and used as the basis of Cramer-Howard transfers. Two commentators, including the House Public Works Committee, expressed disagreement with our conclusion that Interstate segments selected and approved prior to August 13, 1973, were eligible segments. They believe that the eligibility date is January 2, 1968, when the Cramer-Howard Amendment was first enacted. This position is based on the fact that section 103(e)(2) of title 23, United States Code, was not reenacted in whole in the Federal-Aid Highway Act of 1973; rather, section 137(a) of the 1973 Act made several specific amendments to 23 U.S.C. 103(e)(2). The language establishing eligible segments as those "* * * selected and approved in accordance with this title prior to the enactment of this paragraph * * *" was not amended by section 137(a) of the 1973 Act.

A legal opinion prepared by FHWA on the question of the eligibility date for Cramer-Howard transfers concluded that valid precepts of statutory construction could support either interpretation of the eligibility date, and that under such circumstances the agency should use its discretion to adopt that interpretation which better furthers the needs of the Interstate program and the general purposes of the statute. On the one hand, a traditional rule of statutory interpretation is that language which is left unchanged by amendatory legislation is not to be considered as having been altered. New language is to be read back into the Act, and the statute or provision then read as if originally enacted in the amended form. If this traditional approach were followed, 1968 would be the operative date in 23 U.S.C. 103(e)(2). However, another basic principle of statutory interpretation is that an act is to be read as a whole, so as to carry out the legislative intent and further the purposes of the legislation. The legal opinion concluded that Congress, by increasing the Cramer-Howard additional mileage through section 137(a) of the 1973 Act, recognized that the need remains for the Interstate segment flexibility which was the original impetus for the Cramer-Howard provisions. Since this need may well exist with respect to segments selected and approved after January 1968, the opinion concluded that it would best further the legislative and statutory purposes to allow the FHWA to withdraw approval of those routes. We have reconsidered this opinion, and conclude that its reasoning is valid. Accordingly, we have not changed the Cramer-Howard eligibility date in these regulations.

We have, however, amended § 476.202 to further clarify which segments are eligible. One comment suggested that segments which were selected, approved, or withdrawn prior to August 1973, be eligible. We do not believe that Congress intended that segments which were withdrawn at an earlier date, for reasons unrelated to the Cramer-Howard provision, could now be used as a basis for a Cramer-Howard transfer. Accordingly, we have added a new paragraph (b) to § 476.202 which clarifies that a segment must have been a designated part of the Interstate System as of August 13, 1973, in order for it now to be used as the basis for a Cramer-Howard transfer. Similarly, we have added a new paragraph (c) to § 476.202 to clarify that segments are not eligible which were designated as a part of the Interstate System under 23 U.S.C. 139(a), which allows existing routes on the Federal-aid primary system without mileage charge to be designated as Interstate routes when the Secretary determines that designation appropriate.

Section 476.204 concerns the requirements for a withdrawal request submitted under 23 U.S.C. 103(e)(2). Several comments were addressed to the participants and their roles as established by the proposed regulations. Some comments suggested that approval of responsible local officials and local governments concerned be required for a withdrawal request, rather than the consultation with these parties which was required in the proposed regulations. Another comment objected to any role being provided for these parties. This matter was seriously considered during the formulation of the proposed regulations. There is no statutory requirement for local approval of withdrawal requests under 23 U.S.C. 103(e)(2); but we do believe that, given the interrelation of the various statutory provisions covered by these regulations, it is appropriate to require consultation at the local level to assure that local governments will be heard before a decision that vitally concerns them is made. Accordingly, we have not amended this portion of § 476.204.

Another comment suggested that, where the Interstate segment being considered for withdrawal has a present or planned transit component, such as a rail line in the median, the concurrence of the affected transit agency should be required for a withdrawal request. There is no statutory authority for requiring concurrence under these circumstances. We do agree, however, that the affected transit agency or operator be consulted prior to submission of a withdrawal request for a segment which has a transit component and have amended § 476.204 accordingly.

Finally, we have made technical changes in § 476.204(b) concerning the supporting material required in a withdrawal request. A withdrawn segment cannot become a part of the Interstate System, and a statement to this effect must accompany the withdrawal request. The technical change made in § 476.204(b)(1)(i) clarifies one of the necessary bases for making this statement. The withdrawal request must discuss the reasons why the segment will not be completed as a part of the Interstate System or, although technically completed, cannot become a functional part of the Interstate System. This amendment makes clear that a segment which is partially constructed or even technically completed is eligible for withdrawal under 23 U.S.C. 103(e)(2) if it is not essential to a unified and connected Interstate System and if it is either not going to be completed as a part of the System, or although completed, cannot for other reasons become a functional part of the System.

Section 476.206(b) provides that a request for a substitute or additional Interstate segment under 23 U.S.C. 103(e)(2) can be combined with a request for substitute mass transit projects under 23 U.S.C. 103(e)(4). Section 476.312 also provides for such combination proposals. Several comments asked that the regulations cover the parameters and mechanics of these combination proposals or expressed confusion about them because mileage from segments withdrawn under section 103(e)(2) is available for use in substitute segments in the same State, while mileage from segments withdrawn under section 103(e)(4) is available for designation only in other States. We do not feel it necessary to specify in these regulations the programmatic details of combined proposals; these details will depend on the individual proposals. However, because of the different statutory requirements attaching to the mileage from segments withdrawn under the two provisions, it will be necessary for a combined proposal to identify which portion of the withdrawn segment is to be utilized for purposes of a Cramer-Howard substitute or additional segment, and which portion is to be utilized for purposes of substitute mass transit projects.

Section 476.212 provides that all the provisions of title 23, United States Code, apply to substitute and additional segments approved under 23 U.S.C. 103(e)

(2) except that the total Federal cost for those segments cannot exceed the total Federal share of the cost for the segments which are withdrawn, as the cost is included in the 1972 Interstate System Cost Estimate. Paragraphs (b) and (c) of § 476.212 cover what happens when the requested substitute or additional segment costs either less or more than the segment which has been withdrawn. Several comments reflected confusion about the cost limitation on Cramer-Howard transfer segments. We have made a technical change, removing the term "currently estimated" from paragraph (a) to avoid this confusion. There is an aggregate limitation on the costs of Cramer-Howard transfer segments, based on the 1972 Cost Estimate costs of all segments withdrawn under 23 U.S.C. 103(e)(2). Under the statute, these transfer segments are not entitled to the usual cost escalation procedures provided for regular Interstate segments through periodic revision of the cost estimates. By virtue of the Cramer-Howard Amendment, States can obtain additional mileage for Interstate segments, but the Federal participation in the costs of that mileage is limited to 1972 Cost Estimate levels. For purposes of establishing the limit for each substitute and additional segment, so as to allow sound programming of Cramer-Howard transfers, the State must submit current estimates for costs of requested Cramer-Howard transfer segments. Those figures will be used for defining the permissible Federal cost for each such segment.

SUBPART D

The regulations in Subpart D implement 23 U.S.C. 103(e)(4), which allows public mass transit projects to be substituted for Interstate segments under certain conditions. A number of comments received on the proposed regulations indicated the need to clarify a number of the sections of this Subpart with respect to two general areas of concern.

First, several comments expressed confusion about whether more than one mass transit project could be substituted for a withdrawn segment. One or more substitute transit projects may be proposed, the only limitation being one of cost. By virtue of 23 U.S.C. 103(e)(4), a certain amount of money becomes available for substitute transit projects upon and by virtue of withdrawal of an Interstate segment. This money may be used all in one project, in several projects, or in one or more phases of one or more projects. Accordingly, amendments have been made to §§ 476.206, 476.304, 476.306, 476.308, 476.312, 476.314, and § 476.316 to clarify this matter.

The second general areas of concern reflected in the comments is the possibility of using funds obtained through the regular grant program of the Urban Mass Transportation Administration in combination with funds available for transit projects under 23 U.S.C. 103(e)(4) by virtue of a withdrawn Interstate segment. The law specifically contemplates such combinations, by providing that the funds made available under 23 U.S.C. 103(e)(4) are supplementary to those funds available under the Urban Mass Transportation Act of 1964. The proposed regulations did not adequately convey that fact. Whenever the funds available by virtue of the withdrawn segment would not be sufficient to provide 80 percent of a substitute transit project, supplementary financial assistance can be applied for from the Urban Mass Transportation Administration. Any UMTA funds received are not subject to the cost limitation which affects the funds available under section 103(e)(4). However, it should be noted that there is and can be no guaranteed supplementary assistance from UMTA Act funds for these substitute transit projects. Amendments have been made to §§ 476.306, 476.312, 476.314, and § 476.316 of these regulations to clarify this matter.

Section 476.304 concerns the request to withdraw an Interstate segment under the provisions of 23 U.S.C. 103(e)(4). Several comments were addressed to the parties to this withdrawal request, which under the regulations is to be submitted jointly by the Governor and local governments concerned, with the concurrence of responsible local officials. Two comments suggested that transit operating officials should have a role in the withdrawal request; another comment suggested that concurrence of responsible local officials not be required. We do not believe it necessary or appropriate to specifically involve transit operating officials in the withdrawal request; we do, however, believe it essential for responsible local officials to be involved, since they will concurrently or subsequently be involved in substitute transit project determinations.

One comment proposed that § 476.304 be revised to detail the procedure by which the withdrawal request is coordinated between the Governor and the local governments concerned, and to require that disagreements about the essentiality of the segment be formally articulated. We have not adopted this comment. These decisions are to be made at the State and local level, and the specific arrangements and determinations must be cooperatively worked out at that level. The Federal Government will not be an arbiter in these matters of State and local decision making.

Section 476.306 concerns the approval of a request to withdraw a segment. Several questions were raised concerning the finding which must be made that the segment is not essential or would no longer be essential because of substitute mass transit projects. In order to clarify the elements of essentiality, we have added a reference to 23 U.S.C. 103(e)(1) which describes the nature and purpose of the Interstate System. In response to a comment from the House Public Works Committee questioning the validity of a determination that a segment would no longer be essential because of mass transit projects, we have rewritten § 476.306(a)(2) to clarify the circumstances under which this determination could be made. Where the needs of through traffic service for interstate private and commercial vehicles are or will be served by other Interstate routes, and the segment is principally important for intraurban transportation service, a determination can be made that transit projects together with the local street and highway network could provide an adequate level of intraurban service, and thus withdrawal of the segment would be permissible. The distinction between different situations may be a fine one in practice, heavily dependent on varying local circumstances. However, we believe the distinction should be expressed and that it gives effect to the statutory language of 23 U.S.C. 103(e)(4).

Finally, one comment suggested that planning agencies and processes should be considered in approving withdrawal requests. We note that this concept is already contained in the regulations, through the requirement that responsible local officials must concur in the withdrawal request, which involves coordination through the areawide transportation planning agency.

Section 476.308 concerns the development of proposals for substitute mass transit projects and the materials which must be included in those proposals. Under the draft regulations, responsible local officials were first to determine that their needs require mass transit projects in lieu of the withdrawn Interstate segment and then were to prepare the proposal for substitute projects in consultation with local transit operating officials. The proposal was then to be forwarded to the Governor for submission to UMTA. As a part of our review of the definition of responsible local officials, and in response to several comments requesting that transit operating officials be given a larger role in the substitution process, we have amended this section to provide increased flexibility in the manner in which substitute transit proposals can be initiated at the local level. Under the final regulations, responsible local officials determine that their needs require one or more substitute mass transit projects in lieu of the withdrawn Interstate segment. The actual proposal for a substitute project may be developed either by local elected officials of general purpose governments in consultation with local transit operating officials, or by local transit operating officials themselves. The proposal must then be approved by responsible local officials before it can be forwarded to the Governor for submission to UMTA.

Several other comments on § 476.308 concerned the materials which must be included in a substitute project proposal. One comment requested that we further clarify the statutory requirement that there be an assurance that the substitute projects will be fully utilized, by amending the regulations to say that the assurance is that the project will be fully utilized by the public mass transportation system. This is the statutory language, and we believe this change better expresses the Congressional intent. The full utilization determination is one that

V 39 — 114 JUN 12 74 XUM

is to be made with a system-wide perspective, rather than relating to the individual utilization of each specific project. Sections 476.308, 476.310, and 476.314 have been amended accordingly.

One comment suggested that the words "or private carriers" be added after "local transit operating officials" in § 476.308(b)(6), which discusses the assurance of full utilization and the bases of that assurance. We have not adopted this comment, since we did not intend and do not believe that the term "local transit operating officials refers exclusively to public officials. Another comment objected to § 476.308(b)(7), which makes a determination that the proposed substitute projects are in accord with and entitled to priority under the 23 U.S.C. 134 planning process a part of the locally developed proposal. The comment noted that this determination, under the statute, is to be made by the State highway department. We feel it appropriate that this determination be made initially on the local level, inasmuch as the section 134 agency is locally based. By virtue of the requirement in § 476.310(a)(2) of the regulations that the State highway department concur in this determination, that department's statutory authority is preserved.

Section 476.310 provides that the proposal for substitute mass transit projects is to be submitted to UMTA by the Governor, provided that he and the State highway department concur in certain of the determinations included in the proposal. Several comments objected to anyone but local officials being involved in the submission process. However, we believe that the regulations properly reflect the statute, which vests principal initiating and decision making powers at the local level, but also requires State level actions with respect to the section 134 planning requirements and the assurance of full utilization. A related comment asked that the regulations require that the Governor act within a specified time period on any proposal he receives, and that any nonconcurrence with respect to the planning and utilization findings be formally articulated. We have not adopted this suggestion. Again, these are matters to be worked out at the State and local level; the Federal Government has no role at this stage of a proposal's development and it would not be appropriate for the Federal Government to act as an arbiter in these matters.

Section 476.314 concerns the preconditions which a proposed substitute transit project must meet before it can be considered for approval by UMTA. One of these is that the project must serve the urbanized area from which the Interstate segment was withdrawn. One comment pointed out that there was an inconsistency between the regulations as proposed (§ 476.314(a)(1)), which said that the substitute project need not utilize the same corridor as the withdrawn segment, and the explanatory language in the preamble to the proposed regulations, which in addition stated that the substitute project need not be physically located in the urbanized area. We agree that this may have been confusing and have amended the regulations to include the language that was in the preamble. We believe this provision enhances local decision-making flexibility; there may well be situations, particularly where there are contiguous urbanized areas, where local needs will best be served by locating a substitute project in whole or in part outside of the particular urbanized area.

Section 476.316 concerns approval by UMTA of substitute transit projects. One comment asked that the regulations include a provision that UMTA procedures will apply in the administration of the projects after approval. These regulations do not cover project administration and we have therefore not adopted this comment. Nevertheless, it is correct that UMTA administrative procedures will apply to approved substitute projects. Another comment addressed the provision in this section that UMTA can approve a substitute project or a phase thereof; the commentator requested that "phase thereof" be further defined in the regulations. We use that term because it is inclusive, covering all matters of project development beyond systems planning action, and because we felt such a term was preferable to an extended list of eligible items. The term does and is intended to include such actions as preliminary engineering, design, and right-of-way acquisition. The term also recognizes that a project may contain a number of different elements which may be considered as discrete parts or phases for the purposes of obtaining Federal funds. For example, an applicant may wish to advance one phase of an overall project, such as preliminary engineering or design, while seeking funding for subsequent phases of the project at a later time or from alternative sources.

Finally, the House Public Works Committee pointed out that § 476.316(c), which provides that the State's Interstate apportionment is reduced by an equivalent amount when general funds are obligated for substitute transit projects, should be amended to clarify that this reduction only occurs when the apportionment is based on an Interstate System Cost Estimate which includes the withdrawn segment for which the transit project is being substituted. Section 476.316(c) has been amended accordingly.

Section 476.318 is concerned with the redesignation of Interstate mileage from segments withdrawn under 23 U.S.C. 103(e)(4). Such mileage is not subject to any cost limitation and can be redesignated in any State other than that from which it was withdrawn. The regulations also state, for purposes of clarity, the fact that redesignation cannot cause the overall Interstate mileage limitation to be exceeded. Several comments objected to the prohibition against redesignating the mileage in the State from which withdrawn. This was not an adminstrative decision; it is mandated by 23 U.S.C. 103(e)(4). Several comments also expressed confusion about this provision, finding it inconsistent with § 476.206(b) which is concerned with the mileage withdrawn under 23 U.S.C. 103(e)(2). As noted in the discussion under Subpart C, the statutory requirements with respect to mileage withdrawn under 23 U.S.C. 103(e)(2) and under 23 U.S.C. 103(e)(4) are different. Mileage withdrawn under section 103(e)(2) is available to the State from which withdrawn as well as to other States; mileage withdrawn under section 103(e)(4) is available only to other States. Therefore, when a proposal combining the options available under these two subsections is submitted, it will be necessary to specify which portions of the withdrawn segment are to be utilized for which purposes.

GENERAL

Several further general comments on the proposed regulations are worthy of mention. A number of comments felt that the regulations were deficient in that environmental concerns were not mentioned as factors to be considered in local decision making or in Federal approvals. Environmental concerns are normally important in these matters. It is not the purpose of these regulations, however, to detail all elements necessary for approval of specific projects.

One commentator alleged that promulgation of the regulations itself constitutes a "major Federal action significantly affecting the human environment" within the meaning of the National Environmental Policy Act, thereby requiring the preparation and circulation of an environmental impact statement on their alleged impact. It is our view that the regulations do not "significantly affect the quality of the human environment" since the regulations are essentially procedural. The impact of any actions taken pursuant to the regulation will be fully analyzed before Federal approvals of any substitute projects, highway or mass transportation, are given, in accordance with current CEQ, DOT, FHWA and UMTA regulations implementing the National Environmental Policy Act.

Another commentator wanted to know whether unanimous action was required under these regulations by responsible local officials or local governments concerned. We do not feel that unanimity is required; neither do we feel it feasible to prescribed a numerical standard for local actions. We expect that local officials will act cooperatively and that proposed actions will have the support of a substantial majority of those concerned. These decisions will often be of a political and practical nature, reflecting competing interests. The involvement of the areawide transportation planning agency will insure a certain regional perspective in the actions taken. These essentially are matters that must be worked out locally, and we do not believe Federal Government should do anything more than establish the necessary outer parameters for these local actions.

These regulations have also been amended to show their relation to the provisions of 23 U.S.C. 103(h), which authorizes the construction of a segment of the Interstate System which was a designated part of the System on June 1, 1973, and is entirely within the boundaries of an incorporated city when such city enters into an agreement with the Secretary to pay all non-Federal costs of construction of the segment. The provisions of 23 U.S.C. 103(h) will be implemented by Subpart G of Part 476 of title 23 of the Code of Federal Regulations. A proposed Subpart G was published for notice and comment in the April 24, 1974, edition of the FEDERAL REGISTER (39 FR 14517). Sections 476.102, 476.106, and 476.110 of these regulations have been amended to show the relation to Subpart G.

These regulations do not cover the disposition of Federal monies previously committed to an Interstate segment withdrawn under the provisions of 23 U.S.C. 103 (e)(2) and (e)(4). This issue will be covered in Subpart E of Part 476. A proposed Subpart E will be published in the FEDERAL REGISTER for notice and comment in the near future.

In consideration of the foregoing, and under the authority of 23 U.S.C. 103(e)(2), 103(e)(4), 103(g), 103(h), and 315, and the delegation of authority by the Secretary of Transportation at 49 CFR 1.48(b) and 1.50(f), Chapter I of title 23 of the Code of Federal Regulations is amended by adding a new Part 476 as set forth below.

Effective date. Sections 476.100, 476.102, 476.104, and 476.106 require certain actions by the several State highway departments by June 17, 1974. They have been coordinated extensively with the appropriate State officials over the past year, and we know that all State highway departments are prepared to comply. Since an immediate effective date will not impose any undue burden on any parties, these regulations are effective upon publication, June 12, 1974.

NORBERT T. TIEMANN,
Federal Highway Administrator.

FRANK C. HERRINGER,
Urban Mass Transportation Administrator.

JUNE 6, 1974.

Subpart A—General

Sec.
476.2 Definitions.

Subpart B—Required State Action Regarding Designated Segments of the Interstate System

476.100 Purpose.
476.102 Relation to Subparts C, D, and G.
476.104 Applicability.
476.106 Required State action—June 17, 1974.
476.108 Required State action—July 1, 1975.
476.110 Noncompliance—action by the Federal Highway Administrator.

Subpart C—Interstate System Modifications Under 23 U.S.C. 103(e)(2)

476.200 Purpose.
476.202 Applicability.
476.204 Withdrawal request.
476.206 Request for substitute or additional segment.
476.208 Withdrawal approval by Federal Highway Administrator.
Sec.
476.210 Approval of substitute and additional segments by Federal Highway Administrator.
476.212 Applicability of title 23, United States Code.

Subpart D—Withdrawal of Interstate Segments and Substitution of Public Mass Transit Projects

476.300 Purpose.
476.302 Applicability.
476.304 Withdrawal request.
476.306 Withdrawal approval.
476.308 Proposal for substitute public mass transit projects.
476.310 Submission of proposal for substitute public mass transit projects by Governor.
476.312 Combined proposals.
476.314 Administrators' review of proposal for substitute public mass transit projects.
476.316 Approval of substitute public mass transit projects.
476.318 Redesignation of withdrawn mileage.

AUTHORITY: (23 U.S.C. 103(e)(2), 103(e)(4), 103(g), 103(h) and 315); delegation of authority in 49 CFR 1.48(b) and 1.50(f).

Subpart A—General

§ 476.2 Definitions.

(a) Except as otherwise provided, terms defined in 23 U.S.C. 101(a) are used in this Part as so defined.

(b) The following terms, where used in the regulations in this Part, have the following meaning—

"Interstate segment" means any designated, toll-free route, or portion thereof, of the Interstate System described in 23 U.S.C. 103(e)(1) and 23 U.S.C. 103(e)(3).

"Initial basic construction" means the first physical construction to be financed with Federal matching funds apportioned under 23 U.S.C. 104(b)(5)—

(1) which is on, or directly connected with the through traffic lanes of a highway project (including grading, drainage, paving, and the construction of grade separations, interchanges, and major stream crossing structures, but not including the construction of frontage roads); or

(2) which is on an existing highway facility designated as an Interstate segment, to improve the segment to Interstate standards.

"Local governments concerned" means local units of general purpose government under State law within whose jurisdiction the Interstate segment lies, or is to be withdrawn, added, or substituted.

"Nonhighway public mass transit project" means any undertaking to develop or improve public mass transit facilities or equipment. A project must be included in and related to a program for the development or improvement of an urban public mass transit system which includes either the construction of fixed rail facilities, or the purchase of passenger equipment, or both. Passenger equipment includes buses, fixed rail rolling stock, and other transportation equipment.

"Responsible local officials" means the principal elected officials of general purpose local governments (and until January 2, 1975, the Commissioner of the District of Columbia), acting through the areawide transportation planning agency designated by the Governor.

Subpart B—Required State Actions Regarding Designated Segments of the Interstate System

§ 476.100 Purpose.

The purpose of the regulations in this Subpart is to implement 23 U.S.C 103(g), which requires that States provide certain information to the Secretary with respect to segments of the Interstate System to which these regulations apply. Failure to supply the required information may result in removal of a segment from the Interstate System.

§ 476.102 Relation to Subparts C, D, and G.

Any infomation or schedule provided to the Federal Highway Administrator under this Subpart will not prevent the State highway department; the Governor, local governments concerned, and responsible local officials; or incorporated cities from subsequently exercising the options provided by Subparts C, D, and G of this part.

§ 476.104 Applicability.

The regulations in this Subpart shall be applicable to each Interstate segment for which the State highway department has not received Federal Highway Administration authorization to advertise for bids for initial basic construction and to each proposed alternative Interstate segment substituted therefor, except that this Subpart shall not apply to District of Columbia Interstate System segments referred to in section 23(a), Federal-Aid Highway Act of 1968, 82 Stat. 815.

§ 476.106 Required State Action—June 17, 1974.

With respect to each Interstate segment to which these regulations are applicable, the State shall submit to the Federal Highway Administrator by June 17, 1974, a good faith notification that:

(a) It presently intends to construct the segment;

(b) It presently intends to construct the segment, but anticipates that:

(1) The State highway department may request withdrawal of the segment and substitution of an alternative segment as provided in Subpart C of this Part;

(2) The State highway department may request modification or revision of the segment under the provisions of 23 U.S.C. 103(e)(1) or (f);

(3) The Governor, the local governments concerned, and responsible local officials may request withdrawal of the segment and substitution of one or more public mass transit projects as provided in Subpart D of this Part; or

(4) Any combination of paragraphs (b)(1), (2), and (3) of this section may occur;

(c) It has requested withdrawal of the segment as provided in Subpart C or D of this Part; or

V39 114 JUN 12 74 XUM

(d) It anticipates that an incorporated city will file a notice of intent under Subpart G of this Part with respect to construction of a segment which is entirely within the boundaries of an incorporated city.

§ 476.108 Required State Action—July 1, 1975.

(a) Unless a request for withdrawal of the segment has been made as provided in Subpart D of this Part, the State shall submit the following to the Federal Highway Administrator by July 1, 1975, with respect to each Interstate segment or proposed alternative segment to which these regulations are applicable:

(1) A schedule for the expenditure of funds for completion of construction of the segment within the period of availability of funds authorized to be appropriated for completion of the Interstate System; and

(2) An assurance that the segment will be built according to that schedule.

(b) The schedule and assurance shall be accompanied by, and the assurance shall discuss, the following supporting material:

(1) A description of the basis for the schedule (which shall include, but not be limited to, assumed completion date, assumed funding level, and use of five year plan);

(2) A detailed analysis of the current status of the segment (which shall include, but not be limited to, hearings, environmental impact statement, and section 4(f) determination);

(3) A discussion of any controversy concerning the segment, including litigation and local opposition, together with an estimation of the probable outcome of the controversy; and

(4) A summary of any further information and considerations supporting the assurance statement, including a statement of the views of responsible local officials and local governments concerned.

§ 476.110 Noncompliance—Action by the Federal Highway Administrator.

(a) On July 1, 1974, the Federal Highway Administrator shall remove from the Interstate System any segment for which the State has not submitted a notification as provided in § 476.106, unless he finds that the segment is essential to completion of a unified and connected Interstate System or unless an incorporated city has submitted a notice of intent under Subpart G of this Part.

(b) As soon after July 1, 1975, as practicable, the Federal Highway Administrator shall remove from the Interstate System any segment for which the State has not met the requirements of § 476.108.

(c) A segment removed for noncompliance under § 476.110(b) shall not be redesignated as a part of the Interstate System except upon a finding by the Federal Highway Administrator that it is necessary in the interest of national defense or for other reasons of national interest.

(d) The mileage from segments removed from the Interstate System under paragraphs (a) and (b) of this section is available for designation on the Interstate System in accordance with the provisions of 23 U.S.C. 103 (e)(1) and (f).

Subpart C—Interstate System Modifications Under 23 U.S.C. 103(e)(2) (Cramer-Howard Amendment)

§ 476.200 Purpose.

The purpose of the regulations in this subpart is to implement 23 U.S.C. 103 (e)(2), which permits withdrawal of a segment from the Interstate System and substitution or addition of other Interstate segments.

§ 476.202 Applicability.

(a) Except as provided in paragraphs (b) and (c) of this section, the regulations in this subpart apply to Interstate segments selected and approved under title 23, United States Code, prior to August 13, 1973, at any stage of development.

(b) The regulations in this subpart shall not apply to a segment removed from the Interstate System prior to August 13, 1973.

(c) The regulations in this subpart shall not apply to Interstate segments designated under 23 U.S.C. 139(a).

§ 476.204 Withdrawal request.

(a) A request to withdraw an Interstate segment from the Interstate System shall be submitted by the State highway department, *Provided*, That:

(1) If the segment is located in an urbanized area, the request shall be submitted only after consultation with the local governments concerned and responsible local officials of that urbanized area; and

(2) If the segment has a present or planned transit component, the request shall be submitted only after consultation with the affected transit agency or operator.

(b) The request for withdrawal shall include the following:

(1) A statement that the segment will not become a part of the Interstate System, and a statement of the basis for this determination, including:

(i) Reasons why the segment is not essential to the completion of a unified and connected Interstate System (including consideration of urban routes necessary for metropolitan transportation); and

(ii) Reasons why it will not be completed as a part of the Interstate System, or cannot become a functional part of the Interstate System;

(2) A statement of mileage and cost of the segment to be withdrawn as included in the 1972 Interstate System Cost Estimate; and

(3) An assurance that a toll road will not be constructed in the traffic corridor which would be served by the segment.

§ 476.206 Request for substitute or additional segment.

(a) A State highway department may request use of the mileage withdrawn under § 476.204, or of the additional Interstate mileage authorized by 23 U.S.C. 103(e)(2), or both, for a substitute or additional segment. If the substitute or additional segment is to be located in an urbanized area, the request must be submitted by the State highway department after consultation with the local governments concerned and responsible local officials of that urbanized area.

(b) A request for a substitute or additional Interstate segment may be combined with a proposal for one or more public mass transit projects submitted under the provisions of Subpart D of this Part.

§ 476.208 Withdrawal approval by the Federal Highway Administrator.

The Federal Highway Administrator may withdraw the approval of an Interstate segment if:

(a) He determines that it is not essential to completion of a unified and connected Interstate System (including consideration of urban routes necessary for metropolitan transportation);

(b) The segment will not become a part of the Interstate System; and

(c) He receives the assurance required in § 476.204(b)(3).

§ 476.210 Approval of substitute and additional segments by the Federal Highway Administrator.

In considering requests for substitute or additional Interstate segments, the Federal Highway Administrator shall:

(a) Consult with the States and local governments concerned;

(b) Give due regard to Interstate highway type needs on a nationwide basis; and

(c) Give preference to:

(1) Segments in States in which he has withdrawn approval of other segments; and

(2) The extension of segments which terminate within municipalities served by a single Interstate route, so as to provide service entirely through those municipalities.

§ 476.212 Applicability of title 23, United States Code.

(a) All the provisions of title 23, United States Code, shall be applicable to substitute and additional mileage except that the Federal cost of any mileage requested shall not exceed the Federal cost of the mileage withdrawn as included in the 1972 Interstate System Cost Estimate except as provided in paragraph (c) of this section.

(b) If the cost of the withdrawn mileage exceeds the current estimated cost of the substitute or additional mileage requested by a State highway department, the Federal Highway Administrator may make the excess funds available for other substitute or additional Interstate segments in the same State or in other States.

(c) If the current estimated Federal cost of the substitute or additional mileage requested exceeds the permissible cost, the Federal Highway Administrator may approve the request *Provided*, That:

(1) The State highway department agrees to provide the excess cost with other than Federal-aid Interstate funds; or

(2) The Federal Highway Administrator agrees to provide the excess cost from funds available under paragraph (b) of this section.

Subpart D—Withdrawal of Interstate Segments and Substitution of Public Mass Transit Projects

§ 476.300 Purpose.

The purpose of the regulations in this subpart is to prescribe policies and procedures for implementation of 23 U.S.C. 103(e)(4), which permits the withdrawal of Interstate System segments and the substitution of public mass transit projects.

§ 476.302 Applicability.

(a) Except as provided in paragraphs (b) and (c) of this section, an Interstate segment at any stage of development may be withdrawn, and public mass transit projects substituted in lieu thereof, if:

(1) The segment is within an urbanized area as defined in 23 U.S.C. 101(a); and

(2) The segment was selected and approved as part of the Interstate System prior to August 13, 1973.

(b) The regulations in this subpart shall not apply to a segment removed from the Interstate System prior to August 13, 1973.

(c) The regulations in this subpart shall not apply to Interstate segments designated under 23 U.S.C. 139(a).

§ 476.304 Withdrawal request.

(a) A request to withdraw a segment under this subpart shall be submitted to the Federal Highway Administrator and the Urban Mass Transportation Administrator through the Federal Highway Administrator.

(b) A withdrawal request submitted under this Subpart shall:

(1) Be submitted jointly by the Governor and local governments concerned, with the concurrence of responsible local officials;

(2) Include a statement that the request is filed pursuant to 23 U.S.C. 103 (e)(4);

(3) State the reasons why the segment is not essential to the completion of a unified and connected Interstate System, under the standards of 23 U.S.C. 103(e) (1), or would not be essential after completion of one or more substitute public mass transit projects;

(4) Include a statement of intent to submit a mass transit proposal upon approval of the withdrawal; and

(5) Include an assurance that a toll road will not be constructed in the traffic corridor which would be served by the segment.

§ 476.306 Withdrawal approval.

(a) The Federal Highway Administrator may approve the withdrawal of an Interstate segment under the provisions of this subpart if:

(1) The requirements of § 476.304 are met; and

(2) He determines that the segment is not essential to completion of a unified and connected Interstate System under the standards of 23 U.S.C. 103(e)(1), or the Federal Highway Administrator and the Urban Mass Transportation Administrator determine that the needs of interstate traffic are provided for by other planned or existing Interstate segments in the area and that substitute public mass transit projects together with the local street and highway network could provide an adequate level of intraurban transportation service.

(b) When the Federal Highway Administrator approves the withdrawal of an Interstate segment under paragraph (a) of this section, an amount not to exceed the Federal share of the cost which would have been paid for the withdrawn segment (as that cost is included in the 1972 Interstate System Cost Estimate) will be available for obligation until June 30, 1981, out of the general funds in the Treasury to pay all or part of the Federal share of substitute public mass transit projects or phases thereof, provided that the substitute projects or phases thereof are approved under § 476.316.

§ 476.308 Proposal for substitute public mass transit projects.

(a) When responsible local officials determine that their needs require one or more public mass transit projects in lieu of a withdrawn Interstate segment, they shall notify the State highway department of this determination. Proposals for mass transit projects shall be developed by:

(1) Elected officials of general purpose units of government in consultation with local transit operating officials; or

(2) Local transit operating officials.

(b) The proposal for each substitute project shall include the following:

(1) A statement of the reasons for the determination that one or more substitute public mass transit projects are required;

(2) A description of each proposed substitute project;

(3) A cost estimate for each proposed substitute project, accompanied by supporting documentation;

(4) A statement of the Federal share of the cost of the withdrawn Interstate segment for which the proposed public mass transit projects are to be substituted as the cost is shown in the 1972 Interstate System Cost Estimate;

(5) Where the Federal share of the cost of the withdrawn segment is less than 80 percent of the cost estimate of the proposed substitute projects, an assurance that adequate funding to complete the projects will be provided from other sources, with a discussion of the basis of that assurance.

(6) An assurance that the proposed substitute projects will be fully utilized by the public mass transportation system, with a discussion of the relevant information provided by local transit operating officials and other bases of that assurance; and

(7) A determination that the proposed substitute projects are in accord with and entitled to priority under the 23 U.S.C. 134 planning process, with a discussion of the basis of the determination.

(c) When responsible local officials approve a proposal, it shall be forwarded to the Governor for submission to the Urban Mass Transportation Administrator in accordance with the provisions of § 476.310.

§ 476.310 Submission of proposal for substitute public mass transit projects by Governor.

(a) When the Governor receives a proposal for one or more substitute public mass transit projects from responsible local officials which meets the requirements of § 476.308, he shall submit the proposal to the Urban Mass Transportation Administrator, *Provided*, That:

(1) He concurs in the assurance that the proposed project will be fully utilized by the public mass transportation system; and

(2) The State highway department concurs in the determination that the proposed projects are in accord with and entitled to priority under the 23 U.S.C. 134 planning process.

(b) A proposal for substitute public mass transit projects may be submitted to the Urban Mass Transportation Administrator at the same time as a withdrawal request is submitted to the Federal Highway Administrator under § 476.304.

§ 476.312 Combined proposal.

(a) A proposal for one or more substitute public mass transit projects may be combined with a request for a substitute or additional Interstate segment submitted under the provisions of Subpart C of this part.

(b) A proposal for one or more substitute public mass transit projects may be combined with an application for Federal financial assistance under the Urban Mass Transportation Act of 1964, as amended. Any Federal financial assistance received under the Urban Mass Transportation Act of 1964, as amended, is supplementary to the amount that is available under the provisions of this subpart by virtue of the withdrawal of an Interstate segment, and is not constrained by § 476.316(b)(1).

§ 476.314 Administrators' review of proposal for substitute public mass transit projects.

(a) The Urban Mass Transportation Administrator and the Federal Highway Administrator shall review the proposal for one or more substitute public mass transit projects to determine whether the following criteria have been met:

(1) The proposed projects must serve the urbanized area from which the Interstate segment is withdrawn, but need not utilize the same transportation cor-

V39 114 JUN 12 74 XUM

ridor as the withdrawn segment and need not be physically located within that urbanized area;

(2) The Federal share of the costs of the proposed projects, which is to be provided under this Subpart by virtue of the withdrawal of an Interstate segment, does not exceed the Federal share of the cost of the withdrawn segment, as that cost is included in the 1972 Interstate System Cost Estimate; and

(3) The assurance that the proposed projects will be fully utilized by the public mass transportation system is satisfactory.

(b) The Urban Mass Transportation Administrators' determination that the criteria of paragraph (a) of this section have been met is a precondition to approval of a substitute public mass transit project. However, no Federal funds will be obligated to pay the Federal share of the cost of a substitute project until the conditions of § 476.316 have been met.

§ 476.316 Approval of substitute public mass transit projects.

(a) Approval of the plans, specifications, and estimates of a substitute public mass transit project, or any phase thereof, shall be deemed to occur on the date the Urban Mass Transportation Administrator approves the substitute project or phase thereof in accordance with the UMTA External Operating Manual (UMTA Order 1000.2, dated August 22, 1972). This approval of a substitute project or phase thereof obligates the United States to pay its proportional share of the cost of the project or phase thereof out of the general funds in the Treasury.

(b) The Federal proportional share of a substitute project or phase thereof is determined under the provisions of the Urban Mass Transportation Act of 1964, as amended. This Federal obligation is subject to the following conditions:

(1) The total Federal proportional share of the cost of one or more substitute public mass transit projects, which is provided under this Subpart by virtue of the withdrawal of an Interstate segment, cannot exceed the Federal share of the cost of the withdrawn segment, as that cost is included in the 1972 Interstate System Cost Estimate.

(2) No general funds shall be obligated under the provisions of this section after June 30, 1981.

(c) When Federal funds are obligated to pay the Federal share of the cost of a substitute public mass transit project or phase thereof, the State's Interstate apportionments based upon an Interstate System cost estimate which includes the withdrawn segment for which the public mass transit project is being substituted shall be reduced by the amount thus obligated.

§ 476.318 Redesignation of withdrawn mileage.

Mileage withdrawn under the provisions of this Subpart shall be available for redesignation under 23 U.S.C. 103(e)(1) without cost limitation, but subject to the following conditions:

(a) It shall not be redesignated in the State from which withdrawn; and

(b) Its redesignation shall not cause the overall Interstate mileage limitation to be exceeded.

[FHWA Docket No. 74-5]

PART 476—INTERSTATE HIGHWAY SYSTEM

Subpart G—Regulations for State Construction of Interstate Segments Located Entirely Within the Boundaries of an Incorporated City

In the FEDERAL REGISTER of April 24, 1974 (39 FR 14517), the Federal Highway Administration published a proposed new subpart G to 23 CFR Part 476, title 23 of the Code of Federal Regulations to provide procedural regulations implementing 23 U.S.C. 103(h). That section, added to title 23 by section 110(b) of the Federal-Aid Highway Act of 1973 (August 13, 1973, Pub. L. 93-87, Title I, 82 Stat. 250), authorizes the construction of a segment of the Interstate System of federal-aid highways that was a designated part of such system on July 1, 1973, and lies entirely within the boundaries of an incorporated city when such city enters into an agreement with the Secretary (by delegation, the Federal Highway Administrator) to pay all non-Federal costs of construction of the segment.

Over 150 comments were received from government agencies, citizen groups, and interested citizens, nearly all of them concerning the proposed Chicago Crosstown Expressway, I-494, an Interstate segment to which the proposed regulations would be applicable. Most of them expressed opposition to the construction of that highway, apparently assuming either that the proposed regulations would require its construction or that this Department had determined that it should be built. Neither assumption is correct. The regulations provide only procedures for implementing the Congressional decision to permit a city instead of a state to make the basic decision whether to construct an Interstate segment. Further, many appear to have been prompted by the fear that the commentors' jobs would be lost by the taking of the Taylor Forge in Cicero. We are advised by the Acting Commissioner of the Chicago Department of Public Works that the Crosstown as presently proposed would not require the taking of that plant.

The great bulk of the comments were therefore not directly relevant to the proposed regulations. They will be kept in Federal Highway Administration files, however, for consideration if and when plans, specifications, and estimates are submitted for approval of a grant of federal aid.

Substantive comments were received from the Citizens Action Program (CAP), an organization opposed to the construction of the Crosstown, the City of Chicago, the Maryland Department of Transportation, the Public Works Committee of the House of Representatives, the Illinois Department of Transportation, Region 10 (Portland, Oregon) of the Federal Highway Administration, and the Teamsters Union. In addition, the regulations were discussed in meetings with Mayor Daley of Chicago and representatives of the House Public Works Committee, a representative of the Illinois Department of Transportation, and Marshall Suloway, Acting Commissioner of Public Works for the City of Chicago. A record of each of these meetings has been included in the public docket.

The Citizens Action Program commented that the statute and enabling regulations should not apply to the Crosstown because a segment of that highway passes through the City of Cicero, Illinois, and that the Crosstown constitutes a single "Interstate segment." This comment does not require any amendment to the proposed regulations. However, it is our interpretation of the statute, and that of the House Public Works Committee, that the statute is applicable to the Crosstown as would be the proposed regulations.

The City of Chicago objected generally to the proposed regulations on the grounds that they would not permit a full substitution of a city for the State, thus enabling the city to undertake the actual construction responsibilities normally performed by the state highway agency. While we do recognize that the City of Chicago may be fully capable of exercising these functions, we do not believe that Title 23 permits such a substitution. Section 103(h) does not alter the basic state-federal relationship for the construction of federal-aid highways, except for the source of the non-federal share of construction costs and the basic decision of whether to construct. In the absence of an explicit exemption, responsibility for compliance with all the requirements of Title 23 and implementing regulations remains with the state, to which the matching 90 percent federal share is apportioned under 23 U.S.C. 104.

The City also objected that the proposed regulations do not explicitly provide that a segment for which a state has not provided the Federal Highway Administration with a notification of intent to construct under 23 U.S.C. 103(g) would not be removed from the Interstate System when a city has provided a notice of intent to sign an agreement under 23 U.S.C. 103(h). We believe that such a provision is unnecessary because section 103(h) is an explicit exemption from section 103(g). We have, however, amended § 476.110(a) in a rulemaking on section 103(g), published today in the FEDERAL REGISTER, to clarify this point. The City's further objection that a state might not provide the schedule for expenditure of funds required on July 1, 1975, by section 103(g) has been dealt with in § 476.612(a)(2), which requires that a state provide that schedule.

The City proposed several specific amendments to the regulations. First, it asked that a state's notification of intent to the Federal Highway Administrator to construct an Interstate segment also be sent to any affected city. We have adopted this suggestion, since it is the procedure most states would have followed in complying with § 476.606 in any event and will serve to simplify that requirement. With respect to § 476.610 as proposed, the City objected to the short time period in which it would be required to provide supporting material for an agreement with the Federal Highway Administrator. The House Public Works Committee made a similar comment, pointing out the exception language in section 103(h). We have accordingly made adjustments to the regulations. Under § 476.608, an incorporated city would still be required to state its intentions by July 1, 1974, primarily so that this Department can be fully informed as to state and city intentions with respect to all unconstructed Interstate segments. A new § 476.610 has been added to permit the actual signing of an agreement some time after that date. Also, after considering the City's suggestion regarding matters to be covered by the opinion of counsel described in § 476.610(b) of the proposed regulations, the requirement has been revised by modification of the language and by incorporating it in the new § 476.610.

The Secretary of Illinois Department of Transportation commented generally on the regulations. Several of his most important comments did not seek amendments to the regulations but do merit some discussion. He emphasized the support in the legislative history of the 1973 Highway Act for the proposition that the state remains responsible for all aspects of a 103(h) project, excepting only financing and the decision whether to construct. He also urged that the Federal Highway Administrator is not obliged to enter into an agreement with a city. We agree with this position, although we would point out that these regulations are intended to set forth all requirements for such an agreement. We do disagree with the Secretary on the next step, however. He alleges that full compliance with the National Environmental Policy Act, the Clean Air Act, section 4(f) of the Department of Transportation Act, and the Uniform Relocation Assistance Act must be accomplished before the Administrator can sign the agreement. That is incorrect. Compliance with all the above statutes will be accomplished as it is in all other federal-aid highway projects and will constitute, as usual, a necessary precondition to the approval of plans, specifications, and estimates under 23 U.S.C. 106. As mentioned above, until that approval is given, there is no final Federal decision to construct a highway under the provisions of Title 23, which applies in full to any project processed under these regulations.

The Secretary also asked that the regulations be amended to make explicit that the notice of intent, the agreement, and the schedule for the expenditure of funds would not impair the ability of the state, local governments, and responsible local officials to request an alternative Interstate segment or a mass transportation project under 23 U.S.C. 103(e)(2) and (e)(4). We do not feel such an amendment is necessary. Those options are open to the state, and remain open, if the city involved concurs in them. Under 23 U.S.C. 103(e)(4), a withdrawal request preliminary to a mass transit substitution must be made jointly by a governor and the local governments concerned. If one were received, it would be deemed a revocation of any agreement entered into under -03(h). A so-called Cramer-Howard transfer under 23 U.S.C. 103(e)(2) could not be approved with respect to an Interstate segment that is the subject of a 103(h) notice or agreement unless the city involved withdraws from it.

Chairman Blatnik of the House Public Works Committee stated general agreement with the proposed regulations, and suggested three improvements. He commented that the July 1 deadline of § 476.610, as proposed, was unduly short in view of the considerable informational requirements and that a simple letter of intent should suffice to begin the process resulting in an agreement between a city and the Federal Highway Administrator. We agree, as outlined above in the discussion of the City of Chicago's comments, and have described there the pertinent changes. The Chairman also stated his belief that a letter of October 23, 1973, from Mayor Daley of Chicago to Secretary Brinegar would suffice as a notification of intent under § 476.610 of the proposed regulations, and § 476.608 of the final regulations. We anticipate that, if its intentions have not changed, Chicago will submit another such letter to the Federal Highway Administrator after reviewing these final regulations.

Finally, the Chairman expressed concern over the applicability section, § 476.602, which specifies segments "normally included in a single location study." That section gives effect to the legislative intent expressed in the course of debate in the Senate and in the basic provision, in section 103(e) of Title 23, for a unified and connected Interstate System. We are certain that the Chairman's intent will be fully recognized in the implementation of these regulations under the originally proposed applicability section, and have therefore not amended it.

The Secretary of the Maryland Department of Transportation simply reiterated the earlier position of the state departments of transportation that section 103(h) does not alter basic federal-state relationships in the Federal-aid highway program. He also expressed the opinion that the regulations would be little used.

Two additional substantive comments received after the close of the comment period have also been taken into consideration. Both comments, one from the Office of Environment and Design of the Federal Highway Administration's Region 10 in Portland, Oregon, the other from the General President of the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers, urged that § 476.608 be amended to require that the states notify cities only when they do not intend to construct a segment. They felt notification when the state does intend to construct a segment would be unnecessary and wasteful. We believe it is important that there be no doubt in the minds of city officials of a state's intentions with respect to Interstate segments. We have, however, amended the section to require only a copy of the notification the state must submit to the Federal Highway Administrator under § 476.106.

The Teamsters also suggested that the regulations make explicit that the failure of a state to notify under 23 U.S.C. 103(g) will not preclude city action under section 103(h). We believe this is clear on the face of the regulations, and have therefore not amended them in this regard. The Teamsters also made several points clarified in the discussion above, including the informational requirements and deadline in § 476.610 and the status of the City of Chicago's letter of October 23, 1973.

In consideration of the foregoing, and for the reasons discussed in the preamble to the proposed regulations, 39 FR 14517 (April 24, 1974), Part 476 of Subchapter E of 23 CFR Chapter I, is hereby amended by adding a new Subpart G as set forth below.

NORBERT T. TIEMANN,
Federal Highway Administrator.

JUNE 6, 1974.

Subpart G—Regulations for State Construction of Interstate Segments Entirely Within the Boundaries of an Incorporated City

Sec.

476.600 Purpose.
476.602 Applicability.
476.604 Interstate segments must connect to the System.
476.606 State must notify city of intentions regarding construction.
476.608 City's notice of intent to construct Interstate segment.
476.610 Agreement.
476.612 State Responsibility.

AUTHORITY: (23 U.S.C. 103(h), 23 U.S.C. 315), and 47 CFR 1.48(b).

§ 476.600 Purpose.

The purpose of this part is to implement section 103(h) of Title 23, United States Code.

§ 476.602 Applicability.

The regulations in this Subpart shall be applicable to any Interstate segment that was, on June 1, 1973, a designated part of the integrated and connected highway system described in 23 U.S.C. 103(e)(1) of substantial length between logical termini (major crossroad, population centers, major traffic generators, or similar major highway control elements) as normally included in a single location study.

§ 476.604 Interstate segments must connect to the system.

Individual segments that cross the boundary line between contiguous States or cities are to connect at the boundary line.

V 39 114 JUN 12 74 XUM

§ 476.606 State must notify city of intentions regarding construction.

Each State must provide, on or before June 17, 1974, to those incorporated cities that have Interstate segments entirely within their boundaries a copy of assurances provided to the Federal Highway Administrator with respect to such highways under 23 U.S.C. 103(g) and 23 CFR 476.106.

§ 476.608 City's notice of intent to construct Interstate segment.

(a) An incorporated city desiring to avail itself of the benefits of section 103(h) of Title 23, United States Code, must, on or before July 1, 1974, submit to the Federal Highway Administrator a notice of intent to pay for construction of Interstate segments entirely within the city's boundaries.

(b) The city shall furnish to the State highway department a copy of its notice at the same time it is transmitted to the Federal Highway Administrator.

§ 476.610 Agreement.

(a) Any city that has filed a notification of intent under § 476.610 shall, on or before January 1, 1975, submit the following information to the Federal Highway Administrator.

(1) Opinion of the incorporated city's legal counsel that the city has the constitutional and statutory authority to embark upon such a capital improvement and that the governing body of the city has the legal authority to approve any agreement between the city and the Federal government to undertake such a project and to commit local funding.

(2) General description of the Interstate segment and city boundaries (appropriate maps may satisfy this requirement).

(3) Satisfactory assurances that the city will promptly enter into an agreement with the Federal Highway Administrator to pay all non-Federal costs of construction of such segment and of the availability and source of funds for this purpose.

(4) Any other pertinent information on the status of the Interstate segment as may be required by the Federal Highway Administrator.

(b) The Federal Highway Administrator shall take action on a city's application within 30 days of receipt of the information required in paragraph (a) of this section.

(c) When he is satisfied with a city's submission, the Federal Highway Administrator will provide it with a form of agreement, which the Administrator will sign when the agreement has been approved and executed by the city, acting through its duly authorized officials.

§ 476.612 State responsibility.

(a) Upon agreement between a city and the Federal Highway Administrator with respect to payment of the non-Federal costs of construction, the State in which the Interstate segment is located shall:

(1) Undertake construction in accordance with the provisions of Title 23, United States Code, and other applicable Federal laws and regulations, and

(2) On or before July 1, 1975, submit a schedule for the expenditure of funds for completion of construction of such segment within the period of availability of funds authorized to be appropriated for completion of the Interstate System and provide assurances that such segment will be constructed as required by § 476.108.

(b) The State may delegate the responsibility of construction to the city, subject to the approval of the Federal Highway Administrator.

Effective date. Because of the need to resolve questions about the completion of the Interstate System as quickly as possible, the relationship of the requirements in these regulations to statutory deadlines in 23 U.S.C. 103(g), the limited number of governmental agencies to which the regulations are applicable, and the relative simplicity of the requirements imposed within the next 30 days, these regulations are effective upon publication in the FEDERAL REGISTER, June 12, 1974.

Title 3—The President

EXECUTIVE ORDER 11787

Revoking Executive Order No. 10987, Relating to Agency Systems for Appeals From Adverse Actions

By virtue of the authority vested in me by the Constitution and statutes of the United States, including sections 3301 and 7301 of title 5 of the United States Code, and as President of the United States, it is ordered as follows:

Section 1. Except when otherwise provided by statute, the appeals system established by the Civil Service Commission under chapter 77 of title 5 of the United States Code, and section 22 of Executive Order No. 11491 of October 29, 1969, shall constitute the sole system of appeal for an employee who is covered by that appeals system.

Sec. 2. Executive Order No. 10987,[1] relating to agency systems for appeals from adverse action, is revoked.

Sec. 3. This order shall be effective on the 90th day after issuance and shall apply to all adverse actions effective on and after that day. However, an appeal timely filed from an adverse action effective prior to that day under an agency appeals system established pursuant to Executive Order No. 10987 shall be processed to completion under that system.

Richard Nixon

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUT), DEPARTMENT OF AGRICULTURE

PART 928—PAPAYAS GROWN IN HAWAII

Increase in Expenses for the 1974 Fiscal Period

This document increases the maximum amount of expenses which may be incurred by the Papaya Administrative Committee during fiscal 1974 to $375,288 from the currently approved maximum amount of $363,288, an increase of $12,000. The proposed action would not necessitate an increase in the current assessment rate as funds equal to the proposed increase have been allocated to the committee for research activities by the counties of Hawaii and Kauai.

Notice was published in the May 14, 1974, issue of the FEDERAL REGISTER (39 FR 17236) that consideration was being given to a proposal regarding an increase to $375,288 of the expenses previously approved for the fiscal period January 1, 1974, through December 31, 1974, pursuant to the marketing agreement and Order No. 928 (7 CFR 928) regulating the handling of papayas grown in Hawaii, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This notice afforded interested persons an opportunity to submit written data, views, or arguments with respect to the proposal. None were submitted.

(a) After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice and the recommendations thereof which were submitted by the Papaya Administrative Committee (established pursuant to the said marketing agreement and order), *it is hereby ordered*, That the provisions pertaining to expenses in paragraph (a) of § 928.203 "Expenses, rate of assessment, and carryover of unexpended funds" (39 FR 5184) be, and hereby are, amended to read as follows:

§ 928.203 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses*. Expenses that are reasonable and likely to be incurred by the Papaya Administrative Committee during the period January 1, 1974, through December 31, 1974, will amount to $375,288.

* * * * *

(b) It is hereby found that it is impracticable and contrary to the public interest to postpone the effective time hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) the increase in the budget set forth does not involve an increase in the rate of assessment heretofore established by the Secretary (39 FR 5184); (2) the said committee anticipates expenses for research in excess of that previously thought likely to be incurred; and (3) it is essential that the specification of expenses herein provided be issued immediately so the committee can proceed with planned research activities and otherwise meet its obligations and perform its duties and functions within the fiscal period in accordance with the said marketing agreement and order.

Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: June 10, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74–13615 Filed 6–12–74;8:45 am]

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—LOANS PRIMARILY FOR PRODUCTION PURPOSES

[FmHA Instruction 441.2]

PART 1832—EMERGENCY LOANS

Subpart A—Emergency Loan Policies and Authorizations

ELIGIBILITY REQUIREMENTS

Section 1832.5 of Chapter XVIII, Title 7, Code of Federal Regulations (38 FR 20245; 39 FR 3667; 39 FR 787) is amended. The major change is the deletion of paragraph (f) which requires an applicant to be unable to obtain sufficient operating credit from local conventional sources to be eligible for an Emergency loan. This requirement has been revoked by Pub. L. 93–237. Section 1832.5 (c)(1)(i) is primarily revised to provide for the use of Form FmHA 441–26, "County Supervisor's Calculations and Verification of Qualifying Production Losses," and to provide the instructions for calculating an applicant's production losses. Other minor clarifying and editorial changes have been made in this section including the deletion of paragraph (g), the terms of which are covered in other regulations.

In accordance with 5 U.S.C. 553 this amendment is being published without notice of proposed rulemaking since it primarily implements provisions of Pub. L. 93–237 and any delay in implementing the provisions of the Pub. L. by this regulation would be contrary to the public interest.

The amended § 1832.5 reads as follows:

§ 1832.5 Eligibility requirements.

To be eligible for an EM loan, an applicant must:

* * * * *

(b) Be an established farmer, rancher, or oyster planter doing business as an individual, partnership, joint venture, or corporation with a reasonably good past record of operations, whether owner-operator or tenant, that manages the farming, ranching, or oyster planting operations. If the applicant is a partnership or corporation, it must be engaged primarily in farming, ranching, or oyster planting and the operation(s) must be managed by one of the partners or stockholders. An applicant who does not devote full time to his farming, ranching, or oyster planting operations may be considered as the manager: *Provided*, That he (or the managing partner or stockholder) visits the farm or ranch at sufficiently frequent intervals to exercise control and see that the operations are being carried on properly.

(c) Operate in a county(s) where EM loans have been authorized under a major disaster declaration by the President as outlined in § 1832.3(a); or natural disaster designation by the Secretary as outlined in § 1832.3(b); or State Director's isolated production loss authorization as defined in § 1832.3(c). Have suffered qualifying production losses or property damages in one or more such counties which were directly related to the disaster that brought about the EM loan authorization for the county(s). Also, it must be established that all losses or damages upon which eligibility for the loan is based were caused during the time period established for the occurrence of the disaster. (This is the incidence period.)

(1) Production losses must have been substantially greater than would be expected from normal fluctuations in yields. In making this required determination about production losses, consideration will be given to the applicant's total farming operations. He will be required to furnish information on Form FmHA 441–22, "Certification of Disaster Losses," showing the production in each of his crop and livestock enterprises during the year of the disaster and the two

V39 115 JUN 13 74 XUM

preceding crop years; and an explanation of how and when the disaster caused his production losses. If the production was not normal for any of the three years, then the applicant must also furnish such information for his most recent normal year. An applicant meets this eligibility requirement only if his production losses which are not compensated for by insurance or otherwise are the equivalent of 10 percent or more of the dollar value of normal production for his total farming or ranching enterprises.

(i) To establish eligibility, County Supervisors must convert the applicant's total production after the disaster to gross income, adding thereto any insurance or other compensation which may be claimed for these losses, and also calculate his gross income from total production for his most recent normal year. The disaster year figure must be subtracted from the normal year figure to calculate the "loss value" in dollars. The "loss value" will then be calculated as a percentage of the total normal production gross income. This percentage must equal or exceed 10 percent for qualifying eligibility. The calculations will be recorded on Form FmHA 441–26, "County Supervisor's Calculations and Verification of Qualifying Production Losses." The gross incomes for both the disaster and most recent normal year will be calculated by using the prevailing market price in effect at the time of the disaster for each particular commodity as quoted in the State Crop Reporting Service reports. Lists of prices will be prepared by the State Director and distributed to affected County Supervisors.

(A) Where the loss from the disaster is due to a reduction in quality rather than production, the applicant will be given credit for this loss by adjusting actual production downward to compensate for any dockage in price resulting from sale of poor quality crops. Gross income will be calculated using the prices for the disaster year as set forth in paragraph (c) (1) (i) of this section.

(B) If an applicant was not farming prior to the disaster year, losses will be determined by comparing yields and gross income for the disaster year (his first year) with normal average yields and income for similar farming operations in the community where he is farming.

(C) If an applicant was conducting a farming operation during the disaster year that differs from his most recent normal year, losses will be determined by comparing yields and gross income for the disaster year with that which would have been received had a comparable farming operation been conducted during the normal year based on average yields and income for similar farming operations in the community where he is farming.

(ii) When the applicant has a livestock operation and his pasture, grazing, or feed-crops are damaged by a qualifying disaster, his eligibility may be determined by establishing a dollar value for such loss. This amount plus any other production losses from the same disaster must be 10 percent or more of his normal production year gross income from his total farming operation.

* * * * *

(iv) When crops that were destroyed by a qualifying disaster are to be replanted with a substitute crop of the same or a different kind during the same crop year, the applicant may claim production costs that went into the destroyed crops as his loss. This cost plus any other production losses from the same disaster, must be 10 percent or more of the applicant's normal production year gross income from his total farming operation.

* * * * *

(4) Damages or losses not compensated for by insurance or otherwise to: Farm or ranch dwellings including home equipment, furnishings, and personal possessions; farm service buildings and facilities; land and water resources; farming or ranching supplies including harvested or stored crops; and livestock essential to normal farm or ranch operations would qualify an applicant for a loan only to repair, replace, or restore such property, or to reimburse the applicant for costs incurred for such purpose. These damages or losses are considered physical losses and would not qualify the applicant for an EM loan to be used for any other purpose.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 74–518]

PART 545—OPERATIONS

Service Corporations

The Federal Home Loan Bank Board, by Resolution No. 73–1827, dated December 14, 1973, proposed amendments to paragraphs (b), (c) and (k) of § 545.9–1 of the rules and regulations for the Federal Savings and Loan System (12 CFR 545.9–1 (b), (c), and (k)), for the purpose of revising and liberalizing the limitations placed on Federal association investment in service corporations and the limitations placed on debt incurred by service corporations. Notice of such proposed rulemaking was duly published in the FEDERAL REGISTER on January 22, 1974 (39 FR 2495–2497), and allowed until February 25, 1974, for submission of comments by interested persons. On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board considers it desirable to adopt final amendments which constitute a substantial revision of the proposal, as described herein.

The first part of the proposal dealt with Federal association investment in service corporations and their subsidiaries and joint ventures. Paragraph (c) of § 545.9–1 sets forth a 1 percent-of-assets limitation for investment in service corporations and their subsidiaries and joint ventures, but exempts from this computation secured loans made under other investment authority to type "a" service corporations or to service corporations in which the association has not invested under the service corporation investment authority. The proposal would have extended this exemption to apply to all secured loans made under other investment authority to any service corporations and their subsidiaries and joint ventures, including type "b" service corporations and those in which the lender association has invested under the service corporation investment authority.

Upon further consideration, the Board believes that such unrestricted extension of the exemption is too broad, and would not sufficiently take into account the substantial increase in risk to the association of additional service corporation investment. Therefore, the amendment adopted by the Board limits the application of the exemption in several respects, as set forth in a revised and restructured paragraph (c) and a new definitional paragraph (k) (5). It is provided in subparagraph (1) of paragraph (c) that Federal associations have a 1-percent-of-assets limitation in the capital stock, obligations or other securities of service corporations, which includes all loans, secured and unsecured, and all guarantees and take-out commitments of such loans to service corporations and their subsidiaries and joint ventures. In addition, subparagraph (2) of paragraph (c) permits a Federal association, which has a net worth equal to 5 percent of its withdrawable accounts and a ratio of scheduled items to specified assets not exceeding 2.5 percent, to invest (i) 20 percent of the association's net worth in conforming loans made to service corporations or their subsidiaries or joint ventures, and (ii) 50 percent of the association's net worth, including loans made under (i) above, in conforming loans made to service corporations of which the association owns or holds with power to vote not more than 10 percent of the capital stock, or joint ventures in which the association's service corporation does not have more than a 10 percent interest. The term "conforming loan" is defined to include a loan or a portion thereof which a Federal association may make under other investment authority and any guarantee or take-out commitment of such a loan if the Federal association complies with all the regulatory requirements which would be applicable were the association itself to make the loan subject to the guarantee or commitment. The reference above to a "portion" of a conforming loan would include a loan which could have been made under other authority except for an excessive loan-to-value ratio; such loan could be partially included in the additional investment category up to the permissible loan-to-value ratio for a conforming loan.

The amendment adopted by the Board continues to exempt from the 1-percent-of-assets investment limitation all conforming loans made to type "a" service corporations and service corporations in which the lending association does not have any investment made under the authority of this section.

The second part of the proposal dealt with the limitations imposed by the Board on service corporation debt. First, the proposal would have removed the debt limitations placed on type "b–1" service corporations as set forth in old § 545.9–1(b) (3) (i) based on the diverse ownership of such entities. Type "b–1" service corporations are owned by 5 or more savings and loan associations with no one association owning more than 40 percent of the stock of such service corporation. The Board adopted this provision of the proposal without change.

Second, the Board proposed several amendments to the debt limitations placed on type "b–2" service corporations by old § 545.9–1(b) (3) (ii). A type "b–2" service corporation is a service corporation owned by less than 5 savings and loan associations or a service corporation in which one association holds more than 40 percent of its stock.

Before the present amendments, paragraphs (*a*) and (*b*) of § 545.9–1(b) (3) (ii) treating unsecured and secured debt, respectively, provided for alternative debt formulas: the lesser of (*1*) a percentage of the stockholders' assets or (*2*) a multiple of the sum of the investment in the service corporation's capital stock plus unsecured stockholder investment. The proposal would have revised such paragraphs (*a*) (*2*) and (*b*) (*2*) by including retained earnings in the calculations, so that unsecured and secured debt would be a multiple of the sum of the net worth of the service corporation plus unsecured stockholder investment, rather than only a multiple of the capital stock plus unsecured stockholder investment. The proposal also would have revised paragraph (*b*) (the secured debt provision) to exclude from the 4-times-stock - plus - unsecured - stockholder-investment limitation 75 percent of the debt secured by real estate owned by the service corporation or its subsidiaries. In addition, the proposal would have added a new paragraph (c) to § 545.9–1(b) (3) (ii) for type "b–2" service corporations engaged solely in the activities specified in § 545.9–1(a) (4) (i) (*a*). Such activities are originating, purchasing, selling and servicing "loans, and participations in loans, on a prudent basis and secured by real estate, including brokerage and warehousing of such real estate loans". Under the proposal, the debt limitation would be 20 times such a service corporation's net worth plus unsecured stockholder investment.

Upon further consideration, the Board believes it desirable to substantially revise and simplify these provisions. With regard to the alternative debt limitations set forth in old paragraphs (*a*) and (*b*) of § 545.9–1(b) (3) (ii), the amendment adopted by the Board eliminates both the "lesser of" formula and the percentage-of-association-assets alternative (as set forth in old paragraphs (*a*) (*1*) and (*b*) (*1*) of § 545.9–1(b) (3) (ii)). The amendment also (i) eliminates the exclusion of debt owed to a stockholder from the numerator in the debt computations under old paragraphs (*a*) (*2*) and (*b*) (*2*) and (ii) substitutes net worth alone as the denominator in such computations for the capital-stock-plus-unsecured-stockholder-investment provision in such old subdivisions. The effect of these revisions is to produce debt ratios consisting of total debt owed to all sources (including stockholders) as a multiple of net worth (including retained earnings) but without unsecured stockholder investment.

Further, the amendment adopted by the Board makes the following substantial changes in the amount of the limitations placed on debt which may be incurred by service corporations in which Federal associations may invest:

(1) A 2-to-1 debt ratio for unsecured loans including loans owed to a stockholder;

(2) A total 10-to-1 debt ratio (other than for paragraph (a) (4) (i) (*a*) service corporations) for both secured and unsecured loans including loans owed to a stockholder; and

(3) A 20-to-1 total debt ratio including loans owed to a stockholder for a service corporation if it and its subsidiaries are engaged solely in paragraph (a) (4) (i) (*a*) activities.

The substance of the parenthetical clause "secured debt will be deemed to be unsecured for the purposes of this subparagraph (3) to the extent that such debt exceeds the market value of any security therefor", which appeared in old § 545.9–1(b) (3) (i), would have been set forth at the end of the new paragraph (c) of proposed § 545.9–1(b) (3) (ii) by the proposal. The Board adopted the proposed addition except that it is set forth as a new paragraph (*d*) in § 545.9–1(b) (ii).

The proposal would have added the definition of the term "subsidiary" to paragraph (k) of § 549.9–1 and made a conforming change to the definition of "joint venture" in said paragraph "(k)". The term "subsidiary" would be defined to include any wholly-owned subsidiary and certain "joint ventures" of a service corporation or wholly-owned subsidiary thereof. The Board adopted the proposed addition and conforming change as proposed. In addition, in order to clarify the meaning of the terms "unsecured debt" and "unsecured loan" as used in § 545.9–1, the Board adopted a new paragraph "(6)" of said paragraph "(k)" which excludes certain accounts payable from computation as unsecured investment.

The proposal contained a redesignation of paragraphs (ii), (iii) and (iv) as (i), (ii) and (iii), respectively. The Board adopted the redesignation without change.

Accordingly, the Federal Home Loan Bank Board hereby amends said Part 545 by revising paragraphs (b) (3), (c) and (k) of § 545.9–1 thereof to read as set forth below, effective July 15, 1974.

§ 545.9–1 Service corporations.

* * * * *

(b) *Other service corporations.* In addition to investment in a service corporation which meets the requirements of paragraph (a) of this section, a Federal association which has a charter in the form of Charter N or Charter K (rev.) may invest in the capital stock, obligations, or other securities of any service corporation organized under the laws of the State, District, Commonwealth, territory, or possession in which the home office of the association is located if:

* * * * *

(3) The following limitations are complied with: (i) If less than 5 savings and loan associations (including any Federal association) hold capital stock in such corporation or one such association holds more than 40 percent of such stock, such corporation, including any subsidiary, does not incur or have outstanding at any time debt in excess of the following limitations:

(*a*) In the case of all unsecured debt (to holders of its capital stock and to others), an amount equal to 2 times its net worth;

(*b*) In the case of all debt (secured and unsecured, to holders of its capital stock and to others), except as permitted by subdivision (c) of this paragraph (b) (3) (i), an amount equal to 10 times its net worth;

(*c*) In the case of all debt (secured and unsecured, to holders of its capital stock and to others) of such a corporation, including any subsidiary thereof, engaged solely in the activities specified in paragraph (a) (4) (i) (*a*) of this section, an amount of debt equal to 20 times its consolidated net worth;

(*d*) Secured debt will be deemed to be unsecured for the purposes of this paragraph (b) (3) (i) to the extent that such debt exceeds the market value of any security therefor at the time the loan is made.

(ii) In the case of a service corporation of the type described in paragraph (b) (3) (i) of this section, the approval of the Board is required before any activity of such service corporation is performed through one or more joint ventures if a director, officer or controlling person of any savings and loan association owning any of such service corporation's capital stock has a direct or indirect beneficial interest in the joint venture.

V39 115 JUN 13 74 XUM

(iii) In the case of a servce corporation of the type described in paragraph (b) (3) (i) of this section, the approval of the Board is required for any investment.

(*a*) By a Federal association in such a service corporation or in a corporation which will become such a service corporation as a result of such investment, and

(*b*) By such a service corporation directly or indirectly through one or more wholly-owned subsidiaries or joint ventures of such service corporation

If the purpose of such investment is to acquire a going business for an amount exceeding the fair market value of the tangible net assets attributable to that business from a director or officer of a Federal association which owns any of the capital stock of such a service corporation or from an entity in which a director or officer of such Federal association has a direct or indirect beneficial interest or is a director, officer, controlling person, partner or trustee.

(c) *Amount of investment.* (1) Except as provided in paragraphs (c)(2) and (c)(3), a Federal association may not make any investment under this section if its aggregate outstanding investment in the capital stock, obligations or other securities of service corporations would thereupon exceed 1 percent of assets. The limitation in the preceding sentence includes all loans, secured and unsecured, and all guarantees or take-out commitments of such loans, to service corporations, or any subsidiaries thereof, and to joint ventures of such service corporations or subsidiaries, whether or not such Federal association is a stockholder therein.

(2) In addition to amounts which may be invested within the limitation set forth in paragraph (c)(1), a Federal association which has a net worth of at least 5 percent of withdrawable accounts and which has a ratio of scheduled items (other than assets acquired in a merger instituted for supervisory reasons) to specified assets of not more than 2.5 percent may loan additional amounts to service corporations, or any subsidiaries thereof, and to joint ventures of such service corporations or subsidiaries, as follows:

(i) An aggregate outstanding amount not to exceed 20 percent of such Federal association's net worth may be invested in conforming loans made to service corporations, or any subsidiaries thereof, and to joint ventures of such service corporations or subsidiaries;

(ii) An aggregate outstanding amount, including loans included within paragraph (c)(2)(i), not to exceed 50 percent of such Federal association's net worth may be invested in conforming loans made to a service corporation of which such Federal association owns or holds with power to vote not more than a total of 10 percent of the capital stock or to a joint venture in which the service corporations in which such Federal association is a stockholder, including the subsidiaries of such service corporations, (i) own or hold with power to vote not more than a total of 10 percent of the capital stock, or (ii) are limited partners and have contributed not more than a total of 10 percent of such joint venture's capital.

(3) The limitation set forth in paragraph (c)(1) shall not be applicable to conforming loans to any service corporation which qualifies as a service corporation under paragraph (a) of this section or to any service corporation in which the lending association does not have any investment made under the authority of this section.

* * * * *

(k) *Definitions.* As used in this section—(1) The term "joint venture" means any joint undertaking by a service corporation or a wholly-owned subsidiary thereof with one or more persons or legal entities in any form, including a joint tenancy, tenancy in common, or partnership and including investment in a corporation other than a wholly-owned subsidiary.

(2) The term "subsidiary" includes a wholly-owned subsidiary and any joint venture in which a service corporation or wholly-owned subsidiary thereof (i) owns, controls or holds with power to vote more than 25 percent of the capital stock, (ii) is a general partner, or (iii) is a limited partner and has contributed more than 25 percent of the limited partnership's capital.

(3) The terms "scheduled items" and "specified assets" have the meanings given to those terms by §§ 561.15 and 561.17 of this chapter.

(4) The term "aggregate outstanding investment" means the sum of amounts paid for the acquisition of capital stock or securities and amounts invested in obligations of service corporations less amounts received from the sale of capital stock or securities of service corporations and amounts paid to a Federal association to retire obligations of service corporations.

(5) The term "conforming loan" means a loan or portion thereof which a Federal association is authorized to make under any provision of this part other than this section. A guarantee or take-out commitment of a loan which could have been made by a Federal association as a conforming loan may be deemed to be a conforming loan for purposes of this section, if the Federal association complies with all requirements of this chapter, including appraisal and recordkeeping requirements, as though it were itself making the loan subject to its guarantee or take-out commitment.

(6) The terms "unsecured debt" and "unsecured loan" exclude accounts payable incurred in the ordinary course of business and paid within 60 days.

(Sec. 5, 48 Stat. 132, as amended; (12 U.S.C. 1464). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

Dated: June 5, 1974.

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
Secretary.

[FR Doc.74-13606 Filed 6-12-74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airworthiness Docket No. 73–SW–78,
Amdt. 39–1873]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Model 47 Series Helicopters

Amendment 39–1805 (39 FR 12244), AD 74–08–2, requires a repetitive inspection and adjustment to assure proper gap between the tie rod nut and stabilizer bar core, an inspection of the cyclic control power cylinders for proper alignment, replacement of tubes, P/N 204–010–380–1, and a daily check of the stabilizer bar tube for looseness (failure) on Bell Model 47 series helicopters. The preamble to the adopted rule invited interested persons to submit comments as they may desire on the adopted rule prior to May 6, 1974. No comments were received in response to this invitation.

The agency takes this opportunity to advise the public that Bell Model 47B, 47B–3, 47D, 47D–1, 47G and 47G–2 helicopters may be equipped with stabilizer bar assemblies, P/N 47–140–101, which use the same tube and tie rods as the assembly, P/N 47–140–248. The design of the 47–140–101 assembly is quite different from the 47–140–248 assembly and the service history of the bar assembly, P/N 47–140–101, does not require the agency to impose mandatory inspections on this assembly at this time.

Bell Helicopter Company issued a new Service Bulletin No. 47–(04–2)–74–1, dated March 21, 1974, that supersedes and cancels Technical Bulletin No. 47–(04–2)–73–2, dated December 19, 1973. Therefore, it becomes necessary to revise paragraph (c)(3) of AD 74–08–2 to include this service bulletin. In addition, the AD is being amended to specify Service Bulletin No. 47–(04–2)–74–1, or a later approved revision, as an alternate means of adjustment.

Since this amendment provides an alternate means of compliance with paragraph (c)(3) and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1805 (39 FR 12244), AD 74–08–2, is amended as follows:

1. By amending paragraph (c)(3) to read as follows:

> Assemble and install the mast control stabilizer bar assembly on the helicopter in accordance with Section III of the appropriate Model 47 maintenance and overhaul instruction manual. In addition adjust the stabilizer core bearing as specified in item 1, Bell Helicopter Co. Technical Bulletin No. 47–(04–2)–73–2, or Service Bulletin No. 47–(04–2)–74–1 or later FAA approved revision.

2. By revising the parenthetical notation of Bell service information at the end of the AD by adding the sentence "Service Bulletin No. 47–(04–2)–74–1 also pertains to the adjustment of the bearing."

This amendment becomes effective June 14, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on June 3, 1974.

HENRY L. NEWMAN,
Director, Southwest Region.

Title 32—National Defense

CHAPTER VI—DEPARTMENT OF THE NAVY

SUBCHAPTER E—CLAIMS

PART 750—GENERAL CLAIMS REGULATIONS

Miscellaneous Amendments

On November 6, 1973, Chapter XX of the Manual of the Judge Advocate General was revised and the changes made thereto were promulgated within the naval service. Those revised portions of Chapter XX having general applicability and legal effect warrant a revision of Part 750 of Chapter VI of Title 32 of the Code of Federal Regulations. Accordingly, effective June 14, 1974, Part 750 of Chapter VI of Title 32 of the Code of Federal Regulations is revised to read as follows:

1. Section 750.1 is revised to read as follows:

§ 750.1 Scope of Subpart A.

(a) General: The Judge Advocate General is responsible for administration and supervision, worldwide, of claims arising under the Federal Tort Claims Act (Subpart B of this part), the Military Claims Act (Subpart C of this part), the Nonscope Claims Act (Subpart D of this part), the Personnel Claims Act (Part 751 of this chapter), the Foreign Claims Act (Part 753 of this chapter), the Act of September 7, 1962, (§ 753.27 of Part 753 of this chapter), the Medical Care Recovery Act (Subpart A of Part 757 of this chapter), and the Federal Claims Collection Act of 1966 (Subpart B of Part 757 of this chapter).

(b) This Subpart A delineates general investigative and claims-processing requirements to be followed in the handling of all incidents and claims within the provisions of this part. Where the general provisions of this Subpart A conflict with the specific provisions of any subsequent subpart of this part, the specific provisions govern.

2. Paragraph (a) of § 750.4 is revised as follows:

§ 750.4 Investigation: Responsibility for.

(a) *Immediate responsibility.* Responsibility for the investigation of an incident normally lies with the commanding officer or officer in charge of the local naval activity which is most directly concerned, normally the commanding officer or officer in charge of the personnel involved or of the activity in which the incident occurred. Where two or more activities are involved, see section 0207 of the Manual of the Judge Advocate General. If a nonnaval activity is concerned, see § 750.3(b)(3). Such nonnaval activity should be promptly notified of the incident.

* * * * *

3. Section 750.24 (a) (7), (8), (b) and (c) are amended as follows:

§ 750.24 Single-service assignment of responsibility for processing of claims.

(a) *Applicable law.* Department of Defense Directive 5518.5 series (NOTAL) has assigned single-service responsibility for the processing of claims under the following laws:

* * * * *

(7) The Federal Claims Collection Act of 1966 (31 U.S.C. 951–953); the Act of June 1921 (31 U.S. 71), claims and demands by the Government of the United States; and

(8) Act of September 8, 1961 (10 U.S.C. 2736), advance or emergency payments (*see* Subpart E of this part).

(b) *List of countries.* Responsibility for the processing of all claims in favor of the United States cognizable under paragraphs (a) (4), (5), or (7) of this section, or against the United States cognizable under paragraphs (a) (1) through (4), (6), or (8) of this section which arise in the following countries is assigned to the military departments listed below:

(1) Department of the Army: Belgium, France, the Federal Republic of Germany, Iran, Korea, Liberia, Mali, Senegal, the Republic of Vietnam, Republic of Zaire, and as the Receiving State Office in the United States under paragraphs (a) (3) and (4) of this section.

(2) Department of the Navy: Australia, Ethiopia, Iceland, Italy, and Portugal.

(3) Department of the Air Force: Canada, Denmark, Greece, Greenland, India, Japan, Nepal, Luxembourg, Netherlands, Norway, Pakistan, Saudi Arabia, Spain, Turkey, and the United Kingdom.

(c) *U.S. forces afloat cases under $500.* Notwithstanding the provisions of subsection b above, the Department of the Navy is authorized to settle claims under $500 caused by Navy personnel not acting within scope of employment and arising in foreign ports visited by U.S. forces afloat and may, subject to the concurrence of the authorities of the receiving state concerned, process such claims without regard to international agreements described in paragraph (a)(4) of this section concerning the processing of nonscope of duty claims by receiving and sending state authorities.

* * * * *

4. Section 750.32(b) is amended as follows:

§ 750.32 Statutory authority.

* * * * *

(b) *Setoff, etc., encompassed.* The jurisdiction described in paragraph (a) of this section includes jurisdiction of any setoff, counterclaim, or other claim or demand on the part of the United States (28 U.S.C. 1346(c)).

* * * * *

5. Section 750.53(c) is amended as follows:

§ 750.53 The administrative claim.

* * * * *

(c) *Evidence and information in support of the claim.* See section 2013 for the evidence and information required to substantiate a claim. 10 U.S.C. 2733(b) (5) requires that a claim be substantiated in accordance with these regulations in order to be paid.

* * * * *

6. Section 750.55(d)(4) is amended as follows:

§ 750.55 Scope of liability.

* * * * *

(d) * * *

(4) Any claim of military personnel or civilian employees of the United States for damage to or loss, destruction, capture, or abandonment of personal property occurring incident to their service which claim is cognizable under the Military Personnel and Civilian Employees' Claims Act as amended (31 U.S.C. 240–243) and applicable regualtions (Part 751 of this chapter).

* * * * *

H. B. ROBERTSON, Jr.,
Rear Admiral, JAGC, U.S. Navy,
Acting Judge Advocate General.

JUNE 6, 1974.

PART 753—FOREIGN CLAIMS REGULATIONS

Miscellaneous Amendments

On November 6, 1973, Chapter XXII of the Manual of the Judge Advocate General was revised and changes made thereto promulgated within the naval

V39-115 JUN 13 74 XUM

service. Those revised portions of Chapter XXII having legal effect constitute a revision of Part 753 of Chapter VI of Title 32 of the Code of Federal Regulations. Accordingly, effective June 14, 1974, Part 753 of Chapter VI of Title 32 of the Code of Federal Regulations is revised to read as follows:

1. The table of contents is amended by revising the heading of § 753.6 to read as follows:

* * * * *

Sec.
753.6 Elements of damage.

* * * * *

Authority: (10 U.S.C. 2734).

2. Section 753.6 is revised to read as follows:

§ 753.6 Elements of damage.

(a) In computing damages for personal injury or death or damage to personal property, the law and local standards of the country where the incident occurred, which were in effect on the date of the accrual of the claim, will be controlling. In case of death, only one claim will be considered, and the amount approved will be apportioned to beneficiaries in the proportions prescribed by local law and standards.

3. The heading and paragraph (b) of § 753.18 are revised to read as follows:

§ 753.18 Appointment and authority of Foreign Claims Commission.

* * * * *

(b) Claims commissions may consider claims in any amount, and are hereby granted authority to approve in full or in part, or to disapprove, claims for not more than $15,000. Allowance of any claim, however, in excess of the following amounts is subject to the approval of the Judge Advocate General, Deputy Judge Advocate General, or the Assistant Judge Advocate General (Civil Law), or, with respect to claims which arise in Italy, the Officer in Charge, U.S. Sending State Office for Italy, or, with respect to claims which arise in Australia, the Officer in Charge, U.S. Sending State Office for Australia.

(1) One-officer commission—$2,500;

(2) One-officer commission composed of a member of the Judge Advocate General's Corps or a Judge Advocate of the Marine Corps—$5,000;

(3) Three-officer commission—$5,000;

(4) Three-officer commission which includes at least one member of the Judge Advocate General's Corps or a Judge Advocate General of the Marine Corps—$10,000.

4. Section 753.19(a) is amended to read as follows:

§ 753.19 Membership of Commissions.

(a) Foreign claims commissions shall consist of one or three commissioned officers of the Navy or Marine Corps whose grades and experience are commensurate with the responsibilities to be executed in carrying out the purposes of the Foreign Claims Act. An officer of another armed force may serve on a Navy claims commission only with the consent of the Secretary of his department, or his designee, but will perform his duties under the regulations set forth in this part. When a naval officer is requested to serve on a claims commission of another armed force, the immediate commanding officer of such officer is hereby designated to determine his availability pursuant to the authority of 10 U.S.C. 2734(a).

* * * * *

5. Section 753.21 is revised to read as follows:

§ 753.21 Report of proceedings.

(a) The commission shall make a written report of each claim. The report shall include:

(1) A copy of the appointing order creating the commission,

(2) The claim document,

(3) The dates of the proceedings,

(4) The amount claimed stated in the injuries, and the necessary jurisdictional into United States currency at the existing official rate of exchange on the date of initial consideration of the claim.

(5) A brief summary of the facts, including the date of incident giving rise to the claim, the date the claim was filed, the nature and extent of the damages or injuries, and the necessary jurisdictional facts,

(6) Signed statements of material witnesses or transcripts of their oral testimony for claims in excess of the commission's authority,

(7) An evaluation of applicable local laws and customs,

(8) The date the commission reached its final determination,

(9) The amount awarded, or recommended to be awarded, stated in the indigenous currency and the conversion into United States currency at the existing official rate of exchange on the date of final determination,

(10) An explanation of the basis of any recommendation in excess of the commission's authority,

(11) A release from the claimant as required by § 753.23 when an award has been accepted, or a copy of the notice of denial when the claim has been disallowed.

(b) When the commission has approved a claim which is within its final adjudicating authority, the original of the report and all allied papers shall be submitted to the appointing authority.

(c) When the commission recommends approval of a claim in excess of its adjudicating authority, a legible copy of the report and all allied papers shall be forwarded to the Judge Advocate General. The commission should retain the original of all papers for its files.

(d) When the commission has disallowed for any reason a claim within its final adjudicating authority or has recommended disallowance of a claim in excess of its final adjudicating authority, the original and one copy of the report and all allied papers shall be forwarded to the Judge Advocate General. The commission should retain one copy for its files.

(e) The commission's report will not be released or shown to the claimant without the express approval of the Judge Advocate General.

(f) When a claim cannot be adjudicated and settled within 30 days of its submission, the report required in paragraph (a) of this section, to the extent possible, shall be immediately prepared and forwarded to the Judge Advocate General with an explanation of the delay.

6. Section 753.25 is revised to read as follows:

§ 753.25 Meritorius claims in excess of $15,000.

(a) Foreign claims which cannot be settled for $15,000 or less will be promptly considered and reported to the Judge Advocate General for legal review and appropriate administrative action. The record in such proceedings shall include signed statements of material witnesses or transcripts of their oral testimony. The Foreign Claims Commission shall forward with any such claim its findings and recommendations as to the action to be taken (including its findings as to the extent and nature of the damage, injury, and/or death sustained) together with, if practicable, a statement from the owner of the property or the person injured, or the legal representative of the person killed, signifying his willingness to accept the amount so found in full satisfaction and final settlement of his claim. In all such cases, the original and two copies of the report, claim, and supporting papers shall be forwarded. The remaining copy should be retained by the commission for its files.

(b) Upon review of the file, the Judge Advocate General will forward a recommended action to the Secretary of the Navy who will determine an appropriate award. The Secretary may authorize the claims commission to pay the claimant $15,000 and thereafter certify the excess to Congress in accordance with standard procedures.

7. Sections 753.27–753.29 are revised to read as follows:

§ 753.27 Claims arising in specified foreign countries.

(a) *NATO Status of Forces and similar agreements.* The United States has ratified the NATO Status of Forces Agreement and has entered into similar agreements with other foreign countries. Article VIII of the NATO Status of Forces Agreement and certain provisions of other agreements are inconsistent with the unrestricted use of the Foreign Claims Act and its implementing regulations in certain countries. Accordingly, directives of the cognizant area commander shall be consulted and claims shall not be referred to foreign claims commissions until it has been determined that such action is consistent with the provisions of the aforementioned agreements and their implementing directives. Department of Defense Directive 5515.3 series (NOTAL) directs that, where a single service has been assigned responsibility for claims in a country or area, all claims arising under the Foreign Claims Act (10 U.S.C. 2734) and the Military Claims Act (10 U.S.C. 2733) shall normally be settled and paid by claims commissions or other claims settlement authorities appointed by the Secretary of that military department, or his designee, in accordance with the department's regulations. In countries in which the NATO Status of Forces Agreement or other similar agreement is in force, incidents which may give rise to tort claims against the United States arising from acts or omissions of naval personnel, or members of the civilian component of the naval service, including claims for death or personal injury, resulting from the navigation or operation of a ship, or from the loading, carriage, or discharge of its cargo, shall be investigated and reports shall be made in accordance with instructions promulgated by the cognizant naval commanders.

(b) *Single-service responsibility and cross-servicing.* Single-service responsibility for processing claims under this part shall be accomplished as provided in § 750.24. Where cross-servicing of claims has been accomplished, the forwarding command shall afford any assistance necessary to the appropriate service in the investigation and adjudication of such claims.

§ 753.28 Claims generated by civilian employees of the Department of Defense.

(a) Department of Defense Directive 5515.3 series (NOTAL) provides that all Foreign Claims Commissions are designated to settle and pay claims for damage caused by civilian employees of the Department of Defense other than an employee of a military department.

§ 753.29 Advance payments.

(a) Advance payments may be made pursuant to the provisions of §§ 750.70—750.73 and 750.80 of this chapter. In addition to the adjudicating authorities authorized by § 753.72 to make advance payments, all foreign claims commissions may make advance payments provided such action is approved by the commanding officer appointing the commission.

H. B. Robertson, Jr.,
Rear Admiral, JAGC, U.S. Navy,
Acting Judge Advocate General.

June 6, 1974.

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER E—SUPPLY AND PROCUREMENT

[FPMR Amdt. E–143]

PART 101–26—PROCUREMENT SOURCES AND PROGRAMS

Procurement of Vehicles

This amendment illustrates and provides instructions for the use of the June 1973 edition of GSA Form 1398, GSA Purchased Vehicle. Agencies are also advised of changed procedures when notifying vehicle manufacturers of the exact address to which motor vehicle defect notices are to be sent.

Subpart 101–26.5—GSA Procurement Programs

1. Section 101–26.501–6(b) is revised to read as follows:

§ 101–26.501–6 Forms used in connection with delivery of vehicles.

* * * * *

(b) *GSA Form 1398, GSA Purchased Vehicle.* This form is used by the contractor to indicate that preshipment inspection and servicing of each vehicle has been performed. The contractor is required to complete GSA Form 1398 (illustrated at § 101–26.4902–1398) and affix it, preferably, to the lock face or door frame of the right front door after the final inspection. The form should be left in place during the warranty period to permit prompt identification of vehicles requiring dealer repairs pursuant to the warranty.

* * * * *

2. Section 101–26.501–8(a) is revised to read as follows:

§ 101–26.501–8 Notification of vehicle defects.

* * * * *

(a) It is to the advantage of the Government to be in a position to receive promptly and take corrective action on motor vehicle defect notices thus avoiding the possibility of accidents and loss of life which could result from failure to receive safety defect notices. Timely receipt of, and action on, defect notices can also result in avoidance of costly repairs and nonavailability of vehicles because of such repairs. On newly procured vehicles the manufacturers will send "Motor Vehicle Defect Notices" to the original consignee at the consignee's mailing address shown on the vehicle delivery order. However, agency heads shall notify manufacturers of the exact address to which "Motor Vehicle Defect Notices" are to be sent when vehicles are disposed of or transferred. Notification shall be made on all 1966 or later model vehicles. In the interest of uniformity, agencies shall use the following format for either purpose. All identification information shall be annotated on the format as requested.

Format

To: (Vehicle Manufacturer) *

Information on the motor vehicles listed is submitted to enable you to comply with section 113 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1402)

Transferred—Fill in the information below on "a," "b," "c," and "d."

Disposed—Manufacturer will discontinue the address location for these vehicles. Identification of the disposed vehicles must be reported below in "a," "c," and "d."

a. Address of original owner of vehicle:

____
____
____

b. Address to which motor vehicle defect notices are to be sent:

____
____
____

c. Complete manufacturers vehicle identification.

Title 46—Shipping

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD-73-130R]

PART 160—LIFESAVING EQUIPMENT

Materials—Dee Ring and Snap Hook Assemblies and Other Instruments of Closure for Buoyant Vests

The purpose of these amendments to the Coast Guard regulations dealing with life saving equipment is to establish new specifications for materials used in the construction of instruments of closure on buoyant vests and to provide a weathering and hanging weight test for these materials. The specifications in the new regulations cover not only materials used in the construction of dee ring and snap hook assemblies, but also materials used in the construction of other types of instruments of closure. The hanging weight test portion of the new test is less stringent than the hanging weight test in the present regulations, but the new test provides for one or more weathering tests not required by the present regulations.

Interested persons were given an opportunity to participate in the making of these regulations by a notice of proposed rulemaking (notice CGD 73-130P) issued August 21, 1973, and published in the FEDERAL REGISTER on August 28, 1973 (38 FR 22980). Comments received during the comment period resulted in changes to the original proposal which were incorporated in a supplemental notice of proposed rulemaking (CGD 73-130P) issued January 10, 1974, and published in the FEDERAL REGISTER on January 16, 1974 (39 FR 2014). The public was invited to make comments on the supplemental notice.

Only one comment was received as a result of the supplemental notice of proposed rule making and it suggested that the requirement that the material be subjected to a temperature of 0°±5° F for 24 hours should not be included as a "weathering test," but should instead be a requirement for the conditions under which the hanging weight test is conducted. The Coast Guard feels, however, that to adopt the recommendation of the comment would not be consistent with the intent that the tests simulate actual conditions. When vessels operate in extremely cold climates, the temperature in the compartment where the buoyant vests are stored often is well below freezing. The cold temperature test is designed to simulate the conditions present when a person wearing the vest is pulled from the water. Water temperature in cold climates is usually warmer than the temperature of the air above. When a person puts on a vest which has been stored at cold temperature and then enters the water, the warmer water temperature will cause the temperature of the material in the vest to rise. It would be unlikely, therefore, that it would be necessary for the material to support a person while it is at the same temperature at which it was stored. A maximum time lapse of 5 minutes is allowed by the regulations between the completion of the weathering test and the beginning of the hanging weight test because it is considered by the Coast Guard to be the minimum period of time which would lapse between the time a person could put on the vest and be pulled from the water.

In consideration of the foregoing, Part 160 of Title 46 of the Code of Federal Regulations is amended as follows:

1. Paragraphs (g) of § 160.047–3, (e) of § 160.052–3, and (e) of § 160.060–3 are revoked and reserved as follows:

§ 160.047–3 Materials.

* * * * *

(g) [Reserved]

* * * * *

§ 160.052–3 Materials—Standard vests.

* * * * *

(e) [Reserved]

* * * * *

§ 160.060–3 Materials—Standard vests.

* * * * *

(e) [Reserved]

* * * * *

2. A new section, § 160.047–3a, is added to read as follows:

§ 160.047–3a Materials—Dee ring and snap hook assemblies and other instruments of closure for buoyant vests.

(a) *Specifications.* Dee ring and snap look assemblies and other instruments of closure for buoyant vests may have decorative platings in any thickness and must meet the following specifications:

(1) The device must be constructed of inherently corrosion resistant materials. As used in this section the term "inherently corrosion resistant materials" includes, but is not limited to, brass, bronze, and stainless steel.

(2) The size of the opening of the device must be consistent with the webbing which will pass through the opening.

(b) *Testing requirements.* Dee ring and snap hook assemblies and other instruments of closure for buoyant vests must—

(1) Be tested for weathering. The Coast Guard will determine which one or more of the following tests will be used:

(i) Application of a 20 percent sodium-chloride solution spray at a temperature of 95° F (35° C) for a period of 240 hours in accordance with the procedures contained in method 811 of the Federal Test Method Standard No. 151.

(ii) Exposure to a carbon-arc weatherometer for a period of 100 hours.

(iii) Submergence for a period of 100 hours in each of the following:

(*a*) Leaded gasoline.

(*b*) Gum turpentine.

(iv) Exposure to a temperature of 0°±5° F (17.6±2.775° C) for 24 hours; and

(2) Within 5 minutes of completion of the weathering test required by paragraph (b)(1) of this section, the assembly must be attached to a support and bear 150 pounds for an adult size and 115 pounds for a child size for 10 minutes at ambient temperatures without breaking or distorting.

3. New §§ 160.052–3a and 160.060–3a are added to read the same as new § 160.047–3a.

(Sec. 17, 54 Stat. 166, as amended, sec. 5, 85 Stat. 215, sec. 6(b)(1), 80 Stat. 937 (46 U.S.C. 526p. 1454, 49 U.S.C. 1655(b)(1)); 49 CFR 1.46 (b), (o)(1)) effective July 15, 1974.

Dated: June 4, 1974.

O. W. SILER,
Admiral, U.S. Coast Guard,
Commandant.

[FR Doc.74-13582 Filed 6-12-74;8:45 am]

Title 49—Transportation

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[Service Order No. 1185]

PART 1033—CAR SERVICE

Minimum Loading of Refrigerator Cars

At a Session of the Interstate Commerce Commission, Railroad Service Board held in Washington, D.C., on the sixth day of June 1974.

It appearing, that an acute shortage of mechanical refrigerator cars exists in the primary fruit and vegetable growing and shipping areas of the country; that shippers of these and other products requiring protection from heat or cold are being deprived of adequate supplies of such cars, creating great economic loss; that mechanical refrigerator cars are not being used to their full capacities; that present rules, regulations, and practices with respect to the loading and use of such mechanical refrigerator cars are ineffective; that it is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1185 Service Order No. 1185.

(a) Minimum loading of refrigerator cars: Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service.

(1) *Application:* (i) The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(ii) This order shall apply to all mechanical refrigerator cars listed in the Official Railway Equipment Register, I.C.C. R.E.R. No. 391 issued by W. J. Trezise, or reissues thereof as having mechanical designation "RP", "RPB", "RPL", "RPM" or "RLO."

(2) *Minimum Loading Requirements:* Mechanical refrigerator cars must be:

(i) Loaded to the marked weight carrying capacity of the car, or;

(ii) Loaded throughout its entire length, including the doorway area to at least eighty percent (80 percent) of its inside height as measured from the floor to the roof at the side wall of the car, whichever is the lesser.

(iii) *General Exception.* Exception to this order may be authorized to carriers by R. D. Pfahler, Chairman, Railroad Service Board, Interstate Commerce Commission, Washington, D.C. 20423, upon receipt of written or telegraphic request from the car owner. All such requests must state the origin, destination, commodity, and full route of the proposed traffic and the reason for the requested exception.

(b) *Acceptance from shipper prohibited.* No common carrier by railroad subject to the Interstate Commerce Act shall accept from shipper any loaded car for shipment that is contrary to items (i), (ii), or (iii) of section (a), paragraph (2).

(c) *Rules and Regulations Suspended.* The operation of tariffs or other rules and regulations, insofar as they conflict with the provisions of this order, is hereby suspended.

(d) *Effective date.* This order shall become effective at 12:01 a.m., June 10, 1974.

(e) *Expiration date.* This order shall expire at 11:59 p.m., July 15, 1974, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4), and 17(2)))

It is further ordcred, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement, under the terms of that agreement; and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74-13627 Filed 6-12-74;8:45 am]

[Service Order No. 1186]

PART 1033—CAR SERVICE

Distribution of Privately Owned Coal Cars

At a Session of the Interstate Commerce Commission, held in Washington, D.C., on the 6th day of June 1974.

It appearing, That an acute shortage of hopper cars exists in certain sections of the country; that shippers are being deprived of hopper cars required for loading coal to electric utility generating stations; that coal stockpiles of several utility generating stations are being depleted; and that certain car distribution regulations prescribed by the Commission in Docket 12530 (80 ICC 520 and 93 ICC 701) limit the use of privately-owned freight cars used for the transportation of coal; and that fuller utilization of shipper-owned or receiver-owned coal cars in unit train service will substantially assist in relieving the existing emergency and advance the public interest by contributing to a steady and ample supply of fuel to electric utility generating stations.

It is the opinion of the Commission that an emergency exists requiring immediate action to promote car service in the interest of the public and the commerce of the people. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1033.1186 Car Service Order No. 1186.

(a) Distribution of privately owned coal cars: Each common carrier by railroad subject to the Interstate Commerce Act shall observe, enforce, and obey the following rules, regulations, and practices with respect to its car service:

(1) Place promptly in a position for loading coal for transportation in unit train service to an electric utility generating station, without regard to the provisions of the Commission's Order in Docket 12530 (80 ICC 520 and 93 ICC 701), all coal cars owned by the shipper or consignee which are available for placement for loading and which are ordered placed by the car owner.

(2) No common carrier by railroad subject to the Interstate Commerce Act shall accept from shipper any privately owned coal cars furnished under the provisions of paragraph (1) herein, unless loaded in unit train service and consigned to an electric utility generating station.

(b) The term "Unit Train Service" used in this order means the movement of a single shipment of coal of not less than 2,500 tons, tendered to one carrier, on one bill-of-lading, at one origin, on one day and destined to one consignee, at one plant, at one destination, via one route.

(c) The term "Privately Owned Coal Cars" used in this order means any open top freight car listed in the Official Railway Equipment Register, ICC R.E.R. No. 391, issued by W. J. Trezise, or successive issues thereof, as having a mechanical designation "GA," "GB," "GD," "GH," "GS," "GT," "HM," "HK," or "HT," and which are owned or leased by either the coal shipper or the electric utility company named as the consignee.

(d) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign commerce.

(e) *Effective date.* This order shall become effective at 12:01 a.m., June 15, 1974.

(f) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., June 15, 1975, unless otherwise modified, changed, or suspended by order of this Commission.

(Secs. 1, 12, 15 and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15 and 17 (2). Interprets or applies Secs. 1 (10–17), 15 (4) and 17(2), 40 Stat. 101, as amended 54 Stat. 911; (49 U.S.C. 1(10–17), 15(4) and 17 (2)))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74-13626 Filed 6-12-74;8:45 am]

V 39—115 JUN 13 74 XUM

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-288]

PART 1915—IDENTIFICATION OF SPECIAL HAZARD AREAS

List of Communities With Special Hazard Areas

The Federal Insurance Administrator finds that comment and public procedure and the use of delayed effective dates in identifying the areas of communities which have special flood or mudslide hazards, in accordance with 24 CFR Part 1915, would be contrary to the public interest. The purpose of such identifications is to guide new development away from areas threatened by flooding. Since this publication is merely for the purpose of informing the public of the location of areas of special flood hazard and has no binding effect on the sale of flood insurance or the commencement of construction, notice and public procedure are impracticable, unnecessary, and contrary to the public interest. Inasmuch as this publication is not a substantive rule, the identification of special hazard areas shall be effective on the date shown. Accordingly, § 1915.3 is amended by adding in alphabetical sequence a new entry to the table, which entry reads as follows:

§ 1915.3 List of communities with special hazard areas.

* * * * * * *

State	County	Location	Map No.	State map repository	Local map repository	Effective date of identification of areas which have special flood hazard

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 74–139]

MANASQUAN RIVER, N.J.

Proposed Drawbridge Operation Regulations

At the request of the New Jersey Department of Transportation the Coast Guard is considering amending the regulations for the State Route 70 drawbridge across the Manasquan River at Brielle, New Jersey, to require at least 12 hours notice before the draw is required to open from 11 p.m. to 7 a.m. from December 1 through March 31. The draw is presently required to open on signal at all times. This change is being considered due to limited requirements for draw openings during this period. From 1969 through 1973 there were only 4 openings during the period in question.

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Commander, Third Coast Guard District (oan), Governors Island, New York, New York 10004. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Third Coast Guard District.

The Commander, Third Coast Guard District, will forward any comments received before July 16, 1974, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new subparagraph (6) immediately after subparagraph (5) of paragraph (f) of § 117.225 to read as follows:

§ 117.225 Navigable waters in the State of New Jersey; bridges where constant attendance of draw tenders is not required.

*   *   *   *   *

(f) * * *

(6) Route 70 bridge across the Manasquan River at Brielle, Monmouth County, New Jersey. From 11 p.m. to 7 a.m. from December 1 through March 31 the draw shall open on signal if at least 12 hours notice is given. At all other times the draw shall open on signal.

*   *   *   *   *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Dated: June 6, 1974.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Marine Environment and Systems.

[33 CFR Part 117]

[CGD 74–138]

SHIP CHANNEL, GREAT EGG HARBOR BAY, N.J.

Proposed Drawbridge Operations Regulations

At the request of the New Jersey Department of Transportation the Coast Guard is considering amending the regulations for the Route 52 bridge across Ship Channel, Great Egg Harbor Bay, to require at least 24 hours notice from 11 p.m. to 7 a.m. The draw is presently required to open on signal at all times. This change is being considered because of limited openings from 11 p.m. to 7 a.m. During the period January 1, 1969 through December 31, 1973 there were 19 openings of the draw.

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Commander, Third Coast Guard District (oan), Governors Island, New York, New York 10004. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Third Coast Guard District.

The Commander, Third Coast Guard District, will forward any comments received before July 16, 1974, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by adding a new subparagraph (6–a) immediately after subparagraph (6) of paragraph (f) of § 117.225 to read as follows:

§ 117.225 Navigable waters in the State of New Jersey; bridges where constant attndance of draw tenders is not required.

*   *   *   *   *

(f) * * *

(6–a) Route 52 bridge across Ship Channel, Great Egg Harbor Bay; New Jersey. The draw shall open on signal from 7 a.m. to 11 p.m. From 11 p.m. to 7 a.m. the draw shall open on signal if at least 24 hours notice is given.

*   *   *   *   *

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655(g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Dated: June 7, 1974.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Marine Environment and Systems.

[FR Doc.74–13580 Filed 6–12–74;8:45 am]

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74–SO–28]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter a portion of the South Carolina transition area east of Myrtle Beach AFB.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before July 15, 1974 will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, Room 916, 800 Independence Avenue, SW., Washington, D.C. 20591.

An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

As part of this proposal relates to the navigable airspace outside the United States, this notice is submitted in consonance with the ICAO International Standards and Recommended Practices.

Applicability of International Standards and Recommended Practices by the Air Traffic Service, FAA, in areas outside domestic airspace of the United States is governed by Article 12 of and Annex 11 to the Convention on International Civil Aviation, which pertain to the establishment of air navigation facilities and services necessary to promoting the safe, orderly, and expeditious flow of civil air traffic. Their purpose is to insure that civil flying on international air routes is carried out under uniform conditions designed to improve the safety and efficiency of air operations.

The International Standards and Recommended Practices in Annex 11 apply in those parts of the airspace under the jurisdiction of a contracting state, derived from ICAO, wherein air traffic services are provided and also whenever a contracting state accepts the responsibility of providing air traffic services over high seas or in airspace of undetermined sovereignty. A contracting state accepting such responsibility may apply the International Standards and Recommended Practices to civil aircraft in a manner consistent with that adopted for airspace under its domestic jurisdiction.

In accordance with Article 3 of the Convention on International Civil Aviation, Chicago, 1944, state aircraft are exempt from the provisions of Annex 11 and its Standards and Recommended Practices. As a contracting state, the United States agreed by Article 3(d) that its state aircraft will be operated in international airspace with due regard for the safety of civil aircraft.

Since this action involves, in part, the designation of navigable airspace outside the United States, the Administrator has consulted with the Secretary of State and the Secretary of Defense in accordance with the provisions of Executive Order 10854.

The proposed amendment would alter the South Carolina transition area described in § 71.181 (39 FR 440) as follows:

All between "longitude 78°31′45″ W." and "to latitude 33°19′40″ N." would be deleted and "to latitude 33°46′15″ N., longtitude 78°30′25″ W.; thence clockwise along a 25-mile radius circle centered on Conway TACAN" would be substituted therefor.

Myrtle Beach AFB, S.C., operations have increased, and more flexibility in the use of GCA patterns is required to accommodate the traffic increase. To provide this flexibility, the FAA proposes to expand the South Carolina 1,200-foot transition area by extending the radius circle to the east from 15 to 25 statute miles to provide additional airspace protection required for expansion of GCA operations.

This amendment is proposed under the authority of section 307(a) and 1110 of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a) and 1510), Executive Order 10854 (24 FR 9565) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on June 6, 1974.

CHARLES H. NEWPOL,
Acting Chief, Airspace and
Air Traffic Rules Division.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 120]

COLORADO RIVER SYSTEM

Salinity Control Policy and Standards Procedures

The purpose of this notice is to propose amendments to 40 CFR Part 120, to set forth a salinity control policy and procedures and requirements for establishing water quality standards for salinity and a plan of implementation for salinity control in the Colorado River System which lies within the States of Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming pursuant to section 303(b) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1313(b)). The Colorado River System means that portion of the Colorado River and its tributaries within the United States of America.

High salinity (total dissolved solids) is recognized as a significant water quality problem causing adverse impacts on water uses. Salinity concentrations are affected by two basic processes: (a) Salt loading—the addition of mineral salts from various natural and man-made sources, and (b) salt concentrating—the loss of water from the system through stream depletion.

Studies to date have demonstrated that the high salinity of stream systems can be alleviated. Although further study may be required to determine the economic and technical feasibility of controlling specific sources, sufficient information is available to develop a salinity control program.

Salinity standards for the Colorado River System would be useful in the formulation of an effective salinity control program. In developing these standards, the seven states must cooperate with one another and the Federal Government to support and implement the conclusions and recommendations adopted April 27, 1972, by the reconvened 7th Session of the Conference in the Matter of Pollution of the Interstate Waters of the Colorado River and its Tributaries.

As a measure to implement the recommendations of the Conference and meet the requirements of the Act, a salinity control policy is proposed to be promulgated and proposed regulations are set forth which would require the development and adoption of water quality standards for salinity and a plan of implementation for salinity control for the Colorado River System. The first step will be the establishment of procedures within 30 days of the effective date of these regulations which will lead to adoption on or before October 18, 1975, of water quality standards for salinity including numeric criteria and an implementation plan for salinity control.

In consideration of the foregoing, it is hereby proposed that 40 CFR Part 120 be amended as follows:

1. Section 120.5 is added to read as set forth below:

§ 120.5 Colorado River System Salinity Standards and Implementation Plan.

(a) "Colorado River System" means that portion of the Colorado River and its tributaries within the United States of America.

(b) It shall be the policy that the flow weighted average annual salinity in the lower main stem of the Colorado River System be maintained at or below the average value found during 1972. To carry out this policy, water quality standards for salinity and a plan of implementation for salinity control shall be developed and implemented in accordance with the principles of paragraph (c) of this section, below.

(c) The States of Arizona, California, Colorado, Nevada, New Mexico, Utah, and Wyoming are required to adopt and submit for approval to the Environmental Protection Agency on or before October 18, 1975:

(1) adopted water quality standards for salinity including numeric criteria consistent with the policy stated above for appropriate points in the Colorado River System, and

(2) a plan to achieve compliance with these standards as expeditiously as practicable providing that:

(i) The plan shall identify State and Federal regulatory authorities and programs necessary to achieve compliance with the plan.

(ii) The salinity problem shall be treated as a basinwide problem that needs to be solved in order to maintain lower main stem salinity at or below 1972 levels while the basin States continue to develop their compact-apportioned waters.

(iii) The goal of the plan shall be to achieve compliance with the adopted standards by July 1, 1983. The date of compliance with the adopted standards shall take into account the necessity for Federal salinity control actions set forth in the plan. Abatement measures within the control of the States shall be implemented as soon as practicable.

(iv) Salinity levels in the lower main stem may temporarily increase above the 1972 levels if control measures to offset the increases are included in the control plan. However, compliance with 1972 levels shall be a primary consideration.

(v) The feasibility of establishing an interstate institution for salinity management shall be evaluated.

V 39 115 JUN 13 74 XUM

(d) The States are required to submit to their respective EPA Regional Adachieving (b) and (c) above within 30 days of the effective date of these regulations. EPA will on a quarterly basis determine the progress being made in the development of salinity standards and the implementation plan.

§ 120.10 [Amended]

2. Section 120.10 is amended by adding to the paragraphs entitled "Arizona," "California," "Colorado," "Nevada," "New Mexico," "Utah," and "Wyoming" a salinity control policy and procedures and requirements for establishing water quality standards for salinity and a plan of implementation for salinity control in the Colorado River System, as promulgated in the FEDERAL REGISTER on (39 FR).

(Sec. 303(b), Pub. L. 92–500, 86 Stat. 816 (33 U.S.C. 1313(b)).)

Issued on June 10, 1974.

JOHN QUARLES,
Acting Administrator.

Proposed Table of Assignments; Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of § 73.202(b), table of assignments, FM broadcast stations. (Marco, St. Augustine, and Milton, Florida), Docket No. 20002; RM–2143; RM–2184, RM–2251.

1. On April 8, 1974, the Commission adopted a notice of proposed rulemaking in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on April 15, 1974, 39 FR 13559. The dates for filing comments and reply comments are presently May 31 and June 17, 1974, respectively.

2. On May 31, 1974, WKTX, Inc., licensee of Station WJNJ–FM, Atlantic Beach, Florida, requested that the time for filing comments be extended to and including June 21, 1974. It states that its consulting engineer needs the additional time to prepare engineering material. Counsel for the proponent in this proceeding interposes no objection to the grant of this extension.

3. We are of the view that the public interest would be served by granting the additional time. *Accordingly, it is ordered,* That the date for filing comments and reply comments is extended to and including June 21 and July 5, 1974, respectively, RM–2184 only.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: June 4, 1974.

Released: June 5, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] HAROLD L. KASSENS,
Acting Chief, Broadcast Bureau.

[47 CFR Part 97]

[Docket No. 20073; FCC 74–579]

LINKING OF AMATEUR REPEATER STATIONS

Notice of Proposed Rule Making

In the matter of amendment of Part 97 of the Commission's rules to permit linking of amateur repeater stations, Docket No. 20073, RM–2349.

1. Notice of proposed rulemaking in the above entitled matter is hereby given.

2. The Commission has under consideration a petition (RM–2349) filed by the American Radio Relay League (ARRL). Petitioner requests the Commission to issue an order deleting § 97.89(c) of the rules. This section now prohibits more than two repeater stations being operated in tandem, i.e., one station repeating the transmission of the other, except for emergency operations.

3. The ARRL claims a formal rulemaking proceeding is unnecessary in this matter, citing section 553(b) of the Administrative Procedures Act and § 1.412(c) of the Commission's rules, as authority to support their position. Pursuant to those subsections, general notice of proposed rulemaking must be published except in certain limited instances. Petitioner does not show that the proposed rule deletion comes within those exceptions.

4. In support of the requested deletion, the ARRL offers the following claims and arguments:

A. Some amateur radio organizations planning to develop networks of repeater stations for use in times of disasters are unwilling to implement their plans unless the networks can also be used for other amateur operations.

B. In the more sparsely populated areas of the country, linked repeater stations can provide more reliable communications than can operation in the high frequency amateur bands.

C. In the more densely populated areas of the country, linking of repeater stations is neither necessary nor desired by amateurs, and the privilege of linking would be self-limiting.

5. Our findings, as stated in the report and order in Docket 18803, 37 FCC 2d 225 (1972), upon review of the comments filed in that Docket, are that amateur repeater stations are useful for increasing the range of VHF and UHF vehicular and hand-held mobile stations in conducting intra-community amateur radio communications, and for effecting emergency radio communications which possibly could not otherwise be conducted on the amateur bands. Also, in the interests of spectrum conservation, we found the majority of situations could be accommodated with a maximum of two linked repeaters. In practice, these findings have been verified through information filed with applications for repeater stations. The vast majority of repeaters use considerably less effective radiated power than is permitted, indicating most amateur repeater stations are intended for local, or intra-community, use. No specific instance of even two linked repeaters for general amateur radio communications has come to our attention. However, this aspect would not normally come to our attention. We are inclined to agree with the ARRL that the prohibition is unnecessary, since in more densely populated areas, amateurs apparently do not desire to link repeater stations. In the less densely populated areas, spectrum conservation is not as critical as elsewhere.

6. Therefore, we propose to delete § 97.89(c), as shown below.

7. The specific rule changes proposed herein are set forth below. Authority for these proposed amendments is contained in section 4(i) and 303 of the Communications Act of 1934, as amended.

8. Pursuant to applicable procedures set forth in § 1.415 of the Commission's rules, interested persons may file comments on or before September 18, 1974, and reply comments on or before October 2, 1974. In accordance with the provisions of § 1.419(b) of the Commission's rules, an original and fourteen copies of all statements, briefs, and comments filed shall be furnished the Commission. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken. The Commission may also take into account other relevant information before it, in addition to specific comments invited by this notice. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.

Adopted: June 5, 1974.

Released: June 7, 1974.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 97 of Chapter I of Title 47 of the code of Federal Regulations is amended as follows:

Section 97.89, paragraph (c), is deleted and designated as [Reserved].

DEPARTMENT OF STATE

[Dept. Reg. CM–147]

STUDY GROUP 5 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL TELEGRAPH AND TELEPHONE CONSULTATIVE COMMITTEE (CCITT)

Notice of Meeting

The Department of State announces that Study Group 5 of the U.S. CCITT National Committee will meet on July 11, 1974 at 10:30 a.m. in Room 847 of the Federal Communications Commission, 1919 M Street, NW., Washington, D.C. This Study Group deals with matters in telecommunications relating to the development of the international digital data transmission service.

The agenda of the July 11 meeting will concern final consideration for contributions to the Working Group meetings of CCITT Study Groups VII and Special A of the International Telecommunication Union to be held in Geneva, Switzerland, November 20–28, 1974, and December 4–11, 1974, respectively.

If necessary, the meeting of July 11, 1974 will be continued on July 12, 1974 at 9:00 a.m. at the same location.

Members of the general public who desire to attend the meeting on July 11/12 will be admitted up to the limit of the capacity of the meeting room.

Dated: June 5, 1974.

RICHARD T. BLACK,
Chairman,
U.S. National Committee.

STUDY GROUP 1 OF THE U.S. NATIONAL COMMITTEE FOR THE INTERNATIONAL TELEGRAPH AND TELEPHONE CONSULTATIVE COMMITTEE (CCITT)

Notice of Meeting

The Department of State announces that Study Group 1 of the U.S. CCITT National Committee will meet on July 24, 1974 at 10:00 a.m. in Room 502 of the Federal Communications Commission, 1919 M Street, NW., Washington, D.C. This Study Group deals with U.S. Government regulatory aspects of international telegraph and telephone operations and tariffs.

The agenda of the July 24 meeting concerns continued preparation for participation in meetings of a Working Party of CCITT Study Group I of the International Telecommunication Union to be held in Geneva, Switzerland, October 7–11, 1974, and will include a review of word count studies already made by the participants and plans for recommendations to be made to the Study Group. Special consideration will be given to the adaptability of word counts to computerization.

Members of the general public who desire to attend the meeting on July 24 will be admitted up to the limit of the capacity of the meeting room.

Dated: June 5, 1974.

Office of the Secretary

BRAZIL, REPUBLICS OF CHINA AND KOREA, AND PERU

Invitation To Bid on Loans

Public notice of inivitation to bid by financial institutions on loans to the governments of Brazil, the Republic of China, the Republic of Korea, and Peru guaranteed by the United States under the Foreign Military Sales Act, as amended.

I. INVITATION TO BID—CLASSES OF BIDDERS

The Department of the Treasury, acting for the Department of Defense, by this notice and under the terms and conditions hereof invites bids on the interest rate on each of the following loans:

1. Government of Brazil	$11,000,000
2. Government of the Republic of China	28,800,000
3. Government of the Republic of Korea	34,000,000
4. Government of Peru	10,000,000

Each of the Governments listed are hereinafter referred to as the borrower. The loans are described in Section V hereof. Bidding hereunder shall be subject to the "Regulations Governing the Sales of Treasury Bonds Through Competitive Bidding" (31 CFR 340) insofar as applicable.

The purpose of these loans is to provide private financing for the purchase by the borrower of defense articles and services from United States sources in furtherance of the Foreign Military Sales Act, as amended, Pub. L. 90–626, October 22, 1968, 82 Stat. 1326; (22 U.S.C. 2571–2793) and Executive Order 11501, December 22, 1969, 34 FR 20169.

Bids will be received only from incorporated banks, trust companies, recognized dealers in investment securities, and other financial institutions doing business in the United States. Bids must be submitted to the Federal Reserve Bank of New York in accordance with the provisions of the last section hereof.

II. UNITED STATES GOVERNMENT GUARANTY OF LOAN

The loan agreement provides that the obligation of the lender is to be condi-

V39 115 JUN 13 74 XUM

tioned upon the issuance by the United States of a guaranty of timely payment of 100 percent of the principal and 100 percent of the interest thereon by the borrower. The guaranty will further provide that the United States agrees that any claim which it may now or hereafter have against any beneficiary for any reason whatsoever shall not affect in any way the right of any other beneficiary to receive full and prompt payment of any amount otherwise due under this guaranty.

In addition, the borrower covenants at section 5(b) of the loan agreement that

> Any claim which it may now or hereafter have against any person, corporation, firm or association or other entity (including without limitation, the United States, DOD, any Bank, any assignee of any Bank, and any supplier of the Defense items) in connection with any transaction, for any reason whatsoever, shall not affect the obligation of the Borrower to make the payments required to be made to the Undersigned under this Loan Agreement, or under the Notes, and shall not be used or asserted as a defense to the payment of such obligation or as a setoff, counterclaim, or deduction against such payments.

The guaranty, which is authorized by the Foreign Military Sales Act, will be made by the Government of the United States acting through the Department of Defense. The Act provides that "any guaranties issued hereunder shall be backed by the full faith and credit of the United States."

III. TAX EXEMPTIONS

There will be no—

(a) Federal income tax resulting from section 7.1 of the loan agreement which will provide that the borrower shall pay to the lender the guaranty fee charged to the latter by the Department of Defense; (The lender will be acting merely as a conduit.)

(b) Federal stamp tax; or

(c) Tax imposed by the borrower.

IV. THE LOAN, PROMISSORY NOTES, PARTICIPATIONS—ELIGIBILITY FOR PURCHASE BY BANKS AS COLLATERAL FOR GOVERNMENT DEPOSITS, ETC.

(a) Because the promissory notes and participations are deemed to be fully and unconditionally guaranteed obligations of the United States backed by its full faith and credit, the notes and the participations will be eligible as Federal Reserve discount collateral and, under the conditions set forth in paragraph (b) below, also will be eligible as collateral for United States Government deposits with (special depositaries of public moneys under Treasury Department Circular 92 (31 CFR 203)), and (2) depositaries and financial agents of the Government under Treasury Department Circular 176 (31 CFR 202).

(b) Section 1.4 of the loan agreement authorizes the sale of participations to legal entities doing business in the United States. Such participations will be acceptable from depositaries at their face amounts to secure deposits under Treasury Circulars 92 and 176, provided that they adequately identify the loan and meet the following conditions:

(1) The participation certificate contains the provision:

> Participant may assign or endorse over this participation certificate to the (Name of the Federal Reserve Bank or Branch of the territory in which the participant is located) in connection with a pledge of collateral security to protect United States Government deposits under Treasury Department Circulars 92 and 176. In the event that this participation certificate is assigned to (Same bank or branch as above), it shall not be further assigned or subdivided without prior written notice to that bank and the prior written consent of this bank.

(2) The participation certificate is supported by the original or certified copies of the guaranty agreement relating to the basic loan and the necessary power of attorney and resolution in favor of the Reserve Bank as prescribed in Treasury Department Circulars 92 and 176.

(3) The guaranty agreement provides that the guaranty referred to therein is transferable to any participant or beneficiary.

(c) The loan will not be subject to the lending limitations of national banks.

V. DESCRIPTION OF LOAN AGREEMENTS

The principal features of these loans are as follows:

(a) Bids are to be made on a fixed annual interest rate basis, as outlined in Section VI below.

(b) There will be a commitment fee payable semiannually of one-quarter of one percent (¼ of 1 percent) per annum on the daily average unused amount of the commitment. The commitment fee will be calculated on a 365-day basis and actual days elapsed.

(c) For each loan, there will be a commitment period from the "date of execution" of the loan agreement to and including the date shown in (f) below, or such earlier date as the entire commitment of the lender shall have been utilized. For this purpose, the "date of execution" will be the date on which the loan agreement is signed on behalf of the borrower or the date on which the Department of Defense executes the guaranty agreement, whichever is later.

(d) The minimum drawdown and principal repayment schedule under each loan agreement will be as shown in (f) below.

(e) For all loans, interest is payable on a semiannual basis as shown in (f) below until the entire principal has been repaid.

(f) Loan descriptions:

(1) Borrower: Government of Brazil. Principal amount: $11 million, repayable in seven annual payments, starting with $1.5 million each on June 30, 1976 and June 30, 1977 and $1.6 million on each June 30 following until paid. Commitment period ends December 31, 1975. Interest payments begin December 31, 1974 and on each June 30 and December 31 thereafter until entire principal is repaid. Minimum drawdown: $500,000. First drawdown by October 30, 1974. Estimated drawdowns: June–December 1974: $3.5 million; January–June 1975: $4 million; July–December 1975: $3.5 million.

(2) Borrower: Republic of China. Principal amount: $28.8 million, repayable in sixteen semiannual payments of $1.8 million each, beginning March 31, 1975 and thereafter on September 30, 1975 and each March 31 and September 30 following until paid. Commitment period ends September 30, 1975. Interest payments begin September 30, 1974 and thereafter on each March 31 and September 30 until entire principal is repaid. Minimum drawdown: $1 million. First drawdown by August 1, 1974. Estimated drawdown: June–August 1974: $13.3 million; September–December 1974: $5.5 million; January–March 1975: $4 million; April–June: $3 million; July–September: $3 million.

(3) Borrower: Republic of Korea. Principal amount: $34 million, repayable in 19 semiannual payments, starting with $1.7 million each on June 30, 1975 and December 31, 1975 and $1.8 million each on June 30, 1976 and thereafter on December 31, 1976 and each June 30 and December 31 following until paid. Commitment period ends September 30, 1975. Interest payments begin December 31, 1974 and thereafter on each June 30 and December 31 until entire principal is repaid. Minimum drawdown: $500,000. First drawdown by September 15, 1974. Estimated drawdowns: June–August 1974: $7.5 million; September–December 1974: $6 million; January–March 1975: $9 million; April–June 1975: $6 million; July–September 1975: $5.5 million.

(4) Borrower: Government of Peru. Principal amount: $10 million, repayable in 15 semiannual payments, beginning June 30, 1975 and thereafter on each December 31 and June 30 until paid, with the first five payments being $600,000 and the last ten payments being $700,000 each. Commitment period ends September 30, 1975. Interest payments being December 31, 1974 and thereafter until entire principal is repaid. Minimum drawdown: $500,000. First drawdown by September 30, 1974. Estimated drawdowns: June–December 1974: $4 million; January–June 1975: $4 million; July–September 1975: $2 million.

VI. SUBMISSION OF BIDS—ACCEPTANCE AND OPENING OF BIDS

Each bid shall be submitted in triplicate on the letterhead of the bidder. If desired, more than one bid may be included in a single letter. Each bid will be applicable to a single country and will specify the country. Each bid may be for the entire amount of the loan for a country or a portion thereof in multiples of $1 million. Each bid shall specify an annual rate of interest which shall apply on a 365-day basis only to the portion of the loan in use. The rate shall be expressed as a percent per annum not to exceed 3 decimals, for example, 7.125 percent.

Bids should be enclosed in sealed envelopes and must be received in the Securities Department of the Federal Reserve Bank of New York, 33 Liberty Street, New York, New York 10045, not later than 11 a.m., Eastern Daylight Time on June 21, 1974. By having submitted a bid, any bidder receiving an award will be deemed conclusively to have accepted all the provisions of the loan agreement and upon receipt of an award will be required to sign three copies of the loan agreement and to present those signed copies to the U.S. Department of Defense, Defense Security Assistance Agency, Room 4B659, The Pentagon, Washington, D.C., no later than noon, June 26, 1974. The Government of the United States will thereafter promptly secure the signature of the borrower to the three copies and will return one of them to any such bidder.

In the event a loan should be split by awards to more than one bidder, each drawdown and principal repayment would be divided pro rata; also, the amount of guaranty fee required from each lender would be proportional to its participation in the total loan.

Bids will be opened at the Federal Reserve Bank at 11 a.m., E.d.t. on June 21, 1974. In determining the successful bids, the best bid or combination of bids in the opinion of the borrower will be accepted.

Copies of the loan agreement, of the exhibits and of the guaranty agreement may be obtained upon request from the Department of the Treasury, Bureau of the Public Debt, Room 200, Washington Building, Washington, D.C. 20226, or by telephoning (202) 964–2992.

Date: June 6, 1974.

Further Modification of Notice of Proposed Withdrawal and Reservation of Lands

JUNE 5, 1974.

Notice of an Atomic Energy Commission application for withdrawal and reservation of lands, Serial No. N–7957, was published as FR Doc. No. 74–2557, on page 3977 of the issue for January 31, 1974, and modified by notice published as FR Doc. 74–8298, on page 13182 of the issue of April 11, 1974, is again modified as follows:

The lands requested are to be withdrawn from all forms of appropriation under the public land laws, including location under the mining laws and leasing under the Geothermal Steam Act of 1970, but not the Taylor Grazing Act nor the Mineral Leasing Act of 1920, subject to valid existing rights.

All the lands are requested to be temporarily withdrawn for a period of two years, followed by the possible identification and retention of 5,000 acres, or less of the withdrawn lands for development of a demonstration geothermal power generating facility.
